PUBLIC NOTICE

IS HEREBY GIVEN THAT IN ACCORDANCE WITH THE STATUTE IN THAT BEHALF,

THE ANNUAL MEETING

Of the Shareholders of the Little Lake Cemetery Company will be held in the COUNCIL CHAMBER, Town of Peterborough, on

Monday, 21st day of Jan, 1884

At THREE o'clock in the afternoon, for the purpose of electing Directors of the said Company for the ensuing year, for receiving reports, and such other matters and business as may be brought before the said meeting.

J. EDWARDS, Secretary-Treasurer 211-1-1-2
Peterborough, Jan. 12, 1884.

FOR SALE.

VERY DESIRABLE TOWN PROPERTY

The undersigned offers for sale his Dwelling House and Lot being subdivisions of Lots Nos. 8 and 9, west of George Street, and situated on the corner of Aymer and Dublin streets, in the town of Peterborough.

The House is one story and a half high, 34x36, with large kitchen 18x22 same height as the house. There is on the premises very convenient wood sheds, stables and other outbuildings. Pure water is conveyed through iron pipes into the house from a never failing spring on the property, and there is also a good well of water and a large cistern.

The lot is subdivided into eight parcels, suitable for building purposes, and will be sold en bloc or in parcels to suit purchasers.

The property may be viewed at any time, and plans may be seen and other information obtained at the law office of Mr. George Edmondson, or at the office of Mr. G. W. Ranney, C.E., or from the proprietor on the premises.

Sawd-1-1 W. A. KING.

The Cells.

Three penniless wanderers were accommodated with lodgings in the police cells last night.

Land Sale.

The County Treasurer's sale of lands for taxes took place on Tuesday at the Court House. The sale progressed slowly and the bidding was not lively. In all thirty-five lots were sold.

Missionary Meeting.

A missionary meeting will be held in St. Andrew's Church on Monday evening next. The Rev. D. J. Macdonell, B. D., of Toronto and others, are expected to be present.

The January Thaw?

The weather probabilities for this district for the following twenty-four hours counting from one o'clock this morning, as reported from the Toronto Observatory, are as follows:—West to south winds; generally fair, considerably milder weather. There is every appearance that there will be a thaw.

The Earth and Sky.

A very pleasant and profitable evening's entertainment is afforded by good views of geological and astronomical subjects, accompanied by explanations. The views interest, delight and instruct. Such an entertainment will be given in the school room of St. Andrew's Church on the evening of Friday, Feb. 1st, by Mr. A. P. McNight, M.A. There should be a large attendance of both young and old. Admission 15 cts.; children 10 cts.

A Trick Continued.

We referred a few days ago to a deception practised by a boy in purchasing articles on credit under an assumed name. The trick is apparently being continued, either by the same boy or another, as about a week ago a lad purchased some articles in a grocery on Water street and told the grocer to charge them to his father, giving the name of a gentleman whose credit is good. When the grocer spoke to the gentleman about the transaction he discovered that the goods had been obtained under false pretences, as the boy was not that gentleman's son.

A GOOD PROPOSITION.

TO THE EDITOR OF THE REVIEW.
DEAR SIR.—I noticed in your Saturday's issue a proposition to form a Steamboat and Fuel Co. I consider this one of the most beneficial propositions brought before the people of Peterborough for some time. Had such a proposal been made by a Railroad Company the people would have risen in a mass and voted in a large bonus. Fuel has got to be a problem that requires the consideration of our townspeople. During the last snow blockade we have been compelled by some of our wood dealers to pay exorbitant prices. Wood to-day is sold at the rate of 8 to 9 dollars per cord on our market. If this Fuel Company was in operation it would be the means of keeping up a supply and regulating the price. I consider that every body having the welfare of the town at heart would give this enterprise their support.

Yours truly,

WOODBURGER.

Interesting Discovery.

In a cutting for a new sluice in Caylon lately some laborers found 17 feet underground a series of remains dating from before Christ. There are hundreds of plates, dishes, etc., all in fragments, most of them differing in shape and in their better quality from those now in use. A few implements and a javelin-head and arrow-head of iron, as well as some beads and other ornaments were also found.

THE COUNCIL FOR 1883

HOLDS THEIR FINAL MEETING TO WIND UP THE YEAR'S BUSINESS.

High School Trustees Elected.—Finance Committee's Report.—A Chilly Subject.—A Charity Matter.—Valuable Services Recognized.

"Gentlemen, is it your pleasure to hear the minutes of the last meeting?" This question, asked by the Acting Mayor, brought the members of the Council to order on Wednesday evening.

PRESIDENT.—Councillor Menzies, Acting Mayor presiding, and Councillors Cahill, Davidson, Sawers, Yelland, Douglas, Rutherford, Dennis, McNaughton, Kelly, Paterson and Hartley.

There were a number of ratepayers present, probably to see how the high-tempered council of 1883 would expire.

COMMUNICATIONS.
From Geo. Johnson, Chief of Police submitting the annual report of the year.—Received.

From Jesse Macoun, secretary of Woman Suffrage Association, asking the co-operation of the Council in obtaining the object of the Society.—Received.

From John Corkery, Secretary of the Separate School Board, informing the Council that the Board required their taxes collected by the town officials.—Received.

From T. H. Charbot, stating that the Ottawa City Council wished the Council to send a delegate to Toronto to consider amendments to the Assessment Act.—Referred to New Council.

Remission of taxes was asked for by James Byers, John McFarlane, L. Burgoyne, P. Hannan, and F. Russell, and W. Might asked for remission of statute labor tax.—Court of Revision, the Collector to await its decision.

From John Carnegie, regarding the proposed deputation to visit Ottawa in reference to the Trent Valley Canal.—Referred to New Council.

T. Bradburn, as certified to.....	8 08
E. Pearce to be paid our portion according to last arbitration.....	1 00

All of which is respectfully submitted,
W. PATTERSON, Jr.,
Chairman.

Councillor SAWERS asked by whom the accounts would be certified to?
The report was adopted.

SCHOOL TRUSTEES ELECTED.
Councillor PATTERSON moved, seconded by Councillor KELLY.—That James Stevenson and Geo. A. Cox be re-appointed Collegiate Institute Trustees for the ensuing term.—Carried.

THE SNOW IN THE STREETS.
Councillor SAWERS moved, seconded by Councillor DONALD.—That the Street Inspector have the snow piled on George, Hunter and Simcoe streets, spread out.

Councillor RUTHERFORD said snow had been taken out of the yards and thrown on the main street. He was surprised at the motion, and at the police for not preventing people from doing this.

Councillor McNAUGHTON said that Councillor Rutherford had blocked Hunter street while building a baby on it.

Councillor RUTHERFORD was surprised at Councillor McNaughton's ignorance. When erecting a building half the street could be used. He raised the point of order that the motion carried an expenditure of money and required notice.

The motion fell through.

A DOG TAX.
Councillor DENNIS moved, seconded by Councillor HARTLEY.—That C. Halpin be refunded \$1 taxes paid on a dog, as he owned none, when he took the necessary oath.—Carried.

THE CROSSINGS.
Councillor YELLAND called attention to the state of the crossings.

Councillor RUTHERFORD said the town team and the scraper could take the snow off them.

Councillor KELLY moved, seconded by Councillor PATTERSON.—That the Street Inspector be authorized to have the snow on George street, between Brook and Charlotte streets, scattered and the crossings levelled.—Lost.

Councillor PATTERSON moved, seconded by Councillor KELLY.—That the Street Inspector have the street crossings levelled and put in a safe state for walking on.—Carried.

CHARITY WOOD.
Councillor RUTHERFORD said that a ratepayer had come to him and asked how an able bodied man had got a load of wood from the town. This was the second case that had come before them in a short time; the other man had wood in his yard. The people who lived near this man were indignant.

Councillor KELLY said he would take on himself the responsibility for having the order for this wood. He did so when applied to by the Rev. Mr. Beck, on behalf of the man's wife and children, the wife being sick.

Councillor McNAUGHTON challenged one of Councillor Rutherford's statements and offered to bet him \$10 on it.

A GRACEFUL MOTION.
Councillor CAHILL moved, seconded by Councillor DENNIS.—That the thanks of this Council be and are hereby tendered to Theo. Menzies, Esq., for his valuable services to the Corporation as acting Mayor for the last six months, and

also for his affable and impartial conduct as chairman of this Council.—Carried.

Councillor MENZIES returned thanks. No doubt he had his shortcomings, but he had done what he thought right. He had been in the Council off and on since 1862, and he had always got along very well. The Council of 1883 had some little difficulty, but no hard words were spoken. (Laughter.) He again returned thanks, and was cheered on resuming his seat. The Council then adjourned.

THE DYNAMITE EXPLOSION.

To the Editor of the Review.

SIR,—I see that "D" has again brought up this question, but it were better for him had he left it where it stood, for then we might have imagined that he knew something about it, but now such a thing is impossible.

After long quotations from the Encyclopedia Britannica he adds "that most gases are lighter than air even in their normal states, and certainly the gas resulting from dynamite explosion, being intensely heated, is so much lighter than air, that there was from the instant it occupied space a partial vacuum in that space, in size equal to the volume of gas, &c." Did any one ever hear of such a conclusion to come to? "D" evidently imagines that because a gas is lighter than air it contains a vacuum. I suppose he never heard of a balloon filled with hydrogen, the lightest gas known, or with very light heated air, going quietly into the air without collapsing (as it would do if it contained a vacuum). I think if "D" will consider the following he will be a wiser if not a sadder man. The gas formed by the explosion of Dynamite is at the normal temperature of the air, heavier, volume for volume, than the air, but when heated in the open air by an explosion, it expands, making room for itself by throwing the surrounding air in all directions, showing that it is stronger than the air (instead of being a vacuum as "D" imagines) and it keeps on expanding till the force exerted by the heated gas is counterbalanced by the pressure of the air. The air and gas are then in equilibrium, and if neither changed its temperature they would always remain in equilibrium, neglecting diffusion as not in the question and the only thing which can alter these relations is a change of temperature in one or other. This change takes place very quickly, as any one can see, the gas being very hot while the air was rather cool (I thought so on New Year's day) and the gas cooling quickly, contracts and forms the vacuum spoken of. Thanking you Mr. editor for the large amount of your valuable space taken up. I am yours, etc., W.

I am a commercial man, and travel continually, and would no more think of leaving home without a bottle of McGregor's Speedy Cure in my valise than I would of leaving my team at home going on foot." Free trial bottles at John McKee's Drug Store. Regular size fifty cents and one dollar.

DR. CALSON'S Pulmonary Cough Drops. The prescription of old Dr. Calson's Practitioner. The best remedy for the lungs, 1 large bottle at 50 cents. For sale everywhere.

THE MARCH OF WINTER DRESS GOODS.

Goods well bought are said to be half sold. The march began before ours were fairly on stock, and the march has been kept up since.

We had the best of assortments to begin with, gathered literally both from abroad and at home. The best fabrics picked with the eye of an expert—just such goods as sell.

Never have we had a season of greater activity. Never did our prices seem more inviting. Never was there better proof of it either, for with very few exceptions our prices remain unchanged. Yet customers assure us that they are lower than where stocks have been professedly reduced.

Remember our goods are the freshest from the most famous weavers.

Prices, you know is one of our strong points always.

A PAIR OF

WILSONIA MAGNETIC INSOLES

WORN IN THE SHOES WILL POSITIVELY

Prevent Cold Feet.

A WISE PHYSICIAN, many years ago, gave this sound advice: "Keep your head cool and your feet warm." How can you keep your head cool if your feet are cold? It is impossible. Those persons who are troubled with this condition of the feet, have a feeble circulation. The magnetic currents imparted by a pair of Wilsonia insoles will quicken the circulation, and in a very short time the feet will become warm.

LADIES will find these insoles a source of great comfort. The soles are thin—only half the thickness of cork soles, and will easily fit the shoe ordinarily worn. Wilsonia insoles have been sold in New York, Brooklyn and throughout the United States for three years. Many persons have declared that they were worth \$10.00. The insoles will also relieve and cure Rheumatism and other pains in the feet and ankles. WE WILL send a pamphlet, giving fuller particulars regarding other appliances for the cure of Rheumatism, Neuralgia, Kidney Disease, Varicose Veins, &c., &c., to any address. Ask your druggist for a Headache Band, (worn inside of sweatband of hat). Price, 25c. Mothers should get a Teething Necklace for the baby. It will soothe the irritation of the nerves caused by teething, and prevent convulsions, &c. Absolutely safe. Price 50c. W. A. MAGURN, General Agent, 77 King Street, West Toronto, Ont. 5612

REMNANT SALE

AT THE

Golden Lion.

A REMNANT SALE, TWICE A YEAR, WILL BE ONE OF OUR ESTABLISHED CUSTOMS.

All live, pushing Dry Goods Houses must of necessity find themselves with a large percentage of REMNANTS at the close of each season, which are very valuable to, and eagerly sought after by, House-Keepers and Dry Goods consumers generally. Instead, therefore, of keeping these Remnants on our shelves, and carrying them over from season to season, we intend turning over all our "left over" Goods into CASH, and propose offering them to our customers, twice a year, AT PRICES FAR BELOW their Regular Market value.

OUR FIRST JANUARY SALE

—OF REMNANTS—

Is now going on, previous to Stock Taking, and we strongly advise all interested, by all means, to come and secure some of the CHEAP LINES before they are all sold. We have a Great Variety, including:

REMNANTS in Dress Goods,
REMNANTS in Cashmeres,
REMNANTS in Merinoes,
REMNANTS in Silks and Satins
REMNANTS in Velveteens,
REMNANTS in Tweeds,
REMNANTS in Ulsterings,

FRIDAY, JANUARY 18, 1884.

THE DOMINION PARLIAMENT.

The speech of the Governor General to the
Parliament of Canada at the opening of its an-
nual session is always anticipated with great
interest, and certainly the interest was not less
this year than usual. It is a subject for gratifica-
tion that the "speech from the throne" is so
satisfactory both as to causes for congratulation
in the past and as to the prospects for the future.

It must undoubtedly be a reason for rejoicing
that Canada is now so prosperous even in spite
of the drawbacks of a harvest less than the
average and the results upon commerce of some
over inflation, our circumstances being, notwith-
standing, far better than those of Great Britain
or the United States.

The rapid increase in settlement is another
cause for congratulation, as well as its principal
incentive, the wonderful progress made by our
great transcontinental road.

Our success at the International Fishery
Exhibition in London, with its satisfactory result
of placing our country in a favourable light in
the eyes of the world, is also very gratifying, and
so, to come nearer home, is the amicable arrange-
ment with our Province on the Pacific coast.

Not the least important reason for satisfaction
is the announcement that during the past year
the receipts have been larger and the expendi-
ture less than the estimates, and that the cur-
rent revenues have been well maintained.

As to the promised legislation, it will deal
with most weighty matters. The Bill extend-
ing and assimilating the franchises will show
who are the true Reformers of Canada, and
offers a marked contrast to Mr. Mowat's obsta-
inate refusal of such an extension last session.

The bill for the regulation of factories and the
protection of those working in them will be a
practical boon, and is a welcome recognition of
the example set by similar Conservative legisla-
tion in the Old Country. The amendment of the
Northwest Territories Act will no doubt still
further facilitate the progress of settlement,
and the legislation to promote the welfare of
the Indians is a persistence in a course which
has always reflected credit upon Canada. The
steps to facilitate the extension of our national
railways, the completion of the arrangements
with British Columbia, and the consolidation of
the statutes, are all useful and progressive
duties laid before our legislators, and no doubt
other measures will be introduced that will tend
to the welfare and progress of Canada.

In short, while the retrospect is most satis-
factory, our future prospects are as full of hope
and promise.

THE WISDOM OF THEIR CHOICE.

The Winnipeg Times in an editorial on the rail-
way question says:—

"It was a question of a limited monopoly or
no road, and the people universally accepted the
former; and the wonderful development
that has taken place since May, 1881, bears wit-
ness to the wisdom of their choice."

Mr. August is a first-class teacher, and possesses
a large amount of energy, which is so necessary
in a teacher in a large school like that of Lake-
field.

LAST COUNCIL OF 1883.

The last meeting of the Lakefield Village
Council for 1883 was held in the Council Room
on Monday evening, January 14th, 1884.

Members present:—Mr. R. C. Strickland,
Reeve, in the chair, and Messrs. Wm. Cox,
John H. McWilliams, T. J. Nelson and K.
Urquhart, Councillors.

The minutes of former meeting were read and
confirmed.

A circular was received from John Carnegie,
Esq., M.P.E., asking the appointment of a
deputation to Ottawa to urge the early con-
struction of the Trent Valley Canal. A
discussion upon the advantages of this work
and upon the navigation of the waters between
Lakefield and Young's Point ensued, and a
deputation was appointed in accordance with
the above mentioned circular, and also one to
urge upon the Government the necessity of
maintaining navigation between Lakefield and
Young's Point.

Moved by Councillor McWilliams, seconded
by Councillor Nelson.—That the following
accounts be paid, and the Reeve's order for the
several amounts be issued, viz:—

John Cooper, carting.....\$ 1.40
Isaac Watson, salary as fireman..... 8.00
Isaac Watson, work on streets..... 2.00
James Richardson, work..... 2.00
John Evers, work..... 2.00
O. Rodgers, work..... 2.00

Total.....\$14.00

—Carried.
Moved by Councillor Nelson, seconded by
Councillor Cox.—That the sum of five dollars
be granted to the tax collector for extra service.

—Carried.
Moved by Councillor Urquhart, seconded by
Councillor Nelson.—That this Council do now
adjourn sine die.—Carried.

SHOW, SHOW.

Business in Lakefield for a week past has
been almost at a stand still on account of the
late snow storm. The roads have been almost
impassable. The villagers have had a busy time
of it shovelling snow. Wood which a couple of
weeks ago was quite plentiful, on account of the
state of the roads is now quite scarce in Lake-
field.

NEW FACTORY.

Messrs. R. & J. Chapin propose to build a
new furniture factory at the mill race near the
bridge in Lakefield, the building to be 80 by
30 feet and two stories. The Messrs. Strickland
have offered them splendid endowments, water
power at a mere nominal rental and material at
first cost, &c., &c. The factory will be so built
that it will have the railway at its door.

FIRST MATCH OF THE SEASON.

Last week the Lakefield Curling Club began
to practice in earnest, two matches being played.

PRESIDENT. VICE-PRESIDENT.

NEW COUNCIL MEETING.

The new council elect will meet in the Council
room, Lakefield, on Monday, the 21st inst.,
at noon, for organization.

APPEAL.

From Our Own Correspondent.

SUNDAY SCHOOL CELEBRATION.—On St.
Stephen's day, in St. Stephen's Church, was
held the usual Sunday School Anniversary—a
free entertainment given by the congregation to
the scholars and their friends. The occurrence
was as usual very pleasant, very instructive and
of course very satisfactory. And it was well en-
dowed in an unusual way by the presence of a
double wedding party, who were invited to a
share of the good things provided. So pleased
were they that they asked to be allowed to take
up a collection for the benefit of the Sunday
School, which was so liberally responded to as
to elicit a cheer from the congregation, which
was at once checked by the organist as being
out of place in a house devoted to the worship
of God. Much credit is due to the congregation
for the ready good supply—good in appearance,
in quality, and in quantity, more than a hun-
dred had all they wished of tea and cakes and
tarts, and sandwiches, and there was a good
deal left. Many prizes were given to the
scholars, contributed by the Church, Women's
Mission Aid of Toronto and by friends in Eng-
land.

"Good Will," very appropriately prevails.
Two gentlemen with a double elench waited on
Mr. Harding, the clergyman in charge of this
mission with a handsome present of Xmas cheer
from Ed's Lake settlement. And at New Year's
another, Mr. Geo. Wilson, came with bags of
cane, some pork and a pair of money, the large-
est amount ever given in this mission. "A New
Year's gift for the Rev. P. Harding as a token
of esteem for his kind attentions to us." Val-
uable other gifts from individuals show the feel-
ing entertained towards their clergyman by a
great number of his people. Mr. Harding has
five stations in which he holds regular Sunday

services besides occasional ones on week days.
He has been stationed here nine years and during
that time the Church of England is the only
religious body that has without break or inter-
mission ministered in spiritual things to the people,
at all times ready to answer a call of sickness
or sorrow, from whomsoever it may come with
out asking as to creed.

ACCIDENT.—George Knowles, son of Mr.
Knowles, of Wellington Road, while skidding
logs in Mr. Hales' shanty, slipped and a 26 inch
pine log rolled on to him. The foreman at once
sent a team to take him home, and Mr. Hard-
ing visited him immediately. The poor fellow
was suffering badly, but there did not appear to
be any very serious injury. Happily he is get-
ting better.

HALIBURTON.

From Our Own Correspondent.

NEW COUNCIL.—The snow storm last week
prevented my sending you any communication
in time for your last issue, and the train has not
yet settled down to regular work. There is not
much of interest to communicate. As you will
have seen, we have a new reeve, Mr. James
Dover, the council with the exception of one old
member also consists of new men. It is expec-
ted that they will guard the interests of the
community better than the last council did.

Both with and without, and in Mr. Dover the
people have a representative well able to take
their part with an active County Council and in
any negotiations with the Government or
other parties which may be found necessary for
their protection.

ENTERTAINMENT.—On Thursday the third
entertainment was given at the Town Hall in
aid of the Church of England, to enable it to
pay off a small debt for repairs of building, by
the congregation of St. George's and the C. E.
Temperance Society. A liberal tea was sup-
plied by the ladies, forward amongst whom was
Mrs. Wastell, after which in the hall above, a
short practical address by the Rev. Geo. Le-
ingham was followed by tableaux, songs, read-
ings and recitations. The supply of cakes was
so liberal that the committee decided to have
another little joint on the Tuesday following.

The temperance society is doing a good work
here and is gradually removing the evil of in-
temperance which owing partly to the defective
working of the Crooks Act was gaining alarm-
ing proportions. The C. E. T. S. is a broad and
liberal society and is what its name implies.
The temperance of the movement have, how-
ever, of the leaders of the movement have
for the sake of example to their weaker brethren
taken the T. A. pledge.

DRAMATIC.—The Dramatic Association which
has put several plays on the boards in a style
worthy of professional companies, is giving
its first performance of the season
before long. The corps dramatic, however,
is not quite as strong as it was, two very good
actors having left the territory, and one being
unable to attend.

THE TEMPERANCE.—We have had the alarm-
ing monster down to thirty below zero several
times at night, and fuel disappears at an alarm-
ing rate. The cold, however, seems at last to
have stamped out the scarlet fever and other
diseases which brought much mourning to our
small community during the past year.

GOOD PROSPECTS.—People here are all busy
and there is a general feeling of content with
the present and hopeful anticipations for the future.

HASTINGS.

BROKE THROUGH THE ICE.—While Miss Jen-
nie Sedgewick was drawing a pail of water from
the roadway in the rear of Tracy's store on
Saturday last, the ice gave way and a sudden
immersion followed. She was rescued by a man
in buying herself out of the water by Mr. Henry
Shary. The ice on the road was never safe,
yet the youth of the village will venture on it
when only a film. Parents who will accept this
advice and act accordingly, will save their
children from a watery grave. —*Star.*

With Satisfaction.

Polson's Nervine, the new and certain pain
cure, is used with satisfaction by every instance.
There is abundant reason for this, for it performs
all that is claimed for it. Nervine is a never-
failing cure for cramps, pains in the side or
back, lumbago, sore throat, dizziness, tooth-
ache. Nervine is in fact a sure remedy for all
pains, both internal and external. Try a 10 cent
sample bottle at Grindall & Walsh's. Large
bottles only 25 cents, at all druggists.

Cough Cure.

THE BEST PREPARED.—"I sell more
Hudson's Blood Bitters than I do any other
preparation in stock," says B. B. Druggist,
Toronto. If the reader will ask any druggist in
the city he will get a similar answer to his
question. That it is the most popular medi-
cine for the blood, liver and kidneys known.

THE HIGHEST HONORS have been awarded to
Dr. Van Buren, of Germany, for the permanent
relief afforded by his Kidney Cure to all suffer-
ers of Kidney Disease. It is substantiated pro-
duced by the Leading Medical Authorities of
Europe that Dr. Van Buren's Kidney Cure will
permanently remove all trace of Kidney
Disease from the system.

RELIEF FOR THE WOUNDED.

Appointing the Relief Fund to these
Injured or Bereaved by the Humber
Accident.

The relief committee report that the fund for the sufferers of the railway accident at the Humber now amounts to close on \$7,000. In making the appointments the members took into consideration the amount of wages that each of the deceased and wounded were earning, and the means and circumstances of their families. Of the dead, it was decided to pay to their families sums varying from \$30 to \$12 a week. The wounded will draw during their illness sums varying from \$3 to \$12 a week. On the basis struck, it is estimated that the fund will not be exhausted for six or ten months, by which time it is hoped that settlements will be effected with the Grand Trunk Railway. The committee has a large quantity of meat on hand and Mr. Hallam is asked to superintend its distribution among the sufferers according to their wants.

Sad, Sir, Please.

At an early hour one morning recently the inmates of the Anchor Line Hotel, Erie, were aroused by the report of a pistol shot and the falling of a body. Upon bursting open the apartment occupied by Miss Annie O'Leary, a young girl of 19, she was found stretched upon the floor with a wound in her left breast, from which a stream of blood was flowing. A young man, who was lying near the spot, when asked returned to consciousness she said she had attempted to end her life because of the coldness of her lover, Max Deller, a very respectable young machinist. She related the professional attempts to remove the ball, and begged piteously to be allowed to die. The ball was subsequently removed, and the physicians think the chances for recovery are favorable. It appears that the girl became violently attached to young Deller, and he, being engaged to another, did not return her affection. He says he has frequently reasoned with her of the folly of harbouring hopes that could never be realised, but she would listen to no argument. On Wednesday night she drew up a formal proposal of marriage, setting forth that it was her last wish, and that it was her privilege to offer herself. She read this to Deller, and he, kindly declined the honour. "Remember," said she, "if you don't love me, you do me to death." He still declined and the girl that night obtained possession of a revolver, and after deliberating some hours, arose from her bed, clapped the muzzle to her heart and fired.

The young man Deller was interviewed by the correspondent. Said he: "I cannot help it. She got so encouragement from me. If a girl chooses to fall in love with me and then blows her head off because I don't happen to be in love with her, I am not responsible."

The Passage of the Celtic.

Captain Ghendell of the Celtic, says: "The Celtic was 487 miles from Sandy Hook when her shaft broke. I decided to stay and ask some passing steamer to tow me back to New York. I asked the Gallert Decker 22nd to tow us to Boston or New York. She declined, but offered to take our passengers. Owing to the gale the passengers refused to enter the boat. The Celtic passed us on December 23rd. We hoisted signals, but received no reply. We took every advantage of signalling, possession of a revolver for the purpose of being reported. The Celtic behaved beautifully under sail. The vessel sustained not the slightest damage. We arrived at Liverpool with the same sail bent as when we left New York, excepting the mainmast, which was the only sail split during the passage. The crew and stowage passengers were reduced to last provisions for some days, but the saloon passengers never were. Some croakers aboard could not expect to be without their wine—who were making their first voyage thought they were more capable of sailing the ship than I myself. As a general rule the passengers throughout the voyage behaved remarkably well under the trying circumstances. The ship was under control the whole time."

A Tragedy in Real Life.

Peterborough, Jan. 15.—A funeral on Sunday was the scene of a tragic episode of love and devotion. Two young people, both of excellent family and desperately attached to each other, met by appointment in the public garden near the ramparts. Entirely absorbed in conversation, they did not observe that they were being followed by the father of the young lady, who rightly or wrongly, disapproved of the connection. The father, hearing a suspicious noise, mounted the top of the rampart to ascertain the cause. At the same moment the father, who had provided himself with a revolver, took aim at the young man and fired, but the young lady, seeing the movement, suddenly sprang before her lover, receiving the bullet in the face, and she fell dead at his feet. On realizing the terrible truth the young man revolved to die also, and precipitated himself from the top of the rampart into the dry ditch. He dropped on the stones, dashing himself to pieces and dying instantly. The father, seeing the consequences of his act, became insane through grief. The young lady was of extraordinary beauty and accomplishments. The terrible drama has caused the greatest emotion everywhere.

The Harbour Grace Riots.

Very strong evidence was adduced on Wednesday at St. John's N.B., against the River Head party in the recent Orange riots at Harbour Grace. Several witnesses were called, and Orangeism was the first to be attacked, and that one of the green flag men showed his attention of killing someone or being killed before the day passed.

MY UNCLE'S WILL.

(Continued from Thursday's Review.)

One afternoon, toward the close of my second week at Cannes, Ruby and I were sitting together on the retired seat in the grounds beside the pond with the gold-fish. It was a delicious sunny afternoon, with the last touch of Southern Summer in the air, and Ruby was looking even prettier than usual, in her broad pattern print dress, and her little straw hat with the scarlet poppies. (Ruby always dressed in a most charming manner.) There was something in the time and place that moved me to make a confession I had for some time been meditating; so I looked straight in her face, and not being given to long speeches, I said to her just this, "Ruby, you are the sweetest girl I ever saw in my life. Will you marry me?"

Ruby only looked at me with a face full of merriment and burst out laughing. "Why, Payne," she said, (she had dropped that hideous prefix long ago), "you've hardly known me yet a fortnight, and here you come to me with a regular declaration. How can I have had time to think about my answer to such a point blank question?"

"If you like, Ruby," I answered, "we can leave it open for a little; but it occurs to me you might as well say 'yes' at once; for if I leave it open, common sense teaches me that you probably mean to say 'yes' in the long run." And to clinch the matter outright, I thought it best to stoop across and kiss Ruby, just once, by way of earnest. Ruby took the kiss calmly and sedately; so then I knew the matter was "practically settled."

"But there's one thing, Mr. Payne, I must really insist upon," Ruby said very quietly; and that is that I mustn't be called Mrs. Alkin-Payne. If I marry you at all, I must marry you as plain Mr. Payne without any Alkin. So that's clearly understood between us."

Here was a terrible condition indeed! I reasoned with Ruby, I explained to Ruby, I told Ruby that if she positively insisted upon it must go back to my three hundred a year and my schoolmastership, and must give up my Uncle Alkin's money. Ruby would hear of no refusal.

"You have always the alternative of marrying somebody else, you know, Mr. Payne," she said with her most provoking and bewitching smile; "but if you really do want to marry me you know the conditions."

"But, Ruby, you would never care to live upon a miserable pittance of three hundred a year! I hate the name as much as you do, but I think I should try to bear it for the sake of twelve hundred a year and perfect comfort."

No, Ruby was inexorable. "Take me, or leave me," she said, with provoking calmness, but if you take me give up your uncle's ridiculous suggestion. You can have three days to make your mind up. Till then let us hear no more about the subject."

During those three days I kept up a brisk fire of telegrams with old Blankenship in Chancery lane, and at the end of them I came mournfully to the conclusion that I must either give up Ruby or give up the twelve hundred a year. I had been a hero of romance; I should have had no difficulty at all in deciding the matter; I would have nobly refused the money off-hand, counting it as mere dross compared with the loving heart of a beautiful maiden. But unfortunately I am not a hero of romance, am only an ordinary graduate of an English university. Under these circumstances it did seem to me very hard that I must throw away twelve hundred a year for a mere sentimental fancy. And yet, on the other hand, not only did I hate the name, but I couldn't bear to impose upon Ruby; and as to telling Ruby that I wouldn't have her because I preferred the money, that was clearly impossible. The more I looked the thing in the face the more certain it appeared that I must relinquish my dream of wealth and go back (with Ruby) to my schoolmastering and my paltry three hundred. After all, lots of other fellows marry on that sum; and, to say the truth, I positively shrunk myself from going through life under the ridiculous guise of an Alkin-Payne.

The matter of it all was that at the end of the three days, I took Ruby a little walk alone among the olive gardens behind the shrubbery. "Ruby," I said to her, falteringly, "you're the most fantastic, self-willed, imperious little person I ever met with, and I want to make just one more appeal to you. Won't you reconsider your decision, and take me in spite of the surname?"

Ruby grabbed up a little weed with the point of her finger, and looked away from me, and faintly as she answered with her innumerable and annoying calmness, "No, Mr. Payne, I really can't reconsider the matter in any way. It was you who took three days to make your mind up. Have you made it up yet or not, pray?"

"I have made it up, Ruby."

"And you mean—" she said interrogatively, "that you mean to live in her voice which I had never before noticed, and which thrilled through me with the certainty of a first discovery?"

"And I mean," I answered, "to marry you. Ruby, if you will condescend to take me, and let my Uncle Alkin's money go to Halifax. Can you manage, Ruby, to be happy as a poor schoolmaster's wife in a very tiny cottage?"

To my joy and surprise Ruby suddenly seized both my hands in hers, kissed me twice on her own accord, and began to cry as if nothing could stop her. "Then you do really and truly love me," she asked, through her tears, looking fast to my hands all the time; "then you're really willing to make this great sacrifice for me?"

"Ruby," I said, "my darling, don't excite yourself so. And indeed it isn't a very great sacrifice either, for I hate the name so much! I hardly know whether I could ever have endured to bear it."

"You shan't bear it," Ruby cried, eagerly, now laughing and clapping her hands above me. "You shan't bear it, and yet you shall have your Uncle Alkin's money all the same for all that."

Why, what on earth do you mean, Ruby? I asked in amazement. "Shan't I, my darling, you can't understand how strict the terms of the will actually are. I'm afraid you have been deluding yourself into a belief in some impossible compromise. But you must make my mind up to one thing at once, that unless I call myself Alkin-Payne you'll have to live the rest of your life as a poor schoolmaster's wife. The next of kin will be sharp enough in coming down upon the money."

Ruby looked at me and laughed, and clapped her hands again. "But what do you say, Mr. Payne," she said, with a smile that dried up all her tears, "what would you say if you heard that the next of kin was—who do you think—why me, Sir, me, Ruby Estcourt?"

I could hardly believe my ears. "You, Ruby,"

CHINA OIL—CHEAP!

Owing to the high prices prevalent in Peterborough for the above staple commodity, CHINA HALL has decided to take up this branch of its business, and will constantly keep in stock the Finest Qualities of BURNING OILS, at Prices MUCH LOWER than it has been sold at in Peterborough for years.

Canadian Parlor Light, High Test, 25 cents per Imperial gallon; or Five gallons for \$1.00.
American Water White, 35 cents per Imperial gallon; or Five gallons for \$1.50.

This is a SUBSTANTIAL REDUCTION on current prices, and we solicit your orders for Oil on these grounds.

MACFARLANE WILSON, China Hall and Silver Bazaar.

I cried in my astonishment. "You! How do you know? Are you really sure of it?"

Ruby put a lawyer's letter into my hand, signed by a famous firm in the city. "Read that," she said simply. I read it through, and saw in a moment that what Ruby said was the plain truth of it.

"So you want to do your future husband out of the twelve hundred a year?" I said, smiling and kissing her.

"No," Ruby answered, as she pressed my hand gently. "It shall be settled on you since I know you were ready to give up for my sake. And there shall be no more Alkin-Paynes henceforth and forever."

There was never a prettier or more blushing bride than dear little Ruby that day six weeks.

It purified and revitalized the blood, caused it to circulate freely, and quickly restored him to health.

HOW TO TREAT WET LUNGS.—Always breathe through the nose, keeping the mouth closed as much as possible. Walk and sit erect, exercise in the open air, keep the skin scrupulously clean, and take Hagar's Federal Balm for coughs, colds, and bronchial troubles.

BE CAREFUL WHAT YOU EAT.—The best medical authorities declare that worms in the human system are often induced by eating too freely of uncooked fruits and too much meat, cheese, etc. Whatever may be the cause, Freeman's Worm Powders are a ready and safe cure; they destroy the worms and contain their own antibodies to expel them.

YES SIR.—One can't expect to succeed in business or in pleasure either, for that matter, unless one feels all right in health and spirits. This is the first consideration. Now, it's a small matter, but it's the first step to success. It's a small matter, but it's the first step to success. It's a small matter, but it's the first step to success.

What 10 Cents Will Do? A 10 cent bottle of Polson's Nervine will cure neuralgia or headache. A 10 cent bottle of Nervine will cure toothache or faceache. A 10 cent bottle of Nervine is sufficient to cure colds, diarrhoea, spasms, dysentery, etc. Nervine is just the thing to cure all pains, whether internal or external. Buy at once. A 10 cent bottle of Polson's Nervine, the great pain cure, is a safe, prompt, and always effectual. Large bottles at any drug store, only 25 cents.

Sticking Piles—Symptoms and Cure. The symptoms are, itching, like perspiration, intense itching, increased by scratching, very distressing, particularly at night, seems as if pin-worms were crawling above the parts affected. If allowed to continue various serious results may follow. "SWANSON'S OINTMENT" is a pleasant, sure cure. Also for tetter, itch, and all skin diseases. Buy at once. A 10 cent bottle of Polson's Nervine, the great pain cure, is a safe, prompt, and always effectual. Large bottles at any drug store, only 25 cents.

Shiloh's Consumption Cure. This is beyond question the most successful Cough Medicine we have ever sold. A few doses invariably cure the worst cases of Cough, Croup and Bronchitis, while its wonderful success in the cure of Consumption is without a parallel in the history of medicine. Since its first discovery it has been sold on a guarantee, a test which no other medicine can stand. A 10 cent bottle of Polson's Nervine, the great pain cure, is a safe, prompt, and always effectual. Large bottles at any drug store, only 25 cents.

Our Canadian Industry is prosperous. The great difficulty to be overcome with is the low grade of goods required. In nothing is this more apparent than in the comparatively small article of sewing silks. The great demand in Canada seems to be for a cheap quality, buyers forgetting that a cheap thread must necessarily be a bad one and consequently a weak one. Messrs. Seidling, Paul & Co. make three grades of spool silk; of these different qualities one has by far the best. A 10 cent bottle of Polson's Nervine, the great pain cure, is a safe, prompt, and always effectual. Large bottles at any drug store, only 25 cents.

Advice to Mothers. Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no milder remedy for this ailment. It cures dysentery, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, quiets the nervous system, and soothes the whole system. Ask your doctor or nearest druggist for it. It is sold by all druggists throughout the world. Price 25 cents a bottle.

Piano Tuning.
Mr. Geo. J. Gumprecht, tuner for Messrs. Mason & Risch, Toronto, is in town. Orders left at Mr. T. Manzie's Bookstore or at Messrs. Taylor & Macdonald's Drug Store will be attended to.

This May be the Place.
The Campbellford Herald says:—"From what can be learned just now, there is not much hope entertained of the office and warehouse of Messrs. Rathbun & Son being rebuilt in Campbellford. We believe the company are looking towards a site further north more suitable for their operations, and that Peterborough may be the place. The establishment was a commercial feeder to Campbellford."

The Earth and Sky.
A very pleasant and profitable evening's entertainment is afforded by good views of geological and astronomical subjects, accompanied by explanations. The views interest, delight and instruct. Such an entertainment will be given in the school room of St. Andrew's Church on the evening of Friday, Feb. 1st, by Mr. A. P. Knight, M.A. There should be a large attendance of both young and old. Admission 15 cts., children 10 cts.

"The Journal of Progress."
We have watched with much interest the inception of a new monthly magazine entitled *Journal of Progress*. The *Woodworker's Magazine*. It is one of the most tastefully printed periodicals that we know of, embellished as it is with a coloured cover, appropriate title head-piece, initial letters, handsome engravings, etc., etc., and printed in good type on excellent paper. The number before us contains two large, full page engravings, designed especially for this magazine, which for elaboration, finish and general excellence will be much admired. The *Journal of Progress*, although ostensibly a woodworker's magazine, contains a great variety of matter—much of it from eminent authors—suited to readers of almost any description. Its columns headed Chaps, Curious, Historical and Scientific, Literature, and Important General News, and its series of papers on "What Shall We Do With Our Boys?" by some of the most prominent writers of the day will be looked forward to with anticipations of pleasure. It is published by the *Journal of Progress Company*, 307 Arch street, Philadelphia.

A Relapse.
The Midland Railway, which has suffered severely from snow blockades this winter, on Thursday evening had a relapse. The part most affected all along has been the "Missing Link," and it is on the "Link" that the disease has again taken hold. The train from Toronto on Thursday evening ran into a snow drift in one of the deep cuts at a few minutes after nine o'clock, and all its efforts to push through were unavailing for hours. The passengers—and there were a large number of them—soon made up their minds that they would be compelled to remain where they were all night, and those who came to that conclusion were not disappointed. The gentlemen good-naturedly and gallantly made the ladies as comfortable as possible by loaning them their overcoats to rest on and as coverings. The cars, however, were not cold, and, except from the inconvenience of the position and the uncomfortable nature of the coaches, the passengers did not suffer much, loss of sleep and rest being their greatest loss. This morning the train made its way through the snow, and arrived at the Station at about half-past six o'clock. The "Link" is still blocked up with the snow, but a vigorous application of snow plough will be made, and it is expected that the trains will be running over this line again by to-morrow. Meanwhile it was expected that the through trains would go by Bethany to Port Hope, and that a train for Peterborough would meet them at Millbrook. But this arrangement was not carried out, as a freight train became fast in the snow between Bethany and Millbrook, and the morning express train from Toronto was therefore unable to get through. Thus we were again isolated from "the outer world" to-day.

PRESBYTERY OF PETERBOROUGH

Meeting at Port Hope—Missionary Association—Ministers' Stipends—Next Meeting at Cobourg.

The Presbytery of Peterborough met in the Mill Street Church, Port Hope, on the 15th January; presided over by Mr. Cooke, Moderator. There were 13 ministers and 6 elders present. Much business was done not of interest to the public. Arrangements were made for completing the work of the visitation of all the congregations not yet visited. The report of the Committee on Augmentation of Stipend was re-committed until the work assigned to them be completed. Mr. Cleland was authorized to moderate in a call, when requested, in the First Church, Port Hope.

Mr. Bennett, the Convener, read the report of the Committee on Stipends, with its recommendations. The report was received and its recommendations adopted. Its recommendations are the following:—

1. That congregations, owing to their numbers, not under the necessity of giving to the Stipend Fund, to the extent that some others have to do, be expected to contribute largely to the fund for the Augmentation of Ministers' Stipends over the church.

2. That this Presbytery affectionately and earnestly urge the formation of Missionary Associations in all cases where they do not now exist; and that until this is done the collections on behalf of the schemes of the church be regularly taken up on the days appointed by the Assembly.

3. That enquiry be made at each meeting of the Presbytery, regarding associations formed, and collections taken up during the interval; and that a member of the Presbytery be appointed, whose duty it shall be to make said enquiry and to report at each meeting.

Upon motion of Mr. Bell, it was resolved that the statistics (in an abbreviated form) be printed and distributed among the congregations, and that the Clerk and Moderator be a committee, to arrange that the first and second recommendations be brought before the congregations referred to therein.

The Moderator was appointed to take charge of the matter referred to in the 3rd recommendation.

The next ordinary meeting of the Presbytery was appointed to be held in Cobourg on the 18th March at 10 o'clock a.m. It was agreed to hold a conference on the first evening of meeting, on state of religion; on Sabbath schools and temperance; and Messrs. McCre, Cleland and Duncan were appointed a committee to arrange for parties to introduce the subjects mentioned.

Mr. Bell was appointed Convener of the Committee on Temperance, to whom all reports on temperance are to be transmitted. Reports on the state of religion and on Sabbath schools to be forwarded to Mr. Torrance and Mr. Carmichael respectively.

Mr. Clark was appointed a member of the Presbytery's H. M. Committee, in room of Mr. Baillie, late of Port Hope.

A call was sustained from Cartwright and Ballyniff to the Rev. P. Fleming, of Warsaw and Dummer; and a special meeting of the Presbytery was appointed to be held in St. Andrew's school room, Peterborough, on the 19th Feb., at 2 o'clock p.m., to dispose of the same.

The delegates attending the Presbyterial Society of the Women's Foreign Missionary Association, met with the Presbytery in the evening and were addressed by Mr. Carmichael, of Norwood, on the subject of Foreign Missions. The second annual report of the society was read, showing that six auxiliaries had been formed during the year, and that between \$600 and \$700 had been raised by the different auxiliaries. The report was received and adopted.

The Rev. P. McLeod, of Toronto, addressed the Presbytery and the representatives of the two congregations, who had been invited to attend the meeting, on the subject of the Augmentation of Ministers' Stipends. On the motion of Mr. McCre, seconded by Mr. Carmichael, a hearty vote of thanks was tendered to Mr. McLeod for the clear, able and comprehensive way in which he had presented the claims of the augmentation scheme, and the Presbytery pledged itself to give practical effect to the recommendations of the Assembly Committee by raising the amounts required by it.

The Cobourg Baseball.
The second bonspiel of the clubs of the central district took place at Cobourg on Tuesday and Wednesday, for the silver tankard. In the first draw Lindsay was pitted against Cobourg, Bowmanville against Oakawa, and Port Hope against Whitby. Cobourg won by 18 shots, Port Hope by 12, and Bowmanville by 11. In the second draw Peterborough was pitted against Cobourg, and Port Hope against Bowmanville. In the former, says the *Globe*, Peterborough led until about the eighth end, when the scoring tables aggregated a tie. The game continued amidst the wildest excitement until the 13th end was reached, neither side being in the advantage. Then the tide turned in Cobourg's favour, and by dint of hard work she defeated her rival by a majority of five points. The score was as follows:—

Cobourg.
T. Morrow, 11; Jno. Jeffrey, 10; J. Henderson, 10; E. A. McNabhan, skip 19; Miller, skip 11.
Port Hope.
Jas. Winn, 10; P. McCallum, Jr., 10; Jno. Greenwood, 10; J. Salsbury, skip 13; Ed. Philp, skip 18.
Majority for Cobourg, 5 shots.

Bowmanville defeated Port Hope by 19 shots and in the final contest between Cobourg and Bowmanville the Cobourg club won by 10 shots, thus winning the tankard. In the contest for the consolation prize, Whitby defeated Lindsay by 21 shots and Oakawa by 22, thus winning it. At the conclusion of the game the curlers repaired to the Horton House, where they were regaled at dinner by the Waverley Curling Club, of Cobourg, whose guests they have been.

POLICE COURT.

HUSBAND AND WIFE.

FRIDAY, Jan. 18.—Alfred Huff was charged by his wife with not supporting herself or their family. He pleaded not guilty. Some evidence was taken, and finally, a friend having interposed as a peace-maker, the case was adjourned for a month, and Huff was allowed to go.

A Lumber Sale.

The auction sale of lumber at Nassau Mills on Thursday, which was conducted by Mr. C. Stapleton, auctioneer, was so far successful that good prices were obtained for the lumber sold. The amount disposed of was not as large as at the sale at these mills last year, but the prices ran up to good figures.

Death From Paralysis.

Mr. William G. Thomson, formerly of Peterborough, died at Lindsay at 8.30 o'clock this morning. Mr. Thomson was visiting here a few weeks ago, and was apparently in good health. He received a paralytic stroke on Thursday, from the effects of which he died this morning. He was for some time engaged in business in Peterborough, and was also with the firm of Fairweather & Co., but he has been residing in Lindsay for about a year. The body will be brought here for burial, and the funeral will take place from the Midland Railway station to-morrow, on the arrival of the forenoon train from Lindsay.

Railway Extension.

The Belleville *Intelligencer* says that a delegation consisting of Messrs. A. F. Wood, E. D. O'Flynn, A. B. Ross, Geo. D. Dickson, Thos. Kelso and R. C. Clute, waited upon Sir Charles Tupper, at Ottawa, on the 16th, to press the claims of that section of the country for aid to extend northerly the old Belleville and North Hastings Railway. They were introduced by the Hon. Mr. Bowell. Sir Charles gave great attention to the statements and facts brought before him and promised to lay the matter before his colleagues. The gentlemen who composed the deputation are sanguine that the Government will favourably consider their application.

THE MARCH

WINTER DRESS GOODS.

Goods well bought are said to be half sold. The march began before ours were fairly on stock, and the march has been kept up since.

We had the best of assortment to begin with, gathered literally both from abroad and at home. The best fabrics picked with the eye of an expert—just such goods as sell.

Never have we had a season of greater activity. Never did our prices seem more inviting. Never was there better proof of it either, for with very few exceptions our prices—remain unchanged. Yet customers secure us that they are lower than where stocks have been profusely reduced.

Remember our goods are the freshest from the most famous weavers.

Prices, you know is one of our strong points always.

A REMNANT SALE, TWICE A YEAR, WILL BE ONE

OF OUR ESTABLISHED CUSTOMS.

All live, pushing Dry Goods Houses must of necessity

find themselves with a large percentage of REMNANTS

at the close of each season, which are very valuable to, and

eagerly sought after by, House-Keepers and Dry Goods

consumers generally. Instead, therefore, of keeping these

Remnants on our shelves, and carrying them over from

season to season, we intend turning over all our "left

over" Goods into CASH, and propose offering them to our

customers, twice a year, AT PRICES FAR BELOW their

Regular Market value.

OUR FIRST JANUARY SALE

—OF REMNANTS—

Is now going on, previous to Stock Taking, and we strongly

advise all interested, by all means, to come and secure

some of the CHEAP LINES before they are all sold.

We have a Great Variety, including:

The Germanic.
LONDON, Jan. 17.—The Germanic, which left
Quebec on the 2nd instant, is now return-
ing to that port under sail, having broken her
shaft. Otherwise all are well.

Merr Laker's Funeral.
BRILL, Jan. 18.—The funeral of Merr Laker
will be conducted on a grand scale. Num-
erous societies in all parts of Prussia have de-
cided to send deputations to it. A committee has
been formed to establish a Laker memorial.

A Canal to the Red Sea.
CONSTANTINOPLE, Jan. 17.—Delson, an Amer-
ican, has presented to the Porte a scheme for
a ship railway from El Arish, at the mouth of
Wady el Arish, near the boundary of Egypt
and Palestine, to the River Akabah, which
empties into the Red Sea.

A Common Meridian.
ROME, Jan. 17.—A conference is being held
here for the purpose of discussing a project for
a uniform system with a common meridian. A
diplomatic conference will shortly assemble at
Washington to effect an international agreement
on the subject.

Gambling in London.
LONDON, Jan. 17.—A summons has been is-
sued against the Park club for permitting bac-
carat to be played in its rooms with high stakes.
The club has employed eminent counsel and
maintains that the prosecution is illegal. The
affair causes a sensation. The principal London
clubs will be affected by the decision.

Bringing French Deputies.
The Court of Appeal at Liege, Belgium, has
sentenced Boland, the Belgian journalist and
speculator, to three years' imprisonment and a
fine of two thousand francs on the charge of
obtaining money under false pretence. Boland
refused to divulge the names of French Deputies
whom he pretended to have bribed.

The German Embassy Destroyed.
LONDON, Jan. 17.—Wm. Wolf, on trial at the
Old Bailey, for being illegally in possession of
explosives, addressed the jury in his own behalf
to-day. He maintained he was ignorant of the
fact that there was powder in his house, and as-
serted he was a victim of Edward Bondurand's
revenge.

A Slight Mistake.
"The great post," enigmatically wrote the ed-
itor, referring to the newly created Baron D'
Eynonard. "The great post after being read and
re-read and paid half a guinea a line, in his old
age was made a peer." But the compositor sent
it in, "after being read and re-read and paid a
half-penny a line in his dotage was made a
peer."

Sequel of Soudakin's Murder.
ST. PETERSBURG, Jan. 17.—The murder of
Col. Soudakin has exercised a terribly depres-
sing effect among the higher Russian officials.
The Emperor summoned Count Tolstol, min-
ister of the interior, and violently reproached
him for incapacity and lack of energy. Count
Tolstol resigned. The murderers of Col. Sud-
akin were made.

Grateful to His Friends.
Mr. Mowat cannot be accused of ingratitude
to his friends. He gives Mr. Robert Jaffray, a
Globe director, contracts for colonization road
supplies without calling for tenders; he hands
the Mercer estate over to another Globe director,
Mr. J. D. Edgar; he gives Mr. Nelson of Edin-
burgh, another Globe director, the monopoly of
the sale of a certain school book; and he gives
the Government printing to Grip, of which
Messrs. Edgar and Jaffray are directors, and
Grip, to do the work, buys the Globe's job
office. Altogether, Mr. Mowat is a very
considerate gentleman.

For Certainty that are sure to fit any
figure to Turnbull's. Special orders
taken for extra sizes.

The Egyptian Question.
CONSTANTINOPLE, Jan. 17.—A perfect under-
standing exists between the Sultan and Mr.
Gladstone about extending Turkish authority
on the western shore of the Red Sea. Prepara-
tions are now actively going on to despatch to
Jeddah a much larger quantity of troops than
was originally contemplated. Orders have been
sent to the Turkish squadron to rendezvous at
Jeddah and to await the arrival of troops.
Twenty-five army surgeons have been appointed
for service at Suez, and will start immediately.
The advance guard of the Turkish army
has orders to occupy Soudakin the moment Baker
Pasha's force starts for the interior or returns
to Suez.

A Large Contract.
Mr. Oscar A. Droge has just entered into a
contract with the Mexican Government to
plant 2,000,000 trees in the Valley of Mexico
within four years. The contractor pledges
himself to plant 80,000 ash, 35,000 willow,
120,000 poplar, 60,000 eucalyptus trees, 60,000
acacia, and 120,000 of miscellaneous varieties.
The trees must be in plantations of from 50,000
to 100,000 each.

The Princess's Chair.
OTTAWA, Jan. 17.—The chair which was used
by the Princess Louise at the opening and clos-
ing of Parliament during her residence in Cana-
da has been shipped to her royal highness, as a
souvenir of her sojourn in the Dominion. The
following inscription is placed on the back of the
chair: "Presented to her Royal Highness the
Princess Louise by the ministers of the domain
of Canada, advisers to her excellency the
Governor-general, the Marquis of Lorne, 1883."

The Surrender of the Soudan.
CAIRO, Jan. 17.—The insurgents have cut off
the retreat of the garrisons in the province of
Sennar and rendered the river Nile impassable
below Dumm. A committee of Soudanese mer-
chants sought an interview with the khedi
to-day to protest against the abandonment of Sud-
dan. Being refused an audience, they sought
Nubian Pasha, prime minister. He said the
protest was useless, as the evacuation of the
Soudan had been definitely decided upon.

Five Mills Blown Up.
SCANTON, Pa., Jan. 18.—The Consumers
powder company's mills, nine miles from here,
blew up, one mill at a time, between 10.30 and
midnight this evening, destroying nine out of
ten mills. Certainly one man, L. H. Emery,
was killed, and probably many more. Commu-
nication is out off and particulars can not be
had. The company was organized a year ago.
The loss is serious.

An End to Bone Scraping.
Edward Sheppard, of Harrisburg, says:
"Having received so much benefit from Electric
Bitters, I feel it my duty to let suffering human-
ity know it. Have had a running sore on my
leg for eight years; my doctor told me I would
have to have the bone scraped or leg amputated,
I used instead, three bottles of Electric Bitters
and seven boxes Eucalypti Arbolis Salse, and
my leg is now sound and well." Electric Bitters
are sold at fifty cents a bottle, and Booklet's
Arbolis Salse at 25c. per box by Taylor & Mac-
Donald.

impossibility of effecting an agreement with
the Liberals, the King has charged Senor Can-
ovas del Castillo, the Conservative leader, with
the formation of a Cabinet.

MURDER.
ROME, Jan. 18.—Monsignor Cesare, a digni-
tary of the church, was murdered in bed last
night and the room plundered.

AGITATION IN PARIS.
PARIS, Jan. 18.—Pacards have been posted
in various parts of the city summoning the
people to make a demonstration to compel the
Chambers to accede to the popular demands.
Cautionary measures have been taken at the
Palais Bourbon, where a company of infantry
and numerous policemen have been stationed.

A CASUS BELLI.
LONDON, Jan. 18.—A leading member of the
Chinese Embassy says the memorandum in
which China declared that an assault upon
Sentry, Hung Hoi or Bouché by the French
would be a casus belli will be carried out to the
letter.

BLOCKADE SUSPENDED.
HONG KONG, Jan. 18.—In consequence of a
protest by the British Government the work of
obstructing Canton river has been suspended.

MEDIATION DENIED.
PARIS, Jan. 18.—Six new guests have been
ordered for service in Tonquin. The report
that the United States will mediate between
China and France is false.

A FATAL EXPLOSION.
LONG ISLAND CITY, Jan. 18.—The boiler
attached to the range in the home of Frank
Sherwood exploded this morning, killing Chas.
Sherwood, aged five, fatally injuring Kelso
Sherwood, and burning his mother terribly.
She probably will lose her sight. Everything in
the room was destroyed. It is supposed the
water in the boiler was frozen.

DEADLY SEWER GAS.
ST. LOUIS, Jan. 18.—Michael O'Brien, his
wife, and three children have died here within
a month from the effect of sewer gas. The
room in which the family slept contained a sink
connected with the sewer.

DETONATING DYNAMITE.
ALLENTOWN, Pa., Jan. 18.—An explosion
occurred this morning in the mixing house of
the Volcanic Dynamite Company, killing John
Drummond, Isaac Kramer and Jacob Heffner.
The bodies were shockingly mutilated. Three
others were slightly injured. The frame build-
ings were destroyed.

THE O'DONNELL RESOLUTION.
WASHINGTON, Jan. 18.—Irishmen here are
not satisfied with Hewitt's account of what
passed between the British Minister and him-
self with regard to the O'Donnell resolution.
Captain Gordon and others have held frequent
conferences and consulted with Robinson, Fin-
erty and others. A resolution has been finally
agreed upon which will be offered in the House
instructing the Committee on Foreign Affairs
to enquire whether any Minister has endeavor-
ed to nullify the effect of the resolution of the
House by representations reflecting on the
honor and integrity of its members or otherwise
interfered in its affairs.

NUTT'S TRIAL.
PITTSBURGH, Jan. 18.—Many doctors testified
their belief in Nutt's insanity, after which the
ladies were requested to leave the room, and
the letters that have given the Duke-Nutt case
such prominence were produced. Young Nutt's
lips twitched nervously and his eyes looked
apopopically. At the suggestion of Senator
Voorhees he was removed from the room. The
reading of the letters created a profound sensa-
tion.

CANADIAN KILLED IN FAR WEST.
ANIMOSITY, Wash. Terr., Jan. 18.—William
F. Hughes, who had relatives living near To-
ronto, was accidentally killed on the Snake
River Bridge Division of the Northern Pacific
Railway a few days ago.

A DIABOLICAL ACT.
COLUMBIA, S. C., Jan. 18.—As a train on the
Augusta & Knoxville Railway was approaching
McComick yesterday the engine saw a child
lying across the track 300 yards ahead. The
train was stopped within three feet of the child,
who proved to be a boy three years old. He was
firmly bound to the track. Certain parties are
suspected, and will probably be arrested.

CHOPPING A TAX-GATHERER.
LAST HARTFORD, L.I., Jan. 18.—Henry Jason,
a Portuguese farmer of Suffolk county, yester-
day attempted to murder Erasmus Halley, who called
at his house to collect taxes. Jason inflicted two
terrible wounds on Halley's head with an axe.
He may die. Jason escaped. He attempted to
kill his two daughters a year ago.

OUTWITTED BY A GIRL.

Or, EXCHANGE NO ROBBERY.

Dingle Farm was such a pretty place. Charming, it was situated at the foot of a slope, it commanded an extensive view of a beautiful Kentish valley, the ground rising to a ridge of wooded hills in the far distance.

Its steep tiled roof, covered with yellow lichens, indicated its antiquity, and the numerous farm buildings, rocks and barns, which stood around in picturesque confusion, marked it as wealthy and prosperous in a language of its own. An orchard of venerable, but not the less full-bearing, apple and pear trees ran up the incline behind the house; the pasture fields were intersected by woods of oak, under which a tangled mass of undergrowth, lent a wild beauty to the spot, the birds keeping up their incessant concert from sunrise to sunset in the branches above.

Two shady lanes led down to Dingle Farm from the high road, which was more than half a mile distant. This old and attractive place had been for years in the possession of the Dales, a respectable and wealthy family of farmers, and among the villages and country round was begun the death of her mother, Mr. Dale was in the time of four years—the latter part of the last century—by old Mr. Dale and his widowed daughter-in-law, Richard Dale, her husband, had died soon after the birth of their youngest child, the only surviving son of four, three of whom died in infancy.

This boy, now thirteen years old, was dotted on by his grandfather and widowed mother. An orphan grandchild of old Mr. Dale's—a bright clever girl of twenty, named Susan Siddolph, lived with them since the death of her mother, his only daughter, and was Mrs. Richard Dale's right hand. She directed the servants, looked after the dairy, fed the poultry, kept the accounts, and always went to market on market-days, Mr. Dale being now too infirm to undertake the journey and transact business.

The market was held at Hasleton, a town distant from the farm about seven miles; and hither the farmers sent their cattle, poultry and vegetable produce for sale the first Wednesday in every month. These journeys were attended with some anxiety and not a little danger from the highwaymen, who still infested the roads, and who did not fail to make use of market days as an available opportunity for plunder. As the road was much frequented on these particular days, Susan went backwards and forwards without fear of an encounter with these uncomfortable gentry.

It was the evening before market day. Supper was just over at the farm, and Mrs. Dale was busy removing it from the large old-fashioned oak table in the kitchen. A bright fire blazed on the spacious hearth, though it was the end of June, and old Mr. Dale sat in the chimney-corner under the immense chimney, where a collection of hams hung in various stages of smoking.

"Now mind, Susan, that you be early for market to-morrow," said Mrs. Dale, as she seated herself.

"Never fear, aunt; I'll be on time."

Thomas must start first with the two cows and the heifer, and I'll follow when they are well on their way. Don't you disturb yourself in the morning, aunt dear."

"Bless the child, as if I shouldn't be up and about against your starting! I shall see to your breakfast, of course."

"I wish you'd let me go to town, mother," said Ben, the boy before mentioned, who was sitting under a stick at the open door. "I know I could help busy."

"No, no, no, my dear; you're too young," replied his mother, while the old man, removing his pipe, laid coaxingly.

"All in good time, my lad; all in good time. Let things come by degrees. Mind your schooling now, and you'll be all the better farmer for a little book-learning."

"But suppose Susan should meet a highwayman, grandfather. Then I should be of use. Wouldn't I be of use to her? It would be fun."

"Ed, lad, eh! Young folks talk a deal of nonsense," laughed the old man. "Those things you speak of are not so easy to do, I can tell you."

"Did you ever meet one, grandfather?" asked the boy.

"Ay, ay, and I rode home as hard as I could, with him at my heels. But he's no use of frightening Susan, when she's going to-morrow."

"I'm not frightened, grandfather," said Susan, going up and kissing the old man.

Ben here ran across and, coming up unperceived, pulled one of Susan's curls, which had tumbled from underneath her cap.

"Don't, Ben, you plague!" cried Susan, and she tried to catch him as he ducked away from her hand and jumped over a settle, where he sat on the floor in the attitude of a frog, ready to leap if she chose to follow him. But, seeing that she took no heed, he crawled up to her, and said:

"What should you do, Susan, if a footpad came up and asked for your money or your life? I wonder whether you'd call me a plague then? Ha, ha!"

"I shouldn't want you," laughed Susan; "for I should tell him to go about his business, and ask what he would do with my life when he'd got it."

"Ah, it's all very fine to be port now, but you'll long for poor playmate Ben then, I know," and Ben here not only pulled the curls again, but tweaked the end of the girl's head. She caught him, and was in the act of administering punishment by a box on the ear when he leaped over her stooping form, and ran up stairs to bed.

The next morning Susan rose at five, and dressed herself with much care and neatness. Ben met her as she came to the kitchen door, and Mrs. Dale, who was already down, began to cut large slices of bread-and-butter, and told him to be quiet and get his breakfast.

Susan went to see that her basket of poultry, eggs, and butter was ready packed.

"Don't let the ducks go for less than six shillings the couple, child," said Mrs. Dale, "and get as much as you can for the fowls. Ducks are in season, and ought to fetch good prices."

"Susan's a duck herself," chimed in Ben.

"You're a goose, as all events," rejoined Susan, "though I shouldn't like to have the selling of you; for you wouldn't fetch much." And she sat down opposite the boy and began her breakfast, the farm-servants coming in soon after to get theirs.

"Thomas started belated," said Ben, "I heard him go. Make haste, Susan—eat away."

"There's no hurry, my dear," said Mrs. Dale, as she stirred her porridge; "but you can go

and see if Jerry's all ready, and bring him round."

Jerry was the horse, of respectable and ancient appearance and somewhat clumsy build, on which Susan usually made her journeys to market. She was a good horsewoman, having been accustomed to ride about the farm with her grandfather since she was quite a child, and she was rather impatient of Jerry's slow pace, though she knew them to be a necessity on market-day.

"Lady, your palfrey waits," cried Ben, bowing at the kitchen-door with mock dignity.

"Hush the boy!" exclaimed his mother; "he's full of fun, I declare. Come and help Susan with her baskets."

Jerry was led to the mounting stone which stood in the yard, Susan was duly settled on her saddle, the baskets adjusted, and the horse rambled away up the wooded lane.

"Think of me when you meet the robbers, Susan," squealed Ben after her, as he pretended to be overcome with grief at her departure.

Susan rode along, enjoying the fresh morning and the song of the birds. The dew twinkled on the grass and herbage, and the sun glinted through the trees overhead; while the scent of the hay, now being made into ricks, filled the air with its delicious fragrance.

"When Susan turned into the high-road, she found it full of carts, horsemen and farmers, all bound on the same errand as herself.

It was no matter whether she arrived at Hasleton sooner than her neighbors, as she took no pains to urge on the steady-going old horse, and she was soon left alone at the foot of a steep ascent.

Before many minutes had elapsed, a gentleman on a fine bay horse overtook her, and reining in with difficulty, asked if she was right or mistaken, and if it were market day there.

Susan looked round at him, and was struck with the handsome aquiline face and piercing dark eyes which seemed to read her thoughts. Dressed in the best fashion of the times, his horse carefully groomed till its glossy coat shone brightly in the sunlight, he made a marked contrast to Susan on her thick-made, stumpy animal.

"You are bound for the market, too, little maid?" inquired the gentleman, raising his hat as he spoke.

"Yes, sir. All the folks are going there 'most this morning, I think," answered Susan shyly.

"And what have you there? Chickens and butter?" her interlocutor went on to say. "Do you like the business of buying and selling?"

"It depends on the prices I get for them," returned Susan quietly.

The gentleman laughed, and stopped for a moment to arrange the leather of his stirrup more to his liking; while Susan rode on, wondering what a well-bred man, on a thoroughbred horse, could want at Hasleton on a market day.

While she mused on these points, he again overtook her.

"May I ask your name?" he said.

"My name is Susan Siddolph," she answered simply; and though she would have given much to ask him the same question, she refrained from inquisitive feelings of curiosity.

"As if he divined her thoughts, he said, 'My name is Hamilton St. John. Do you like it?'"

"Very much; and what do you call your horse, sir?"

"Wildfire; and a famous stepper he is! Good-bye, Susan; I hope you'll get good prices for your fowls and ducks." And away he sped at a tremendous pace.

The market was becoming very full when Susan reached Hasleton, and many sounds of life resounded on all sides.

Here stood ranges of stalls covered with fruit, heaps of vegetables being piled behind in glorious confusion.

Baskets and coops containing live poultry lined the interior of the market-place. Further on came the pens full of sheep and lambs; then goodly carts, then horsemen of various ages, sizes, and shapes, coats and poodles, grouped in a place set apart for the purpose.

Tins, pans, crockery, and wooden vessels attracted the housewives to the centre of the market; and toys and sweet-stalls kept their vendors perpetually on the alert, so attractive were these wares to the children of the community.

Susan having met Thomas, and given Jerry into his charge, entered the market, and tried her best to effect the sale of her poultry; while the farming-man undertook the vending of the cows, submitting his bargains to Susan's judgment before concluding them.

The day soon came to a close; all their marketings were attended with good success, and Susan having made her purchases at the draper's—an old friend of her aunt's, at whose house she usually dined on these occasions—concocted her money, to the amount of thirty pounds in gold and notes, in the secret pockets of her stays, purposely made to stow away these treasures, and mounted Jerry for her ride homewards. Very little was Susan at the result of her day's work. The cows had fetched a capital price, and the heifer alone remained unsold. Her poultry was all sold, and not a pair of better remained in her basket.

Ben, determined to return by a lane which wound circuitously from the town of Hasleton to the borders of Dingle Farm. By this she would avoid the unpleasant society of several half-tipsy farmers and rough horsemen, whose proximity was very undesirable. Jerry stepped out as he was wont when he scented his stable in the distance; and Susan hummed to herself as she looked on the beauty of the evening and the scenery around.

Birds were singing their soft evening lays; shadows fell darkly across the road from the overhanging boughs; the last rays of the sun gleamed brightly through every gap in the hedge; and fleecy clouds, tinted with the gay colours of a parrot's wing, floated away eastward in the pale-blue sky.

Susan had not proceeded two miles when the sound of a horse's hoofs struck on her ear; and as she turned to look up the lane to see who it might be, her well-dressed acquaintance of the morning rode up to her side and greeted her with a polite bow.

EVERY CUSTOMER is well aware of the fact that when GIROUX & SULLIVAN advertise a Cheap Sale, they do as they advertise, and during the next thirty days, they offer BIG BARGAINS in every department, for the goods must be sold, and will be sold, at LOW PRICES will do it.

Very Encouraging.

Although we make no profit in our cheap sale, by selling goods at what they cost, we make NEW CUSTOMERS and it is very encouraging, indeed, to see every customer satisfied.

There is Nothing like Honest Dealing.

Ladies tell us there are so many cheap sales advertised, it is difficult for them to know which is a REAL CHEAP SALE, and which is pulling. We are satisfied that after the success of our present cheap sale, Ladies have the advantage to judge for themselves, and this sale we advertise now they will know whatever we advertise is the truth.

SPEAKERS AND SPEAKERS.

In accordance with its usual practice of endeavoring every Canadian who especially distinguishes himself by his services to his country, the *Globe* is now making an attack upon the Speaker of the House of Commons. It seems that Mr. Kirkpatrick has committed the crime, in the eyes of the leading Reform journal, of being not only a shareholder and director, but even the president of the Kingston Locomotive Works and that he and Reformers allied with him in this enterprise have turned out such good work that they have secured orders for the government railways.

The *Globe* would probably prefer the Reform plan of importing locomotives from the States, and purchasing Speakers at home. It can hardly be forgotten how the present leader of its party conspired with an Ontario Speaker and others to turn Mr. J. Sandfield Macdonald out of office, or how a Quebec Speaker kept a usurping Government in office for a session by his purchased casting vote. But even if it is forgotten these facts the *Globe* cannot be unacquainted with the circumstances connected with the Reform Speaker of the House of Commons, who was hired by Messrs. Mackenzie, Blake, and their colleagues, receiving a heavy douceur, not for good locomotives or anything else of use to the country, but as a gratuity for his political services, the disgraceful bargain being only made worse by the shallow pretence of its being for work done, when he never meant to do it, and could not do it, and when his employers knew that he could not do it, the object being that he should pocket the money of the people of Canada to the extent of the difference between the value of the work and the sum thus corruptly given to him. And, as if it were not enough that the people should have to find the hire for services to Mr. Mackenzie and Mr. Blake, the legitimate contractors claim a second payment from the public treasury for the profits siphoned from them by this corrupt job.

So flagrant was this piece of corruption that even a friendly Reform majority could not save their purchased Speaker from the ignominy of being driven from the House by his wrong-doing, though certainly they showed their boasted regard for the independence of Parliament by replacing him as quickly as possible in the seat he had disgraced.

And yet the *Globe*, familiar as it is with the past bad record of its friends, has the effrontery thus to attack an excellent Speaker, whose merits are acknowledged by both sides of the House. In a country like ours it would be said indeed if a gentleman were to be ostracized for committing the crime in Reform eyes of assisting to our industrial expansion. If Sir John Macdonald ever placed a sum in the estimates for hiring the political services of a Speaker, the *Globe* would not find us backward in denouncing the act.

The Orangemen at Bromore.

DUBLIN, Jan. 19.—The grand master of the Orangemen has issued an appeal to the Orangemen of Tyrone to march on Thursday next and demand justice for the murder of young Griffin at Bromore.

ORGANIZED.

The Town Council for 1884 held their first meeting and organized.

The first meeting of the Town Council for 1884 was held at 11 o'clock. Mr. C. D. MACDONALD, Town Clerk, reported the different members elected as Mayor and Councillors, each of whom had made the necessary declarations.

The members were all present, as follows:—Mayor—Mr. Geo. A. Cox, Ward No. 1.—Messrs. Cahill, Davidson and Allen. Ward No. 2.—Messrs. Kelly, Green and Millar. Ward No. 3.—Messrs. Yelland, Douglas and Rutherford. Ward No. 4.—Messrs. Menzies, Kendry and Hartley.

ADDRESSES ASKED FOR.

Councillor RUTHERFORD said it was usual at this stage of the proceedings for the Mayor to address the council.

The Mayor—Well, we intend to depart from some of the usages of the Council of last year. Councillor RUTHERFORD urged that there were matters of importance to be dealt with this year, which they should give their views on.

Councillor MILLAR said that this meeting was simply for organization, and the addresses could be given in the evening.

The minutes of the last meeting were then read and confirmed.

COMMUNICATIONS.

From Cornelius McGrath, Joseph Lundy, and David Gamble, applying for the position of assessor.—Received.

From H. LeBrun and 119 others, asking the Council to make a grant to the City Band.—Received.

ACCOUNTS.

The following accounts were read and received:—
H. Hosh \$17 30
A. Hall 3 15
Times Printing Co., 11 60

ADDITION.

The Mayor appointed Mr. Jas. Stratton as an Auditor.

Councillor MENZIES moved, seconded by Councillor RUTHERFORD, That Mr. Edg. Pearce be appointed the other Auditor.—Carried.

The By-law appointing these gentlemen Auditors was then passed through its several stages, their salary being fixed at \$50 each.

THE STANDING COMMITTEES.

Councillor RUTHERFORD moved, seconded by Councillor KENDRY, That the special committee to strike the standing committees for the year 1883 be as follows:—Messrs. Davidson, Cahill, Kelly, Yelland and Menzies, they to report this evening.

Councillor YELLAND moved in amendment that the Mayor appoint the Committee.

The Mayor said he would rather not have that duty.

Councillor MILLAR seconded the amendment. The amendment was put and lost, and the original motion was declared carried.

THE AMBASSADOR.

Councillor CAHILL moved, seconded by Councillor KENDRY, That the Clerk be instructed to have a by-law prepared for the appointment of the Ambassadors for this evening.—Carried.

The Council then adjourned until 7.30 o'clock in the evening.

A Sink Hole Wins

The hole on the route of the N. & T. Railway is of great depth, and the managers have decided to change the direction of the line in order to avoid it, though the road-bed has been constructed over the spot.

Forced to Disgorge.

The notorious swindler Dewey, who recently absconded from Montreal after victimizing the Ontario Bank heavily, has been compelled to disgorge nearly sixty thousand dollars of his ill-gotten gains, which will be equitably divided among his dupes after deducting the expense of his arrest and prosecution.

The Riot.

St. John's, N. F., Jan. 18.—In the trial of the rioters James Pippy testified that the Riverhead party demanded guns from him wherewith to shoot the Orangemen. Falling to obtain them they took pistols of the fence and absconded. Other testimony was offered to the effect that the Riverhead party were the aggressors.

Struck with a Billiard Ball.

BRISTOL, Jan. 18.—At Trenton yesterday a young man named Wallace McMathews, who was playing billiards in a hotel, threw a billiard ball at his opponent, with whom he had a dispute. The missile missed the man for whom it was intended and struck Wm. A. Hepburn, of Ploton, behind the ear, knocking him senseless. McMathews is missing.

Victoria University Commemoration was held on Friday in the Alumni Hall of the institution at Cobourg. Prof. Workman read a historical sketch of the university, after which a masterly address was delivered by Principal Nelles in which he referred at length to the question of further state aid to Toronto University.

A Steamship Disaster.

BOSTON, Jan. 18.—F. W. Nickerson & Son, agents of the Savannah line of steamers, received from New Bedford, Mass., the following despatch this afternoon:—"Steamer City of Columbus, on her way to Devil's Bridge, Gulfhead, Feb. 18th, has broken up. About a hundred lives lost. Will leave on early train in morning. Saved by cutter Dexter." (Signed), "S. E. WRIGHT, Master."

The City of Columbus left Boston yesterday afternoon.

CHINESE TROOPS AT HAINAN.
HONG KONG, Jan. 19.—Chinese troops with stores and torpedoes have landed at Hoi How, on the island of Hainan. There is great excitement among the Hainanese on account of this warlike demonstration. The English vice-consul has demanded the presence of a gunboat.

EGYPTIAN NEWS.

CAIRO, Jan. 20.—Khartoum still remains open to Cairo. The appointment of "Chinese" Gordon is generally welcomed, and receives the cordial sanction of the Egyptian Government. It is reported that there has been a massacre of Christians at Khartoum.

GENERAL GORDON.

LONDON, Jan. 19.—General "Chinese" Gordon started last night for Egypt. It is believed his task is to conciliate various tribes in the Sudan. The *Pall Mall Gazette*, commenting upon his mission, says henceforth Great Britain has the full and undivided responsibility of the Sudan.

THE TRIAL OF WOLFE.

LONDON, Jan. 19.—The jury in the case of William Wolfe, charged with having explosive in his possession, are unable to agree, and have been discharged.

FRANCE AND CHINA.

LONDON, Jan. 19.—A leading member of the French embassy here said that if the French forces should collide with the Chinese Imperial troops France would have a right to demand indemnity for the expenses incurred in maintaining her rights in Tonquin, and the amount, or its equivalent in territory, would be large. France did not intend to declare war against China. He did not know what France would do if Chinese troops should oppose the French at Bac Ninh, but France was determined to take Bac Ninh at all costs. She would listen to no offer of mediation until Bac Ninh was in her hands. Bac Ninh, he added, would probably be attacked three weeks hence. The Chinese Government is fully determined to repel the attack on Bac Ninh.

HEALTH OF HER MAJESTY.

LONDON, Jan. 19.—The Queen, who is at Osborne house, Isle of Wight, is able to take short walks, but cannot stand upon her feet longer than a few minutes at a time. Her health is otherwise unaffected.

REVOLUTIONARY AGITATION.

PARIS, Jan. 19.—Two meetings were held in Paris to-day in furtherance of the proposition to revise the constitution. Speeches were delivered in favour of a social revolution. At one of the meetings it was decided to organize a fund to raise a monument to the Communists who were shot.

ANOTHER HOTEL HORROR.

SAVANNAH, Fla., Jan. 18.—It is believed that two coloured servants perished in the Sulphur Springs hotel fire yesterday morning. The flames burst forth in the second story, directly over the kitchen. A strong wind carried the flames to every part of the building. One hundred guests nearly all Northerners, were asleep in the rooms, and but for the frantic efforts of the night clerks and other employees the loss of life would have been terrible. Nearly all were obliged to jump through the windows and from the veranda. Several had limbs broken and others sustained serious injuries. Palmer, of New York or Boston, ran through a blazing hall and was severely burned. The hotel was one of the finest in the State. It was a wooden structure.

CURRENT EVENTS.

It is stated that the formal invitation from the Dominion Rifle Association to the War Office London would undoubtedly secure the visit of a British team to the Canadian Wimbledon meeting.

At this season of the year there should be a bottle of Pectoral in every house. It is unequalled for Coughs, Colds, and Hoarseness, is pleasant, equally safe for children. Price 25 cents at all druggists.

Resolutions protesting against a further reduction of the tariff on sugar and the ratification of any reciprocity treaty by Congress have been adopted by a convention of Southern cane-growers.

OUTWITTED BY A GIRL.

Or, EXCHANGE NO ROBBERY.

"Well met, Susan! Why, you're late from market. I hope you've been successful."

"Pretty well," curtly replied the girl, who was inclined usually to be reserved to strangers.

"Why, you're an empty basket, I perceive. Do you know, I was not so far off as you might think; I saw you while you were making your bargain," said the gentleman, looking straight at Susan with a knowing look.

"Well," returned she, raising her eyebrows, "I had a notion that I caught sight of your face once; but seeing it belonged to a man in a smock-frock, of course I took no heed."

The stranger laughed, and there was something in his manner that made Susan feel uncomfortable.

He proceeded to ask her numerous questions, to which she gave at last only monosyllabic answers; for the courteous manner of Mr. Hamilton St. John, which had attracted her in the morning, had given place to an unpleasant familiarity of tone, that grated upon the girl's sense of refinement; and she hoped that her destination to converse would presently induce him to ride on and leave her. He soon remarked on her tall stature, and asked her why she was so silent.

"I don't care to talk much to strangers," she replied.

"But I have told you my name, and you may judge when you see a gentleman," said he.

"How do I know that you are a gentleman?" asked Susan bluntly. "I think it's very bad manners to ask so many questions. At all events it's not the way our simple folks are taught."

"Who do you think I can be, then, Susan, my dear?" inquired the horseman insinuatingly.

"You may be a highwayman, for aught I know," courageously exclaimed the girl.

Her companion laughed loudly and long; and Susan, in anger and desperation at her perspicacity, endeavored to urge poor old Jerry to a better pace.

"What a good guesser you are, my dear!" cried the horseman. "Suppose I take you at your word, and ask you, after the fashion of real highwaymen, to let me look at your purse."

"I don't carry a purse," replied the girl, now somewhat alarmed, and believing that her suspicions as to his strange behaviour were not without foundation.

"Do you see this?" said the man, in a jeering tone, drawing a small pistol from his breast-pocket. "It's a little instrument I carry, to induce people to tell the truth. Perhaps it'll make you do so. Come, out with your money," he added in a rough voice, catching hold of Jerry's bridle at the saddle.

Susan was a spirited girl, but she turned pale. They had arrived at a part of the road where it sank between high hedges, and a rising ground on either side hid it entirely from view.

It was becoming dark, and as Susan looked right and left she heard nothing but the faint breeze among the trees, and the chirp of the grasshoppers in the long reeds at the roadside, and all idea of assistance from a casual passer-by she knew to be almost hopeless.

Though quite faint with terror, she raised all her courage, and determined to have out the attempt of the man to rob her of her money.

For one moment her resolve. The stranger dismounted, and passing his bridle over the low overhanging bough of an old tree, and Susan took the opportunity to whip Jerry into something like a trot; but she had not proceeded many yards when the man came rushing after, easily overtaking her, and laughing derisively, led her horse back to the same spot, where he again asked her to deliver up her purse to his care.

"Better do it quietly, Susan, my dear," he urged. "I shall take it by hook or by crook."

Susan still stoutly refused, declaring with many assertions that she carried no purse.

"Well, then, we must try what can be done by searching. It's a tiresome process, but I'm very patient, and not pressed for time to-night."

He lifted Susan out of her saddle on one side as if she had been a baby, unseated Jerry, turning him loose to graze as he pleased, and commenced searching her person. Finding nothing but a few parcels of tea, calico, and ribbon, which he carelessly threw down in the road, he next begged the terrified girl to remove her hat and cloak, and coming closer to her, began feeling for her pockets.

Susan's indignation knew no bounds; but the robber only laughed, and told her he should take every means to extract the gold from her, and taking out a large clasp-knife, he said, "It's now a pity to cut this pretty bodice asunder; but I must, if you are so obstinate. I shall say, you do think I've been years on the road, and don't know the ways of your pretty little pockets? The money that was held by the horse is somewhere about, and I am pretty certain it's in a particular pocket of your coat. I shall cut your leese, if you try my patience too long; and he began to insert the knife into the pocket of her bodice.

Susan, trembling lest she should lose her senses, now made up her mind to part with her money, and consented that if he would retire out of sight for a few minutes she would get her pocket, and give it into his hands.

The robber declared that he could not do that, but that he had no objection to turn his back. "I don't want to distress you, my dear," he said; but he pulled out his pistol at the same time, and stood waiting.

The poor girl proceeded to take off her dress, and after some difficulty removed her stays, and dropping her cloak behind her, threw them down behind the hedge.

He seized upon them, and discovering the pocket, soon rifled it of its contents, and then picked up her dress, and began to feel about the linings, to find if possible more bank notes which might be sewn up in them. As Susan stood shivering and irresolute a sudden thought seized her. Catching up Jerry's saddle, which lay on the ground at her side, she threw it over the hedge, exclaiming, "You shan't have it all, at any rate."

The thief, off his guard in the moment, thinking that the saddle was the only thing of greater value of the spoil, threw down the dress with an oath, and cursing frightfully, clambered into and over the hedge to recover the saddle. One of his paces fell from his coat to the ground, Susan threw it off the opposite side, and releasing the bridle the robber once again clambered by the side of the hedge, and to his head, where he knelt knee deep in the pistol holster, and giving the animal the reins, galloped up the lane at a tremendous pace.

A loud curse, and the crack of a pistol, which only caused the horse to increase its speed, followed, but the bullet missed its aim. Susan heard it whizz past in dangerous proximity to her ear, and it then lodged harmlessly in the trunk of an old oak by the wayside.

Away flew Wildfire like the wind, with Susan on his back, and her courage rose every moment, as she remembered that old Jerry had wandered grazing up the lane, and that it would be impossible for the thief to overtake her on the well-bred animal she rode, even if he attempted pursuit. For an instant, a clattering of hoofs made her look hastily back, but the noise was only a lumbering attempt on the part of old Jerry to follow, and keep up with her. Susan's hurried ride off and the shot of the pistol had disturbed his calm grating, and he turned with a clumsy start before the robber could lay hold on him, and was answered by Susan, backed on saddle, trotted off at a novel and excited pace after her. Certain now of safety she urged the beautiful animal she sat to its utmost speed, and dashed desperately homeward.

"Why, here's a go, mother!" cried Ben, rushing into the farm kitchen, full tilt. "Here's Susan tearing down the lane like mad! I never thought Jerry could go so fast. I was on the hayrick and saw her coming. She's something white-hot."

"Susan in white! It must have been her ghost," said poor superstitious Mrs. Dale, putting down her dishes, and turning pale with apprehension.

A great clattering of hoofs over the stones of the yard soon diverted her mind of this absurd notion; for rattling up to the entrance, hardly reined in at the house door, came the dar bay horse, flecked with foam, having galloped for at least five miles at the top of his speed, with the excited half-clad girl upon his back.

It was the work of a moment for Ben to seize the bridle and hold the animal's head, while Susan dropped rather than dismounted onto her aunt's outstretched arms, and overcome by her previous emotions burst into tears.

"Goodness gracious!" cried the good woman, altogether scared, "Whatever does it all mean?"

"I've been robbed, aunt! O, dear! All the money's gone!" and she sobbed still more.

"Foolish girl!" said Ben, affectionately, seeing the girl's half-fainting condition. "Come inside, Susan."

Her aunt led her into the kitchen, and Ben, though as curious as a kitten, knew enough about horses to see that the one he held must not be allowed to stand with his flanks reeling from recent exercise; so he led him off to the stable, and having fastened and covered him well up he returned to the house as quickly as his legs could carry him.

At this moment all were startled, as old Jerry came bawling into the yard, with a clattering ungainly gallop, stripped of his usual accoutrements. He made his own way to the stable; and Ben, entering the kitchen, found Susan sitting by her grandfather in the chimney corner, while she recounted the adventure she had met with.

"Ben was right you see, and I did meet a highwayman," she said, as her spirits began to return. "But I'm too tired to have lost your money."

"What does it matter, so long as you are safe, my dear?" said old Mr. Dale, patting her head. "Why, the horse you were riding is worth more than what you've lost, I'll be bound," cried Ben. "It's a beauty, grandfather! What a brave clever trick you played in riding off on him, Susan! But why was he so vexed about the saddle? Why, of course, he thought there was money in it. That's where robbers hide their plunder. I'll be bound there's something in his saddle. I'll go and fetch it. Hurry!"

Off ran the lad, and calling one of the men, desired him to unseize the animal, and groom him down in the paddock.

The saddle, when removed, proved too heavy for Ben to carry into the house, and old Mr. Dale, who had followed him to see the horse, aided him to bring it in. They laid it on the kitchen table, and commenced searching it all over.

In the padding they found bank-notes amounting to two hundred pounds, and from an artfully concealed leather lining, under the saddle-flaps, golden guineas poured out in incredible numbers on to the table.

"O, my eye!" cried Ben, "Why, Susan, you are the robber after all!"

"O, don't, Ben!" said Susan, beginning to cry. "The astonishment of the old people was unbounded. They went on counting and counting till they arrived at the sum of one thousand pounds, and they looked from one to the other, scarcely crediting their senses."

"Well!" exclaimed old Mr. Dale, "the first thing to be done is to give this up to the proper owners. Susan's nothing to do with it, nor have we. But I think it's our duty to inform the proper authorities where they are likely to find the ruffian. Without his horse he cannot go far away, and Susan may as well have any reward that Government may be ready to give; and this fellow is very likely to be the man who robbed the Yorkshire coach the other day. They offer a hundred pounds to whomsoever finds him."

"O, pray don't, grandfather—pray don't let me be the cause of his being taken!" cried Susan in a piteous way.

"Nonsense, my dear," replied the old man. "When the path of duty is straight and clear before you, you must walk up it, though it's hard and unpleasant. You don't wish yonder thief to take more money, do you, from those who have earned it?"

Without delay, Mr. Dale despatched a man with a full description of the robber, and instructions to the patrol as to the likelihood of his being in the neighborhood, and early the next morning a search was set on foot by the officials of the shire.

Within three days the notorious thief, Bob Heave (for such was his real name, and that by which he was known on the road), was taken. The patrol had been on his track since his attack on the Yorkshire coach, and had no difficulty in securing the villain when purchased by Mr. Dale with the particular of Susan's recollection with him, and her description of his person.

He was lodged in Greystone Jail, and was shortly after convicted and executed. The money found in his saddle was only handed over to Government, who offered half the reward for the man who had been taken. She, however, could not bring herself to accept it, but entrusted that she might keep the robber's horse, Wildfire. This, after much correspondence and deliberation, she was permitted to do, to her great satisfaction, as she regarded the beautiful animal as the cause of her escape from danger and perchance death. The money found on the highwayman was restored to Mr. Dale, and poor Susan's mind was therefore relieved on this point.

She married before long a farmer in the neighborhood, and never ventured to market again.

Ben was in due time invested with the lodge-keeper's dignity of selling the farm produce. He failed to encounter any gentlemen of the road, and, as his grandfather often told him, it was too much to expect two out of the same family to meet and outwit a highwayman.

THE END.

FROM ALL OVER.

THE Nova Scotia Legislature is summoned to meet the 14th of next month.

U. KAY'S KOFFER.—Climax Cough Cakes. Quick cure of all colds, is said.

THIS fire in the premises of Silver & Co., London, caused a damage of £25,000.

MIDDLE AGED MEN, often lack vigor, this can be restored by that great brain and nerve food, known as Mack's Magnetic Medicine. Read the advertisement in another column of to-day's paper. Guarantee issued only by Ormond and Walsh.

TIMELY AID.—A little daughter of the Captain of the Steamer "Empress of India" was suddenly ill with Group while at a friend's house in Toronto. No medical aid being handy, recourse was had to Hagar's Yellow Oil; this popular household remedy afforded prompt relief and the little girl was as lively as ever in a few hours.

A BANKER'S TESTIMONY.—For a Cough, Cold or any Bronchial affection "Pectoral," in my opinion, is just the thing. I have used it in my family for Coughs and Colds for the past four years with the most unvaried success, and today my opinion of it is that I continue to think still more of that which I began thinking well of. Our Canadian readers. The great difficulty to be contended with is the low grade of goods required. In nothing is this more apparent than in the comparatively small article of sewing silk. The great difficulty in Canada seems to be a cheap quality, buyers forgetting that a cheap thread must necessarily be a bad and consequently a weak one. Messrs. Belding, Paul & Co. make three grades of spool silk; of these different qualities the poorest one has by far the largest sale, at the same time they constantly hear of complaints of poor sewing silk. If ladies will take the trouble to read the following notice, and test of the cheaper than our own. Daily Evening Review

MONDAY, JANUARY 21, 1884.

LOCAL NEWS

The Cells.

Five tramps revelled in the luxuries of the police cells on both Saturday and Sunday nights.

The Temperature.

On Saturday night the Rev. V. Clement's thermometer registered 14° below zero; on Sunday night 2° below.

Piano Tuning.

Mr. Geo. J. Gumprecht, tuner for Messrs. Mason & Rich, Toronto, is in town. Orders left at Mr. T. Manzie's Bookstore or at Messrs. Taylor & Macdonald's Drug Store will be attended to.

The Probabilities.

The weather probabilities for this district for the following twenty-four hours, commencing from one o'clock this morning, as reported from the Toronto Observatory, are as follows:—Moderate west to south-west winds, fine weather, stationary or slightly higher temperature.

The Toronto Poultry Show.

At the poultry exhibition in Toronto, Mr. John McClelland, of Peterborough, took the first and third prizes for Buff Cochins and prizes for Light Brahma cockerels and Light Brahma pullets. Mr. Jas. Baptie, of Springfield, took the first and second prizes for Silver Spangled Hamburg hens and a prize for a Toulouse gander.

The T. V. C.

Mr. Carnegie's circular regarding the Trent Valley Canal deputation having been received by the Orillia Town Council and laid over for the new Council to consider, the *Packet* remarks:—

"It is to be hoped the Council will take some action in support of the Trent Valley Canal project, next Monday, either by deputation or petition. Not only will this enterprise open up an important highway of traffic, but it will solve the question of regulating these lakes, in a most practical and useful manner."

The T. V. C. Deputation.

The Canadian Pacific Railway Company, as well as the Grand Trunk Company, have agreed to issue tickets to members of the Deputation going to Ottawa with reference to the Trent Valley Water Route on the 5th February, at one and one third fare for the round trip. Members of the deputation should see that their names are forwarded to Mr. Carnegie in good time so that they may be furnished before they leave home with the certificates necessary to enable them to obtain tickets at reduced rates. We are glad to learn that the prospects for a large and influential deputation are most promising at the present time.

Canadians.

The Peterborough Curling Club will compete with the Toronto Granite for the Canadian Medal at Toronto to-morrow. Three rinks will leave here in the morning for that city. These rinks will be composed as follows:—Rink No. 1—Robert Hall, Andrew McNeill, Dr. Boucher, and E. Philp, skip. Rink No. 2—Adam Hall, R. S. Davidson, W. G. Ferguson, and Melville Millar, skip. Rink No. 3—Hon. R. Hamilton, C. McGill, W. H. Budden, and Geo. Dunford, skip. The match will be played in the afternoon. On Wednesday the Peterborough curlers will take part in a bouquet in which the eastern club will compete against the western club, the trophy to be the brooms of the club defeated in Tuesday's match.

A Fair in 1884.

Every one will remember the commotion the advent of "China Hall" caused some two years ago in the crockery trade, and the wonderful reductions that followed on nearly every commodity dealt in by them. The benefits derived from them are even eclipsed now by a complete revolution (caused by China Hall too) in the oil trade, a necessary that every family in the country consumes gallons of annually. On Monday last they began the sale of coal oil and reduced the price at once fully 50 per cent, and are now offering 5 gallons best Canadian oil large measure for 90 cents, and the same quantity of American for \$1.40, a reduction that should go to the hearts, and pockets too, of the head of every family. In receiving the benefits of the above reduction consumers should remember to whom they are indebted for the low prices and place their order with China Hall.

HIGHWAY ROBBERY

And Threatened Murder—A Woman the Victim of an Assault.

Two attempts at robbery on the streets have been reported recently, but a more desperate attempt, and one that was partially successful, occurred on Saturday evening. On that evening between the hours of seven and eight o'clock, Mrs. Wm. Rogers, who lives on the River road near Mr. Hilliard's mill, was returning from town. She carried in her hand a reticule, in which were a bottle of medicine for a child and some small articles she had purchased. When she had proceeded on her way home as far as Smith street, she noticed a man walking in front of her. He walked on keeping but a short distance in advance, and Mrs. Rogers, thinking that

his actions were suspicious, became a little frightened. The path beaten in the snow on the sidewalk was narrow, there being only about space enough for one person to walk in it. When she had got about half way between the residences of Mr. White and Mr. Richard Hall, the man stopped in the path and turned around facing Mrs. Rogers, obliging her to stop also. He asked her if he was on the right road to Hastings. She replied that she did not know, but that she would go to house, which was not far away, and inquire. When she had made this reply, the ruffian

struck her a blow on the mouth that felled her on the snow. She fell across the path, with her face in the bank of snow at the side of the board walk, and the villain followed up his advantage by springing on her back, placing his knees on her shoulders and holding her down to prevent her from crying for assistance, the ruffian, while holding her head down with one hand, forced the other under her face and filled her mouth with snow. He told her that he would have

HER MONEY OR HER LIFE, but that the possession of her money was his object. He then began to search her dress for her purse, and while doing so he felt her reticule, which she was then lying upon. Snatching this away from her, he fled, leaving the woman, partially stunned, lying in the snow. When she had recovered sufficiently to do so, she screamed lustily and a gentleman who heard her soon came to her assistance. However, by this time the robber had escaped.

There was no trace of his whereabouts. Mrs. Rogers was severely injured, though not in any way seriously. Her mouth was bleeding from the blow she received, and her back pained her, caused by the pressure of the robber's knees on her shoulders. She did not find it necessary, however, to call in medical assistance. The robber did not carry much booty by his desperate attempt to enrich himself. The reticule contained articles to about the value of two dollars, but most of them would be valueless to him. Mrs. Rogers fortunately carried her purse in the bosom of her dress, and the ruffian did not secure it.

The master has been reported to the police, Mr. Rogers having informed Chief Johnston of the occurrence on Sunday, giving a description of the villain. He was not an Italian, a statement which it is, perhaps, better to make. It is to be hoped that he will be captured and punished as he deserves.

PERSONAL

The Rev. S. P. Ross, of Orillia, and formerly of Peterborough, occupied the pulpit of the Charlotte Street Methodist Church on Sunday morning and of the George Street Church in the evening. He preached excellent sermons to large congregations on both occasions.

The Earth and Sky.

A very pleasant and profitable evening's entertainment is afforded by good views of geological and astronomical subjects, accompanied by explanations. The views interest, delight and instruct. Such an entertainment will be given in the school room of St. Andrew's Church on the evening of Friday, Feb. 1st, by Mr. A. P. Knight, M.A. There should be a large attendance of both young and old. Admission 15 cts.; children 10 cts.

The Poultry Exhibition.

The exhibition of the Midland Central Poultry Association, which will be held in the Old Music Hall, Peterborough, on January 29th, 30th, and 31st, promises to be one of the most successful held here. The prize list has been got out, and it is one that should, and no doubt will, attract a large number of competitors from a distance. Communications in reference to the exhibition have been received by the energetic secretary, Mr. Joseph McClelland, from all parts of the Province. Prize lists, forms for entries, &c., may be obtained from the Secretary.

Tussel with an Armed Italian. On Saturday evening several Italians crossed the bridge from Peterborough into Ashburnham, and stopped on the sidewalk in front of the Albion Hotel in the village. One of them played an accordion, and his comrades began dancing on the sidewalk. Constable Craig, noticing that they were blocking up the sidewalk, went up to them and told them to move on. One of the Italians, who could speak a little English, refused to go and struck at the constable. Mr. Craig then seized him, and the Italian struggled fiercely, striking the constable three or four times. The constable called for assistance, and, as there were a number of persons looking on, he soon received aid and the Italian was secured and taken to the lock-up. When he was searched a "Phonix" revolver containing seven chambers, six of which were loaded, was found in his pocket. Some of the spectators of the scene state that he tried to get his hand into this pocket when struggling with the constable. The prisoner, who gave his name as Stampo Poles, was taken before Mr. Wm. Mills, J. P., this morning, charged with carrying a revolver and having been drunk and disorderly. On the first charge he was fined \$20 and on the second \$5 and \$4 costs. The fines were paid, a portion of the amount having been furnished by a comrade, and he was liberated. The revolver of course, was confiscated.

Committee Meeting.

The special committee appointed at the Town Council meeting this morning to draft the Standing Committee for the year, will meet at Mr. Cox's office at 6 o'clock this evening.

Arrival of Oysters.

Owing to the recent snow blockades on points between Baltimore and here, our Oysters have been somewhat longer than usual getting through, but we have to-day received a shipment of very choice Bulk Oysters, which we think will please our customers and those who may favour us with their patronage.

CARTON BRO.

Rich Fruit Cakes,
Raisin Cakes, Sponge Cakes, Lady Cakes,
Chocolate Cakes, Coconut Cakes and other varieties too numerous to mention, with and without icing. CARTON BRO.

Almost every pill contains calomel and other mineral compounds. Dr. Carson's Stomach Bitters is purely vegetable and takes the place of all other purgatives, in large bottles 50 cents.

HEAL REQUIRED.—Dyspepsia does not get along without assistance. It requires careful diet and thorough treatment. Burdock Blood Bitters have effected the most remarkable cure on record of chronic Dyspepsia.

From the Liver and Kidneys arise fully half the ailments of our northern climate. Dr. Carson's Stomach Bitters stimulates both Liver and Kidneys, and insures an against disease; it is not an alcoholic stimulant. In large bottles 50 cents.

NARROW CHANCE OF ESCAPE.—A person exposed to the sudden changes of our northern climate has little chance of escaping from colds, sore throat, rheumatism, frost bites, and other troubles incident to change of temperature, to say nothing of accidents and emergencies. The best external and internal ready remedy is Hagar's Yellow Oil.

JOHN R. VERT, Hamilton, says: "McGregor's Speedy Cure for Dyspepsia and Indigestion is cheap at fifty times the price asked for it. I am a commercial man, and travel continually, and would not more think of leaving home without a bottle of McGregor's Speedy Cure in my valise than I would of leaving my team at home and going on foot." Free trial bottles at John McKee's Drug Store. Regular size fifty cents and one dollar.

Buckley's Arnica Salve. The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Taylor & Macdonald.

Shiloh's Catarrh Remedy. A marvellous cure for Catarrh, Diphtheria, (sore throat), and Headache. With each bottle there is a free nasal injector for the more successful treatment of these complaints, without extra charge. Price 50c. Sold by J. D. Tully.

THE MARCH OF WINTER DRESS GOODS.

Goods well bought are said to be half sold. The march began before ours were fairly on stock, and the march has been kept up since.

We had the best of assortments to begin with, gathered literally both from abroad and at home. The best fabrics picked with the eye of an expert—just such goods as sell.

Never have we had a season of greater activity. Never did our prices seem more inviting. Never was there better proof of it either, for with very few exceptions our prices remain unchanged. Yet customers assure us that they are lower than where stocks have been profusely reduced.

Remember our goods are the freshest from the most famous weavers. Prices, you know is one of our strong points always.

SWEEPING REMNANT SALE

AT THE
Golden Lion.

A REMNANT SALE, TWICE A YEAR, WILL BE ONE OF OUR ESTABLISHED CUSTOMS. All live, pushing Dry Goods Houses must of necessity find themselves with a large percentage of REMNANTS at the close of each season, which are very valuable to, and eagerly sought after by, House-Keepers and Dry Goods consumers generally. Instead, therefore, of keeping these Remnants on our shelves, and carrying them over from season to season, we intend turning over all our "left over" Goods into CASH, and propose offering them to our customers, twice a year, AT PRICES FAR BELOW their Regular Market value.

OUR FIRST JANUARY SALE —OF REMNANTS—

Is now going on, previous to Stock Taking, and we strongly advise all interested, by all means, to come and secure some of the CHEAP LINES before they are all sold. We have a Great Variety, including:

REMNANTS in Dress Goods,
REMNANTS in Cashmeres,
REMNANTS in Merinoes,
REMNANTS in Silks and Satins
REMNANTS in Velveteens,
REMNANTS in Tweeds,
REMNANTS in Ulsterings,
REMNANTS in Flannels,
REMNANTS in Towellings,
REMNANTS in Table Linens,
REMNANTS in Sheetings,
REMNANTS in Crettones,
REMNANTS in Prints,
REMNANTS in Hemp Carpets.

REMNANTS

In other lines too numerous to mention—in fact Remnants in everything you need in the Dry Goods line. To those who wish to secure GRAND VALUES, this is good news.

This Sale will Last the Whole Month, but you should Come and Secure Bargains now.

A CHURCH BURNED.

Efforts of the Whole of the Toronto Fire Brigade Failed to Save the Structure.

On Sunday afternoon Erskine Church, on Simcoe street, Toronto, was found to be on fire. Mr. Mitchell, the librarian of the Sunday School, was the first to make the discovery, which he quickly announced to the superintendent. The children were dismissed, and not till then were the firemen called. The fire was spreading rapidly, and although the firemen were soon on the scene, increased with exceeding fury. The water pressure proved inefficient, and it was deemed advisable to summon the whole brigade. But it soon became apparent that the building was doomed. The roof soon fell in, and it was not till nearly three hours after the first alarm that the fire could be said to be under the control of the brigade, by which time, naturally, Erskine Church was no more.

The building was valued at \$30,000, insured in the British North America for \$20,000. One of the firemen found two little girls crouched in a corner of the schoolroom half dead with fright. He rescued them, and the cheers of the assembled multitude. Complaints about the want water pressure were loud and frequent. There was no disorganization of the fire brigade and all confusion was avoided. The houses close to the church were kept saturated with water, to prevent a spread of the conflagration. At one time there were ten streams of water being brought to bear against the flames. The firemen had to clear the snow from every hydrant before they could attach their hose. Several times the firemen were in extreme danger from falling slate from the roof, but no casualty occurred. It is estimated that ten thousand people packed every approach. Order was maintained by a squad of police. A number of the adherents of the church put themselves in harm's way by rushing into the church to save their papers.

PORT HOPE.

GOT HIS DESERTS.—Dan Donohue was tried on Monday at Cobourg, before his Honor Judge Benson. The charge was for resisting arrest and assaulting a constable. He pleaded guilty and was sentenced for one year at hard labor in the Central Prison. This will teach the rowdies a lesson that they cannot do just as they like when arrested by a constable.—Guide.

LINDSEY.

A FIRE.—About 4.30 o'clock on Sunday morning the residence of Dr. Kemp, corner of Lindsay and Russell streets, was discovered to be on fire; the building was completely destroyed. Most of the furniture was saved in a damaged condition. The loss is estimated at about \$3,000; insured in the Western for \$2,000. The origin of the fire is unknown.

DESTRUCTIVE FIRE.—The residence and office of Dr. Kemp were burned to the ground about six o'clock on Sunday morning. Loss about \$5,000; insured in the Western for \$2,000. Cause of the fire unknown.

TRENT VALLEY CANAL.

A few weeks ago some of our public men urged upon the Town Council the necessity of naming a deputation to go to Ottawa in the interests of the Trent Valley Water Route. We were glad to see such a spirit in the Town.

During the past week Mr. John Carnegie has sent circulars all along the route asking the friends of the work to put their shoulder to the wheel.

Municipalities are also requested to appoint gentlemen to go on a large deputation to wait on the Minister of Railways and Canals at Ottawa.

The day named for the meeting is Tuesday, February 5th next.

According to the circular the object of the journey would be "for the purpose of impressing upon the Minister of Railways and Canals, and his colleagues, the desirability and importance of their obtaining from Parliament, during the session about to open, the authority necessary to enable them to place under construction during the present year another link in this most important chain of navigation."

The lines just quoted explain the object of the deputation to Ottawa.

No doubt the Peterboro' members will urge that the new link should be undertaken in the neighborhood that will do them most good.

They deserve credit for working on that line.

But it is not time that a link "in this most important chain of navigation" were commenced at the Trent end?

Undoubtedly it is time; and the citizens of Trenton should fight for it.

Were Trenton the city of Belleville the link would be now completed.

The Government cannot fairly deny this to the locality, which has many claims.

Let us look into them.

Supporters of the Government were at the last general election returned from North, East and West Hastings—three members from one county.

To the west of us, East and West Northumberland did their best by sending a supporter each.

Surely then this vicinity has claims that should not be overlooked.

The members should be requested to work for the immediate construction of the eastern link of the chain.

Let the voters of West Hastings make Mr. Robertson do hard work.

Let the voters of East Northumberland push Mr. Cochrane to the fore.

It is to their interests to see Trenton boom. It is particularly important to Trenton that the eastern link be commenced, now that the privilege of constructing a dam on the river is denied us.

Our magnificent water power has been long enough running to waste, and Trenton's citizens must see to it that that stain on their character as enterprising citizens be removed with all haste.

Of course Trenton should send her contingent to Ottawa on the 5th of next month.

The council of 1884 will organize on Monday next.

Let its first act be the appointment of at least fifteen citizens, good and true, to join the deputation.

It is important that the gentlemen chosen be Trenton's best.

None should be sent whose object in going would be "just for the name of it."

Send men interested in the work.

Interested in the town's progress.

Men who have weight at Ottawa.

Who will impress, not only the Peterborough men, but also the members of the Government, with their earnestness in respectfully urging that the eastern, a most important "link in this most important chain of navigation" be constructed at as early a date as possible.—Trent Valley Advocate.

"Keep The Ball Rolling."

By an article in another column, from the Peterborough Review, it will be seen that a deputation of delegates from interested municipalities is to go to Ottawa on the 5th prox. for the purpose of interviewing the Minister of Canals and Railways with reference to the continuance of operations on the Trent Valley route, and on the first meeting of our new council on Monday evening next representatives of this village will probably be chosen. Mr. John Carnegie, of Peterborough who has always been a most urgent and active advocate of the project, we believe, the instigator of the present movement, and if the efforts are to be crowned with the hoped for degree of success, it is imperatively necessary that he be heartily and earnestly supported. So much money has already been expended on the canal that there can be but little doubt that it will be completed sooner or later, but 'delays are dangerous,' and (should the work not be continued now that it has been commenced, circumstances might arise that would lead to its abandonment for a discouragingly long time.—Fenton Falls Gazette.

Critical Position of Khartoum.
A Suakin despatch says upwards of fifty hitherto hostile chief have visited the Egyptian camp and promised their support. Osman Digna, chief of the rebels, has sent a communication refusing to negotiate with the Egyptians. He occupies a position on the Sinkat route, twenty-seven miles from Suakin. The position of the troops and Europeans at Khartoum is most critical. Their retreat is cut off; the Arabs hold both sides of the river. Berber is also threatened; borders of Arabs are closing around the place.

Harbour Grace Trouble.
ST. JOHN'S, Jan. 19.—The trouble arising out of the late rioting at Harbour Grace is not yet over. Head Constable Doyle and six Orangemen were brought up this morning charged with the murder of James Callahan on the 24th December. There is more trouble brewing. James Kennedy made a complaint before Judge Bennett, this morning, that he had been shot at by a group of men standing on Church Hill. His breast was grazed and his coat pierced by the bullet.

Polson's Nervilles.
Polson's Nervilles cures flatulency, chills and spasms. Nervilles cures vomiting, diarrhoea, cholera and dysentery. Nervilles cures headache, seasickness, and summer complaint. Nervilles cures neuralgia, toothache, lumbago, and sciatica. Nervilles cures sprains, bruises, cuts, &c. Polson's Nervilles is the best remedy in the world, and only costs 10 cents to try it. Sample and large bottles at Ormond & Walsh's drug store. Try Polson's Nervilles.

CHOPPING DOWN A TREE.

The Boston Transcript says that the chopper works upon one banded knee. Before beginning to cut, he has looked to see which way the tree is inclined. For this he steps back a short distance to where he can see to its very top. If he is in doubt he lifts his axe by the end of the handle and lets it hang freely suspended. This gives him a plumb-line by which he measures the inclination of the tree. But it is not enough to determine in what direction the tree will fall most readily. It may be that large trees are standing right in the way of its falling on that side, and against these the tree will be lodged. It must be carried to the one side or the other, and herein consists one of the mysteries of wood-craft—the skill to guide a tree in its fall. He will direct it with the greatest ease. Having decided where he wants it to go to avoid the risk of lodging against other trees, or of being broken by falling on uneven ground, or to have it lie so that the logs will be convenient for removal, the chopper first undercuts the tree—that is, he cuts upon the side towards which he will have it fall, and in such a manner that the line of the kerf shall be exactly at right angles with the line along which the tree is to lie. If the tree stands nearly perpendicular, and has no inclination to fall as he wishes, the chopper cuts a little beyond the base on that side. By doing this he removes the base when the tree is ready to fall, and rests upon a base of but an inch or two in breadth, so much from the centre of the stump. The effect of this will be very great in moving the tree so that the centre of gravity will be on the side desired. Though he works in a cramped posture, the chopper cuts the stump so level and so smooth he thinks his little boy could spin his top upon it.

Having undercut the tree with the greatest care, the woodman now changes his position a little, but remains on the same side, rests on his other knee, and shifts his hands, that is, wields the axe with the other hand forward. He now cuts upon the other side, leaving the stump two or three inches higher according as he wishes to gain advantage for the last few strokes. The work goes on with little concern until the base is no thicker than a plank, and quite as even; then a blow is aimed full at the centre, and the chopper looks quickly at the top to note the effect. If he perceives a tremor in the trunk, or if a bit of bark or moss is loosened from its hold, he knows now every stroke will tell, and he aims them with the greatest precision. Soon as over the top bows to its fall he marks the direction in which it is moving. If he wishes to bring it more toward him, he strikes a blow upon the farther edge; if to carry it farther from him, the blow is given upon the side that is nearer. These last strokes need to be given with great nicety. If feeble, they will fail to effect their purpose; if of too great force, the tree will be severed from the stump upon that side, and then all control of it is lost at once, and it plunges blindly forward.

A tall tree like the pine is broken from the stump by a force acting quite differently from that which is applied in the case of shorter trees. In its descent the pine acquires at its top a centrifugal force so powerful as to lift the tree from the stump and carry it forward five or six feet before it reaches the ground. When it does come to the earth the top and the butt strike at the same time, and the tree lies half buried in the snow.

A Journalist's Funeral.
LONDON, Jan. 20.—The funeral of the late Mr. William Cameron, manager of the Advertiser Printing Company, took place this afternoon.

Rev. H. D. Hunter, pastor of the First Congregational Church, assisted by Rev. J. Robinson, of the Canada Methodist body, conducted the services at the residence of the deceased.

The funeral was one of the largest and most imposing ever witnessed in the city. Two hundred persons headed the cortege, mostly those engaged in the different printing offices in the city, followed by the employees of the Advertiser office.

Strangest Death.
A Bideford gentleman, having occasion to go into his wood shed, found a weasling lying dead on the block, with his tongue frozen to an axe blade. The axe had been used in cutting beef in the morning, and the animal in attempting to secure a place of the meat which adhered to the blade, had singularly met his death.

Bad Attempt at Self-Murder.
The wife of Mr. John Cochran, butcher, Seaton village, near Toronto, cut her throat with a meat knife on Saturday morning while laboring under a fit of mental depression. She was shortly to be confined and dreaded the ordeal. She is not expected to live.

Egyptian Officials Wanged.
Eight Egyptian officials, including the governor of the town, have been hanged at El Obeid. The heads of the victims were fixed upon poles in front of El Meid's residence.

Almost every pill contains calomel and other mineral compounds. Dr. Carson's Stomach Bitters is purely vegetable and takes the place of all other purgatives, in large bottles 50 cents. At this season of the year there should be a bottle of Pectoral in every house. It is unequalled for Coughs, Colds, and Hoarseness. Pleasant, equally safe for children. Price 25 cents at all druggists.

EVERYBODY should keep such a thing as ZO-VIE-IA in the house, and by regulating the bowels and system, keep away headache, heartache, dizziness, indigestion. ZO-VIE-IA invigorates the liver, makes the family happy by making healthy. Ask J. D. Tully.

WE HAVE a speedy and positive "cure" for Croup, Diphtheria, Canker mouth and Hoarseness, in Shillo's Catarrh Remedy. A nasal injector free with each bottle. Use it if you desire health and sweet breath. Price 50 cents. For sale by J. D. Tully.

Fimples and Blisters.
Call at John McKee's Drug Store and get a package of McGregor & Park's Carbolic Ointment. It is composed of Vaniline, Carbolic Acid and Castile, and has never failed to remove Pimples, Blisters, Ulcerated Sores, Rough Skin. It cures when all others fail. Try it.

Never give up. If you are suffering with low and depressed spirits, loss of appetite, general debility, disorder of blood, weak constitution, headache, or any other disease of a bilious nature, by all means procure a bottle of Electric Bitters. You may be surprised to see the rapid improvement that will follow; you may be inspired with new life, strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Sold at fifty cents a bottle by Taylor & Med-nak.

ANOTHER batch of laborers from Quebec, who were disappointed in obtaining work on the Canadian Pacific Railway at Lake Superior, have employed a lawyer to press their claim for compensation against the company.

LOCAL NEWS

No Mail.

In consequence of the snow blockade on the railways, the western mail did not arrive here at noon to-day.

Toronto Poultry Show.

In noticing the local exhibitors who took prizes at the Toronto Poultry Exhibition, we omitted the name of Mr. N. Lush, who won two first and two second prizes in the Langhans class.

Piano Tuning.

Mr. Geo. J. Gumprecht, tuner for Messrs. Mason & Rich, Toronto, is in town. Orders left at Mr. T. Manley's Bookstore or at Messrs. Taylor & Macdonald's Drug Store will be attended to.

Social.

A Social in aid of the Organ Fund of St. Paul's Church will be given at the residence of Mrs. James Dixon, on Thursday evening. Entertainment to commence at 8 o'clock sharp. Refreshments will be served. All are cordially invited. Admission, 25 cents.

The Probabilities.

The weather probabilities for this district for the following twenty-four hours, counting from one o'clock this morning, as reported from the Toronto Observatory, are as follows:-Fresh south to southwest winds; milder weather, with light snow flurries in some localities.

Health Bulletin.

The official report of the Health of Ontario for the week ending Saturday, January 19th, shows that Bronchitis, Influenza, and Tonsillitis have slightly increased; Whooping Cough is somewhat more severe; Intermittent Fever has remained about the same, and Typhoid has perceptibly diminished. The six most prevalent diseases in the district in which Peterborough is included, in their order of prevalence, are as follows:-Bronchitis, 12.9; Consumption, 8.4; Anemia, 8.2; Neuralgia, 7.0; Influenza, 6.4; Whooping Cough, 6.4.

Missionary Meeting.

The annual missionary meeting was held in St. Andrew's Church on Monday evening. The Rev. Alex. Bell presided, and there were also on the platform the Rev. D. J. Macdonnell, of Toronto, the Rev. James Cleland, of Port Hope, the Rev. James Cameron, of Millbrook, and the Rev. E. F. Torrance, of St. Paul's Church. The Rev. J. Cameron delivered an earnest and instructive address on mission work, and was followed by the Rev. D. J. Macdonnell, who dealt on the augmentation of the stipend scheme. There was a large attendance, the addresses were very interesting, and the meeting was a most successful one.

"Wants, Wanted, and Wanting."

We quote from an exchange the following sensible remarks:-

"It is not an unusual thing for those in want of a position to write to the editor about some one of the advertisements appearing in this paper. Those correspondents will no doubt be surprised to learn that the editor does not know anything about the 'Want' advertisements, or who are the advertisers, except in special cases where a letter of this kind may be accidentally or otherwise addressed to the editor or coupled with the enquiry for a good man or for a position. Neither do we consider it our duty to inquire. Any advertisement of this nature addressed to a number is considered confidential, and passes through the hands of the business management only; the replies are forwarded, and that is the end of the matter so far as the paper is concerned. We make this application because we sometimes get letters asking for the positions advertised in our columns, which we are sorry to say is but a loss of time as far as the advertisement is concerned. We often receive letters of another character both from manufacturers and from help, the one asking for a good man and the other for a position. This class of enquirers gets our best attention, especially if we are in a position to help them, but our time is so thoroughly taken up that we do not always promptly reply when we can render no assistance. What we can do in such cases we do cheerfully and promptly, but in no case do we ask anything for such service."

The police cells were occupied by one tramp last night.

The Registry Office.

Mr. Bernard Morrow, the new Registrar, entered upon the duties of his office this morning. Mr. H. Grundy being retained in the position of Deputy.

Personal.

Mr. Wm. Reynolds has sold out his interest in the Queen's Hotel, Millbrook. He has returned to his old business, having received an appointment on the Canadian Pacific Railway.

Brought to Goal.

On Monday three prisoners were brought to the County Goal by Constable McLaughlin, of Norwood. They were Samuel Newall, sr., and Samuel Newall, jr., (father and son) and Andrew Donohue, who were on Saturday committed by Mr. T. Fraser, J.P., and Mr. H. Drain, J.P., on a charge of having stolen gloves and mitts from an hotel in Norwood.

The Earth and Sky.

A very pleasant and profitable evening's entertainment is afforded by good views of geological and astronomical subjects, accompanied by explanations. The views interest, delight and instruct. Such an entertainment will be given in the school room of St. Andrew's Church on the evening of Friday, Feb. 1st, by Mr. A. P. Knight, M.A. There should be a large attendance of both young and old. Admission 15 cts.; children 10 cts.

The Trains.

A strong wind prevailed last night, carrying the snow along with it and again piling it up in drifts. This had the usual effect on the railroads. This morning's trains from Toronto was cancelled, as it was unsafe to try to force it through the Link, and the old line was blocked up between Millbrook and Bethany. The morning train for Toronto which leaves Port Hope at 6 o'clock got stuck near the Summit, and it did not reach here until twelve o'clock noon. A snow plough, driven by two engines, came in ahead of it and went on over the Link, the Toronto train did not go on until this plough had got through to Osneston. It was expected that the evening trains would run on their regular time.

County Council.

The first session of the County Council for the year 1894 commenced this afternoon, according to law. Several of the members were delayed in coming by the state of the roads. The following assembled shortly after 3 o'clock:-Messrs. John Burnham, Reeve of Ashburnham; John Moloney, Reeve, and Jas. McClellan, Deputy-Reeve of Douro; A. R. Kidd, Reeve of Dumfries; P. Crough, Reeve of Ennismore; Geo. Oliver, Reeve of Harvey; R. C. Strickland, Reeve of Lakeside; H. Collins, Reeve of North Monaghan; John Lang, Reeve, and George Stewart, Deputy-Reeve of Otonabee; M. Sanderson, Reeve, and T. E. Fitzgerald, Deputy-Reeve of Smith. The Clerk announced that he had not received the returns of the elections for the municipalities of Asphodel, Belmont, Burleigh, Galway and Norwood. The Council then adjourned until 10 o'clock to-morrow morning.

Fatal Accident.

ST. CATHARINES, Jan. 18.-Yesterday afternoon about two o'clock while Mr. and Mrs. William Bunting were driving across the Watland Railway track on Niagara street, the horse took fright at an engine which was shunting cars and ran away throwing them both out and injuring them severely. Mr. Bunting received a cut reaching from his eye to the crown of his head, and was at first thought to be dead. As he is about eighty-two years of age his recovery is doubtful. Mrs. Bunting was also knocked senseless, but recovered in about an hour.

A Cool Race.

An American writing from England, regarding the annual Christmas swim in Hyde park, London, remarks:-The spectacle of fifteen men stripped to the buff, swimming a race in open water at daybreak on Christmas morning, naturally associated itself in the mind with the vestiges of a troupe of escaped lunatics. Strange to say, however, year after year, since 1853 at least, a dozen shivering mortals have contested the 100 yard annual handicap, open to all amateurs, swimmers in the Serpentine on the morning of each succeeding Christmas day. On Tuesday last, after the race, the competitors were liberally regaled upon rum and milk by the Serpentine Club, and, so far, I have not heard that any of them have succumbed to congestion of the lungs or acute bronchitis.

Comin' Thro' the Rye.

A pictorial published an illustration of what we presume is the popular misconception of the ditty, giving a liddle and lammie meeting and kissing in a field of grain. The lines are:-

If a liddle meet a lammie
Comin' thro' the rye,
And specially the other complot:-

A lammie they met in the rye,
When comin' thro' the rye,
seems to imply that traversing the rye was an habitual or common thing; but what, in the name of the Royal Agricultural Society, could be the object of tramping down a crop of grain in that style? The song, perhaps, suggests a harvest scene, where both sexes, as is the custom, are at work reaping, and where they would come and go through the fields, indeed, but not through the rye itself so as to meet and kiss in it. The truth is, the rye in this case is not grain at all, it being the name of a small shallow stream, near Ayr, Scotland, which, having neither bridge nor ferry, was forded by the people going to and from the market, a custom allowing a lad to steal a kiss from any lass of his acquaintance whom he might meet in midstream. That is the true explanation; any one will see this who will refer to Burns' original ballad, in which the first verse refers to the lass waiting by the stream:-

Jenny is a' wat, pair boddie;
Jenny's seldom dry;
She drags her petticoats
Comin' thro' the Rye.

Robert Buchanan. If we remember correctly, in his novel *The Shadow of the Sword*, graciously makes use of a legend somewhat similar to this. In his story, however, the hero carries the heroine through the stream. Of course it is in this interesting situation that the denouement in the shape of a proposal with its necessary concomitants, which need not be specified, takes place.

THE MARCH OF WINTER DRESS GOODS.

Goods well bought are said to be half sold. The march began before ours were fairly on stock, and the march has been kept up since.

We had the best of assortments to begin with, gathered literally both from abroad and at home. The best fabrics picked with the eye of an expert—just such goods as sell.

Never have we had a season of greater activity. Never did our prices seem more inviting. Never was there better profit of it either, for with very few exceptions our prices remain unchanged. Yet customers secure us that they are lower than where stocks have been previously reduced.

Remember our goods are the freshest from the most famous weavers.

Prices, you know is one of our strong points always.

FREE RAILWAY PASSES.

By the decision of the Court of Appeal in the
East Northumberland and South Victoria elec-
tion cases it has been settled that it is not illegal
for railway directors to give free passes to electors,
whether such directors are doing so on
behalf of themselves as candidates or of friends
in that position. This must undoubtedly be
taken to be the law at present, for there could
hardly be a more authoritative interpretation of
the statute.

This point being decided the question at once
arises whether this is a satisfactory condition of
the law. We have no hesitation in saying that
the people of Ontario will not consider it satis-
factory, but will look upon this as one of many
grave defects in the statute. The whole tenor
of modern legislation upon the subject,
whether as to Imperial, Dominion or Provincial
elections, is to secure the real voice of the elector
without its being vitiated by corruption or
undue influence, and to prevent the wealth
of one candidate from giving him an unfair
advantage over a less fortunate competitor. The
present of a free railway ticket to a voter cer-
tainly is obnoxious in both these respects.
When the gift even of a glass of beer is held to
vitiate a vote and to be a corrupt inducement,
it surely cannot be argued that the gift of a
railway pass, which may be of the value of some
dollars is a matter of no consequence and of no
effect. Among the "loose fish"—the voters
who are open to inducement—the fact
that passes were being lavishly
distributed for one candidate and not
for the other would undoubtedly
induce them to favour those who were so open
handed. In many cases where the voter wished
to visit old friends or to transact business, a free
railway ride would be exactly equivalent to a
present of the price of a ticket, and would be sub-
stantially as much a bribe as a bank note would
be. So much for the use that might be made of
such a system for purposes of corruption.

But in another aspect the matter is of still
greater importance. It is contrary to public
policy that a rich man should have an unfair
advantage over a less wealthy candidate. This
is guarded against in one respect by making it
illegal to pay the expenses of a voter coming to
the polls from a distance. To allow the same
object to be attained by the present of a free
pass is certainly most illogical, and can only
arise either from an oversight, the legislation,
or from a tricky intention of leaving such a
loophole. And it must be remembered that the
result would not effect only the member and the
party thus favoured. It is well-known that
railway electors have thus used their official
position in many cases which have not been
publicly investigated. With the practice
declared legal, instead of being in doubt, as
formerly, can it be doubted that it will be still
more widely and generally adopted? With such
wholesale facilities for influencing corruptible
voters and bringing to the polls poor or distant
voters, what chance would a private candidate
have against the director or the nominee of a
railway company? Our legislature would be
packed with the representatives, not of the
independent electors, but of the railways, which
would indeed become all-powerful. We cannot
believe that this is the desire of the people.

While we find ourselves thus retrograding,
in Great Britain they have just made the advance
of passing a more stringent election law, one of
the provisions being to make it illegal to convey
voters in public vehicles. Not having seen the
full text of the Act we cannot say whether any
special reference is made to railways in this con-
nection; but railway directors there would no
more think of committing the dishonesty of
using the property of their shareholders in this
manner for their private purposes than they
would of appropriating the money of the share-
holders. Such a use of railway passes by
directors may be legal, but as a matter of justice
it is, in our view, only adding to the offence
of unduly influencing electors, that of appropriat-
ing to one's own purpose property entrusted to
one by others to be administered for their
benefit.

The sooner the law is amended in this regard
the better.

WRECK OF THE "COLUMBUS"

Terrible Loss of Life—More than a Hundred
Killed.—The Captain's account of the Wreck.

New Bedford, Mass., Jan. 19.—Captain
Wright said that about 12 o'clock he stepped
into his room to warm himself. It was very
cold and as everything was working well he
went below for a short time. Soon after he
heard the second mate, who was in the pilot-
house with the mate, sing out, "Port the helm."
"I jumped out of my room thinking we had
come across a vessel bound down the sound.
I then cried out, 'Hard a port,' and in the
moonlight saw the buoy on the Devil's
bridge in about two points off the forward beam
and about three hundred yards distant. She
immediately struck. I ordered the engine to
be reversed, and she backed about twice her
length. The steamer immediately stopped and
I endeavoured to head her to the north, but
she filled forward and listed over to port, so that
the plankstrake was about four feet under the
water. I went aft and told the passengers to
keep cool and get life-preservers. I sent told
the officers to get life-preservers, and next told
an officer to get the boat ready. The steamer
settled down aft and righted. It was blowing
very hard and a heavy sea running. We
launched a boat, which was immediately cap-
sized. The sea was breaking upon the steam-
deck, and the stern being entirely under water
we were forced to go up on top of the houses.
I staid there a minute, but we were quickly
obliged to take to the rigging. The mate,
second mate, chief engineer, and fourth engine-
er took to a raft. I think the steamer struck on a
rock." The Captain is positive that he
struck outside the buoy, and in tanking drifted
inside.

The officers of the cutter "Dexter" say that
the wind was blowing a gale and a terrible sea
was running as they approached the vessel. She
sank in about four fathoms of water. The rail-
ing on the bow is the only portion of the hull
visible. It was impossible to row over the rig-
ging as the bows would have been pounded to
pieces. Men in the rigging were forced to jump
into the sea and we caught them as they arose
to the surface and pulled them into boats. Some
of the men could not swim but nearly every one
in the rigging was saved. Eugene McGarry
jumped from the rigging. Lieutenant Rhodes
sprang for him, but the boat was lifted fifteen
feet on a crest, and it was necessary to starboard
to avoid being capsized. Captain Wright was
among the last to leave the ship. Two men
frozen so stiff as to be unable to relinquish their
hold on the rigging, were at length the only
persons remaining on the steamer, excepting
the captain. Lt. Rhodes asked him to jump,
but he shouted, "Save those men first; they are
frozen." There was no answer. The Captain
then jumped, although he could not swim a
stroke, and was rescued. Lt. Rhodes at the
peril of his life, rescued the last two men in the
rigging. One was Mr. Richardson, who died
before reaching the cutter. About \$400 was
found in a wallet in his pocket.

THE SAVED.

The names of those saved are: Horace Water-
house, of Bath, Me.; John White, Prince Ed-
ward Island; F. W. Fairbanks, Gorham, Me.;
Thomas O'Leary, Bremen; R. T. Briggs, Fur-
ber, Hanson and S. E. Wright (captain), all of
Boston; A. A. Pittman, Brooklyn, steward; G.
D. Whitcomb, Hudson, Mass.; H. W. Farne-
worth, Townsend, Mass.; H. W. Loring, Law-
rence, Mass.; E. McGarry, alias McGarry,
Somerville, Mass.; H. A. Phillips, first assistant
engineer; John Madden, Charlestown, P. E.
I.; T. R. Hammond, Goldboro, Me. Four
bodies were brought to the city on the Dexter.
They are all men. One is not identified. Two
are identified as H. Brooks, Northboro, Mass.,
and G. Fred Chandler, Hyde Park. The other
is supposed to be a member of the firm of C.
Richardson & Co., Clinton Market, Boston.
One of the passengers lost was Mr. J. Morton,
lately connected with the Boston Globe, who
was going south for the benefit of his health.

THE DEAD.

Boston, January 19.—The City of Columbus
had eighty first-class and twenty-two steerage
passengers, about one-third of whom were ladies
and children, and a crew of forty-five. The
total number of persons saved is twenty-three.
Five dead bodies have been recovered and 119
souls are thus unaccounted for. Among those
dead are Oscar Jaeger, Turkish Consul-General
at Boston; W. W. Wright and wife, Boston;
E. S. Rand and wife, Roxbury; T. K. Hale,
Boston; Levi Lawrence, Geo. H. Kellogg, Dr.
H. C. Bartlett and wife, Mrs. S. Keene, resi-
dence unknown; Mrs. Dr. Small, Southamp-
ton, Mass.; Miss Beech and Mrs. Gibson, resi-
dence unknown; A. J. Morton, Boston Globe;
H. Brooks, Northboro, Mass.; Mr. and Mrs.
C. A. Rand and son, Boston; Mrs. Henry
Slade, Chelsea; E. B. Belyne, wife and
two children; Mrs. J. Atkinson, Mrs. L. Davis,
Mrs. H. J. Kellogg, C. Richardson and wife,
E. T. Hutchinson and wife, S. Vance, resi-
dence unknown; Henry L. Batchelder and
wife, Dorchester; James A. Knerrill, Boston;
Henry T. Daniels and wife, C. J. James,
residence unknown; Mrs. James Beal and
Miss Beal, Mrs. Wilcox, D. W. Mitchell, J.
T. Tibbitts, T. A. Day, M. Sargent, A. Cum-
mings, D. Eaton, G. Chase and wife, Dur-
ham, residence unknown; Mrs. S. J. Pihlman
of Lynn; W. Lapham, G. E. Hammond, C.
D. Ball, C. Frost, residence unknown; Joel
Noakes, Boston, steerage. The residences of
none of the following are known: Annie K.
Slate Smith, G. E. Goodrich, G. C. Coffey, G.
Hines, C. Griffin, C. Giddings, W. E. Wright,
August Pearson, J. R. Heber, J. G. Whitcomb,
G. G. Willet, Brown, Walker and Fasset. The
last three applied for tickets just before the
hour of starting, and their full names were not
obtained. The officers lost are the first mate,
Edward Fuller, of Barnstable; second mate,
Alles Eldredge, of Chatham, Mass.; boat-
swain, Philip Clark, of Boston; quartermaster,
McDonald, engineer, Arrishall, Mortimer, of
Boston, third engineer, Collins; purser, W. B.
Spaulding, Boston; second steward House, and
33 seamen, names unknown.

THE STEWARD'S STORY.

New Bedford, Jan. 18.—A. F. Pittman,
chief steward of the steamer, said: "I was in
my berth when the vessel struck, and was not
awakened by the shock. A general alarm was
given. The greatest excitement prevailed and
women rushed about the cabin in their night
dresses. In about twenty minutes the steamer
listed, and the houses were carried away by the
sea. Almost immediately, as the passengers
came on deck they were swept overboard by
scores. The scene was terrible. After the
vessel listed I made my way along the wind-
ward side up an inclined plane and into the rig-
ging, where about forty persons, all men, had
taken refuge. There we clung for life, with
fingers numb, and with floating corpses and
debris at our feet."

A PASSENGER'S NARRATIVE.

John T. Cook, of Portland, Me., one of the
passengers, said that many women were heart-
rended. John Rosch, coal passer, dangled
from the mainmast for two hours with his hands
and legs about the mainmast. At length his
struggles grew feebler until he dropped into the
sea. The passenger was outside the stay and
clung there from five until nearly ten a.m.,
when he too relinquished the fight for life and
fell into the ocean. All the rescued gave the
highest praise to the officers of the revenue cut-
ter for the bravery they manifested in saving
them from the wreck. All the survivors are
now on board the cutter where they are cared
for by the officers. The Mayor tendered the
hospitalities of the city to the survivors, but

they preferred to stay on board the cutter. The
steamer was fast going to pieces when the cutter
left her at six p.m.

A CORRECTED LIST.

The City of Columbus had 59 first class and
22 steerage passengers, and a crew of 45. Of
these 55 first class and 18 steerage passengers
and 34 of the officers and crew were lost.

ENGLAND AND THE NORTHWEST.

Winnipeg merchants who have just returned
from the British markets, say the cable des-
patches sent by American correspondents to the
English newspapers respecting the agitation in
Manitoba, caused considerable excitement. The
stead English people began to believe that the
Northwest was on the eve of civil war. This
impression was confirmed later on by the pub-
lication in the London Money Market Re-
viewer, and other Grand Trunk organs, of the
wild and somewhat incoherent ravings of the
agitators and of the blood and thunder articles
of our respected neighbor and the Toronto
Globe. It would take years to kindle even a
small fire among the farmers of the Old Coun-
try. They have encountered six or seven bad
harvests in succession, yet have never dreamed
of rebellion; and they naturally concluded that
if, as the despatches said, Manitoba was up in
arms, the people meant revolution and nothing
short of it. One of these despatches, which we
reproduced in the London American Set-
tler states that "Canada is in a bad way; her in-
dustries are idle; her cereal crops poor; the
hog cholera is raging in parts of her terri-
tory; the Chinese of Victoria are murdering
and plundering for a living; the Northwest
farmers are holding angry indignation meetings;
Manitoba is moving for annexation to the Uni-
ted States, while its inhabitants are emigrating
in large numbers." These grossly exaggerated
reports created some consternation throughout
the three kingdoms, and Canadian credit was
temporarily shaken. Manitoba has suffered
more than any other portion of the Dominion,
for the eyes of nine out of ten intending emi-
grants were turned to this Province; and the
systematic and sensational misrepresentation
no doubt had a bad effect. The agitators urged
the Dominion Government to spare no pains in
inviting settlement and capital to the North-
west, and then deliberately frightened away
capitalists and emigrants by heaping that noisy
war-drum the absurd Bill of Rights.

While the American correspondents were
sending over this daily onslaught of false-
hoods about the condition of affairs in the
Northwest, an able champion of our interests
appeared in the person of the Marquis of Lorne.
He delivered a series of speeches on Canada in
London and the provinces which were published
in full by all the leading papers and circulated
freely in the country press. He deserves the
thanks of every man who has a stake in this
region. The injury done to the country by the
Martine and the Bayliss and their American
abettors will be seriously felt for some time to
come; and but for the valiant defence made by
Lord Lorne, the blows they delivered at the
Northwest would have done us infinite damage.

Terrible Boiler Explosion.

ROCHESTER, N. H., Jan. 18.—One of the boilers
connected with the shoe manufactory and tan-
nery of E. G. & E. Wallace blew up this after-
noon, killing four men and injuring several
others. The machinery was run by an engine
and three boilers. The noon, there being some
trouble with the safety-valve. Engineer James
Crimes weighted it down with a brick and dis-
connected the middle boiler. At one o'clock,
it being found that there was not sufficient pow-
er to drive the machinery, orders were given to
shut down the engine. Fifteen minutes after the
disconnected boiler burst with a detonation
which was heard for miles. Five men were in-
stantly killed and five were seriously wounded,
two of whom will probably die.

LOCAL NEWS

Personal.

We are pleased to see that Mr. W. Fairweather has quite recovered from his indisposition, and is again giving personal attention to his business.

A Delegate for South Monaghan.
William Rutherford, Esq., of South Monaghan, is the delegate appointed to represent that municipality at Ottawa in behalf of the Trent Valley Canal scheme.

Piano Tuning.

Mr. Geo. J. Gumprecht, tuner for Messrs. Mason & Risch, Toronto, is in town. Orders left at Mr. T. Mansie's Bookstore or at Messrs. Taylor & Macdonald's Drug Store will be attended to.

Carriage.

In the curling bonspiel which was to take place at Toronto to-day, Blanks No. 1, 2 and 3, Peterborough, were drawn against rinks from the St. Catharines, Mount Forest and Woodbridge Clubs.

A Hint.

When the Ontario and Quebec Railway yard in Toronto is opened, rooms are to be set apart for the use of the Young Men's Christian Association. The Peterborough Association might take the hint, and endeavor to secure a room in the company's buildings here for meetings, as they have now in the Midland Station.

The Probabilities.

The weather probabilities for this district for the following twenty-four hours, counting from one o'clock this morning, as reported from the Toronto Observatory, are as follows:—Strong winds and gales from the northwest and west; cloudy to fair, decidedly colder weather, with light local falls of snow; very cold to morrow.

Shedding Snow.

It is necessary that the snow should be cleared off the roofs of the buildings on George street, but care should be taken of how and when it is done. Shedding off the snow in the middle of the day or in the afternoon, when horses are passing along the street, is a little dangerous. Several teams have been frightened by the falling snow, and runaways narrowly prevented.

Entertainment.

The St. Luke's Church of England Temperance Society held its usual monthly concert in the school room on Monday evening. The attendance was very good. The entertainment was more than usually interesting, the programme consisting of songs and readings, interspersed with a more than usual quantity of musical selections. Those who kindly assisted in furnishing the entertainment were Mrs. Bowman, Miss Minors, Dunn, Butcher, Miller, Scott and McGarrity, and Messrs. Gardner, Sanderson, Best, Lech, Sherwood, F. Miller and the Incontinent. Miss Lech presided at the organ. This was the fourth monthly concert held under the auspices of this Society, and they have all been very successful, one of the secrets of their success being that a good programme is always furnished. The next entertainment will be on the evening of the 4th of February.

Town Council Committee.

Perhaps the members of the Town Council did not notice that the report of the Committee which drafted the Standing Committees did not name the Chairman of any of the Committees appointed. Such, however, was the fact, and the question is, who are the chairmen? The Special Committee's report of the year before stated the "first named on each" were to be the chairmen, but the report this year does not say so. By Rule 30 of the Council, the member moving for the appointment of a committee becomes chairman thereof, unless the motion provides otherwise. Now, as Councillor Rutherford's name was signed to this report, and as he moved its adoption, thereby moving the appointment of these committees, does it follow that he is Chairman of each of them? If so, we fear that even Councillor Rutherford's well-known desire for Council work would be satisfied before the year expired.

COUNTY COUNCIL.

The January Session.—Mr. John Lang, Reeve of Otonabee, Elected Warden.

The County Council met on Monday afternoon, when, several members being absent, through the bad state of the roads, it immediately adjourned until Wednesday morning at 10 o'clock.

On Wednesday morning the Council again met. The following gentlemen took their seats, having presented certificates from the Clerks of their respective municipalities of their having been duly elected:—

ASHBURNHAM—John Burnham, Esq., Reeve; Ashbourn—John Walsh, Esq., Reeve; Jas. Stephenson, Esq., Deputy Reeve. DOUGLAS—John Moloney, Esq., Reeve; James McElgott, Esq., Deputy Reeve. DUMFRIES—A. R. Kidd, Esq., Reeve. ENNISMORE—P. Crough, Esq., Reeve. GALWAY—M. Mansfield, Esq., Reeve. HARVEY—George Oliver, Esq., Reeve. LAKEFIELD—R. C. Strickland, Esq., Reeve. NORTH MONAGHAN—Henry Collins, Esq., Reeve. OTONABEE—John Lang, Esq., Reeve; George Stewart, Esq., Deputy Reeve. SMITH—M. Sanderson, Esq., Reeve; T. E. Fitzgerald, Esq., Deputy Reeve. The absentees were John Brown, Esq., Reeve of Belmont; F. Elmhurst, Esq., Reeve of Burleigh, and Thos. Fraser, Esq., Reeve of Norwood.

ELECTION OF WARDEN.

The Clerk having called upon the Council to elect a Warden, it was

Moved by Mr. M. SANDERSON, seconded by Mr. A. R. KIDD,—That John Lang, Esq., Reeve of Otonabee, be elected Warden for the present year.—Carried.

Mr. LANG having taken his seat, thanked the members of the Council for the honor they had conferred upon him. When he came to the Council eighteen years ago, he did not expect to ever fill the office of Warden. He would fill the office to the best of his ability, and as there were members present who had more experience, he hoped to have their advice. He hoped that he would perform the duties of the office to which they had elected him with credit to himself and the Council.

The minutes of the last meeting were read and confirmed.

AUDITORS.

Mr. John J. Hall was, in motion, appointed one of the auditors, and the Warden appointed Mr. F. E. Bell the other auditor.

Mr. W. A. Stratton was appointed Seasonal Clerk.

SPECIAL COMMITTEE.

Mr. SANDERSON moved, seconded by Mr. STEWART,—That Messrs. Burnham, Collins, Strickland, Kidd, Moloney, Walsh and the mover and seconder be a committee to draft the Standing Committees for the year.—Carried.

FOREST PRESERVATION.

Mr. MOLONEY said he had received a letter from Mr. R. W. Phipps, asking advice as to legislation for forest preservation.

On motion, the Warden named the following committee to consider the matter:—Messrs. Moloney, Strickland, Collins and Sanderson. The Committee appointed to draft the Standing Committees presented the following report:—Your Committee recommend that the Committees for the year 1894 be composed as follows:—

COUNTY PROPERTY.—Messrs. Burnham, Sanderson, Stewart, Collins, Crough, Brown and Walsh; Mr. Sanderson, chairman. ROADS AND BRIDGES.—Messrs. Moloney, Crough, Kidd, Fitzgerald, Brown, Stephenson, Elmhurst, Mansfield, Strickland, Collins and Fraser; Mr. Moloney, chairman.

SCHOOLS.—Messrs. Walsh, Oliver, Fraser, Fitzgerald, Elmhurst, Stewart, Kidd, Brown and Crough; Mr. Walsh, chairman. FINANCE AND ASSESSMENT.—Messrs. Strickland, Moloney, Collins, Fraser, Brown, Burnham, Kidd, Stephenson, Crough and Sanderson; Mr. Kidd, chairman.

FERROUS.—Messrs. Mansfield, Stewart, McElgott, Oliver, Brown and Elmhurst; Mr. Stewart, chairman.

PRINTING.—Messrs. Walsh, Kidd, McElgott, Stewart, Brown, Strickland, Elmhurst, Mansfield, Fitzgerald, and Fraser; Mr. Strickland, chairman.

APPOINTMENTS TO OFFICE.—Messrs. Sanderson, Burnham, Walsh, Kidd, Oliver, Collins, Crough and Strickland; Mr. Collins, chairman.

EQUALIZATION AND ASSESSMENT.—Messrs. Fraser, Moloney, Collins, Kidd, Brown, Strickland, Burnham, Elmhurst, Stephenson, Sanderson and Crough; Mr. Burnham, chairman. All of which is respectfully submitted.

M. SANDERSON, Chairman.

The report was, on motion, adopted, and the Council adjourned until 3 o'clock in the afternoon.

The Trains.

Travel to and from Toronto was entirely suspended on Tuesday by the snow blockade. The train which left Port Hope in the morning arrived at Peterborough at noon, having been all forenoon coming thus far. A snowplough was then sent out on the "Link," and the train was to move on to Toronto as soon as the plough reached Otonabee. A number of passengers, many of whom had been at the station from early in the morning, still waited, hoping each minute that they would be able to start the next. But the afternoon wore away, and at half past five o'clock a train was sent to Port Hope, the passengers who wanted to go west going with it to catch the west bound express on the Grand Trunk. A snow plough came down over the "Link" this morning, opening the road, and the train going west left here at about 9 o'clock, the morning train from the west arriving about fifty minutes late. The Grand Junction has fared badly in this storm. Conductor Morris left here with his train on Tuesday morning, but when four or five miles east it became fast in the snow, and, with the aid of a relief engine, succeeded in getting back to Peterborough at half-past four in the afternoon. This line is not yet open.

"Stub" Cough Cure, 25 Cents. Prescription of a Boston physician, dispensed years by a Boston Druggist. One dose will cure any ordinary cough. It acts almost magically. Ask J. D. Tully for a 25 cent bottle of Stub Cough Cure.

Not to be dependent on others—that is strength, intellectual and moral.

THE HIGHEST HONORS have been awarded to Dr. Van Buren, of Germany, for the permanent relief afforded by his Kidney Cure to all sufferers of Kidney Disease. It is unobtainable in any form elsewhere. The Leading Medical Authorities of Europe that Dr. Van Buren's Kidney Cure will permanently remove all traces of Kidney Disease from the system.

The Champion Engine.

A Champion agriculture engine, manufactured by the Waterous Engine Company, Brantford, has arrived at the Midland Railway station for Messrs. Calder & McMaster, Dundas, ordered through Mr. Duncan McLeod, Peterborough. We have before us a beautifully printed, illustrated catalogue of the Waterous Engine Works, dealing more particularly with the Champion agricultural steam engine. The usually dry details of the descriptions of the engines is relieved with full page wood cuts of much artistic merit. One of the principal advantages of this engine is the patent spark arrester. The danger from sparks has been the principal defect of portable engines, but with the arrester furnished with this engine steam currents are used to deposit all sparks in water, rendering it as safe as the old fashioned horse power. To prevent sparks falling from the furnace door, a cast-iron hood is placed over the opening in the boiler, the door being on the outside of the hood. The vertical tubular boiler used for the engine is compact, light, simple and economical, as well as safe. A dry pipe inside the boiler running to the centre, perforated with small holes, causes the steam to be drawn evenly from all points of the steam chamber, and the boiler has many other advantages. It is made of the best English boiler-plate, with heads and fire box of Fred. Krupp's extra best fire box iron. The engine has every appearance of being light, durable and powerful, and just such as would be most useful and convenient for agricultural purposes. It is a superior piece of mechanism, and has stood the crucial test of use with the greatest success.

Social.

A Social in aid of the Organ Fund of St. Paul's Church will be given at the residence of Mrs. James Dixon, on Thursday evening. Entertainment to commence at 8 o'clock sharp. Refreshments will be served. All are cordially invited. Admission, 25 cents.

Rich Fruit Cakes.

Raisin Cakes, Sponge Cakes, Lady Cakes, Chocolate Cakes, Coconut Cakes and other varieties too numerous to mention, with and without icing. CARTON BROS.

Dyspepsia and Liver Complaint.

It is not worth the small price of 75 cents to test yourself of every symptom of those distressing complaints? If you think so call at our store and get a bottle of Shiloh's Liver Balm. Every bottle has a printed guarantee on it, use accordingly, and it does you no good it will cost you nothing. Sold by J. D. Tully.

SINGERS and public speakers are always benefited by using Down's Elixir, as it removes the hoarseness and increases the power of the voice. Take small doses often. Price, 25c, 50c, and \$1.00.

FOR A HARD COLD, with pain in the head, bones or through the chest, take Down's Elixir at once, and it will relieve you, cover up well in bed. AL JOUR WELLS, you will soon be well.

TIMELY AID.—A little daughter of the Captain of the Steamer "Empress of India" was suddenly ill with Croup while at a friend's house in Toronto. No medical aid being handy, recourse was had to Hagar's Yellow Oil; this popular household remedy afforded prompt relief, and the little girl was as lively as ever in a few hours.

THE MARCH OF WINTER DRESS GOODS.

Goods well bought are said to be half sold. The march began before ours were fairly on stock, and the march has been kept up since.

We had the best of assortments to begin with, gathered literally both from abroad and at home. The best fabric, picked with the eye of an expert—just such goods as sell.

Never have we had a season of greater activity. Never did our prices seem more inviting. Never was there better proof of it, either, for with very few exceptions our prices—remain unchanged. Yet customers assure us that they are lower than where stocks have been profusely reduced.

Remember our goods are the freshest from the most famous weavers.

Prices, you know is one of our strong points always.

ONTARIO LEGISLATURE.

FIRST SESSION OF A NEW PARLIAMENT FORMALLY OPENED.

Speech from the Throne by Lieutenant-Governor Robinson—A Flattering Reference to the Marquis of Lansdowne—Various Matters Referred to.

By Telegram to the Review.

On Wednesday, the Ontario Legislature having met, Col. Clarke was nominated Speaker by Mr. Mowat, seconded by Mr. Baxter. Mr. Meredith assented on behalf of the Opposition, and Col. Clarke was unanimously re-elected Speaker.

The Ontario Legislature was formally opened this afternoon by Lieutenant-Governor Robinson with the following speech:—
Mr. Speaker and Gentlemen of the Legislative Assembly:

It gives me great pleasure to welcome you to your legislative duties as members of a new Parliament, convened for the first time since the general election of the past year. The occasion is rendered more auspicious by the advent of a new Governor General, who, by his public appearances and addresses, has already created a favorable impression on the minds of all classes in the Dominion. The fact that his Excellency is a trained and experienced statesman is a guarantee that the high and honorable position to which he has been called by Her Majesty will be wisely filled.

It is satisfactory to know that during the past year the Bureau of Statistics has continued to do good service by collecting and disseminating trustworthy information respecting the agricultural and manufacturing industries of the Province; also that the highly practical experiments which have done so much to justify the establishment of the model farm in connection with the Agricultural College have been continued with conspicuous advantage.

The newly instituted agricultural examinations are also likely to prove of much service. I have much pleasure in anticipating that the means adopted for the diffusion of agricultural knowledge will in a constantly increasing degree make the farmer's calling more intellectual, attractive and remunerative.

It was my agreeable duty last year to congratulate your predecessors upon the work done by the Provincial Board of Health. The report of this body shows that trial and further experience have produced increased efficiency. As well directed efforts to improve the sanitary condition of the people's houses promote longevity and increase the sum of general happiness. I commend to your thoughtful consideration the subject of rendering the services of the Board still more effective and valuable. It is with especial satisfaction that I congratulate you in the early and successful application of the Free Libraries Act; following the example promptly set by the Provincial Capital, other municipalities have availed themselves of the provisions of the Act and taken steps to tax themselves for the establishment of free public libraries. I hope that this is but the beginning of a beneficent movement which will have far reaching effects.

You will be pleased to know that by a recent decision of the Judicial Committee of Her Majesty's Privy Council the right of Provincial Legislatures to regulate the traffic in intoxicating drinks is placed beyond controversy. The judgments in this case, and the insurance cases, and the decision that lands escheating to the Crown for want of heirs are the

property of the Province taken in connection with the observations made by the learned judges in disposing of these cases have had a reassuring effect on the public mind by showing that the federal principle embodied in the British North America Act, and the autonomy it was intended to secure for the individual Provinces are likely to be safe in the hands of the Court of final resort for constitutional questions.

At the last Session of the Federal Parliament an Act was passed declaring that the main lines of railways in the Province, and all railways now or hereafter connecting with them or crossing them shall be subject to the Legislative authority of the Parliament of Canada. It will be for you to consider to what extent this enactment removes from the control of the Provincial Legislatures roads which have been constructed under its authority and subordinated of the Provincial treasuries, and also to consider whether the British North America Act was intended to enable Federal Parliament to interfere in this manner with the Legislative authority of the provinces.

I am glad to have it in my power to state, as the result of negotiations between my Government and that of Manitoba that a case has been agreed upon for a reference of the dispute respecting the inter-provincial boundary, to the Judicial Committee of Her Majesty's Privy Council. The first question to be decided under that reference is the validity of the award made by the arbitrators in 1878, and a controlling condition of the reference is, that the hearing before the Privy Council shall take place at a fixed date in the present year. The agreement includes interim arrangements in regard to all matters of Provincial jurisdiction.

A bill will be submitted to you for the purpose of giving full effect to these parts of the agreement which require legislative sanction.

Among the other measures to be submitted for your consideration will be a bill to render the services of the Board of Health more effective and valuable, a bill to further improve the Liquor License Laws, a bill consolidating and improving the fruit trees, a bill to authorize second locations by settlers who have obtained free grants and have parted with them, a bill to provide voters' lists for the unorganized parts of the Province, and a bill for the further improvement of the election law, and for the prevention and punishment of corrupt practices at elections.

In his connection I invite your attention to the expediency of further extending the already liberal franchise which prevails in this Province.

The subject of protecting the public interest in streams used for the purpose of floating timber will no doubt again receive your earnest attention.

The reports of the various departments of the public service for the past year will be laid before you. Among these are, for the first time, reports on the important subject of forest preservation, and the report of the Inspector appointed under the Judicature Act to inspect the county officers connected with the administration of justice in the Province.

The reports of the Inspectors of Asylums show that further accommodation is needed for idiots, and I commend the subject to your humane attention.

The public accounts of the Province, showing the receipts and expenditures of the past year and the estimated expenditure for the current year will be promptly laid before you. The estimates have been prepared with a view to keeping the expenditure as low as possible consistently with regard for the public interest.

I trust that the legislative labors of this first session of a new Parliament may be characterized by as high a degree of prudence, moderation, and intelligence as those of any previous Parliament.

STEAM AND FUEL.

To the Editor of the Review.

SIR,—The proposition now before the town of Peterborough to form a Steamboat and Fuel Co., in case that our townpeople ought to look at favorably. When our Trent Valley Canal is completed Peterborough should endeavor to control the carrying trade of the whole route. We are the largest place directly situated on the canal; we have several flour mills, factories, foundries, and unlimited water power to drive a great many more. We are now a great railway centre, and it we succeed in making this a great steamboat centre as well, it must add materially to the trade of our town. I trust our leading people will not allow this opportunity to pass, and let our neighbor, the town of Lindsay, who has already taken steps to secure the control of the upper waters, take the wind out of our sails.

Yours, etc.,
CANOEIST.

Look Out

for the great clearing sale of rich and valuable goods at W. Fairweather & Co., commencing next week. LARGE FIRE IN MONTREAL.

Sugar Refinery Destroyed—Loss Estimated at \$150,000.

MONTREAL, Jan. 22.—The most destructive conflagration that has occurred in this city for several years past took place this morning in that portion of the St. Lawrence Sugar Refining Company's great establishment facing King street, and of the principal centres of manufacturing industries here. All efforts were employed to confine the fire to the building where it originated, but they were not wholly successful, as the three-story factory also of brick, in the rear, which S. Davis & Son turned out their cigar boxes in, was also gutted and the walls seriously injured. There is no doubt that the fire originated in the carpenter's shop on the third flat of the cigar boxes, as a gentleman who was at the place before the firemen stated that he saw the first appearance of smoke and flame that issued from the building from the part where the shop was located. How it originated is still a mystery, for it is asserted that the men were working in the other end of the factory, and not in the side where the fire evidently broke out. The establishment will have to be rebuilt from the ground up, as the walls are mostly crumbled down and entirely useless. The valuable machinery and stock of sugar on the lower flat are irretrievably ruined by the flames, and as the machinery must be imported from England, it will take a considerable time to replace, but the building will not be ready for it before six months at the soonest. All the machinery in the mill-house, cigar-house and syrup department has been melted and twisted out of shape. The total insurance is \$166,480, and the nearest approach to the loss that could be calculated is about 80 per cent. of the policies.

THE CITY OF COLUMBUS.

New Bedford, Jan. 22.—After delays, blunders, and mismanagement that have been heart-breaking, something like system has been introduced into the work of recovering and identifying the victims of the shipwreck. Col. Rand, of Boston, who lost his father and sister-in-law, has engaged a vessel at his own expense to search for the dead, the steamship company having made little effort in that direction. Fishermen say the City of Columbus did not strike on the Devil's Bridge, but on a mussel bed which is 300 feet outside the buoy. They contend Captain Wright was correct when he said he saw the buoy on the steamer's port bow. Quartermaster McDonald, the man at the wheel when the accident occurred, had reported as having said that when off Nobeke Light Captain Wright gave him the course he pursued that course until the vessel struck. Captain Wright says before entering the steamer room he told the second mate to change the course to west south-west when the ship was off Tarpeian rock. In his opinion this was not done, hence the wreck. Edward Lacey, who was on the look out when the City of Columbus struck, says:—"I was startled at seeing the buoy on the port bow from 100 to 150 yards distant. The reason I was startled was that I had never seen this buoy on any of my trips before. As soon as I saw the buoy I sang out to the quartermaster, but he did not answer, and fearing he had not heard me, I rushed aft and told him. We hoisted the jib, but it did no good."

Reported Fraud.

Mr. Larmour, a Winnipeg boot and shoe dealer, sold out his business for \$1,000 cash and some notes, and then disappeared, leaving creditors to the amount of \$10,000, of which \$8,000 is due to Messrs. Cooper & Smith, \$4,000 to Messrs. McLean & Co., both Toronto firms.—Toronto World.

The Murderer Schenck.

The Vienna murderer Schenck, in addition to his confession of having murdered four girls and planned to kill five others, avows that on the night of his arrest, he had made preparations to murder the chambermaid and family of the Baroness Malfatti. He had previously induced the maid to steal valuable jewellery presented to Dr. Malfatti by the Emperor of Austria.

European Notes.

The Revenue accounts for Great Britain for the nine months of the financial year ending December 31 are unexpectedly favourable. The Board of Trade (Earl) has given notice to the promoters of the Channel Tunnel scheme that if the Bills be proceeded with the Government will feel it its duty to oppose them.

Mr. Bradlaugh, M. P., has announced his intention of presenting himself in the House of Commons at the opening of the next session claiming to be sworn.

Mr. T. W. Barker, a solicitor of Southport, England, was killed recently by being run over by a steam tramway engine which had broken loose.

Almost every pill contains calomel and other mineral compounds. Dr. Casson's Kidney Bitters is purely vegetable and takes the place of all other purgatives, in large bottles 50 cents.

At this season of the year there should be a bottle of Peppermint in every house. It is unequalled for Coughs, Colds, and Hoarseness, is pleasant, equally safe for children. Price 50 cents at all druggists.

EVERYBODY should keep such a thing as 20-72-2 in the house, and by regulating the bowels and system, keep away headache, heart-ache, indigestion, indigestion. Zappa invigorates the liver, makes the family happy by making healthy. Ask J. D. TULLY.

WE HAVE a speedy and positive cure for Catarrh, Diphtheria, Canker mouth and Head-ache, in Sibbald's Catarrh Remedy. A nasal injector free with each bottle. Use it if you desire health and sweet breath. Price 50 cents. For sale by J. D. TULLY.

Never give Up.
If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any other disease of a bilious nature, by all means procure a bottle of Electric Bitters. You may be surprised to see the rapid improvement that will follow; you may be inspired with new strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Sold at fifty cents a bottle by Taylor & McDonald.

Advice to Mothers.
Are you distressed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. Its value is incalculable. It will relieve the poor little sufferer in immediate relief. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

THE DOMINION PARLIAMENT.

On Monday a large number of annual depart-
mental reports were presented at this unusually
early period of the session.

Sir John Macdonald presented a message
from the Governor-General with a copy of the
agreement between the Dominion and British
Columbia Governments.

Mr. Cameron (Huron) introduced two bills
relating to criminal law and they were read a
first time.

Sir John Macdonald gave notice that he
would introduce the Electoral Franchise Bill
on Wednesday.

Committees were appointed to strike standing
committees, and to supervise the official re-
ports.

On Tuesday Mr. Cameron (Huron) introduced
a bill to amend the acts as to the election of
members, and it was read a first time.

Mr. Charlton introduced a bill for the pun-
ishment of seduction, &c., and it was read a first
time.

Sir John Macdonald explained that the Hon.
Mr. Macpherson had resigned the Speakership
of the Senate and had been appointed Minister
of the Interior. Sir John himself becoming
President of the Council and retaining the di-
rection of the Indian Department.

Mr. Blake approved of the Premier being re-
lieved from heavy departmental duty, but not
of the Ministry of the Interior being repre-
sented in the other house.

Mr. Cameron complained of nothing being
done, and Sir John Macdonald suggested to him
that if he wanted anything done he might do
something himself.

THE PECK SUICIDE.

Not a S. Peck Whose Funder is Safe in
Bellevue.

PATMOCUE, L. I., Jan. 22.—Peck, the
president of the defunct bank, who shot himself
yesterday, committed the act after reading a
scathing criticism on his management and after
he had been choked by one of the depositions.

He was found on his hands and knees, with
blood streaming from the mouth and nostrils.
When questioned, he said he thought the people
were going to lynch him. On Sunday one of the
depositions called on Peck and told him that it
was rumored that he had not surrendered
everything, and it is said that he would not be
responsible for his safety. Peck then pro-
duced \$4,000 worth of securities and a cheque
for \$1,000 which he had concealed. Altogether
assets amounting to \$20,000 have been found at
Peck's. Peck's condition is not serious.

EXTENSIVE FIRE.

Hotel and Shop Burned Down at Cornwall—
Nearly Thousand Dollars Loss.

CORNWALL, Jan. 22.—At 1.10 this morning a
fire broke out in the kitchen of the Commercial
hotel. The outbreak was noticed by Collector
of Customs, who lives next door. He at once
rushed to the hotel, and with great difficulty
aroused the inmates, having to force in the door
for that purpose. The alarm spread rapidly
throughout the house, and the guests and ser-
vants were enabled to escape, most of them
saving little beyond the clothing they hastily
assumed. An alarm was promptly sounded,
but some time elapsed before the fire brigade
with their steamer arrived on the scene. The
ice in the canal was very thick, and a delay oc-
curred, while it was being cut through to reach
the water. Meantime the fire spread to the new
brick wing of the Commercial. The stock in
both premises was moved, but placed across the
street so that when the flames burst through the
front windows the goods caught fire and were
consumed. Next fell a victim the splendid
brick block opposite to the north the flames
caught the buildings, used by chemists, grocers
and a confectioner. All these premises were
completely destroyed. The estimated loss is
said to be about \$80,000.

The Shingling By-Law.

Chief Justice Hagarty gave judgment on
Tuesday declaring the by-law of the City of
Hamilton, directing roofs of houses to be con-
structed of incombustible materials, or else to
be covered with shingles laid in half an inch of
hair mortar, to be ultra vires, in so far as it
relates to buildings erected before the passage
of the by-law.

LAKEFIELD.

From Our Own Correspondent.

ORGANIZED.

The first meeting of the Lakefield Village
Council for 1884 was held in the Council Room
on Monday, Jan. 21st, at 12 o'clock.

The Village Clerk, Mr. W. C. Sanders, stated
that Mr. R. C. Strickland was re-elected Reeve,
and that Messrs. W. Cox, sen., James Moore,
John H. McWilliams and Kenneth Urquhart
were elected councillors, and taken the re-
quired declarations of qualification and of
office. The Councillors were all present. The
Reeve not having arrived Mr. Urquhart was
voted into the chair. The minutes of former
meeting were read and confirmed.

Moved by Councillor Moore, seconded by
Councillor Cox,—That the Clerk prepare a By-
law for the appointment of Municipal Officers
by the next meeting of the Council.—Carried.

Moved by Councillor McWilliams, seconded
by Councillor Cox,—That the following accounts
be paid, and that the Reeve's order for the
several amounts do issue, viz:—

Times Printing Co., Printing.....\$ 4 00
Tucker & Co., Printing and supplies 11 80
Pommette & Roger.....0 00

Total.....\$26 80.

The Chairman, for the Reeve, nominated Mr.
W. H. Casement as auditor, and the Council
Dr. Bell. A By-law completing the appoint-
ment received its several readings and was passed,
sealed and signed.

Moved by Councillor McWilliams, seconded
by Councillor Moore,—That this Council do
now adjourn to meet at the call of the Reeve.—
Carried.

The Reeve came in just as the motion was
passed and took the necessary declaration.

SNOW.

The roads are still getting worse and the
snow increasing in depth by the frequency of
snow storms. A great deal of difficulty is ex-
perienced in travelling by road without any
load, and it is impossible to go any distance
with a load. The general cry is, where is our
usual January thaw? It is reported that one
resident of Lakefield said not long ago that he
never yet saw a January without a thaw, and
he had seen hundreds of them. It is to be
hoped that he will see one this year.

NO MAILS.

No mails were received at the Lakefield post-
office on Tuesday and Wednesday of this week.
Something must be wrong somewhere.

BREAKING THE SABBATH.

A man from the north of Donora started from
home on Sunday last with a load of wood for
Lakefield, but when within a couple of miles of
the village, he was accosted by a friend and asked
whether he knew it was Sunday. He replied that
he did not, but thought it was Saturday, and
was sure of it, too. After a time he be-
came convinced of his error, and left his load
beside the road until another day, and started
for home. He feels very much annoyed when
joked about his Sunday work, which is done
every time he meets an acquaintance.

YOUNG'S POINT.

From Our Own Correspondent.

HORSE DIED.—A valuable working horse be-
longing to Mr. Geo. Chalmers broke his leg in
getting up in its stall at Dugan's shanty, in
Burleigh on Sunday last, and had to be killed.
Mr. Chalmers has been very unfortunate, this
being the third horse that has died within a
year.

THE DAM.—The contract has been awarded
to Mr. Chas. Wynn, contractor, of Peterboro-
ugh, by the Department of Railways and
Canals, for the construction of the new dam
here, which is to be completed by the first of
September next.

LOOKS WELL.—Mr. Chalmers had a visit last
week from an American buyer and sold him
quite a large quantity of first class cedar
lumber, and realized a very good price.

THE SAW AND SHINGLES MILLS.—The saw
mill is kept quite busy this winter cutting
cedar, hemlock and basswood lumber. The
shingle mill is also working full time. Mr.
Chalmers expects quite a large trade next season
when navigation opens. This looks well for the
future.

THE WEATHER.—The weather we are having,
and badly drifted roads, are the only topics of
conversation this winter so far.

The First Trial.

PITTSBURG, Pa., Jan. 22.—At ten o'clock the
jury in the Nutt trial brought in a verdict of
"Not guilty on account of insanity at the time
the act was committed." As early as seven o'-
clock all the entrances to the court were be-
sieged by a crowd. When the prisoner was brought
in his countenance wore a look of tranquillity.
He slept only an hour or two during the night.

At nine fifty-seven the jury filed in, and the
prisoner was ordered to stand up. He was very
weak, and had to be assisted. When the
verdict was announced the crowd, which had
been restrained with difficulty gave vent to its
approval in loud cheers, which an immense
crowd on the outside answered.

The judge remanded Nutt until to-morrow,
when a committee will examine him as to his
present mental condition. Mrs Nutt and Lizzie
were not in court this morning.

The jury took four ballots. When the first
ballot was taken three favored guilty by in-
sane mind, three not guilty, and the others not guilty
because insane. The verdict meets with ap-
proval on all sides. Congratulatory despatches
are pouring in on the Nutt family.

Infatuated Pears.

LONDON, Jan. 22.—The five packages which
were thought to contain dynamite, and which
were found in a tunnel near Euston station on the
railway over which a train was to pass with the
Prince of Wales, contained a much less danger-
ous explosive. The material could not possibly
have caused any damage, and is believed to
be accidentally dropped from a passing train.

Worth ten Dollars a Bottle.

Any person who has used Folson's Nervine,
the great pain cure, would not be without it if
it cost ten dollars a bottle. A good thing is
worth its weight in gold, and Nervine is the
best remedy in the world for all kinds of pain.
It cures Neuralgia in five minutes; toothache
in one minute; lame back at one application;
headache in a few moments, and all pains just
as rapidly. Small test bottles only 25 cents
each. Why not try it to-day? Large bottles 50 cents
sold by Ormrod & Walsh. Use Folson's nerve
pain cure—Nervine.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises,
sores, ulcers, salt rheum, fever sores, Itch-
ing, chapped hands, chilblains, corns, and all skin
eruptions, and positively cures piles or no pay
required. It is guaranteed to give perfect satis-
faction or money refunded. Price 25 cents per
box. For sale by Taylor & Macdonald.

"Never be critical upon the ladies" was the
maxim of an old Irish peer, remarkable for his
homage to the sex; "the only true way in the
world, that a true gentleman ever will attempt
to look at the faults of a pretty woman is to shut
his eyes."

Sons of Temperance.

A "Son of Temperance" writing to the *Globe*
waives words because Sir Leonard Tilley went
into the County of Middlesex to defeat a Bro.
Past Most Worthy Patriarch. This Bro. P.M.
W.F. was Mr. Ross. The S. of T. conceiv-
ably forgets that this same Bro. P.M.W.F. went
into South Renfrew "unavoidably" to elect a
License Inspector, who had previously testified
on oath that he not only closed his eyes to the
existence in his district of unlicensed groggeries,
but was in the habit of treating at them. We
fail to see any inconsistency in two temperance
men fighting each other on political grounds,
but Mr. Ross's case was very different. We are
afraid he is a T.M.U.P. (Present Most Un-
worthy Patriarch).—H.M.

Fire Near London.

LONDON, Jan. 22.—Between 12 and 1 o'clock
this morning fire broke out in the stables and
barn of Mr. Henry Bray, postmaster of Evelyn,
Nimour. Owing to the stiff breeze the flames
spread with incredible swiftness, cutting off all
communication to or from the barn and stables,
consequently forcing the valuable horses and milch
cows to be burned to death. Mr. Bray also lost
all his harness, buggy, implements, hay, straw,
&c. The loss will be in the neighbourhood of
\$2,000, on which there was only an insurance of
\$700. From what can be learned it is evident
the fire was the work of some incendiary. The
barn was a new one.

Fimples and Blisters.

Call at John McKee's Drug Store and get a
package of McKee's Carbolic Ointment. It
is composed of Vaseline, Carbolic Acid and
Glycerine, and has never failed to remove Fimples,
Blisters, Ulcers, Scabs, Rough Skin. It cures
when all others fail. Try it.

Fluid Lightning.

Cures Toothache and Neuralgia quick as flash
relieves any pain instantly, the cheapest and
quickest application known. Why suffer with
Toothache, Neuralgia, Headache, Rheumatism,
Lumbago, Sciatica, Sore Throat, or Acute Pain
of any kind when you can go to John McKee's
Drug Store and get a perfect and instantaneous
cure for twenty-five cents. Ask for Fluid
Lightning.

From the Liver and Kidneys arise fully half
the sickness. Dr. Carson's Stomach Bitters
stimulates both Liver and Kidneys, and insures
one against disease. It is not an alcoholic stimu-
lant. In large bottles 50 cents.

"Are you aware that breakfast is ready, and
waiting for you?" asked an indignant father as
he shook his lazy son. "Well, yes, father,"
answered the boy; "I'm just waking up to that
fact."

AGRICULTURAL.

The Annual Report of the Directors of the West Riding Society.

The following annual report of the Directors of the West Riding Agricultural Society, which was read and adopted at the annual meeting, being of considerable length, has been held over for some days:—

The Directors of the West Riding of Peterborough Agricultural Society in presenting their annual report for the year 1883, desire to call attention to some matters which they believe will have to be vigorously and judiciously dealt with by their successors, if the Society is to discharge the duties devolving upon it as a distributor of public money.

Happily for the incoming Directors they will succeed to the largest balance to the credit of the Society (\$12,000) and to the largest number of paid up members (65) for the coming year which has ever fallen to the lot of any of their predecessors. This, however, is the one bright spot in their horizon. All are agreed that the late exhibitions of your Society—in common with too many others—have year by year been becoming less and less productive of their circulation and improvement which is their special object to promote, although an equal unanimity does not exist as to the cause which have produced this result or as to the reforms necessary to ensuring a fitting return for the sums expended annually by the Province in this way.

The question as to what should be done under the circumstances is no doubt one difficult of satisfactory solution. That which may be best for one part of the Province may not be best for another, but still it is only by looking our difficulties square in the face, and by taking stock of them, that they can be overcome. Your Directors will, with all due deference to those who may not agree with them, try to briefly state a few of the difficulties which exist, with the view of indicating the reforms which, in their opinion, are called for.

In the first place your Directors are of opinion that, in all but the recently settled portions of the Province, where agriculture is in much the same state to-day as it was with ourselves some fifteen or twenty years ago, the number of exhibitions held annually are not only beyond the requirements of the agricultural community, but in many instances positively injurious to it. No one disputes that the amount of money distributed through our various fairs, townships and Agricultural Societies should accomplish much more good than it is doing. But how can it do so when it is frittered away through several little rivulets, which, if combined in one, would form a stream whose influence and power would be felt? Take our own county as an example. The East and West fairs of Peterborough receive annually from the Provincial Treasury the sum of \$1,400. Of this sum \$200 falls to each of the fairs, while the remaining \$1,200 is divided through seven districts and independent organizations. Of this latter sum but \$84 went in 1881 to the newly settled portions of the county, while of the remainder \$51.50 fell to organizations whose territory all adjoined the town of Peterborough, and another \$140 of it went to the Peterborough Horticultural Society; and getting the same year no less than five exhibitions were held in and within a radius of twenty miles of our county town. If this does not prove an unnecessary waste of money, energy and time it is difficult to see what would especially when it is remembered that for four of these five exhibitions the price list was practically the same except in the money value of the prizes offered. None of them, however, were, or can easily be made under existing circumstances, of sufficient value to induce any substantial improvement in any department of agricultural work. Clearly, then, this is a state of affairs which requires to be reformed. But how shall it be done? The fairs societies have their friends, and so have those of the Townships! And our representatives are always loth to lay hands on anything which may cause them to lose votes. Still, something must be done, if we would not have a cry of "up for the withdrawal of these grants altogether" as soon as the Provincial financial year begins to go dry, on the ground that it is an expenditure which is attended with meagre results compared with the amount involved—a cry which can only obtain force because the law under which they are distributed has not been amended from time to time as the changing circumstances of the Province require.

It must be obvious, if the statements just made are justified by the facts, that what is required at the present time is a concentration of means and effort in the exhibition business, so far as a concentration of societies is concerned that can only be brought about satisfactorily by the Legislature. Still it may not be beyond the power for your Directors to throw out a suggestion as to one way in which this might be accomplished. They would suggest that the Legislature should abolish the present Riding societies, and in their stead adopt a system of County societies, whose bounds should be the same as those of the municipal counties—a union of societies being counted as the same number of agricultural counties as the union counted of—and that these societies should receive a grant equal in amount to that now paid to the Riding Societies within the same territory, but that instead of the County Society retaining as now two-fifths of the entire grant, it should in future be allowed to retain one-half thereof, the remainder to be distributed as at present to Branch Societies, subject, perhaps, to the further provision, as a matter of justice to the outlying districts, that when the annual exhibitions of the County Society were held permanently in one place in a county, the townships adjoining that place should be debared from organizing a branch society and sharing in the Government grant. By the adoption of some such policy your Directors are of opinion the cause of agricultural progress, both in the well settled and outlying districts of the Province would be materially benefited.

But there is another way in which our means and energy may be concentrated, even under existing circumstances, and that is by concentrating the means at our disposal and our energies upon some particular department as to make it thoroughly good, rather than by attempting to till too much ground at once we do none of it well. Your Directors are aware that the impression prevails that, without a "palace" for the display of ladies' work, fine arts, etc., no exhibition can prove a financial success, and in this day of dollars and cents that is the measure of all success, but is it so? Take the results of our own exhibitions of 1882, and what do we find? We find that at the spring exhibition when there was no ladies' work, no fine arts, and no band to draw a crowd, the gate receipts amounted to \$68.00, at a cost of \$84.00 for prizes, while at our fall show

the same receipts were but \$275, at a cost of over \$400 for prizes and nearly another \$100 in the way of expenses, including \$30 for a band. Moreover, of the amount paid for prizes the amount paid to ladies' work and fine arts exceeded that paid out in any other department save that of horses. While the amount awarded to articles exhibited within the drill shed and the other expenses connected therewith equalled the gate receipts, leaving the prizes given for stock to be paid from other sources. This proves that the gate receipts might become all without the Society looking anything financially by eliminating these departments from our annual prize lists.

Your Directors assume that every member of this Society is anxious that our annual exhibition should be a credit to both the town and county of Peterborough. Unquestionably there is now no better point between Toronto and Ottawa for an annual exhibition, had we only the accommodation necessary therefor. That we have not got, and the first step towards getting it is the obtaining of a suitable ground which must not be less than ten acres, should be at least 15 acres, and would be better if it extended to 20. This with the necessary fencing and shedding for a stock exhibition means the investment of a very considerable sum of money, and if a "palace" were to be added thereto of one, involves a responsibility which would be a very serious one for your Directors—one which, it is not to be wondered at, they have hitherto hesitated to undertake.

However, if it is to be done at all, it is one of those things which the sooner it is done the better. By adopting the policy of limiting our exhibition to a year or two to the holding of a really good stock exhibition, rather than one which, while covering all the usual ground, is really good in no particular department, your Directors would venture the opinion that the first cost of obtaining new and suitable grounds could be curtailed without any injury to the important use receipts. Every one who has attended recent exhibitions must admit that the stock—especially horses—is now proving the chief attraction on these occasions. Let your directors realize and act upon this fact and we believe they will have no cause to regret it.

But whatever course their successors may deem it advisable to adopt, your Directors cannot conclude without expressing the decided opinion that it will be an everlasting disgrace, as well as a great loss of prestige, should no adequate steps be at once taken for providing in or near the town of Peterborough grounds and buildings suitable not only to our present requirements, but also suitable for the holding of the Provincial Exhibition, which your Directors hope to see held in Peterborough at no distant day.

Your Directors are pleased to notice that the Eastern Dairy men's Association have arranged to meet in Peterborough next February, and would express the hope that it will be largely attended by our farmers generally, as by so doing they will no doubt obtain much valuable information on an important branch of agricultural work.

All of which is respectfully submitted,
JOHN CANNON, Secretary.
JOHN WALTON, President.

SCOTLAND.

The coal trade has fallen off greatly at Leith. A lot of false teeth were found in a cow's stomach in Thurso the other day.

On the 25th Dec. quite a host of football players left Scotland on tours through England.

Two young men of Wick U. P. Literary Association are troubling themselves about the trade-routes through Buchanland, and sent a resolution to Mr. Gladstone, to which they received a very flattering reply.

This annual meeting of the Association for Promoting the Education of Nurses was held at Glasgow on the 15th Dec. The staff now comprised of 11 nurses. Last year the patients were nearly doubled, and against 1085 in 1882. The income was £3070, and the expenditure £2075.

DURING the year now closing there has been a good deal of activity in the building trade, and several new buildings have been erected which have materially improved the appearance of Leith and its suburbs.

DUMFRIES, Scotland, which has fewer licensed houses than any burgh in Scotland, has been canvassed on the subject of local option. It was explained that by "local option" is meant a law that will give to the people the power by their votes to prevent the sale of intoxicating liquors in their districts, and all over Scotland were asked to vote. The result was:—Against, 248; in favour, 779; neutral, 181.

IRELAND.

W. HOBAN, Kilkenny, sent to the English market during the Christmas holidays 1,500 turkeys and geese, with many fowls and ducks. There was recently an exhibition at the shop of Mr. Cooney, butcher, Belfast, a side of a carcass of a better carrying an extraordinary kidney which weighed upwards of 300 lb.

The Newry Hunt was stopped on December 25th. Catholic and Orange magistrates were stoned, and told by farmers and laborers that no cattle heads would be permitted to hunt about Newry. Horses and riders were thrown into the ditch.

THREE weeks ago a young woman, aged about 25, was arrested in County Limerick, Ireland, on a charge of murdering her own mother. Investigation showed that the two women lived together, and that some quarrel arose between them, which resulted in the accused setting a habes and chopping off her mother's arm. As no assistance was available during the night the injured woman died to death.

A BANKER'S TESTIMONY.—For a Cough, Cold or any Bronchial affection, "Pectoral" is my opinion, is just the thing. I have used it in my family for Coughs and Colds for the past four years with the most unvaried success, and to-day my opinion of it is that I continue to think still more of that which I began thinking well of. Geo. KERR, Manager Ontario Bank, Pickering. Price 25 cents, at all druggists.

JOHN R. VART, Hamilton, says: "McGregor's Speedy Cure for Dyspepsia and Indigestion is cheap fifty times the price asked for it. I am a commercial man, and travel continually, and would no more think of leaving home without a bottle of McGregor's Speedy Cure in my valise than I would of leaving my team at home and going on foot." Free trial bottles at John McKee's Drug Store. Regular size fifty cents and one dollar.

FROM ALL OVER.

The Queen of Tahiti and suite arrived at San Francisco on Tuesday night.

IF YOU HAVE A FADED CLOAK or mantle make it new by using a package of the Triangle Dyes. All the popular colors. Always certain to Centa.

The British officers held captive by the rebellious Afgha tribe have been released by the expedition under General Hill.

It is stated that the French commander in Tonquin has been ordered to wait for further instructions before attacking Bac Ninh.

A THREE CORNERED WHARF.—The triangular shape of the Triangle Dyke package added to their undoubted superiority have won the day and driven all others from the field. 30 colors. 10 Cents.

This show book has prevented the sending of provisions into the Kingston timber district, and the lumbering shanties will probably have to be closed in consequence.

MIDDLE AGED MAN, often lack vigor, this can be restored by that great brain and nerve food, known as Mack's Magneto Medicine. Read the advertisement in another column of to-day's paper. Guarantees issued only by Ormond and Walsh.

The Marquis of Hertford is in a critical condition beyond hope of recovery, owing to having been thrown from his horse and kicked while hunting on Monday.

If you are troubled with a "hacking cough," Dr. Williams' Pink Pills will give you relief at once. Warranted as recommended, or money refunded. Price 25c, 50c, and \$1.00 per bottle.

R. J. SHELDON addressed a large meeting of Irishmen in Chicago on Monday night. The Richmond Brothers held a largely attended reception at the leading hotel.

KILL the blues, eat the best, sleep sound, keep away headache, keep your liver active, digest your food, make good blood, be cheerful all day by keeping a bottle of Zepes in your room, and take a dose twice a week. Ask J. D. TULLY.

REV. DR. TALMAGE has offered the use of the Brooklyn Tabernacle for the funeral ceremonies to be held over the remains of Lieut. DeLong and his companions, who perished in the Jeannette Arctic expedition.

HAIRDRESSING may be secured by waiting the hair at night, and every night for two or three weeks with the Clingstone Hair Remover—a name well and favorably known. Sold by J. D. TULLY.

MISS HIGGIN, the plaintiff in the notorious Flatbush mock marriage case, has now instituted a suit for divorce. Her father states that if necessary for his daughter's vindication he will carry the case to the Court of Appeal.

YAS RIL—One can't expect to succeed in business or in pleasure either, for that matter, unless one feels all right in health and spirits. This is the first consideration. Now, it is a small matter when this remedy, Zepes, is recommended so highly, even guaranteed to reverse one's energy and spirits by invigorating the liver and aiding digestion, by clearing the brain, opening the pores of the skin, regulating the bowels and system, to go to the drug store of J. D. Tully and get a sample bottle of Zepes as a trial. It is a duty every one owes to himself. Try a bottle then.

The Canadian steamer Spartan was sold by auction at Detroit on Tuesday to satisfy claims against her for repairs and wages, and was bought in for her owners. She floated eight thousand dollars less than the aggregate amount of the claims.

MRS. ELIZABETH MASON—Dr. M. Souville & Co., Gentlemen.—Years of last week to hand, and reply to your inquiry I have much pleasure in stating that from the first time of using the splanometer and the medicine I have improved very much. The bronchitis has entirely left me. I sleep well and have a good appetite. I must also add, that coming to you as I did as a last resort, the cure effected has been wonderful. Gratefully yours.

THE OIL MONOPOLY BURST!

Owing to the high prices prevalent in Peterborough for COAL OIL, "CHINA HALL" decided to take up this branch of its business, and began on Friday, 18th instant, by REDUCING the price at once NEARLY FIFTY PER CENT, and we follow it up to-day by a further slight reduction, as under:

Best Canadian Oil, large measure, 20c. per gallon; Five gallons 90c.

Best American Oil, large measure, 30c. per gallon; Five gall. \$1.40

OUR PRICES WILL ALWAYS BE THE LOWEST IN TOWN.

Every consumer of Oil is aware that on Friday, 18th instant, the current prices of Oils in Peterboro' were: Canadian, 30 cents, and American 40 cents. We therefore maintain that we have reduced the price of Oils in our town fully 50 per cent in one day, and trust that the people of Peterboro' will not lose sight of this fact when ordering Oil. It means DOLLARS SAVED to every consumer of Oil. DELIVERED FREE IN ANY QUANTITY TO ALL PARTS OF THE TOWN.

CHINA HALL AND SILVER BAZAAR, MACFARLANE WILSON.

Oh, my Back!

Is there a miserable, weakening pain in the small of the back? Is urination painful? Do you have palpitation of the heart? Do strange, indescribable feelings creep up your back and sides? Does the least exertion weary you? Does your urine show brickdust or albuminous deposit? Does any sudden fright cause an intense, sharp pain in the small of your back? Do you have an aching in the groin? Is your memory impaired? Is your breath short? Are there shooting pains about your vitals? Are you becoming dropsical? These are all symptoms of kidney diseases. Be on your guard against them. If let run it may end in Bright's Disease, which is sure death.

Your best course is to procure at once a bottle of SULPHUR AND IRON BITTERS costing only 50c. It will cure any form of Kidney Complaint, except Bright's Disease, it will relieve the symptoms and defer the evil day sometimes indefinitely.

SULPHUR AND IRON BITTERS is a medicine as harmless as water. The world has not seen its equal as a cure for diseases which attack the Kidneys and for the complaints to which females are alone liable. It is of more value than any medical compound known to the medical faculty.

LOCAL NEWS

The Cells.

No prisoners were arrested yesterday, but the police cells were not without occupants last night, four tramps having found shelter there.

Plane Tuning.

Mr. Geo. J. Gumprecht, tuner for Messrs. Mason & Rich, Toronto, is in town. Orders left at Mr. T. Menzies' Bookstore or at Messrs. Taylor & Macdonald's Drug Store will be attended to.

Social.

A Social in aid of the Organ Fund of St. Paul's Church will be given at the residence of Mrs. James Dixon, on Thursday evening. Entertainment to commence at 8 o'clock sharp. Refreshments will be served. All are cordially invited. Admission, 25 cents.

The Trains.

The snow drifts continue to interfere with the railway trains. A snow plough was on the road east this afternoon followed by a train from Toronto, and another plough started down over the Grand Junction, followed by a passenger train.

Freight Wagon.

While driving his team in performance of his duties of corporation teamster on Wednesday, Mr. Torrence Smith had both his ears and other parts of his face frozen. One cannot be too careful while exposed to the raw wind during these cold days.

The County Council.

The representatives of the municipalities now attending the session of the County Council, spent Wednesday and this forenoon in committee work. They appear to go through their business thoroughly in committee, examining carefully every question that is brought up.

Ontario Poultry Association.

At the annual meeting of the Ontario Poultry Association it was decided to hold the next exhibition at Guelph. A motion in favor of holding the exhibition at Peterborough was not successful in passing, probably owing to the fact that the depuration from this town was unable to be present on account of the snow blockade.

Baltimore Oyster.

Owing to the snow blockades on points between Baltimore and here, our Oysters have been somewhat longer than usual getting through, but we have received a shipment of very choice Bulk Oysters, which we think will please our customers and those who may favour us with their patronage.

January, 24th, 1884. CARTON BROS.

Operatic.

On Saturday evening the Boston Opera Company will appear in Bradburn's Opera House. They will produce the delightful English opera "Martha," and the very entertaining comic opera "Sir Marmaduke." The Company is composed of artists who have secured a high position in their profession, and those who attend may, we believe, expect an operatic treat.

Dairymen's Association.

The Eastern Ontario Dairymen's Association will hold its annual Convention at Peterboro' at 10 a.m., on Wednesday, 30th Feb. next. Talented speakers will address the meeting. Professors Lewis, Arnold, Roberts, and Brown, and the Hon. the Minister of Agriculture, are expected to attend. Certificates to obtain reduced fares, on all Railways, can be obtained on application to the Secretary, Mr. Harford Ashley, Belleville.

Literary Society.

The "Peterborough Literary Society," which was dormant during the holiday season, was reconstituted on Wednesday evening. On that evening a very interesting debate took place, and the Society, which begins the second term of its career with a new set of officers, has bright prospects of being very useful during the remainder of the season. The subject to be discussed at the next meeting is, "Resolved that there is too much ostentation about females."

Celebrated Indian Pale Ale on draught at The Little Windsor Hotel. Try it.

The Temperature.

The temperature last night, as shown by Rev. V. Clementi's self-registering thermometer, fell to 6° below zero.

Special Services.

The Methodist and Bible Christian congregations have united in holding special services in the school room of the George Street Methodist Church for over a week. The meetings are well attended. They will be continued for another week at least.

A Little Sugar in the Pot.

The weather probabilities for this district for the following twenty-four hours, counting from one o'clock this morning, as reported from the Toronto Observatory, are as follows:—North to northwest winds, fair, cold weather; the temperature will fall considerably below zero in most parts. South to southwest winds and rising temperature to-morrow.

Come to Montreal.

Sixty-five of the Italian laborers who have been employed in this vicinity, and who have been out of work for a few weeks, or, in some cases, a few days, left here for Montreal this week. They were engaged to work for Mr. H. J. Beemer, for whom most of them formerly worked on the "Mining Link," in a stone quarry at Montreal.

Coming to Peterborough.

We learn that Dr. G. M. Morgan, who has been a resident of Collingwood for the past seven or eight years, is about to remove to the "Hub," and to commence business in the drug line as soon as the central and commodious premises north of Mr. Menzies' establishment are fitted up, which they will be in first-class style. We are glad to know that Mr. Morgan has selected Peterborough, and from what is said of him by the Collingwood papers, he will be an acquisition to our good town.

Wedding Bells.

We extend our hearty congratulations to Captain Ed. Sanderson on the occasion of his marriage to Miss Hannah E. Kelly, of Bridgeport. The wedding took place on Wednesday at the residence of the bride's mother, the officiating clergyman being the Rev. Wm. Johnston. The bride was the recipient of a large number of handsome presents. We join the members of the Durham Field Battery, among whom their Captain is deservedly popular, and the many friends of the happy couple, in wishing them a long life of continuous prosperity and happiness.

East Northumberland Case.

A motion was made on Tuesday, says the Mail, before Chancellor Boyd and Mr. Justice Cameron, in the East Northumberland election case, to re-open the trial, and take the further evidence of three witnesses, who, it is claimed, wrongfully absented themselves from the trial. The motion was made last week to the Court of Appeal during the hearing of the appeal, but the Court refused to entertain it, on the ground that they had no jurisdiction. At the same time they indicated an opinion that the three judges above named should hear the application. In pursuance of this view, Mr. G. T. Blackstock made the motion, which was opposed by Mr. W. Johnston on behalf of Mr. Ferris. The reason for this step is a letter written by Mr. Matthew Ferris to Mr. Bothwell, asking if it would be safe for the witnesses now to return. The learned judges, notwithstanding the view expressed by the Court of Appeal, thought they were functi officii, having reported their decision to the Speaker of the House of Commons, and they therefore refused to hear the motion. Mr. Blackstock then obtained leave from Mr. Justice Oiler to renew it before the Court of Appeal on Wednesday, and it will then be seen what ultimate disposition will be made of the motion.

The Early Days.

Mr. Thomas Hardie, of Dubuque, Iowa, writes a letter to the Dominion Oddfellows, from which we take the following interesting extract: "Writing to you at Belleville, calls to mind the good old days in the spring of 1844, when Bro. East Grand G. P. Dixon and your correspondent left Montreal, commissioned by the Grand Lodge of Canada as missionaries to Canada West to open new lodges. Of that journey, of 800 miles, going and coming, Bro. Campbell gives a graphic account in his early history, and I have a lively recollection of the important aid and assistance given to us at St. John, Coburn and Peterborough by Hon. Ed. Murray, and other brothers of Victoria Lodge, No. 4, Belleville. You of the present time can have no conception of the difficulties which beset travellers then in going west during the breaking up of a Canadian winter. There were no palace and dining-room cars on trunk railroads to make comfortable the weary pilgrim. It was indeed a rough and weary road and travellers were often in want of food as well as rest. But, knowing no better, it was enjoyed withal. Peterborough was not out of the woods then, but we found it, and in the old Court House established Ontario Lodge No. 18. I wonder if Bro. William Chilton, its first secretary, remembers the work of that evening? I am glad to know that old Ontario, after a Rip Van Winkle sleep, is again wide awake and pushing to the front, and it is very pleasant to see the name of Bro. Wm. Chilton at its head. N. G. Well, he has got ahead of me, for, after many years of rest, he now stands as presiding officer of his lodge, whilst I, who have been in harness all the time, occupy only the humble position of E. S. to the N. G. How many workers during the old regime, save and except Bro. Chilton, are now tenting on the old camp ground?"

"Hub" Cough Cure, 25 Cents.

Prescription of a Boston physician, dispensed years by a Boston Druggist. One dose will cure any ordinary cough. It acts almost magically. Ask J. D. Tully for a 25 cent bottle of Hub Cough Cure.

ALL the Public schools of this town were closed yesterday on account of lack of funds, the Common Council refusing to make a further appropriation for this year.

The Hon. Mr. HOSKINS have been awarded to Dr. Van Buren of Germany, for the permanent relief afforded by his Kidney Cure to all sufferers of Kidney Disease. It is unhesitatingly recommended by the Leading Medical Authorities of Europe that Dr. Van Buren's Kidney Cure will permanently remove all traces of Kidney Disease from the system.

How Far Successful.

During the month of December 156 predictions were issued from the Toronto Meteorological Observatory for this district. Of this number 120 were fully verified, 14 were partly verified, and 22 were not verified.

The Earth and Sky.

A very pleasant and profitable evening's entertainment is afforded by good views of geological and astronomical subjects, accompanied by explanations. The views interest, delight and instruct. Such an entertainment will be given in the school room of St. Andrew's Church on the evening of Friday, Feb. 1st, by Mr. A. P. Knight, M.A. There should be a large attendance of both young and old. Admission 15 cts.; children 10 cts.

Changed Hands.

The North store Pastry and Confectionery Business which has been so successfully carried on by Carton Bros. for over two years has been purchased by Mr. William Ruth, a thorough practical man, and who has been foreman for Carton for some time past. The business will be carried on the same as before, and as Mr. Ruth is well known, and has given every satisfaction to the customers of the store he will no doubt continue to receive a large share of the patronage of Peterborough.

What! Limping Yet?

Why should you go limping around when Putnam's Painless Corn Extract will remove your corns in a few days. It will give almost instant relief and a guaranteed cure in the end. Be sure you get the genuine Putnam's Corn Extract, made by Putnam & Co., Kingston, for many substitutes are being offered, and it is always better to get the best. Safe, sure, painless.

Dyspepsia and Liver Complaint.

Is it not worth the small price of 75 cents to free yourself of every symptom of those distressing complaints? If you think so call at our store and get a bottle of Shiloh's Viatical. Every bottle has a printed guarantee on it, use accordingly, and if it does you no good it will cost you nothing. Sold by J. D. Tully.

SINGERS and public speakers are always benefited by using Down's Elixir, as it removes the hoarseness and increases the power of the voice. Take small doses often. Price, 25c, 50c, and \$1.00.

FOR A HARD FIGHT, with pain in the head, bones or through the chest, take Down's Elixir at once, and it will soon be well. It is a powerful blood purifier, and will soon be well.

THE MARCH WINTER DRESS GOODS.

Goods well bought are said to be half sold. The march began before ours were fairly on stock, and the march has been kept up since.

We had the best of assortments to begin with, gathered literally both from abroad and at home. The best fabrics picked with the eye of an expert—just such goods as sell.

Never have we had a season of greater activity. Never did our prices seem more inviting. Never was there better proof of it either, for with very few exceptions our prices remain unchanged. Yet customers assure us that they are lower than where stocks have been profusely reduced.

Remember our goods are the freshest from the most famous weavers.

Prices, you know are one of our strong points always.

THE "SPECTATOR" OFFICE BURNED.

The Building and Plant a Total Loss.—The Paper to go on Without Interruption.

HAMILTON, Jan. 23.—About half-past two this morning a fire was discovered in the Spectator printing office, corner of MacNab street and Market square. The forms had been made up, and they had started to print off the paper when arrested by the fire. The flames spread rapidly to all parts of the building, and in an hour or two the whole building was gutted and portions of the roof fell in, though the walls remained intact. The fire brigade were promptly on hand, and succeeded in confining the fire to the building. The new steamer was used for the first time, and did splendid work, as the water supply began to weaken shortly after the fire began. The portion used as a printing office is rendered useless. The tenants on the ground floor are principally damaged by water. The fire is supposed to have originated in the stock-room, where fine paper is kept, and is believed to have been the work of an incendiary. The Spectator Company's loss is \$45,000, with \$21,000 insurance.

CURLING.

The Peterborough Club Carries Off the Caledonian Medal—A Draw in the Bonspiel—Mandamus Treatment at the Hands of the Toronto Curlers.

The term "keen curlers" may be justly applied to the Peterborough men in view of the difficulties they experienced in getting to the Queen city. The programme, as laid down, was that they should start from here on the Midland Division on Tuesday morning, arrive in Toronto at 11 a. m., play three rinks with the Toronto Granite for the Caledonian medal in the afternoon, and play three rinks in the bonspiel, East vs. West, on Wednesday, and return home the same evening. Owing to the snow blockade they were unable to leave here till 5.30 on Tuesday evening, which naturally upset all previous arrangements.

They arrived in Toronto at 2 o'clock on Wednesday morning, and played in the bonspiel, representing the east, the same day, with the following result:—

ST. CATHARINES. PETERBOROUGH.
J. Marchal, skip.....16 R. Philp, skip.....30
ORILLIA.
J. McCosh, skip.....18 M. Miller, skip.....4
WOODBRIDGE.
M. Brown, skip.....13 Geo. Dunford, skip 13

Thus one of the Peterborough rinks was victorious, one tied with their opponents, and one was defeated, while the aggregate scores of the three rinks on each side made a tie.

According to arrangement each defeated rink had to present its opponent with a bonspiel, and the rink scoring the largest majority was presented with a handsome pair of curling stones, the lucky club being the Scarborough Heather, whose score stood 39 to Simcoe's 9.

Taking it altogether the bonspiel was considered a failure, although as far as numbers were concerned it was a success; but as the bulk of the contest was on outside ice, and a snowstorm raging during the whole of the play it was disagreeable and not conducive to scientific playing.

Refreshments were served at all the rinks; the stones were carried to and from the stations, and everything was done by the Toronto curlers for the comfort of their visitors that could reasonably be expected.

THE MEDAL CONTEST.

On Thursday the contest took place between the Peterborough and Granite, of Toronto, in the rink of the latter, for the Caledonian medal, with the following satisfactory result:—

PETERBOROUGH. GRANITE.
Rink No. 1.
R. Hall, skip.....16 J. E. Hodgins, skip.....30
M. P. Dick, skip.....18 J. Carruthers, skip.....4
Dr. Boucher, skip.....13 W. Lawrence, skip.....4
E. Philp, skip.....21 R. Jaffray, skip.....14

Rink No. 2.
C. McMill, skip.....16 J. E. Hodgins, skip.....30
T. P. Atwill, skip.....18 J. Carruthers, skip.....4
G. Dunford, skip.....13 W. Lawrence, skip.....4

Rink No. 3.
R. S. Davidson, skip.....16 J. E. Hodgins, skip.....30
A. Hall, skip.....18 J. Carruthers, skip.....4
W. G. Ferguson, skip.....13 W. Lawrence, skip.....4
M. Miller, skip.....13 W. S. Davidson, skip.....14

The Peterborough Club thus won the match by 27 points. At the conclusion of the game the members of the Peterborough Club were entertained by the Granite Club at a sumptuous dinner at the rooms of the latter club. Dr. Boucher, President of the Peterborough Club, in returning thanks in behalf of the visitors for the splendid manner in which they had been treated by the Toronto curlers, expressed the hope that they would pay this town a visit in order that they might have an opportunity of showing that they appreciated their kindness.

The Toronto men then accompanied their visitors to the station and saw them start for home.

The success of the Club so far this season shows that it is made up of men with the true ring, and composed of enthusiastic curlers who, while taking a pleasure in the game, understand how to play it with success. At the bonspiel at Cobourg, although not victorious, they played the visitors closer than the other clubs, and came out of the contest with honor, and this victory won in Toronto is a handsome one. We expect to hear of them adding to their laurels in Montreal.

An Important Decision.

CHICAGO, Jan. 23.—During the trial of James McNeill for embezzlement the prosecution desired to prove that a part of the money was sent through the Western Union Telegraph Company. The telegraph clerk declined to produce the message. The court ruled that telegraphic communications could not be considered more confidential than others, and that no communication could be excluded when the cause of justice rendered its production necessary. The company then produced the message.

Valuable Burn Burned.

NIAGARA FALLS, Ont., Jan. 23.—A barn adjacent to the Albion hotel, owned by M. M. Buckley and occupied by G. & C. Buckley, flour and feed merchants, was completely destroyed by fire this evening with its contents. Total loss, \$1,200 on the barn, partly covered by insurance—on the contents, on the contents. The dry house of G. & C. Buckley perished in the flames. The combined efforts of the firemen and citizens prevented what might have been a serious conflagration, as there was a furious storm prevailing at the time.

O'Donnell Celebration.

DUBLIN, Jan. 22.—An immense concourse of peasantry assembled to-day at Derrybeg, County Donegal, the birthplace of Patrick O'Donnell, and assisted in the celebration of names for the repose of the soul of O'Donnell. After mass there was a most festive and a coffin was placed in the O'Donnell family burying plot. The people knelt around the grave. Wreaths of immortelles were placed upon the coffin. Thirty-five pounds were subscribed towards the fund to erect a monument to O'Donnell. A resolution was passed thanking Americans for their assistance, and Victor Hugo for his advocacy of the cause of Ireland.

LOYALIST MEETING IN DUBLIN.

DUBLIN, Jan. 24.—A large meeting of Loyalists was held in Dublin to-day. Among the speakers were Right Hon. Wm. Henry Smith (Liberal-Conservative), M.P. for Westminster. He urged all Loyalists to join hands for the benefit of the country. The meeting was the most imposing political demonstration ever held in the Dublin city. The speaking was in marked contrast to that heard at many of the meetings. Lord Rosemore was present and received an ovation.

FEEDLING HIS PATRONAGE.

MR. MOWAT has just given another instance
of his dishonesty in dealing with his official
patronage. The Sheriff of Essex, Mr. McEwan,
has been requested by the Ontario Administra-
tion to resign his office, but he refuses, as he is
quite justified in doing, thus to pronounce his
own dismissal merely to satisfy the cravings of
Mr. Mowat and his friends.

The ostensible reason for this injustice is a
most transparent blind. It seems that two
prisoners escaped not long ago from Sandwich
gaol, and this is to be made an excuse for
dismissing the Sheriff. The fact that Mr. Mowat
has usurped the power of appointing gaolers, in
accordance with his system of centralizing all
patronage in his own hands and infringing upon
our old right of local government, makes this
pretext almost sublime in its impudence.

It is too evident that the reason for ousting
Sheriff McEwan is that Mr. Mowat has some
friend, very likely of the S. S. Peck stripe,
whom he feels bound to reward for services to
himself, but at the cost of the public.

KEWATIN AND ONTARIO.

We have before us a new contribution to the
discussion of the boundary question. It is given
to the world in a very peculiar shape professing
to be a "Report of a select committee of the
Legislative Assembly of the Province of Kewatin
upon the Boundaries of the adjoining Province
of Ontario, with an appendix containing
the evidence; printed before presentation from
a manuscript copy without permission of the
Legislature."

The title page bears the imprint of the
"Kisteneaux Printing Company, Winnipeg-
osis" with the date "1884." Appended is a
map which claims to be reproduced from one
published at Paris in 1866 by N. Sanson d'Ab-
beville geographer to the King, representing
Canada or New France, but also showing the
colonies and possessions of other nations from
Hudson's Straits to Florida as they existed at
that date.

Besides the brief report of the suppositions
committee, there is appended the evidence that
was taken. Whoever it may be that has taken
the pains to place his ideas in this peculiar form,
it is evident that he is thoroughly well ac-
quainted with the subject. Even those who do
not adopt his views, and we must say that we
cannot do so, should certainly read this pam-
phlet if they wish to be complete in conversant
with all sides of this question, so complicated
in itself and into which so many unnecessary
complications have been introduced. Our author
most unceremoniously clears away some of these
adventitious obscurities, thereby bringing out
more forcibly the salient points.

REVIEWS.

TOPICAL HISTORY OF ENGLAND. No doubt
be latest addition to "Gage's Examination
Primers," the *Topical History of England* by
James L. Hughes, Public School Inspector,
will be of use to those for whom it is designed,
namely pupils preparing to pass examinations
or to qualify for certificates as teachers. Its
little pellets of superficial information are no
doubt well adapted for cramming, which in-
stead of true education seems to be the object of
our system. Our would-be teachers, thus
crammed, will be able to cram others in their
turn. Such inaccuracies as extending the
Roman period in England to 505 years by
making it begin in 55 B.C., thus trenching upon
the period of the Britons, with some queer
jumbles as to our Teutonic and Scandinavian
ancestors, will probably not materially injure
the fitness of the book for its purpose of pro-
viding some names and dates to conceal the
pupil's ignorance of English History from his
schoolmaster authorities, since Mr. Hughes being
an integral portion of the system no doubt
knows what will be acceptable.

PATRONS OF HUSBANDRY.

Annual Meeting of the Northumberland
and Durham Division Grange.

Pursuant to the call of the M. W., Northum-
berland and Durham Division Grange, No. 14,
met at Campbellford, on Thursday, January
10th.

The Worthy Master, after a few preliminary
remarks regretting that on account of the great
snow-storm, which blocked the several rail-
ways, and prevented quite a number of dele-
gates from attending, a number of delegates
were snow-bound on the Grand Junction Divi-
sion R. R. cars, where they were exposed to a
fast, not being able to get a supply of provi-
sions for over 24 hours. The W. M. then
opened the Grange in due form.

The roll of officers being called, the following
responded to their names: Levi VanCamp,
Master; J. E. Gould, Secretary; B. J.
Rogers, Jr., Treasurer; Sister L. VanCamp,
Lecturer; Sister J. Trull, Steward; Platt
Hinman, Gate Keeper.

The following were appointed to fill the
places of the absent officers until their arrival:
Bro. Andrew Young, Overseer; Bro. J. Trull,
Chaplain; Bro. James Tindle, Assistant
Steward; Mrs. P. Hinman, Ceres; Sister
Trull, Pomona; Sister J. Tindle, Flora; Sis-
ter Rogers, L. A. Steward.

Auditors—Bro. Platt Hinman and Jas.
Tindle.

Minutes of previous meeting read and adopt-
ed.

The following Brothers were appointed a
Committee on Credentials, viz: P. Hinman
and A. Young.

Kennedy and S. Parsons.

The report was adopted.

REPORT ON EDUCATION.

We, your Committee on Education, beg leave
to report that, in our opinion, the branches
taught in our rural schools are too numerous,
and the too frequent examinations now held, we
think, tend to the injurious system of exami-
ning. That, in our opinion, the very best
teachers are in the end the most efficient for the
younger pupils, as well as finally the cheapest.

We regret that farmers too frequently pay
too much attention to the accumulation of prop-
erty, and leave it to their children, forgetting
that property laid up in the intellect, through
education, is a sure investment, as it cannot be
taken away by the failure of banks, or the
knavery of deceitful individuals.

The report was adopted.

AUDITORS' REPORT.

Secretary's financial statement of the receipts
and expenditures of the Northumberland and
Durham Division Grange, for the year ending
December 31st, 1883. Total receipts, \$687.23;
disbursements, \$600.82.

We, the undersigned auditors, having ex-
amined the Secretary's books, and find that his
receipts amount to \$687.23, and that his dis-
bursements are \$600.82, showing that he has
paid out the sum of \$115.59 of his own money
more than he has received. We find vouchers
for all except 3rd quarter's dues to Provincial
Grange, (since has been received.) We would
recommend that an order be drawn on the
Treasurer in favor of Secretary for the amount.
All of which is respectfully submitted.

PLATT HINMAN, } Auditors.
JAMES TINDLE, }

The report was adopted.

TREASURER'S REPORT.

We, the undersigned, have examined the
Treasurer's books, and find that he has received
during the year \$200.19, and has paid out \$208.19,
leaving a balance, this day, on hand of \$115.00.

PLATT HINMAN, } Auditors.
JAMES TINDLE, }

Campbellford, January 10, 1884.

COMMITTEE ON INSURANCE.

To the Worthy Master and members of

Northumberland and Durham Division
Grange:

We, your Committee on Insurance, beg leave
to present the following report.

We have great pleasure in reporting the con-
tinued success of the Dominion Grange, Fire
Insurance Association.

Since it was organized, seven years ago, it
has steadily increased, and is now established
among the most reliable Insurance Associations
in the Province.

Through careful and efficient management it
has proved its ability to insure farm property
at a cost slightly over half what other reliable
companies are charging.

We have many testimonials from members
whose policies have expired certifying that their
surance had only cost about half what other
companies are charging.

The success which our Company has had in
the past, we hope, will encourage members of
the Order everywhere to use their influence to
make their own Company the leading and most
popular in the Province.

Respectfully submitted,
D. KENNEDY,
JESSE TRULL,
JAMES MOORE,
J. E. GOULD.

Moved by Bro. D. Kennedy, seconded by
Bro. J. Trull that the report on Insurance be
received and adopted by this Division Grange.
—Carried.

EXECUTIVE COMMITTEE'S REPORT.

COBOURG, June 14th, 1883.

Executive Committee meeting of N. and D.
D. Grange. Meeting was called to order by L.
VanCamp, W. M. The members present were
Bro. L. VanCamp, T. B. Carlaw, W. Brislin,
S. Caldwell, D. D. Henderson, and John
Garbutt.

On account of the absence of the Secretary,
Bro. D. Kennedy was appointed pro. tem.
Minutes of last meeting were read and adopted.

Moved and seconded that an order be drawn
on the Treasurer, in favor of Bro. L. VanCamp,
for the sum of \$10.00, being refundment for
1st call on stock, paid by him for this Division
Grange, in the Wholesale Supply Company.—
Carried.

Moved by Bro. W. Brislin, seconded by Bro.
D. D. Henderson, that, after ascertaining the
probable expense of conferring the 5th degree,
we think it advisable to defer the conferring of
said degree for the present.—Carried.

We, your Committee on Mileage, beg leave
to report. We recommend that the expenses of
the delegates be paid by this Division Grange,
to the amount of \$68.75.—Adopted.

GOOD OF THE ORDER.

We, your Committee on Good of the Order,
beg leave to report.

1st. We would recommend that our Dele-
gates to the Provincial Grange be instructed to
ask the Provincial Grange to send out lecturers
to advocate our principles more fully before
the agriculturists of our country.

2nd. That a reduction of dues be made from
Provincial to Dominion Grange.

REPORT OF COMMITTEE ON LEGISLATION.

We, your Committee on Legislation, beg
leave to report.

That the delegates from this Division Grange
to Provincial Grange bring to the notice of said
Provincial Grange the propriety of circulating
petitions to Dominion Grange against the de-
mands of the Miller's Association for the reduc-
tion of the duty on imported wheat.

On motion of Bro. L. VanCamp, seconded
by Bro. D. Kennedy, that the report on Legisla-
tion be received and adopted.—Carried.

ELECTION OF OFFICERS.

The following officers were re-elected for en-
suing year, viz:

W. M.—Bro. Levi VanCamp, Bowmanville.
W. O.—Bro. Ira Brislin, Baltimore.
W. Sec.—Bro. Jos. E. Gould, Oshawa.

W. Treas.—Bro. B. J. Rogers, Oshawa.
W. L.—Sister L. VanCamp, Bowmanville.
W. Chap.—Bro. Thomas Johnson, Peter-
borough.

W. S.—Sister J. Trull, Bowmanville.
A. S.—Sister J. Garbutt, Peterboro.
G. K.—Bro. Platt Hinman, Grafton.

Ceres.—Sister Ira Brislin, Baltimore.
Pomona.—Sister L. Parsons, Baltimore.
Flora.—Sister H. Davidson, Peterboro.
L. A. S.—Sister J. B. Moore, Hastings.

EXECUTIVE COMMITTEE.—Bro. T. B. Carlaw,
Warkworth; Wm. Brislin, Rosemeath; S.
Caldwell, Parrytown; Ezra Hall, Orono; D.
D. Henderson, Lang P. O., and John Garbutt,
Peterborough.

AUDITORS.—Bro. N. Peters and D. Ken-
edy.

DELEGATES TO PROVINCIAL GRANGE.—Bro.
James Trull, L. VanCamp and John Garbutt.

By request of the Worthy Master, Bro. D.
Kennedy installed the officers.

NEXT ANNUAL MEETING.

It was moved by Bro. Platt Hinman, second-
ed by Bro. M. Winters, That we hold our
next annual meeting at Cobourg.—Carried.

VOICES OF THANKS.

On motion of Bro. Platt Hinman, seconded
by Bro. N. Peters, That a vote of thanks be
tendered on behalf of this Division Grange, by
the Secretary, to the Midland Railway Com-
pany for their kindness in granting reduced
rates over their respective lines to the Delegates,
also to Mr. Blute, proprietor of the Windsor
House, at Campbellford, for the hospitable
manner in which he entertained the members of
this Division Grange.—Carried unanimously.

On motion the Grange closed.

FRIDAY, JANUARY 25, 1884.

LOCAL NEWS

County Council.

The members of the County Council spent the forenoon in committee work to-day—and they were hard at it.

Piano Tuning.

Mr. Geo. J. Gumprecht, tuner for Messrs. Mason & Bish, Toronto, is in town. Orders left at Mr. T. Menzies' Bookstore or at Messrs. Taylor & Macdonald's Drug Store will be attended to.

Killed on the Track.

The first fatal accident on the "Missing Link" since it was opened for traffic—or the first that became known—occurred on Thursday afternoon. A train coming down the track ran over a black and tan collie dog on the bridge near the Protestant Home, killing it almost at once.

Snow Shoe Club.

A meeting held in Mr. W. A. Stratton's office on Thursday evening a Snow Shoe Club was organized. The club started with a membership of thirty, and its prospects appear to be very bright. The following officers were elected:—

PRESIDENT—W. A. Stratton.
SECRETARY—TREASURER—W. F. Kingan.
CAPTAIN—Andrew Mercer.
COMMITTEE—Messrs. Reed, Kent, and May.

Presentation.

A very pleasant incident at the annual meeting of the St. Andrew's Church on Thursday evening was the presentation of an exceedingly handsome silver ice pitcher and cup to Dr. R. W. Bell, Secretary-Treasurer, by the ladies of the congregation. The Rev. Alex. Bell, on behalf of the ladies, presented the pitcher, accompanying the gift with a few very appropriate remarks. Dr. Bell, who was taken by surprise, returned thanks for the generous gift.

The Coldest Yet.

On Thursday night the spirit in the Rev. V. Clement's self-registering thermometer fell to 34° below zero. This is the lowest temperature experienced in Peterborough since the year 1864, when the spirit ran down to 42° below zero. At eleven o'clock to-day it had risen some ten degrees above last night's coldest. It might be mentioned that on the night of January 25th, last year, the thermometer marked 26° below zero.

A Hint.

Our attention has been called to the fact that a number of people are in the habit of driving through the streets of the town without bells attached to their sleighs. We are assured that it is very frequent—even daily—occurrence. It is unnecessary to point out the dangers to which such a custom renders, not only foot-passengers, but also drivers, obnoxious. It would be well if the police were to make an example by enforcing the prescribed fine on the first offender they notice so transgressing the law.

Ducks at Rice Lake.

The following letter appeared in the Montreal Herald, in answer to a communication from another correspondent:—

"The gentleman who lately wrote to you, asking for information regarding wild rice, has brushed a subject which is well worthy the attention of every true sportsman. Whether or no, wild rice does attract wild fowl is a mooted point with some, but the fact that wherever wild rice is to be found, ducks are also numerous, no matter how many gunners may molest them, should be conclusive proof. Rice Lake in Ontario, which although surrounded by a thickly populated and well cultivated country, and yearly visited by an army of gunners, still continues to be an almost unrivalled duck-shooting ground, is a case in point. The question of game aside, there is every inducement to plant wild rice. As a food supply it is by no means to be despised, for a well prepared dish of 'black rice,' as it is called, is a dish fit for a king, and it occupies the place of absolutely no useful thing. As a protection to all manner of fish it is second to no aquatic plant, and it is also a splendid breakwater. Mr. Charles Gilchrist, Inspector of Fisheries of the waters of Rice Lake, whose address during the winter I believe to be Fort Hope, Ont., is fully capable of furnishing both instruction as to how the rice is to be planted, and can, no doubt, furnish the seed."

"Sports."

Wm. Bow & Co's Celebrated Indian Pale Ale on draught at The Little Windsor Hotel. Try it.

Personal.
Mr. C. F. Henderson, of Nanaimo, formerly of Peterborough, is in town.

St. Andrew's Church.

The annual meeting of the congregation of St. Andrew's Church, was held on Thursday evening. Refreshments were served by the ladies, after which the Rev. Alex. Bell took the chair. The annual report was then read. Last year this church adopted the voluntary contribution system, and the report showed that it has been satisfactory, as there was a neat surplus of the receipts of the year over the expenditure. The report was received and the consideration of it postponed till a further meeting.

Changed Hands.

The North store Pastry and Confectionery Business which has been so successfully carried on by Carton Bros. for over two years has been purchased by Mr. William Ruth, a thorough practical man, and who has been foreman for Carton for some time past. The business will be carried on the same as before, and as Mr. Ruth is well known, and has given every satisfaction to the customers of the store he will no doubt continue to receive a large share of the patronage of Peterborough.

Look Out.

for the great clearing sale of rich and valuable goods at W. Fairweather & Co., commencing next week. The whole of their remaining fine stock of Fur, Jackets, Circulars, Buffalo Robes, Black, Grey and White Robes, Fur-lined Gloves, Gaiters or Caps, Tippets, &c. All kinds of Heavy Winter Clothing is to be sold at reduced prices. Blankets, Flannels and Carpets at sweeping reductions. Bargains will be given of all Winter Goods to clear. This firm, when they do advertise a clearing sale, mean business, and parties may depend upon bargains.

A Social Welcome.

A social was held in the Baptist Church on Thursday evening, to extend a welcome to the new pastor of the Church, the Rev. A. H. Munro, and give an opportunity to the members and others to become acquainted with him. There was a fair attendance, and refreshments in abundance were served. Among those present were the Rev. W. Joffe, the Rev. E. F. Torrance, the Rev. John Shaw, the Rev. A. E. de St. Dalmas and the Rev. F. Radcliff. Each of the clergymen gave Mr. Munro a pleasant welcome, and all, except Mr. Shaw, who was called away to attend a meeting in his church, delivered short addresses. Excellent music was furnished by the choir of the church, and a very pleasant evening was spent by those present.

A Heavy Loss.

On Wednesday, Jan. 23rd, Mr. Wm. Lambert, who has been here for some time in the capacity of interpreter for the Italians, started for New York. He had in his pocket book cheques for \$466 on New York banks, and \$120 in cash, besides a number of papers valuable to him. At the station here he took the ticket out of the pocket book and then replaced it in his pocket. When the train arrived at Millbrook the pocket book and all it contained was missing, and although Mr. Lambert returned to Peterborough, all efforts to recover it were in vain. He suspected that he had been robbed, but whether the book was stolen from his pocket or accidentally dropped out is not known. At any rate, the loss was a heavy one to him.

Social.

A very pleasant social was held at the residence of Mrs. Dixon on Thursday evening, for the benefit of the organ fund of St. Paul's Church. Although the weather was severe, there was a large attendance. A programme of considerable merit was carried out successfully, the following taking part in furnishing the excellent entertainment:—Miss A. Johnston, an instrumental solo; Miss Jessie Logan, vocal solo; Messrs. Best, Sanderson and Lech, trio; Miss E. Johnston, vocal solo; Dr. Clark, reading; Miss Walsh, vocal solo; Mr. A. Clegg, reading; Miss A. Errett, vocal solo; Miss Bertram, instrumental solo; Mr. Galletly, vocal solo; Miss S. Cameron and Miss Dixon duet; Messrs. Best, Sanderson and Lech, instrumental trio; and Mr. W. Dickson, exhibition of ventriloquism. Miss Hattie Johnston presided at the piano with her usual ability. Refreshments were served during the evening and the social gathering was brought to a conclusion by the Rev. E. F. Torrance rendering a portion of scripture. The financial result was most satisfactory.

Boys' Branch of the Y. M. C. A.

The organization of the Boys' Branch of the Young Men's Christian Association was completed on Wednesday evening last by the election of a President and Secretary. Herbert Dixon was chosen by the boys to fill the former office, and Harry Schofield the latter. A meeting is held every Wednesday evening under the superintendence of Mr. Wm. Smith, Head Master of the West Ward School. A very pretty pledge card containing the following pledge is given to every boy who may like to sign it:—"I, the undersigned, do hereby pledge myself, God helping me, that I will abstain from the use of all intoxicating liquor as a beverage, and also from tobacco in all forms." A table in the reading room belongs to the boys and contains the following stock of papers and magazines, which will be added to from time to time: Harper's Young People, Youth's Companion, Boy's Own Paper, British Workman, Cottager and Artisan, Boy's Companion, &c., &c., &c. The annual membership fee has been placed at twenty-five cents.

"Hub" Cough Cure, 25 Cents.

Prescription of a Boston physician, dispensed years by a Boston Druggist. One dose will cure any ordinary cough. It acts almost magically. Ask J. D. Tully for a 25 cent bottle of Hub Cough Cure.

THE HIGHEST HONORS have been awarded to Dr. Van Buren, of Germany, for the permanent relief afforded by his Kidney Cure to all sufferers of Kidney Disease. It is unobtainably procured by the Leading Medical Authorities of Europe that Dr. Van Buren's Kidney Cure will permanently remove all trace of Kidney Disease from the system.

Hope Me.
The weather probabilities for this district for the following twenty-four hours, counting from one o'clock this morning, as reported from the Toronto Observatory, are as follows:—South-easterly to westerly winds, generally fair milder weather, light snow in some localities at night.

Baltimore Oysters.

Owing to the snow blockades on points between Baltimore and here, our Oysters have been somewhat longer than usual getting through, but we have received a shipment of very choice Bulk Oysters, which we think will please our customers and those who may favour us with their patronage.

Savoury Rice: A Vegetarian Recipe.
Boil half a pound of rice in a quart of milk (or half water may well be used) till soft, and has absorbed the liquor: turn into a basin, and when cool mix half a tea-spoonful of salt, a tea-spoonful of white pepper, a desert-spoonful of fine parsley, two moderate size onions—previously boiled till tender and pounded with fresh butter size of a filbert. Mix these ingredients well and add three well beaten eggs. Turn-out into a well buttered dish and bake half an hour in a hot oven.

WHAT THE FIGURES REVEAL.—G. M. Everett, of Forest, near one family purchased over fifty bottles of Hayward's Peppermint Balm for their own use and that of various friends. He has sold this invaluable throat and lung remedy over sixteen years, and its sales are steadily increasing.

HELP REQUIRED.—Dyspepsia does not get along without assistance. It requires careful diet and thorough treatment. Burdock Blood Bitters have effected the most remarkable cure on record of chronic Dyspepsia.

THE MARCH OF WINTER DRESS GOODS.

Goods well bought are said to be half sold. The march began before our were fairly on Stock, and the march has been kept up since.

We had the best of assortments to begin with, gathered literally both from abroad and at home. The best fabrics picked with the eye of an expert—just such goods as sell.

Never have we had a season of greater activity. Never did our prices seem more inviting. Never was there better proof of it either, for with very few exceptions our prices—remain unchanged. Yet customers assure us that they are lower than where stocks have been professedly reduced.

Remember our goods are the freshest from the most famous weavers.

Prices, you know is one of our strong points always.

YOUNG'S POINT DAM.
We are glad to learn that the contract for the new dam at Young's Point has been awarded to Mr. Charles Wynn, of Peterborough, a choice which gives general satisfaction. The contract has now been signed, and Mr. Wynn will at once proceed to make the necessary preparations for carrying out this important improvement. He has already executed several important works for the county to the complete satisfaction of the Council and of their engineer, so that we may feel confident that the matter is in good hands and that it will be carried out satisfactorily.

We have here another proof that the authorities at Ottawa are duly impressed with the importance of our inland navigation, and an augury of the success of the present effort to induce them to proceed at once with further operations to open the Trent Valley navigation.

THREE SHORT QUESTIONS.
To the Editor of the Review.

DEAR SIR,—If whiskey was ten pence per gallon, whether would the producer or consumer pay the duty?

If it takes eleven acres of ground to move a college, where would be the best place to found a university?

How would a national policy w. a revenue tariff be affected by the result?

Yours, &c.,

SPRINGVILLE.
From Our Own Correspondent.

ONTARIO.—On Tuesday the 22nd January one of the oldest residents of this part was taken away by death in the person of Mrs. Elizabeth Hooley in her 85th year. (She had resided for over fifty years on the farm where she died but for the last ten years had been almost, entirely confined to the house.)

COLD WEATHER.—This month has been characterized by low temperature, but Friday the 25th, beat the former record of this season the thermometer being reported as low as 39 degrees below zero.

MISER.—The customary trips of the iron horse are making on the Ontario & Quebec across the snowbound hills.

ACCIDENT.—Mr. Francis Beavis of North Monaghan while engaged in hewing a piece of wood had his attention drawn away when the axe glanced and severed the arteries of his foot a doctor was sent for and with considerable difficulty succeeded in stopping the flow of blood and bound up the wound which is now reported to be in as favorable a condition as could be expected.

PORT HOPE.
FIRE.—About noon on Friday the alarm bells were rung, when it was discovered that the residence of Mr. Welsh, Enniskillen, was on fire. The firemen were promptly on hand with both chemical and large engines but were perfectly helpless for the want of water. The walls in that part of the town are so deep and the cisterns being frozen that nothing could be done to save the burning building. All the furniture in the lower part of the house was removed, but in a damaged state. It was fortunate the fire occurred in daylight, and that the day was calm, or some of the adjoining houses would have been burned. It is supposed the fire originated by children playing with matches in a stove upstair. Mrs. Welsh first observed smoke and opened the closet door, in the doing of which she was badly burned about the face forehead, but not sufficient to cause any serious apprehension of her recovery. The building was one of those three erected a couple of years ago by Mr. T. H. Ambrose, and was insured by that gentleman for \$1,000 in the Royal Canadian. Mr. Welsh's furniture was insured in the Royal of England. Surely some steps will now be taken for the extension of the waterworks. The western part of the town is in a perfectly helpless condition.—Guide.

FATE OF FIVE LUMBERMEN.

One After the Other all are Killed in the Woods.

Two years ago, says a Corning despatch, five young men came from the woods of Maine, where they followed the occupation of choppers, and found employment in the lumber regions of Pennsylvania, in the vicinity of Malley's mills. They were George and William Jennings, brothers; Arthur Fraley, Andrew Shalcross, and Hiram Stephens. The first week they were in the region George Jennings was "snaking" logs to a roll-way. As he was engaged in fastening a chain around a large log, standing on the lower side of it as it lay on the top of a small hill it was started in some manner, and before he could get out of the way it knocked him down and rolling over him.

CRUSHED HIM TO DEATH.

His father had been killed in a similar manner in Maine. A few months afterwards, Arthur Fraley and William Jennings were hunting in the woods near Malley's mills. They had shot a deer, and after loading their guns, had walked up to where the deer lay. Fraley he had of, beside the deer and Jennings stood behind him. While they were in these positions Jennings saw a fawn come leaping along the edge of the ridge close by them. He quickly cocked his gun. The click of the hammer caused Fraley to look up. Seeing the fawn he rose quickly to his feet. Jennings gun was discharged at the same instant, and the ball passed clear through Fraley's head killing him instantly. A few weeks later Jennings was engaged with others in driving logs, and while he was breaking a jam the jam gave way unexpectedly, and he was carried down with it and crushed to death. After William Jennings' death Andrew Shalcross declared that he could not remain in such an apparently fatal spot and he obtained work in Potter County. Last week the news was received that he had been killed by a falling tree. Hiram Stephens was now

THE ONLY ONE ALIVE

of the five young lumbermen who had come together to Pennsylvania. He had remained at Malley's mills. Last week when he heard of Shalcross' death he resolved to return to Maine. He had agreed to work at the mills until the 1st of February, and as his employer would not release him before that time he made his arrangements to go when the time came. Two weeks ago a young man named George Gough went to Malley's mills to work as a teamster. On Monday last there was but little for the teams to do, and as one of the choppers was sick Gough was sent to the woods to chop. He and Hiram Stephens went together. They were to work on a job about three miles from the mills. Gough was a green hand at chopping, and until about three o'clock in the afternoon had simply trimmed the branches from the trees that Stephens felled. Stephens had just felled a tree, and suggested to Gough that he try his hand at one. Gough selected a medium sized tree near by and began chopping. Stephens proceeded to trim the one that he had felled, and paid no attention to Gough's work. After a while he heard Gough shout to him to run, as the tree would fall in such a way as to strike him with a branch. Stephens started carrying his axe in front of him. He had taken but a few strokes when he stumbled and he fell. He was giving the last strokes on the tree with his axe, and seeing that Stephens did not rise after falling he ran to his aid, forgetting the danger from the tree. Before he reached Stephens

THE TREE FELL WITH A CRASH,

and Gough was caught beneath the very branch against which he had warned his companion. He was pinned on his back to the ground, the limb lying across his legs. No part of the tree touched Stephens, although Gough did not lie six feet from him. When the tree fell Stephens raised his head and saw Gough lying beneath the branch. He rose to his feet and then Gough saw the blood was pouring in a great stream from a fearful wound in Stephens' stomach. He had fallen on the upturned blade of his keen axe. Stephens staggered towards his companion, and although it was evident that he was dying, began chopping at the limb with the intention of releasing Gough if possible. He gave a few feeble and random blows, and then, turning to Gough, he laid the axe within his reach, and said:

"I'm done for George! You'll have to cut yourself out."

He then staggered off a few feet and fell to the ground dead. After long and difficult labor Gough succeeded in cutting the limb in two with Stephens' axe and in pushing off his leg that portion of it that held him fast. Then for the first time he knew that one of his legs was broken. There is a cabin, occupied at night by a number of choppers, about a mile from where Gough lay, and as night was coming on and little hope of any one passing that way, and none that he could survive a night spent prostrate on the snow, he determined to drag himself through the woods to the cabin. When the choppers came into the cabin about six o'clock they found Gough lying unconscious on the floor. His fingers were torn and bleeding and his clothes torn. Such restoratives as were at hand served to revive Gough, and he was soon enabled to tell of his terrible experiences of the afternoon, and the awful fate of young Stephens. Gough's fingers were torn to the bone by clutching in the snow and on bushes to drag himself along to the cabin. He was taken at once to Malley's mills, and he will doubtless recover. Stephens' dead body was found by a party of choppers who went in search of it, and will be buried at Malley's mills.

Rebate of Tobacco Duty.

WASHINGTON, Jan. 24.—In the House the bill on the rebate of the tobacco duty passed by 277 to 1. The bill appropriates \$3,750,000 for payment of the rebate on tobacco, and \$21,000 for the payment of the expenses of the New Mexico Legislature.

Hicks' Army.

CAIRO, Jan. 24.—News is confidently given out here that a large part of General Hicks' army is at Lake Rahad. They had probably left when General Hicks went to make a reconnaissance with his staff and was attacked at El Obeid. General Costigan telegraphs for instructions for the retreat.

General Gordon.

CAIRO, Jan. 24.—General Gordon arrived here this afternoon. He will proceed to Khartoum without an escort. He hopes to be in the Congo country in six months. The Egyptian Ministry has sent a circular to the powers who participated in the international tribunal, proposing the re-assembling of the judicial reform commission.

Tarnbull's Remnant Tables are again filled with ends of Brown Goods, Prints, Flannels, Shirtings, etc., to be sold at his well known low prices for Remnants.

RETURN OF THE GERMANIC.

DUBLIN, Jan. 25.—A tug landed at Waterford at nine o'clock this evening nine of the Germanic's passengers. One of them says after the shaft broke there was considerable excitement on board, especially among the stage passengers. The vessel behaved so well and the captain was so confident that the passengers decided to remain on board the Germanic when the Westernland offered assistance. The sea was very high at times, and the ship lay as if helpless. On the 22nd there was a fearful hurricane when darkness set in and the passengers almost gave up hope. The gale raged furiously all night, and to early the next morning. On the 24th the vessel drifted to Waterford harbor.

ELECTRIC PATENTS IN GERMANY.

BERLIN, Jan. 25.—The litigation in Germany between Edison and Swan on fundamental incandescent lamp patents has been decided in Edison's favour.

FIRING A REFORMATORY SHIP.

LIVERPOOL, Jan. 25.—Seven lads belonging to the reformatory ship Clarence have been arrested on the charge of firing the vessel. One has confessed that these were the lads concerned in the plot to burn the ship on purpose.

LIVES LOST BY A WRECK.

LONDON, Jan. 25.—The schooner Lether, from Greenock for St. John's, was wrecked during the late gale and four of her crew were drowned.

GENERAL GORDON'S MISSION.

CAIRO, Jan. 25.—The mission of General Gordon is to effect the complete evacuation of the Sudan, inclusive of Khartoum. The Khedive has appointed him Governor of the Sudan with full powers, and strongly advised him to take measures to secure the safety of the civilians and Europeans.

THE MARQUIS OF HERTFORD.

LONDON, Jan. 25.—The Marquis of Hertford, who was thrown from his horse and kicked while hunting at Alostere on the 21st, died today from the effects of his injuries. He was 73 years old, and a general in the British army.

The Weather and the Travelling.

MIDLAND, Jan. 24.—Weather to-day fine, but very cold. Our trains were all cancelled to-day on account of last night's heavy blow.

QUEEN'S, Jan. 24.—Yesterday's storm has effectively blocked the side-roads in this vicinity. The main roads are not so bad, but the fields have to be used in many places and upsets are frequent. The temperature is falling rapidly to-night. The mercury dropped six degrees within an hour after the sunset, and now registers 8° below zero.

COVENTRY, Jan. 24.—A very cold north wind has been blowing and snow falling mostly all day. No 3 express, due here at 7.30 p. m. yesterday, arrived here this morning twelve hours late, and all other passenger trains are hours late or cancelled. The stages are running with difficulty, and only report the roads blocked very badly with snow.

OWEN SOUND, Jan. 24.—Heavy storms yesterday and to-day. Railroad blocked to-day, highways almost impassable. Thermometer 8° below zero.

BELLEVILLE, Jan. 24.—The storm of last night and this morning was a severe one. A strong wind prevailed and three or four inches of snow fell, which drifted badly. The result has been great interruption to travel. The temperature fell 6° below zero. Snow has descended during the whole of the day, and the temperature is steadily falling.

CARDINAL NEWBOLD's definition of a gentleman is to the effect that he shows his breeding in "the carriage, gait, address, gesture, voice; the ease, the self-possession, the talent, the confidence; the lofty principle, the delicacy of thought, the happiness of expression, the taste in the dress, the generosity and kindness of the candour and consideration and the openness of hand."

MRS. ELIZABETH MARSH—Dr. M. Souville & Co., Gentlemen.—Yours of last week to hand, and reply to your inquiry I have much pleasure in stating that from the first time of using the epispme and the medicine I have improved very much. The bronchitis, the catarrh, the cough, I sleep well and have a good appetite. I must also add, that coming to you as I did as a patient, the cure effected has been wonderful.

Gratefully yours,
MRS. K. MARSH.

SATURDAY, JANUARY 26, 1884.

THE PROVINCIAL PROGRAMME.

THE speech placed by the Mowat Adminis-
tration in the mouth of the Lieutenant-Govern-
or of Ontario, calls for some comments.

After some well-earned compliments to the
new Governor-General it congratulates the Pro-
vince on the Bureau of Statistics, the Model
Farm, in connection with the Agricultural Col-
lege, and the newly instituted Agricultural Ex-
aminations, all good things, but as to the last
two Mr. Mowat and his colleagues certainly
cannot claim the merit of inventors. The
Provincial Board of Health, and the Free
Liquor Act, are also good subjects for con-
gratulation, and it is to be hoped they will have
the expected good results.

Next Mr. Mowat dashes into his annual at-
tack upon the Dominion of Canada, misrep-
resenting the recent judgment of the Privy Coun-
cil as deciding beyond controversy the whole
liquor question in favour of the Provincial Leg-
islation, and insinuating that it and the ecclesi-
astical and insurance cases were necessary to show
the autonomy of the Province is safe. Of course
he knows all the time that it was his own
friends at Ottawa who challenged his right to
ecclesiastical, which he has so cruelly abused.

The next clause is another attack upon the
Federal Parliament for interfering with the
legislative authority of the Province by its
railway legislation.

Then with an astonishing effrontery he asks
the Province to rejoice with him in the refer-
ence of the Boundary question to the Privy Coun-
cil, without one word of regret as to his
having delayed the enforcement of our rights
by refusing a similar proposition made to him
long ago by the Dominion Government, or for
having spent thousands of our money and caused
civil strife in order to utilize the dispute for
electioneering purposes. However, we are glad
that he has come, though late, to his right
mind, and is adopting the course recommended
to him by the Conservatives of the Province
and of the Dominion.

Among the measures promised is one for the
extension of the franchise, and we welcome the
boon, however unwillingly given. Again we
have to thank the Conservatives for this reform.
Though Mr. Mowat refused to follow the ex-
ample of Sir John Macdonald and his colleagues
or the advice of Mr. Meredith and his support-
ers last year, he evidently no longer dares to
persist in his refusal. And then he has not the
dread of facing the people that influenced him
last session.

Another bill is to provide voters' lists for the
unorganized districts, showing that the popular
indignation at the dishonesty of his proceeding
in falsifying the vote in Algoma has driven him
into better courses.

A bill for the prevention and punishment of
corrupt practices at elections is not a work of
supererogation; two of its clauses should be to
prevent his friends from bribing with railway
tickets and himself from doing so by peddling
round his patronage, or false promises of pro-
tection in a dozen quarters for the same office.

Other measures, such as bills regarding the
Board of Health, liquor licenses, notorious weeds,
diseases of fruit trees, and second free grants
we will consider when they are before us.

The last on the list of bills is that standing
item, rivers and streams, so we may look for a
fresh endeavor to rob a political opponent in
favor of a supporter, and to excite hostility to
the central authority of our Dominion.

Economical estimates for the future are pro-
mised, now that it is no longer necessary to
purchase votes under the pretence of work.
The public accounts are to be promptly pre-
sented, and it will be interesting to see under
what heads Mr. Mowat and his colleagues place
the cost of Rat Portage sidings, or the pay of
his invading army of good birds and others.

The programme this year, we are quite free
to admit, is an improvement. It adopts the
policy of the Conservatives, hitherto obstinate-
ly opposed by Mr. Mowat, in regard to those
important questions, our provincial boundary
and the extension of the franchise.

What Mr. Mowat's majority may be in the
House, it is evident he feels constrained to ac-
cept the Conservative policy, which is in favour
with the majority of the people of Ontario.

DOMINION PARLIAMENT.

The Second Session of the Fifth Parliament
of Canada.

On Wednesday Jan. 23 Sir RICHARD CAR-
WRIGHT suggested that the sessional papers
should be annually forwarded to former mem-
bers, who from various causes over which they had
no control were temporarily prevented from oc-
cupying seats in the House.

RAILWAY COMMISSIONERS.
Mr. DALTON MCCARTHY introduced his bill
for constituting Board of Railway Commission-
ers for Canada, and it was read a first time.

THE FRANCHISE EXTENSION.
Sir JOHN MACDONALD introduced a bill to
extend and assimilate the electoral franchise,
and in reply to Mr. Blake he said that the
charges from last year's bill were not so great
as to warrant his occupying the House with
them at this stage. The bill was read a first
time.

PAPERS PROMISED.
Papers were moved for, and promised as to
picking herring, agricultural education, the Ex-
change Bank, the steamer Princess Louise,
Regina, and claims for draw backs.

THE C. P. R.
Mr. BLAKE asked when the papers relating
to the Canada Pacific railway guarantee would
be laid on the table.

Sir CHARLES TUPPER said instructions had
been given to have them prepared as rapidly as
possible, and they would be laid on the table by
message very shortly.

PRIVATE BILLS.
On Thursday, Jan. 24, Mr. BEATTY as Chair-
man of the Private Bills Committee, moved
that the time for receiving petitions for private
bills be extended to Feb. the 9th. Carried.

THE METHODIST CHURCH.
Mr. MCCARTHY introduced a bill for the un-
ion of the Methodist Church, and it was read a
first time.

FRAUDS IN CONTRACTS.
Mr. CASGRAIN introduced a bill for the pro-
tection of frauds in relation to public contracts
and it was read a first time.

DUAL REPRESENTATION.
Mr. OUBINET introduced a bill to repeal the
prohibition of dual representation, and it was
read a first time.

MOTIONS FOR PAPERS.
Papers were moved for and promised as to
the Gravenhurst and Callender Railway, and the
disallowance of Provincial Acts.

ONTARIO LEGISLATURE.

First Session of the Fifth Legislative Assem-
bly of the Province.

On Thursday, Jan. 24th, after the Lieutenant-
Governor had read the speech from the Throne
and had retired, the Speaker informed the
House of the reports and certificates he had re-
ceived from the Election Judges.

SOUTH RENFREW ELECTION.
Mr. MEREDITH asked how the report of the
judges in the South Renfrew case had been re-
ceived, and being informed that it was by mail,
he said that the judgment was not intended to
be sent, as the judges had differed and there
were appeals pending.

Mr. MOWAT said the judges had only differed
as to disqualification and that no appeal was
pending.

Mr. HARDY maintained that the judgment
went to the Clerk of the House whether there
was an appeal or not, and without waiting for
the final decision.

Mr. MORRIS argued that the matter should
be referred to the Committee on Privileges and
Electoral, to see whether the member for South
Renfrew could rightly occupy his seat when
there were two appeals pending in his case.

Mr. MOWAT pretended that he did not know
there was an appeal.

Mr. MEREDITH said that both parties had
appealed, and he quoted the statute to show
that in such cases the Appeal Court must cer-
tify "in the same manner as the judge or judges
whose decision is appealed against would other-
wise have done." The whole proceedings were
void, and the hon. gentleman had no right to a
seat on the floor of the House.

FORMALITIES.
The SPEAKER read again the Lieutenant-
Governor's speech, and it was ordered to be
taken into consideration next day.

Mr. MOWAT introduced a bill as to oaths of
office, and it was read a first time.

Mr. MOWAT moved the appointment of the
Standing Committee.

Mr. MEREDITH said there was a good deal
of unnecessary formality, and he thought the
formal motions were to be in the standing
orders.

Mr. MOWAT thought the time taken was of
little importance, and suggested that Mr. Mer-
edith might give his advice to Sir John Mac-
donald.

THE WRECK OF THE COLUMBUS.
WOODHILL, Mass., Jan. 25.—A. D. Isagt,
whose brother, the Turkish consul, is among the
lost by the disaster to the City of Columbus,
made soundings over the wreck to-day and is
positive from his search that many bodies still
remain in the vessel. His brother occupied a
state-room aft on the port side. He hopes to
find the body there.

The Storm King, sounding in the vicinity of
the wreck this afternoon, discovered a mys-
terious rock on which the vessel struck. This
discovery confirms the statement of Capt.
Wright. While the diver and his party were on
the wreck a pair of trousers were noticed in the
rigging on the foremast, and when taken down
it was found they belonged to Capt. Wright.
How they came in the rigging is a question of
considerable interest. Three bodies arrived
here from New Bedford to-night, one that of
Daniel McCarthy, the ship's baker, and one
supposed to be that of Mrs. Fiskham, of Lynn.
The third is that of a man, and has not been
identified.

In the House a resolution was passed tendering
the thanks of Congress to Capt. Gabrielsen and
the crew of the revenue steamer Dexter and to
Lieut. Rhodes for their brave conduct in rescu-
ing the survivors of the steamer City of Colum-
bus.

A Fete Expelled From Russia.

VENNA, Jan. 24.—The Russian Government has
ordered Count Lubienaki, a Polish land-owner,
to sell his property at Silesia and quit Russia.
The Count is accused of conducting a Catholic
propaganda and exciting the people against the
Government.

Fears of a Famine in Frontenac and Addington.

KINGSTON, Jan. 24.—W. H. Rorison, Reeve
of North Crosby, says that many settlers in the
rear townships of Frontenac and Addington are
in danger of starving, being unable to obtain
provisions in consequence of the stoppage of the
trains, the snow having closed the northern
portion of the line. In the city no business is
being done, as farmers cannot get in from the
country, and merchants are complaining bit-
terly. Wood is getting scarcer, some large
dealers not having a cord of hardwood. It has
gone up one dollar per cord. Peter McLaren
has telegraphed to the city that unless he can
get his provisions out he will be obliged to close
down his shanties. Such a state of affairs never
existed in this locality before.

House-keepers will find some bargains
in Carpo's at Turnbull's.

A Statement from Nott.
PITTSBURGH, Jan. 24.—James Nott was asked
yesterday whether it was his intention to shoot
Dukes when he left home June 13th. He re-
plied:—"It was not. After I got the mail I
started home and turned into the building,
where they say I lay in wait for Dukes, for an
entirely different purpose. Coming out I saw
Dukes pass, and the time from when I com-
menced to shoot till I quit, is now, and has
always been, a blank to me. I did not know
how often I had fired till I heard from others.
None of my relations ever advised me to shoot
Dukes."

The New Quebec Cabinet.
QUEBEC, Jan. 23.—The following Ministers
were sworn in to-day as members of the Local
Government:—Messrs. Ross, Premier and
Commissioner of Agriculture and Public Works;
Robertson, Treasurer; Tallon, Attorney Gen-
eral; Lynch, Crown Lands; Blanchet, Pro-
vincial Secretary. There is yet one portfolio
not given. The Ministers were sworn in at 4
p.m. at Spencerwood. The Lieut.-Governor
being still confined to his bed.

Bucklen's Arnica Salve.

sores, ulcers, salt rheum, fever sores, tetter,
chapped hands, chilblains, corns, and all skin
eruptions, and positively cures piles or no pay
required. It is guaranteed to give perfect satis-
faction or money refunded. Price 25 cents per
box. For sale by Taylor & Macdonald.

SINGERS and public speakers are always ben-
efited by using Down's Balm, as it removes the
hoarseness and increases the power of the
voice. Take small doses often. Price, 25c/50c,
and \$1.00.

At this season of the year there should be a
bottle of Pectoris in every house. It is unequal-
led for Coughs, Colds, and Hoarseness, is plea-
sant, equally safe for children. Price 25 cents at
all drug stores.

FOR A HARD COLD, with pain in the head, bones
or through the chest, take Down's Balm at
once, and in liberal doses, cover up well in bed,
at your worst, and you will soon be well.

Daily Evening Review

SATURDAY, JANUARY 26, 1884.

The Temperature.

The spirit in the Rev. V. Clement's thermometer last night, showed 18° below zero.

Plane Tuning.

Mr. Geo. J. Gumprecht, tuner for Messrs. Mason & Risch, Toronto, is in town. Orders left at Mr. T. Menzies' Bookstore or at Messrs. Taylor & Macdonald's Drug Store will be attended to.

The Rink.

Friday evening at the rink is a favorite one. Last night it seemed particularly so. Rarely has the ice (on an ordinary occasion) been so picturesquely thronged with skaters. Peterborough seems to be fully alive this year to the exhilarating effects of the beautiful exercise.

Turnbull's last large shipment of Prints are highly appreciated. By the way they are selling now, they are sure to disappear quickly when the warm weather comes, the cloth designs and colors are right.

Don't Do It Again!

The special correspondent at Toronto of the Reform Montreal Witness says: "The decision of the railway pass question in the east Northumberland and South Victoria cases was very much like the verdict of not guilty, but do not do it again."

The Earth and Sky.

A very pleasant and profitable evening's entertainment is afforded by good views of geological and astronomical subjects, accompanied by explanations. The views interest, delight and instruct. Such an entertainment will be given in the school room of St. Andrew's Church on the evening of Friday, Feb. 1st, by Mr. A. P. Knight, M.A. There should be a large attendance of both young and old. Admission 15 cts.; children 10 cts.

Ladies, Consult Your Own Interests and visit Giron & Sullivan's great closing out sale. They are offering great bargains in black and coloured silks, dress goods, black and coloured cashmere, black quilted skirts, wool skirts, shawls, cloaks, jackets, jerseys, gloves, corsets, ties, and fancy goods, to be closed out at great bargains. In fact, anything in stock is offered at great bargain prices.

P.S.—Don't buy a black or coloured silk until you see ours. All we ask is to come and convince yourself. GIRON & SULLIVAN.

This Evening.

Remember that the Boston Opera Company appear this evening in Bradburn's Opera House in "Martha" and "Sir Marmaduke." This company have earned a good reputation and are highly commended by the press. A full house should greet them this evening. The following is the programme for to-night:—

Opening of the Second Act of English Opera, Martha. Miss Louise Baldwin, Miss Sara Peakes, Lionel, Mr. H. G. Snow, Plunkett, Mr. C. L. Black. To conclude with their successful Comic Operetta, Sir Marmaduke, in two acts, given by the same company with great success, and also by this company over 350 times.

Treat Valley Canal.

There is every probability of a very large and influential deputation waiting upon the Minister of Railways and Canals on the 5th of February to urge a further grant towards the early completion of the Trent Valley Canal. The Toronto Council appointed all its members as a deputation from the town, and several other gentlemen of the town will join the deputation. On Friday the County Council, which also fully recognizes the importance of having the construction of the canal pushed forward as rapidly as possible, appointed the Reeve of each village and township, and the County Clerk and County Engineer, to compose the deputation from the County Council, and, in addition to this, several of the minor municipalities in the County have appointed delegates to represent them on the deputation. Midland will be represented by the Reeve and the Clerk of the Village Council, and the Reeve of Tay will represent his township. The ball is rolling on.

THE COUNTY COUNCIL.

THE JANUARY SESSION OF THE MUNICIPALITY REPRESENTATIVES.

The Ontario Government Urged to Make a Grant for Roads in this County—Report of Committee Adopted and Other Business Transacted.

The Warden took the chair and the Council resumed at 2 o'clock on Friday afternoon. All the members were present except the Reeve of Norwood.

COUNTY PROPERTY. Mr. SANDEBSON presented the report of the Committee on County Property, as follows:—

1. That the communication of the County Treasurer in regard to the supply of wood be referred to himself and the Warden, with power to act.

2. That the matter of the repairs to the floor near the main door of this building be referred to the Warden and the County Engineer, with power to act.

3. That the matter of the repairs to the vault in the office of the Clerk of the County Court of the County of Peterborough be referred to the Warden and Engineer of the County, with power to act.

4. That the Treasurer be empowered to get the usual supply of ice.

All of which is respectfully submitted, MICHAEL SANDEBSON, Chairman.

County Council Chamber, Peterborough, Jan. 24, 1884.

The report was adopted.

APPOINTMENTS. Mr. H. COLLINS presented the report of the Committee on Appointments, as follows:—

The Committee on Appointments beg leave to report, recommending the following appointments for the current year:—

1. That Thos. Korkie be appointed trustee of the Norwood High School.

2. That Messrs. Sanderson and Carnegie be appointed members of the Board of Audit of Criminal and County Accounts.

3. That John E. Belcher be appointed County Engineer.

4. That Robert Kincaid, M.D., be appointed Gaol Surgeon.

5. That Henderson Nesbitt be appointed caretaker of the Court House and grounds.

6. That W. B. Kelly be appointed caretaker of the Mod Lake bridge.

All of which is respectfully submitted, HENRY COLLINS, Chairman.

County Council Chamber, Peterborough, January 25, 1884.

Mr. COLLINS moved, seconded by Mr. STRICKLAND, That the report be adopted.

Mr. WALSH moved in amendment, seconded by Mr. OLIVER, That the report be referred back to the Committee with instructions to strike out the name of Dr. Kincaid and insert that of Dr. O'Shea as Gaol Surgeon.

The amendment was lost on the following division:—

YEAS.—Messrs. Moloney, McElgott, Stephenson, Crough, Oliver, Mansfield, Walsh.

NAYS.—Messrs. Burnham, Strickland, Kidd, Brown, Elmhirst, Stewart, Collins, Sayers and Fitzgerald.

Mr. MOLONEY moved, seconded by Mr. WALSH, That the salary of the gaol surgeon be \$100 instead of \$150 as heretofore.

Mr. STRICKLAND moved in amendment, seconded by Mr. Burnham, That the question of salary be referred to the Finance Committee.

A vote on the amendment resulted in a tie, the division being as follows:—

YEAS.—Messrs. Burnham, Strickland, Kidd, Brown, Collins, Stewart, Sayers and Fitzgerald.

NAYS.—Messrs. Moloney, Walsh, McElgott, Stephenson, Crough, Oliver, Mansfield and Elmhirst.

The Warden voted for the amendment and declared it carried.

PETITIONS. Mr. Stewart presented the following report of the Committee on petitions:—

The Committee on petitions beg leave to report:—

1. That no action be taken with regard to the memorial from the United Empire Loyalist Centenary Committee.

2. That a memorial be passed as asked by the petition of James McEwen, President of the women's Suffrage Association, in reference to political and municipal franchises to women.

All of which is respectfully submitted, GEORGE STEWART, Chairman.

County Council Chamber, Peterborough, Jan. 23, 1884.

The report was adopted.

PRINTING. Mr. STRICKLAND presented the following report of the Committee on Printing:—

Your Committee on Printing beg leave to report:—

1. That they recommend that the printing of the list of convictions be equally divided between the Norwood Register and the Peterborough Times, two quarters in sections to each paper, and that the sum of forty dollars be paid for each quarterly insertion and sheet lists required.

2. That the printing of the assessment schedules be given to the Peterborough Times, at the same price as given last year, the schedules to be printed in No. 2 book paper.

3. That all other county printing be divided by the Clerk between the Examiner and Review in the same way and at the same rates for the work as were paid last year.

All of which is respectfully submitted, R. C. STRICKLAND, Chairman.

County Council Chamber, Peterborough, Jan. 23, 1884.

The report was adopted.

COUNTY OFFICERS. Mr. H. Nesbitt, turnkey, has been appointed caretaker of the court house and grounds by the County Council, a position that was held by the late Mr. McWilliams. All the other county officers were re-appointed.

A good heavy Winery only 10 cents a yard at Turnbull's.

POLICE COURT.

DRUNK AND DISORDERLY.

SATURDAY, JAN. 26.—Patrick Bourke was charged by P. C. Pidgeon with having been drunk and disorderly on Friday. He urged the first offence plea, and succeeded in getting a discharge.

The County Council.

The County Council completed all the business it had to deal with at noon to-day, and then adjourned.

A Carnival.

Arrangements are being made for holding another carnival in the Skating Rink early next month, at which there will be many new attractions.

Carnivals.

Two rinks of the Peterborough Club play two rinks of the Lindsay Club on Monday evening next, in the first primary competition for the Ontario taskard. The whole of the ice, both skating and curling, will be flooded to-night, and there will be no skating on Monday.

A woman who was crossing at the intersection of George and Hunter streets this forenoon was struck by a horse, which was being driven on Hunter street, and knocked down. She was terribly frightened for a few moments, but appeared to be uninjured.

Milder.

The weather probabilities for this district for the following twenty-four hours, counting from one o'clock this morning, as reported from the Toronto Observatory, are as follows:—Moderate west to south-west winds; fair weather; higher temperature; continued milder weather to-morrow.

Division Court.

In the Division Court yesterday in a case of Calcutt vs. Martin, wherein it was sought to make James A. Martin, hotel-keeper of Omeke, liable for the debts of Joseph H. Crivier, late hotel-keeper of this town, a verdict was entered for the defendant. C. A. Waller acted for plaintiff and J. O'Meara for defendant. There were other cases of no public interest.

Baltimore Oysters.

Owing to the snow blockades on points between Baltimore and here, our Oysters have been somewhat longer than usual getting through, but we have received a shipment of very choice Bulk Oysters, which we think will please our customers and those who may favour us with their patronage.

January, 24th, 1884.

On Friday afternoon a team of horses belonging to Mr. Walworth and attached to a sleigh became frightened and ran away. They sped down George street at a rapid rate, and at the corner of Simcoe street the sleigh struck a post, tearing the pole out. They turned west on Charlotte street, but were stopped before going far on that street.

Make Them Secure.

A blanket which was hanging out of the window of a building occupied by a dry goods merchant on George street fell down to the street to-day. It fell upon a lady who was passing at the time and knocked her down. She received a slight scratch on the face and was considerably frightened. The clerk should be careful to see that those articles used as signs are made fast, so that there would be no danger of them falling.

Changed Hands.

The North store Pastry and Confectionery Business which has been so successfully carried on by Carlton Bros. for over two years has been purchased by Mr. William Rath, a thorough practical man, and who has been foreman for Carlton for some time past. The business will be carried on the same as before, and as Mr. Rath is well known, and has given every satisfaction to the customers of the store he will no doubt continue to receive a large share of the patronage of Peterborough.

Look Out.

For the great clearing sale of rich and valuable goods at W. Fairweather & Co., commencing next week. The whole of their remaining fine stock of Fur, Jackets, Cloakings, Buffalo Robes, Black, Grey and White Robes, Fur-lined Gloves, Gantlets or Caps, Tippets, &c. All kinds of Heavy Winter Clothing is to be sold at reduced prices. Blankets, Flannels and Carpets at sweeping reductions. Bargains will be given of all Winter Goods to clear. This firm, when they do advertising a clearing sale, mean business, and parties may depend upon bargains.

A very choice selection of New Cretonnes for the Spring Trade in all the latest designs and colorings pressed out and new on sale at Turnbull's.

Virginia Prisoners.

RICHMOND, Va., January 22.—A letter from a former employee at the penitentiary published today contains grave charges against the officials of neglect and cruel treatment of sick convicts. One case is given of an Italian convict, sick and suffering, having eaten food not cooked enough. The doctor said he was insane and ordered him to be bound on an iron bedstead. In the evening the doctor ascribed how the man was in the hospital, the steward replied: "The d-d old fool has caused me a good deal of bother; I have just given him a medicine that will quiet him." The man went to sleep; no effort could be made when he died before 10 o'clock next morning. When his clothes were removed the flesh was found to be dreadfully cut by the cords which bound him. In some places they had cut into the flesh their full size. A committee is making a thorough investigation.

Worth ten Dollars a Bottle.

ANY person who has used Polson's Nervine, the great pain cure, would not be without it if it cost ten dollars a bottle. A good thing is worth its weight in gold, and Nervine is the best remedy in the world for all kinds of pain. It cures Neuralgia in five minutes; toothache in one minute; lame back, at one application; headache in a few moments, and all pains just as rapidly. Small test bottles only 10 cents. Why not try it to-day? Large bottles 50 cents sold by Ormond & Walsh. Use Polson's nerve pain cure—Nervine.

For Carrots that are sure to fit any figure go to Turnbull's. Special orders taken for extra sizes.

TORONTO NEWS.

CHESS TOURNAMENT.—On Thursday evening Dr. Zuckertort, the champion chess player of the world, played 27 games of chess simultaneously against the members of various clubs, Toronto being naturally chiefly represented. The Dr. played from seven o'clock till one o'clock in the morning with the following success:— Defeats two: Draws three: Victories twenty-two.

THE HUNTER RELIEF FUND.—The total received for the fund is \$8,710.88. The sufferers at the hospital are still improving. Mrs. MacDonald states that she has not authorized anyone to make collections for her benefit in the east end.

OFF FOR QUEBEC.—Lieut. Howard, with a sergeant and sixteen recruits for the new Calgary School, left the Union station at one o'clock on Thursday afternoon for Quebec.

SASKATCHEWAN HOMESTEAD COMPANY.—Alderman Moore will leave for England about the beginning of February in furtherance of the undertaking of the Saskatchewan Homestead Company, of which he is managing director, to colonize twenty-five townships in the Northwest.

A CHURCH ON THE ISLAND.—The erection of an Anglican church on the island, to bear the name of St. Andrew, will be proceeded with next summer. A meeting was held at the Synod office on Wednesday afternoon, the Bishop of Toronto presiding, to make the necessary arrangements. The estimated cost is \$1,400.

FIRE IN BRICKLAYER STREET CHURCH.—About one o'clock on Friday morning a fire broke out in Berkeley street Methodist church, corner of Queen and Berkeley streets. Flames were noticed in the basement of the church by the policeman on the beat, who immediately gave the alarm. A few minutes afterwards the fire burst out in the upper part of the building, and the whole front of the church was wrapped in flames. When the brigade arrived the fire had gained considerable headway. Water was immediately brought to bear on the fire, and by two o'clock the flames were extinguished by the united efforts of several sections of the brigade.

RUSSIAN FEMALE STUDENTS.—St. PETERSBURG, Jan. 24.—All female medical students, a class from which many Nihilists have been enlisted, are now compelled to reside in a house provided by the authorities, and be home before 9 o'clock in the evening.

THREATENING A KING.—BERLIN, Jan. 24.—A Berlin despatch says the King of Sweden and Norway recently received a letter from Drammen, Norway, threatening him with death if he went to Norway to attend the conclusion of the trial of the Norwegian Nihilists. The writer, who is a shoemaker, recently returned from America. He has been arrested.

THE ENGLISH GRAIN TRADE.—LONDON, Jan. 25.—The Standard says large suspension in the grain trade have been expected for some time. A ring of speculators in London and Liverpool is in difficulties, but so many powerful firms are interested in preventing a crash that great efforts are being made to stave off the evil day in the hope that the market will improve.

WHAT IS LIMPING YET? Why should you go limping around when Putnam's Painless Corn Extractor will remove your corn in a few days. It will give almost instant relief and a guaranteed cure in the end. Be sure you get the genuine Putnam's Corn Extractor, made by Dr. J. C. Putnam & Co., Kingston, for many substitutes are being offered, and it is always better to get the best. Safe, sure, painless.

BYSSOPAL AND LIVER COMPLAINT. Is it not worth the small price of 75 cents to free yourself of every symptom of these distressing complaints? If you think so call at our store and get a bottle of Shiloh's Balm. Every bottle has a printed guarantee on it, and accordingly, if it does you no good it will cost you nothing. Sold by J. D. Tully.

"HAB" COUGH CURE, 25 CENTS. Prescription of a Boston physician, dispensed years by a Boston Druggist. One dose will cure any ordinary cough. It acts almost magically. Ask J. D. Tully for a 25 cent bottle of Hab Cough Cure.

A CUP to be offered to amateur bicyclists has been designed by Mr. Ippen, of Boston. It is a beautiful horn of bronze and silver, and is covered with a wheel with wings rolling through dust formed of gold and silver. About the tip is a band showing bicyclists racing.

THE HIGHEST HONORS have been awarded to Dr. Van Buren, of Germany, for the permanent relief afforded by his Kidney Cure to all sufferers of Kidney Disease. It is unobtainable by any other means. The Leading Medical Authorities of Europe testify to Van Buren's Kidney Cure will permanently remove all traces of Kidney Disease from the system.

A MEETING was held in San Francisco to make arrangements to hold a World's Fair in 1887. It was resolved to provide a guarantee fund of a million, when Congress and the Legislature will be petitioned for an appropriation.

WHAT THE FIGURES REVEAL.—G. M. Everett, of Forest, says that in one year one family purchased over fifty bottles of Hagar's Peppermint Balm for their own use and that of various friends. He has sold this invaluable throat and lung remedy over sixteen years, and its sales are steadily increasing.

HELP REQUIRED.—Dyspepsia does not get along without assistance. It requires careful diet and thorough treatment. Burdock Blood Bitters has a remarkable record on record of chronic Dyspepsia.

It is reported that fifteen million more 5 percent bonds will be soon called by the U. S. Treasury Department.

THE MARCH OR WINTER DRESS GOODS.

Goods well bought are said to be half sold. The march began before ours were fairly on stock, and the march has been kept up since.

We had the best of assortments to begin with, gathered literally both from abroad and at home. The best fabric picked with the eye of an expert—just such goods as sell.

Never have we had a season of greater activity. Never did our prices seem more inviting. Never was there better proof of it either, for with very few exceptions our prices—remain unchanged. Yet customers assure us that they are lower than where stocks have been professedly reduced.

Remember our goods are the freshest from the most famous weavers.

Prices, you know is one of our strong points always.

CRYING DOWN OUR CREDIT.

MR. BLAKE'S leading organ, referring to the Canadian Pacific Railway Company, asks:—"Where now is all that wealth? Where now all that credit? Where now all those resources?" The wealth and the resources have enabled the Company to do an amount of work which is unprecedented in railway history for combined rapidity and completeness, and which has far surpassed the most sanguine expectations. The credit of the company in the great money markets of the world has unfortunately been impaired by the disloyal and unpatriotic conduct of the Globe and its echoes, of Mr. Blake and his supporters. With the hope of embarrassing the company, and thus by injuring the people of Canada, making them impatient of conservative administration, they have persistently attacked and slandered the company, belittled the country and misrepresented the situation in the Northwest. Capital is proverbially timid, and credit easily impaired, so capitalists have not unreasonably hesitated to invest in an undertaking, even if they did not believe these falsehoods, when there is such proof of bitter hostility to it, among those who ought, if they had one grain of patriotism, to encourage and aid it to the utmost of their ability.

PORT HOPE.

THE MUSIC HALL.—The new proprietors of the Music Hall (Messrs. Cox, Stevenson and Dumble), we understand, have realized the necessity of making considerable alterations in that place, of which we are sure our readers will be pleased to learn. The old wood stove has been removed and two large coal heaters put up in such a position that the hall can be heated in a little over an hour—one of them being placed on the east of the entrance and the other in the north-west corner, near the stage. Carpenters will commence in a few days to build a gallery at the back of the hall, which, when completed, will have a seating capacity of about 300. This will extend out about ten feet over the rear of the hall and back over the stage, and will add much to the appearance of the place. The walls will be colored and an addition of eight feet will be made to the depth of the stage, and various other changes will take place. When completed the hall will look like an entirely new place, and will, it is expected, be such a one as will warrant any of our citizens in taking a stranger within its walls without feeling a blush of shame rise to his cheeks. This town is able to support a much more respectable place of amusement than we have had for the past few years, and it gives us pleasure to know that steps have been taken to make a change.

Outrages Threatened.
The Irish Times' London despatch says there is good authority for stating that the British Home Office and the police have been warned of serious steps being taken to perpetrate outrages in England in connection with the New York Irish World's "O'Donnell Vengeance" fund of £1,500 subscribed, between £800 and £800 were forwarded to London last week. Detectives have been working hard to trace the holders of the money, but, so far, have failed. Later despatches, however, state that no great importance is attached to the story of the Irish Times' London correspondent. The police believe that disappointed Fenians are systematically attempting to create alarm throughout England.

Lots of Fun.
The Independent Reform Newmarket &c. says:—"In the case of South Victoria and East Northumberland we have the decision that to hire a team to take votes to the poll is bribery; but for a railway official to give passes to voters to get to the polls is not bribery. There is lots of fun in Ontario Hall decisions as well as in the local courts of County Magistrates, and some equally mysterious."

Morley's Acid Phosphate.
IN LIVER AND KIDNEY TROUBLE.
Dr. G. O. Miller, Boston, says: "I have used it with the most remarkable success in dyspepsia, and derangement of the liver and kidneys."

DOMINION PARLIAMENT.

The Second Session of the Fifth Parliament of Canada.
TITLES TO LAND.
On Friday, Jan. 25, Mr. DALTON MCCARTHY introduced a bill to facilitate the transfer of land in the Territories, and it was read as first time.

A NORTH-WEST LAND SALE.
MR. CAMERON (Huron) in moving for papers as to the sale of Fish Creek Farm near Calgary, made a fierce personal attack upon Lieutenant-Governors Robitaille and Dewdney, whom he asserted had been improperly favoured by the Government.

SIR JOHN MACDONALD censured the attack upon Mr. Dewdney simply because in pursuance of his duty as Indian Commissioner he had inspected the land without having the slightest interest in the purchase. It had been laid out as a supply farm for the Indians by the late Government, and the Indian Department, finding it was no longer needed, had transferred it back to that of the Interior. Then in the regular way it was sold for a good price, \$3 an acre, to Dr. Robitaille, who intended to reside there. Of course the Hudson Bay, C. P. R. and school lands were not included in the sale. There were only a few log buildings, and from their experience of their failure to sell the buildings at Port Pelly they thought they had made a satisfactory sale.

SIR R. CARTWRIGHT complained of the land being sold by private contract. He heard that money had been made by the resale of a small portion in advance.

SIR JOHN MACDONALD asked if he wished to introduce the new policy of sale by auction.

MR. BLAKE objected to there being no public notice that the land was for sale.

MR. ORTON mentioned a case in which the late government had spent \$40,000 on barracks at Livingstone, and now no higher bid could be obtained than \$2,000, so he thought the sale was judicious. He remarked upon the successful speculation of Sir R. Cartwright and Mr. Cameron (Huron), in Northwest lands, so they need not be so jealous of others.

MR. CAMERON and SIR R. CARTWRIGHT endeavoured to break the force of this criticism by protesting that they had not bought the land from the late Government, which Mr. Orton had not accused them of doing.

IMMIGRATION RETURNS.
MR. BLAKE, in moving for a monthly return of the migration by railway to Manitoba threw doubts upon the returns.

MR. POPE consented, but thought that nothing would remove his doubts. If the migration to Manitoba was not as large as they had hoped, it was on account of the false and unpatriotic reports of the Reform press.

TIMBER OF INDIAN LANDS.
MR. BLAKE, in moving for papers as to licenses to cut timber on Indian land, near Fort William, complained that the band was being wronged.

SIR JOHN MACDONALD said the timber had been sold by the Department for the benefit of the Indians, and to prevent it from being bartered away for a trifle to such persons as were now complaining.

MR. W. H. COOK said that the license had been renewed for \$12,000 to Mr. Marks, an active Conservative, and it was a case of unblushing bribery.

SIR JOHN MACDONALD said that he had heard of people being bribed by giving them money, and none knew how that was done better than Mr. Cook himself, but he could not understand bribing a man by taking a large sum of money from him.

THE HIGH COMMISSIONER.
MR. BLAKE, in moving for papers as to the appointment of Sir Charles Tupper as High Commissioner in London, objected to it as an innovation. He complained of the absence of the Minister from Canada for a portion of the year and the absence of the Commissioner from London for the remainder. Besides, a member of the Administration should not also be its agent.

SIR JOHN MACDONALD said that Sir Charles Tupper held the Ministry of Railways as a tolerably permanent position, while the Commissioner's position was only temporary. His services in regard to our cattle trade alone had far outweighed any inconveniences. As precedents there were the cases of Lord Carnarvon, Lord John Russell, Lord Beaconsfield, Lord Salisbury and others.

PAPERS.
A number of other motions for papers were carried without discussion.

Further departmental reports were presented and a message with the papers as to the C. P. R. stock guarantee.

They Both Fell Flat.
The Independent Reform Toronto World in its report of the Ontario Legislature says:—"The two maiden members who yesterday opened the debate on the address in reply to the Governor's speech failed to make an impression on the House, and the Government cannot be congratulated on their selection."

The speeches of these two gentlemen were not favorably commented on, and the opening of the debate was generally pronounced flat.

Burning of a Saw Mill.
The saw mill of Kenneth McKenzie, of Glenora, was destroyed by fire about two o'clock on Wednesday morning, January 23rd. Loss about \$10,000; no insurance. The fire is supposed to have originated from a spark from a smokestack or the fire-box of the boiler, which smouldered and burst forth when the mill was left for the night.

A HOME RULE VISIT.

LONDON, Jan. 21.—Frank Hugh O'Connell, M.P. for Dungarvon, a Home Ruler, will make a literary tour in America after the prorogation of Parliament.

COLLISION IN THE CHANNEL.
LONDON, Jan. 27.—The ships City of Lucknow and Simla, engaged in the Australian trade, collided to-day in the English channel. The Simla sank. The steamer Guernsey saved seventeen lives. Twenty men are missing.

A later despatch says the collision took place at nine o'clock last evening off the Isle of Wight. No lives were lost so far as known.

EXPLOSION IN A COLLIERY.
LONDON, Jan. 27.—An explosion occurred to-day in a colliery in the Rhondda valley, Wales, killing eleven persons. A rescuing party of three men, including the manager of the colliery, who subsequently went into the mine were also killed.

A MEETING PREVENTED.
DUBLIN, Jan. 27.—The National League meeting announced to be held to-day at Killivullen, Cork, was forbidden by proclamation. Two magistrates with numerous policemen prevented the meeting. A large number of men assembled. One of the magistrates twice ordered the arrest of the ring-leader, but he could not be secured. The police felled two women, breaking several ribs of one of them. At an informal meeting afterwards the conduct of the magistrates and police was denounced.

DISCHARGE OF BANKRUPTS.
The Causes for Refusal of Relief According to the British Act.

The Bankrupt Act recently passed by the Imperial Parliament provides that should no compensation or arrangement be made, the Bankrupt may apply to the Court at any time after his public examination has been concluded—the Court may grant or refuse the discharge after having considered the report of the official receiver as to the Bankrupt's conduct and affairs, and may either grant or refuse an absolute order of discharge, or suspend its operation for a specified time, or may grant an order of discharge subject to any conditions with respect to any earnings or income which may afterwards become due to the Bankrupt, or with regard to his after acquired property—provided that the Court shall refuse the discharge in all cases where the Bankrupt has committed any misdemeanor under the Act, and shall on proof of any of the facts hereinafter mentioned, either refuse the order or suspend the operation of the order for a specified time, or grant an order of discharge subject to such conditions as aforesaid.

The facts above referred to by which the judge is restrained from granting a discharge are the following:—

1. That the Bankrupt has omitted to keep books of account, such as are usual and proper in the business carried on by him, and such as sufficiently disclose his business transactions and financial position within the three years immediately preceding his bankruptcy.

2. That the Bankrupt has continued to trade after knowing himself to be insolvent.

3. That the Bankrupt has contracted any debts provable in the bankruptcy without having at the time of contracting it any reasonable or probable ground of expectation (proof whereof shall be on him) of being able to pay it.

4. That the Bankrupt has brought his bankruptcy by rash and hazardous speculation or unjustifiable extravagance in living.

5. That the Bankrupt has put any of his creditors to unnecessary expense by a frivolous or vexatious defence to any action properly brought against him.

6. That the Bankrupt has within three months preceding the date of the receiving order, when unable to pay his debts as they became due, given an undue preference to any of his creditors.

7. That the Bankrupt has on any previous occasion been adjudged bankrupt, or has made a statutory composition or arrangement with his creditors.

8. That the Bankrupt has been guilty of any fraud or fraudulent breach of trust.

Towing the Germanic to Liverpool.
Tugs are towing the steamer Germanic to Liverpool. A Queenstown despatch states that a passenger on the Britannic said they passed the Germanic off Tuskar rock this morning in tow of two tugs. The mails and the majority of the passengers are still on the Germanic.

Never give up.
If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any other disease of a bilious nature, by a means procure a bottle of Electric Bitters. You may be surprised to see the rapid improvement that will follow; you may be inspired with new life; strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Sold at fifty cents a bottle by Taylor & McDonald.

Almost every pill contains calomel and other mineral compounds. Dr. Cassen's Atomizer Bitters is purely vegetable and takes the place of all other purgatives, in large bottles to cents.

A SLANDER REFUTED.

The Kingston *Wing* may be supposed to know
something about an important industry of that
city and it distinctly repudiates the slanders of
the leading Reform journal. It says:

"The *Globe* of Saturday erred in regard to
the construction of locomotives in Kingston for
the Intercolonial R.R. The contract was not
secured as a Government favor, but as the result
of a hot competition."

The truth is that the Government saved the
country over \$30,000 by awarding the contract
to the Kingston Company, instead of taking
the next lowest tender.

DEBARRED BY A FRAUD.

THOUGH we feel obliged to condemn with
severity the illegal practices of the Algoma
conspirators, yet we are almost moved to pity
when we see them baited even by their friends.
The *Globe*, in an editorial on the franchise, has
the following sentence:

"Popular liberties would be little more than
a name if one Government agent were to select
those who should vote, and another Govern-
ment agent were to manage the voting, and
have power, should the other provisions be in-
sufficient, to return whom he pleased as duly
elected, no matter what the electors may do."

This pen and ink portraiture of Messrs. Ap-
john, Mowat and Thompson is strikingly truth-
ful, but is cruel coming from a friend.

FITTINGLY REBUKED.

The Montreal *Herald*, the leading journal of
the English speaking Reformers of the Province
of Quebec, discussing the new arrangement for
cheap rates for immigrants, by way of New
York, for our great North-west, says:

"These terms are expressly for emigrants for
our own Northwest, the emigrant going to De-
kota not being carried at as cheap a rate. It is
an arrangement which both the Mackenzie and
the Macdonald Governments sought in vain to
effect for many years, and all who know how
important it is to secure the influence of the
great Steamship Companies' agents throughout
Europe in favor of emigration to the Canadian
Northwest, will appreciate the importance of
the concession that has been made in this in-
stance. The *Globe's* suspicions are all wrong;
its 'fact' is wrong, and its conclusions are
wrong. It has got its subject just wrong and
foremost."

Trent Valley Navigation.

The Trenton *Courier* says:—The council have
made a good beginning. Their action appoint-
ing a large delegation to meet Parliament
assembled in Ottawa indicates good sense, fore-
sight and enterprise. The object of the
delegation is to urge the government to make an
additional appropriation for the construction of
another link in the Trent-Huron Water Route.
The building of locks at Fenelon Falls, Buck-
horn and Burleigh gives extended navigation
from Lakefield above Peterborough through
Stoney Lake, Buckhorn Lake, Plecon Lake
Sturgeon Lake, Cameron Lake and Balsam
Lake, opening a connected navigation of about
120 miles. From Lakefield to Trenton there is
20 miles of navigation to be improved and in
that stretch are the locks and dam at Chisholm,
now being put in order by the government.
The people from the head of Balsam Lake down
to Trenton are deeply interested in the construc-
tion of these 20 miles as it will make the naviga-
tion of the Midland section available to the
outside world and open up a cheap line for
marketing the produce of a very large section of
country. We trust the delegation appointed
will all be patriotic enough to join the deputation.
We trust Murray, Ameliasburgh, Sidney,
Belleville and the county council of Hastings
will send its quota to swell the ranks of the
deputation.

Arrival of Herr Lecker's Remains.

The steamer *Necker* arrived at Bremerhaven
in the morning with the remains of Herr Lecker.
The body was landed in the afternoon and car-
ried to the hall of the North German Lloyd's
building, where friends, relatives, and a number
of officials and officials awaited its arrival.
The President of the House of Burgundy de-
livered a eulogy. Herr Baumbach, a member
of the Reichstag, who had been the body and
passed a glowing eulogy upon Lecker's activity
and work in the interest of freedom and right.
After wreaths were placed on the coffin the
remains were forwarded to Berlin. Great
preparations are being made in Berlin for the
funeral of Herr Lecker. Baron Stumpp, a
member of the Reichstag, arrived here to
attend the funeral service at the Grand
Central Synagogue. He will speak after
Rabbi Dr. Frankel. The coffin will be carried
from the synagogue to the old Jewish
Schoenhausen cemetery. The procession will
include four bands, delegates from work-
men's clubs and ten Liberal clubs, with ban-
ners.

TERRIBLE MINE EXPLOSION.

Fifty-six Men Imprisoned—Seventeen Others
to Release Them.

CHICAGO, Jan. 24.—A terrible explosion oc-
curred at Crested Butte, Gunnison, Col., at
seven o'clock this morning in Crested Butte
coal mine, in which fifty-six miners are believed
to be killed. The explosion blocked the en-
trance to the mine. There were sixty-seven
men in the mine at the time. Of these eleven
who were just entering were thrown back to the
entrance by the force of the explosion and were
rescued. One of these is dead, and all the others
badly injured. Fifty-six men yet in the mine
cannot be reached, and are all supposed to be
dead. The explosion had such force as to en-
tirely wreck the engine house, which stood fully
one hundred feet from the entrance. It is sup-
posed the explosion was caused by a leak in the
air-compressor.

ANOTHER ACCOUNT.

DENVER, Jan. 24.—The explosion at Crested
Butte coal mine this morning is one of the most
appalling that ever occurred in a coal mine in
the country. Crested Butte, near which the
mine is located, is a coal mining town, thirty
miles north of Gunnison city, on the Denver
and Rio Grande Railway. The cause of the ex-
plosion is not definitely known, but it is sup-
posed to be from the fan. It occurred either
in chamber 1 or 2, just half an hour after the
day force of 87 men had gone to work. The ex-
plosion had such force as to completely blow
the main entrance, and the appliances for
supplying air, located near by, are badly
wrecked, and the roof of the tramway blown off.
Numbers have been hard at work all day to
rescue the men, although it is scarcely probable
that any of them can possibly escape alive.
As soon as possible the fan was repaired and
put to work pumping air into the mine, and
men were set to work to remove obstructions.
The town of Crested Butte is in mourning.
Crowds of women and children cluster about
the entrance to the mine, praying, wringing
their hands, and crying piteously, protesting a
scene most heartrending. It is said at the
time of the explosion there were ten kegs of
black powder in the chambers 1 and 2, which
the men were working, and when the explosion
is supposed to have taken place. The mine
has three miles of drifting, and so it is impos-
sible to definitely locate the accident until
rescuing parties can gain admittance. The mine
has long been considered dangerous.

A STRANGE STORY.

Interesting Legal Proceedings Involving
Forgery—An M. P. F. in the Case.

DRAUGHT.—Never since the trial of the Kil-
patrick forgery case has there been so large a
crowd at the Division Court here, as was on the
18th inst, to hear the case in which R. McKim,
M. P. F. was interested. His Honour Judge
Drew presided. The deep interest accorded
centered in the Hockney case, particulars of
which are as follows:—The Bank of Com-
merce, at Guelph, sued Mr. Hockney, a Peel
farmer, on a balance of \$300 on a \$200 note,
said to have been signed a couple of years
ago, by defendant Hockney, who is a "marki-
man." To prove their claim the plaintiffs put
in the box Wm. McKim, who swore to seeing
defendant sign the note, but could not say
where the transaction took place. R. McKim
who was present giving the bank all the assist-
ance in his power, gave some rebuttal evidence,
which was objected to by Mr. Jacob, counsel for
defendant.

In defence, Mr. Hockney swore emphatically
that he never signed any note for McKim for
\$200 at any time, but admitted having given
liberty to use his name in Elora to the extent of
\$500 last August, which sum he this winter
paid, but even then signed no paper of any kind.
When not shown how McKim got this money
without the defendant's signature.

His Honour reserved decision till last Satur-
day, when he gave the judgment in Guelph
in favour of Mr. Hockney.
This decision will be received with much
favour by the public, as Mr. Hockney, like
others who might be named, has already been
a victim to misplaced confidence in a large
sum, as above stated.—*Peterborough Evening*

OUR INLAND NAVIGATION.

The following is taken from the annual re-
port of the department of Railways and Canals:
The new works for the improvement of the
Trent Valley Navigation, for the construction
of which appropriations have been voted by
Parliament, are at the following places:—
Berleigh rapids; Buckhorn rapids, and Fenelon
Falls. Their completion will give communica-
tion between Lakefield, 94 miles from Peter-
borough, and Balsam Lake, the headwaters of
the system, opening up a total of about 120
miles of direct and lateral navigation.

At Lakefield, 94 miles from Peterborough,
the existing dam, a private one, which main-
tains navigation on Lake Katchewan up to
Young's Point, has been appropriated under
the authority of an order-in-Council of the 7th
of October, 1882, and the construction of a new
work is in contemplation, the existing dam
having been seriously damaged and rendered
dangerous during the prevalence of the spring
freshets in 1883.

At Young's Point, 5 miles from Lakefield,
the dam between Lake Katchewan and
Clear Lake has fallen into disrepair, and it is
now in too dilapidated a state to admit of
navigation. The construction of a new dam
has been authorized.

At Berleigh rapids, 10 miles from Young's
Point, a canal will be constructed about 1/2
miles in length, passing the Berleigh and Lov-
elock rapids, and giving communication between
Stoney Lake and Deer Bay. The work con-
sisting of the construction of three lift-locks and
certain dams, has been placed under contract.
A Buckhorn rapids, seven miles from Ber-
leigh rapids, a canal about one-fourth of a mile
long is to be constructed, having one lift-lock.
The works having been placed under contract.
The rock excavations is well advanced.

At Fenelon Falls, 44 miles from Buckhorn
rapids, it will be necessary to construct a canal
about one and a half miles in length, connecting
Sturgeon Lake with Cameron Lake. This canal
will have two lift-locks. The works are under
contract; the greater part of the excavation has
been completed, and the masonry work is com-
mencing.

In all the above named works the locks will
be of the following dimensions—Length, 124
feet; breadth, 23 feet; depth on sill, 5 feet.

Mr. Mackenzie's Speech.

There is considerable talk on the inside as to
what Mr. Mackenzie really did say the other
day, on the occasion of a presentation to him by
the officers of the insurance company of which
he is president. No reports were there, but
those who heard him said that among other
things he said that he had received more satis-
fying treatment from political opponents (Hon.
Alex. Morris made the presentation), than
from political friends. It is also stated that he
said the country must use the Pacific Railway
through.—*Peterborough Evening*

PORT HOPE.

THE SAVED ARMY.—The Saved Army, under
the command of General Lindsay and Capt.
Willis and wife, with a host of recruits from
Cobourg, commenced an onslaught on the
Powers of Darkness in Port Hope, on Saturday
night last. The Music Hall was full to the
doors at the first meeting, and considering all
the circumstances of the case was very orderly.
The experience given by the members of the
Army had the right ring about them and could
not fail to have a good influence on those
present. We noticed many at this meeting that
we never saw inside of a church. The meetings
on Sunday, both afternoon and evening, were
crowded. We trust they will be the means of
doing a great deal of good in town, for there is
great room for improvement. The Saved Army
differs from the Salvationists mainly in this
respect: They do not require their members to
forsake their previous church relations, but im-
press upon all who are converted at their meet-
ings to join some one of the churches. They
will continue their meetings during the present
week.—*Guide*.

Mineral Ore.

We have been shown by P. R. Randall samples
of mineral ore obtained from that productive
country in the vicinity of Snowdon, including
iron, copper, asbestos, phosphate of lime and
a valuable specimen of marble. The ore are
exceedingly rich, and the lands containing
them might be made to grow well if opened.
One specimen of the iron ore contained fully
seventy per cent. of the metal and another fifty,
while the copper is not far behind. The
specimens of asbestos were very good, and the
phosphate of lime. We should be glad to
see steps taken to open up the places containing
these metals, as we are convinced an excellent
return for the investment necessary would be
realized.—*Port Hope Times*.

A Libellous Book Seized.

A book containing bitter articles upon Berlin
society, which recently appeared in the *Nouvelle*
Revue of Paris, has been seized in Berlin. The
articles are grossly libellous of the Emperor, the
Imperial family, and the German Ministry.
The work is a created great irritation at court.

It will continue on Wednesday and Thursday, and be open from 9 o'clock a.m. to 10 p.m.

The Parish and City.
A very pleasant and profitable evening's entertainment is afforded by good views of geological and astronomical subjects, accompanied by explanations. The views interest, delight and instruct. Such an entertainment will be given in the school room of St. Andrew's Church on the evening of Friday, Feb. 1st, by Mr. A. P. Knight, M.A. There should be a large attendance of both young and old. Admission 15 cts.; children 10 cts.

Ladies, Consult Your Own Interests.
Visit GIBSON & SULLIVAN's great closing out sale. They are offering great bargains in black and coloured silks, dress goods, black and coloured cashmeres, black quilted skirts, wool shirts, shawls, cloaks, jackets, jerseys, gloves, corsets, ties, and fancy goods, to be closed out at great bargain prices. In fact, anything in stock is offered at great bargain prices. F. S.—Don't buy a black or coloured silk until you see ours. All we ask is to come and convince yourself. GIBSON & SULLIVAN.

Railway Notes.
The Grand Junction train was one hour late and the Toronto train forty-five minutes late this forenoon.
The London Free Press says that Messrs. Hendrich, Stuart and Barker, accompanied by Senators Turner and Frank Smith, had another interview with Sir Charles Tupper on Saturday. They presented an agreement to the Minister of Railways for the construction of the Greenherst and Colander branch, which was accepted by the former for the purpose of laying it before the Privy Council and having an Order in Council passed regarding the same. The Dominion subsidy for the road is \$12,000 per mile, and arrangements have been made for the Grand Trunk and Canadian Pacific Railways to have running powers over the line. The members of the deputation return home this evening, well pleased with the manner in which affairs have been settled.

THE COUNTY COUNCIL. A PROTEST AGAINST THE COUNTY BEING DIVIDED FOR REGISTRATION.

Report of the Finance Committee—The Assessment of Timber Limits—The Grand Junction, East—Miscellaneous By-Laws and Motions.

The following is a continuation of the report of the County Council proceedings:—

SATURDAY.
The Warden took the chair, and the Council resumed at 10:25 o'clock on Saturday morning.

THE AUDITORS.
A by-law to appoint the county Auditors for the year 1884 was introduced and passed through its several stages, Mr. J. J. Hall and Mr. F. J. Bell being appointed.

FINANCE COMMITTEE.
Mr. KIDD presented the following report of the Finance Committee:—

That the memorandum of accounts paid by your Treasurer in the order of the Warden be approved and sanctioned.

That no action be taken in reference to the application of the matron of the goal for an increase of salary.

That a special grant of \$25 be given to the Toronto Prisoners Aid Association.

That a special grant of \$20 be given to the County of Peterborough Rifle Association.
That in regard to the circular of Henry Wade and D. P. McKinnon in reference to Agricultural Education, your Committee recommend the appropriation of \$50 for prizes for those from the County who are engaged in the actual work of the farm and have not attended any agricultural college who may obtain certificates of merit at the examinations to be held next July.

That the salary of the Clerk and Treasurer of this County be increased to \$1,000 from the first of January, 1884.

That the salary of the goal Surgeon be not altered in amount.

A. R. KIDD, Chairman.
Mr. WALSH moved, seconded by Mr. CHURCH, That the report be referred back to the Committee to make the salary of the goal Surgeon \$100 instead of \$150, and that the surgeon furnish all medicine required.

The vote on the amendment resulted in a tie, the division being as follows:—

YEA.—Messrs. Moloney, Welsh, McClellan, Stephenson, Crough, Oliver, Elmhurst and Fitzgerald.—8.

NAY.—Messrs. Bernham, Strickland, Kidd, Brown, Mansfield, Collins, Stewart, Sanderson.—8.

The Warden voted against the amendment, and the report was adopted on the same vote.

BY LAWS.

A by-law to confirm the report of the Finance Committee was introduced and passed.

A by-law to confirm the appointment of officers for the year was also passed.

REGISTRATION.

Mr. STRICKLAND moved, seconded by Mr. COLLIER, Whereas rumours are afloat that the Government are considering the matter of dividing the county for registration purposes, and it is undesirable that such a division should be made, as it would necessitate a very large expenditure by this Council (several thousand dollars), besides entailing the loss of the annual income now derived from the Registry office under the provision of section 104 of the Registry Act, Chap. III, Revised Statutes, which last year amounted to \$130, be it therefore resolved that this Council ask the local members to oppose any such action and also memorialize the Government to the same effect.

Mr. STRICKLAND said that he had been informed that it was the intention of the Ontario Government to divide the county for registration purposes, and it was the duty of the Council to oppose it.

Mr. KIDD said he had never heard of such an intention. He believed it did not exist.

Mr. MOLONEY said he had heard it.

Mr. KIDD said that they were suggesting something by the motion, as they had nothing to show that the Government had any such intention.

Mr. STRICKLAND said he had not only heard the rumour, but he had received a letter from one of the representatives of the county saying that it was so reported in Toronto.

Mr. MOLONEY said that a motion was put in the Act in reference to the Grand Junction legalizing the county by-law without giving any notice to this county, and this county might be divided for registration purposes without any notice being given.

After some further discussion,

Mr. BURNHAM moved in amendment, seconded by Mr. WALSH, That in the event of any legislation being introduced into the Local Legislature to divide the county into registration divisions different than at present constituted, the Warden of the county be authorized to oppose such legislation and memorialize the Legislature against the same, and that a copy of this resolution be sent to the local members.

The amendment was put and declared carried.

AMENDMENT.

Mr. MANSFIELD moved, seconded by Mr.

KIDD, That the Warden communicate with the Attorney-General in reference to the question of the right of municipalities to assess the right and interest of lumbermen in timber limits, and ask that all doubts should be removed, as this Council are of opinion that such property should be placed on the same footing as other property now liable to assessment.

Mr. MANSFIELD said that it might seem like a small matter, but the timber limits owned by lumbermen in this county amounted to about \$200,000, and if they were assessed it would make a great difference. When land was granted by the Government the timber was reserved.

Mr. STRICKLAND said that if Mr. Mansfield was aggrieved with the land regulations he should bring pressure to bear on the Ontario Government. When the timber was converted into lumber it was assessed.

Mr. MANSFIELD said that Mr. Mowat had been written to and gave it as his opinion that the timber should be assessed.

Mr. BURNHAM said that if this motion was carried out it would compel lumbermen to pay taxes twice. If Mr. Mowat was of the opinion that the timber should be assessed, he was at the head of the Government, and he could have it so if he wished.

Mr. STRICKLAND said that they paid a tax to the Government, and if the Government would be willing to have that tax paid to the municipalities the lumbermen would be satisfied.

Mr. BURNHAM said that the motion having been introduced in the last hours of the session the members had not time to consider it. The motion was laid over until the June session.

THE GRAND JUNCTION AND COUNTY.
Mr. E. B. EDWARDS was heard in regard to the Grand Junction suit. He said that while the Council was in session last June the railway had again entered the suit for the bonus to the Grand Junction, changing the form of the suit. He immediately applied for an injunction to stay the proceedings until the costs of the former proceedings had been paid. This injunction was finally granted. The costs had not yet all been paid, and if they were paid, the railway could then proceed with the suit. There was every reason to believe, however, that if they did so it would be decided as it had been before.

MEMBERS' PAY.
Mr. KIDD moved, seconded by Mr. BURNHAM, That all the members of this Council who were detained by the storm receive their full sessional allowance.—Carried.

The Council then adjourned. The next meeting will be held in June.

"Hub" Cough Cure, 25 Cents.

Prescription of a Boston physician, dispensed years by a Boston Druggist. One dose will cure any ordinary cough. It acts almost magically. Ask J. D. Druggist for a 25 cent bottle of Hub Cough Cure.

The cotton seed or olive oil used by vegetarians is boiled for five minutes before adding to the other ingredients.

Poison's Nervine.
Poison's Nervine cures catarrhs, chills and spasms. Nervine cures vomiting, diarrhoea, cholera and dysentery. Nervine cures headache, seasickness, and summer complaint. Nervine cures neuralgia, toothache, lumbago, and sciatica. Nervine cures sprains, bruises, cuts, &c. Poison's Nervine is the best remedy in the world, and only costs 10 cents to try. It cures all ailments and is sold by Ormond & Welsh's drug store. Try Poison's Nervine.

HELP REQUIRED.—Dyspepsia does not get along without assistance. It requires careful diet and thorough treatment. Burdock Blood Bitters have effected the most remarkable cure on record of chronic Dyspepsia.

WHAT THE FIGURES REVEAL.—G. M. Everest, of Forest, says that in one year one family purchased over fifty bottles of Hagar's Pectoral Balsam for their own use and that of various friends. He has sold this invaluable throat and lung remedy over sixteen years, and its sales are steadily increasing.

LAST SUMMER, as he lay in the hammock, dreadfully gasping at the smother, lower sprinkled lawn, his darling approached and said, "There is a difference between you, dear, and this grass plot." "Communicate the variation." "This is a daily level, while you are a laxy." "I could not bear the rest of it."

THE HIGHEST HONORS have been awarded to Dr. Van Buren, of Germany, for the permanent relief afforded by his Kidney Cure all sufferers of Kidney Disease. It is almost unanimously pronounced by the Leading Medical Authorities of Europe that Dr. Van Buren's Kidney Cure will permanently remove all traces of Kidney Disease from the system.

ADVISE.
The present winter promises to be a memorable one. Ice is predicted, with increased snow across over the Little Lake region, and possibly too on English's Creek.

It behooves the people of this town and district to be prepared.
The garage Christian, when finding his nose and limbs freezing, pounds them against each other and swears.

Then he hies off to the coal store and roasts.
The true remedy lies in WARM AND SUFFICIENT CLOTHING.

Better spend a few dollars in Clothing, prevent a cold, and cheat the doctor.

WHAT IS HIS WEIGHT?

The Toronto World, in a gossiping paragraph about the members of the Legislative Assembly of Ontario, says:—"Raymond of Glengary, the heaviest man, with Blesard for second place." Mr. Mowat and his colleagues do not agree with the World for with them Mr. Blesard has apparently very little weight.

Notice of Motion and Enquiries.

The following extracts are taken from the Mail, of notices given in the Provincial Legislature:

MR. CARBONNEAU—On Wednesday next—Enquiry of the Government whether Mr. P. Jamison, the tenant of a portion of the Agricultural hall, Toronto, has as yet repaid the whole or any part of the money expended by this province in making improvements on that building, which Mr. Jamison's lease required him to make at his own expense, and which expenditure, according to the estimate of the chief architect of the Public Works Department amounts to \$3,081.50; and if not, what steps have or are being taken to secure an early settlement of this claim.

MR. CARBONNEAU—On Thursday next—That a humble address be presented to his Excellency the Lieutenant-Governor, praying his Excellency to cause to be laid before the House copies of all applications for the office of Registrar of the County of Peterborough, and of all correspondence and memorials relating to the filling of the vacancy which existed therein from December, 1882, to January, 1884.

MR. CARBONNEAU—On Friday next—Order of the House for a return of copies of the annual reports of the Muskoka, Jam, Slide, and Boom Company for the years 1882 and 1883.

MR. CARBONNEAU—On Thursday next—Order of the House for a return showing—1st. The amount voted by this House for expenditure on each particular colonization road in the Province during the year 1883, with the conditions (if any) attached to such grant. 2nd. The amount annually expended on each of such roads, with the dates when the work thereon was commenced and completed. 3rd. The roads upon which the \$20,000 placed at the disposal of the Government for general purposes has been expended, with copy of report recommending such expenditure, or other application therefor; date of appropriation, date of commencement, and conditions of the same, and conditions (if any) attached to such grants.

All kinds of Heavy Winter Clothing is to be sold at reduced prices. Blankets, Flannels and Carpets at sweeping reductions. Bargains will be given of all Winter Goods to clear. This firm, when they do advertise a clearing sale, mean business, and parties may depend upon bargains.

Changed Hands.

The North shore Pastry and Confectionery Business which has been so successfully carried on by Carlton Bros. for over two years has been purchased by Mr. William Ruth, a thorough practical man, and who has been foreman for Carlton Bros. for some time past. The business will be carried on the same as before, and as Mr. Ruth is well known, and has given every satisfaction to the customers of the store he will no doubt continue to receive a large share of the patronage of Peterborough.

Railway Accident.

CHATTANOOGA, Tenn., Jan. 29.—The wreck of the passenger train on the Nashville & Chattanooga Railroad, near Shellwood, Tenn., this morning, was more serious than at first supposed. The engineer was killed, the fireman fatally injured, and the conductor and three men were seriously hurt. The engine and three cars were entirely demolished. A boiler which rolled down the mountain, as large as a box-car, fell down a few seconds after the wreckage made his inspection, and just before the train arrived, caused the accident.

DOMINION PARLIAMENT.

The Second Session of the Fifth Parliament of Canada.

THE GRAND TRUNK.

Mr. CURRIE on Tuesday introduced a bill to enable the Grand Trunk Railroad to consolidate and re-arrange their capital and for other purposes, and it was read a first time.

First readings were also given to bills to incorporate the service between Quebec and Montreal, to grant certain powers to the Commercial Cable Company, and to amend the Ocean Mutual Marine Insurance Company's Act.

INDIAN MUNICIPALITIES.

MR. JOHN MACDONALD introduced a bill to "confer certain privileges on the more advanced bands of the Indians of Canada, with a view to training them for the exercise of municipal affairs." He described the measure as tentative, and it provides that on the allowance of the Governor-in-Council, Indian communities should be allowed to elect six councillors who should choose a chief councillor. It also gives power to the Indians to make arrangements for the improvement of their reserves.

MANITOBA SCHOOLS.

SIR L. LILLY moved the House into committee to consider the proposed advance of \$15,000 a year to Manitoba for its public schools. The Dominion was to receive 5 per cent on these advances until there are refunded out of the sale of school lands. In reply to Sir Richard Cartwright he said that none of the school lands had been sold, as the Manitoba Government had requested that the sale should be postponed.

MR. BLAKE said that they should have the papers before them; quibbles had settled on some of the school lands and might cause a difficulty as to the sale. He believed this was the cause of the postponement.

SIR J. MACDONALD said some of the lots advertised had been claimed by settlers, and the Manitoba Government had represented that it was not an expedient time for a sale, so it was adjourned for these two reasons. The settlers' claims were being considered individually by officers of the Department, and the law was altered to prevent such claims preventing public auctions in future.

JUDGES' SALARY.

SIR J. MACDONALD gave notice of a resolution to provide a salary of \$2,400 for a County Court Judge for Carleton District, B.C. The Government of the Province had asked for five judges and this one was granted.

MR. BLAKE complained that five judges had been pensioned off, and that five more would have to be appointed soon.

SIR J. MACDONALD said it was not so. Five large stipendiary magistrates had been pensioned off, but as they were receiving salaries for other public duties they were not drawing the pensions.

FIG IRON.

MR. BLAKE moved for papers as to the bounty for the manufacture of pig iron.

SIR L. LILLY had waited upon him on the subject and had promised to supply him with figures, but as he had not yet received them he was not ready to report.

FISHING LICENSES.

MR. MULOCK moved for papers as to fishing regulations in Ontario.

ANNUAL REPORTS.

Further annual departmental reports were presented.

DOMINION ELECTIONS.

Mr. Smyth, the Conservative candidate, has been elected member of the House of Commons for West Kent, Ontario, by a majority of about 300.

Mr. Temple, the Conservative candidate, is reported to be elected member of the House of Commons for York county, N.B., by a very large majority.

POLICE COURT.

DESTROYING TREES.

WEDNESDAY, Jan. 30.—Six Italians who, with others, live in a small house at the outskirts of the village of Ashburnham, were charged with destroying trees on Mr. T. G. Hallitt's property in Ontario. The charge was laid by Alex. Reid, and the Chief of Police and two constables made the arrests. The foreigners appeared before the Magistrate to-day. As it has been a case of persons who appear in the Police Court, neither for love nor money, we will try to give the names of these six prisoners. They were Giovanni Diaprio, Francesco Ringer, Nicola Scarpino, Antonio Delemonio, Ferando Delconio, and Domenico Diaprio.

The damages were assessed at \$10 and a fine of \$5 was imposed, which, together with the costs, amounted to \$33.00. This amount was paid.

The Crested Batte Monster.

DESERV, Jan. 28.—There is still danger of a Mooly Maguire outbreak at the Crested Batte mine. If the coroner's jury should hold Ross Gibson responsible for the disaster the Mollies will undoubtedly lynch him.

At the inquest on the disaster to-day the witnesses all agreed that had the rules of the mine been properly observed by the miners the terrible accident would never have occurred. All spoke in the highest terms of the management, and their extreme caution and care for the safety of the miners.

The Spanish-American Treaty.

MADRID, Jan. 29.—Minister Foster has had a most cordial conference with the new Prime Minister on the American commercial treaty. He claims that the Premier promised at once to make a careful study of the treaty framed by his predecessor and promptly submit it to the decision of the Council of Ministers.

REVOLUTION WANTED.

PARIS, Jan. 29.—At a meeting of 400 Socialists to-day a resolution was adopted declaring revolution the only means of ending the labour crisis.

PRINCE OF WALES THREATENED.

BRISTOL, Jan. 29.—Extra precautions are being taken to protect the Prince of Wales during his visit here, owing to the fact that numerous menacing letters have been received. The police have arrested a farmer, who is believed to be insane, who purchased a gun with the avowed intention of shooting the Prince of Wales.

NIHILIST PLOT.

St. Petersburg, Jan. 29.—The greatest conversation, nearly amounting to a panic has been created in all departments of the Russian Government by the unusual activity of the Nihilists the past few days. A Nihilist plot to poison the Imperial Family was discovered this morning. Since the murder of Col. Soudakin the food which is supplied for use at the Imperial table is carefully examined by experts before being sent to the table. This morning the experts, in their usual examination, discovered the fact that the bread which was intended for use at the Imperial breakfast-table, was thoroughly impregnated with strychnine and that a small quantity of the bread eaten by a person would produce death almost immediately. On the head of this discovery telegrams were received announcing that a policeman named Soboleff, had been murdered by the Nihilists at Kharkoff early this morning, and another stating that a serious rising had occurred in Little Russia, and asking that troops be sent at once to quell the insurrection.

THE NEW OCEAN CABLE.

LONDON, Jan. 29.—The first thousand miles of the new Atlantic cable was despatched by the steamer Faraday. This intelligence has produced a scare among holders of old cable companies' shares, and they are selling stock in a great hurry.

CONFLAGRATION IN NORWAY.

LONDON, Jan. 29.—A conflagration at Larvik, Norway, destroyed sixty-two dwellings, causing a loss amounting to £20,000.

A BIG LUMBER FAILURE.

The British Canadian Lumbering and Timber Co. Ltd. have Assigned.

The Toronto World of Jan. 29, says:—For some time rumor has been busy with the affairs of the British Canadian Lumber and Timber Company, the offices of which are at 34 Scott street. It was stated yesterday that a receiver had been appointed, or rather that the company had assigned to the banks indebted.

The company had a capital of a million, mostly Scottish money, was formed some years ago, and bought extensive limits and mills from the Cook Bros., Geo. J. and H. H. It is understood that the Messrs. Cook made a good thing out of the sale. Geo. J. Cook is president of the company, and J. S. Lookie, formerly manager of the Bank of Commerce, is its financial manager. The banks mainly interested are the Toronto, Quebec and Commerce, the liabilities to which foot up to close on to a million dollars, perhaps half of which is secured. The Commerce is the largest creditor.

It is now alleged that the rosy statements made as to the value of the limits have not been realized, and that not only will the banks lose all the money that they put in it, but the ordinary creditors will not be paid, and the banks will be out a large amount.

A short time ago it was hoped that the company was worth \$500,000 by each of the banks advancing \$50,000 and the Scotchmen the same amount, but this appears to have been abandoned.

A reporter asked Mr. H. H. Cook last night about the matter, but he had nothing to say.

The Welsh Colliery Explosion.

A second exploring party descended into the mine in the Rhondda valley where the explosion took place, but were forced to return. The workings are a complete wreck. Sixty-eight persons were killed. No trace was found of the first party of explorers, three in number, among whom was the manager of the colliery. A third exploring party penetrated 500 yards into the pit and found two corpses, including the body of Manager Thomas, who led the first exploring party. Manager Thomas was awarded the Albert medal for heroism in rescuing a number of imprisoned miners from the Rhondda valley colliery a few years ago. A thousand men are thrown out of work by the explosion.

WEDNESDAY, JANUARY 30, 1884.

THE REGISTRARSHIP.

ONE of the deplorable results arising from
the corrupt manner in which Mr. Mowat and
his colleagues held out hopes of the registrarship
to influence the electors in a great number of
different quarters, and their ultimate gift of
this much coveted office to a gentleman whose
appointment can only, apparently, be justified
by the supporters of the Mowat Government on
religious grounds, is that it has provoked much
acrimonious discussion from a denominational
point of view, and has excited much angry feel-
ing in this respect.

Now, we have always taken the position,
which we believe to be the only correct one,
that no consideration of the denomination of
the candidates should have any influence upon
the choice for any office or post of honor or
emolument. The Conservatives of Peterbor-
ough, both town and county, have given abun-
dant proof of their readiness to act in this
spirit, neither favouring men because of their
denomination, nor opposing them on account of
it, either in political or municipal affairs, but
choosing a man according to his qualifications
for the post, and leaving his religion as a matter
between him and his Maker.

As to the appointment to the Registrarship,
we think that under the existing system in this
country it is not the place of the Conservative
party or of Conservative journalists to be criti-
cal, so long as the gentleman chosen is fitted
for the position, as no doubt will prove to be
the case in this instance. It may be very well
for the Reformers to consider the question of
rival claims and respective party services, but
this they must settle among themselves—it is
no affair of ours. So, too, as to those who have
been deceived by false promises, it is the per-
sonal affair of themselves and their friends.

We would remind our readers, however, that
they should not allow their attention to be di-
verted by this lamentable discussion from the
real offence committed by Mr. Mowat and his
colleagues. Their misconduct could neither be
extenuated nor aggravated by any appointment
they might make. Their very serious offence
was that of peddling round their patronage,
or rather the hope of their patronage, in different
directions during a contested election, offering
the inducement to candidates and their friends
that the result of the poll would affect their
choice, and varying their false promises for
different localities and different bodies of electors.
Such corrupt allurement was even more
dishonest than it would have been if they had
boldly bought votes with their own money. It
is vain for them or their friends to protest that
they did not make such promises. Unless they
are very much belied by members of their own
party they did make them in more than one
instance, but even if not, the promises were
made in their name, and it is self-evident that
they dishonestly delayed to fill the vacancy for
the very express purpose of allowing this cor-
rupt use to be made of their name; since there
could be no other sufficient reason why they
should allow the vacancy to remain unfilled for
thirteen months. No cloud of dust that they
or their friends can raise will hide either their
falseness or their corruption in this matter.
For any evils that have arisen from their dis-
honest trafficking with public patronage they
are also directly responsible.

A CORRUPTIONIST PUNISHED.

WITH that unscrupulous vindictiveness which
so often marks the venal rascals, the Ottawa
Press never lets any regard for truth and
honesty interfere with its policy of slandering
the Conservative party. It publishes the fact
of Apjohn being condemned to pay \$1,000, or
in default to go to goal, for refusing as deputy
returning officer the right of voting to certain
persons in the Algoma election, but with
dastardly falsehood it hands its paragraph,
"Another Fery Corruptionist Punished." It
hopes by this misrepresentation to hide from its
readers the fact that Apjohn was one of the
men in the employ of Mr. Mowat and his col-
leagues to carry out the conspiracy to disfran-
chise Conservatives in Algoma, and so to pro-
cure the fraudulent return of Mr. Lyon.

ONTARIO LEGISLATURE

First Session of the Fifth Legislative Assem-
bly of the Province
THE ADDRESS.

Mr. MEREDITH on Monday resumed the
debate on the address in a long and eloquent
speech. He regretted that he could not com-
pliment the mover of the address (Mr.
McIntyre, of South Victoria), who had coolly
and deliberately read his insults to the Conser-
vative leaders, and especially to one holding a
high position in the Dominion, while the
Ministerialists had adopted his sentiments by
cheering the reader. Referring to some of the
congratulatory clauses of the speech, he
remarked that the Government were unfairly
taking credit to themselves for the work of Mr.
Sandfield Macdonald, whom they had driven
from power. They professed a great regard for
the farming community, but they took care not
to have a farmer in their Cabinet. As to the
free grant settlers, they were placed entirely at
the mercy of the Government, who showed far
more regard for the interests of the lumbermen.
He promised the support of himself and his
friends in any legislation to promote electoral
purity, and repudiated the false charges of a
corrupt bargain made between them and the
Conservatives at Ottawa. He congratulated
the Government on having been educated into
favouring an extension of the franchise, which
they had refused last session. He deprecated
the dealing with any question between the
Province and the Dominion in such a way as to
excite acrimony of feeling, and especially
censured the member for St. Victoria for
calling the Premier of Canada the "arch-enemy"
of Ontario. As to the liquor license, he had
held and still held that the Province had the
right to legislate as to police and municipal
regulations, a position that had
been sustained by the highest court. He,
however, strongly condemned the partisan man-
ner in which the Administration had abused
its power. He pointed out that, as to elections,
the Privy Council had only pronounced as to
land and not as to personal property. As to
the control of railways, he thought that the
Dominion should not assume it in the case of
purely provincial lines, but that they should in
the case of branches absorbed by the great
trunk lines. One of the earliest cases was the
assumption by the Dominion of the Canada
Southern, a road chartered and subsidised by
the Province and then the gentleman opposite
had raised no cry of invasion of Provincial
rights because the Reformers were at that
time in power at Ottawa. He saw that they were
to repeat the farce of re-enslaving the Streets,
and clamouring for the repeal of that portion
of their constitution establishing the veto power.
The leading men of both political parties had
thought at the time of confederation that such
a safeguard was necessary for the protection of
minorities such as the Roman Catholics in
Ontario and the Protestants in Quebec, besides
it might be necessary to prevent interfering
with contracts and repudiating liabilities.
Turning to the Boundary Question he tersely
related the history of the violent and lawless
proceedings of the Government, in regard to
the disputed territory and the difficulties in
which they had involved themselves, so that
they had to concede to Manitoba that reference
to the Privy Council which they had so long
refused to the Dominion authorities. By this
he had been compelled to accept less favourable
terms and had postponed the acquirements of
its rights by Ontario. They had maintained
(contrary to the by to the opinion of Mr.
Blake) that the country was absolutely
bound by the award, and now after all
this wasted time, they submitted the question
of its validity to the courts. Twice they had
taken the opinion of the people on their course
—at the Dominion elections, when the Conser-
vatives obtained a sweeping majority and at
the Provincial elections, when their majority
was greatly reduced and many of their saddles
were emptied. One great inconvenience of the
present course was that the Dominion was not a
party to the proceeding, and though the terri-
torial rights might be settled, proprietary rights
would not. He censured severely the enormous
expense that had been incurred with the
apparent object of seating Mr. Lyon for Algoma
and so building up their tottering fortunes. He
deprecated the risk of bloodshed and civil
strife for such a cause, and urged the duty of
carrying on their affairs as so to cause as little
friction as possible between the different mem-
bers of the confederation, without stirring up
strife, setting race against race, or religion
against religion. The Opposition would will-
ingly assist them in such a spirit in maintaining
the rights of Ontario.

Mr. MOWAT, in reply, dealt with what they
had attacked the Dominion Government, whose
assistance, he said, accounted for the increased
numbers of the Opposition. He adopted the
sibylism of Mr. McIntyre by pointing that
lamentable effusion as cordially as if he himself
had written it. If they had not a farmer in the
Cabinet, they were there through the confidence
of the farmers. As to the right of veto, he
ridiculed the idea of religious minorities re-
quiring protection, and had the effrontery to
deny that any State had repudiated its obliga-
tions. He thought the veto power was a bad
thing. As to the Boundary Question, he
endeavoured to show that the argument was a
good one. He hoped the validity of the award
would be maintained, and that Mr. Meredith
and Mr. Blake would both be proved to have
been wrong. In his opinion it was a
matter for the executive, though later on he
claimed that one advantage he had
gained had been the agreement for prior
ratification by the two Provinces, and he
expressed his regret that Mr. Mackenzie had
not ratified the award in advance, when he
would have saved all the trouble. By contend-
ing that he was right, in avoiding a decision by
the Manitoba Courts which would be prejudicial,
he in fact admitted that he had been forced by
that Province into going to the Privy Council.
He said that the question of the ownership of
the land was not to be decided upon, but
maintained that there was no doubt of its be-
longing to Ontario. He thought these negotia-
tions had been most satisfactory.

Mr. MORRIS made a little fun of Mr. Mow-
at's company, in Algoma, which according to
the Attorney-General's own account had been
rather humiliating. He quoted Mr. Blake's
dictum: "We believe that the Government
of the Province ought not to assume a position
of either alliance or hostility towards the Gov-
ernment of the Dominion," and pointed out
how widely the Ministry had departed from this
policy. He also referred to Mr. Blake's recent
complaint that Provincial Act was not sent in
sufficiently promptly to enable an early use of
the veto power when advisable so he did not
agree with Mr. Mowat in thinking the veto
power was a wrong thing. He discussed at
length the Boundary question, showed that Mr.
Mowat had not made such a favourable arrange-
ment, as he claimed. An effort should be made to
obtain the concurrence of the Dominion, while
both Legislatures were sitting, to the submission
of the whole matter to the Privy Council.

Mr. MOWAT said that such action as was re-
commended by Mr. Morris was in contemplation.
He had made a report which was not
quite ready to be brought down yet. It would
form part of the scheme.

Mr. MORRIS congratulated the government
on having adopted the course proposed by the
Opposition, but which had been voted down by
the Administration. The training they had got
at the last election had evidently had good re-
sults.

Mr. WATERS was glad the Boundary question
was to be lifted out of the arena of politics and
expressed his confidence in obtaining justice
from the Privy Council, but he failed to
account for his supporting Mr. Mowat in mak-
ing it a party question and refusing so long to
submitting it to our highest court. He had the
effrontery, notwithstanding the recent revela-
tions in the Election Courts, to deny that the
license officials used any undue pressure. He
showed an equal disregard for truth by assert-
ing that Mr. Meredith had not last session pro-
posed any extension of the franchise, as if the
people could forget how the opposition advocat-
ed such an extension last session while Mr.
Mowat and his majority obstinately voted it
down. Now he declared for manhood suffrage
and compulsory voting.

Mr. ROSEBARD asked indulgence as a new
member and a French Blen, but then proceed-
ing to make a very amusing speech in which
sound sense was conveyed in a jocular manner.
He advised the mover of the address to take an
emetic to get rid of the gall of his uncharitable
epithets or he would certainly become dyspeptic.
The Boundary award he said had been suspend-
ed by Mr. Mowat like Mahomet's coffin between
heaven and earth. Now however the Premier
had found that he was wrong and that a speedy
settlement was advisable, but he would not
confess his fault. He believed in the integrity
and justice of the Privy Council, and was con-
vinced that Ontario would get her rightful
territory as she should whether it was of great
or little value. Referring to recent inventions
he said the most wonderful was a new pressing
machine, he believed they called it "Apjohn"
for pressing the franchise out of conservative
voters in Algoma, illustrating his idea by
amusing anecdotes. Referring to the reforms
promised in the Speech he said they reminded
him of the new fashion of having little butter
plates on the table instead of the whole pot of
butter—it was in fact butter-plate reform.
Changing to the French language he defended
the competitors from the insulting abuse of the
Globe and its echoes, and maintained their
loyalty. There were 10,000 French Canadians
in Ontario, which had no more industrious, law-
abiding, God-fearing people. He hoped to hear
less in future of the bug-bear of French
domination.

Mr. MURRAY, who seemed to think he was in
the House of Commons, blamed the Dominion
Government for granting relief to Pembroke.
In reply to Mr. Meredith he said that Pem-
broke had only got justice, but it should not
have been done on the eve of an election. He
asserted that the election petitions were all
hatched at Ottawa, seeming to forget that about
half them were by Reformers. Perhaps, how-
ever, he was right as to them. He concluded
with an attack upon the tariff policy which the
people of Canada, including Ontario, have
adopted with so much benefit to the country.

Mr. EMMATON reminded Mr. Murray that
the National Policy was not a Provincial issue.
If the promised election act did not contain a
provision to punish the crime of depriving a
constituent of the franchise, he should move
an amendment to that effect. After censuring
the Government for its inconsistent course on
the Boundary question, and discussing other
points in the address, he concluded with a well-
merited eulogium of Mr. Meredith.

MISS JENKINS.

PACIFIC ROADS.

The American roads across the continent have had much to contend with. But their land subsidies were much more valuable than the mixed land and cash subsidy of the O. P. R., and it is also safe to say that the Canadian line has been assailed with a pertinacity and vehemence neither Ames nor Huntington or Jay Cooke nor Villard ever encountered. Americans are always loyal to "American institutions." No American journal would dream of making a systematic onslaught on an American enterprise looking for foreign capital. Our cousins are extremely addicted to politics, but they seldom let politics interfere with the development of American resources. Nearly all the older roads in the States were built with English money, and the party that had lent itself to "bearing" those projects when they were first launched in London, would receive short shrift at the polls. Unhappily in Canada, politics are the first consideration in all national undertakings. For three years the C. P. R. has been assailed by the Reform press and the Reform leaders as though the best of the ambition was to wreck it. Fair criticism of the company's contract with the Government or of its treatment of the settlers, would have been a wholesome thing. But a propaganda of lying was established from the first, and conducted with remorseless activity. The Reform party did not, it is true, wish to ruin the road but the Ministry. Samson harbored no malice against the two middle pillars, but all the same he wished to overthrow them. The C. P. R. has not been swamped, but that it has been seriously injured by these home attacks admits of no doubt. The articles, letters and speeches delivered straight at the company, both in the view of damaging the Government, and faithfully reproduced in certain London and many American papers, have beaten down the value of the stock in an untold market and at a critical period. The Reform party, however, is now taking the Dominion Government to help it to overcome the difficulties thus created; and the Toronto Globe, that Heelan of the Grand Trunk, has already given the signal to the party to fight tooth and nail against the granting of relief. The closing down of the road might be a big political stroke of Mr. Blake, but how would it suit the Northwest or affect the Dominion at large?—Winthrop Times.

BELLVILLE.

SHOOTING ACCIDENT.—On Friday afternoon John McDonald of this city, visited the house of Thos. McCurray, in the first concession of the township of Thurlow, about three miles from Bellville, where the first named took hold of a loaded gun and discharged it, the powder going into McCurray's face and slightly burning his nose. The injuries are not serious.

STROKE WITH EPILEPSY.—Mr. James Ross, one of the city tax collectors, was stricken down by epilepsy on Sunday. He is somewhat better.

A FIRE.—At five o'clock on Monday a fire broke out in Barber & Leslie's furniture store, Front street, which was completely gutted and all its contents destroyed. The flames extended to John Grant's boot and shoe store and Allen McFay's jewelry store, the stocks in which sustained considerable damage. Mr. Leslie, who slept over his store, escaped in his night clothes.

Hot Content With Being the Host.

Whatever may be said in regard to the propriety of the management of great railway lines to provide for the public only what is actually demanded in the way of accommodations and comfort, can in no way apply to the management of the Chicago, Rock Island & Pacific Railway, or as it is more familiarly known, "The Great Rock Island Route." This line has for years been recognized as the best and most comfortable route between Chicago and Kansas City, and the Southwest, and has been abundantly able on this account to successfully cope with its competitors. But not satisfied with this success, the already splendid equipment, its managers have caused to be turned out of its shops at Chicago, a magnificent "line of Dining Cars, which go into immediate service on the Kansas City line. These new trains contain all the conveniences of well-appointed dining rooms, and are light in design and finish, and models of the advanced railway art of the day. Within them meals are furnished equal to those of any first-class hotel in the land at the low rate of seventy-five cents. Travelers on this line now find on its trains all the comforts and conveniences of first-class hotels. Besides the best of first and second class "coaches" there are Parlor Cars (which are fitted up with all the conveniences of a first-class hotel), Pullman Palace Sleeping Cars and Dining Cars. This Company's lines, all of which are equally well equipped, also extend to Council Bluffs and the West, and Minneapolis and St. Paul and the Northwest; and the deserved praises bestowed upon it by returned travelers who speak from experience, make it noted throughout the land.

We speak for the owners and managers of this magnificent Railway ample returns for their generous provisions for the wants of the public, which is, as has already been proven by the patronage extended to this line, quick to appreciate and patronize those who prove by their deeds and generous treatment that they are devoted to its comfort and welfare.

The Collision in the Channel.

It has been ascertained that all the crew of the ship Simla, which was wrecked on Saturday in a collision off the Isle of Wight, have been rescued.

THE SOLDIER'S STORY.

GABRIELLA'S GRATITUDE.

(Continued from Tuesday's Review.)

And I had good reason to. The state of my wound was growing extremely critical; actual inflammation seemed to be setting in; I was growing more and more feverish and mentally excitable day by day, and I required the most careful attention and nursing to give me a chance of ever completely recovering the use of the injured limb. Poor Willy did all he could for me, I must say; but at the best his efforts were more damaging than helpful, for he had no delusion of the nature of my wound and would drag off the bandages from my arm as though he were hunting in the sack of a sheet in half a gale of wind. Besides that—in spite of his roughness he had a wonderfully winning way about him, had Master Willy himself—the least managed to make friends, after a fashion, with the grumpy Fliss, and he was almost—much to Fliss's disgust—to accompany the former in his expeditions about the mountains, though never without a guard of at least three or four armed peasants, who gave many a proof that they were thoroughly good marksmen, and that their carbines were anything but "blunderbusses." It worried the poor lad to sit for some by my couch, the more so that he was utterly unable to do the slightest thing for me without causing pain; and the poor fellow came to learn that, beyond a few shabby words of comfort and night, I was much easier without him than with him.

How different was Gabriella! Had she undergone a regular training she could not have been a much better nurse, and she performed for me offices usually most loathsome to a woman not professionally brought up. That is to say, she disappeared one morning—long after the night when I had revenged her cousin's blow—and did not return until the afternoon, when she produced a number of leeches (native ones, they must have been, I believe, and caught on her own bare feet in some stagnant pool), and she applied them around my wound at intervals, until the inflammation nearly subsided. Then she would make me delicious drinks, cooling applications for head and arm, dish up dainty little meals to tempt my want of appetite; would sit by my bedside for hours talking quietly and lovingly even, while she worked with her needle; and often—oh! never unless I asked, nay, pressed her—she would sing to me in her rare soprano voice such glorious songs, make for me such floods of rich vocal music, as I had never before imagined possible of accomplishment by human beings, though the angels, I thought, might have sung in the Garden of Eden before the fall. This was love—downright unmistakable love—and, who of old had laughed to scorn "the tender passion," as some idiot has called it, now felt its full force, and that force was anything but a "tender" one.

Presently it must have been towards the end of November, for I kept up reckoning of how the happy, dreamy, loving days went by—I grew much better, was able to sit up for long hours together, then to totter about the ramshackle building with the aid of a stick, and was at last delighted to find that my wound was quite healed, and the arm nearly as strong as ever. And then Gabriella, quietly and by almost imperceptible degrees, began to leave me more and more to my own devices, until finally it was with great difficulty that I could find opportunities enough to partly gratify the passionate cravings of my love for her presence, for a glance from her violet eyes, for a touch from her soft warm hand.

It is not to be supposed that all this billing and cooing went on quite unobserved by Master Willy Mountjoy. On the contrary he chafed me unmercifully, telling me to make hay while the sun shone, for "another fellow was the man in possession"—that was his delicate phrase; and he would beat me five to one, as often as I chose to take it that I would never be married to the girl, if indeed I had the impudence to think of such a thing.

This was pleasant! However, I let him have his joke, warning him that "he who would might laugh." But I confess that I was considerably nonplussed when I found that Mattie Flissell had resumed all his old ill-treatment of the girl, even going so far as to frequently personally chastise her as though she were his slave, so that she frequently came crying to my room bathed in tears, to seek shelter from his violence.

"My poor darling," I would say to her, "would to Heaven that I could free you from him! I will! I will attack him now!" But she would interrupt me with the utmost air of alarm, saying: "No, no, no! Alas, he always goes armed and he would kill you. How could I bear that?" "I am determined I will save you from—this horrible fate threatening you, I must, and shall. You would not hesitate, were the road cleared, to fly with me—and with Willy, for we could not leave him behind and we can trust him."

"Trust him? O, yes," she replied; "Hector Willes is of those one can trust to the last!" I immediately set to work to seek the natural avenger of the brute Mattie, and I succeeded, at last, by frequently cooling his anger with dribbles of gold from my store—far better than I had expected. In fact, after a while, he gave up beating her altogether, rarely even he abused her, and in time became so softened under the treatment I exhibited (as the doctors say) that he even avoided speaking to her in his usual cross manner, and he was good enough to say that the change was entirely owing to my intervention.

More than that, he became a sort of friend of mine; took me out for air and exercise occasionally; but I never could get him to give me the slightest intimation of what was going on in the political world, or whether Gabriella had been successful, or had been driven back. Whenever, if either, had happened, Mattie Flissell would not let us go from the hall door except when closely guarded; and Willy Flissell began to treat me that by Willy Flissell, a personation of rage of extending a heavy ransom for us from our friends in England.

"What is it, my own precious?" I asked one dark afternoon, when Gabriella appeared, with a face swollen from weeping. She checked herself, and replied with another question: "Do you not know that in ten days it will be—will be—she shuddered from head to foot, and her voice stopped under the influence of horror—"will be the new year—when—"

"Gabriella! That crime shall never be committed, and I will see to it. You shall not marry this man. You shall fly from here with

me. I will risk all sooner than that he shall have you for a slave!"

"Oh, my dear me, save me!" she hysterically implored. "I would sooner die a thousand times—I will die, by my own hand—sooner than be defiled by his embrace!"

I calmed her as well as I could—I soothed her, probably as Adam soothed Eve, and as the Last Man will sooth and calm the Last Woman—and with the burning kiss I printed on her forehead I printed a determination on my own heart to save her even if I died by torture for it.

That very night I laid a plot, to which Willy (who contributed not a iota to it) cordially assented, and the next day I commenced to work it. I began to occasionally jingle gold under Mattie's very nose on every opportunity; I congratulated him on his approaching wedding, but never failed to deplore the vast expenses he would be put to in consequence; and I intimated that Willy and I would make him a handsome present, in addition to that which our particular insular customs compelled us to give him on Christmas day.

That thought, I never ceased harping on the point of presents, and our "peculiar Christmas customs," and when his curiosity became excited, and he asked what the latter were, I gave him such an outrageous list of things we wanted, and must have, to duly observe the Pagan Festival of Christmas according to the Rites of the Ancient Britons, as would have astonished the whole Society of Antiquaries. At all events, it astonished Mattie Flissell to an extraordinary degree—though it was told to him only piecemeal, and day by day—and he flung up his hands in amazement that we could be so mad as to spend so much money on heathen orgies of eating and drinking.

MIDDLE AGED MEN, often lack vigor, this can be restored by that great brain and nerve food, known as Mack's Magnetic Medicine. Read the advertisement in another column of to-day's paper. Guarantees issued only by Ormond and Walsh.

THE failure of the Liverpool firm of Haworth & Co., with liabilities amounting to \$260,000, is announced.

FROM the Liver and Kidneys arise fully half the sickness. Dr. Carson's Stomach Bitters stimulates both Liver and Kidneys, and insures one against disease; it is not an alcoholic stimulant. In large bottles 50 cents.

An incident fire was discovered in the Speaker's apartments at Ottawa. It was extinguished by Mr. Kirkpatrick before doing much damage.

THE remains of the victims of the ill-fated Jesuitic expedition have reached Montreal. Splendid wreaths were sent by the American residents to be placed on the coffins.

A BARBER'S TESTIMONY.—For a Cough, Cold or any Bronchial affection, "Pectoral" in my opinion, is just the thing. I have used it in my family for Coughs and Colds for the past four years with the most unvaried success, and to-day my opinion of it is that I continue to think still more of that which I began thinking well of. Geo. Kees, Manager Ontario Bank, Pickering. Price 25 cents, at all druggists.

THIS accident list of the Pennsylvania anthracite region for 1883 gives a total of 1,676 casualties, three hundred and twenty of which were fatal.

JOHN H. VERT, Hamilton, says: "McGregor's Speedy Cure for Dyspepsia and Indigestion is cheap at fifty times the price asked for it. I am a commercial man, and travel continually, and would no more think of leaving home without a bottle of McGregor's Speedy Cure in my valise than I would of leaving my team at home and going on foot." Free trial bottles at John McKee's Drug Store. Regular size fifty cents and one dollar.

ROTHMAN, N. E., nine miles from St. John, experienced three earthquake shocks on Sunday, one of which was strong enough to upset a box in a house.

YIM RIX—One can't expect to succeed in business or in pleasure either, for that matter, unless one looks after his health and spirits. This is the first consideration. Now, this is a small matter when this remedy, Zepos, is recommended as highly, even guaranteed to renew one's energy and spirits by invigorating the Liver and aiding Digestion, by clearing the Brain, opening the pores of the skin, regulating the Bowels and system, to go to the drug store of J. D. Tully and get a sample bottle of Zepos as a trial. It is a duty every one owes to himself. Try a bottle then.

A convict in Kingston Penitentiary has died through taking Pina Green, which he asserted he had in his possession ever since entering the institution, six months ago.

MRS. ELIZABETH MASON—Dr. M. Bouville & Co., Guelph—Yours of last week to hand, and reply to your inquiry I have much pleasure in stating that from the first time of using the sphygmometer and the medicine I have improved very much. The bronchitis has entirely left me. I sleep well and have a good appetite. I must also add, that coming to you as I did as a last resort, the cure effected has been wonderful. Gratefully yours, Mrs. E. Mason.

Almost every pill contains calomel and other mineral compounds. Dr. Carson's Stomach Bitters is purely vegetable and takes the place of all other purgatives. In large bottles 50 cents.

THE OIL MONOPOLY BURST!

Owing to the high prices prevalent in Peterborough for COAL OIL, "CHINA HALL" decided to take up this branch of its business, and began on Friday, 18th instant, by REDUCING the price at once NEARLY FIFTY PER CENT, and we follow it up to-day by a further slight reduction, as under:

Best Canadian Oil, large measure, 20c. per gallon; Five gallons 90c.
Best American Oil, large measure, 30c. per gallon; Five gall. \$1.40

OUR PRICES WILL ALWAYS BE THE LOWEST IN TOWN.

Every consumer of Oil is aware that on Friday, 18th instant, the current prices of Oils in Peterborough were: Canadian, 30 cents, and American 40 cents. We therefore maintain that we have reduced the price of Oils in our town fully 50 per cent in one day, and trust that the people of Peterborough will not lose sight of this fact when ordering OIL. It means DOLLARS SAVED to every consumer of Oil. DELIVERED FREE IN ANY QUANTITY TO ALL PARTS OF THE TOWN.

SWAYNE, a SON, Philadelphia, Pa. Sold by Druggists.

Our Canadian Industry
is prosperous. The great difficulty to be contended with is the low grade of goods required. It is not in this matter apparent that in the comparatively small article of sewing silks, the great demand in Canada seems to be for cheap quality goods. It is not necessary to be a fine and consequently a weak one. Messrs. Belding, Paul & Co. make these silks of good quality at a cheap price. It is not the poorest one has by far the largest sale, at the same time they constantly hear of complaints of low quality silks. If ladies will take the trouble to ask for Belding, Paul & Co.'s own brand, and see that their name is on the end of each spool, they will be sure of getting the best make.

Daily Evening Review

WEDNESDAY, JANUARY 30, 1884.

The Colla.
Two tramps were the occupants of the police cells last night.

Curling.
A friendly match of Curling is being played this afternoon between two rinks from the Lakeside Club and the same number of the Peterborough Club.

Springless Truss and Supporters.
See Prof. Hotchkiss's springless truss and supporter advertisement in another column of this paper. Go and see him. He defies the hernia he cannot hold. Will be at the Calves House Feb. 27, 28 and 29.

The Weather.
We are at last having the much-expected January thaw. It has come just in time, for in two more days it would have been too late. The weather probabilities for this district for the following twenty-four hours, commencing from one o'clock this morning, as reported from the Toronto Observatory, are as follows:—Fresh to strong winds; cloudy, mild weather, with rain areas.

The Earth and Sky.
A very pleasant and profitable evening's entertainment is afforded by good views of geological and astronomical subjects, accompanied by explanations. The views interest, delight and instruct. Such an entertainment will be given in the school room of St. Andrew's Church on the evening of Friday, Feb. 1st, by Mr. A. F. Knight, M.A. There should be a large attendance of both young and old. Admission 15 cts.; children 10 cts.

The City Hotel.
The City Hotel appears to be a valuable piece of property. Mr. Clancy purchased the interest of the late Messrs. Mr. Jas. Dolan, for \$4,000, and on Tuesday he made a bargain with Mr. Jackson Reid to sell out to him for something over that amount. After the bargain was made, however, Mr. Clancy changed his mind, and wished to withdraw from the sale. Mr. Reid does not wish to allow him to do so, but Mr. Clancy holds the promise. The City is evidently a good business stand.

Ladies, Consult Your Own Interests
and visit Oliver & Sullivan's great closing out sale. They are offering great bargains in black and coloured silks, dress goods, black and coloured cashmeres, black quilted skirts, wool skirts, shawls, cloaks, jackets, jerseys, gloves, corsets, ties, and fancy goods, to be closed out at great bargains. In fact, anything in stock is offered at great bargain prices.

P.S.—Don't buy a black or coloured silk until you see ours. All we ask is to come and convince yourself. OLIVER & SULLIVAN.

Farwell Supper.
On Tuesday evening a number of the friends of Mr. Wm. H. Callaghan entertained him to an Oyster Supper in Darcy's Hotel, previous to his departure for Kingston. Mr. F. Karsh presided and proposed the toast of "Our Guest," which was responded to in a neat speech by Mr. Callaghan. A full list of toasts were then honored, brief speeches being made by Messrs. H. LeBrun, G. W. Rabidge, M. Tierney, C. McClelland, Joseph Mills, and W. Morrow, and songs and music by Messrs. M. Tierney, W. H. Callaghan, W. Morrow, G. Giroux, and H. Hartley. Mr. Callaghan, who has been in the fur and hat store of Messrs. Mills Bros. in Peterborough, goes to Kingston in the employment of the same firm.

Dramatic.
On Friday evening the comedy-drama "Only a Woman's Heart," will be presented in Bradburn's Opera House. The Bridgeport News says of it:—
"Only a Woman's Heart," as presented last evening, was one of the plays which held the attention of an audience. The cast was an exceptionally strong one, and their efforts were repeatedly applauded. Too much praise cannot be awarded the star for his fine setting in the character of Old Roger, the tramp. He assumed the character with a precision that was natural, and many recognised in it the man who, though unfortunate, yet possessed the qualities essential to a nobler type of manhood. Those who were present were amply repaid, and those who are in the habit of attending entertainments missed a rare treat by their absence."

EXHIBITION OF POULTRY

THE ANNUAL EXHIBITION OF THE MIDLAND CENTRAL SOCIETY.

Some Excellent Fowl Shown—The Exhibition not a Large One—A Glance at the Exhibits—A List of the Prize Winners.

The seventh annual exhibition under the auspices of the Midland Central Poultry Association commenced on Tuesday in the old Music Hall. On the afternoon of that day the judge, Mr. W. J. Cook, of Bradford, was engaged in judging the respective qualities and merits of the birds on exhibition and awarding the prizes. In the evening the show was open to the public.

The exhibition was not the success that its promoters hoped it would be. There were some very fine birds among the entries, but the number exhibited was not very large. This certainly is not the fault of the Association or its Directors. The prize list was a comprehensive one, and was one that should have attracted a very large number of exhibitors, in addition to which a number of special prizes of good value were offered by business men of Peterborough and poultry fanciers at a distance. The reason for the small exhibit can only be found in the weather. It is true that Tuesday was a mild day, but any birds coming from a distance would have to be shipped on Monday, and the forenoon of that day was cold and the afternoon stormy, which made owners of fancy poultry afraid to risk their birds on a journey, especially as there was the danger of a blockade keeping the birds on the cars longer than would be required for the journey.

However, although the number of entries was not as large as had been hoped for or expected, those exhibited were well worth seeing. Many of the prize winning birds at the exhibition of the Ontario Poultry Association were there, and others apparently equally as good. When there were few exhibitors from a distance, all the more credit is due to the poultry owners of this district for being able to furnish such a collection of fine birds.

Foremost among the exhibitors was Mr. James Baple, of Springfield, who showed a large variety of very fine fowl, including dark Brahmas, partridge Cochins, silver grey Dorkings, colored Dorkings, brown Leghorns, golden spangled Hamburgs, silver spangled Hamburgs, white crested black Polands, &c., &c.

Very little behind the exhibit of Mr. Baple, was that of Mr. Thos. E. Bell, of Smith, which was also made up of some fine specimens of poultry and included buff Cochins, silver grey Dorkings, colored Dorkings, Black Spanish Plymouth Rocks, White Leghorns, Hoodlans, &c., besides Ducks, Geese, Guinea fowl and a fine Brazen Turkey.

Mr. Isaac Dorrer, of Ashburnham, exhibited excellent specimens of light Brahma fowl, and richly deserved the prizes they won for him, namely a first, second and special. Mr. John McClelland, Peterborough, also had on exhibition a coop of light Brahma Chickens. Mr. Frank Shaw of London, exhibited dark Brahma Chickens, White Cochins fowl and Black Hamburgs. Mr. N. Lash, Peterborough, exhibited his excellent Langshan fowl and chicks which carried off prizes at Toronto, and Mr. J. M. White also showed a coop of Langshans. Mr. Henry Bullen, Cavanville, made a fine exhibition in three classes, Colored Dorking fowl, Colored Dorking chicks and Golden Spangled Poland. Mr. H. O. Winch, Peterborough, took the first prize with his specimens of Plymouth Rocks, and Mr. John King also won a prize in the same class. Mr. M. O'Brien made a fine exhibition of Game Birds, as did also Mr. Joseph McClelland, and the latter had also on exhibition a fine Dorking hen. Mr. D. Mason Peterborough, showed specimens of Pile Game Bantams, and Mr. Richard Meade, Ashburnham attracted attention in that end of the hall with his golden Seabright bantams. Mr. W. A. Logan, Peterborough, exhibited a very fine collection of pigeons, carrying off the prizes. The bronzed turkey, shown by Mr. A. R. Kidd, of Dunsmuir, was a large, fine-looking specimen, and attracted much notice. Mr. H. H. Rackham had on exhibition specimens of Rosen ducks. There was a fine collection of canary birds, and their music sounded sweet amid the noises of the fowls. Of plumage canaries Mr. J. Mitchell made seven entries and Mr. C. Brown one. Messrs. J. O. Mitchell, A. McNeil, Wm. Walsh and C. Brown exhibited singing canaries.

The following is a list of the PRIZE WINNERS.

THE HIGHEST HONORS have been awarded to Dr. Van Buren, of Germany, for the permanent relief afforded by his Kidney Cure to all sufferers of Kidney Disease. It is unobtainable elsewhere. It is the only medicine that Dr. Van Buren's Kidney Cure will permanently remove all trace of Kidney Disease from the system.

REV. DR. WILSON has addressed a farewell letter to his former congregation in Kingston, stating that in consequence of the failure of all efforts at reinstatement in his charge on account of his firm refusal to sever his connection with the Salvation Army he has decided to seek another field of labour.

ADVISE.

The present winter promises to be a memorable one. Intense cold is predicted, with increased snow areas over the Little Lake region, and possibly ice on English Creek.

It behooves the people of this town and district to be prepared.

The average Christian, when finding his nose and limbs freezing, pounds them against each other and swears.

Then he lies off to the coal stove and roasts. This only affords temporary relief and is bad.

The true remedy lies in WARM AND SUFFICIENT CLOTHING.

Better spend a few dollars in clothing, prevent a cold, and cheat the doctor.

CLOTHING—small enough for man or boy—large enough for the Canadian Pacific syndicate.

Will visit the following places again:—
LINDSAY—Benson House, Feb. 25 & 26.
PETERBOROUGH—Calves House, Feb. 27th, 28th and 29th.

Prof. Hotchkiss's treatment is practical, rational and economical. Its object is immediate relief and eventual cure. It is based on scientific principles and easily demonstrated to the comprehension of every intelligent person, that a truss without steel springs or hard substance, having healed inguinal and umbilical hernia as well as Varicose, at the advanced ages respectively of from 65 and 90 years, must and will stand the test against all Spring Trusses to children as well as adults. Prof. H. has had 30 years experience has become master of his profession, and DEFIES the Berns he cannot hold in his place.

ST. LAWRENCE CANALS
Notice to Contractors.

SEALED TENDERS, addressed to the undersigned and endorsed "Tender for St. Lawrence Canals," will be received at this office until the arrival of the eastern and western mails on THURSDAY, the 1st day of February next, for the construction of a lock and regulating weir for the deepening and enlargement of the upper entrance of the Cornwall Canal. Also for the construction of a lock, together with the enlargement and deepening of the upper entrance of the Rapids Flat Canal, or middle division of the Williamsburg Canal, and the deepening, etc., of the channel at the upper entrance of the Galop Canal. A map of the land and upper entrance of the Cornwall Canal and the upper entrance of the Rapids Flat Canal, together with plans and specifications of the respective works, can be seen at the Resident Engineer's office, Kingston's Landing; and for the works at the head of the Galop Canal, at the Lock Keeper's house near the place, and in each case plans, etc., can be seen at this office on and after Tuesday, the 29th day of January, inst., where printed Forms of Tender can be obtained.

Contractors are hereby informed that trial pits have been sunk on the CORNWALL and RAPIDS FLAT sections of the works, and they are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms, and accompanied by a letter stating that the person or persons tendering have carefully examined the locality, and the nature of the material found in the trial pits, etc.

In the case of firms there must be attached the actual signatures, the nature of the occupation and residence of each member of the firm; and further, a bank deposit receipt for the sum of \$4,000 must accompany the tender for the Cornwall Canal Works. The tender for the Rapids Flat works must be accompanied by a bank deposit receipt for the sum of \$6,000. The tenders for the deepening, etc., at the head of the Galop Canal must also be accompanied by a bank deposit receipt for the sum of \$6,000. The respective deposit receipts (cheques will not be accepted) must be endorsed over to the Hon. the Minister of Railways and Canals, and will be forfeited if the party tendering declines entering into contract for the works at the rates and on the terms stated in the offer submitted. The deposit receipts thus sent in will be returned to the respective parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,
A. P. BRADLEY,
Secretary.

DOMINION PARLIAMENT.

The Second Session of the Fifth Parliament
of Canada.

PRIVATE BILLS.

Mr. COUGHLIN, on Wednesday moved that the
time for receiving private bills be extended to
Feb. 9th, and the motion was carried. Some
private bills received their first reading.

THE LICENSING ACT.

Mr. HONDE introduced a bill to repeal the
Liquor License Act of 1883, and it was read a
first time.

PATENT RIGHTS FRAUDS.

Mr. MULOCK introduced a bill for the preven-
tion of fraud in connection with patent rights,
and it was read a first time.

C. P. R.

Mr. BLAKE asked which were the clauses in
the C. P. R. Act under which the Government
made the agreement as to the guarantee.

SIR L. TILLEY read the opinion of the Deputy
Minister of Finance, that the Government was
acting quite within its borrowing powers. As
the case was urgent the Government had made
the arrangement, trusting to the support of
Parliament.

SIR C. TUPPER, in reply to other questions of
Mr. Blake, said it would be premature to enter
into details when he intended at an early day to
submit the matter fully to the House.

Mr. BLAKE asked where the money and
security to meet the guarantee of interest were
deposited by the company.

SIR L. TILLEY said in the Bank of Montreal
at Ottawa.

CONSOLIDATING THE STATUTES.

SIR JOHN MACDONALD in reply to Mr.
Landry said Mr. Oulmet a French Canadian
had been appointed on the commission for the
consolidation of the Statutes. He also answer-
ed several other questions of various members.

ENCOURAGING AGRICULTURE.

Mr. GIBBARD moved the appointment of a
committee to enquire as to the best means of
encouraging and developing our agricultural
industries.

Mr. BLAKE wished to know if it was to be a
committee of enquiry as to whether the tariff
should be changed.

Mr. FOSTER seconded the motion and said
that we should do at least as much for our
farmers as our neighbours on the other side of
the line.

The Committee was appointed.

Look Out

for the great clearing sale of rich and valuable
goods at W. Fairweather & Co., commencing
next week. The whole of their remaining fine
stock of Furs, Jackets, Circulars, Buffalo
Robes, Black, Grey and White Robes, Fur-
lined Gloves, Gauntlets or Caps, Tippets, &c.
All kinds of Heavy Winter Clothing is to be
sold at reduced prices. Blankets, Flannels and
Carpets at sweeping reductions. Bargains will
be given of all Winter Goods to clear. This
firm, when they do advertise a clearing sale,
mean business, and parties may depend upon
bargains.

Changed Hands.

The North store Pastry and Confectionery
Business which has been so successfully carried
on by Carlos Bros. for over twenty years has been
purchased by Mr. William Ruth, a thorough
practical man, and who has been foreman for
Carlos for some time past. The business will
be carried on the same as before, and as Mr.
Ruth is well known, and has given every
satisfaction to the customers of the store he will
no doubt continue to receive a large share of the
patronage of Peterborough.

Chess.

OTTAWA, Jan. 28.—His Excellency the Govern-
ment-General, who is the patron of the Dominion
Chess Club, will pay a visit to the annual meet-
ing in the lower room of the House of Commons.
Dr. Zerkert will be in attendance.

NORWOOD.

From Our Own Correspondent.

PERSONAL.—Our Reeve, Mr. Thos. Fraser,
is recovering from his severe illness. Mr. S. J.
Griffin and wife, from Dakota, are visiting
friends here.

THE GRAIN TRADE.—Mr. Samuel Clydale
has sold his farm in Asphodel and is going to
move to the village, where he has purchased a
house and lot from Mr. John McMillen, on
Ridge street. Mr. Clydale intends erecting an
elevator in the spring, and going into the
grain business.

FIRE.—A fire broke out here on Friday, Jan.
25th, in Mrs. Carr's dressmaking and millinery
shop. The building caught fire from the chim-
ney, and the great amount of snow on the roof
of the building kept the flames in check until
effectual assistance arrived. The structure of
the building was saved by tearing off a part of
the roof. The loss sustained will be small, as
most of the furniture was saved and the damage
done to the building can be repaired with
little cost.

FRANKFORTH.—The carpenters employed in
building the O. & Q. Railway station did a
manly act by turning out and repairing, free of
charge, the damage done by fire to Mrs. Carr's
shop. Such acts deserve praise. Mr. Steven-
son also deserves credit for the manner in which
he exerted himself in collecting money to defray
the losses sustained by Mrs. Carr.

OATS STOLEN.—One night last week Mr. John
Pettigrew, who resides on Peterborough Street,
had twenty five bushels of oats stolen out of his
stable in the rear of his residence. Mr. Pettigrew
has his suspicions and is awaiting further
developments. It is to be hoped the culprit will
be brought to justice.

ENORMOUS YIELD.—In 1882 Mr. John Parker
of Dummer, purchased three pounds of White
Russian Oats. He sowed them the next year
and had a yield of six bushels and a half. The
following year he sowed six bushels on four acres
and had a yield of three hundred and three
bushels—nearly eighty bushels per acre. Mr. P.
has still a few bushels of these oats left and will
sell them at 50c per bushel.

COUNCIL MEETING.—Council elect for 1884
met in Warren on Monday, January 21, when
A. R. Kidd, Esq., as Reeve, and Messrs. Richard
Crawe, David Drain, David Kelly, and
George Kirk as Councillors, took the declara-
tion of qualification and office before the Clerk.
Minutes of last meeting read and confirmed.
William Smolgrove was appointed auditor, and
the Reeve nominated Edward McIlwain as
auditor. James Robb was appointed assessor.
Moved by Mr. Kirk seconded by Mr. Drain:—
That, on the petition of James Robb and 40
others, this Council give a grant of \$200, to be
expended on the 9th con. line of Dummer, sub-
ject to the following conditions:—Provided
that the Government of Ontario give the ex-
pected grant of \$200 to said road; and that the
Village of Norwood and Township of Asphodel
grant a similar amount to that of Dummer to
said road.—Carried. W. H. Robertson Esq.,
applied for the Township printing for the pre-
sent year. Circular from John Carnegie Esq.,
M. P. P. respecting deputations to Ottawa about
Trent Valley Canal, read by the Reeve. No
motion taken. The following orders were
granted:—

A by-law to appoint auditors and assessors
was passed. Council adjourned to meet in
Warren on 16th February next.

HASTINGS.

OBITUARY.—One of our most prominent
citizens and an old landmark has passed away,
in the person of James S. Fowles, Esq. His
energy had been flagging for some time and the
loss of bodily vigor finally culminated in pa-
ralysis about six weeks ago and under which he
succumbed on Sunday, Jan. 27th. Deceased
was born in Glasgow in the year 1819. For the
past 35 years he has been a resident of this
village, and has identified himself as an im-
portant factor in those years, he has pre-
sented Ferry and Hastings in the Reeveship
for long time, his death will cause a void which
will be long felt.—Star.

BELLEVILLE.

SALVATION ARMY WEDDING.—The marriage
of Capt. Joe Lodgegate and Capt. Nellie Ryerson
of the Salvation Army, which took place in the
Bridge street church on Tuesday afternoon was
the sensation of the day. A large number of
the leading members of the organization attend-
ed. The ceremony was performed by the Rev.
Wm. Stacey Congregational minister, in the
presence of a great crowd who filled the church.
Subsequently there was a grand procession to
the City hall for supper.

Fatal Explosion.

A despatch to the Globe dated Winnipeg, Jan.
30, says that a terrible explosion occurred at
the Foyes and McEwen contract near Michi-
picon on the Canadian Pacific Railway, east
of the 22nd inst, by which Sidney H. Fay,
John B. Fay, Joseph E. McElvray, John A.
McDonald, and Angus McEwen were killed.
The explosion is supposed to have been caused
by the shoving of dynamite near the stove in
an adjoining office. S. H. Fay and J. McEl-
vray lived three hours and the others were in-
stantly killed. The bodies are being brought to
Port Arthur.

Worth ten Dollars a Bottle.

Any person who has used Polacco's Nerviline,
the great pain cure, would not be without it if
it cost ten dollars a bottle. A good thing is
worth its weight in gold, and Nerviline is the
best remedy in the world for all kinds of pain.
It cures Rheumatism in five minutes; toothache
in one minute; lame back at one application;
headache in a few moments, and all pains just
as rapidly. Small test bottles only cost 10 cents.
Why not try it today? Large bottles 50 cents
sold by Ormond & Walsh. Use Polacco's nerve
pain cure—Nerviline.

A BATTLE IMPENDING.

CAIRO, Jan. 30.—Baker Pasha, with 1,900
troops, landed at Trinkitat on Monday, and
an additional body of 2,000 men landed on
Tuesday, completing the force for the relief of
Ghar. Nearly 50,000 rebels are between
Trinkitat and Ghar. The first battle will
probably be fought where Captain Moorhead,
the British consul at Suakin, was killed by the
rebels, seven miles distant, as the rebels are
massing at that point. Small bodies of the
enemy which approached within 4,000 yards of
the camp were shelled by the British gunboat
Sphinx.

BRUMOUED DEFEAT AT BACINAH.

PARIS, Jan. 30.—A Paris despatch, says a
report was current in the lobbies of the Chamber
to-day that the French forces under Admiral
Courbet recently stormed Bacinah and had
been repulsed. The report irritated the mem-
bers of the Chamber, because the Government
maintained silence in regard to it. Prime
Minister Ferry will be questioned as to the
facts to-morrow.

THURSDAY, JANUARY 31, 1884.

AN EXPERT'S WORK.

Mr. M. C. CAMERON, M. P. for West Huron, is notorious as being one of the champion bribers of the Reform party, and considering the performance of many of his political allies in this respect, to be one of the first among them in pre-eminence indeed. This high reputation is due to no vague reports, but is founded upon the records of our law courts and upon sworn testimony. Indeed Mr. Cameron has himself confessed to the expenditure of \$13,000 in two elections.

It must therefore be acknowledged that Mr. Cameron, as an expert, as well qualified to deal with the subject of electoral corruption. In introducing a bill to amend the election law and to prevent corrupt practices, he certainly has the advantage of a full knowledge of the subject, and on the old principle of setting a thief to catch thieves or employing a poacher as game keeper, he must be admirably fitted for his self-imposed task, as he is acquainted no doubt with all the tricks against which precautions have to be taken.

There is only one drawback to our satisfaction and that is a kind of suspicion that the new game-keeper may be really in league with the poachers and playing into their hands. His past record is of a nature in itself to give rise to this doubt, and there is at least one clause of his bill that is calculated to strengthen this suspicion. It is provided that the bribed as well as the briber are to be treated as criminals and are to be punished with imprisonment. This is a very desirable object to attain, but there is the objection that it will throw a difficulty in the way of proving the bribery and of unseating a corruptly elected member. It would naturally happen that in most cases of bribing, no one would be present but the briber and the bribed, and as neither would be inclined to criminate himself, the culprit might escape the penalty of their wrong-doing for want of evidence. Supposing, for instance that Mr. Cameron wished to distribute another \$13,000, he would probably take care that the recipients were chosen along with him when he handed over to them the consideration for their votes, and so he might conduct his old operations with even greater safety than before. Thus under the rule of a pretended solicitude for electoral purity, Mr. Cameron might really facilitate the old style of electioneering, practice by himself and his friends.

Evidently Mr. Cameron does not think much of his ally, the leader of his party in this Province, for he does not follow Mr. Mowat's example in the Streams bill by making his measure retrospective. Certainly if he did so, it would have the inconvenience for Mr. Cameron that he might find himself the inmate of a goal for his past transactions. In another respect he shows little regard for Mr. Mowat, since he provides penalties for the corrupt procurement of the withdrawal of an election petition, and we all know on the boastful testimony of his leading journal that the Attorney General of Ontario procured the withdrawal of a petition against a member elected as a Conservative, because he thought, perhaps erroneously, that he had secured his support.

It certainly will be well, considering Mr. Cameron's past history, to watch closely the effect of his new-born zeal for electoral purity.

The Franchise Extension

Mr. Herbert Gladstone, Junior Lord of the Treasury, and son of the Prime Minister, in a speech at the Liberal Club hailed the proposed reform of county government in England, and hoped it would be extended to Ireland. The Government, he said, meant to extend the franchise in Ireland, and also intended to reform the county government there.

ONTARIO LEGISLATURE

First Session of the Fifth Legislative Assembly of the Province

Mr. WIDDIFIELD on Tuesday resumed the debate on the address, and commenced by admitting that the Ministry had at present only about half of its former majority, in which, however, he did not do full justice to the Conservative gains. He made the stereotyped false attack upon the Dominion authorities, and had the effrontery to claim a great regard for electoral purity on the part of the Reformers, as if their record in the courts could be forgotten. He pretended that his leaders had been all along willing to take the boundary question to the Privy Council, in spite of their past refusal to do so, and expressed his own satisfaction with that court. Now that the election was over he seemed to be converted to an extension of the franchise and pronounced in favour of manhood suffrage. He gave a welcome (the first) to the new Minister of Education. He admitted that blunders had been committed in the Educational Department, but with lamentable meanness he threw the blame upon Mr. Crooks, as if such cowardice will clear the Cabinet of its responsibility.

Mr. BAKERMAN referred to the prophecy of the Ministerialists that their majority would be greatly increased, and pointed to the contrast with the result. He censured the last speaker for his treatment of Mr. Crooks, and asked if he had committed blunders, where were the rest of the Cabinet? They should not attempt to saddle the responsibility upon their unfortunate colleagues, but should assume it like men. If they were so well satisfied with the Privy Council, why did not they resort to it earlier in the boundary matter, before they had put the country to so much cost? If Mr. Macdonald had reserved the right to pronounce on the award, why should not Sir John Macdonald have the same privilege?

Mr. McMAHON devoted much of his speech to an attack upon the National Policy. He thought the Boundary question had been worn thread bare, and then proceeded to comment upon it. Mr. Meredith corrected in his view as to the license question, but should have impressed it upon Sir John Macdonald.

Mr. CLARKE, defended the National Policy against the attack of the previous speaker. He then proceeded to consider the address by paragraph making some very shrewd criticisms. He censured the Government for appealing to the worst passions as to the Boundary question. They had now however, adopted the right course but it was by accepting the conservative policy of a resort to the law courts. He hoped in amending the license law they would follow the example of the Dominion and would appoint commissioners lifted above the prejudices of party, doing away with the army of electioneering agents that they had employed in the past by the Ontario administration. He thought that after the penalty just imposed in connection with the Algoma election returning officers would be afraid in future to disfranchise electors. The Attorney General's experience would qualify to legislate upon the subject. He disputed the assertion that they had a surplus, and said that one source of error was that the Government had omitted for the calculation the value of the property of the Province in the shape of crown lands and forests. In the last ten years \$3,000,000 had been made by sales of these, and as it was before an asset in the shape of real estate, they should now have it as an asset in the shape of money. Then there was an additional deficiency on current account of \$2,000,000, the ordinary receipts being \$25,000,000 and the expenditure \$27,000,000.

Mr. AVERY attacked Sir John Macdonald, whom he had accused of being responsible for the diminished Reform majority, and expressed his surprise at their having any majority at all. Then he attacked the Quebec Blues on the Boundary question. He objected to our constitution as regards our veto power, which he thought should be in the hands of the Queen. This opinion being received with laughter, he went to the opposite extreme, and asserted that it should be in the hands of the people. He defended Mr. McIntyre's reading of cold-blooded insanity, and threatened to meet the Opposition on the same ground.

Mr. A. F. WOOD, condemned the language used by the member for South Victoria, and regretted that Mr. McIntyre did not set the example of courtesy set by his predecessor. It was so self-evident that the ministerial majority was greatly reduced that they were driven to the false excuse that it was the result of Dominion interference. On the other hand he described at length the manner in which the Ontario officials had worked against him. First there came a private and confidential "dinner" at which for information as to the tactics to be employed in that locality, not as to the policy good for the whole country. The tactics were not to have a Government supporter, they were to appoint a candidate who posed as an independent with Conservative leanings. He was not to address public meetings. Then the colonization road money was brought into play. Road houses were appointed in February for work in the summer. It was intimated that he had money to expend in a certain road, and that men would be employed who had been supporters of the Government, or who would be in future. Colonization roads were not supposed to exist in old settled districts, but to aid a supporter they commenced a colonization road in the south-east corner of the Township of Hungerford, within ten miles of the Bay of Quinte. Then the word-ranging element was very active, and some thought they were ranging after wood. A leading lumberman had told him that he had received instructions that it would be in the interest of the lumbermen to oppose him, but instead he had promised him his influence. As to the classroom school, he objected to the system by which poor sections received little assistance and rich sections larger aid. It was promised that the new Minister of Education would conduct his department without political bias, but he had been very busy stamping the country on political questions. It was time the battle of the books were settled, or the new Minister might have to attend as chief mourner. He hoped that the improvement of the election law would be such as to prevent another Algoma election fraud, and to prevent electors from being deprived of their franchise.

Mr. O'CONNOR had a word of defense of Mr. McIntyre's ribaldry, and threatened the use of stronger language. He intimated that Mr. Wood who complained of the opposition of government officials was himself a Dominion valuator.

Mr. WOOD said he was not a valuator at the time of the election, and he did not complain of the Ontario officials voting, but of their being tools of the Government and spending public money to prevent his election.

Mr. O'CONNOR said that at all events Mr. Wood had been a valuator since the elections. He defended the Ontario Administration for opposing the Dominion Government, but was indignant that the Dominion should interfere with the Provincial Government. He thought there should be veto power, but did not like the way it was exercised.

Mr. FERRIS said the announcement of the return of Mr. Smyth as M. P. for West Kent, by a greatly increased majority did not bear out the assertion that had been made of a reaction against the National Policy. He criticized the management of the Medal Farm and some other administrative details. Not being able to defend their blunders they had endeavored to direct attention from them by attacking the Dominion, and striking the real issues. He condemned them for their controlling policy of which he gave instances. He condemned the unpatriotic conduct of the Reformers, and especially of those who like Mr. Blake were continually running down the Canadian North-west and the Canadian Pacific Railway, so that their slanders were used in the puffs of land agents in the United States.

Mr. GIBSON after some remarks in favour of the Agricultural College, devoted almost his whole speech to attacks upon the Dominion.

Mr. BLYTH moved the adjournment. On Wednesday and Thursday the debate on the address was still continued by a numbers on both sides of the House.

Never give up.

If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any other disease of a bilious nature, by all means procure a bottle of Electric Bitters. You may be surprised to see the rapid improvement that will follow; you may be inspired with new life; strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Sold at fifty cents a bottle by Taylor & McDonald.

Oh, What a Cough!

Will you heed the warning? The signal perhaps of the approach of that more terrible disease Consumption. Ask yourselves if you can afford for the sake of saving 50 cts. to run the risk and do nothing for it. We know from experience that Shiloh's Cure will cure your cough. It never fails. This explains why more than a million bottles were sold the past year. It removes crop or whooping cough at once. Mothers do not be without it. For same back, side or chest use Shiloh's porous plaster. Sold by J. D. Tully.

NARROW CHANCE OF ESCAPE.—A person exposed to the sudden changes of our northern climate has little chance of escaping from colds, sore throat, rheumatism, frost bites, and other troubles incident to change of temperature, to say nothing of accidents and emergencies. The best external and internal remedy is Hagar's Yellow Oil.

TIMELY AID.—A little daughter of the Captain of the Steamer "Empress of India" was suddenly ill with Croup while at a friend's house in Toronto. No medical aid being handy, recourse was had to Hagar's Yellow Oil; this popular household remedy afforded prompt relief and the little girl was as lively as ever in a few hours.

SINGERS and public speakers are always benefited by using Down's Elixir, as it removes the hoarseness and increases the power of the voice. Take small doses often. Price, 25c, 50c, and \$1.00.

When a man has no bills against him he might perhaps say he belonged to the nobility.

Will visit the following places again:—

LINDSAY—Benson House, Feb. 25 & 26.
PETERBOROUGH—Oakes House, Feb. 27th, 28th and 29th.

Prof. Hotchkis's treatment is practical, rational and economical. Its object is immediate relief and eventual cure. It is based on scientific principles and easily demonstrated to the comprehension of every intelligent person, that a truss is not a steel spring or hard substance, having no real support or stability as well as Variole, at the advanced age respectively of from 60 to 85 years, must and will stand the test against all Spring Trusses for children as well as adults. Prof. H. having had 30 years' experience has become master of his profession, and DEWITT'S HERRIN cannot hold its place.

NOT QUOTED.

We observe that Reform journals often quote from the sayings of "Bystander" in the West, but we doubt whether many of them will quote the following as to appointments in the North-West:—"No appointment could be much more creditable than those of Chief Justice Wood and Lieutenant-Governor Cameron."

REVIEWS.

MANHATTAN.—The frontispiece of the February number of *Manhattan* is a beautiful engraving from W. H. Low illustrating a poem by T. S. Collier, "The Queen's Revenge," in which a neglected Queen is found lying dead by her grief-struck and repentant husband. In "Autumn Camps on Cayuga," W. F. Taylor gives a very pleasing account of a canoe trip, with illustrations of the scenery and adventures.

"A Poet's Wife" is a graceful little comedy by Brandon Matthews. "Caricature" is ably discussed by Frank Beard, with the aid of numerous specimens. J. H. Brown gives a concise account of Gerald Massey's theory of Shakespeare's sonnets. G. T. Curtis contributes another instalment of "Creation or Evolution," in which he criticises Darwin's theory. S. G. W. Benjamin gives an interesting account of his travels "Across the Caucasus," from which we may take a lesson on this side of the Atlantic on the use of petroleum. H. P. Spofford commences a new serial tale "Transformation," which has a promising opening, and E. Fawcett's "Thinking Cymbals" continues with unabated interest. There are several poems of unusual merit, and "Town Talk" and reviews of "Recent Literature" should not be passed over. The pictorial "Leap Year Valentine" makes an amusing finale.

HARPER'S MONTHLY.—The February number of Harper continues its high reputation. Joseph Hatton gives a lively account, (profusely illustrated) of a boating trip on "The Upper Thames." Miss Woolson concludes her landscape and character sketches "At Mentone," being equally indebted to the graver. To come nearer home C. H. Farrar's "A Winter in Canada" describes life in a French-Canadian village on the Lower St. Lawrence. In "Our Country's Cradle," Col. Higginson graphically depicts some phases of social life during Washington's presidency, when he was not always so idealized as now. Mrs. J. T. Field contributes some "Glimpses of Emerson" which are interesting as adding lifelike little touches to the mental portrait which his readers have formed of him. The Rev. C. F. Thwing in "The National Government and Education" shows the great efforts that have been made in the United States to combat illiteracy. In art E. Mason gives an appreciative paper on "Jacob Ruydael" and his works; A. F. Oskey discusses "The possibilities of a revived industry," artistic decoration in terra-cotta. The two continued stories, "Judith Shakespeare," by Wm. Black, and "Nature's Serial Story," by E. P. Roe, progress with increasing interest. There are a number of shorter tales and poems of merit, with the usual welcome editorial miscellanies.

The Value of U. S. Farms. The *Lumberman's Gazette* quotes the following figures from the census of 1880 to show the value of farm lands and products in the United States:—

Number of farms.....	4,000,007
Improved land.....	\$24,771,843
Value of farms.....	\$10,187,000,776
Value of implements.....	\$400,000,000
Value of live stock.....	\$1,500,000,000
Value of farm products.....	\$2,115,000,000

RELIEF FOR IRISH LANDLORDS. DUBLIN, Jan. 31.—Owing to the depreciation of landed property, a scheme is in preparation for the relief of owners. It is proposed to establish a land bank, with a government guarantee, which will be empowered to lend money to landlords to pay off incumbrances created before the Land Act of 1881, and also to lend money to tenants for the purpose of purchasing holdings.

DEPUTATIONS TO MR. GLADSTONE. LONDON, Jan. 31.—Deputations from the Leeds Liberal conference, from India residents of London, from several trades unions, and from metropolitan Liberal associations, were received by Mr. Gladstone to-day. In reply to their addresses the substance of his speech was that action would presently be taken which would give effect to the pledges of the Government, and he urged them to judge the Government accordingly.

THE PRINCE OF WALES' VISIT. LONDON, Jan. 31.—The Prince of Wales started from Bristol on his return to London to-day. A large crowd assembled at the station and cheered him enthusiastically. The train from London to Bristol, upon which it was known a Fenian was travelling, was watched along the entire route by detectives. The Mayor of Bristol has received letters threatening death to the royal family.

THE FACTORY BILL. MR. BLAKE moved for correspondence as to the proposed Factory Bill. Sir L. TILLY said he had a letter from the Manufacturers' Association and he would bring it down. The Trade and Labour Council sent a deputation to him. They had asked for a copy of the proposed bill, but had not since communicated with him.

DUTY OF FREIGHT CHARGES. MR. BLAKE moved for papers with reference to the question of duty on freight charges. Mr. BOWELL said they would be very voluminous.

SESSIONAL RETURNS. MR. BLAKE moved for a statement of the amount expended by each department for sessional returns, instead of a lump sum.

MONTREAL CARNIVAL. MR. GAUL suggested that the House should adjourn for a day or two to attend the Montreal Winter Carnival, and quoted the English Derby as a precedent.

HALIBURTON. From Our Own Correspondent. SHOWED UP.—Since I wrote you another snow storm, and I believe the snow plough running off the track somewhere closed our railroad for a week, and only occasional mails were sent out by stage.

MUNICIPAL FINANCES.—On Monday 21st inst. our new Council met and discussed the situation. John Stodhart was appointed assessor. His duties, which for local reasons are somewhat difficult, if he desires to give general satisfaction, and to avoid giving grounds for appeals, are at all events sure to be honestly performed. Mr. Dover, our new Reeve, took the part of Dyar at the meeting of the County Council next day with considerable ability, and fully justified the estimation of him manifested at election day. There was a long discussion respecting the illegal grant made by the former Council to the municipalities of \$250 each to be expended on roads. It was eventually decided to let them keep the money, but to withdraw the execution against Dyar, who, as I mentioned in a former communication, refused to levy the rate imposed upon them in this connection, and to give this municipality \$800, to be levied on the other municipalities by a special rate; the costs of the suit to be borne by the county. Though this, perhaps, is not quite all that might be claimed by Dyar, if the account were gone into strictly, it is felt that it is on the whole a satisfactory solution of the difficulty, particularly as the new Council expressed a desire to deal fairly with all parties.

THE TEMPERATURE.—An open air rink on our Little Lake has just been opened, and there has been about a very good display of skating, though the frost has been so far too severe to form good ice. Our thermometer registered thirty-five degrees below zero the other morning at 8 o'clock, and the cold for some time was very intense. We think, however, there must have been some mistake about this, as Lord Lorne told his hearers in England that the cold in Canada was generally exaggerated—perhaps we got it in its exaggerated form. Our main street is lively with sleighing parties on bright days and altogether we are a gay village, though cold blow the wintry winds.

RELIEF FOR IRISH LANDLORDS. A KICK FROM A HORSE.—Jacob Jones, of Sydney, received a bad kick in the face from a horse recently.

THE SALVATION ARMY.—The proposed all night meeting of the Salvation Army at Belleville was abandoned. About 1,200 people attended the evening meeting, which closed at 10.30.

Love in a Shanty. Somebody seems to have been offering "camp love stories" to the *Northwestern Lumberman* for we find the following in a recent issue:—Camp love stories, we are obliged to respond to a story writer, are not in order. We are fearful that the gentleman who is solicitous on this question never visited a lumber camp, else he would locate the scenes of his love story elsewhere. There is not much love running wild around a camp. There is no one for the loggers to fall in love with except the cook, and very often the cook is a man. If not a man, some one's barren wife fills the position, and it would be highly improper for any chopper to entice her out the window, make his way out through the woods, "over crisp snow, sparkling in the moonlight," and marry her. There is any amount of profanity, story-telling, tobacco smoking, and reading going on around a camp, but no love-making to speak of.

A Monument to Garfield. Professor Leach of Nurnberg, has received an order to cast a bronze statue of the late President Garfield to be erected in San Francisco. The model was made by Mr. Pappenberg, of Munich, who is a native American. It represents the late president standing erect, head uncovered, dressed in civilian dress. The statue will be over ten feet high. On the sides of the pedestal will be figures representing war trophies and the American eagle. In front, under a star, will be inscribed the word "Garfield" in large letters.

The Second Session of the Fifth Parliament of Canada.

C. F. R.

SIR HECTOR LANGRIS, on Thursday, in reply to Mr. Blake, said that no tariff of rates had been proposed by the C. P. R. since that submitted to the House last session.

THE FISHERY EXHIBITION.

MR. FORTIN moved for papers as to the International Fishery Exhibition at London, and pointed out the benefit that her success there would be to Canada.

MR. KAULBACH expressed his approbation and thanked the government on behalf of his constituents for the interest they had taken in that very important industry.

MR. McLELLAN regretted that the report has been delayed through the illness of the Chairman of the Commission, but it would be presented shortly. It was very gratifying that the Canadian exhibit had been so satisfactory and had attracted so much attention.

THE FACTORY BILL.

MR. BLAKE moved for correspondence as to the proposed Factory Bill.

Sir L. TILLY said he had a letter from the Manufacturers' Association and he would bring it down. The Trade and Labour Council sent a deputation to him. They had asked for a copy of the proposed bill, but had not since communicated with him.

COMMERCIAL FAILURES.

Those who are opposed to the National Policy, to national prosperity or in short to anything conservative, are gloating over the fact that there was an increased number of failures last year. By a dishonest use of the figures they are endeavouring to show that the National Policy is the cause of this increase, and that its advocates are proved to have prophesied falsely. If they compared the figures under the National Policy with those before its adoption, and found that the failures were more numerous and heavier in the latter period, they would have some ground for arguing that the National Policy had contributed to this result or had at least failed to prevent it. But they take care to make no such comparisons, for then they would expose the falseness of the assertions that they are making to the disparagement of their country, since it would be seen that the commercial failures have greatly decreased in number and amount, even without making any allowance for the increased number of persons in trade.

Instead, however, of making any such fair comparison, they have the effrontery to compare one year under the National Policy with another, and then finding a difference they cry "see what the National Policy has done!" The advocates of protection for our native industries argued that it would contribute greatly to the prosperity of our country, but they never promised that it would maintain trade and commerce, or the profits therefrom, at one dead level, or utterly counteract all causes of fluctuation. The fact that the failures in Manitoba amounted last year to more than a sixth of the whole, would alone suffice to show the unfairness of the disparaging comparisons that are made by unprincipled Reformers. How many traders in Manitoba and the Northwest were there under the regime of these critics? It is obvious that with an augmentation of the numbers in business, the number of failures would increase without altering the proportion, and it must be remembered that there were exceptional circumstances in these newly settled regions to make failures numerous. The wonderful and sudden progress of the Northwest under the beneficial tariff and railway policy of the Conservative Administration brought large profits to those who first embarked in business there. Others naturally hastened to share in these profits, till there was too great a number competing for the business to be done for all to be successful; some were unacquainted with and unfitted for business, some had insufficient resources for the operations they undertook, and many who had sufficient capital were tempted to withdraw it for land speculation. It is not strange then that failures were frequent.

In the older provinces the Northwest boom was directly responsible for the difficulties of not a few firms. Who is there that does not know of flourishing concerns being crippled by the use of their funds for speculation in lots in Winnipeg or in the thousand and one paper cities of the plains? And even where there was not this direct influence, somewhat similar causes were at work. The impetus to business and the increased prosperity that sprang from the National Policy, everywhere tempted new comers to divide the profits of established houses. It is well known that there is hardly a branch of business in any of our towns but what there are too many embarked in it for all to be successful. Many too of the additional competitors are wanting either in the knowledge or the capital to ensure success, and disaster to themselves (and others) is almost inevitable.

Thus our very prosperity has tended to produce some increase of business failures, and added to other causes, such as a poor harvest, unpropitious seasons, and a temporary over production in some lines natural to the virtual introduction of manufacturing, fully accounts for the comparatively slight increase of failures over former years, very far from reaching the number of those of the dreary old days of depression before the National Policy was adopted by the people of Canada.

Our country is flourishing, its commerce is sound, and those who delight in maligning both will fail in persuading people that a trifling fluctuation is to be remedied by going back to the era of deficits in the public treasury and stagnation in business.

ONTARIO LEGISLATURE

First Session of the Fifth Legislative Assembly of the Province

THE ADDRESS.

Mr. BLYTHE on Wednesday resumed the debate on the address. He said that though a cry had been raised that the Dominion was robbing the Province the farmers in his constituency had not taken much stock in it. The admissions of the Attorney-General had convinced him that the policy of the Conservatives was the true one, and that Mr. Mackenzie was responsible for not ratifying the award beforehand if he wished it to be indisputable. When the Conservatives of the Province found that the Dominion, acting within its rights, refused ratification, they wished to appeal to the Courts. The Attorney-General said, however, that he would make the question an issue at the elections, and he has done so, with the result of having a minority in the Dominion, and a decreased majority in the Provincial elections. It was false to say that this was owing to influence from Ottawa; in his constituency he knew the Dominion authorities had not interfered, while Reform members of the House of Commons left their House in session to follow him throughout the Riding. As to railways he instanced the case of the road from Listowel to Warton, which got \$410,000 from the people of the district, and were then allowed to violate the stipulations by which they got this money. If the Provincial Government could not do better than that it would be well for the Dominion to have some control. As to the veto power, which was given by the greatest statesman of both parties, and which the Reformers had not hesitated to use when in power, it was really in the hands of the people, for the Government had to go to them for their verdict. He thought that any surplus from liquor licenses should be returned to the municipalities, and that the law should be carried out irrespective of politics, whereas it was useless to deny that the Crooks Act had been administered for political purposes. He hoped that measures would be introduced for the benefit of the farmers, and he would give them all the assistance in his power.

Mr. PARDEE claimed that the majority was enough for the next four years. He accused the Dominion Government of a conspiracy to crush the Liberals not only in the Dominion but in Ontario, and for this reason they had "Gerrymandered" the constituencies. He pretended to believe that the whole local contest was conducted from Ottawa. Mr. Meredith had complained of frauds in Algoma, but had said nothing about them in his speech. He denied the truth of the accusations and proceeded to accuse the conservatives of corruption, and abuse Mr. Meredith. Turning to the Boundary question, he argued in opposition to the leader of his party that the award was binding and maintained that the province had always had possession, so they should not be blamed for taking forcible possession. He said that the terms agreed upon were that the validity of the award should be decided upon, that the decision should be early, and that Ontario should have sole control South and East and joint control North and West of the height of land. He claimed that this was practically all that they had insisted upon. Then with strange effrontery he accused the conservatives of hostility to the interests of the Province though they have been so long urging the very course but on more favourable terms now adopted by the Government after so much delay expense and inconvenience. As to the title to the land, subject to the expense of extinguishing the Indian claim he believed it was ours, and he had no doubt the Dominion Government (whose leader they call our arch-enemy) would consent to their proposition for settling this point. Turning to the question of Provincial rights he argued against a view which no one had adopted, that the Province's Legislative powers are a limited nature even within her jurisdiction. In opposing the veto he ventured upon the strange doctrine that if the Legislature interfered with the holding of property the Lieutenant Governor might refuse his consent and so force the Ministry to resign, but he did not say what he would have done with his theory if His Honor had thus dismissed them for concealing Mr. McLaren's property. He insisted with great discourtesy (backed by Mr. Hardy) that Mr. Meredith, in spite of his denials had said that Sir John Macdonald was justified and entitled to deal with the license question, because they had not administered it properly. The very exact he read showed Mr. Meredith had asserted that the Province had the right to deal with the matter, and that if there had been any interference with their jurisdiction it had been forced upon the Dominion by the expression of public opinion in consequence of the outrageous way in which the License Act has been administered by the officers of the Ontario Government, and yet Mr. Pardee still persisted in his dishonest attempt to distort Mr. Meredith's meaning. His next onslaught was upon the Marquis of Lorne, for pointing to the history of the United States as a warning against sectionalism, and instead of showing any gratitude for the services that are rendered to our country by our late Governor-General, belittled him and his opinions. Then returning to Mr. Meredith he ridiculed the Conservative leader for objecting to the use of the power and rights of the Municipalities by the Mowat Administration. He objected to the Dominion assuming control of railways, having probably an eye to the bribery by free passes that has been pronounced legitimate, and said it would be a sign of weakness not to correct them, but he forgot to mention of which mistakes they were repeating under the pressure of the opposition.

Mr. Pardee complimented the last speaker on his skill in only stating the most favorable points, for he accused the Conservatives of gerrymandering, but did not say that the Dominion had to make an arrangement every ten years, and this had been done so fairly that two small towns had been struck off, though returning Conservatives. The Mowat Administration, on the contrary, had struck off the Conservative constituency but had kept the one returning a Reformer, and had made such other unfair arrangements. Mr. Pardee had seemed to have forgotten the revelations in the Courts as to the money spent by Reformers—\$15,000 in London, \$28,000 in North Simcoe, or the wholesale purchase of Niagara, for which their candidate was disqualified. Yet they paraded as the party of purity. As to the Boundary they would have had their rights long ago if they had accepted Mr. John Macdonald's offer in March 1874, of going to the Privy Council. Now, after all this delay, Mr. Mowat had discovered this to be the correct course; but a Premier of Ontario should not be slow so to wait 13 years to make up his mind. From personal knowledge he gave the well-known facts of the injustices the Government had attempted to perpetrate by concealing Mr. McLaren's property for the benefit of their supporters, Mr. Caldwell. The Commissioner of Crown Lands had told them nothing about colonization roads, perhaps because as they were in his department he knew too much. In North Renfrew out of \$14,000 spent, \$11,000 had passed through the hands of Mr. Murray, who

whined to them about Dominion interference. He gave details of the dishonest way in which this money was squandered to influence votes. He would like to see the liquor traffic abolished and if not to be under Provincial control, but the Government officials had neglected their duties shamefully, being thorough partisans, as he proved by facts in his own neighborhood. The Reformers who had spoken had lavished abuse upon Sir John A. Macdonald but it would fall harmless. Thus he had been abused for giving up our rights at Washington, and now we have them in the States moving to terminate the fishery articles of the treaty, because we had got the best of the bargain and \$5,500,000 to boot. So Sir John had been justified as he would be again.

Mr. LAMDAW dwelt upon the beneficial results of the Agricultural College. He praised the Government for their common sense in arriving (at length) at their present agreement as to the boundary. Mr. HUDSON repudiated the charges of Dominion influence in his constituency, and related how the provincial administration had endeavored to influence the electors. He defended the National Policy from the attacks that had been made upon it, and said that in the carriage trade, in which he was engaged, thousands of dollars, which they had formerly sent to the States they now spent in this country, as they could now purchase the materials in Canada.

Mr. GRANT praised the speech from the throne, the model farm, and the Mowat Administration. He did not wish to condemn the National Policy, and he was glad the Boundary question was in course of being settled. Mr. WHARF thought the model farm was useful, but they should now have the promised creameries also. Just before the election a Government agent and contractor went through Frontenac promising the owner of every factory that his place should be inside the Government creamery. He would like to know if the Government paid him for these services and for distributing loads of campaign sheets. He thought streams should be free, but he did not believe in legislating away a man's property to give it to a political friend. The Government had now given up their factious procedure as to the Boundary, and he hoped they would raise no more such sectional crises. Mr. MORRIS moved the adjournment.

TOWN COUNCIL MEETING

A PORTION OF MURRAY STREET, WANTED FOR MANUFACTURING PURPOSES.

Finance Committee Report.—The Old Bank Building, purchased from the Corporation, is now being used as a warehouse for the Corporation. The Committee recommends that the building be sold to the Corporation for the sum of \$10,000, and that the Corporation should be authorized to sell the building for the sum of \$10,000.

A special meeting of the Town Council was held on Thursday evening.

PRESIDENT.—His Worship Mayor Cox in the chair, and Councillors Cahill, Davidson, Allen, Kelly, Green, Yelland, Douglas, Rutherford, Menzies, Kendry and Hartley.

THE MAYOR.—The Mayor said that at the last meeting he had adjourned until next Monday evening (Feb. 5th), and as on that evening some, if not all of them, would be going to Ottawa, he thought it advisable to call a meeting for this evening, and do away with the necessity of the regular meeting.

COMMUNICATIONS.—From Geo. Dennistoun and others, in reference to the U. E. Loyalist Centennial. Received.

From W. Jones, Secretary of the Canadian Land Amendment Association, in reference to petitioning for an amendment to the land law. Received.

From J. Young, in reference to a man named Tripp, who had had his feet frozen and was in destitute circumstances. Charity Committee.

From W. J. Hopkins, asking for the remission of a portion of the taxes on his livery stable, as they had been burned. Court of Revision.

From Martha J. Laws and Mrs. Brown, asking for remission of taxes. Court of Revision.

From Geo. Johnston, Chief of Police, stating that eighty tramps had been lodged in the cells during the month of January, and that \$11.75 cents had been disbursed by the police in entertaining them, which he asked to have repaid. Ordered to be paid.

ACCOUNTS.—The following accounts were read and ordered to be paid:—

Jas. Stevenson, wood, \$180 75
T. Smith, man to drive home, 3 00
McKee & Davidson, nails, 23 12
H. O. Rogers, stamps, etc., 6 00
C. A. Waller, 15 00
Midland R. R., ticket, 1 50
Thos. Beavie, paid for wood carrying, 2 30
W. Fairweather & Co., 2 00

FINANCE COMMITTEE.

Councillor Davidson presented the following report of the Finance Committee:—

GENTLEMEN.—Your Committee beg to recommend the payment of the following accounts:—

W. Fairweather & Co., 8 00
J. E. Kelly, 122 51
John Hurley, 28 30
County of Peterborough (town's share), 26 84
Tucker & Co., 11 50
H. Rumb, 7 50
A. Hall, 8 16
Ormond & Walsh, 1 20
W. J. Hopkins, 4 50
W. S. Cooke, 1 50
Pay List No. 1, 18 75
E. R. Edwards, 122 00
W. Cummings, 122 16
Waterworks Co., 600 00

In reference to the account of Wm. Cummings, Collector, your Committee would recommend that for the future the accounts for all disbursements made by him be tendered at the end of each year in which they were incurred.

Pay List No. 1 for the present year has been presented to your committee and they have reduced the payment to each man 25 cents, on account of the shortness of the days and the present ruling prices for labourers.

All of which is respectfully submitted.

R. S. DAVIDSON,
Chairman.

The report was adopted.

MISCELLANEOUS BUSINESS.

A By-law to grant \$100 to the Mechanics' Institute was passed through its several stages.

THE STANDING COMMITTEE.

Councillor Rutherford moved, seconded by Councillor Menzies, That the report of the special committee striking the standing committee for the year be amended by adding that the first named in each committee be the chairman thereof. Carried.

STREET WATERING.

Councillor KELLY moved, seconded by Councillor ALLEN, That the Clerk be authorized for tenders for two single watering carts; on the barrel system, Mr. English to furnish the plans.

Councillor YELLAND suggested that they ask for tenders for the street watering, those tendering to furnish the carts.

Councillor ALLEN said that a tender for the watering would only be for a year, and a man could not buy a cart not knowing whether he would have the work to perform any longer than that time.

Councillor HARTLEY supported the view of asking for tenders for the street watering.

Councillor MENZIES took the same view, but thought it would do no harm to ask for tenders for carts.

Councillor YELLAND said it would be wrong to ask for tenders for carts, and put men to the trouble of getting information, if they did not intend to purchase them.

Councillor RUTHERFORD said that they had a team hired by the year, and if they had carts he could do the street watering.

The motion was put and declared lost.

Councillor HARTLEY moved, seconded by Councillor MENZIES, That tenders be asked for to water the streets, and to attend to the fire alarm, and do other work for the town, for the year commencing on April 1st. Parties to specify whether they would furnish carts and wagons.

Councillor KELLY said that the motion did not state how the work was to be paid for. The street watering had been paid for by a local tax. He thought it would be better for the town to own watering carts.

Councillor RUTHERFORD said the matter might be referred to the Fire, Water and Gas Committee to consider it and report.

The resolution, together with that moved by Councillor Kelly, were referred to the Fire, Water and Gas Committee.

Councillor RUTHERFORD moved, seconded by Councillor DOUGLAS, That the report of the special committee, read on the 5th of September.

ber, last, recommending that a portion of Murray street be granted to the Wm. Hamilton Manufacturing Company, be now adopted, and that the Clerk take steps to prepare the required by-law.

Councillor CARILL suggested that the motion be amended so as to read that a by-law be prepared for the purpose, which would not commit the Council in regard to the resolution.

After some discussion Councillor Rutherford amended the resolution according to the suggestion, and it was then adopted.

THE CHARITY COMMITTEE.

Councillor GREEN moved, seconded by Councillor CARILL, That the name of Councillor Kelly be added to the Charity Committee for the year 1884.

Councillor KELLY said that he did not wish to be appointed on the Committee, as he had served three years on it, and the motion was lost.

A CULTURE MEETING ATTENDED.

Councillor RUTHERFORD moved, seconded by Councillor YELLAND, That the Street Inspector be instructed to have the culvert on McDonnell street attended to, the cost not to exceed \$20.

Councillor CARILL said that at the last meeting Councillor Rutherford had lectured him for spending money on the 30c in the creek last year, and now, like the consistent man that he is, he moves to have this very thing done this year.

He raised the point of order that it would cause an expenditure of money and required notice.

Councillor RUTHERFORD said this culvert was on the street, and they would not be doing work on private property.

The Mayor ruled the motion out of order, and Councillor Rutherford appealing to the Council the ruling was sustained on the following division:

YEAS.—Councillors Cahill, Davidson, Allen, Kelly, Green, Douglas, Menzies and Hartley.

NAYS.—Councillors Yelland, Rutherford and Hartley.

THE FITCH HOLE.

Councillor HARTLEY moved, seconded by Councillor KENDRY, That the Street Inspector be instructed to have pitch holes in the Communication Road, opposite Mr. Dixon's property, filled and levelled, the cost not to exceed \$20.

Councillor KELLY said that he had moved to have the pitch holes on George and Charlotte streets levelled, and it was voted down. He now raised the point of order that notice of the motion was required.

Councillor RUTHERFORD said that the corporation team with the scraper would be able to do the work.

Councillor MENZIES moved, seconded by Councillor RUTHERFORD, That the town team be used to fill the pitch holes in the streets, under the directions of the Street Inspector. Carried.

CANAL DEPUTATION.

Councillor CARILL suggested that the Mayor, as he was connected with the railways, might be able to get the tickets for the deputation to Ottawa on as favorable terms as those granted to persons going to the Montreal carnival.

The Mayor said that probably he could do so, and he would try.

THE CORPORATION CHILD.

Councillor MENZIES moved, seconded by Councillor GREEN, That the Council now authorize the Town Treasurer to pay Mrs. Tyler \$2 per week for keeping the town baby, until other arrangements could be made.

Councillor ALLEN said it would be better to give one a lump sum to take the baby and keep it. A man told him that he would adopt the child if the town gave him \$100.

Councillor RUTHERFORD said that if it was an imbecile child there would be plenty who would take it.

The Clerk said that he had written to the Foundling Hospital regarding the child.

The motion was adopted.

THE STREET PAY LIST.

Councillor CARILL moved, seconded by Councillor DAVIDSON, That the Treasurer be authorized to pay the street and bridge pay list on the certificate of the Street Inspector, and also of the Charity Committee, and that the list be subsequently submitted to the Finance Committee.

Councillor RUTHERFORD opposed the motion. He said that it was ridiculous to talk of sending the pay lists to the Committee after they had been paid. On the last list the Committee had effected a saving by reducing the wages of the men.

Councillor CARILL said that only one list would be paid at a time, and it would go before the Committee before another would be paid, so that if there was anything wrong it could easily be made right. Councillor Rutherford retorted to be a friend of the working man, yet he wished to keep them out of their pay longer than was necessary and prided himself on having reduced their wages. The saving on the last pay list to the town was only two or three dollars, made by reducing the wages twenty-five cents a day.

The motion, after some further discussion, was lost on the following division:—

YEAS.—Councillors Cahill, Davidson, Allen, Kelly, Green, Douglas, Kendry, Hartley and Menzies.

NAYS.—Councillors Yelland and Rutherford.

A TEMPERANCE MOTION.

Councillor YELLAND moved, seconded by Councillor MENZIES, That the Street Inspector do not allow any men to use liquor during working hours while working in the streets. Carried.

THE BANK BUILDING.

The Mayor said he would like to call the attention of the Council to the incomplete transaction regarding the Toronto Bank building. He understood that Mr. Stevenson claimed interest on the unpaid purchase money.

The Clerk said he would have a by-law prepared to complete the transaction.

A discussion took place regarding the collection of taxes, but no action was taken.

THE DEPUTATION.

The Mayor said that before adjourning he would like to call the attention of the Council to the desirability of adding to the deputation to go to Ottawa regarding the Trent Valley Canal, the names of some citizens whose presence would add influence to the deputation.

Councillor MENZIES said they had wanted the canal, but they thought they had appointed a large enough deputation.

Councillor CARILL said that when a work of such importance and magnitude was in contemplation the council should not stop to discuss small matters. The majority of the ratepayers would approve of sending a large deputation, as all the towns along the line were sending large deputations.

The Mayor said that the action of the Government so far encouraged the hope for the work being carried out, and they should do all they could to urge the Government to push it as rapidly as possible.

Councillor CARILL moved, seconded by Councillor DAVIDSON, That the Mayor name from the list of names proposed to accompany the deputation to Ottawa in behalf of the town.

A point of order having been raised by Councillor Rutherford, the motion was ruled out.

A NOTICE.

Councillor DOUGLAS gave notice of a motion regarding the cutting out of a bridge on McDonnell street.

The Council then adjourned until Friday evening, Feb. 2nd.

Our Canadian Industry

is prosperous. The great difficulty to be contended with is the low grade of goods required. In no other country is more apparent than in the comparatively small article of sewing silks. The great demand in Canada seems to be for a cheap quality, buyers forgetting that a cheap thread must necessarily be a fine and consequently a weak one. Messrs. Becher, Paul & Co. make three grades of good silk; of these different qualities the poorest one has by far the largest sale, at the same time they constantly hear of complaints of poor sewing for it. Ladies will take the trouble to ask for Becher, Paul & Co's own brand, and see that their name is on the end of each good, they will be sure of getting the best made.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Baby Syrup for children teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no milder remedy. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind, colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Baby Syrup for children teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

THE OIL MONOPOLY BURST!

Owing to the high prices prevalent in Peterborough for COAL OIL, "CHINA HALL" decided to take up this branch of its business, and began on Friday, 18th instant, by REDUCING the price at once NEARLY FIFTY PER CENT, and we follow it up to-day by a further slight reduction, as under:

Best Canadian Oil, large measure, 20c. per gallon; Five gallons 90c.
Best American Oil, large measure, 30c. per gallon; Five gall. \$1.40

OUR PRICES WILL ALWAYS BE THE LOWEST IN TOWN.

Every consumer of Oil is aware that on Friday, 18th instant, the current prices of Oils in Peterborough were: Canadian, 30 cents, and American 40 cents. We therefore maintain that we have reduced the price of Oils in our town fully 50 per cent in one day, and trust that the people of Peterborough will not lose sight of this fact when ordering Oil. It means DOLLARS SAVED to every consumer of Oil. DELIVERED FREE IN ANY QUANTITY TO ALL PARTS OF THE TOWN.

ST. LAWRENCE CANALS

Notice to Contractors.

SEALED TENDERS, addressed to the undersigned and endorsed "Tender for St. Lawrence Canals," will be received at this office until the arrival of the eastern and western mails on TUESDAY, the 13th day of February next, for the construction of a lock and regulating wall for the deepening and enlargement of the upper entrance of the Cornwall Canal. Also for the construction of a lock, together with the enlargement and deepening of the upper entrance of the Rapids Canal, and the middle division of the Cornwall Canal, and the deepening, etc., of the channel at the upper entrance of the Galop Canal. A map of the head or upper entrance of the Cornwall Canal and the upper entrance of the Rapids Canal, together with plans and specifications of the respective works, can be seen at the Resident Engineer's office, Dickson's Landing; and for the works at the head of the Galop Canal, at the Lock Keeper's house near the place, and in each case plans, etc., can be seen at this office on and after Tuesday, the 29th day of January, next, where printed forms of Tender can be obtained.

Contractors are hereby informed that trial pits have been sunk on the CORNWALL and RAPIDS PLAT sections of the works, and they are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms, and be accompanied by a letter stating that the person or persons tendering have carefully examined the locality, and the nature of the material found in the trial pits.

In the case of firms there must be attached the actual signature, the nature of the occupation and residence of each member of the firm; and further, a bank deposit receipt for the sum of \$4,000 must accompany the tender for the Cornwall Canal, and for the works at the head of the Galop Canal, must be accompanied by a bank deposit receipt for the sum of \$5,000. The respective deposit receipts (cheques) must be endorsed over to the Hon. the Minister of Railways and Canals, and will be forfeited if the party tendering declines entering into contract for the works at the rates and on the terms stated in the offer submitted. The deposit receipts thus sent in will be returned to the respective parties when tenders are not accepted, and will be retained by this Department, does not, however, bind itself to accept the lowest or any tender.

By order, A. F. BRADLEY, Secretary.

SATURDAY, FEBRUARY 2, 1884.

A COWARDLY DEFENCE

In the Legislative Assembly and in their
journals, there are symptoms of an organized
effort on the part of the Reformers to shelter
themselves from criticism of their blunders in
the Educational Department by the cowardly
device of throwing all the onus upon the shoulders
of the late Minister, Mr. Crooks, who unfor-
tunately is unable to answer for himself.
Not only in the columns of the journals sup-
porting them, but in their very presence in the
House, have such excuses been made without
any reputation being drawn from his colleagues
so that the public will with good right hold
them responsible for the adoption of this line of
defence.

We have called it a cowardly device with-
out fear of contradiction from any man of right
feeling, for it is a dastardly act to attack
one whose misfortune should be his shield, and
who is unable to defend his own reputation
thus besmirched by those who should have felt
bound to come to his aid. Generous men
would have felt disposed under such circum-
stances to have borne even more than a fair
share of the burden, instead of taking advan-
tage of his helplessness to heap upon him the
odium of their own misdeeds. They may think
it safe to say that the blunders, which they now
admit, were due to the falling intellect of Mr.
Crooks, but it is at least as reasonable and far
more probable that a brain more or less im-
paired by incipient disease may have rendered
Mr. Crooks less able to judge for himself and
more liable to be influenced by the bad advice
of incompetent or interested colleagues.

But even without assuming that Mr. Crooks
was thus imposed upon and led astray by his
ungenerous colleagues, they cannot free them-
selves from blame by casting it upon him. Both
by the theory and practice of our constitution
the Administration is jointly responsible for its
actions, and each member of the Cabinet must
share the responsibility. If one member acts
wrongly and injudiciously his colleagues are
equally responsible until they reverse his error
and if necessary disavow it.

It will be remembered that so far from Mr.
Mowat and the rest of his colleagues repudiating
what are now called the blunders of Mr. Crooks,
they strenuously defended and supported
them. We and other Conservatives, who
pointed out these blunders, were vilified by Re-
form speakers and Reform writers for daring to
criticize such a perfect Administration, which,
as pointed by its friends, had not the human
attribute of fallibility. It is true that they sub-
sequently proved themselves inhuman, but it
was by their cruel and cowardly treatment of
their unfortunate friend.

AT THE COUNTRY'S COST.

REFORMERS are never weary of complaining
of the increase of departmental expenses and
the growth of the clerical staff at Ottawa. Yet
they themselves are constantly adding to this
expenditure by moving for voluminous papers,
many of which are utterly useless and others
too trivial to be worth the cost. The govern-
ment can hardly check this branch of the pub-
lic expenditure, for any attempt to deny infor-
mation would be treated as a confession that there
was something to be concealed. It is the Op-
position who are thus recklessly putting the
country to unnecessary expense, and foremost
among them is Mr. Blake. We will give a ty-

pical case. Reformers having falsely claimed
that the Privy Council decision in the Mercer
estate case was a victory of Reformers over
Conservatives, it was pointed out in reply
that it was the Minister of Justice of the Mac-
kenzie Administration and not Sir John Mac-
donald who raised the claim of the Dominion to
such estates. And now Mr. Blake is asking
for papers back to confederation, in the hope of
showing that in other cases Sir John's first
Administration claimed estates. Thus that
Mr. Blake may study Canadian history, in or-
der that he may find in the distant past materi-
als to attack his opponents on a question now
practically settled, we have to supply him with
the materials in this costly. We can tell Mr.
Blake one thing that he will not find and that
is that Sir John has ever taken a dead father's
property from his son, even if he had the mis-
fortune to be supposed illegitimate, in order to
benefit his own favorites, as Mr. Mowat has
done.

ONTARIO LEGISLATURE THE ADDRESS.

MR. MORIN on Thursday resumed the de-
bate on the address. He repeated the old
attack upon the Dominion for interfering in
the election, and boasted of the purity of the
Reformers. Liquor license officials were perfectly
impartial, and assistance for education was
most equitably distributed. They had, he
thought, the majority of farmers on their side
of the House.

MR. MITCHELL, after complimenting the
Lieut. Governor and saying that probably the
mover and seconder had done the best they
could for their side, proceeded to condemn
the attacks that had been made on the
N. P. As other members had told their ex-
periences he might say that the Minister of
Crown Lands had visited his constituency but
did not do him much harm, but the light bread
champion, Tait, had gone through the con-
stituency abusing him like a pick-pocket. The
Streame Bill, if passed, would be voted again
because it was an unrighteous measure. Mr.
McLaren was kind-hearted and a good neigh-
bor, but Mr. Caldwell rewarded him by getting
his rights legislated away. The appointment of
the new Minister of Education had evidently
been a matter of political expediency, but he
hoped he would do something to discourage
cramping. He severely censured Mr. Avey
for calling a member of the House "Judas
Isariot." Returning to his own election he
said he had used no corrupt means, but Mr.
Gunn had left the House of Commons in season
to work against him, and had endeavored to
induce Conservatives not to vote, as an act as
bad as bribery. The records of the Courts in
such cases as that of Mr. H. E. Cook, with his
\$28,000, showed on which side was the corrup-
tion.

MR. RADKOW accused the Dominion author-
ities in interfering both in the contest and the
petition against him. Speaking of the Bound-
ary award he asked the member for East
Toronto if he thought a prior act of Parliament
had been passed.

MR. MORIN said Mr. Mackenzie should have
resisted the award as the Ontario Legislature
had done twice.

MR. RADKOW still contended that there was
no precedent, and that anticipatory legislation
would have been absurd.

MR. GORDON remarked that the Speaker
was rather hard upon Mr. Mowat.

MR. RADKOW then attacked the Blues and
the Conservatives generally. As to the veto,
he admitted that there was the power, but
denied that there was the constitutional right.

MR. BAKERVILLE accused the Reformers for
constantly trying to excite bitter feelings among
the Province, as being to the injury of the
country. He thought the Government had
denied the Boundary award, and that they
should long ago have accepted Sir John Mac-
donald's offer to go to the Privy Council. If
they wanted the award ratified they should
have got Mr. Mackenzie to do it while in
power. He condemned the Streame Act, and
denounced the attacks upon the National
Policy.

MR. LAUDER congratulated the leader of the
Opposition on the acquisition to his strength.
He thought the Attorney General should have
given them some information as to Ministerial
changes, for instance whether the new Treasur-
er had stipulated for the acceptance of his hobby
of the ballot for school trustees. Then the New
Minister of Education, an acquisition from the
Dominion Parliament, had found his depart-
ment in a state of chaos. The school boards
throughout the Province had been driven dis-
tressed by the confusion as to the test books.
Mr. Hardy had insisted upon keeping two sets
of Readers, but the new Minister disagreed
with him, and they would like to know what
were his intentions. Even now there were
signs of political partisanship in educational
matters. In the elections they had found the
Provincial officials and especially the license in-
spectors actively working for the Government,
and the cry of Dominion interference was only
to draw off attention from their own doings.
Now it was pretended that the Government had
always been in favour of referring the boundary
award to the Privy Council, but their leaders
had always spoken against it, and he read many
extracts from their speeches to this effect. Mr.
Blake, however, did not believe in the legality
of the award, nor any other lawyer in the
House. As to the Dominion assuming control
of the railways, no one had done more to cause
than the Commissioner of Crown Lands.
Mr. Farde had been chairman of the Railway
Committee for eight years, and though it had been
his duty to put checks upon railway
amalgamation he had always refused to do so.
He had allowed the smaller railways to be ab-
sorbed by the larger, for instance the various
divisions of the Midland by the Grand Trunk,
so that he and his friends were responsible for
that very Dominion control about which they
were wailing. They had checked the amal-
gamation with their persistence till the Opposi-
tion were powerless, except upon one where they
had discovered that expenditure of \$5,000 for a
trip to the Northwest. He did not know if the
newly reconstructed Administration was going
to be vacillating as in the past about the Par-
liament buildings, but something should be done
if they had the courage. As to the Streame
Bill, he found throughout the contest that
the people were opposed to such interfer-
ence with private property. He warned the
Government of the danger of their indulging in
vexatious appeals. In conclusion he gave a well
deserved trouncing to Mr. Avey for his abusive
language.

MR. MCKENZIE complained of the Postmaster-
General interfering in his election. He ex-
pressed rather undue impatience to hear Mr.
Mackenzie formulate his promises, charges
against Mr. Farde. He thought that the
country would approve of an appropriation for
new Parliament buildings if the Dominion did
not veto it. He praised the colonization roads,
the Agricultural College, and the encourage-
ment of tree planting.

MR. J. GRAY said that it has been very offen-
sive to hear an embryo statesman vilify the
greatest statesman Canada had ever produced.
Such an epithet as the arch-enemy of Ontario

could not have been applied with sincerity to
Sir John Macdonald by the mover of the ad-
dress. If the promised measure as to forestry
was to encourage the replanting of large dis-
tricts re-forested he would cordially support
it. It had been promised that politics should
not enter into educational matters, but he gave
several instances of it, though as to one of them
he expressed himself satisfied with the ex-
planation of Mr. Ross. The ubiquitous light
bread champion, Tait, cropped up again. The
Reformers seemed to be reviving their old
opposition to the National Policy, but it would
be in vain. He himself had the honour of the
presence of the Premier and the Provincial
Secretary in his constituency, but wherever they
had spoken he had a large majority, so he
wished they had sent more Cabinet Ministers.
They had trailed the honor of the Province in
the dust, raising a clamour for Provincial rights
and it came places, when they thought it would
be in their interest, a cry of "No Surrender."
As to Dominion control of railways, that Govern-
ment had legislated as to railway crossings, and
his neighborhood they had consequently been
able to obtain the construction of sub-
ways from four railways. There were far too
many railway accidents in Ontario and he hoped
that such legislation would diminish them.
He remarked upon the numerous expropriations
of the central prison, and thought they might be
prevented. The amount spent on repairs for
the Parliament buildings was enormous and he
thought they should be better provided.
Mr. Phelps moved the adjournment.

Valley Canal deputation having been received

the new Council to consider, the *Pocket* re-
marks—
"It is to be hoped the Council will take some
action in support of the Trent Valley Canal
project, next Monday, either by deputation or
petition. Not only will this enterprise open up
an important highway of traffic, but it will
solve the question of regulating these lakes, in
a most practical and useful manner."

Rebels Defeated by Baker Pasha.
Gen. Gordon leaves Assouan en route for
Khartoum. He has written a letter to El
Mehdi asking him to send the European pris-
oners in his possession to Khartoum. Col.
Sartorius telegraphs from Suakin: "Sinkat and
Toker still ours. I am going to join Baker pasha
at Trinkitat to-morrow. We will advance on
Friday. Baker Pasha recently made a cavalry
reconnaissance, attacked Osman Digna, and
killed and wounded over 120 of his men.
Friendly tribes are still hesitating to move the
last ten miles towards Taker. I have written
Baker Pasha strongly urging an immediate
advance from Trinkitat. Three days after
Baker Pasha's reconnaissance I made a sortie
with a force of infantry. Osman Digna attack-
ed me, but lost several men, whereupon he re-
tired inland. I am doubtful about the relief of
Sinkat."

DOMINION PARLIAMENT.

The Second Session of the Fifth Parliament of Canada.

SIR CHARLES TUPPER on Friday brought down papers as to the application by the C. P. R. for an advance.

SIR JOHN MACDONALD laid on the table correspondence with the C. P. R. regarding the location of lands.

FIRST READING.

A number of private bills were introduced and read a first time, being chiefly as to new railway insurance and banking companies.

Among them was one by Mr. Abbott to confirm the lease of the O. & Q. to the C. P. R.

MANITOBA SCHOOLS.

SIR L. TULLEY introduced a bill as to advance to Manitoba for public schools and it was read a first time.

BRITISH COLUMBIA.

SIR J. MACDONALD introduced a bill to provide salary, and for a judge for British Columbia.

In answer to Mr. Gordon he said that the Dominion had not advertised for tenders for the Esquimalt and Nanaimo Railway, and he was not aware that British Columbia had.

MASTERS AND MATES.

Mr. McLELLAN said, in answer to Mr. Blake, that the time for obtaining master's and mate's certificates in the Maritime Provinces had been extended for three months, in consequence of the small number of applicants.

The law under which they had acted was the law of necessity.

SHERIFF CHAPLEAU.

SIR J. MACDONALD in answer to Mr. Cameron (Huron), said the Mr. S. E. St. Ours Chapleau who had been appointed sheriff in the department of railways and canals, but had resigned of his own free motion. His present salary was that provided by statute.

A LITTLE INVASION.

Mr. GUILLET moved for papers as to the arrest of two U. S. deserters on Canadian territory, one being a Nova Scotian.

SIR J. MACDONALD said that on a representation of the facts to the Washington authorities the men had been promptly surrendered.

REDUCTION OF POSTAGE.

Mr. CHARLTON moved for correspondence between the Dominion and the States, as to the reduction of postage. The U. S. reduction had caused little loss of revenue, so we might expect the same result and it would be a great boon.

THE TROUBLED ISLANDS.

SIR JOHN MACDONALD in reply to Mr. Platt and Sir E. Cartwright, said it was proposed to continue to grant leases by public auction of a few of the smaller of the Thousand Islands each year, so that there might be an interest in preserving them. Some of the larger islands might be reserved for public use under proper restrictions.

ADULTERATED FERTILIZERS.

Mr. MASON introduced a bill for the prevention of frauds as to agricultural fertilizers, and it was read a first time.

METHODIST UNION.

The second reading of the bill as to the union of the Methodist Church was allowed to stand, and several other private bills received their second reading.

METHODIST MISSIONS

Services in the George and Charlotte Street Churches on Sunday.

A new departure was made this year in connection with the annual missionary services in the Methodist Churches of the town by holding them on Sunday. The pastor of the George Street Church, referring to this departure, remarked that the subject "was grave enough for the pulpit and sacred enough for the Lord's Day."

THE CHARLOTTE STREET CHURCH.

There was a fair sized congregation present at the morning service in the Charlotte Street Church. After the usual opening exercises, and a beautiful anthem by the choir.

The Rev. T. MANNING, B.A., pastor, said that the Methodist Church had four mission fields, the Domestic, Indian, French and Foreign. For the support of the Missionary Society last year the Church raised \$169,500. To this amount the Charlotte Street Church had contributed \$300. He read a list of all those belonging to that church who had given \$2 or more.

The Rev. Dr. MACHAM then addressed the congregation for an hour, dwelling on the work of missionaries in Japan. He introduced his subject with a beautiful allegory, and said that many of the Japanese people had been converted. He explained many hindrances to the spread of the gospel that existed there, and many of them were of such a character as should cause the hearts of Christian people to burn with a desire to assist in Christianizing that land.

He referred to the difficulties that Christian missionaries had experienced when they first went to Japan. In 1870 they were allowed to preach publicly, and in 1873 the first church was formed with a membership of eleven. In 1873 thirty more missionaries entered Japan, and in 1883 there were 93 churches and 83 outside stations. In 1873 there were 30 missionaries there; in 1883 there were 145. In 1872 there were eleven members; ten years later there were 5,000. There was no instance in the history of missions of greater success. In 1873 the Methodist Church of Canada sent out Dr. Cochran and Dr. McDonald. A lady who had been sent out from Hamilton by the Women's Missionary Society as a teacher has been very successful. He referred to the work of the Methodist Missionaries in Japan. That country has a population of 35,000,000, and 5,000 of these were Christian converts, many of whom were remarkable people. He referred to a visit of a Korean General of Japan, who had become impressed by Christianity and who had declined posts of honor and emolument to assist in translating the Bible into the Korean language. He related anecdotes illustrating what Christianity was doing for home life in Japan, and to the prospects of the whole country being Christianized. There was now a glorious opportunity then for the church. Would they do their duty?

At the evening services the Rev. T. Manning addressed the congregation more particularly on the claims on the Domestic mission.

THE GEORGE STREET CHURCH.

There was a very large congregation present at the evening service in the George Street Church. The services were commenced by the usual devotional exercises and an excellent anthem by the choir.

The Rev. JOHN SHAW, read extracts from the 50th annual report of the Missionary Society. The Methodist Church had 325 domestic missions, 342 missionaries and a membership of these missions of 26,804. These were 46 Indian missions, 27 missionaries, 6 native assistants, 40 teachers and 13 interpreters, and 3,450 communicants. Of French missions there were eleven, with 13 missionaries, 3 teachers and 255 members. In Japan there were 7 missions in all 14 paid agents, and 273 members. In Bermuda 2 missionaries and 563 members. This was a total of 364 missions, 397 missionaries and native assistants, 43 teachers, 13 interpreters and a membership on mission fields of 33,329. The amount raised in Peterborough last year towards the support of their missions was \$530.67, of which \$323.17 was contributed by the George Street Church. To this should be added \$20 contributed by the Sunday school, which had been received too late to appear in the report. The demands during the coming year would be pressing. The union would result in a surplus of men, who would look to the church for employment. New missions would have to be formed and large fields divided. This would not be an unimpaired evil, as the more thoroughly the ground was cultivated the more fruitful it would be. Besides, in the Northwest the population was rapidly increasing, and new fields were opening. They ought, therefore, to largely increase their contributions.

The Rev. Dr. MACHAM related incidents illustrating the ignorance of many concerning Japan. He then graphically described a journey over the 3,000 miles of land and 5,000 of water lying between here and Japan. That country comprised 150,000 square miles and had a population of 35,000,000 persons. The atmosphere in Japan was laden with moisture, malaria was prevalent. Three crops were taken off the land each year and it was carefully cultivated. He briefly sketched the history of Japan, taking nine principal epochs as the pivots of its career. The 13th king of one dynasty was now on the throne. In 1859 Christianity was introduced there. It did not bring about the revolution of 1868, as some people had supposed, but hastened the revolution. Old Japan had nearly disappeared, and court rooms, schools, colleges, telegraph offices, &c., were found there. They had the outward aspects of civilization, but not its inward effects. The false religion of Japan had done a vast amount of good to the people, yet they were used by God to further His purposes. They were not steps in His plan, but God could make the wrath of man praise Him, and harness the devil in His chariot. The Divine Spirit operated upon the people, and rays of light pierced through the mists to lead the votaries of their false religion to the truth. Our religion, which was the perfection of beauty, and the author of which was the great Source of Beauty was fated to take the place of all these religions. He referred to the introduction of Christianity into Japan, the rapid progress it had made among the people, and the work of the Canadian Methodist missionaries. He did not know the depths of joy in store for the missionary until he saw people emerging from the darkness of heathenism into the light of Christianity. Civilization and its appliances take the place of miracles and assist in spreading Christianity. He related incidents connect-

ed with the conversion of Japanese people, one of the most striking of which was the conversion of an aged physician. He procured a Bible and studied it alone in his own town, when he could not see a religious instructor. After two years he went into a city to be baptized, and he was examined for two hours in regard to doctrine and his experience. His opinions on matters of doctrine were almost exactly the same as the Evangelical Alliance, and his experience was the same as that of the saints of the Bible. Christianity was commanding the respect of the people there. He referred to an incident which illustrated the baneful effects of the moral depravity of the people, and the parents right of property in their children. The female missionaries were making a good and powerful impression. He illustrated the devotion, self-denial and resolution of Japanese converts by relating the experience of some of them. They had in them the material of which martyrs were made. The Japanese papers sometimes compared the Christian religion with the other religions there, to the advantage of Christianity, and the Buddhist priests were trembling in their shoes. The Government had become friendly and the people were awakening to the fact that Christianity was going to triumph. There was serious talk among those in high places of making Christianity the religion of the empire. If the western churches would do their duty, by the year 1900 Japan would be a Christian country. They had reached a real crisis in Japan, and a solemn call was made upon the western churches for assistance. If this church sent 15 or 20 men, and other churches in proportion, they would win the victory by the year 1900.

The address, which occupied over an hour in delivery, was attentively listened to and was very interesting and instructive.

A Fearsful Explosion.

ALLIANCE, Ohio, Feb. 1.—A frightful gasoline explosion occurred in Orr's store to-day, demolishing building and burying in the ruins an unknown number of persons. Four have been extricated and four more are positively known to have been inside. Men are at work to rescue, if possible, those that are alive and recover the bodies of the dead. Orr's store is a large new brick block in the centre of the town. It is rumored that a child turned the spark on the gasoline tank, and the gas escaping was ignited by the fire in the stove. Several persons in the store, and two families lived on the second and third floors. Besides those engulfed in the debris, many others are seriously injured. The explosion wrecked and broke the windows in other buildings. Damage to buildings, \$75,000.

Telegannan Club in Toronto.

The Park Telegannan Club nearly had its thirty or forty telegannans burned the other night. Somebody left a lighted lamp on a shelf a foot or so under the roof of the shanty in which the telegannans are stored. When the lamp was discovered the roof was smoking. The practical secretary went down town and paid a dollar for a \$500 insurance policy. Probably not a great many have been aware of the fact that a telegannan club exists in the city. The Park Club, however, has flourished vigorously so far, the unusual snowfall this winter having made their slides in Horseshoe properly equal to anything. The club has a membership of a couple of hundred and over forty telegannans.

Russian Lumber.

The official estimates of the value of the produce of Russian saw mill—12,000,000 rubles—affords no idea of the real extent of this branch of industry, as there is calculated to be quite 30,000,000 rubles worth of timber exported annually from Russian ports. A small portion is shipped in a rough state whilst the demand for home consumption was probably still larger. The estimates take account only of the largest and most important saw mills. Besides these, are a great number of smaller landed proprietors who own tracts of land and have small saw mills on their estates which are not included in the estimate. The largest export of shipment and other timber is from Riga, which town there are fifteen saw mills of the largest size.

A CRY OF DESPAIR.

THE *Globe* has an editorial entitled "A Cry of Despair," and we are not surprised that the leading Reform journal should expatiate upon that theme. We hope its cry of distress will soothe its overwrought nerves. It is not strange that their friends write under the "degrading" of Messrs. Apjohn, Pardee and Mowat, by bringing them before the courts for their doings in Algoma. We can well believe that the *Globe* and its party "prefer the Legislature to the Court as a field for political contest," for they have suffered severely in the past from contact with our courts of law, which have shown little regard for their hypocritical pretensions to purity, and have unmasked them before the world. Naturally they shrink from a repetition of the exposure.

Though Mr. Apjohn has been convicted of his share in the conspiracy to return Mr. Lyon by refusing the franchise to the Conservative electors of Algoma, and has received in part his desert, Mr. Pardee and Mr. Mowat have not yet passed through the ordeal, and are regarded by the eyes of the law as innocent until they are legally proved guilty. But this theory of innocence, by no means justifies the excitement of the *Globe* and its preposterous claim that it is wrong to challenge their conduct as the law provides, or to punish them if they have violated it. Legally they may escape, and they have a right to a fair trial and strict proof, but whatever the result, there can be no doubt of their moral offence in so acting as to falsify the voice of the electorate. Their choice of their legal, their unnecessary delay of the election so as to avoid an appeal to the courts before the election, their connivance, if no more, at the wholesale disfranchisement of opponents and at the return of a minority candidate, grossly immoral as they must be held, may not come within the letter of the statute, but even if there were nothing else, they would fully justify a searching investigation and an appeal to the law even if unsuccessful. They may be as fortunate as Mr. Ferris, who is held to have been within the letter of the law, though none can doubt that in addition to the wrong of influencing electors he has added that of doing so by using the forced of others in his charge, and he might have faced very differently but for the successful conspiracy of his brother to defeat the ends of justice! Still he has a right to all the latitude given by the existing law, and so have Mr. Pardee and Mr. Mowat. This, however, is no excuse for the absurd pretension of the *Globe* that it is an insult to try such offenders, and to see if the law can reach them.

As to the rant about using cold steel, and the boast of a readiness to vie with assassins, it really is almost like the ravings of a lunatic, and shows that the reason of the *Globe* is temporarily unassailed by the peril of its friends and its cause. We would advise our contemporary to reserve some of its rhodomontade for a possible future use.

Bakers' Strike and Railways.

FARGO, Jan. 28.—The extent of the disaffection in the valley in regard to the railway monopoly and the Millers' Association seems to be growing. An enthusiastic meeting was held at Caledonia, in which a bid was made for the extension of the Fargo Southern to the British line by offering to secure the right of way, and construct the grade for the new line through Trail county. Delegates were elected to the meeting at Grand Forks on the 29th inst., and much determination was manifested to secure a new outlet, and thus force competition. — *Winnipeg Times*.

Dr. Zukertort's Campaign in Ottawa.

OTTAWA, Feb. 1.—Yesterday's marvellous display of blindfold chess playing by Dr. Zukertort, the champion of the world, brought to a close that gentleman's public playing in this city so far as is known at present Dr. Zukertort will remain in Ottawa the whole of next week, and will then visit Montreal.

Dr. Zukertort, in his first day's play in Ottawa against general opponents, won sixteen games and lost two—one to Prof. Chovvman and one to Dr. Hurlbert. In his blindfold play he won eleven and drew one. After this, Toronto players can congratulate themselves.

Appointments of the Bishop of Huron.

The Bishop of Huron has appointed Rev. Canon Hill, of Stratford, as his examining chaplain, and Rev. J. B. Richardson, of London, as his assistant.

BOARD OF EDUCATION.

MR. JAMES STEVENSON ELOTTED CHAIR-
MAN FOR THE FOURTEENTH TIME.

The Standing Committee—Special Committee—The Engaging of Teachers—The Usual Authority to Borrow Money—The Entrance Examinations—Non-Resident Pupils—Communications.

A meeting of the Board of Education was held on Friday evening.

PRESENT.—Messrs. Stevenson, Stratton, Cox, Dumble, Weir, Rutherford, Denna, Savers, Millar, Sproule, Kendry, Errett and Wrighton. Mr. W. A. Mowat, Secretary, took the chair. He announced that Messrs. James Stevenson and Geo. A. Cox had been re-elected members of the Board, and called on them to elect their Chairman for the year.

On motion Mr. Stevenson was unanimously re-elected Chairman.

Mr. STEVENSON, on taking the chair, thanked the members for again placing him in that position, and said that he would endeavor to discharge the duties of the office rightly.

THE STANDING COMMITTEES.

Mr. STRATTON moved, seconded by Mr. ERRETT.—That Messrs. Cox, Errett, Denna, Rutherford, Dumble, Millar and Sproule, be a Committee to strike the Standing Committee for the current year.—Carried.

The Board then adjourned for a short time, and when it resumed the Special Committee reported the following draft of the Standing Committee:

APPOINTMENTS.—Messrs. Cox, Dumble, Stratton, Rutherford, Denna, Millar, Errett, Sproule and Wrighton.

FINANCE.—Messrs. Burnham, Kendry, Weir, Wrighton, Savers and Denna.

PROPERTY.—Messrs. Wrighton, Errett, Weir, Savers, Burnham and Kendry.

SCHOOL SUPERVISION.—Messrs. Millar, Rutherford, Sproule, Savers, Burnham and Dumble.

After considerable discussion, Mr. Weir was, on motion of Mr. Cox, added to the Committee on appointments, and the report was adopted.

COMMUNICATIONS.

From Miss Sara Keels, applying for a position as teacher, and from Miss Addie Errett, Jennie Butcher, and Miss Mary N. Sim to the same effect.—Committee on Appointments.

From Charles D. Macdonald, Town Clerk, announcing the appointment of Messrs. Geo. A. Cox and James Stevenson as trustees, by the Town Council.—Received.

From A. W. Gibson, in reference to a patent fire-escape ladder.—Property Committee.

From H. K. Coleman, asking the Board to devise some means, by which his whole time would not be occupied in teaching his own room, or else relieve him of the responsibility of rooms other than his own.

From Robt. Tully and Mark Curtis, trustees, submitting an account amounting to \$13 for non-resident pupils.—Finance Committee.

From J. Coyle Brown, I.P.S., submitting and certifying to the correctness of the following accounts:—J. C. Brown, presiding at examinations, \$17; John Davidson, ditto, \$17; REVIEW, paper, \$9; Janitor, \$5; J. G. Brown, express charges, \$1.—Finance Committee.

From the Times printing Co., an account for \$4.33.—To be paid.

THE ATTENDANCE.

Mr. H. Kay Coleman, Head Master, submitting the report of the attendance at the central and South Ward public schools during the month of January. The attendance was as follows:—

Central School..... 783
South Ward School..... 184
Total..... 967

MONEY BY-LAW.

Mr. DUMBLE moved, seconded by Mr. WEIR.—That for the purpose of supplying the funds which are required to carry on the operations of the Board, and to meet its pecuniary obligations until the Board is placed in funds by the Town Council, the Chairman and Secretary, Treasurer be and are hereby authorized to borrow from the Bank of Montreal for such purposes, as required, money to the amount of not exceeding \$5,000, and for that purpose to make or endorse such promissory notes as may be necessary, and that this resolution be sealed with the common seal of the Board, so as to give the same the character of a By-law, and that the affixing of the seal be attended by the Chairman and Secretary-Treasurer. Carried.

THE BARGAIN WITH TEACHERS.

Mr. DUMBLE moved, seconded by Mr. MILLAR.—That all teachers in the service of this Board be employed subject to rule 53 of the By-laws of this Board; that the Secretary be and is hereby directed to cause all teachers entering the service of the Board to sign a memorandum of service in terms of the above rule, and that the Secretary procure a book in which be shall make a heading in the terms of the above rule which all teachers shall sign after the words "We, the undersigned, hereby accept of service under the By-laws of the United High and Public Schools of the town of Peterborough on the terms above set out."—Carried.

THE BOARD RE-ELECTED.

Mr. DUMBLE moved.—That this Board desire to express its gratification at the eminent success of the pupils of the Peterborough Public Schools in the recent entrance examinations, eighty per cent of the applicants having successfully passed that examination.—Carried.

NON-RESIDENT PUPILS.

Mr. ERRETT moved, seconded by Mr. DUMBLE.—That the Inspector be and is hereby directed to obtain from each teacher in the public schools of the town a list giving the names of each child in his or her room whose parents reside outside of the town limits, and hand the same to this Board at its next meeting.—Carried.

THE COLLEGIATE INSTITUTE.

Mr. STRATTON moved, seconded by Mr. MILLAR.—That the special committee appointed last year to report on the question of the re-arrangement of the classes and the teaching staff of the High School be allowed to report to this Board, and that the name of Mr. Errett be substituted for that of Mr. McClelland, and that Mr. Wrighton's name be added.—Carried.

The Board adjourned.

Peril of Gen. Gordon's Position.

Sir Samuel Baker writes to the *Times* that the position of Gen. Gordon, absolutely unprotected in the deserts of the Sudan, and bearing a large sum of money, is not only extremely dangerous, but also a direct challenge to disaster. His friends must watch his movements and await developments with the keenest anxiety.

ONTARIO LEGISLATURE.

First Session of the Fifth Legislative Assembly of the Province.

PRIVATE BILLS.

Mr. FRASER on Friday moved that the time for receiving petitions for private bills be extended to Friday, Feb. 8th, and the motion was adopted.

THE ADDRESS.

Mr. PHILIPS resumed the debate on the address. He blamed the Dominion Government for the delay in securing our disputed territory, and talked of rebellion. As a lumberman he was in favor of the Streams Bill, and would pass it again. The Crooks Act, he thought, was an admirable measure, and the McCarthy Act was copied from it, except in making the County Judges and Warden commissioners, which he did not like. He admitted that some partnership had been shown by license officials, but claimed that they were only a few out of some hundreds. He then made the stereotyped attack upon the Dominion.

Mr. NELSON said he had been elected as an independent and would set independently. He thought the disputed boundary might have been settled long ago; for years he had supported the government in maintaining the award, and now after all the loss of time they had gone over to the views of the Opposition. He continued to criticize their course, and said that though the Minister refused to call with him on the Minister they refused to go because it was a critical time, on the eve of a general election, and when he went alone he could get no satisfaction from the Minister. The National Policy should not have been discussed there, but as it had been so unfairly attacked, he felt called upon to support it. This he did in a very effective manner, maintaining that it had put money into the pockets of the people, and proving this by facts and figures. For instance, it caused the employment of 7,000 additional hands in Hamilton alone, with the expenditure of millions there that would otherwise have been sent abroad. He gave a well-deserved castigation to Mr. McMahon, who had been employing the usual falsehoods of the opponents of the N. P. As to saying that farmers had not benefited by the N. P., he showed the absurdity of the assertion and instanced a tenant of his own who took \$1,200 yearly of 4 acres of land, by selling small products to the people working in the factories. At the same time cotton and other goods had been made cheaper. He well might be considered prejudiced in his support of the N. P., for as a miller he was discriminated against the duty being lower on flour than on the wheat that would produce it. As to the Streams Bill he thought it should not have been voted, but if Mr. McMahon had made valuable improvements he should be properly compensated. As to the License Act they had no trouble about it in his county, for he took care to have a Conservative appointed on the Board and they worked harmoniously. They had too much politics in the House, and had better unite more in measure for the good of the country.

Mr. McKAY set Mr. Phelps right as to some wild charges against the Dominion, and exposed the hypocrisy of Reform pretensions to purity in spite of their record in the courts. He too gave instances to show how the N. P. was benefiting the farmers, and said that the election just held in Kent showed what the country thought of it. He told amusingly how government employees had gone through the country promising creameries everywhere before the election. If Mr. Mowat had not so long refused to go to the Privy Council the boundary question might have been settled long ago. Mr. RAYBIRD principally occupied himself with attacks upon the Dominion.

Mr. Clancy moved the adjournment.

AGRICULTURAL SOCIETY.—From the report of the directors of the East Northumberland Agricultural Society we learn that its membership is now 139, and that there were \$497 paid in prizes at the last exhibition. The financial statement of the Society shows that from all sources, including a legislative grant of \$700, the total receipts were \$912.90. The amount paid in prizes, and the expenses needful footed up to \$901.95, and there is a balance in the Treasurer's hands of \$10.95.
HOORS OF THEM.—Last Friday morning's mail contained a tremendous amount of postal matter, as it was the accumulation of the four days previous during which there was no train service. Three large mail bags were stuffed to the top, and their contents included 300 letters for the general letter boxes, the registered letters. A very large mail also arrived from the west at night, and it was ascertained in no sleep manner. Mr. J. B. Ferris and Mr. N. Ingersoll, two expedition letter-carriers, received the bags, emptied their contents, distributed the mail, and had the lightest open dealing out to the multitude in twenty-two minutes.—*Herald.*

MADOC.

TILL TAPPING.—It would seem that some of our village boys, children they might almost be called, have a penchant for till tapping. It is not long ago that some two or three young lads from this village spent a term in the County Jail at Belleville for such operations, but this fact seems to be forgotten in the minds of others. A few days ago Mr. Jeff. Caverly missed money from his till, and having placed his suspicions on a young lad named Hollister, about 14 or 15 years of age, who, on being accused, owned up to the fact of having relieved the till on different occasions of between \$40 and \$50, the former amount was believed, being recovered this week after Chief Sills had taken him in hand. During the inquiry Hollister accused another lad named Heyworth of having stolen some \$10 or \$15 from Hollister's till, which amount Mr. Fred. Rollins had missed a week or two ago but could not account for his disappearance. We do not know if any punishment is to be dealt out to the young offenders, but it is a deplorable act that their inclinations seem to run in such a dangerous channel, in spite of parents' efforts to bring them up honestly.—*Review.*

TORONTO NOTES.

REBUILDING OF BRICK CHURCH.—It is decided to rebuild as soon as the weather would permit. A building committee was chosen, composed of the church session, the board of managers, and eight other members of the church. The committee was given full power to go on with the rebuilding, keeping up as close as possible to the original plans and not to expend more than the cost of the original building. A deputation of three members was appointed to lay the matter before the Presbytery.

STRAIGHT ENGINEER.—A meeting of the Board of Examiners for Certificate for Engineers is convened for Tuesday, 26th Feb., at the Custom House building, Toronto, at 10 o'clock, a.m.

KNOX CHURCH.—At the annual meeting the reports showed that the receipts for the ground rent amounted to \$1,220.80; expenditure, \$11,504.00; receipts, \$11,301.23; contributions, \$18,041.10.

A DONATION.—The sum of \$41.33 has been received at the mayor's office from the Congregational Church, Bowmanville, per Rev. W. H. Warner, in aid of the sufferers by the Hamber disaster.

BEST WOOD.

A piece of timber that has been seasoned, whether it is bent or not, has its stiffness increased. It is more brittle than it was before, and for some uses, it will not do as well; and yet there is a quality of timber that the seasoning process and the kiln-drying process affect very much the same; they both cook the grain in the timber and make it brittle and stiff. There is a grade or class of kiln-dried timber that is benefited by being seasoned or kiln-dried for use as spokes or whiffletrees. There is a kind of hickory that never becomes stiff by a natural process of drying, and one of the desirable qualities of a spoke, rim, or whiffletree is stiffness as well as strength; you take that hickory, and it is the very best we have, and steam it, and it is better suited for these purposes than it was before. It is difficult to tear apart a piece of bent wood; the fibres are interwoven one with the other, and when we come to split the stock open we find its character is entirely changed.

\$120,000 Stolen.—The New York police have been advised that an iron chest containing \$120,000 was stolen from the platform in front of the post office in Ruda Peth January 5th. It is surmised that the thieves have fled to this country.

Meeting of the Shareholders of the C. P. R.—A special general meeting of the shareholders of the Canada Pacific Railway Company is called for the 9th of February to ratify the new arrangements expected to be made by the Parliament of Canada.

The Higerous Measures in Vienna.—The Vienna *Fremdenblatt* says under the authority of the exceptional law the police have arrested many workmen and expelled others. Altogether 40 Socialists have been expelled and two newspapers suppressed.

Big Salvation Army Pow-wow.—The Salvation Army had a big pow-wow at London. Major Moore and his son, Jack Abbey, Bill Cooper, Capt. Huber, of Bridgport, N. Y., Capt. Hall, Toronto, Capt. Johnson, of New York, with others, were present to witness the presentation of a set of colours.

A Wealthy Prelate.—The Italian police are seeking the origin of the enormous fortune left by Mgr. di Cesare, who was lately assassinated. It has been discovered that he was a paymaster of the Neapolitan soldiers and brigands sent in 1860 and 1861 into the Kingdom of Italy by King Francis of Naples.

A Novel Weather Propher.—It is stated that it is the easiest thing in the world to foretell the weather by observing the common white pine, *Pinus Strobus*. If we are to expect rain or snow within a reasonably short space of time, the branches of the last two seasons' growth will be pendulous. If such weather be a long way off, the branches will be raised rather than drooping.

The Sudan Slave Trade.—Right Hon. George J. Goschen, Member of Parliament for Ripon, and formerly special ambassador to Turkey, in a speech at Ripon, said England cannot and dare not ignore the question of the slave trade in the Sudan, and must teach the Mussulmans that in any conflict with Christians the Mussulmans are certain to be defeated.

Situation of Tokar.—The commander at Tokar writes: "It would be impossible for our condition to be worse. The rebels have filled up all the wells outside the town, and the water inside is bad. The troops are suffering from diarrhea. There is great fear it will be necessary to surrender. We have only from ten to twenty rounds of ammunition left. There is considerable firing day and night."

Exchange Bank Affairs.—Mr. Jas. Fletcher, of Rigaud, has taken the first step by action in court for \$10,000, to make the ex-directors of the Exchange Bank hand him over the one hundred shares of the Merchant's Bank stock deposited by plaintiff, and upon which they have no lien or claim whatever, as he has paid off his loan to the bank. It is rumored that there are likely to be new and startling developments at the meeting of shareholders that will require explanations from parties who have not been publicly identified so far with the wreck of the bank or the misuse of its funds.

Bank Factory Destroyed.—St. John's, Que., Feb. 1.—About 11.45 last night a fire broke out in Brouseau & Morrin's bank, door, and blind factory, on St. James' street, which resulted in the total destruction of their building and the greater part of their stock. The force of the military training school, under command of Col. D'Orengren, great fear it will be necessary to surrender. We have only from ten to twenty rounds of ammunition left. There is considerable firing day and night. Loss about \$20,000; insurance only \$5,000.

Causes of Fires.—Friction of Machinery is one of the most common causes of fire, especially at night. The shaft belts from the centre, and the heat may increase and spread after the machinery has stopped. Rate are the most common and dangerous incendiaries; by dragging greasy rags or waste into their nests, where the requisite heat and dampness are constantly present to create combustion, and they are sure to make nests in cold weather near steam pipes. Lighting apparatus, sparks and defective chimneys, are frequently responsible for destructive conflagrations. Spontaneous combustion of bituminous coal screenings is very common. Electricity generated by belts, steam pipes, steam heating apparatus, and steam feeds in saw mills, are causes of fires.

Over Work, a Regular Work.—An exchange remarks:—The savans, who are always trying to find out why a water-wheel runs faster by night than it does by day, could make more money for all hands if they could tell us why it is that overwork costs more money—much more—than regular work. In default of their attacking this question, we will attempt a solution of the matter. The reason over-work—Sunday or night work—costs more than regular work, is that less of it is done in given time. The reason why less of it is done is that the men are tired from their day's work; their energies flag, and the stimulus of increased payment—generally double wages—does not supply the place of rest. Persons paying for their time are laying their while at a very high price.

Exciting Fire.—New York.—A fire broke out the other morning in a five-story apartment house of six avenues, and seized upon the only stairway and cut off escape to the street. The house had no fire escape, and the only other way out was through the windows or to the roof. A dozen occupants of the upper floors made a rush for the latter. Most of the fugitives escaped by jumping six feet to the roof of another house. The wife of the owner of the building, and her granddaughter were badly burned and may die. Two men were burned on the face and hands in their efforts to save her. The fire spread to a flat house adjoining, and caused a stampede of the families living there. The goods of the Abbotford hotel prepared for flight, but soon discovered they were not in danger. Loss, \$15,000.

Morrison's Acid Phosphate.—IN LIVER AND KIDNEY TROUBLES. Dr. G. O. Cline, Boston, says: "I have used it with the most remarkable success in dyspepsia, and derangement of the liver and kidneys."

JUDGMENT has been given refusing the application made to restrain the City Council of Montreal from ratifying the contract for lighting the city recently entered into with the old gas company at a higher price than would have been accepted by the new company.

Mrs. Edward Kendall, of West Sheffield, Mass. is a very pretty young woman. Wednesday morning, while she was Arabella King, she went out driving to get some flowers for her wedding in the evening. She was thrown out of the wagon and her collar bone broken, but she came to time for the evening ceremony.

THE use of False Hair by ladies is a most disagreeable practice. By the use of Clingless Hair Renewer the color of the hair is rendered natural and beautiful. Every lady should use it, and to gentlemen whose hair is growing thin it is a necessity. Sold by J. D. Tully.

In discussing the late matrimonial alliance between the museum skeleton and the crazy Philadelphia girl, an up-town lady was asked: "How would you like the idea of having a skeleton in the house as a husband?" "I would rather be in fashion," was the reply, "and instead of marrying one have the conventional articles in the closet."

"MARGERY," said Ethelbert, as they sat on opposite ends of the Turkish divan, "why am I like the letter Q?" and a silence fell broken only by the melodious cough of Margery, who, seated New England there. "Because, dear," added Ethelbert, "I feel that I am useless without you. 'I thought,' said Margery, 'it was because Q never begins—kissing.'"

MIDDLE AGED MEN, often lack vigor, this can be restored by that great brain and nerve food, known as Mack's Magnetic Medicine. Read the advertisement in another column of to-day's paper. Guarantees issued only by Ormond and Walsh.

MISS LUCY H. HONG, of Albion, Mich., was for seven years a missionary in China. Four years ago she came home for rest and recuperation. Three years of that time she has spent in the Medical Department of the University of Michigan in Ann Arbor. She graduated last June and in a few weeks sails for China, where she will act as a medical missionary at Chinkiang. The best wishes of all who are laboring and hoping for women will go with her.

A BARKER'S TESTIMONY.—For a Cough, Cold or any Bronchial affection, "Pectoral," in my opinion, is just the thing. I have used it in my family for Coughs and Colds for the past four years with the most unvaried success, and to-day my opinion of it is that I continue to think still more of that which I began thinking well of. Geo. KERR, Manager Ontario Bank, Welland. Price 25 cents, at all druggists.

Advice to Mothers.—Are you distressed and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. It will relieve the poor little sufferer immediately. Beware! Beware! There is no mistake about it. It cures colic, wind, and diarrhea, regulates the stomach and bowels, cures wind colic, soothes two weeks of inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

Our Canadian Industry is prosperous. The great difficulty to be contended with is the low grade of goods required. In nothing is this more apparent than in the comparatively small article of sewing machines. The great demand in Canada seems to be for a cheap quality, buyers forgetting that a cheap thread must necessarily be a fine and cheaply made one. Messrs. Belding, Fennell & Co. make three grades of good sewing machines. The cheapest is the poorest one they have for sale, at the same time they constantly have a quantity of good machines in stock. They will take the trouble to sell their machines, and if you own brand, and see that their name is on the end of each spool, they will be sure of getting the best made.

Daily Evening Review

MONDAY, FEBRUARY 4, 1884.

LOCAL NEWS

The Temperature.
The spirit in the Rev. V. Clement's thermometer fell last night to 5° below zero.

The T. V. C. Spectator.
A number of the gentlemen who were appointed on the Trent Valley Canal Deputation departed for Ottawa this morning. The remainder—the larger number—will start this evening.

Appointment.
Mr. G. M. Elliott, formerly in the staff of the Peterborough Review, and since of the Napanee Standard, has been appointed Collector of Customs at Napanee, and we beg to offer him our congratulations.

The Cells.
Five tramps and one prisoner lodged in the Police Cells on Saturday night, and on Sunday night the number was increased by one, a woman. Fear of the bankrupt pedestrians were from Port Hope.

Licence Commissioners.
The last issue of the Ontario Gazette contains the appointments of a number of Licence Commissioners. The Commissioners for East Peterborough are Messrs. James Drummond, William Makin, and William Darling.

Springless Truss and Supporter.
See Prof. Hotchkiss's springless truss and supporter advertisement in another column of this paper. Go and see him. He defies the hernia he cannot hold. Will be at the Casino House Feb. 27, 28 and 29.

Venno's Predictions.
The probabilities in Mr. H. G. Venno's Almanac for this week are as follows:—
"General cold change; a dip; much colder early portion of this week, up to the 6th, afterwards moderating. Latter portion of week milder, with occasional snow, sleet and rain falls. Indications of approach of soft weather."

At Half Price.
During this week woolen goods will be sold at half price at Messrs. Page Bros. bankrupt sale. This is an excellent opportunity to purchase this class of goods at exceedingly low figures. Everything must be sold at once, and they will be disposed of at advertised figures, so intending purchasers should call without delay.

The Probabilities.
The weather probabilities for this district for the following twenty-four hours, counting from one o'clock this morning, as reported from the Toronto Observatory, are as follows:—North-easterly to easterly winds; cloudy to fair weather, with light snow in some localities; no decided change in temperature.

Baltimore System.
Owing to the snow blockades on points between Baltimore and here, our Oystermen have been somewhat longer than usual getting through, but we have received a shipment of very choice Bulk Oysters, which we think will please our customers and those who may favor us with their patronage.
January, 24th, 1884. CARTON BROS.

The Grocer Appointed.
Mr. Henderson Nesbitt has been appointed grocer of the County Jail, vice Mr. J. McWilliams, who died on the 1st of October last. Mr. Nesbitt was chosen by Sheriff Hall for this post immediately after it became vacant, and on Friday last the Sheriff received a notification from the Government that the appointment was confirmed. Mr. Robert Ren, of Smith, has been appointed turnkey.

Counterfeit Money.
The proprietor of a grocery was victimized to a small extent on Saturday night. A young man, who made a small purchase, laid a twenty-five cent piece on the counter, and, having received his change, went out. As soon as he had departed the grocer discovered that the coin was not genuine, and he went to the door and called to the young man, who had joined a comrade, but they did not heed his call and disappeared around a corner. The counterfeit was dated 1883. Another grocer had two counterfeit twenty-five cent pieces passed on him the same night. Watch for them.

Wm. Row & Co's
Celebrated Indian Pale Ale on draught at The Little Windsor Hotel. Try it.

POLICE COURT.

DRUNK AND DISORDERLY.

Monday, Feb. 4.—George Clark was charged with having been drunk and disorderly on Saturday. He acknowledged the truthfulness of the charge and said the liquor had been given him. The Magistrate remarked that when the liquor was given to him it could not be worth much, and advised him not to partake so freely of such gifts, for if he appeared in this Court again he would be severely punished. He was allowed to go.

Another Treat.

We understand that it is the intention of Mr. Chas. Ewing to give another organ recital in St. John's Church at no very distant date, when the music rendered will be entirely new—altogether different from that furnished at the last recital. The solo singers in the choir are improving steadily, and will appear to much better advantage when the next recital takes place. On Sunday the choir rendered some really good music, the solo in the anthem hymn by Miss Clara Clouston being especially well sung.

Personal.

The Ontario gives a list of the ladies who attended a fashionable ball at Belleville, with a description of their toilets. Among those present was Mrs. Alexander, of Peterborough, whose dress was described as being of Gray Cardinal Silk, point lace trimming; ornaments, diamonds.

Miss Eliza Johnston, a teacher in the Central School, departed this morning for Ottawa to attend the Normal school in that city. Her many friends and the members of the Reading Social circle, of which she is a member, unite in wishing that success may be hers.

The Late Mr. W. G. Thomson.
The sudden death, announced a few days ago, of Mr. W. G. Thomson, who from his long connection as a dry goods merchant of Peterborough, was well and favorably known by a large circle of friends. Mr. Thomson's illness, which took place at Lindsay on the 15th of January, terminated fatally on the 18th, of paralysis. Deceased, who was born at the old Mill of Forrester, Aberdeenshire, was left an orphan at the age of 10 years. His mother died when he was very young, and his father, who died in 1845, was only 48 years of age, and was entered as an apprentice with the firm of Messrs. White & Hutchins, clothiers and haberdashers, and was with them for 7 years, and in 1856 was engaged by the late Mr. Heron, of Glasgow, to come out to Peterborough to enter the employ of Nicholls & Hall general merchants, and remained in their employ over 8 years, when he commenced business on his own account in 1864, and in 1879 he succumbed to the bad times and made an assignment for the benefit of all his creditors. Mr. Thomson who was thought by some to be too honest when he failed not keeping a dollar for himself, was shamefully treated by two of those of his large creditors. Mr. Thomson took all this very much to heart at the time; he tried business in medicine for a short time but competition being too great he gave it up, and entered the employ of Messrs. Fairweather & Co. Mr. William Fairweather, a member of the firm, was an old shopmate of his in Aberdeen. He remained in their employ twelve months, when he removed to Lindsay and entered the service of Needler & Sadler millers, as office manager. For the short time he was in their employ he filled the post to the complete satisfaction of his employers, up to the very day he took sick. The deceased, who had nearly attained his 49th year, was a man of estimable character, liberal, kind and generous, a good Christian, and was held in great respect by all whom he came in contact with. In politics he was a zealous worker in the Reform cause. His widow, who resides in Lindsay, survives him, never having had any children.

ANOTHER RAILWAY ACCIDENT.

One Freight Train Derails into Another at Port Hope—Scarful Leap for Life.

At two o'clock on Sunday morning a freight train (No. 16), was standing on the Viaduct, Port Hope, awaiting orders to proceed. The train hands apparently had a long spell of work and were drowsy with fatigue. To this source must be traced the fact that the train had no rear light and that the signals were not attended to as promptly as might have been. At all events another freight came unperceived along the viaduct and dashed into the caboose of the stationary train. The engineer Martin Sheehan of the oncoming freight did not notice No. 16 until he was close upon it. He at once reversed his engine, and calling to his fireman to jump for his life, sprang out into the darkness. The fireman struck the bridge and escaped with only a few bruises. The engineer, however, was not so fortunate. His spring carried him out over the side of the bridge, and down he went to the road beneath, a distance of between forty and fifty feet. In his fall he struck the telegraph wires, and to this he attributes not being instantly killed. Fortunately for the occupants of the caboose, the approaching freight train had dimmed its speed, as it customary in traversing the viaduct. As it was, the caboose was completely wrecked, and the engine had its pilot and other parts considerably wrecked. The train hands say it is a miracle that those in the caboose escaped with their lives. Had the accident happened at any other station the train would have been going at a greater speed, and would have ripped the caboose from end to end, and probably the next couple of cars ahead of it. It is feared that Sheehan has sustained internal injuries that may prove fatal. The express from the east was delayed nearly six hours through the accident. Engineer Sheehan, who belongs to Belleville, notwithstanding his fearful jump, managed to be the first to get to the station with the news of the accident, and assistance was telegraphed for to Cobourg and Belleville.

A Poisonous Weed.

The attention of the Connecticut State Board of Health has been called to alleged poisonous properties of a weed from Panama called Cokobola which is largely used in the arts at Bridgeport, Conn. It is said to poison somewhat after the manner of sumac, and to attack everybody who comes in contact with it.

Changed Hands.

The North store Pastry and Confectionary Business which has been so successfully carried on by Carlton Bros. for over two years has been purchased by Mr. William Ruth, a thorough practical man, and who has been foreman for Carlton for some time past. The business will be carried on the same as before, and as Mr. Ruth is well known, and has given every satisfaction to the customers of the store he will no doubt continue to receive a large share of the patronage of Peterborough.

A Life Saving Present.

Mr. M. E. Allison, Hutchinson, Kan.: Saved his wife by a simple Trial Bottle of Dr. King's New Discovery for Consumption, which cured him to procure a large bottle that completely cured him, when Doctors, change of climate and everything else had failed. Asthma, Bronchitis, Hoarseness, Severe Coughs, and all Throat and Lung diseases, it is guaranteed to cure. Trial Bottles free at Taylor & Macdonald's Drug Store. Large size \$1.00.

A WOMAN will forgive anything in the man she loves except lifting his hat too politely to another woman.

"Mab" Cough Cure, 25 Cents.
Prescription of a Boston physician, dispensed years by a Boston Druggist. One dose will cure any ordinary cough. It acts almost magically. Ask J. D. Tully for a 25 cent bottle of Mab Cough Cure.

At this season of the year there should be a bottle of Pectoria in every house. It is unequalled for Coughs, Colds, and Hoarseness, is pleasant, equally safe for children. Price 25 cents in all drug stores.

Am! We get up feeling badly, didn't rest good, don't want breakfast, no appetite, no energy, bad taste and br. ath, guess we are Bilious. Two doses of Pectoria will bring us back to our ambition, and set us right. Ask J. D. Tully.

SINGERS and public speakers are always benefited by using Down's Balm, as it removes the hoarseness and increases the power of the voice. Take a small dose often. Price, 25c, 50c, and \$1.00.

MRS. ELIZABETH MASON—Dr. M. Scoville & Co., Gentlemen.—Yours of last week, to hand, and reply to your inquiry I have much pleasure in stating that from the first time of using the Pectoria and the medicine I have improved very much. The bronchitis has entirely left me. I sleep well and have a good appetite. I must also add, that coming to you as I did last resort, the cure effected has been wonderful. Gratefully yours,
Mrs. E. Mason.

ADVICE.

The present winter promises to be a memorable one.

Intense cold is predicted, with increased snow areas over the Little Lake region, and possibly ice on English's Creek.

It behooves the people of this town and district to be prepared.

The average Christian, when finding his nose and limbs freezing, pounds them against each other and swears.

Then he hies off to the coal stove and roasts.

This only affords temporary relief and is bad.

The true remedy lies in WARM AND SUFFICIENT CLOTHING.

Better spend a few dollars in clothing, prevent a cold, and cheat the doctor.

CLOTHING—small enough for man or boy—large enough for the Canadian Pacific syndicate.

LINDSAY—Benson House, Feb. 25 & 26.
PETERBOROUGH—Calves House, Feb.
27th, 28th and 29th.

Prof. Hotchkiss's treatment is practical, rational and
economical. His object is immediate relief and eventual
cure. It is based on scientific principles and
easily demonstrated to the comprehension of every in-
telligent person, that a truss without steel springs or
hard substance, having sealed inguinal and Umbilical
as well as Vorticose, at the advanced ages respectively
of from 45 and 55 years, must and will stand the test
of all Spring Trusses to children as well as adults.
Prof. H. having had 30 years' experience has become
master of his profession, and DEFIES the Hernia he
cannot hold in the place.

TUESDAY, FEBRUARY 5, 1884.

VAIN TO DENY.

We observe that many of the Reform
speakers in the Legislative Assembly are hav-
ing the effrontery to deny that the Ontario
officials interfered unfairly in the last general
election for the Province. They would refuse
to believe any assertions to the contrary how-
ever well-founded, but they can hardly ignore
the decision of a law court. Apjohn, an On-
tario official, has been condemned to pay \$1,000
or to go to gaol for his misdeed, so it would be
bold indeed to maintain his innocence. And
this is only a specimen, though perhaps an un-
usually bad one.

THE REACTION.

The Reformers, because they have won one
seat and have held others by means which have
yet to stand the test of the courts, have been
boasting of a supposed reaction against the
Conservative Government of the Dominion.
There have just been two elections for the
House of Commons, so if the reaction really
existed we might expect to see signs of it in
these constituencies. But what do the facts show? In
West Kent, Ontario, the majority for the con-
servative candidate has been nearly doubled. In
York, New Brunswick, a majority for the
Reform candidate at the last election of over
nine hundred has been converted into a majority
of over one hundred for the Conservative can-
didate at this election, a change of over a thou-
sand in our favour, which is a strange sort of
reaction. The gain of this seat places the
balance of the results of the by-elections in
favour of the Macdonald Administration. From
one end of the Dominion, to the other, grow-
ing in popularity.

GEORGIAN BAY PORTS

The abandonment by the Syndicate of their
plan of erecting an elevator at Algoma Mills,
is announced, and simultaneously comes the
report that Owen Sound is to be their base of
operations, where they have already commenced
the erection of a large elevator. This being the
case the question of competition between the
Grand Trunk and the Syndicate for the carry-
ing trade to the Atlantic coast, eastern Canada
and the eastern States is definitely settled as
to the respective lake ports of their rival lines,
and from this out the fight will be between
Midland and Owen Sound with it, it is to be
hoped, good results to both places. The North-
ern line, we notice, is likely to remain inde-
pendent, and as a necessary consequence, so
far as shipping business goes, Collingwood
must suffer. With lively competition between
these two great rival corporations, cutting of
rates must follow, and in such competition
every extra mile of carriage will count as in-
creasing or decreasing rates. With regard to
the carrying trade from Chicago, Midland has a
most decided advantage over Owen Sound, as a
glimpse at the map will show. In so far as the
water carriage goes, the distance between Chi-
go and Owen Sound is a mere trifle, while it
is hard to say which has the advantage, but
in the railway carriage, Midland's advantage is
most strikingly apparent. By the Syndicate
grain must be carried from Owen Sound to
Toronto and then east to Montreal, while by
the Trunk it will be carried from here to Bel-
leville and then east, the distance from Owen
Sound to Toronto and Midland to Belleville
being nearly equal. From this comparison it is
clearly deductible that to carry at correspond-
ingly low rates with the Trunk the Syndicate
must carry the distance between Bel-
leville and Toronto, or about 100 miles, for
nothing. This will also apply to the carrying
of Manitoba and North-west grain to the
Atlantic seaboard and the eastern States. The
Northern being independent, and not control-
ling or being controlled by any line east from
Toronto, we must bid adieu to Collingwood as a
first, and new tender the residents of that out-
while crowding burgh our sympathy at their mis-
fortune. With our harbour admittedly the
finest on the lake, we are bound to court and
successful woo the lake trade of the north.—

Heavy Colliery Failure.

LONDON, Feb. 2.—A new colliery company
which recently commenced business under the
name of the North Staffordshire Coal & Iron
Co., (Limited), has suspended payment with
liabilities of over £1,000,000. Their responsi-
bilities 1,300 men out of employment. The daily
output of the company's collieries has averaged
1,000 tons.

FOREST LAND.

The Value of Retaining a Portion of the
Land in Forest—Suggested Legislation.

Forest land perpetually sends upwards, in
spring and summer, from leaf and soil, vast
columns of vapor, which added to by condensa-
tion from the atmosphere, fall again in showers.
This moisture it obtains by the sponge-like
formation of its bed, which does not, like a field,
allow the water to run away over its surface, or
just under it, but holds great quantities to part
with them steadily to the clouds above, and to
the invisible water-courses beneath the soil,
from whence springs arise and waters are fed.
To preserve water courses and also to maintain
fertility it is necessary to keep some wooded
land, and to preserve it in a condition to yield
benefits. This can be done in Ontario by the
simple means of excluding cattle, when
three things would follow:—The young under-
growth, keeping grass out, will cover and pre-
serve the forest soil in good condition. Fresh
trees will be ready to replace the present. A
growth will arise that will not blow down.
We have still throughout the province a por-
tion of woodland on most farms; on many, it is
true a small, but on many a large, portion. It is
now, while we yet have such, that it is time to
act and to save the vast expense of replanting
by using that which will replace itself, and
grow for us without labor, and much quicker,
trees fitter for our purpose than any we could,
though with great labor and long time, repro-
duce when the forest is gone.

What is to be noticed as a most important
point is that these present woodlands naturally
have the water holes, as they are called, being
very often springs, to which cattle resort to
drink. For this purpose the forest is left open
to them, and they destroy the young trees, and
white off the first shoots that spring from the
self-sown seeds. An ox will press down a sap-
ling twenty feet high, till he gets the top near
enough to bite off the leaves and young branches.
But, if cattle were excluded from part of the
forest, and the path to the spring fenced, that
spring, fed by the protected wood, will yield
quadruple the supply of water. On the other
hand, wherever cattle are allowed to range the
forest will be reduced to bare of
undergrowth that the springs will, with the
gradual drying up of the country, cease to
flow. This has already happened in very many
cases.

The forest, protected, will soon grow up
everywhere with clumps and bunches of young
trees. These will not necessarily need thinning;
the strongest will grow to tall trees, the others
not. Yet here will be an excellent chance to
get what trees you want for use here will be
left, and a few strokes of your knife will
leave the clump all maple, elm, hickory, or
what else you prefer. If the white oak—our
best and now our scarcest timber—be not there,
plant some of the seedlings. What has happened
in reproduction is the waste. That animal evi-
dently swore at Highgate.

"Never to eat the red oak acorn,
When he could get the white,
Unless he liked the red the best."

and not liking the red, where once he sets his
cloven hoof no white oak springs up. But most
of the rest will be with you.
The portions of woodland yet left in settled
Ontario are most of them in situations materi-
ally to benefit the great source of fertility—the
water courses. If we dry up a land, the expe-
rience of all ages tells us we impoverish it. Here
we have left often along the course of streams,
often on heights, many blocks of forest. But
one after another these are going. Some often
get that portion of land—they must clear it or
have no farm. In this situation only one plan
has yet been offered. It is that if a proprietor
chooses to reserve for his own use a block of
a few acres, five, ten, or fifteen, the assessor can
say to him, "as long as you fence that portion,
keep cattle out, and it is in good forest condi-
tion, it shall be free of township taxes; but if
you should wish the land for any other purpose,
in payment of the back taxes remitted you can
do as you choose with it."

It is very plain what the result of this would
be. Many farmers aware of the advantages of
a continuous supply of timber, would readily
enough agree to fence a piece and keep it in
forest. In a few years wood will be far more
scarce than at present; these reservations will
be, by that time, in a thoroughly growing,
healthy, and reproductive condition, they will
every year be able to take more or less full-
grown trees from it, and it will be recognized as
a valuable adjunct to the farm that no one will
think of cutting it down.

It will be noticed also that the legislation
suggested will be merely permissive. If a far-
mer wish to allow his cattle the range of all his
bushes has left, no one will interfere with him;
he simply will not apply. Those who have the
wish to spare will do so. The result would
probably be, even if only one farmer in two, or
three found himself in a position to avail him-
self of the arrangement, that all over the settled
portion of Ontario we should have these small
reservations, which would number many thou-
sands, a collection, each where it stood, of beau-
tiful young undergrowth, handsome, half-
matured trees, and stately old ones. Each of

HOUSEHOLD HINTS

Cranberry jelly mixed with cold water makes a refreshing drink for a sick person.

A well beaten egg is a great addition to a dried apple pie, giving lightness and a good flavor also.

A bunch of peacock feathers, tied with a ribbon, makes a pretty ornament to hide a bad spot on the parlour wall.

A little whitening applied to white paint when washing it will cleanse it quickly, and take the yellow tint away.

A little borax put in the water in which scarlet napkins and red-bordered towels are to be washed will prevent them from fading.

Dishes, to shine brightly, should be washed first in suds and then dipped in clear hot water and left to drain. They require little or no drying.

If the boys' shoes are stiff from having been wet, rub them at night with a little ointment oil. This will soften them and make them comfortable again.

Flannels should not be washed very often. Change the garments frequently, and air them taken off in the open air and sun. Unless they are really soiled do not wash them.

When beating a turkey take a clean stick and tie a cloth on the end, and wet this in the gravy or dripping with which it is to be beaten; you can go over each part more satisfactorily than with a spoon.

One way to prepare onion flavoring for a vegetable soup is to take a large onion, remove the outer skin, then stick a knife into the onion, and bake it until it is nicely browned. The peculiar flavor thus gained is relished by the epicure.

One of the wisest precautions to take when you are baking is to have the oven perfectly clean, and yet is one that is often neglected, and many an otherwise faultless dish has been spoiled by the sifting of ashes from the upper grate in the oven.

Making shortbread.—Take one pound flour, half-pound best powdered butter, quarter-pound soft sugar. Put the butter and sugar into a basin, and work both well together before the fire with the one hand, whilst with the other the flour is gradually added. When about one half the flour has been absorbed in this manner take the dough to the table and work in the rest of the flour. This is a shortbread recipe, and is a good one, as the dough is apt to fall in pieces. As a rule it should take nearly half an hour before all the flour is worked in. Knead out a round cake, or cut to any desired shape, and if liked, place slices of orange peel or confections on the top. It would perhaps be as well then to send it to the baker, who will fire it for a trifle.

The True Nature of a Cold.

Years of study and observation have forced me to the conclusion that the disease which manifests the symptoms popularly supposed to indicate that a cold has been caught is to all intents and purposes a fifth disease arising largely from indigestion, and forms the basis, so to say or is in fact the first stage of all the so-called fifth diseases. Whatever interferes with digestion or depuration, or depraves the vital organism in any manner, produces an impure condition of the body—a condition of disease; and a continuance of disease-producing habits must inevitably result in periodical or occasional "eruptions," the severity of which will depend upon the degree of the transgression. Among the causes of this impure bodily condition are (1) impure food, (2) excess in diet, and (3) impure air. Our homes, offices, shops, halls, coat-houses, churches, and, with rare exceptions, all living rooms, private or public, are insufficiently or not at all ventilated; and, except while in the open air, a very large proportion of our people, in all the walks of life, habitually breathe an atmosphere vitiated by being breathed over and over again; they are starving for want of oxygen, and are being poisoned by carbonic acid. In default of sufficient oxygen the best of food can not be transformed into pure blood—there will always be a corresponding indigestion; nor can the carbonic acid be eliminated freely in an impure atmosphere. We have, then, one interference with digestion and depuration, when ever we remain even for a single hour of the twenty-four in an indoor atmosphere, i.e., an atmosphere that is not tolerably free communication with the great body of air without. The only offset for restriction in oxygen is restriction in diet and exercise; but a combination of this character would produce enfeeblement of the system, though if a proper balance were maintained there would arise no such evils such as we are considering. Plenty of people living in unventilated rooms, who, so far as exercise is concerned, live a well balanced life, yet seldom do these, any more than the robust and active, practice any sort of voluntary restriction as to quality or quantity of food—nausea and lack of appetite being the only safeguards. Persons of this class are great sufferers from colds—From Coughing Colds," by Dr. C. E. Page in Popular Science Monthly.

Berlin Society.

The following is a paragraph from the articles on Berlin Society lately published in the *New York Review*. They created a wonderful stir and irritated excessively the German press.

The Berlin correspondent of the *London Times* has described them as "severe and meretricious, but sparkling and piquant. Drawn with a dark, but clever pencil, and too sarcastic not to be a success."

"Gallantry is unknown. A Lussan or a Richelieu would be impossible. Everything is carried on vulgarly, without poetry or gracefulness, without that half-serious, half-hypocritical preoccupation which in other countries is at least a homage rendered to virtue. But the people of this society, so unscrupulous in their own manners, are very severe on the morals of others. One half of Berlin may be said to pass their lives spying on the other half. As regards intellect, no attempt is made to cultivate it. The Berlin lady of the upper classes does not read, or work, or have any occupation. Her life is spent in chattering, dressing and undressing. She is ill-bred, tactless, noisy, and perfectly ignorant of what is going on in the world. Alongside her is the woman of the house, who, however, is too respectable to be described, and who, like happy people, has no history. As regards the men they excel the women in gossip, and when young they only thought of food. Yet Berlin society, in spite of its vice, is certainly to observe. One can admire in it a certain pride, not lacking power, in a victorious people. The Germans disdain other peoples, and accuse them of all the defects they possess themselves. That a race is of easy morals is their most frequent accusation. You see this accusation may be turned against themselves. If they have not the light-heartedness of Frenchmen it is, perhaps, because their mental equipment is still smaller."

IN LIVER AND KIDNEY TROUBLES.

Dr. G. O. Cully, Boston, says: "I have used it with the most remarkable success in dyspepsia, and derangement of the liver and kidneys."

An Electric Gun.

One of the most interesting novelties at the Vienna international exhibition was an electric gun. The powder is fired by means of a piece of platinum in the cartridge, and the electric current necessary for heating the platinum is obtained from a little accumulator, which must be worn in a belt specially devised for the purpose. Besides the accumulator and the belt, a glove and a shoulder strap are necessary. The glove is worn on the left hand, and is connected with one pole of the accumulator, the strap with the other. All this would, it must be confessed, be a rather formidable addition to a soldier's accoutrements, and one is hardly surprised to hear that the inventor does not expect their patent to be immediately adopted in all the European armies. Meanwhile they point out that the electric gun affords several advantages, besides the charm of novelty, which ought to commend it to the sportsman. In the first place it is said to be very economical; and what new application of electricity is ever said to be anything else—at first? There is no great saving in the gun or the cartridges, but only a quarter of the ordinary charge of powder is necessary. Moreover, the gun is economical of time and trouble. The cartridges serve many times over, and there is none of the sacking of the old caps. But the crowning merit which is claimed for the electric gun is that it is warranted never to kick. If this warranty be really true, the application of electricity to sport ought not to be long delayed.

Keshub Chunder Sen.

Keshub Chunder Sen, head of the Brahmo-Soma, or reformed theistic sect of Hindoos, who died early in January was the most active and distinguished leader in the New Theistic Church, founded about 1830 by the late Rajah Rammohun Roy, a reforming sect composed of highly intellectual men. Their religion they regarded as a pure theism, which recognized the absolute unity and spirituality of God, the abolition of caste, and the education and elevation of woman. In the course of a very few years Brahmoism passed through three different stages. In the first it had for its foundation a "Vedic testimony" tempered by reason; in the second reason and philosophy, and about 1870 it was supposed to stand on intuition guided by reason. The progressive Brahmo followers, of whom Keshub Chunder Sen was the chief, have gone through all these changes. He tried, with considerable success, and in the face of much opposition, as early as 1855 to carry out in practice various reforms. He had the boldness to countenance to an unusual extent what might be called Revivalist practices and the outward display of religious emotions. The result was a division of opinion and ultimate separation between the disciples of Keshub Chunder Sen and the more Conservative followers of Rammohun Roy. Keshub Chunder Sen was an accomplished English scholar. He visited England some years ago, when he preached in several Unitarian chapels.

It Made a Difference.

Thirty-five years ago employed by the Government in hewing timber in vast oak forests of Maine, was a company of men at work, among them being Pat McGlarkin and a Jimmy Magee, both fast friends. Jimmy took a fever, and Pat learning that his friend was given up by the doctors, paid him a visiting visit to hear his last words before shutting off this mortal coil, when the following colloquy ensued:

Pat—"Well, Jimmy, I understand the doctors have given you up."

Jim—"Yes, Pat, it is most over with me."

Pat (after a pause)—"Well, you've not been a great sinner; you'll go to the good place."

Jim—"Oh, yes, Pat. To be sure I stole a bit of the Government timber."

Pat (taking Jimmy's hand and assuming a diplomatic air)—"Well, farewell to you. When you reaches the good place tell them you are well acquainted with Pat McGlarkin."

But, Jimmy, if anything happens to you that you should go to the other place, just tell that you don't know devil a word about me."

Preaching and Practical.

"The tobacco habit," wrote the editor, while the entered apprentice stood by the sanctum desk waiting for copy, "the tobacco habit is an evil that the press of the country should bring its united power against. It is an insidious foe to health. It lessens mental vigor, weakens the nervous system, and destroys the vital forces of the digestive organs. The rapid increase of this habit, ruinous to body and mind and taxing to our purses, is enough, indeed, to fill the minds of the deep thinkers of our age with the darkest forebodings for the future of the Nation."

And then the editor handed the copy to the entered apprentice, filled his veteran briarwood with "Old Virginia," and scraped a red-headed match upon the wall; and as the blue smoke curled upward in graceful wreaths that formed a halo around the editor's head, he leaned back in his easy chair, closed his eyes and wondered what, in the course of human events, he should write about next.

Old Age and the Medical Profession.

The longevity of medical men is well illustrated by some figures in the *London Lancet*. The past year has witnessed the death of thirty-five more or less eminent members of the profession of whom two were ninety-five years of age, two ninety-four, two ninety-two, one ninety-one, two ninety, one eighty-nine, three eighty-eight, three eighty-seven, five eighty-six, two eighty-five, three eighty-four, four eighty-three, one eighty-two, and four eighty. The two seniors in this list began their careers as army surgeons, and served in the Spanish and Belgian wars.

Black Walnut Culture.

It is a matter of surprise to many, that places and sections of country which are entirely unfit for agricultural purposes, are not utilized for tree culture. The black walnut, for instance produces a butt fourteen inches in diameter in as many years; it requires no particular attention, making the neglect tree and offers a desirable shade. No tree valuable for its timber in cabinet uses, will attain anything like the above dimensions in the same length of time, the only exception to this is the black birch.

A Small Steam Engine.

A remarkable small steam engine was exhibited at the Vienna Electrical Exhibition by Mr. Whitehead of torpedo fame. The whole thing was only about 5 inches high by 10 inches in diameter; it was able to work with 2½ to 3 horse power and gave motion to dynamo for the production of 25 incandescent lights of 16 candle power each. The whole apparatus, steam engine, boiler and electrical machine can be packed in a box 40 inches long, 26 inches wide and 13 inches high.

A Carpenters Trick.

It is interesting, and it may be instructive to some, to learn that certain kinds of wood, although of great durability in themselves, act upon each other in such a way as to produce mutual destruction. Experiments with cypress and walnut, and cypress and cedar prove that they will rot each other while joined together, but on separation the rot will cease, and the timber remain perfectly sound for a long period.

IN DIXIE'S LAND.—J. Kennedy, dealer in drugs, etc., Dixie, Ontario, recommends Haggard's Pectoral Balsam to his customers, it having cured his wife of a bad cough. It is the safest and surest remedy for all Throat and Lung Troubles, such as Asthma, Bronchitis, Whooping Cough and most pulmonary complaints.

CURE FOR CHILBLAINS.—Bathe the feet for ten or fifteen minutes in water as hot as can be borne; then apply Haggard's Yellow Oil, and a cure is certain. Yellow Oil cures Rheumatism, Neuralgia, Deafness, Lamebacks, and pain generally, and internally cures Colds, Sore Throat, Croup, Asthma, and many painful affections.

JOHN R. VEET, Hamilton, says: "McGregor's Speedy Cure for Dyspepsia and Indigestion is cheap fifty times the price asked for it. Free trial bottles at John McKee's Drug Store. Regular size fifty cents and one dollar.

A BANKER'S TESTIMONY.—For a Cough, Cold or any Bronchial affection, "Pectoral," in my opinion, is just the thing. I have used it in my family for Coughs and Colds for the past four years with the most unvaried success, and today my opinion of it is that I continue to think still more of that which I began thinking well of. is prosperous. The great difficulty to be possessed with is the low grade of goods required. In nothing is this more apparent than in the comparatively small article of sewing silk. The great demand in Canada seems to be for cheap quality, buyers forgetting that a cheap thread must necessarily be a fine and consequently a weak one. Messrs. Belding, Paul & Co. sell three grades of spool silk; of these different qualities the poorest one had by far the largest sale, at the same time they are doing a large business in the best quality. If you will take the trouble to ask for Belding's Sewing Silk, you will find that it is the best. If you have a cough we earnestly ask you to try it. Price 10c. 50c. and \$1.00. THE ALGOMA CONSPIRACY.

lowed to escape. Following up the proceed-
ings against Messrs. Apjohn and Pades, writs

THE C.P.R. LOAN.

A GREAT outcry is being raised by the *Globe*
and its friends at the very idea of the favorable
reception of the application of the Canadian
Pacific Railway Company for further assistance
in the shape of advances of money to the extent
of over twenty million dollars. Of course the
loan of such a large sum of money, even on
good security, is a serious matter, and it is
evident that the country has to thank the *Globe*
and its echoes, Mr. Blake and his supporters,
for the necessity that is placed upon us of so
doing, if we would see the work continued at
its present rapid rate. The C.P.R. has influ-
ential rivals, which have great influence in the
money markets of London and New York. The
leading Refr. journal has just now published
with delighted eagerness a telegram from Lon-
don showing what hostility the opponents of
the C.P.R. are displaying there. But all this
hostility, whether in London or in New York,
will have been unavailing but for the un-
patriotic assistance of the *Globe* and its friends.
The rivals and enemies of our great national
highway would have been comparatively power-
less if they had not been able to quote Cana-
dian journals and Canadian statesmen, as be-
littling and opposing our Canadian road, our
Canadian country and our Canadian policy.
With such quotations ready to their hands
and freely used, the opponents of the C.P.R.
were able to scare timid capitalists by the
picture of a house divided against itself, of a
company which had its worst enemies at home.
This prevented the C.P.R. from availing itself
of its resources without a ruinous sacrifice. It
was hoped that a Canadian Government guar-
antee would reassure capital and give the C.
P.R. securities their proper value in the great
money markets. The benefit of their assistance
was, however, counteracted by the miserable
want of patriotism of the *Globe*, and its allies,
which were determined that the construction
of our great inter-oceanic road should not pro-
gress if they could prevent it by any expendi-
ture of misrepresentation and rancorous hos-
tility. Carrying out their old policy by which
they have so long delayed this great work, that
the hated Conservatives should not have the
credit of such a benefit to Canada they re-
doubled their slanders, and were unfortunately
too successful. Hence arises the necessity for
further assistance to the C.P.R.

The point to be determined is whether it is
for the benefit of the country to secure the
completion of the road from ocean to ocean
within two years, even if it do so we have to
make this loan. Of course we can refuse the
accommodation, and then the Company would
naturally refuse to sacrifice its property by forced
sales at low rates, and proceeding slowly
would take the full time allowed to it by its
contract. As far as our information goes it
seems that a loan even of the proposed amount
would be a small sacrifice to make for the ear-
lier completion of the road, and it also seems as
if the security for repayment is ample. Of
course we will have further light upon both
these, both after the Ministerial explanations
and the debate that will probably follow.
There is one point that perhaps needs a little
clearing up. A great part of our security con-
sists in the value of those portions of the road
already constructed or purchased by the Com-
pany, and it is represented that they have ex-
pended upon it considerably over thirty mil-
lions of their own money, besides that which
they have received as a bonus. The opponents
of the road claim that this amount has been
swallowed by payments to the
the Construction Company of amounts in excess
of the proper cost of the work, the value of
which as a security is therefore over estimated.

If this point is satisfactorily explained, we can
see no other objection sufficiently grave to cause
the refusal of the assistance asked. The asser-
tion that the advance would be not a loan but
really a gift is evidently one of the falsehoods
which are the usual weapons of the Reform
Party in opposing the C. P. R., for it is pro-
vided that any default in payment shall cause the
whole property of the company at once to rest
in the Dominion, and nothing but a repealing
act of the Canadian Parliament could deprive
us of it and restore it to the C. P. R.

No doubt with proper safeguards the required
assistance will be granted, but it should not be
forgotten that the necessity for giving it has
been forced upon us by the unpatriotic and
reckless hostility of the Reform party, which
acts upon the principle that the more it can
make the country suffer and the more it can
thwart our progress, the greater is the hope
that discontents may lead to a change of gov-
ernment.

NORTH-WEST NEWS.

C.P.R. MECHANICS.—There are 600 mechanics
employed in the C.P.R. shops in Winnipeg.
The pay roll is over \$45,000 per month. Last
year over \$5,000,000 worth of goods passed
through the company's storehouse here.

RAT PORTAGE POLICE.—Police matters at
Rat Portage are very quiet at present. The
Manitoba force has been reduced to two men,
while the Ontario party is still keeping on a
large number. If the money arrives in time to
pay them off before the beginning of another
month it is probable that a number will be dis-
charged, but if not they will, it is said, be re-
tained another month.

N. P. JUNCTION RAILWAY.—The Northern
Pacific Junction R.R. Co. will apply at the
coming session of the Legislature for an Act
amending the Act of Incorporation by changing
its name to "The Manitoba and Hudson's Bay
Railway," and for amendments by enlarging
the powers of the company to issue bonds and
amalgamate with other companies. The point
of commencement is to be changed to Winni-
peg.

CHINOOK WINDS.—The Winnipeg *Times* of
Feb. 4 says:—The biggest storm of the season
set in yesterday afternoon in the neighbor-
hood of Moose Jaw and Regina. All trains
were ordered to stop running west of Broadview
until the storm had abated. Chinook winds set
in at Calgary and other places. At
Gleichen, near the end of the track, the ther-
mometer stood at 48° above, and at Calgary
40° above. Swift Current, 28° above; Medicine
Hat, clear, strong, chinook wind. This is the
first time trains have been stopped running
on account of storms on the line this winter.

"REGINA'S RIGHTS."—Mayor Scott, of Regi-
na, and Mr. Davin, of the *Leader* of that city,
have been sent to Ottawa to "secure Regina's
Rights," whatever they may be, and to urge the
Government to give the Territories representa-
tion in Parliament. It is to be hoped they will
succeed. There are more taxpayers in the Ter-
ritories than in Prince Edward Island, and
their tribute per capita to the Federal Treasury
is at least seven times larger than that paid by
the frugal Islanders, who are represented in the
Commons by six members and in the Senate by
four.

RUPON'S RAT SCHEME.—At the preliminary
meeting for the purpose of organizing and draft-
ing resolutions to be submitted at the meeting
to be held to discuss the Hudson's Bay Rail-
road following were among the resolutions
adopted to be submitted to the meeting:—
That this meeting hereby expresses its sym-
pathy towards the building of a railway to some
point on the Hudson's Bay and regard the
early construction of the same as essential to
the development of and in the best interest of
Manitoba and the Northwest.
That no encouragement and support should be
given to any line of railway to Hudson's Bay
unless the same be controlled by the Govern-
ment of Manitoba in such a way as to prevent
the road from falling into the hands of any other
railroad company or other corporation.

Critical State of Vienna.

VIENNA, Feb. 4.—Since the resolution of 1848
Vienna has never passed through such a crisis
of anxiety and alarm. The Government is in
possession of what it believes to be most trust-
worthy evidence of a plot to assassinate the
Emperor. The dynamite cartridges found in
the opera house are exactly similar to those
found near the body of Detective Bloech and in
the murdered money changer's office. A large
quantity of dynamite was recently ordered at
a Prussian dynamite factory for "Ansbach Gun-
nals." The dynamite was sent to the Wetzlar
railroad, but on its arrival at the station in
Vienna one large case weighing one hundred and
fifty kilograms was missing. The police made
a thorough search for it, but in vain. On
Saturday night eight battalions of infantry
stood in their barracks under arms, prepared for
immediate movement. During the whole night
no officer was allowed to leave the barracks,
even for a moment. Ball cartridges had been
distributed to the troops. A regiment of
cavalry was also held in readiness during the
night, and their horses were saddled. The
Government consider the situation most
critical. Peaceful citizens are in constant dread
of two terrible and detested extremes—the
police on the one hand and the anarchists on the
other. Among the list of persons sentenced to
death by the anarchists are the Emperor and
Empress, the Crown Prince Rodolph, the
Crown Prince Stephanie, Baron Kolowrat, the
Perfect of Police, the Commissary of Police,
Ministers, bankers, and Deputies, many of
whom belong to the Liberal party, and many
merchants. The police on the other hand have
put on their black list many names of Liberals,
who are in no way connected with Socialism,
and even many who are also on the proscribed
list of the anarchists. During the last few days
240,000 florins have been stolen from the post-
office of Pesth and 18,000 florins in Vienna.
Private letters are now opened by the police
at the post-office and a constant search for
dynamite cartridges is being made. The Em-
peror, the palace, and all the public buildings
are guarded, and the newspapers are not allow-
ed to publish anything about the anarchists
unless it has been previously submitted to the
police.

A Girl Shot Dead by a Rejected Lover.
CALICE, Wis., Feb. 4.—Andrew Johnson, a
disgraced Dane, who was enamoured with Ber-
tha Braeman, yesterday entered the restaurant
where the latter was employed. The girl re-
marked, "I don't want anything more to do
with you." Johnson seized and shot her twice,
and then killed himself. The girl died in a few
moments. On his way to the restaurant John-
son fired an ineffectual shot at a young man
against whom he had a grudge.

Mr. Matthew Arnold will deliver in Toronto
on Tuesday next, February 12th, his lecture on
"Numbers; or the Majority and the Remnant."
During his stay in the city Mr. Arnold will be
the guest of Prof. Goldwin Smith.

The Bridge Weakened.

INDIANAPOLIS, Feb. 1.—An investigation of
the accident yesterday at Broad Ripple shows
that the workmen in repairing the bridge re-
moved the permanent rods, applying their
place with temporary rods. It is thought this
weakened the bridge. Seasmans and Clarke, the
men seriously hurt, are still alive, but the lat-
ter's chance of recovery is slender.

Turkey and the Soudan.

CONSTANTINOPLE, Feb. 4.—Prince Bismarck
has advised the Porte to postpone the proposed
issue of a circular to the powers in regard to the
Sultan's rights of suzerainty over the Soudan.
The Sultan having asked the commander of the
forces what transports and troops it is possible
to send to the Soudan, the commander has re-
ported to the Council of Ministers that nearly
all the ships of the fleet are in want of equip-
ment and munitions, that no transports are
obtainable and that an expedition to the Soudan
is impossible without English aid.

A Secret Parnell Conference.

DUBLIN, Feb. 4.—Nineteen members of Par-
liament attended the Parnell conference in Dublin
this morning. The proceedings were secret. It
was decided to oppose the London Municipal
bill unless a similar bill for Dublin was in-
troduced. It was decided to introduce bills
amending the acts relating to land and labour.
It was agreed to introduce bills providing
address in reply to the Queen's speech the
Parnellites should call attention to the recent
course of the Irish Executive, especially the
wanton stoppage of public meetings. The con-
ference further decided to introduce bills provid-
ing for technical education and planting trees,
and to move for a commission to enquire into
the disposition of property held by the suppres-
sed trade guilds of London. Expressions of
regret at the death of Wendell Phillips were
expressed. The conference also passed a resolu-
tion warning the people of America and
Australia against placing reliance on Irish news
telegraphed by English news agencies, and ex-
pressed profound sorrow at the death of Father
Walsh, the treasurer of the Irish National
League in America.

A RONDEL.

Kissing her hair
I sat against her feet,
Wove and unwove it, wound and found it sweet,
Made fast with her hands, drew down her eyes
Deep as deep flowers and dreamy like dim skies;
With her own tresses bound and found her fair,
Kissing her hair.

Sleep were no sweeter than her face to me,
Sleep of cold sea-bloom under the cold sea;
What pain could get between my face and hers?
What new sweet thing would love not relish worse?
Unless, perhaps, while death had kissed me there,
Kissing her hair.

LAKEFIELD.

From Our Own Correspondent.

COUNCIL MEETING.

The regular monthly meeting of the Lakefield Village Council will be held in the Council room on Monday evening next, the 11th inst., at 7.30 sharp.

ORANGE MEETING.
The regular monthly meeting of L.O.O.F., No. 1385, will be held in the Orange Hall, Lakefield, on Tuesday evening next, the 12th inst., at 7.30 sharp.

T. V. C. DEPUTATION.

Mr. R. C. Strickland, Revere, Mr. John H. McWilliams, councillor, and Mr. W. C. Sanders, Clerk, left Lakefield on Monday last for Ottawa as the Lakefield representatives on the T.V.C. deputation, to urge upon the Dominion Government the prosecution of the construction of the T.V. Canal.

SCHOOL BOARD.

A meeting of the Lakefield Public School Board was held in the Council room, Lakefield, on Thursday evening, the 31st of January.

Members present:—Mr. W. C. Sanders, chairman, and Messrs. Armour, Caldwell, Casement, Dench and Gordon.

Communications were received from Messrs. Pousette and Koper and Miss Stewart.

Moved by Dr. ARMOUR, seconded by Mr. CASMENT.—That the following be paid and the Chairman's order issued for the several amounts:—

W. H. Casement, supplies, postage, &c.,	\$ 6 02
" " paid for wood	37 28
" " paid repairing pump	5 75
Jas. Jackson, repairing, work, &c.,	10 15
Jas. Moore, repairs of school house	35 20
Secretary's salary, &c.,	15 00
Total	\$111 83

—Carried.
Moved by Dr. CALDWELL, seconded by Mr. GORDON.—That Miss Tanner be paid a month's salary.—Carried.

Moved by Mr. GORDON, seconded by Mr. CASMENT.—That Miss Stuart be engaged as teacher of the junior department of the school at a salary of \$200 per annum under the usual terms of agreement.—Carried.

Moved by Mr. GORDON, seconded by Dr. ARMOUR.—That this Board do now adjourn to meet on the regular meeting night in March.—Carried.

THE THAW.

The thaw last week was just sufficient to save the reputation of the Lakefield January. The rain which fell on January 30th did a good deal for the roads in decreasing the depth of the snow, and the subsequent frost has made them fairly passable if not really good. Business has in consequence been more lively, and more grain, wood, etc., has been brought into this village during the week passed in a given time than has been the case for years before.

HONORABLE.

From Our Own Correspondent.

HONOR ROLL.—The following is the honor roll for S. B. No. 7, for January:—

1st Jr.—Herman Howson 1st, Scott McFarlane 2nd, Wesley Howson 3rd.

Jr. Pt. 2nd.—Bob, Matchet 1st, Bella Howson 2nd, J. Holbrook 3rd.

Promoted.—Chas. G. Thompson to Jr. 2nd; Bella Howson to Pt. 2nd.

Number on roll, 52; average attendance, 37. Colds, sore throat, scarlet fever, exceptionally severe weather and bad roads have to a great extent hindered regularity of attendance.

BELLEVILLE.

SKATING RINK.—A skating rink has been started on the river near the upper bridge.

DEATH OF A FORMER RESIDENT.—John Jack, formerly a well-known resident of Belleville, died at Los Angeles, California, on Saturday evening.

THE SNOW BY-LAW.—The delinquents under the snow by-law, says the *Ontario*, are being looked after by the police. They will be brought up after navigation opens.

INCIDENT FIRE.—A house in Great St. James street, occupied by Mrs. C. Clark, took fire on Sunday night from hot ashes. A passer-by extinguished the flames.

A LABOR LOAD.—The largest load of flour ever drawn by one team passed the Belleville on Monday. It weighed just nine tons and was drawn by the new team which Mr. H. Corby bought in the west a month ago.

Sir John A. Macdonald and the St. Patrick's Society.

OTTAWA, Feb. 1.—A deputation from the St. Patrick's Society of Montreal, waited on Sir John A. Macdonald to-day, and invited him to deliver the oration on March 17th. Sir John has accepted the invitation and promised to do himself the honor of addressing the Irishmen of Montreal on Ireland's Natal day.

Important Decision in re Libel.
The Supreme Court of New York has affirmed the judgment of a lower court declaring in effect that persons bringing libel suits must disclose the names of parties furnishing the information upon which the suit is based. This is one of great importance to the mercantile community.

Liquor Licenses to Groceries.
A deputation of influential citizens connected with the temperance cause waited upon the Council of Toronto on Monday night, urging them to abolish liquor licenses to groceries, and it was decided to submit the question to a vote of the ratepayers immediately.

Rebels at Sin and Tokay.

CALBO, Feb. 4.—An Austrian just returned to Saskin from the rebel camp says Osmar Digna has 3,000 men around Sinhat, and there are 4,000 men near Tokay waiting to fall upon these places before attacking Saskin.

THE MONTREAL CARNIVAL.

Large Number of Visitors—Arrival of the Marquis and Marchioness of Lansdowne.

MONTREAL, Feb. 4.—The number of strangers already arrived since Saturday and taken up their abode, generally for the whole week, surpasses anything ever known here before. From advice received thousands more will make their entrance within the next two days, Wednesday being the thrilling day of the carnival. Those who have already arrived are chiefly Americans, New York contributing by far the greater number, but all the other great cities have sent numerous representatives of both sexes. The Lower Provinces have their contingents, and it is reported this evening that the trains from the west are all crowded and will be so for days to come. The feature of the day was the arrival of the Governor-General and the Marchioness of Lansdowne, who are the guests of the city during their stay, which will be all the week.

A picturesque feature of the decorations that attracted attention from the viceregal party and strangers was a triumphal arch erected at the entrance of Victoria square. It was got up by the snowshoe clubs. The arch was covered with laurels, and on the summit and down the sides the members of the various snowshoe clubs were collected in groups around a beehive. Over the arch on both sides was the motto of the family, "Virtute non Verbis," and underneath the word "Welcome" in handsome large letters.

The afternoon was filled up by the formal opening of the toboggan slides, the curling rink, and out-door skating, and in the evening torchlight procession and illumination of the ice palace occurred. There are 29 curling clubs from all parts of the northern part of this continent represented in the matches that will be under way to-morrow. The trotting races will be attended by the best horses in America, many having arrived already and been in training here.

The wind-up of the festivities was the ball of the garrison artillery. The scene was in the Queen's assembly rooms, where the whole establishment was thrown open to one of the most brilliant assemblies of distinguished guests that has graced a ball-room here for a long time.

Evils of High Heels.

The evils of the high-heeled boot or shoe are due to the fact that it is an essentially badly fitting article, says the *London Lancet*. It is made in defiance of the relation it ought to bear to the anatomy of the foot, and to the direction in which the body weight falls upon the latter. Hence the peculiarly cramped walk of ladies of the present day. Anyone may observe the consequences of the "advanced position," nearly under the instep, and the increased height of the heel, in the substitution of a forward inclination of the body, and a trip, suggestive, in a measure, of the stumbling gait, for the upward carriage and the free and graceful swinging movement natural to the leg in walking. The boot or shoe, in order that it may not shift on the foot, which has lost much of its usual purchase of direct downward pressure, must hold it firmly and even lightly, and in particular it is necessarily constructed so as to hold with undue firmness just above the back of the heel, with some persons perhaps, no inconvenience results; with others, who have fine skin, chafing is readily produced. This is in itself a trifle, but it may nevertheless be the slight beginning of graver troubles. Probably there is no practitioner fairly long acquainted with town practice, who cannot recall a case or cases in which extensive inflammation of the leg with abscess has followed even such a slight abrasion, and the exciting cause, when looked for, was discovered in the patient's shoe. There have been even instances, fortunately rare, but still occasional, where abscesses arising round some neglected trifle of this kind, have ended fatally. These are facts which cannot be denied, and should not be overlooked.

In The Rapids.

BUFFALO, Feb. 4.—An interesting story of a thrilling adventure of men in the rapids at Niagara Falls is told by C. Crawford, an eyewitness of the narrow escape. On Saturday morning Tim Horn and Peter Scanlon, who are employed by Hill & Murry, were working in the upper millrace trying to remove the ice blockade. They asked for assistance to remove some planks over the apron at the foot of the race, which was a very risky operation. By some mishap the men lost their footing and were thrown out into the millrace a few feet away from the apron. In an instant they were carried out into the rapids, just above Goat Island Bridge. Mr. Crawford at once crossed the race and started for the brink of the fall. Below the water was free from obstruction, and he thought Horn and Scanlon would surely be swept over the Falls. Near the point where the men were thrown into the rapids was a big cake of ice, which prevented them from being swept out into the middle of the river. There was a small channel with a curve where there was another big block of ice about eight feet square which was fastened to the rock. On to this they were thrown. The men clung to the ice cake with their arms and hung on until ropes were brought and they were drawn from the water. The men were in the water nearly an hour and had a narrow escape from death. They were badly frightened and severely chilled. Had they not clung to the ice cake they would have been swept into eternity.—*Globe*.

England and the Antipodes.

New Zealand, says the *London Times*, has now been brought within forty days' steaming of the Thames. The fact is peculiarly interesting having regard to the development of the resources of the colony and the food supplies of the home country. The steamship *Tongario*, which has recently accomplished the feat of making the journey in this remarkable short space of time, is fitted to bring to this country 14,000 carcasses of sheep each voyage; and the New Zealand Shipping Company, who own her, have contracted to land in London during the year just opened as many as 220,000 sheep or upwards of 17,000,000 lbs. of mutton. The *Tongario* is the first vessel built for a direct steam service between this country and New Zealand, a second steamer the *Aorangi*, is now making her first outward trip, and a third, the *Rusapea*, is loading in the Royal Albert dock to be despatched about the 9th inst. They are each upwards of 4,000 tons register and of nearly 4,000 horse-power.

The Panama Canal Company.

A month ago the Panama Canal Company lent the Republic of Columbia 2,500,000 francs, and authorized the secretary to draw for the amount. He drew for 200,000 francs in excess, and the drafts were protested by cable. He asked the company to honor the extra amount, but no definite result is obtained.

The Scott Act in Christchurch.

There is a boom in the Scott Act business in Christchurch, P.E.I. One man was fined \$300 for three second offences. Five summonses have been issued against another dealer, and one individual has not less than six served on him.

THE use of False Hair by ladies is a most disagreeable practice. By the use of Cingalese Hair Renewer the color of the hair is rendered natural and beautiful. Every lady should use it, and to gentlemen whose hair is growing thin it is a necessity. Sold by J. D. Tully.

DR. GUY, the English statistician calculates that the average length of life is twenty-nine years in England, while it is only twenty years in America.

No man writes us of the merits of Zopea, from the West, Canada, the East and at home; they write of being cured of Liver Troubles, of Urinary Troubles, Chronic Headaches, etc., but we cannot publish them—any drug store keeps Zopea. Ask J. D. Tully.

A MINX of tale, a substance which is used for giving a finish to wall and other fancy papers, has been discovered in San Antonio in Lower California. It has hitherto been imported from China.

JOHN R. VERT, Hamilton, says: "McGregor's Speedy Cure for Dyspepsia and Indigestion is cheap fifty times the price asked for it. I am a commercial man, and travel continually, and would no more think of leaving home without a bottle of McGregor's Speedy Cure in my valise than I would of leaving my team at home and going on foot." Free trial bottles at John McKee's Drug Store. Regular size fifty cents and one dollar.

The \$4,000 mantel, lately purchased by J. K. Emmett, was the other night looked up by the latter in the billiard room in his residence in Albany. "Heistog" was done \$1,500 worth of damage when he was interviewed next morning. He apparently objected to being looked up.

A BANKER'S TESTIMONY.—For a Cough, Cold or any Bronchial affection, "Pectoral" in my opinion, is just the thing. I have used it in my family for Coughs and Colds for the past four years with the most unvaried success, and to-day my opinion of it is that I continue to think still more of that which I began thinking well of. Geo. Kern, Manager Ontario Bank, Pickering. Price 35 cents, at all druggists.

The billiard match between the Englishmen Peall and North, for \$400, at the Westminster Aquarium, ended Thursday evening, January 17, in a rather sensational manner. On Wednesday night, when the first day's play was concluded, Peall was 322 points in front, and on Thursday night he got the remaining thousand in one hour, four minutes, best on record. The winner played in much superior form than on Wednesday, and running up such breaks as 200, 165, and 416 (unfinished), won by no fewer than 1,217 points, the full scores at the finish being: Peall, 2,000; North, 788.

Suffering From—Symptoms and Cure. The symptoms are moisture, like perspiration, intense itching, increased by scratching, very distressing, particularly at night, seems as if pin-worms were crawling above the patient's head. If allowed to continue very serious results may follow. "HAYWATER OINTMENT" is a pleasant, sure cure. Also for tetter, itch, salt rheum, scald head, erysipelas, barber's itch, blotches, all scaly, crusty skin diseases. Sent by mail for 50 cents; 3 boxes, \$1.35 (in stamps). Address DR. HAYWATER & SON, Philadelphia, Pa. Sold by Druggists.

Our Canadian Industry is prosperous. The great difficulty to be contended with is the low grade of goods required. In nothing is this more apparent than in the comparatively small article of sewing silks. The great demand in Canada seems to be for a cheap quality, buyers forgetting that a cheap thread is necessarily a fine and consequently a weak one. Messrs. Belding, Paul & Co. make three grades of apool silk; of these different qualities the poorest one has by far the largest sale, at the same time they constantly hear of complaints of poor sewing silk. If ladies will take the trouble to ask for Belding, Paul & Co.'s own brand, and see that their name is on the end of each spool, they will be sure of getting the best made.

Shiloh's Consumption Cure. This is beyond question the most successful Cough Medicine we have ever sold. A few doses invariably cure the worst cases of Cough, Croup and Bronchitis, while its wonderful success in the cure of Consumption is without a parallel in the history of medicine. Since its first discovery it has been sold on a guarantee, a test which no other medicine can stand. If you have a cough we earnestly ask you to try it. Price 50c, 90c, and \$1.00. If your lungs are sore, chest or back lame, use Shiloh's Foreign Plaster. Sold by J. D. Tully.

THE OIL MONOPOLY BURST!

Owing to the high prices prevalent in Peterborough for COAL OIL, "CHINA HALL" decided to take up this branch of its business, and began on Friday, 18th instant, by REDUCING the price at once NEARLY FIFTY PER CENT, and we follow it up to-day by a further slight reduction, as under:

Best Canadian Oil, large measure, 20c. per gallon; Five gallons 90c.

Best American Oil, large measure, 30c. per gallon; Five gall. \$1.40

OUR PRICES WILL ALWAYS BE THE LOWEST IN TOWN.

Every consumer of Oil is aware that on Friday, 18th instant, the current prices of Oils in Peterboro' were: Canadian, 30 cents, and American 40 cents. We therefore maintain that we have reduced the price of Oils in our town fully 50 per cent in one day, and trust that the people of Peterboro' will not lose sight of this fact when ordering OIL. It means DOLLARS SAVED to every consumer of oil. DELIVERED FREE IN ANY QUANTITY TO ALL PARTS OF THE TOWN.

Daily Evening Review

WEDNESDAY, FEBRUARY 6, 1884.

LOCAL NEWS

Curling Club.
A special meeting of the Curling Club will be held at the skating rink this (Wednesday) evening, after curling. All members are particularly requested to attend.

The T. V. C. Deputation.
The deputation which went to the seat of the Dominion Government in regard to the Trent Valley Canal, have not yet returned, and we were therefore unable to procure information regarding it.

Entertainment.
An entertainment will be given in St. John's Chapel, under the auspices of the Girls' Friendly Aid Society, on the evening of Wednesday, February 13th. The opening piece will be given by the associates of the Society.

Springtime Truss and Supporter.
See Prof. Hotchkiss's springtime truss and supporter advertisement in another column of this paper. Go and see him. He defies the hernia he cannot hold. Will be at the Calves House Feb. 27, 28 and 29.

Special Services.
The special services now being held each evening in the school room of the George Street Methodist Church are largely attended. They are increasing in interest and much good is being done. They are conducted by the Methodist and Bible Christian Ministers.

A Useful Diary.
We have received a copy of a diary published by the Canadian Manufacturer Publishing Co. The diary is of a convenient size, leaving ample space for memoranda under each date, without being bulky. It also contains on each page valuable information for business men and useful recipes.

A Runaway.
A baker's horse was frightened on Tuesday afternoon, by snow falling off a roof on the Court House hill, and, true to the instincts of its race, being a well bred horse, it ran away. It was soon captured, however, before it had gone far. The bread box was upset out of the vehicle, and the dash board was broken, but that was apparently the only damage done.

Catalogue of Horses.
We have received the catalogue for 1884 of the Oakville Stud of Percheron horses imported and bred by Mr. M. W. Dunham, Wayne, Ill. It contains much information useful to horsemen, including a history of the Percheron breed by Charles du Hays, and authenticated pedigrees of animals based on the Percheron Stud Book of France.

Belleville Aids Compensation.
A deputation from Belleville, consisting of the Mayor, local members and others, had an interview with the Attorney General and the Provincial Treasurer on Monday in regard to the bonuses voted by that city to the Grand Junction Railway. Certain conditions were attached, and they urged that they had a claim upon the consideration of the Government because their rights had been legislated away by the amalgamation act. They said they had appeared before the Railway Committee, but in vain. Mr. Mowat promised to consider their case.

County Orange Lodge.
The annual meeting of the West Peterborough County Orange Lodge was held in the District Orange Hall on Tuesday evening. There was a large number of representatives present and business of importance was transacted. An invitation was read from the District of Cobourg, asking this County to celebrate the coming Twelfth of July in that town, and the invitation was accepted. The semi-annual meeting will be held at Lakeside in June. The following officers were elected:—

Probabilities.
The weather probabilities for this district for the following twenty-four hours, counting from one o'clock this morning, as reported from the Toronto Observatory, are as follows:—Northerly winds, cloudy to fair, colder weather, with snow areas.

An Accident.
This afternoon, at about three o'clock, Miss Jennie Spencely, who was employed in the Auburn Woollen mill, got her arm caught in the cylinder of a carding machine and it was seriously injured. Medical assistance was summoned.

A Brilliant Scene.
That is what is expected at the Skating Rink on Friday night. The Carnival may not be equal to that at Montreal—it is very probable that it will not—but, judging from the present prospects, it will be a very enjoyable one, and certainly one well worth seeing. Mrs. Robert Hamilton and Mrs. McVillie Miller have consented to act as judges of the ladies' costumes.

The Band and Fire Brigade.
On Tuesday evening the Fire Brigade, after their regular monthly meeting, invited the members of the band to partake of their hospitality in the way of an oyster supper, they having received a sum of money from a gentleman for services rendered at a recent fire. As this was practice night for the band, all the members were present, and gladly accepted the kind invitation extended. The Brigade formed up, and headed by the band, marched to Darcy's restaurant, where they all sat down to a tasty and tempting spread. After the good things provided had been done simple justice to, the party adjourned to the parlor, where a number of vocalists furnished music to the enjoyment of those assembled. It is very satisfactory to the members of the band to know that they are held in such high esteem by the Fire Brigade, and they did not require this last guarantee of friendship to convince them of the fact. After an hour or two had thus been spent, the party dispersed for home, all well pleased.

A "Practical Joke."
The Police Court in Peterborough is not that attractive place of amusement that it is in the cities, yet often persons "drop up" about 10 o'clock to see what is going on. Two young men, particularly, often do this. One of them sauntered into the constable's room a little before ten o'clock this morning, and, seating himself in the Chief's arm chair, leaned back in an easy position. He soon became quiet and appeared to be resting quite comfortably when the second young gent came in. This young man is a "practical joker"—he has a reputation as such—and here was an excellent opportunity to increase that reputation. He picked up a pair of strong handcuffs, noiselessly moved over to where his victim was reclining, slipped one of the irons over his wrist, and "click" it was locked. Then there were sounds of mirth for a few minutes, but they were interrupted by the stern voice of Constable Pidgeon, who said: "You have put those cuffs on for keeps. The key of them is lost!" "Here is a fine fix," broke in the chief, in a yet sterner tone; "and you will have trouble to get out of it." All mirth had vanished. The practical joker turned pale, and his victim trembled. A sickly smile fitted over their countenances as it dawned upon their minds that the police might after all be joking, but that hope was soon dispelled. "You will have to go to a locksmith," said the Chief, "and perhaps he will be able to take it off." "It looks so very natural," said Constable Pidgeon, "that I can hardly resist the temptation to take you to the cells." The victim groaned inwardly. "If you wish to go to locksmith, and the Chief is afraid you would not come back, I will try to find time to go with you," said Constable Adams. "There is no hope for you now," said the Clerk of the Court, "unless the Magistrate releases you." Then the Chief remarked that he had heard of cuffs being taken off with a wire out of a clock. Here was a chance. The practical joker, still pale, hurried out of the room, and while he was getting his wire, Constable Pidgeon asked the victim what he would do for them if they took the cuffs off, at the same time suggestively picking up a horse-nail. "I would treat to cigars," faintly wailed the prisoner. "It's a bargain," said the officer, and he flourished the nail, delicately handled the cuffs, slipped the key into the lock, and presto! the manacles fell off. A ray of thankful joy beamed from the victim's eyes, and he disappeared. He was too late to save the clock, but he was allowed to smoke one of the weeds he furnished. Moral: Don't go where you are not wanted, and don't fool with things you don't understand.

THE HITCHCOCK LAMP.
The Best in the World for Burning COAL OIL.

No Glimmer! No Chimney! No Substitutes for either! No Oil! No Danger! Explosion Impossible! This Lamp gives much more light than a chimney lamp using the same amount of oil, and has none of the disadvantages of other lamps, the flame standing out upon the lamp like gas; gives a light equal to a six-foot gas burner at one-third the cost; makes no shadow on the ceiling or wall; no tremulous shadow as gas is withdrawn; a sudden blast of wind; will burn in a very cold or warm apartment equally well; is compact, light and portable; gives 15 candle power and much more if desired; cannot explode, being all metal and strong.

This Lamp is meeting with success all over the world. Hundreds of thousands of these lamps are now in use in Europe, Asia, North and South America.

ANOTHER SUDAN DEFEAT.
LONDON, Feb. 5.—It is reported that Baker Pasha has been defeated and suffered great losses. The rumour is considered authentic. Another report says Baker lost 2,000 men, but escaped himself. Later despatches reiterate the reports that Baker Pasha has met with a serious defeat. Baker had 3,500 men, and was advancing when attacked. His losses in killed and wounded number 2,000 men. Baker with the remainder of his force succeeded in reaching Trinkitat, where the gunboat Ranger is lying. Baker intends to proceed immediately to Suakin in the Ranger.

TELEGRAM FROM BAKER PASHA.
The Khedive has received a telegram from Baker Pasha reporting his defeat near Tokar. His losses were 2,000 men, 4 Krupp cannon, and 2 Gatlings. The Turks and Europeans fought well.

OPENING OF PARLIAMENT.
LONDON, Feb. 5.—Parliament was opened today. The crowd in the streets was smaller than usual, and no excitement was manifested. The galleries of the House of Lords were crowded during the delivery of the Queen's speech.

Killed by a Two-Year-Old Child.
EAST ST. LOUIS, Feb. 1.—During the absence of Mrs. Joyce yesterday her two-year-old child struck its infant brother on the head with the bottle with which it was feeding and killed it.

An Answer Wanted.
Can any one bring us a case of Kidney or Liver Complaint that Electric Bitters will not speedily cure? We say they can not, as thousands of cases already permanently cured and who are daily recommending Electric Bitters, will prove. Bright's Disease, Diabetes, Weak Back, or any urinary complaint quickly cured. They purify the blood, regulate the bowels, and act directly on the diseased parts. Every bottle guaranteed. For sale at 50c. a bottle by Taylor & Macdonald.

Field Lightning.
Cures Rheumatic and Neuralgic quick as flash relieves any pain instantly, the cheapest and quickest application known. Why suffer with Rheumatic, Neuralgic, Headache, Rheumatism, Lumbago, Sciatica, More Throat, or Acute Pains of any kind when you can go to John McKee's Drug Store and get a perfect and instantaneous cure for twenty-five cents. Ask for Field Lightning.

At this season of the year there should be a bottle of Pectoral in every house. It is unequalled for Coughs, Colds, and Hoarseness, is pleasant, equally safe for children. Price 25 cents at all drug stores.

The top of a dead tree standing by the wayside at Sandy Ridge, N. C., fell upon a woman riding by and killed her.

At! We get up feeling badly, didn't rest good, don't want breakfast, no appetite, no energy, bad taste and bristling, give us a bottle of Zepos. Zepos will tone up our Liver and our ambition, and set us right. Ask J. D. Tully.

ADVICE.

The present winter promises to be a memorable one. Intense cold is predicted, with increased snow areas over the Little Lake region, and possibly ice on English's Creek. It behooves the people of this town and district to be prepared.

The average Christian, when finding his nose and limbs freezing, pounds them against each other and swears.

Then he lies off to the coal stove and roasts. This only affords temporary relief and is bad. The true remedy lies in WARM AND SUFFICIENT CLOTHING.

Better spend a few dollars in Clothing, prevent a cold, and cheat the doctor.

CLOTHING—small enough for man or boy—large enough for the Canadian Pacific's indication.

ST. LAWRENCE CANALS

Notice to Contractors.

SEALED TENDERS, addressed to the undersigned
and endorsed "Tender for St. Lawrence Canals,"
will be received at this office until the arrival of the
eastern and western mails on TUESDAY, the 12th day
of February next, for the construction of a lock and
regulating weir for the deepening and enlargement of
the upper entrance of the Cornwall Canal.

Also for the construction of a lock, together with
the enlargement and deepening of the upper entrance
of the Rapid Plat Canal, or middle division of the
Williamstown Canal, and the deepening, &c., of the
channel at the upper entrance of the Galt Canal.

A map of the head or upper entrance of the Corn-
wall Canal and the upper entrance of the Rapid Plat
Canal, together with plans and specifications of the
respective works, can be seen at the Resident Engi-
neer's office, Dickinson's Landing; and for the works at
the head of the Galt Canal, at the Lock Keeper's
house near the place, and in each case plans, &c., can
be seen at this office on and after Tuesday, the 12th
day of January, inst., where printed Forms of Tender
can be obtained.

Contractors are hereby informed that tenders will
be received at the Cornwall and RAPIDE PLAT
sections of the works, and they are requested to bear
in mind that tenders will not be considered unless
made strictly in accordance with the printed forms,
and be accompanied by a letter stating that the per-
son or persons tendering have carefully examined the
locality, and the nature of the material found in the
trial pits, &c.

In the case of firms there must be attached the ac-
tual signatures, the nature of the occupation and resi-
dence of each member of the firm; and further, a
bank deposit receipt for the sum of \$4,000 must ac-
company the tender for the Cornwall Canal Works.
The tender for the Rapid Plat works must be ac-
companied by a bank deposit receipt for the sum of
\$3,000. The respective deposit receipts (cheques will
not be accepted) must be endorsed over to the Hon.
the Minister of Railways and Canals, and will be for-
feited if the party tendering declines entering into
contract for the works at the rates and on the terms
stated in the offer submitted. The deposit receipt
thus sent in will be returned to the respective parties
whose tenders are not accepted.

This Department does not, however, bind itself to
accept the lowest or any tender.
By order,
A. P. BRADLEY,
Secretary

Dept. of Railways and Canals,

LOCAL NEWS

The Cells.
Two prisoners arrested for drunkenness, and one tramps occupied the police cells last night.

Castle Struck by a Train.
A train going south one day this week struck two cows, which were on the track, before it got out of town. One of the cows, which belonged to Mr. B. Green, was killed and the other was seriously injured.

Entertainment.
An entertainment will be given in St. John's Chapel, under the auspices of the Girl's Friendly Aid Society, on the evening of Wednesday, February 13th. The opening piece will be given by the associates of the Society.

Springless Truss and Supporter.
See Prof. Hotchkiss' springless truss and supporter advertisement in another column of this paper. Go and see him. He defies the hernia he cannot hold. Will be at the Calise House Feb. 27, 28 and 29.

The Probabilities.
The weather probabilities for this district for the following twenty-four hours, counting from one o'clock this morning, as reported from the Toronto Observatory, are as follows:—Moderate to fresh north to north-west winds, cloudy to fair, slightly colder weather with a few snow flurries.

Telephone.
The telephone business in Peterborough has greatly increased since the trunk line was opened. There are now sixty-five instruments in use in the town, a larger number than there is in any town or city between Kingston and Toronto. The wires have been taken off the houses in the town, wherever it was possible to do so, and placed on the poles.

Smith's Market.
Until further notice I will continue to sell:—
Finnan Haddies, at 10c per lb.

CLEGG'S FLOUR MILL.

Improved Machinery and other Important Changes.—Information for Consumers.

Having heard that Mr. A. Clegg had made some additions to his flour mill in the shape of new machinery, our reporter called on him to learn the nature and extent of the improvements. Mr. Clegg explained the process of flour making, stating that a great diversity of opinion existed as to the best means of reducing wheat to flour. He said that some claimed that chilled iron rollers were the best, others that rollers made of French Buhr, the same as ordinary mill stones, were superior to everything else. Recently the *Miller's Journal* and the *American Miller* (two leading papers devoted to the trade) have both asserted that just as good results could be obtained with ordinary, old-fashioned mill stones as with any of the above appliances, provided suitable machinery for cleaning the wheat and dressing the flour were used. This view was held by the late Mr. E. Clegg and by very many intelligent millers throughout the country. Mr. Clegg states that he is satisfied that the latter views were correct, for after making various additions and changes he finds that he can now make very much more flour out of a bushel of wheat than any roller mill, and that by making simply one grade of flour he can make a whiter and cleaner flour than the best of the two grades made in the roller mills. Mr. Clegg claims that the advantage to the consumer of having only one grade of flour is very considerable, as he explains that wheat is composed largely of two substances, not including the bran, namely starch and gluten, the gluten forming about 11 per cent. of the flour. The starch is more easily reduced to flour than the gluten, the latter being first reduced to middlings. The particles of fibre and germ are removed, and it is then reduced to flour and put up and sold as "patent flour."

Thus, he explains, it can be readily seen that the very fine flour is made at the expense of the ordinary flour. Every baker who understands his trade and the art of bread making, he further stated, knows that flour containing too much gluten makes bread that is very white but tough and tasteless, and on the other hand bread made from flour that has been robbed of the gluten is dry, short and crumbly; whereas, when the two are together as found in the wheat, you have good wholesome bread. Mr. Clegg's mill is now running night and day, and so far they have not been able to keep up with their orders. Grinding and chopping keeping them busy during the day, necessitated running all night to supply their town trade.

Mr. Clegg is also adding another branch to furniture business—that of undertaking. He has given orders to have a hearse built for this purpose, and when completed it will be second to none in the Dominion.

The Carnival.
A new feature will be introduced at the fancy dress carnival on Friday evening, that of ladies acting as judges of female costumes, the Hon. Mrs. R. Hamilton and Mrs. Melville Millar having consented to act in that capacity. The rink will be illuminated for the occasion, and there is evidently a treat in store for those who attend.

A Runaway.
A horse belonged to Mr. Crowley, ran away near the Methodist Church on Wednesday afternoon. The vehicle was upset when going through a pitch hole, and its occupants, Mr. Crowley's sister-in-law and a young gentleman were thrown out, but they escaped without injury. The enter was damaged by the animal's escape, but the horse itself was not injured.

Larceny.
At an interim session of the County Court this afternoon His Honor Judge Desmetton presiding, S. Newall, Sr., S. Newall, Jr., and Andrew Donoghue were tried on a charge of stealing mitts and gloves from the Norwood House, in the Village of Norwood. Donoghue was discharged, and the two Newalls were found guilty and sentenced to one month's imprisonment in gaol. Mr. C. A. Waller, County Attorney, appeared for the prosecution, and Mr. J. O'Meara for the prisoners.

The Curling Club.
A meeting of the Curling Club was held in the club room at the rink on Wednesday evening. Dissatisfaction has been felt by a number of the curlers with the state of the ice on the rink, especially the rink on the west side of the building, and it found expression in a motion adopted at this meeting. The motion quoted the agreement between the Club and the Skating and Curling Rink Company, by which the company agreed to furnish two rinks for curling with light, &c., and set forth that this agreement had not been fulfilled in the season, and that the club would only feel bound to compensate the company for what they had received. A copy of this motion was ordered to be forwarded to the President of the Company, and another motion was adopted expressive of their appreciation of the services of Mr. A. Stewart, who was the caretaker of the rinks last season. For a portion of the season the curling rink on the western side of the building has not been fit for playing on, and the dissatisfaction felt by the members has given rise to talk about erecting a building for a curling rink. This general talk is taking form, and it is proposed by some that a good building should be erected in a central locality, where the waterworks could be utilized for flooding, &c., and that it should include a bowling alley and baths. The baths would certainly be useful in the summer months, and it is believed that with them and the alley, in addition to the curling rink—and it is suggested that there should be four rinks—there would be a source of income during all the seasons of the year that would compensate those who invested in the undertaking for the outlay. If this suggestion, made by enthusiastic curlers, is adopted, the building will be erected during the coming summer.

LAKEFIELD REVIVAL MEETINGS.

To the Editor of the Review.

Sir,—During the past three weeks the people of Lakefield have been well stirred up to a sense of their awful danger in neglecting their souls' salvation, by the solemn warnings of G. W. Marsh, a member of the Canadian Evangelization Society, who has been laboring in our village since Jan. 15th. The meetings have been held in the P. C. A. hall, and at first were very fairly attended, but lately there has been a large increase, which would doubtless have been still greater but for the bad state of the roads, which rendered it almost impossible for those living at a distance to attend. And we believe that the spirit of the living God has been powerfully working in our midst. About 45 souls profess to have found Christ as their Saviour, and besides the unsaved people of God have received great blessings during this revival.

Out of five denominations four have come heartily forward to welcome Mr. Marsh, particularly the Methodist, Bible Christian and Baptist, and the pastors of these churches have gladly assisted him in proclaiming the glad tidings of salvation. We are glad to say that there was also a very fair sprinkling of people who belong to the Church of England. As for Mr. Marsh, he is a true hearted servant of God, whose one desire seems to be to glorify God, as well in his earnest desire to win souls for the Master, as in his daily walk. He is gifted with a peculiarly rich and powerful voice both in speaking and singing. His mission seems to be chiefly to warn, which he does in a singularly earnest and impressive manner, though while speaking of the wrath of God towards those who resist the strings of the Holy Spirit, he does not forget to mention the loving kindness of the Lord towards the repentant sinner. May he who has been instrumental in converting so many souls share the reward of those who turn many to righteousness, who shall shine as the stars forever and ever.

Yours, etc.,
Lakefield, Feb. 5th.

IS IT MALICE?

To the Editor of the Review.

Sir,—The correspondent of the *Rural Canadian* Christmas number writes to that journal under the head "Among the Lakes, Northern Peterborough," as follows re my hotel at Burleigh Falls. In the correspondence he says:—"A fire which broke out in the hotel at the foot of Lake, a wooden structure about 400 feet long, we noticed a large three story hotel facing the road, with spacious verandah along the front and east sides, known as the Burleigh Falls Hotel, on the left of the road about large outbuildings. For the benefit of travellers we will only remark that our experience of this place was like the life of the policeman in 'Pirates of Penzance'—not a happy one—and that such was the experience of many other as well as ourselves. Suffice it to say that a brief inspection reconciled us to start out again, notwithstanding the blinding storm, when we learned the next stopping place was only eight miles further on."

I wish to inform the public that this correspondent was never within my hotel, and if ever he does pay me a visit at any time he will be received by me with a black snake whip. It is a contemptible and unworthy of any gentleman of the public press to try and do me an injury. And I am astonished that the *Rural Canadian* publishes such items without making itself thoroughly acquainted with the facts of the case. My customers far and near as a whole, will not bear the gentleman out in making such an assertion. But on the contrary, Mrs. Holmes and myself are possessed of warm hearted friends who have given ample testimony by returning to the hotel every summer. Probably some enemy has told this wandering correspondent, as it surely cannot be through any personal motive that he would so maliciously and baselessly try to ruin my hotel. Now, Mr. Editor, my attention was only drawn to this paragraph a few days ago by a friend of mine who had read it in the *Peterborough Examiner*, the editor of which foolishly copied it in into his paper, and all my friends advised me not to let it pass without denying it in toto.

Yours, etc.,
JOHN HOLMES.

[Neither the Burleigh Falls Hotel nor its obliging landlord, Mr. Holmes, deserves such slanderous disparagement, as is well known to many of our readers.—ED. REVIEW.]

Police Court.
THURSDAY, Feb. 7.—Thomas Purcell and Wm. McNaughton were charged by P. C. Pidgeon with having been drunk and disorderly on Wednesday night. They pleaded guilty, and were fined \$2.00 or ten days in gaol. They were committed.

Arm Broken.
One day this week Mr. John Wolstenholme, who resides on Aymer street, was loading potatoes to take to the station. While he was raising a barrel of the heavy material he slipped and fell, and the barrel fell to the ground. It grazed his head and fell upon his arm, breaking the bone and bruising the flesh. Dr. Fife was summoned and attended to the injury.

Look Out.

This firm, when they do advertise a clearing sale, mean business, and parties may depend upon bargains.

To Cure Pain.
The means which may be readily and successfully employed to relieve pain is important and should be known by all. We give you the name of the best remedy in the world for pain, and the information that a 10 cent sample bottle may be purchased at Ormond & Walsh's drug store. Nervilleine is a safe and prompt cure for all kinds of pain, neuralgia, toothache, headache, rheumatism, &c. Ten and 25 cent bottles at Ormond & Walsh's drug store.

Fluid Lightning.
Cures Toothache and Neuralgia quick as a flash relieves any pain instantly, the cheapest and quickest application known. Why suffer with toothache, Neuralgia, Headache, Rheumatism, Lumbago, Stomach, Stomach, or Aste's Pains of any kind when you can go to John McKee's drug store and get a perfect and instantaneous cure for twenty-five cents. Ask for Fluid Lightning.

A Bottle as a Weapon.

At half past eleven o'clock on Wednesday night several young men were disturbing the residents of Simpson street, between George and Aymer streets, by the noise they were making. Constable Pidgeon arrested one of them, Wm. McNaughton, and when taking him to the cells he was followed by the prisoner's comrades. Two of them tried to rescue the prisoner, but they did not succeed, and one of them renewed the efforts, but he desisted when he received an introduction to the policeman's baton. When the constable was near the corner, one of the party threw a black bottle at him with much force, but his aim was not true, and the bottle was shattered against a post. If it had struck the constable it would certainly have done him injury. It is a pity that the remainder of the party could not be brought to justice.

Literary Society.

At the regular weekly meeting of the Peterborough Literary Society on Wednesday evening the following subject was discussed:—"Resolved, that the government has jurisdiction over man's moral welfare." After an animated debate, the question was decided in the negative by a majority of one vote. At the meeting on the evening of Thursday, next week, the society will consider the advantages of the present times over the "good old times," and will listen to a paper on "Life in Liverpool."

An Answer Wanted.

Can any one bring us a case of Kidney or Liver Complaint that Electric Bitters will not speedily cure? We say they can not, as thousands of cases already permanently cured and who are daily recommending Electric Bitters, will prove. Bright's Disease, Diabetes, Weak Back, or any urinary complaint quickly cured. They purify the blood, regulate the bowels, and act directly on the diseased parts. Every bottle guaranteed. For sale at 50c. a bottle by Taylor & MacDonald.—1

At this season of the year there should be a bottle of *Pedecia* in every house. It is unequalled for Coughs, Colds, and Hoarseness, is pleasant, equally safe for children. Price 25 cents at all druggists.

If you are troubled with a "hacking cough," *Dorwin's Elizer* will give you relief at once. Warranted as recommended, or money refunded. Price 25c, 50c, and \$1.00 per bottle.

Ah! We get up feeling badly, didn't rest good, don't want breakfast, no appetite, no energy, bad taste and br. ah, guess we are bilious. Two doses *Zepena* will tone up our liver and our ambition, and set us right. Ask J. D. Tully.

AN OPEN LETTER.—Messrs. T. Milburn & Co. Dear Sirs,—I can honestly recommend Haggard's Yellow Oil as the best reliever of rheumatic pain of all the many specific remedies for sale, and as a sufferer for years I have tried every known remedy. I remain, respectfully yours, JOHN TAYLOR, 180 Parliament St., Toronto.

A GOOD COSMETIC.—The best cosmetics are good soap and water to obtain purity of the skin, while for blemishes, obstinate humors and impurities of the blood, *Burdock Blood Bitters* is the best of all purifiers.

CURE FOR CHILBLAINS.—Bathe the feet for ten or fifteen minutes in water as hot as can be borne; then apply Haggard's Yellow Oil and a cure is certain. Yellow Oil cures Rheumatism, Neuralgia, Deafness, Lameness, and pain generally, and internally cures Colds, Sore Throat, Croup, Asthma, and many painful affections.

ADVICE.

The present winter promises to be a memorable one.

Intense cold is predicted, with increased snow areas over the Little Lake region, and possibly ice on English's Creek.

It behooves the people of this town and district to be prepared.

The average Christian, when finding his nose and limbs freezing, pounds them against each other and sweats.

Then he lies off to the coal store and roasts.

This only affords temporary relief and is bad.

The true remedy lies in WARM AND SUFFICIENT CLOTHING.

Better spend a few dollars in clothing, prevent a cold, and cheat the doctor.

CLOTHING—small enough for man or boy—large enough for the Canadian Pacific syndicate.

statement of the Dominion Government

question.

Mr. ROSS replied in the affirmative.

The motion was agreed to.

SALON LICENSES.

Mr. CARNEGIE moved for a return of the number of hotel and saloon licenses authorized to be granted in the town of Peterborough for 1883-4, under the Crooks Act, and of the number of such licenses actually granted.

Mr. HARDY said there was no objection to the return, but the information required was not kept in the department. The License Commissioners sent a requisition to the department for the number of licenses required by law, according to the population of the different municipalities, as based on the last census.

Mr. CARRINGTON said he was surprised at the answer of the Provincial Secretary. He understood when the Crooks Act was passed that the Government would exercise supervision over licensing. They were now to understand that the Government exercised no supervision in this very important matter of seeing whether the commissioners confined themselves to the number of licenses which the law justified them. Evidently there was a shuffling off of responsibility, and he trusted that the rules of the department would be amended.

Mr. MEREDITH said there was evidently great laxity in the department. He held that there should be some supervision on the improper issue of licenses. It should be the duty of an officer of the Department when an application was made to examine the Dominion census and see if there would be any excess. The neglect of such a proceeding prevented any check being kept. The town of Gravenhurst, with a population of 1,015, which was entitled to four licenses according to the statute, two others were added last year, in order to reward a man who had given evidence in the election trial.

Mr. CARNEGIE said that no special census had been taken in the town of Peterborough. The duty of the Government was to see that the commissioners performed their duties, and to disclaim them if they did not, as they were in the habit of disclaiming other officers.

Motion passed.

Mr. WOOD moved for papers as to the dealing with minerals lands in certain townships in the County of Hastings. In these townships there were valuable mineral lands, and a great many complaints were being made by the settlers as to the way the land was being disposed of, and their rights interfered with. It was said that one gentleman had got hold of fifteen or twenty thousand acres. A very strong feeling was current in that section of the country against the course being pursued. It was said that certain parties had had advantages conferred on them which the ordinary settlers did not possess, and he would like the correspondence brought down to show if that were the case.

Mr. PARDEE denied that any favoritism had been shown by the Government in any case, all parties being treated alike. The Assistant Commissioner had made a mistake, which had been corrected without the intervention of any political friend. He refused to consent to the part of the motion as to correspondence with the Department regarding conflicting claims as it was too voluminous to get up.

Mr. MEREDITH pointed out that Mr. Pardee's friends at Ottawa were not chary of asking for voluminous reports, nor the Government in granting them.

Mr. Pardee consented to let Mr. Wood see the correspondence.

MUSKOKA DAM, SLIDE AND BOOM CO.

Mr. CARNEGIE moved for a return of copies of the annual reports of the Muskoka Dam Slide and Boom Company for 1882 and 1883. He complained that the report moved for last session had not yet been brought down. Complaints were made about the monopoly of this company, and of their appropriating unmarked timber belonging to gentlemen using their drives.

Mr. FRASER said that the motion of last session was passed at the end of the session, and as these returns were made out by seasonal writers, who were not employed during the winter, the Secretary had not yet had time to bring down these papers. As to the monopoly spoken of, the company had performed a very useful work which could not be undertaken by the Government. As to the appropriation of unmarked timber, the persons aggrieved could take their remedies in the courts. The motion passed.

GRAVENHURST LICENSES.

Mr. MEREDITH moved for a return showing the population of the village of Gravenhurst according to the last Dominion census. Also the number of tavern licenses granted in the village during the license years 1881-82, 1882-83, and 1883-84.—Carried.

ALGOMA LAND SALES.

Mr. MEREDITH moved for a return showing what lands in the district of Algoma (including the disputed territory) have been sold or disposed of since the first of January, 1882 with the names of the persons to whom such lands were sold, and the price per acre paid or agreed to be paid therefor, and how much of it still remains unsold, and so far as practicable, the names of the persons by whom such lands are now owned or held. Carried.

ALGOMA MINERALS.

Mr. ERMITAGE moved for a return showing in detail all sums paid or claimed for specimens of minerals or other products of the District of Algoma during the past year for exhibition in Ontario or elsewhere, with the names of all persons by whom and to whom such payments were made, or by whom such claims were made, together with all papers, documents or communications concerning upon any person or persons authority to collect such exhibits, and all reports or communications made to the Government by any member or officer thereof by such person or persons. He stated that a advertisement signed "J. R. Pattillo" had been circulated offering money prizes for collections of Algoma minerals as stated in the resolutions, and as to appropriation has been made for the purpose he wished the information asked for.

The motion carried.

THE INTERIM ESTIMATE.
A message was brought down from the Lieutenant-Governor transmitting the interim estimate as follows:—
Civil Government \$ 80,000
Legislation 5,000
Immigration 5,000
Education 100,000
Administration of Justice 25,000
Public Institutions—Maintenance 50,000
Crown Lands—Expenditure 50,000
Miscellaneous 10,000
Agriculture 2,500
Total \$322,500
The House resolved itself into Committee of Supply on the estimate, which were reported and adopted.

THE LAKEFIELD DAM.

(By Telegraph to the Review.)
OTTAWA, Feb. 7.—The Dep. Minister of Railways and Canals has asserted that tenders will be immediately called for the construction of the new Lakefield dam.

Almost Asphyxiated.

On Wednesday morning Mr. Thomas Ritchie came near losing his life by being overcome by coal gas. It appears that a couple of the miners were broken out of the store in the hall, and the door at the top of the store had been left partially open. The gas consequently escaped and entered his room. He attempted in the morning to reach the stairs, but failed, and it was some time before he was fully restored to consciousness. He has happily recovered from all effects of this experience, but this should be a warning to others to look carefully after their coal stoves.

Look Out

for the great clearing sale of rich and valuable goods at W. Fairweather & Co., commencing next week. This firm, when they do advertise a clearing sale, mean business, and parties may depend upon bargains.

The Saved Army.

The Saved Army, an organization similar to, but distinct from the Salvation Army, are now arranging for an attack upon Peterborough. They are negotiating for the use of Bradburn's Opera House, but the negotiations are not yet closed. This army has detachments in Napanee, Cobourg, and Port Hope. The Cobourg Sentinel-Sun says that they are doing a good work in that town, judging from the large number of recruits. One good feature in their favor is the almost total absence of rowdiness on the streets at night.

Snow and Rain.

The weather probabilities for this district for the following twenty-four hours, counting from one o'clock this morning, as reported from the Toronto Observatory, are as follows:—Fresh to strong easterly winds, cloudy, milder weather, with light snow, probably changing to rain.

Town Council.

A regular meeting of the Town will be held in the Council Chamber at 7.30 o'clock this evening.

Petticoating for Protection Against Floods.

London, Ont. Feb. 6.—At a meeting of the London West Council last night, Councillor Collins, Reeve Platt, and Deputy Reeve Johnson were appointed a committee to get up petitions to the Dominion and Local Legislatures asking for assistance to protect the village from the disastrous effects of floods.

Stores Captured by the Rebels.

CAIRO, Feb. 6.—All specials agree that Tokar and Suddut are hopelessly lost. The fact that the British garrisons left Trinkitat creates a bad impression upon the minds of the Egyptians, and encourages the rebels. The rebels captured 5 guns, 35,000 pounds of cannon ammunition, 3,000 rifles, and an enormous quantity of cartridges.

Russ & Co., Burton-on-Trent, India Pale Ale now on draught, at Chamberlain's Restaurant—direct importation.

The Truth and Nothing Else.

Nowadays people want proof. Humbugs are more plentiful than dollars, and it is only by the greatest care that many are kept at recognition point that they are not fools. Proof is wanted, and that we can supply in connection with the claims of Putnam's Painless Corn Extractor as a sure, safe, and painless remedy for corns. Ask your druggist what he thinks of it. Ask any person who has used it. You will give you all the proof you want. Then buy a bottle, test it, and become missionary for Putnam's Painless Corn Extractor.

To Cure Pain.

The means which may be readily and successfully employed to relieve pain is important and should be known by all. We give you the name of the best remedy in the world for pain, and the information that a 10 cent bottle might be purchased at Ormond & Walsh's drug store. Putnam's Nervine, "the new and sure pain cure," will never fail you in time of need. Nervine is a safe and prompt cure for all kinds of pain, neuralgia, cramps, toothache, headache, safe always. Ten and 25 cent bottles at Ormond & Walsh's drug store.

A Good Cosmetic.—The best cosmetics are good soap and water to obtain purity of the skin, while fat, blotches, obstinate humors and imperfections of the blood, Burdock Blood Bitters is the best of all purifiers.

Singers and public speakers are always benefited by using Down's Balm, as it removes the hoarseness and increases the power of the voice. Take small doses often. Price, 25c, 50c, and \$1.00.

BLOOD RELATIONS.—The best blood relations consist of a perfect circulation of healthy vital fluid—pure blood and proper circulation may be established in the system by the use of that grand blood purifier, Burdock Blood Bitters.

WHAT A DEFENCE!

WHATEVER may be thought of the two telegrams from Algoma to Acting-Attorney-General Pardee, which were read in the Legislative Assembly as samples of the correspondence between his agents and him—whether they, with the rest of the documents, may be sufficient or not to procure a conviction of the conspirators for a punishable breach of the law—they certainly complete the proof, if they were indeed necessary, of the existence of a conspiracy to return a supporter of Mr. Mowat in defiance of the will of the electors. In the face of such documents, whose genuineness is not disputed, the line of defence of the leading Reform journal is as astounding as it is revolting. It absolutely attempts to justify this most iniquitous official tampering with the electors, and adopt these disgraceful proceedings, as far as it can, for its party. We cannot believe, however, that it really speaks for the Reform party in this matter, for if so, they would indeed be sunk in corruption and political depravity.

The Globe gives the following telegram and asks what there is so very awful and corrupt in it:

"RAT PORTAGE, Aug. 16, 1883.
Hon. T. B. Pardee, Acting Attorney-General,
Toronto:—

"Absolutely necessary that we should be placed in some shape to meet pressing emergency. We can secure the local newspaper's support for five hundred dollars, half down and half after the election. Most important that this should be done at once, as the enemy is trying to secure it. Negotiation will be conducted by outside party."

"GEO. BURDEN."

So the Globe would really have us believe that this is the proper kind of official correspondence to pass between a Provincial officer during an election campaign and the "Acting Attorney-General" of Ontario. We are told that in order to secure the control of the columns of the local newspaper the Government would have been fully justified in making the outlay of a much larger sum, so that we may expect, if the investigation of the public accounts is not buried as usual by a hostile committee, to find that the taxpayers of Ontario have been made to pay some pretty bill for the purchase of journalistic support for Mr. Mowat and his colleagues. This, no doubt, is the *Globe-Grip* idea of what is right and fitting, but even Mr. Burden shows his knowledge of the iniquity of his proposal, for he cautiously provides that the corrupt "negotiations will be conducted by outside party." Yet, the *Globe* tells us that "it was as legitimate to secure a newspaper for the advocacy of Ontario's rights as to hire the services of a constable." Just "as legitimate" truly—just as corrupt and dishonest—but we hardly expect this impudent admission of the truth that the so-called constables were hired, equally with the journalists, to aid in returning a bogus member for Algoma to support Mr. Mowat, and that at the cost of the Conservative taxpayers of Ontario.

Then, taking another line of defence, the *Globe*, though persisting that the proposal would have been perfectly defensible if acted upon, asserts that it was not, and that the telegram was not even answered. And Mr. Pardee left such a document unanswered. An honest man would surely have resented so foul an insult as the proposal to him of an action so dirty that it could not bear the light, and had to be carefully concealed from the eyes of upright men by the intervention of an "outside party." An honest and law-abiding Attorney-General would certainly have sharply condemned, and should have dismissed an officer who, neglecting his proper duties, was engaged in the work of corrupting an electorate, and who boldly invited his official chief to aid him in his evil deeds. Are we to understand also that in official correspondence of the Province of Ontario it is considered right for a public officer to speak of the majority of the electors of a constituency as "the enemy," if they do not happen to see with the same eyes as the Ministry of the day, and that the culprit is to receive no reproof for such an insult from the official chief whom he is addressing?

As to the corrupt proposal not being acted on the explanation is not far to seek. The conspirators judge it preferable to start a so-called

newspaper of their own, and to run this campaign sheet during the contest only, at an enormous expense. The public accounts should be carefully scrutinized to see under what deceptive head the Conservatives of Ontario are asked to pay for this costly effort of Moore, Mowat & Co. to influence the electors for their advantage.

Then the *Globe* asks what iniquity there is in the following document, which it publishes:—
RAT PORTAGE, Sept. 8, 1882.

Hon. T. B. Pardee, Toronto:
"Outlook so far splendid. High at Rainy River. Stipendiary gone to Fort Frances. He and friends say we must have fifteen hundred for legitimate expenses. Can you send it, and to whom."

AUBREY WHITE.
Truly it says that the request is "avowedly" for legitimate expenses or some such homage to virtue as the "outside" negotiator in the other telegram. And the *Globe's* idea (and Mr. Pardee's) of legitimate expenses is the "hiring of steamers and retaining them for days." Why these were the very means by which provision was made for disfranchising the Conservative electors by leaving polls unopened. The mention of localities to which two members of the gang had been despatched is also suggestive, for Rainy Lake and Fort Frances were two of the places thus fraudulently disfranchised—the excess of the plot, as will be remembered, calling forth a "Te Deum" from the pious Patullo. This time we are told that an answer was sent, and an official one, too, for "the Commissioner" (not acting as Attorney-General this time apparently), "regarded the sum mentioned as greatly too large for legitimate expenses."

Besides he had no funds available at the time, so he did not send them. There might be another reason for not sending them to this correspondent, which it would hardly have been politic to mention. Mr. Pardee might have felt doubtful about the prudence of entrusting so large a sum to one so brazenly lawless, and this, indeed, the sender of the message seemed to have anticipated from his suggestion of entrusting the cash to some other person. Perhaps Mr. Pardee took the hint and used some other channel, without thinking it necessary to state the fact to this particular accomplice; he, too, might have had an "outside party" in whom he had a little more confidence.

It may have been because Mr. Pardee was writing as Commissioner of Crown Lands and not as Acting Attorney-General in this instance, that he did not tell Stipendiary Lyons (who would apparently make a pretty pair with Stipendiary Peck) to attend to his own duties and to cease from disgracing the bench by active participation in the dirty and dishonest work of debauching a constituency, and disfranchising a portion of it. But if so how was it that the commissioner had no concern for an officer of his department, who was robbing the people of Ontario of their money by neglecting the official duties for which they were paying him and robbing the people of Algoma of their franchise by seditiously siding in the plot for the fraudulent return of Mr. Lyons.

The leading organ of these conspirators thus justifies the acts disclosed in these documents, which it allows to be genuine. It claims indeed that they were stolen, but this is apparent only an appeal for commiseration. We have already had four contradictory stories from these detected malefactors to account for the disclosure of their guilty secrets that they were stolen from the office, that the wires were tapped, that a skilled operator overheard the messages, and that some one either of the conspirators or in their confidence was made drunk or drugged and then robbed of the criminalizing documents. Evidently these are only the wild ones, and random guesses of men bewildered with despair and fear. There is no reason why the information should have been obtained in an illegitimate manner. How the documents were made available for the disclosure of some of the details of this crime will be known soon enough when they are produced in the law courts, where an investigation into the Algoma conspiracy is to be promptly conducted.

THE BYE-ELECTIONS.

The general rule under Parliamentary Government is that if either party obtains a large majority at a general election, their opponents make gains at the subsequent bye-elections. We find this to be the case at present in England. The *St. James' Gazette* says:—
"The Conservatives have effected a considerable decrease in the Liberal majority since the general election, having gained sixteen seats against only five won from them by the Liberals. The only Liberal victories since the general election have been at Brandon, in East Cumberland, at Liverpool, at Hastings and at Ipswich. Against these the Conservatives have won seats at Oxford, Sandwich, Wigtown, in Botschire, at Berwick, Liverpool, Evesham, Coventry, St. Ives, Knaresborough, in North Lincolnshire, in North Durham, at Stafford, at Salisbury, at Southampton, and at York. Thus the Conservatives have won the balance of eleven seats, counting twenty-two to a decision."

This is a remarkable contrast to the experience of the Conservative Administration of Sir John Macdonald in Canada. Notwithstanding the strong support which he obtained in the general election of 1878, the bye-elections added steadily to his already great majority. It is the same also with the present Parliament, the bye-elections since June, 1882, have left a balance in his favour and has increased his majority. There cannot be a stronger proof that the policy of his administration, and his conduct of affairs have the continued support and increasing appreciation of the country.

From the same paper we learn that the two parties have the same respective records in the Old Country as in Canada. The Liberals make hypocritical professions of their superior purity, but they are easily ahead in the adoption of corrupt practices. The *St. James' Gazette* says:—
"It should be mentioned that the six seats held by Liberals at Chester, Macclesfield, Gloucester, and Boston, and the three held by Conservatives at Canterbury and Boston, vacated on petition have not been filled; so that the Liberal majority is further reduced by three."

As in Canada, so in the British Island, the Conservatives with less pretensions have the power record.

TORONTO NEWS.

ILLEGAL LIQUOR SELLING.—A wily whiskey detective has been playing sad havoc with the licensed and unlicensed liquor dealers in the city.

ERKINE CHURCH.—The builders have commenced the work of removing the charred timbers from the ruins of Erskine Church preparatory to reconstructing the edifice.

SNOW BY-LAW.—Forty-nine persons were summoned before the Police Magistrate on Wednesday morning, charged with neglecting to clear the snow and ice from the sidewalk in front of their premises.

HUMBER RELIEF FUND.—The following subscriptions were received on Wednesday at the Mayor's office towards the Hummer relief fund: Toronto police force; \$142; collected at a service held under the auspices of Olive Branch No. 88, I. O. O. F., in the Methodist Church, Woodstock, \$25.

THE SIDEWALKS.—The police have received instructions to institute a vigorous campaign against all persons neglecting to clean the snow off their sidewalks. The east and police section have been busy for the past few days, but their labours do not seem to be crowned with success.

SALE OF HORSES.—The demand for horses of all classes is much better now than it has been for some months past. At the weekly sale at Grand's on Tuesday 40 horses were sold at good prices. Several wares were sold to Mr. Kelly for the Toronto street railway, averaging about \$145 each.

WESTERN CANADA LOAN AND SAVINGS COMPANY.—On Wednesday afternoon the Western Canada Loan and Savings Company held its twenty-first annual meeting. In attending the majority of the company cast their votes in its success in making its reserve fund or "rest," fifty per cent. on the paid up capital stock. This is the maximum rest which the directors propose to hold. In future all profits will be first added to the contingency fund to guard against possible losses, and after this provision has been made it is hoped to divide the surplus profits by way of bonus to shareholders over and above the uniform ten per cent. dividend paid for the past twenty-one years. The net profits for 1883 were \$363,956.32.

Notice to Contractors.

SEALED TENDERS, addressed to the undersigned and endorsed "Tender for St. Lawrence Canals," will be received at this office until the arrival of the eastern and western mails on TUESDAY, the 12th day of February next, for the construction of a lock and regulating weir for the deepening and enlargement of the upper entrance of the Cornwall Canal.

Also for the construction of a lock, together with the enlargement and deepening of the upper entrance of the Rapids Plat Canal, or middle division of the Cornwall Canal and the upper entrance of the Cornwall Canal and the upper entrance of the Rapids Plat Canal, together with plans and specifications of the respective works, can be seen at the Resident Engineer's office, District Engineer's Office, and for the works at the head of the Ontario Canal, at the Lock Keeper's house near the place, and in each case plans, etc., can be seen at this office on and after Tuesday, the 20th day of January, next, where printed forms of Tender can be obtained.

Contractors are hereby informed that trial pits have been sunk on the CORNWALL and RAPIDS PLAT sections of the works, and they are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms, and be accompanied by a letter stating that the person or persons tendering have carefully examined the locality, and the nature of the material found in the trial pits, etc.

In the case of firms there must be attached the actual signatures, the nature of the occupation and residence of each member of the firm; and further, a bond deposit, payable for the sum of \$4,000 must accompany the tender for the Cornwall Canal Works. The tender for the Rapids Plat works must be accompanied by a bond deposit for the sum of \$4,000. The respective deposit receipts (cheques will not be accepted) must be endorsed over to the Hon. the Minister of Railways and Canals, and will be forfeited if the party tendering declines entering into contract for the works at the rates and on the terms stated in the offer submitted. The deposit receipts shall be returned to the respective parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

Disasters Floods.

CINCINNATI, Feb. 6.—At 9 a.m. the river was 58 feet, and rising five inches an hour. The rain continues. All the small streams throughout the country are at flood height. Business in the lower part of the city is completely suspended on account of the flood. The Grand Central railroad depot was abandoned this morning. The warehouse of Duckworth's distillery was undermined and fell into the water; loss, large. Cattle pens, capable of feeding thousands of cattle, were also swept away, but the cattle were removed.

At nine this evening 60 feet 8 1/2 inches of water is the record. Street car travel is stopped between Cincinnati and Covington and Newport, and shifts will be carrying passengers to the suspension bridge before morning. The lower part of the city is already submerged, and hundreds, perhaps thousands, of houses are in the water. One of the highest stages of the river must exceed the highest stage last year. Lexington, Ind., is cut off from communication by railroad, telegraph, and telephone. There are grave fears of much damage if the new levee should break. Much the same state of affairs exists at other points in Ohio and Pennsylvania.—Williamport, Youngstown, Hillsboro, Pittsburg, etc.

Insolvent Debtors' Estates.

A petition bearing fifty six signatures of bankers and mercantile and manufacturing firms in the city has been forwarded to the Dominion Government by the Toronto Board of Trade. The petition is as follows:—

"That your petitioners are largely interested in business transactions, where credit is ordinarily given; That justice to creditors and debtors requires that means be provided for the equitable distribution of the assets of debtors after they have become insolvent and unable to pay their debts in full; and for the restraint of the unjust preferences which, under the laws of the various provinces, are so frequently obtained, to the prejudice of others, whose rights are thereby sacrificed; That the means provided for such distribution should apply to all the provinces of the Dominion.

That since the repeal of the Insolvent Law, in 1850, no such provision as that hereby sought has existed in any of the provinces, and the experience of the past four years has forcibly established the necessity for providing an efficient remedy, in order to prevent a continuation of the avoidable losses which have been sustained by creditors, in the absence of the necessary legislation to deal with the same. Wherefore, your petitioners humbly pray that a comprehensive measure, having for its object the equitable distribution of the assets of insolvent debtors shall be enacted during the present session of Parliament, so that the existing grievances may be effectually removed."

Immigration Returns.

OTTAWA, Feb. 6.—The following statement shows the number of immigrants who have arrived and remained in the country up to 31st of January, with a comparison of the numbers which arrived last year:—

French Artisans Better off Than Americans.

At a meeting of mechanics in Paris called Dumay, who recently visited the United States, said that although American workmen were better paid they were not better off than French artisans. He asserted that French machine work was better than American, because it was not so rapid. Frenchmen were freer to come and go from shop to shop than Americans. It was not unusual for American shops to forbid the employment of trade unionists. This was a violation of personal liberty.

Attack on Saskin Expected.

CAIRO, Feb. 6.—The fugitives huddled together on the shore at Trinitat and might easily have been slaughtered but the enemy abandoned the pursuit. The men were embarked as quickly as possible upon the steamer lying there, and with Baker Pasha and Col. Sartorius arrived at Saskin at midnight. Intense excitement prevails at Saskin to-day. An attack of the enemy is expected. The forts are occupied by English marines. The French agent has telegraphed for a man-of-war.

Another Egyptian Defeat.

CAIRO, Feb. 6.—The enemy have surrounded and destroyed Tewfik Bey and 400 followers between Sinek and the coast. Tewfik has been maintaining an obstinate resistance in Sinek. He was closely beset by the enemy. Word was received from him on Thursday that if relief did not arrive by Saturday he should make a desperate attempt to cut his way to the coast. The effort was futile.

(Painful Scenes at Saskin).

CAIRO, Feb. 6.—The scene at Saskin is described as a painful one. The wives of many of the dead soldiers have been bewailing their loss, tearing their hair and clothes in anguish. One thousand soldiers on board the transport Ontario at Suex have been ordered to Saskin. The Government has received advice confirming the report of the massacre of Tewfik Bey and his followers.

Safe Broken Open.

QUEBEC, Feb. 5.—Last night burglars effected an entrance into the office of S. Myers cigar manufacturer, and Rollen Bro's agricultural implement manufactory, and succeeded in opening the safe of both places by drilling a hole through the door and destroying the combination. They secured about \$30 at each place. There is no clue to the perpetrators.

Ship Burned.

LONDON, Ont., Feb. 6.—The Westminster skating ring owned by Thomas Brown, was totally destroyed by fire last night. A lamp upon the roof of the building, which was used for heating the entire structure, illuminated the sky for miles. Loss, \$4,500; insured for \$1,300 in the Guardian company.

Appropriation for the U. S. Navy.

The naval appropriation bill as agreed upon by the House committee appropriates \$14,329,000, or \$3,326,000 less than the estimate, and \$1,362,000 less than for the current year. A sufficient amount has been agreed upon to complete the four steel cruisers.

FROM ALL OVER.

One of the workmen at the Point Ann quarries, Belleville, had a finger cut off on Tuesday. U. KAN'T KOFF.—Climate Cough Cakes. Quick cure; of all dealers, 15 cts.

In a collision between native Algerian troops recently three were killed and many wounded. Don't Pull It.—Use Newton's one minute toothache cure. Relief at once; of all dealers, 15 cts.

So many write us of the merits of Zepeda, from the West, Canada, the East and at home; they write of being cured of Liver Troubles, of Urinary Troubles, Chronic Headaches, etc., but we cannot publish them—any drug store keeps Zepeda. Ask J. D. Tully.

The first game of the Montreal carnival hockey tournament came off on Monday, when the Victorias won from McGill by a goal, to nothing. The McGill men claimed a goal which the referee disallowed, whereon the McGill men had the bad taste to leave the ice.

IN DIXIE'S LAND.—J. Kennedy, dealer in drugs, etc., Dixie, Ontario, recommends Hagar's Pectoral Balm to his customers, it having cured his wife of a bad cough. It is the safest and surest remedy for all Throat and Lung Troubles, such as Asthma, Bronchitis, Whooping Cough and most pectoral complaints.

JOHN E. VERT, Hamilton, says: "McGregor's Speedy Cure for Dyspepsia and Indigestion is cheap at fifty times the price asked for it. I am a commercial man, and travel continually, and would no more think of leaving home without a bottle of McGregor's Speedy Cure in my valise than I would of leaving my team at home and going on foot." Free trial bottles at John McKee's Drug Store. Regular size fifty cents and one dollar.

A BAKER'S TESTIMONY.—For a Cough, Cold or any Bronchial affection, "Pectoris," in my opinion, is just the thing. I have used it in my family for Coughs and Colds for the past four years with the most unvaried success, and to-day my opinion of it is that I continue to think still more of that which I began thinking well of. Geo. Keen, Manager Ontario Bank, Pickering. Price 25 cents, at all druggists.

MRS. BARLOW, of Leicester, whose home some time ago presented the John Clay Barlow lifeboat to Great Harlepool, and who has since built a number of almshouses in memory of her brother, the late Mr. John Clay Barlow, has just given the sum of £3,000 for the erection of an additional church in the parish of Knighton, a Leicester suburb. This is the third new church that has been presented to Leicester by single individuals within a few years to meet the rapid increase of population. In two instances considerable endowments were also provided.

MRS. ELIZABETH MASON.—Dr. M. Souville & Co., Gentlemen.—Yours of last week to hand, and reply to your inquiry I have much pleasure in stating that from the first time of using the splanometer and the medicine I have improved very much. The bronchitis has entirely left me. I sleep well and have a good appetite. I must also add, that coming to you as I did as a last resort, the cure effected has been wonderful. Gratefully yours, MRS. E. MASON.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children's teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for children's teething is pleasant to the taste, and is the perfect and reliable use of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

Shiloh's Catarrh Remedy.

A marvelous cure for Catarrh, Biphtheria, Canker mouth, and Headache. With each bottle there is an ingenious nasal injector for the more successful treatment of these complaints without extra charge. Price 50 cts. Sold by J. D. Tully wholesale and agent.

Pimples and Blisters.—Call at John McKee's Drug Store and get a package of McGregor & Parke's Carbolic Ointment. It is composed of Vaseline, Carbolic Acid and Castile, and has never failed to remove Pimples, Blisters, Ulcerated Sores, Rough Skin. It cures when all others fail. Try it.

Shiloh's Arnica Salve.—The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, scalds, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 50 cents per box. For sale by Taylor & Macdonald.

Answer this Question.—Why do so many people who are around us seem to prefer to suffer and be made miserable by Indigestion, Constipation, Bile, Loss of Appetite, Coming up of the Food, Yellow Skin, when for 75c. we will sell them Shiloh's Vitalizer, guaranteed to cure them. Sold by J. D. Tully.

Sewer's Ammoniated Food for Flowers.—Plants like children, require constant attention, this does and they will grow and delight the whole household. To enable all lovers of flowers during winter months to enjoy this, nothing has yet been discovered equal to the Ammoniated Food for Flowers, sold by J. A. SIMMONS, SEED MERCHANT, TORONTO. Price 25 cents per package, post prepaid. Try it, and success is certain.

Our Canadian Industry.—The great difficulty to be contended with in the low grade of goods required, in nothing is this more apparent than in the comparatively small article of sewing silks. The great demand in Canada seems to be for a cheap quality, buyers forgetting that a cheap thread must necessarily be a fine and consequently a weak one. Messrs. Belding, Paul & Co. make three grades of spool silk; of these different qualities the poorest one has by far the largest sale, at the same time they constantly hear of complaints of poor sewing silk. If ladies will take the trouble to ask for Belding, Paul & Co's own brand, and see that their name is on the end of each spool, they will be sure of getting the best made.

THE FERRY DAVIS PAIN-KILLER sets forth with wonderful rapidity and never fails when taken at the commencement of an attack to cure Cholera, Cholera Morbus, as well as all summer complaints of a similar nature.

For Sudden Colds, Sore Throat, &c.

A teaspoonful of PAIN-KILLER taken at the beginning of an attack will prove an almost never failing cure, and save much suffering.

For Toothache, Burns, Scalds, Cuts, Bruises, &c.

The PAIN-KILLER will be found a willing physician ready and able to relieve your suffering without delay, and at a very insignificant cost.

For Cuts, Grains and Dysentery in Horses the PAIN-KILLER has no equal, and it has never been known to fail to effect a cure in a single instance. It is used in some of the largest liveries and horse infirmaries in the world. To subdue young lambs or other stock chilled and dying from cold, a little PAIN-KILLER mixed with milk will restore them to health very quickly.

THE PAIN-KILLER is for sale by Druggists, Apothecaries, Grocers and Medicine Dealers throughout the world.

CORRECTION.

MR. CANNON desires us to state that his
reference to "a man who had thousands of dollars
of Government money in his hands to buy
cattle, when all he knew about it was learned
behind a bar in the county of Peel" did not
refer to Mr. John Boyd, but to Mr. H. Hunter,
whose name appears in the public accounts of
1882 for \$57,706 for the purchase of cattle and
sheep for butchering, cattle ranches, &c., for
various public institutions. There are other
manifest errors in the same report, which it is
unnecessary to refer to.

A FOUL BLOW.

THE traitorous journal which is the leading
organ of the Reform party, and of the United
States rivals of the Canadian Pacific Railway,
in its desire to serve the interests of its friends,
actually states in so many words that the com-
pany has become insolvent. Of course the
Globe knows that this is a diabolical falsehood,
uttered for the purpose of aiding in the attempt
to break down our great Canadian road. It is
certain that the company is perfectly solvent,
and well able to carry out its contract by the
stipulated time. The only question is whether
it will pay Canada to advance them twenty
millions in order to obtain the completion of the
line six years in advance of the contract time.
There may be an honest difference of opinion as
to whether this bargain would be profitable to
the country or not. There can be no difference
of opinion among honest men as to the desper-
ately and disloyal conduct of a Canadian journal,
that having done much by falsehood and slander
to prevent a Canadian company from availing
itself of its own resources, now endeavours to
work further mischief in the interest of its
foreign allies by this mendacious charge of in-
solventcy.

E. V. C.

As a fresh proof of the interest taken by the
present Dominion Government in our navigable
waters, and as a good augury for the steady
prosecution of the works for the opening of the
Trent Valley Navigation, we welcome the invita-
tion for tenders for the construction of a new
dam at Lakefield. It is well known to our
readers how necessary such a step is for the
maintenance of the local navigation above Lake-
field, and the great inconvenience caused by
past neglect before the dam in question was
happily assumed by the Ottawa authorities.
And besides this local benefit the construction
of a satisfactory dam at Lakefield in combina-
tion with that now under contract at Young's
Point, and the works in progress at Burleigh,
Buckhorn, and Fessenden Falls will have the ad-
vantage of making and keeping navigable a
long stretch of the Trent Valley Canal. With
the opening of the section between Peterboro-
ugh and Lakefield, for which we hope an ap-
propriation will be made this season, there
would be uninterrupted navigation from below
Hastings on the Trent up to Balsam Lake and
its contents.

MONTREAL CARNIVAL.

MONTREAL, Feb. 8.—There was an immense
multitude at the Lansdowne slide at the slope
of Mount Royal in the afternoon to witness his
Lordship's formal opening.
From midday until two o'clock the Governor-
General and the Marchioness had a reception
in the Windsor hotel, when a large number of
the elite were present. At half-past two their
Excellencies joined in a sleighing party, which
the citizens inaugurated at the previous carnival.
In a well-appointed sleigh drawn by four
horses, the viceregal party took the lead and
drove through the principal avenues of the city
at the head of the procession.
At eight o'clock the ceremony of taking the
Ice Palace by storm by 1,500 snowshoers with
torches took place. It was a remarkably pic-
tureque scene, especially when the furious
protections displayed added to the brilliancy.
Their Excellencies viewed the proceedings from
their windows at the Windsor hotel.

ONTARIO LEGISLATURE.

First Session of the Fifth Legislative Assem-
bly of the Province.
CABINET CHANGES.

Mr. Mowat said that the recent Cabinet
changes would cause no change in the Govern-
ment's policy, which with audacious hypocrisy
after recent events he described as being "the
very best possible laws, the very best possible ad-
ministration of public affairs, and the best pos-
sible use of public moneys in the public inter-
est." He boasted of the length of his adminis-
tration as compared with those in Australia and
other places. As to the changes, Mr. Wood
has resigned the Treasury (no explanation
of the long interregnum), Mr. Young had been
appointed in his place, but had resigned on the
ground of ill health, and Mr. A. M. Ross had
been appointed in his place. Mr. Crooks, whom
he praised, had been succeeded as Minister of
Education by Mr. G. W. Ross. The only
change of policy was that the Acting Minister
had authorized more than one set of readers and
the present Minister would only have one.

Mr. MEREDITH said Mr. Mowat need not
have gone so far as to compare the duration of
administration, for Sir John Macdonald had
practically controlled the destinies of this
country from 1864 to the present time, with the
exception of the two years of the Brown-Dorion
Administration, and the four years of the Mac-
kenzie Administration. He referred jokingly
to some of the candidates for portfolios, whose
seats were not safe enough to be ventured.
The Attorney-General had not given one reason
why the Minister of Education had taken that
position, which in his own words, was to use the
Local Legislature as a "keystone to power at
Ottawa." For his party he objected to having
a politician at the head of the Educational De-
partment. He remarked upon there being no
farmer in the Cabinet, and five lawyers, one of
them by Act of Parliament.

Mr. G. W. Ross complained of the allusion
to the fact of his being made a lawyer by act of
Parliament, and alluded to the time when he
was School Inspector, and when he was at Ot-
tawa as M.P., should count as if he were in a
law office. He said that the Hon. Mr. Mac-
donald and the Hon. Wm. Foley had been ad-
mitted by act of Parliament.

Mr. MEREDITH corrected him, for both these
distinguished gentlemen had been practicing as
solicitors for years before being called to the
bar by act of Parliament. Mr. Ross' case was
unprecedented, though they had been flooded by
petitions. When the bill was introduced he
had called attention to its exceptional character,
and only refrained from opposing it, because
Mr. Ross was such a strenuous opponent of his
party.

Mr. FRASER repeated the dirty and cowardly
jibe of the Attorney-General, that the Opposi-
tion were perfectly powerless. A Conservative
had been accorded a similar privilege last ses-
sion.

Mr. MEREDITH said that it was not until the
Government had set the precedent in the case
of Mr. Ross, which was the first in their history.

THE ELECTIONS IN ALGOMA.

Mr. MOWAT, in answer to Mr. Meredith, said
Mr. Fessenden and Mr. Burden were appointed
on July 12th, 1883, by commission under order-
in-council to look after the interest of Ontario
in Algoma, as to questions arising between
this Province and Manitoba. Mr. Burden was
also Chief of Police without a commission. Mr.
Fessenden had written a pamphlet and had super-
intended the collection of products of the country
for exhibition. Mr. Burden was paid \$1,000 a
year with board and travelling expenses. Their
engagement and their pay were still going on.

THE ALGOMA DISFRANCHISEMENT.

Mr. MOWAT, in answer to Mr. Meredith, ad-
mitted that of places named for polls in Algoma,
by statute, no polls were held at Algoma Mills
(because of a storm), nor at Nipigon Bay,
though one was held at Nipigon Village (three
miles off), nor at Batchewane, though there
was one instead of Manawan Mine (30 miles dis-
tant). Then as to no polling places named in
the proclamation no polls had been opened at
Rainy River and Fort Frances, first, because
the deputy returning officer had misadvised
the electors, and secondly, because he got caught
by another storm. As to his opinion—If the
votes at the places where polls were not held
were sufficient to affect the result, the judges
would probably say the election was fatal to
the election, but he did not think the error
under the circumstances voided the election.
He did not remember giving an opinion that
the election was voided.

THE ALGOMA FRAUDS.

Mr. MEREDITH moved for a number of papers
chiefly for information as to the duties proceed-
ing of the Algoma elections.

THE BOYS' ELECTIONS.

Mr. MEREDITH moved for papers as to the
last election in Algoma, and especially as to
fixing the polling places. These polling places
were fixed not by the returning officer, but by
the Government of the day. Mr. Fessenden
warned his proteges on nomination day, but
could not get other polling places opened.
Yet when the Reformers found it desirable, two
or three days before the polling, they made ar-
rangements to open another booth. Perhaps
the reason they could not do so in Cookburn
Island was that there was only one Reform
voter there.

Mr. MOWAT said Mr. Plummer should not
have waited till nomination day.
Mr. MEREDITH said the polling places were
kept secret till then, when a protest was at once
entered.

Mr. MOWAT said 30 polling places were fixed
by statute, 20 more were fixed by Order-in-
Council, and on the recommendation of the
Returning Officer other polls were added by
another order. Others could only have been
legally added by Order-in-Council, the Return-
ing Officer could not do it. Then, taking leave
of truth altogether, he said there were voters at
other places, but only a few.

Mr. MEREDITH asked if these were to be dis-
franchised?

Mr. MOWAT thought that was preferable to
having a number of false votes put in, probably
meaning the same class of voters for rejecting
which his friend Apjohn was fined, that is, good
Conservative voters.

Mr. MORRIS said the villages had grown con-
siderably since the last Provincial election, but
there was no effort to supply these with the re-
quired polling places. There were two hundred
settlers on Cookburn Island.

Mr. HARTY hazarded the false statement
that there were 30 families and 74 voters. They
could have gone to polling places only 26 miles
off.

Mr. MEREDITH said they could not on account
of the storm. The returning officer had been
applied to repeatedly as to the polling places,
but had refused information. The Govern-
ment should have given notice of the polling
early, and then other required might have
been applied for.

Mr. FARRER characterized it as a trifling mat-
ter, and said the Cookburn Islanders had gone
to Thomson to poll.

Mr. MEREDITH said they had gone there but
they could not vote because ballot papers were
not provided.

Mr. LYON, pretending to represent Algoma,

made some remarks in favor of his fraudulent
election.
Mr. CANNON read from the report of the
Upper Canada Bible Society the statement that
their colporteur had visited sixty families on
Cookburn Island.
Mr. CRIGGTON moved the adjournment of
the debate.

MINDEN.

FATAL ACCIDENT.—One of the most melan-
choly accidents that has occurred for some time
took place on Friday last at John Coburn's
lumber shanty in the township of Sherbourne.
It is a common thing in the woods to draw logs
to the edge of a precipice or steep hill and dump
them over, to be skidded at the bottom. On
Friday morning James Quigley, and two others
were engaged in skidding away, and the foot
of one of these mountain dumps, skidding the
logs as they came down. A load of three logs
was brought to the dump, and the first two
logs landed at the skid, and on Quigley and
his two companions stood on the last log of the
skidway farthest from the dump. Quigley
being in the middle, and the other two at
either end. The usual warning was given from
above and the third log was rolled over. Down
it came, whirling through the air, and landing
on the heads of the men, the log was going to
come to them, O'Brien, who was on the end
where the log was coming, tried to jump out of
the middle, jumped off, and tried to run
ahead of it. The log, a twenty-four inch one,
and sixteen feet long, came bounding along,
struck Quigley in the back, knocked him on his
face, and then crushing his chest and shoulders,
splintered the poor fellows' brains for some
distance. Death was instantaneous. One of the
peculiar features of the case was that the
unfortunate young man had a premonition of
his impending fate, on the night before. On
Friday morning when he awoke he told his
companions that he had dreamed that a fatal
accident had occurred, that some one had been
killed with a tree, and so impressed was he with
the dream, and that some fatal accident was
about to occur, that he declined to go out
work. After a time he was persuaded to go
out, but altogether against his inclination, and
the result was a melancholy verification of his
premonition. The young man was much
esteemed. He was conveyed to the home of
his brother in Verulam, on Saturday.—*Bolton-
peop Independent.*

Prof. Hotchkim's treatment is practical, rational and
economical. Its object is immediate relief and event-
ual cure. It is based on scientific principles and
demonstrated to the comprehension of every in-
telligent person, that a truss without steel springs or
hard substances, having neither inguinal and umbilical
as well as Ventral, at the advanced age respectively
of from 65 and 90 years, must stand the test
against all Spring Trusses to children as well as adults.

TOWN COUNCIL MEETING

A SHORT SESSION OF THE FATHERS ON FRIDAY EVENING.

Can Church Property be Taken For Fire Protection?—Amendments to the Assessment Act Asked—The Town and Ashburnham—Communications and Accounts.

A meeting of the Town Council was held on Friday evening.

PRESENT.—His Worship Mayor Cox in the chair, and Councillors, Cahill, Green, Allen, Miller, Rutherford, Kendry and Menzies.

The minutes of the last meeting were read and confirmed.

COMMUNICATIONS.

From E. B. Edwards, stating that he had prepared a by-law for the granting of a portion of Murray street to the Wm. Hamilton Manufacturing Company, and that notice would be required to be given before the by-law was passed.—Received.

From E. B. Edwards, stating that the Collector had applied to him for an opinion as to whether the water rate could be collected on church property, and stating that, in his opinion, this rate for fire protection could not be collected on churches.—Fire, Water and Gas Committee.

From Robert Duncan, Water street, asking remission of his water rate tax.—Fire, Water and Gas Committee.

From Robert White, calling the attention of the Council to the fact that he had been fined in the Police Court for keeping a livery stable without a licence, and stating that the Magistrate assured him that the fine had been imposed under a misapprehension of the facts, and asked that the fine be remitted.—License Committee.

ACCOUNTS.

The following accounts were read and ordered to be paid:—

John Hurley, tickets \$97 30
Gen. Johnston, Smith, wood 27 50

A BY-LAW.

A by-law was introduced and read a first time, conveying a portion of Murray street to the Wm. Hamilton Manufacturing Company.

THE ASSESSMENT ROLL.

Councillor CAHILL moved, seconded by Councillor MENZIES.—That in the opinion of this Council it is desirable that the time within which appeals may be made to the Court of Revision and the County Judge should be curtailed, so that the assessment roll, in municipalities where the assessment is made between the first day of February and the first day of May, may be finally revised by the County Judge not later than the 30th of June in each year, and that the Collector's roll may be placed in the hands of the Collector not later than the 20th of July. Also that the Municipal Act may be so amended as to give power to municipalities to give a rebate on taxes to persons who pay their taxes before a certain date, to be fixed by by-law. And this Council is further of opinion that such amendments would enable municipalities to collect their taxes within the year for which they are levied, and render accounts of corporations more intelligible and satisfactory, and also enable the Clerks of municipalities to make out voters' lists at an earlier date than at present, all of which, in the opinion of this Council, would be of advantage. And that the Clerk be instructed to forward a copy of this motion to the Attorney-General and to our local members of Parliament.

Councillor CAHILL said that it was the general impression that it would be easier for many persons to pay their taxes in the summer months than in the winter. He was sorry that they had not had a representative at the assessment convention in Toronto. Another thing which he had contended for was that if a rebate were allowed to those who paid their taxes at an early date, instead of imposing interest, it would appear less harassing.

The MAYOR—in Toronto they pay their taxes in three instalments.

Councillor CAHILL said that that plan had been tried here one year, and did not prove satisfactory.

Councillor RUTHERFORD suggested that the motion should go further and ask the Legislature to have, in some cases, the tax now paid by the tenants paid by the landlords. It would save the municipality much trouble.

Councillor MENZIES also argued that the tax should be paid by the landlords. He referred to a law in some of the States in which a man's goods could not be seized for taxes or rent, and he thought it a good law.

Councillor CAHILL said that it would be a great hardship for a landlord who had a poor tenant, and did not receive any rent, to have to pay the taxes also.

THE TOWN AND THE VILLAGE.

Councillor RUTHERFORD moved, seconded by Councillor MENZIES.—That the Committee on Fire, Water and Gas be authorized to arrange with the Ashburnham Council or its Heave in regard to the amount due this Corporation for fire protection, and report.—Carried.

The Council adjourned until the evening of Friday, Feb. 23th.

Turnbull's Importations of Spring Prints are almost all in. They are pronounced beautiful and cheap.

El Mahdi's Dream of Conquest.

A Soudan despatch says:—A spy reports that El Mahdi recently wrote to Osman Digna that he intended to invade Turkey and kill the Sultan, conquer Egypt, and eventually subjugate the world. It is feared the Mahdists will massacre the Europeans here.

A Pamphlet on Ireland.

In view of the coming debate on Ireland, T. M. Healy, member for Monaghan, published a pamphlet entitled "Loyalty and Unionism," containing extracts from his own Orange speeches, and articles and descriptions of scenes of violence in Ulster in which Orangemen participated. In the introduction Healy attacks Karl Spencer, the Lord-Lieutenant of Ireland. The pamphlet is bound in orange coloured covers.

The French Press on England's Failure. Parisian newspapers are indulging in much sarcasm at the failure of England's policy in Egypt.

Italy on Baker Pasha's Defeat. Rome, Feb. 7.—The report of Baker Pasha's defeat has caused an immense sensation here. The semi-official *Diritto* denounces Baker Pasha's tyrannical conduct in leading raw levies against the victorious troops of the Mahdi. It insinuates that he did so deliberately, knowing that defeat was certain. "The truth may not come out for half a century," it adds, "all we know at present is that the military reputation of England is humiliated."

O'Donnell Defence Fund. New York, Feb. 7.—The audit of the Martyn's and O'Donnell Defence funds has been completed. It shows the total collected to be \$65,000. Disbursed, \$6,000 to the families of martyrs; \$19,000 for legal defence, and \$5,000 miscellaneous, leaving a balance of \$35,000. Five thousand dollars have been placed in the hands of a committee, to be distributed among the relatives of O'Donnell. Part of the remainder will be devoted to the erection of a monument to O'Donnell in the churchyard of his native village in Donegal.

THE FLOODS.

Accounts from Various Districts of the State of the Inundations.

BUFFALO, N. Y., (Feb. 7).—The suffering in Cincinnati by reason of the Ohio river floods is great, and is increasing hourly. Sister cities have been telegraphed to for help, particularly for boats to rescue families stranded up in the upper stories of the houses.

CINCINNATI, Feb. 7.—The merchants have organized a police for the protection of property. Sandusky, Toledo and Cleveland have been asked for boats to be used for the relief of families in the submerged districts. The river here is 61 feet 6 inches, and still rising. There is slight rain at intervals. The Common Council has decided to ask authority for a loan of \$300,000 for the relief fund. Ten school-houses have been placed at the disposal of the relief Committee.

WHEELING, W. Va., Feb.—The section of the city south of 16th street, embracing a population of 2,000, is almost wholly under water. Pittsburgh, Feb. 7.—The river is receding, and has cleared the worst is over. Between five and six thousand buildings in the two sides have been submerged and the residences of 35,000 people, 10,000 of which will not be able to occupy their homes. The unemployed are thrown out of employment by the stoppage of the factories.

CLEVELAND, O., Feb. 7.—The rains have ceased and the waters are falling in Northern Ohio. Thus far the floods have occasioned little damage here. The wharves are all under water, and lumber yards have suffered considerably.

See the New Spring Frost Turnbull is sailing at 50 a yard.

Troops for Egypt.

LONDON, Feb. 7.—It was rumoured in London last night that a large force of British troops would immediately be sent to Egypt. The Times, however, says no orders have been received at any of the war offices in regard to the despatch of troops. Many officers, it adds, have volunteered for service in Egypt.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, scalds, and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 50 cents per box. For sale by Taylor & Macdonald.

Answer this Question.

Why do so many people we see around us seem to prefer to suffer and be made miserable by indigestion, constipation, flatulency, Loss of Appetite, Coma, and other ailments, when we can, for 75c, we will sell them Shiloh's Vitalizer, guaranteed to cure them. Sold by J. D. Tully.

Our Canadian Industry is prosperous. The great difficulty to be contended with is the low grade of goods required. In nothing is this more apparent than in the comparatively small amount of goods required. The great demand in Canada seems to be for a cheap quality, buyers supposing that a cheap thread must necessarily be a fine and consequently a weak one. Moore's Binding, Paul & Co. make three grades of good silk; of these different qualities the poorest one has by far the largest sale, at the same time they constantly hear of complaints of poor sewing silk. If ladies will take the trouble to examine the Paul & Co. own brand, and see that their name is on the end of each spool, they will be sure of getting the best made.

Plain Truths!

The blood is the foundation of life, it circulates through every part of the body and unless it is pure and rich, good health is impossible, if disease has entered the system the only sure and quick way to drive it out is to purify and enrich the blood.

These simple facts are well known and the highest medical authorities agree that nothing but iron will restore the blood to its natural condition; and also that all the Iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

SULPHUR AND IRON BITTERS will thoroughly and quickly assimilate with the blood, purifying and strengthening it and thus drive disease from any part of the system, and it will not blacken the teeth cause headache or constipation and is positively non-injurious.

St. Johnsbury, Vermont, Oct. 31st 1883.

For six years I have been a great sufferer from blood disease, dyspepsia and constipation, and became so debilitated that I could not retain anything on my stomach. I tried many remedies but became a burden to my family. I was induced to give Sulphur and Iron Bitters a trial I am now taking the third bottle and have not felt so well in six years as I do at present.

MRS. S. L. MOORE.

SULPHUR AND IRON BITTERS effectually cures dyspepsia, indigestion and weakness, and renders the greatest relief and benefit to persons suffering from such diseases as kidney and liver complaints, dyspepsia, indigestion, etc.

LOCAL NEWS

Turnbull has just placed on his counter a nice range of Spring Dress Goods at the Low Price of 15c. a yard.

The police cells were occupied last night by four tramps.

Entertainment. An entertainment will be given in St. John's Chapel, under the auspices of the Girl's Friendly Aid Society, on the evening of Wednesday, February 13th. The opening piece will be given by the associates of the Society.

The Town Clock. There is evidently something wrong with the town clock, as it has not tolled the passing hours for two days past. This is inconvenient to many, especially mechanics, many of whom time their work by it, and it should be attended to.

Social. A social will be held at the Parsonage, Ashburnham, on Monday evening next, the 11th instant, from seven o'clock. The members of St. Luke's congregation, their friends and the public generally are cordially invited. The public skilful amateurs of Peterborough have promised to take part in the musical programme. Refreshments will be served about nine o'clock. Admission twenty-five cents.

That New Black Satin Sold Turnbull has just received is one of the richest materials ever introduced in the West for Ladies' Dresses. Come and see it.

Resignation of Father Lynch. The Lindsay Post says that after mass on Sunday, Feb. 3rd, the Rev. Father Lynch announced to the congregation of St. Mary's that he had placed in Bishop Janot's hands his resignation of the charge of the parish. Father Lynch is well advanced in years and has found the care of so large and populous a parish more than he could safely undertake. He will, it is understood, seek rest and recreation for some time. While Father Lynch has had charge of the parish hardly a year he has been very highly respected, and the announcement will occasion much regret.

Personal. Mr. A. H. Smith, wife and daughter, of Rochester, N.Y., are on a visit to friends in this section, and are at present the guests of Mr. William Reynolds, Millbrook.

The local members of both the Dominion and Provincial Parliaments have returned home to spend Sunday with their families. Messrs. T. Blizard, M. P. P., and J. M. Ferris, M. P. P., registered at the Grand Central last night.

Mr. H. C. Danforth, manager of Skiff & Gayle's Great Unique Novelty Company, is registered at the Grand Central. He has arranged for the appearance of that company in the Opera House on the evenings of Feb. 18th, 19th and 20th.

The annual social of the Lindsay Baptist Church, held on the evening of Thursday, Jan. 31st, was very successful. The Post thus refers to an address by the Rev. A. H. Munro:—"The event of the evening, however, was a terse and vigorous address by Rev. Mr. Munro, of Peterborough. When the Rev. gentleman again appears on a Lindsay platform we predict for him a large and appreciative audience."

Installation of Officers. The officers of Carwell Lodge, I.O.G.T., for the present term, were installed at the regular meeting on Friday evening, by Bro. G. J. Early, Lodge Deputy. The following are the officers:—

Bro. J. Matheson.....W.C.T.
Sister M. McGregor.....W.V.T.
" V. Westcott.....Sec.
Bro. W. Ford.....F.S.
Sister M. Koolaher.....Treas.
Bro. D. Baple.....Chap.
Bro. D. Kernaghan.....W.M.
Sister L. Tighe.....D.M.
" A. Kent.....W.R.E.S.
" H. Wallace.....W.L.E.S.
Bro. Udy.....I.G.
Bro. W. Huffman.....O.G.

This Lodge appears to be prospering, fourteen members having been initiated during the past three months.

A MASQUERADE ON ICE.

THE SECOND SKATING CARNIVAL OF THE SEASON A BRILLIANT SUCCESS.

A Picaresque Scene—A Large Number in Costume—The Names of the Prize Winners and a List of the Masqueraders with the Characters Assumed.

From the time when that ingenious Norsk fisherman first strapped bleached bones to the soles of his boots to speed him on his journey from hamlet to hamlet across the frozen bays of the Cattergat down to the scene at the Peterborough rink on Friday night is a long step. From that day to this skating has been the universal type of healthful outdoor pleasure in northern climates, and to add to such physical exercise artistic adornment in the shape of fancy costumes—with the necessary intellectual effort that this necessitates—is to add other and beneficial factors. The most critical moralist could hardly gainsay such a truism, and any such attempt could be frustrated by pointing to the brilliant scene at yesterday's carnival.

Barley—we may perhaps venture to go so far as to say never—has Peterborough witnessed so gay a spectacle. The number of fancy costumes was large, and by no means a few were excellent, showing not only taste in conception, but skill in production.

Amongst so many of a high standard of merit it is difficult to make a choice of any upon which to remark. One pretty idea, however, we may mention as being somewhat novel, viz: the group which we may best describe in the title of a late novel—"All in a Garden Fair." The various flowers it was of course very difficult to copy—noticeably the "Fuchsia," but a "Gardener" was present to attend them, and a gay "Butterfly" seemed in no way incommoded by the incongruity of these paper petals.

A high caste Hindu Lady and her Pariah Chokra with his Tammerband were very correctly represented; the influence of Zenana Missions being apparent by the fact that the lady did not even wear her Sari or veil. The capriciousness of a black bottle tantalized many—especially as no cork-screw was present. By-the-by, were the contents Cognac or Pale Ale? "Old Mother Hubbard" was charmingly represented. Another novel costume, not before seen in Peterborough, we believe, was "The Bell Telephone," which was complete in every respect. "Music" was one of the best costumes on the ice. It was characteristic of the name, and was tastefully decorated with lines of music, among which was "God Save the Queen," and "Old Lang Syne."

It is impossible to do justice even to the best. We append a list of the Skaters in costume with the characters assumed.

The judges who performed their arduous duties to the satisfaction of all, were as follows: Messrs. T. F. Lewis, M. Miller and R. Hall. LADY JUDGES.—Mrs. R. Hamilton, Mrs. Dr. Pigeon and Mrs. White.

(Mrs. Pigeon and Mrs. White acted in the absence of Mrs. M. Miller, who was through a slight indisposition, unable to be present.) PRIZE WINNERS. The following is a list of those who won the tempting prizes: BEST DRESSED LADY (in fancy costume) Miss Annie Delaney. BEST DRESSED LADY (in comic costume) Miss Jennie Taylor. BEST DRESSED GIRL (under 14 years of age) Miss Bella Fairbairn. BEST DRESSED GENTLEMAN (in fancy costume) Mr. Harry Niel. BEST DRESSED GENTLEMAN (in comic costume) Mr. H. Roper. BEST DRESSED BOY (under 14 years of age) Master Herbert Haultain.

LIST OF CHARACTERS. The following is a complete list of the characters as could be obtained:— A FLOWER GARDEN. Miss Lillie Smith.....Fuchsia " Elsie Smith.....Rose " Mackerras.....Poppy " Eula Dennistoun.....Big Bell " Maggie Dennistoun.....Sunflower " Maudie Dennistoun.....Marguerite " Mr. Herbert Hamilton.....Butterfly " Vernon Halliday.....Gardener " Note.—The whole of the above group was supposed to represent a flower garden.

Railway Notes. A deputation from Kirkfield, composed of Messrs. Wm. McKenzie, R. C. Campbell, Hector Campbell, M. Perry, Finlay McKee and John Macdonald, waited upon Mr. A. White, Manager of the Midland Division of the G.T.R., this afternoon to urge upon him the necessity for restoring the station agency at that place. They put up at the Grand Central Hotel. A new passenger coach, No. 38, of the Midland Railway of Canada, made its appearance to-day, having been brought from the east by the Belleville train. It is a well finished coach, and is handsomely painted inside in bright colors.

Turnbull's shelves were never so well filled as at present with Fresh Breads, Buns, Biscuits, Cakes, etc., etc. In the very best makes, such as every farmer can appreciate. Inspection invited.

Extracts from Opinions of the Press. Patent Trusses—Instruments of this kind are subject to suspicion and criticism, but it is an established fact that much good has been done by Mr. Charles Cluthe, and his career has been marked with steady success. —*London Advertiser*, Jan. 30th, 1881.

Mr. Charles Cluthe, Toronto, has attained a widespread reputation for cure of rupture and deformities by mechanical treatment. —*Toronto Daily Mail*, January 1st, 1881.

Mr. Charles Cluthe is a gentleman who has large experience in this line of work, and is known all over the Dominion as a man of very rare ability and skill. —*Success*, Charles Cluthe, the Surgical Mechanic of Toronto, concluded his periodical visit here to-day and reports his accustomed success. Few have mastered his difficult profession as thoroughly as he has, and certainly none have attained public fame and confidence as rapidly. He deserves his success. —*Kingston British Whig*, March 14, 1878.

Mr. Cluthe will visit Peterborough, on Saturday, February 16, and may be consulted at his rooms in the Grand Central Hotel (late Cassie House). He will have a supply of his Patent Trusses and other celebrated surgical instruments. Parties requiring his advice are requested to call early in the day as Mr. Cluthe's time is limited.

Turnbull's Black Cashmere will bear close inspection. The Quality, Colors and Prices are right. A full range now in stock.

CAMPBELLFORD.

FIRE.—The interior of Mr. Carleton's bakery had a slight scorching on Monday morning but the timely application of water carried in pails effected the rescue of the building from the flames.

GOING TO WORK AGAIN.—Men are now busy in the Trent Valley woolen mills preparing the fleeces, and large quantities of wool are arriving for use in the establishment. We believe the quietness which has reigned about the place for some weeks past, will be succeeded very soon by busy toil, and when the machinery moves again, it will continue running until the large staff previously employed is summoned back again to their work.

FRAGTURE FROM A FALL.—On Monday at about eleven o'clock John W. Todd fell on the sidewalk in front of Mr. Jarry's barber shop, and broke the thigh bone of her leg. She called for assistance, and several gentlemen ran and picked her up and carried into Dr. Wallace's drug store. She was afterwards taken to the residence of Mr. George Smith, for treatment. Mrs. Todd is a resident of Stirling, and is about 70 years of age. — *Herald*.

The Remains of DeLong. HAMBURG, Feb. 6.—At a funeral service yesterday over the remains of DeLong and his comrades the coffin were buried under wreaths of flowers. Among the persons present were the burgomasters of several cities, many members of the Senate, and the presidents of chambers of commerce. The Burgomaster of Hamburg placed a wreath upon the coffin of DeLong in the name of the city and Senate, and delivered an address. Prof. Neumayer, on behalf of the geographical society of Hamburg, Vienna, Munich, and Berlin, placed wreaths upon the coffin. The committee for the DeLong did the same. Lieut. Harper, United States Consul Bailey returned thanks for the honours paid the deceased. At ten o'clock this morning the remains of Commander DeLong and his comrades were quietly placed on board the Frigate, where they occupy a special apartment. The Frigate has set sail for New York.

TESTIMONIALS.

DOUBLE SPINAL CURVATURE. GILFORD, Ont., Nov. 9th, 1883.

To Mr. Cluthe, Dear Sir,—I thought it my duty to write and tell you how we got along with the apparatus you made for my little girl in April. I can safely say from the day she put it on until to-day she has never once complained. She seems as well apparently as ever. Before I got it she could neither get up nor down herself, and would cry with the pain in her back, and I am sure in another month or so she would have been a helpless cripple, but for the instrument I got from you. I have often said since, your name and skill should be spread the world over. People here think it a miracle. The spine of her back is almost straight again. I feel as if I could send your praise from shore to shore. Hoping God will long spare your life to relieve the suffering, I am, dear Sir, yours very gratefully, MRS. THOS. KNEISHAW, P. M. Gilford, Ont.

I thought your price was great, but it is worth ten times \$25. Would like to have a line from you. In case of spine disease never consent to have the main portion of your body encased in plaster jackets; it never carried the weight above a diseased part, which is the only hope and relief in spine disease, and close the pores of a large surface, which is and has been the ruin of thousands, and were induced to wear them. Contrast in weight alone 8 to 12 pounds the jacket; 1 pound the apparatus. Chas. Cluthe's perfected trusses, best in use. Not only on paper, but in fact. Call or address CHAS. CLUTHE, 118 King street west, Toronto, Ont.

Will visit, with supply, Peterborough, Grand Central Hotel, (late Calise House), SATURDAY, FEB. 16th, Belleville, Dajoe House, FEB. 14th and 15th. Come early. Don't wait to the Last Hour.

WOULD BE TYRANTS

More than one of the Ministers of Ontario has in his place in the House this session degraded himself by uttering the unprovoked taunt that the Opposition and its leader are utterly powerless in that assembly. Now, it matters very little to anyone except to the individuals themselves, that they should show themselves both cowards and blackguards by such insults to honorable political opponents. But it is of public importance that the false theory upon which they seem to rely, should not be allowed to go uncontradicted.

The assertion that the minority in a Legislature is utterly powerless can only be justified on one of two grounds—either that the members of the majority are divine and free from human fallibility, or that they are a set of rogues and fools. We hardly suppose that even Mr. Mowat thought he does so humbly describe his policy as the very best possible legislation, and the very best possible administration, would seriously lay claims to infallibility for himself and his followers. If not, they must be open to conviction in the course of debate if they are not rogues. It is absurd, then, to say that any member of a deliberative body is utterly powerless. The very theory of such a constitution as ours is that the wise men, the chosen representatives of the people, shall meet and consult as to their affairs. Any other supposition would only be the assertion of a reign of tyranny. If the majority are absolute rulers in the House, and the Ministers rule the majority, Mr. Mowat and his five colleagues might as well announce their edicts without troubling the rest of the members to assemble at Toronto.

THE T. V. C. DEPUTATION.

The Ottawa papers contain lists of the names of those gentlemen who composed the deputation to Ottawa in regard to the Trent Valley Canal. The list which we append is a pretty full one, but evidently some names have been omitted, as the deputation is said to have included a larger number than 103, the number of names which follow:—

TOWN OF PETERBOROUGH—Mr. Geo. A. Cox, Mayor; Councilors A. Rutherford, Thos. Cahill, J. J. Hartley, John Douglas, R. S. Davidson, Thos. Kelly, and R. H. Green, and Messrs. Jas. Stevenson, R. A. Morrow, H. LeBourd, T. Laplante, John Garvey, Wm. Hamilton, E. Phelps and Wm. Chambers.

COUNTY OF PETERBOROUGH—John Lang, Warden; M. Sanderson, Reeve of Smith; John McInnes, Reeve of Dutton; R. O. Strickland, Reeve of Lakefield; Frank Elmhurst, Reeve of Burleigh; Geo. Stewart, Deputy-Reeve of Otonabee; Henry Collins, Reeve of Monaghan; John Brown, Reeve of Belmont; Thos. Fraser, Reeve of Newwood; Geo. Oliver, Reeve of Hartley; A. R. Kidd, Reeve of Dummer; M. Mansfield, Reeve of Galloway; J. Stephenson, Deputy-Reeve of Asphodel; P. Croagh, Reeve of Ennismore; John E. Belcher, County Engineer.

LAKEFIELD—W. C. Sanders and J. McWilliams.

COUNTY OF VICTORIA—John Fell, M. P. F., John Daniel, G. Fairbairn, John Bailey, W. Cameron, R. Hopkins, J. L. Read and Joseph McArthur.

LINDSAY—J. W. Wallace, Mayor; Col. Descoe, T. Fee and G. Crandell.

NORTHERN BRITAIN AND DURHAM—Dr. Wiloughby, Warden; Mr. Brewer, Mr. Wessels, Reeve of Murray; Mr. Crews, Deputy-Reeve of Murray; Mr. Fowles, Hastings; Mr. E. Cochrane, M. P., and Mr. Guller, M. P.

BONAVILLE—J. L. Read, Reeve; Hinkins, Councilor; M. Boyd, John McDonald, Jasper Bolton, Hartley, and Oliver.

FRENCH FALLS—Rev. Wm. Logan, Wm. Jordan, Geo. Cunningham, and John Thompson.

THURTON—James Richardson, Mayor; Councilors F. J. Bourke, James A. Orr, O. H. Barber, Chas. Findall, G. W. Ostrom, D. R. Murphy, T. McCabe, F. Connell, W. T. Barker, W. H. COUNTY OF HASTINGS—John White, M. P., Alex. Robertson, M. P., D. J. Wilmut, H. G. Blecher, M. Bird, Clement Armstrong, Wm. Winlay and John Goss.

BRILLVILLE—J. F. Way, Powell, and A. McRae.

COUNTY OF SIMCOE—David Dunn, Warden; Reeves—J. Fraser, Tay; John Howitt, Midland; A. Thompson, Orillia and Metabish; Mr. Wainco, Morison.

HARRIS—John Dickenson, John Orr, and James L. Burton.

ORILLIA—G. J. Booth, Mayor; James Quinn, Reeve; J. R. Thompson, Councilor.

This list, though incomplete, shows that the deputation was a very representative one, and must have had an influence with the Minister of Railways and Canals. Those members of the deputation whom we have seen were highly pleased with their reception, and the encouragement they received respecting the construction of the Canal.

DOMINION PARLIAMENT.

THE SECOND SESSION OF THE FIRST PARLIAMENT OF CANADA.

The Loan to the C. P. R.—The Advantage of Early Completion—The Knight and His Two-faced Shield—A Technical Obstacle.

On Friday a number of private bills, principally of railway companies, were read a first time. After recess another batch of private bills were read a second time.

THE O. & Q.
Among the second readings was that of the bill to confer the lease of the O. & Q. to the C. P. R.

THE C. P. R. LOAN.

Mr. IVEY resumed the debate on the C. P. R. loan resolutions. He pointed out the advantages the country had derived from the unprecedented rapid construction of the road. It was true that the leader of the Opposition had complained of the increased cost, but the Conservatives had not the same objection to the working men earning higher wages for pushing on their work. The early completion would hasten the settlement of the country, would make them sooner independent of the U. S. lines, and would therefore make our immigration and our trade less likely to be diverted; would give them earlier cheap Canadian through rates; would complete the contentment of British Columbia, and the phenomenal rapidity was an excellent advertisement for Canada. He could understand the U. S. lines objecting to this rapid progress, but he could not understand any loyal Canadian doing so. He rallied Mr. Blake for his objection to monopoly in the North-West, and his desire for it in Ontario, as shown by his objections to the C. P. R. acquiring feeders and branches there, though it was probable the people would not object like Mr. Blake and his clients to the competition afforded by the O. & Q. for instance. In caustic terms he censured the Opposition politicians and press for their ceaseless attempts to depress the securities of the company and thus check the building. They had exaggerated the cost of the work, the rates charged for freight, the severity of the climate, the emigration from the country, while they had under-estimated the thoroughness of the construction, the value of the land, the fertility of the soil, the rapidity of settlement, and the accommodation afforded by the road. They had acted as if their great object were to "bust" the stock of the companies in union with the efforts of the great rival roads. He proceeded to contrast favourably the financial position of the C. P. R. as compared with the great through lines in the United States, and argued that if by the refusal of this loan the company were forced to sell their stock at a sacrifice, the large prospective interest thus created would be incompatible with low rates. The immediate effect would be to throw thousands of men out of employment. He defended the dealings with the construction company as affording outside assistance and capital without increased costs, while the interests of the C. P. R. were secured by the intervention of a trustee. Alluding to Mr. Blake's sneer at "lordly palaces," he showed the dishonesty of the insinuation as the "palace" had been under contract two years before Mr. Stephen joined the Syndicate. Until the road was completed on Canadian soil, it was not expedient to let it be tapped by U. S. lines, but the monopoly would cease in two years if these resolutions were accepted, and no better plan could be suggested than the proposed loan to secure the object they had in view.

SIR RICHARD CARTWRIGHT argued that though the C. P. R. was a necessity they were being asked to incur too great a risk in settling them. He then pretended that instead of the settlement of the Northwest the policy of the government had retarded it, calling up a smile to the faces of his hearers as they thought of the rapid progress of that region under the reign of the speaker and his colleagues. He could see no necessity for the completion within two years, but if there was, why was not the condition in the resolutions, an absurd notion coming from so old a parliamentarian who of course knows that the bill is the place for such a provision. He expressed in spite of past experience of the company's operations, his doubt of their keeping their promise of early completion. Speaking of the increased wages of labouring men, he contended that the willful sale of the stock at a price below its value had been greatly increased in price by our tariff policy. He denied that the Liberal party had done anything to thwart the construction of the road. He objected to the reference to Mr. Blake as having the Grand Trunk for a client, and refused to be responsible for the utterances of the Reform press, as though their attacks upon the C. P. R. and Canada were not echoes of the speeches of himself and his friends. Urging the Opposition to criticize the government policy he said that they had no answer in this duty.

Mr. J. WHITE evidently forgetting the Blake, McMillan, and Macdonald arrangement for Sir Richard's benefit said that he had had a hard time to get there. SIR RICHARD CARTWRIGHT said that on the contrary, the way had been cleared for him. He proceeded to prove, to his own satisfaction, that the Construction Company was to have have received more than the now estimated cost, by the simple expedient of omitting from his calculation the large amount of work done and materials in hand, and by over-estimating the stock depreciated by the unprofitable efforts of himself and his friends. Turning to the financial position he criticized the diminishing surplus as he had his growth, and the reduction of imports as he had their increase. He doubted whether so large a loan could be floated now on good terms, and speaking of his own difficulties in borrowing attributed them to previous Conservative extravagance. Mr. RYLAND asked which side of the shield he was working now, to the discredit of the Knight, and the amusement of the House.

SIR RICHARD CARTWRIGHT continued to complain of the C. P. R. receiving too great advantages, of the danger of the loan making them extravagant, and of the probability of other demands. He mentioned the assistance of \$25,000,000 afforded to the Grand Trunk as a reason against aiding the C. P. R. With a sudden change of base he urged that instead of money being given to the company, as if the Opposition had not been howling against the branches. In his opinion it would have been better policy for the Government only to have built the road to Winnipeg, and to have left Manitoba and the Northwest to do the rest.

Mr. THOS. KELLY (Cardwell) in an able style showed the want of foundation for Sir Richard's criticisms. He especially hit him right as to the erroneous figure in reference to the construction company and the cost of the road. If there had been the Conservative ex-

travagance, of which Sir Richard complained, he was a Tory and was jointly responsible. He explained the terms of the Grand Trunk and that proposed to be given to the C. P. R., though he believed even the former would yet be a valuable asset. He then called attention to two other precedents, omitted by Sir Richard, of Government loans to railways, namely, those of the Great Western Railway and to the Northern Railway, both these advances having been repaid. Of course if the C. P. R. obtained this assistance the early completion for which it was given would have to be assured.

SIR CHARLES TUPPER said that all the details of the bargain could not be put in the resolutions, but when they came to the bill they would find them there. For instance the company would be bound to complete their road within the two years. It was also provided that no money should be advanced until it was proved to be earned on the road. Mr. WHITE continued that the efforts of their rival had been the cause of the difficulties of the C. P. R., and this opposition would be disarmed by the certainty that Canada intended to push through the road. In a very bold manner he showed the ample security that the country would have for this loan, and the reasonable price at which, in case of default, we would have acquired the road. As to the burden of debt, he showed that the interest payable, the means of the burden being steadily reduced. The eastern roads of the company would be most useful for taking emigrants to the Northwest and promoting its settlement. He severely castigated the want of common sense of the Conservatives in their attitude of deprecating the country and all connected with it, in favor of the United States.

Mr. LAGRAIN contended that the C. P. R. was getting too good a bargain, and in defiance of the figures, said they would have the road completed without putting a dollar of their own money. In contradiction to his friends, who are uttering the slander that the Company is insolvent, he went to the other extreme, and said they did not really require the money they were demanding. He abused the company and the majority of the House, and admitted that the resolution would be passed.

Mr. WOODWORTH in an eloquent and sometimes very humorous manner narrated the history of Reformers in connection with our great railway, their early opposition, their half hearted and desultory schemes when in power, their frantic but vain efforts to get capitalists to take it off their hands by offering them extravagant inducements, and their sudden return to hostility to the road and all connected with it, including their own past record as soon as they were driven from office. In contrast he described how the Conservatives had by their policy secured such wonderful progress in the construction of the railway and the settlement of the country. He was not surprised that Reformers opposed this temporary assistance, which was necessary by their own efforts to destroy the enterprise. By quoting from a speech of the President of the Grand Trunk referring to Mr. Blake as "our counsel" he brought that gentleman to his feet to give a very angry denial. It remains a question of veracity between the leader of the Opposition and the President of the Grand Trunk, who can settle it between them.

Mr. DAVIES moved the adjournment.

A TECHNICAL OBJECTION.

SIR JOHN MACDONALD moved that in future the debate on the C. P. R. resolutions should have precedence after the routine proceedings and the answering of questions.

Mr. BLAKE objected that it was too late to make the motion, as it had been answered to stand. They wanted further information. SIR JOHN MACDONALD said in the face of this technical objection he could not go on, but delay was paralyzing the company, and he must throw upon the Opposition the responsibility of the injury that the country would sustain.

LAKEFIELD DAM.

Notice to Contractors.

SEALED TENDERS addressed to the Secretary of the Department of Railways and Canals, and endorsed "Tenders for Trent Navigation," will be received at the Resident Engineer's office, Peterborough, until FRIDAY, the TWENTY-NINTH day of FEBRUARY, instant, for the construction and completion of a Navigation Dam, dam across the Otonabee River at Lakefield, on the East Lake Division of the Trent Valley Canal.

Plans of the work may be seen, and specifications and printed forms of tender will be furnished upon application at the Resident Engineer's office, Peterborough, on and after FRIDAY, the FIFTEENTH day of FEBRUARY.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and prices affixed to the whole of the work stated therein, and signed with their actual signatures.

Each tender must be accompanied by an accepted bank cheque for the sum of \$100, made payable to the order of the Resident Engineer of the Department of Railways and Canals, which sum shall be forfeited if the person tendering declines to enter into contract for the execution of the work, or if the said tender is not submitted, subject to the conditions and on the terms stated in the specifications. If the tender is not accepted the cheque will be returned.

The Department does not, however, bind itself to accept the lowest or any tender.

Farmers of the County of Peterborough,
And Adjoining Counties, TURN OUT, and Attend the EASTERN

Dairymen's Convention,
TO BE HELD IN THE
Town of Peterborough,
On WEDNESDAY and THURSDAY,
FEB. 20th and 21st, 1884.

And hear some of the best, most able and practical men on Dairy Farming, Breeding of Cows for Milk, Cheese and Butter. Read the list of names of gentlemen who are expected to be present to address you.
HON. HARRIS LEWIS, of Frankford, N.Y., a thorough, practical Dairy Farmer, cattle breeder, Butter Maker, and one of the best informed men in the United States.

PROF. J. F. ROBERTS, of Cornell University, Ithaca, N.Y., a practical farmer and owner of a large class farm in the Western States, and now in charge of the farm in connection with the Cornell University at Ithaca, N.Y., and who manages to grow over 70 bushels of Oats to the acre.
THOS. BALLANTINE, M.P.P. of Stratford, and President of the Western Dairymen's Association of Western Ontario, a practical dairymen, and in all probability the best authority on the manufacture of cheese in the Dominion of Canada, and who has done so much in Western Ontario to improve the quality of the manufacture of cheese.
PROF. BROWN, of Agricultural College, Guelph, a thorough practical man in every department of Agriculture, your servant in charge of the Ontario Agricultural College, and who will speak to you on—1. Knowledge in Dairying; 2. Influence of Food in Dairy Products.

PROF. L. R. ARNOLD, of Rochester, N.Y., who has devoted a lifetime nearly in the investigation of cheese, and knows to every cheese maker and manufacturer of cheese and butter in the United States and Canada.
JAMES WHITTON and HOWARD BISSILL, who have been in the employ of the Eastern Dairymen's Association for the past season as instructors in the manufacture of a better quality of cheese, and who have done so much in improving the quality of the make of cheese in Eastern Ontario.
Farmers do not have it said any longer than there is no enterprise in the Eastern Ontario Farmers, but turn out and show to the Western Farmers that you take an interest in all matters pertaining to your interests.
The Western Farmers turn out by the hundreds every year to attend the Convention of the Dairymen held at Niagara, Stratford, London and Woodstock, and remain the whole three days in most cases, and either join the Association or pay their 25 cents each time on entering the convention, morning, afternoon and evening.
The Committee make the Convention free in Eastern Ontario, and leave it optional with those attending to become members, in which case settlers those joining to a copy of the Report of the Proceedings, and now held at Niagara, Stratford, London and Woodstock, and remain the whole three days in most cases, and either join the Association or pay their 25 cents each time on entering the convention, morning, afternoon and evening.
Do not allow the attention to come from a distance. Turn out on your own and fill the City Hall, and remain through the three days, and I feel confident you will be amply repaid for the few days time spent in listening to the address that will be delivered to you.

Yours respectfully,
HARFORD ASHLEY,

POLICE COURT.

DRUNK.

Tuesday, Feb. 12.—Edward Carleton was charged by P. C. Adams with having been drunk. He argued that this was his first offence, and, on promising never to drink again, he was allowed to go.

DISORDERLY.

George Alberts and James Richardson were charged by P. C. Pidgeon with having been disorderly. They were fined \$1 each, which they paid.

DAMAGE TO PROPERTY.

WM. TROTTER was charged with unlawfully damaging a sleigh belonging to Wm. Fitzgerald. He said that it was an accident, that he was sorry it had occurred, and that he was willing to pay for the damage done. The evidence of three witnesses was taken, showing that Trotter had been driving at an immoderate rate of speed on George street on Saturday, and his horse had run into Mr. Fitzgerald's sleigh, doing it injury. Trotter was fined \$5 and \$4.15 costs, and ordered to pay \$5 for the damage done, or in default twenty days in gaol.

HURRAY ROBBERY.

WM. BURTON was committed to gaol to stand his trial for having robbed Martha Rogers on the 19th of January. This case is reported more fully elsewhere.

A Cheap but Popular Show.

Shift & Gaylord's Unique Comedy Company, which will exhibit here twice a day on the 18th, 19th and 20th of Feb., has received some flattering notices from the press, among them being the following, taken from an exchange:—

"The performances of Shift & Gaylord's Company continue to draw well, with results satisfactory to the players and public. The singing and dancing are very much enjoyed, but they are not the chief specialties. Miss Eva Florence does some wonderful acting upon the slack wire, her infantry drill being intensely interesting. Mr. Gaylord is a surprising contortionist. He puts his body into some almost incredible shapes, his muscular power being demonstrated when he rises upon his fore fingers and thumbs. The whole programme is meritorious, and where has it like been seen for 100?"

Springing Truss and Supporter.

See Prof. Hotchkiss' springing truss and supporter advertisement in another column of this paper. Go and see him. He defies the hernia he cannot hold. Will be at the Casino House Feb. 27, 28 and 29.

Rebellion in St. Petersburg.

The paper *Studenten* has appeared in St. Petersburg. It declares the time has arrived for a general revolt.

Removal of Imprisoned Inevitably.

Ten Inevitably from Irish prisons have been taken, with many others, to Chatham prison.

Bradlaugh's Appeal Disallowed.

Bradlaugh's appeal against the sergeant-at-arms for not permitting him to enter the House of Commons, has been disallowed by the Court of Queen's Bench.

Depression in Stocks.

The growing probability of the expedition to the Sudan and the projected vote of censure have depressed stocks and raised the bank rate of discount. They have also acted powerfully on the market.

Scheme for Increasing the British Army.

The Marquis of Hartington, secretary of State for war, has obtained the sanction of the Cabinet for a scheme to increase the effective army. The recruiting system is modified. The standard height of men acceptable is made lower than the present one.

The State of Egypt.

The reported negotiations for an Anglo-French occupation of Egypt are declared to be without foundation. The position of the garrison at Sinaï is simply horrible. They have devoured every thing in the shape of food: all the camels, cats, and dogs have been eaten, and they are now subsisting on the leaves of trees.

Spanish Treaties.

MADRID, Feb. 10.—To-day Minister Foster and the Spanish Minister of Foreign Affairs signed the protocol maintaining the commercial treaty concluded with the preceding Cabinet, with the exception of the consular dues, which are reserved for ratification by the Cortes. The treaty with England has been accepted provisionally, subject to ratification.

Socialism in Vienna.

VIENNA, Feb. 10.—There is great excitement here to-day. Another police officer has been shot and dangerously wounded. The assassin escaped. To-day the parliamentary commission approved the decree establishing a state of siege. Groups of workmen have been singing nightly all day, keeping the police and troops constantly busy to prevent a disturbance.

The Socialist Party in Austria.

A Vienna despatch says during the debate in the lower House of the Reichsrath on the exceptional measures for the suppression of Socialism, discussion will be offered showing that plots existed which threatened the lives of the highest personages in the realm. The examination of the Russian Socialist arrested at Cronow shows there is a connection between Austrian and Russian Socialists.

The Sahara Sea Scheme.

At a banquet in Paris to members of the scientific group M. de Lesseps said the scheme for creating a sea in the desert of Sahara will shortly be realized. M. Roussier, the French hydrographer, who is concerned in the project, said that the scheme is a connection between the Mediterranean from the desert to transform the arid sands into a fertile country, is about to start for Tunis armed with the necessary Frenchman from the Sultan to begin operations.

Hereford's Acid Phosphate.

IN LIVER AND KIDNEY TROUBLES.
Dr. G. O. CILLEY, Boston, says: "I have used it with the most remarkable success in dyspepsia, and derangement of the liver and kidneys."

ONTARIO LEGISLATURE.

FIRST SESSION OF THE FIFTH LEGISLATIVE ASSEMBLY OF ONTARIO.

Mr. Crook's Seat—Ministers Shirk Being Recorded—Government Measures Not Yet Ready, Mr. Retarus Asked in 1883—Algonia Debate Resumed.

MR. CROOK'S SEAT.

Mr. MOWAT, on Monday, moved that a petition as to the representation of South Oxford be read.

Mr. MEEDITH objected to its being read before to-morrow according to the notice, as there would be a discussion.

Mr. MOWAT said there was no opposition to the reference to the Committee of Privileges and Elections, but no such case had occurred in the old Province of Canada or in the Dominion, and there should be an opportunity for discussion. They felt the greatest sympathy for Mr. Crooks in his affliction.

PRIVATE BILLS.

Dr. WIDFIELD reported twenty-five private bills as having passed the Committee on Standing Orders.

A number of private and some public bills were read a first time.

MINISTERIAL ANSWERS.

Mr. CROOKTON moved that it be a standing order that questions put to Ministers and their answers should be in writing and should be entered upon the journals. The course had been taken in Quebec, and he thought it right that such information should be on record, as the newspaper reports could not always be relied upon.

Mr. MOWAT said he remembered no material error in the newspaper reports. Much of the matter would be unimportant. It would also have a tendency to lengthen replies. The course proposed was not adopted in England. He opposed the motion.

Mr. MEEDITH said that in England they had the official reports, and at Ottawa there was a *Journal*, and Ministers often gave answers in writing. He thought it very desirable.

Mr. FRASER said that questions might be asked of private members, and that their records would be enormously enlarged.

Mr. MOWAT said that Mr. Fraser was setting up a man of straw to knock it down, for the motion did not ask for a record of the answers of private members.

Mr. FRASER said no advantage from the change had been shown, and Ministers would be tempted to put their answers in such a shape as to make a point against the Opposition.

Mr. LAUDER supported the motion, and said the Ministers seemed to be afraid the publicity would be to their disadvantage.

Mr. CROOKTON disclaimed any party object. His plan would save expense, as a short reply would often take the place of voluminous papers.

The motion was lost on a division.

THE ALGONIA FRAUDS.

Mr. LAUDER moved the further adjournment of the debate on Mr. Mowat's motion against the Algonia election till the papers were brought down, and the motion was carried.

GOVERNMENT BILLS DELAYED.

Mr. MEEDITH asked when the Government measures, promised on the speech from the throne, would be introduced.

Mr. MOWAT replied that several of the bills were in type, but he would be able to give some definite information on Tuesday.

Mr. MEEDITH asked when the Franchise Bill would be ready to be introduced. He knew that the public as well as the Government supporters were anxious on the subject.

Mr. MOWAT replied that the Bill would be introduced in good time, but he could not say when, and he did not know that Mr. Meedith had his supporters in charge.

DELETED TEXT.

Mr. CROOKTON asked when they might expect the returns ordered in January, 1883, as to colonization roads. There had been plenty of time, but session after session the House had ordered returns as to colonization roads, and had been disappointed. The returns ordered in 1879 and in 1880 had been withheld.

Mr. LAUDER complained that a return ordered as to arrears of taxes in municipalities around Fort Arthur was in the same position.

Mr. CROOKTON asked for speed in the return as to the Muskoka Dam, Slide and Boom Company.

Mr. FRASER, and Mr. HARDEN promised these returns shortly.

Baltimore Oysters.

Owing to the snow blockades on points between Baltimore and here, our Oysters have been somewhat longer than usual getting through, but we have received a shipment of very choice Bulk Oysters, which we think will please our customers, and which we will favor us with their patronage.

January, 24th, 1884. CAPTAIN BROS.

Look Out
for the great clearing sale of rich and valuable goods at W. Fairweather & Co., commencing next week. The whole of their remaining fine stock of Furs, Jackets, Circulars, Buffalo Robes, Black, Grey and White Robes, Fur-lined Gloves, Gannets or Caps, Tippets, &c. All kinds of Heavy Winter Clothing is to be sold at reduced prices. Blankets, Flannels and Carpets at sweeping reductions. Bargains will be given of all Winter Goods to clear. This firm, when they do advertise a clearing sale, mean business, and parties may depend upon bargains.

The Truth and Nothing Else.
Nowadays people want proof. Humbugs are more plentiful than dollars, and it is only by the greatest care that many are kept at conviction point that they are not fools. Proof is wanted, and that we can supply in connection with the claims of Putnam's Painless Cure Extractor as a sure, safe, and painless remedy for corns. Ask your druggist what he thinks of it. Ask any person who has used it. This will give you all the proof you want. Then buy a bottle, test it, and become a missionary for Putnam's Painless Cure Extractor.

SURGES and public speakers are always beset by men, known as "Phosphates"; I use it myself, and in my family and practice. I prescribe Phosphate with a confidence I attach to no other remedy. It is safe, it is effective. For sale by J. D. Tully.

Daily Evening Review

TUESDAY, FEBRUARY 12, 1884.

THE QUEBEC CONSERVATIVES.

MR. TAILLON, the Attorney-General, and Mr. Robertson, the Treasurer, of the reconstructed Conservative Provincial Government of Quebec, have been elected by acclamation for East Montreal and Sherbrooke respectively, the Liberals, even with the assistance of some still disaffected Conservatives, not venturing to put candidates in the field, though they made strenuous exertions to induce some one to undertake this forlorn hope.

IN A NUTSHELL.

THE iniquity of the fraudulent return of a supporter of Mr. Mowat in Algoma may be clearly shown by a little comparison. Cookburn Island is an organized municipality and by statute is entitled to a polling place, but none was opened because it has a large Conservative majority.

If at our last election, by a similar breach of the law, Mr. Mowat had refused polling places to Monaghan and Lakeside, Mr. Campbell would have been elected. Would anyone say that Mr. Campbell was legally elected? Does anyone who knows Mr. Campbell suppose that he, who is an honorable gentleman and not an Algoma fraud, would take his seat under such circumstances?

THE EXCHANGE BANK.

THE Ottawa Free Press, with its usual regard for truth, publishes the following invention:—"Quite a number of Government supporters left the House of Commons last night, refusing to vote for Sir S. L. Tilley's dishonest misappropriation of \$300,000 to the Exchange Bank. This fact accounts for the remarkable decrease of the ministerial majority."

The truth is that a large number of members, almost entirely supporters of the Government, had taken a trip to the Montreal Winter Carnival, not expecting the division to take place so early, and had not returned in time for it. That the small vote was not caused by members leaving the House is proved by the fact that the number voting, instead of being less, was increased somewhat over the immediately preceding division. Sir L. Tilley's motive, in the eyes of his critics, was that he intervened to prevent a panic, for which they are longing. As to the state to which dishonest officials had brought the Bank, it is easy to be wise after the event, but the facts were then unknown.

THE MOWAT LICENSE OFFICIALS.

THE Bruce Herald gives the particulars of another case showing how Mr. Mowat and his myrmidons work the Crooks Act for their political advantage. It seems that James Hill, a Conservative, rented a hotel near Ellengowan which had many years been licensed when in the occupation of Reformers. But with a Conservative it was different, and the Commission did not even report on Hill's application. It seems that Hill continued his business without a license, for he was summoned for selling and keeping liquor and was fined. The constable who served the summons, a Reformer, and said to be an intimate friend of the inspector, remarked to Hill:—"You must have been canvassing very hard or this would have been all right." A prominent Reformer told Hill that if he would change his politics the license would be all right. He did not change and was treated accordingly.

Now, Hill broke the law, and was rightfully punished as the law provides. But will any man say that Mr. Mowat, his colleagues, and the officials they employ for this dirty work are not greater culprits?

A REFORM PLOT FOILED.

THE Middlesex conspirators—self-described liars, forgers and perjurers, have been foiled in their efforts to make capital for the Reform party by the use of their dishonest tactics. Having inveigled a man of the name of Weekes into one of their committee rooms, and pretended to find in his pocket some money which one of the gang had probably placed there for the purpose; having falsely represented to him that he was in a Conservative committee room, and told other falsehoods to obtain his signature, over which they proceeded to forge some words to criminate him; having made an admittedly perjured affidavit of the pretended facts; and having, apparently with the connivance of Mr. Rom, M. P., and Mr. Cameron, M. P., sent an emissary under a false name to entrap him into some admission, they proceeded to prosecute Mr. Weekes for perjury because he denied on oath their false charges. The Magistrate, however, after a thorough investigation, has declined to believe that there is even sufficient

evidence to put Mr. Weekes upon his trial. His opinion of the conspirators is shown in the following concluding sentence of his judgment:—

"At the same time I think I am not going beyond bounds in deploring the conduct of the parties who prevailed upon a weak young man to commit so glaring an act as demonstrated in the fraud practiced on the defendant, and I therefore dismiss the case."

And it is to this diabolical plot that Mr. Rom, M. P., and Mr. Cameron, M. P., owe their election.

THE GUILTY WRITINGS.

THE organs and the friends of the Algoma conspirators are still uttering frantic cries of rage and fear over the partial exposure of the conspiracy and the steps that are being taken to probe to its depths this foul plot.

One cause of complaint is that it is cowardly to drag these men into a law court, and they shriek "informers" at those who are endeavoring to put the law in force against law breakers. This is too childishly absurd to need many words. Laws are placed upon the Statute Book to be enforced, even against law breakers who write "Honorable" before their names. No one can have a better right to take action to put the law in force than Mr. Plummer, the gentleman who has been robbed of his rights by this conspiracy. One of the gang has already been convicted, and others, if the evidence is sufficient to bring their guilt home to them after a fair trial, will also meet with their deserts.

But with even more effrontery the conspirators and their friends rave about the evidence being stolen, as if that were quite sufficient justification for their misdeeds. We may be allowed to point out that this line of defence necessitates a complete and sudden change in "Reform" ethics. Even if these disgraceful telegrams were stolen, of which there is not the slightest proof, Reformers should applaud instead of condemning this flattering imitation of their own methods of procedure. Theft from private drawers and public offices, the purchase of confidential clerks, and forgery, have been the chosen political weapons of the Reform party. Do we not all remember how they employed confidential clerks to ransack private desks, the leaders of the party rewarding them for their knavery; how they stole a letter from the Montreal post-office, and how the receiver consulted the Reform leaders, who resolved to publish it and use it for their own ends. These are matters of history. Then at a later period we have another case of theft of papers, and of forged interpolations, to make available the documents which were innocent enough till then tampered with. The theft was boldly confessed and even impudently boasted of, the forgery was proved by the best of evidence. Quite recently we have had the spectacle of charges of corrupt use of money, the sole evidence being that of men who have owned in the witness box to their use of perjury, forgery and persistent lying, and yet Reform journals have abused us for censuring such conduct, and have insisted upon our condemning their victim upon such evidence, though it is very probable that if any money was really found upon him it was placed there by one of the gang before they inveigled him into their den. And now those who used such means are calling upon the country to absolve them from a great crime, because they choose to assert, without a shadow of evidence, that the proofs of their guilt were stolen.

We may point out to these trembling culprits that even if some of their guilty secrets were stolen, which, however, we do not believe, however culpable the theft might be, there would still be a vast difference between the cases we have mentioned and the present one. Mr. Plummer is fighting for his rights, and he is bringing his case into court where these documents can be thoroughly examined and verified, before he can secure justice by their aid. We know on the other hand how the Reform perjurors of private papers after manipulating them and misrepresenting them to deceive the public, ran away when, invited to give evidence. This also is written in our history.

Even now in pretending to publish these disgraceful documents from Algoma the leading Reform journal cannot refrain from indulging in a little forgery. Commissioner Burden telegraphed to Acting Attorney-General Pender to "be placed in funds in some shape to meet pressing emergency," and the Globe, suppressing the most important words—the gist of the whole message—"In funds," pretends that the document is quite innocent, which is perhaps the reason why it and the rest of the shameful correspondence were carefully shrouded in the mystery of cypher. It is quite right, of course, for the Globe to forge alterations in a document to hide the guilt of its friends, but it is quite wrong for Conservatives to use the documents to prove the crime, if it planned the Globe to assert without foundation that they were stolen.

Now, we do not intend to leave a loophole for misrepresentation on our position. We are not justifying the theft of documents by Conservatives because Reformers have been persistent letter thieves. There is not the slightest evidence that these telegrams were stolen, nothing but the impudent assertions of the culprits and their friends. The documents will be produced in Court for the conviction of the conspirators, and will not be used to make political capital and then let drop. If it is proved that they were obtained dishonestly we will condemn whoever is guilty. Theft and dishonesty should be censured and punished even if committed by a friend, and whoever may suffer. But it will be time enough to condemn the thief when it is known that any theft has been committed. The conspirators' advocates have already among their numerous discordant explanations stated that one of the gang got drunk and on recovering missed these incriminating papers. Why may he not, while in that condition, have dropped them? It is at least as good a theory as any other until the truth is proved in court. The conspirators need not be premature, they will have quite enough of the facts before long.

A SLANDERER REBUKED.

Dr. McMahon M.P., Brought to Book by Dundas Town Council.

The following is taken from a report of the proceedings of the Dundas Town Council, at a meeting held on Monday evening last, published in the Standard:—

"Moved by the Reeve, seconded by Dr. Walker, that Dr. James McMahon, M.P., be requested to retract his incorrect statements made on the floor of the Local Legislature in regard to the manufacturing industries of the town, and that the Clerk be instructed to forward a copy of this resolution to the leader of the Opposition and to Dr. McMahon. Mr. Wilson spoke at length in support of his resolution giving statistics to show that the industries of the town are in a much better state than they were under the Mackenzie regime. He condemned Dr. McMahon's course in deriding and misrepresenting the town industries in order to make political capital.

Mr. Beggs claimed that the resolution was out of order, and the Mayor ruled that it was in order. Mr. Beggs defended Dr. McMahon, and said it was cowardly to bring in such a resolution. He also accused Mr. R. T. Wilson of having made false statements against the doctor. Mr. Wilson contended that it was perfectly right to bring in a resolution in defence of the interests of the town. He repudiated the charge of having made false statements against Dr. McMahon, and said the man who so charged him was a liar.

After further stormy declamation the resolution was carried on the following division:—
YEAS.—Messrs. R. T. Wilson, Walker, Bell, Dickson, Bertram, M. S. Wilson and McIvor, 7.
NAYS.—Messrs. Beggs, Coote, Gwyn, Gray and O'Connor, 5.
Before voting Mr. Gwyn said he was in entire sympathy with the resolution, but could not vote for it, for he did not think it should have been introduced into the Council.—Hamilton Spectator.

Dr. Wilson's Movements.

The Rev. Dr. Wilson, of Kingston, arrived at Toronto last week on his way from New York. He looks well and the rest which he enjoyed in New York has done him a great deal of good. On Sunday afternoon he addressed the Salvation Army meeting at the Richmond street barracks, at which about 1,000 persons were present. In the evening he spoke at Shaftesbury hall, when a large number of the city Episcopalian and other clergymen were among the audience. He left on Monday evening for Cobourg, and from there he goes to Kingston to bid farewell to his congregation. He will then return to New York, where he intends to work with Rev. Mr. Rainford. As to accepting an appointment from the Bishop of Huron he has not yet decided whether he will do so or not.

THE FLOODS IN THE STATES.

The inundations are yet abating—Appalling
Distress—Appeals for Aid.

CINCINNATI.—The river has risen 41 inches
since midnight, and is rising fast at Portsmouth.
It is falling rapidly at head-water but a further
rise must come before it all runs out. Marietta
and Parkersburg have been entirely cut off for
two days.

YOUNGWOOD.—Two hundred houses are in-
undated here. A dozen industrial establish-
ments and rolling mills have been abandoned,
and hundreds of workmen are out of employ-
ment.

TOLEDO.—The latest advice from the town
along the river above the city is to the effect
that the water has passed the highest point
reached last year. At ten this evening the
water at South Toledo was seven feet higher
than ever before.

PHILADELPHIA.—The Pennsylvania railway
bridge at Manayunk, which was carried away
last night, had just been completed. It cost
over a million.

PITTSBURGH.—This city and Allegheny are
now free of water and business is being resumed.

WHEELING.—The Baltimore and Ohio engine
shops are carried away. Main street bridge
carried in this afternoon. Wheeling is in danger
of famine. Nearly all the bakeries and many
of the groceries are beneath the water. Milk
and meat, except salt meat, is almost impossible
to procure. The stock of provisions is rapidly
becoming exhausted, and there is no prospect
of replenishing. The situation is hourly grow-
ing graver. Many appeals have been received
from inundated parts of the surrounding coun-
try for provisions.

CINCINNATI, Feb. 9.—At 9 a.m. the river was
63 feet 41 inches, a rise of over four inches since
midnight. The water is cooler. At Gallipolis
the river is four feet higher than last year.
The impression that a large tract of the city is
covered by water is erroneous, and the portion
submerged, except in the suburbs, is not much
used for residence. The arrangements for pro-
tecting goods and preventing damage are better
than when there was no flood.

PORTSMOUTH, Ohio, is almost entirely under
water, and completely cut off from outside
communication. The water is four feet higher
than the flood of 1852. The river is
still rising, and many houses are floating away.
There is great suffering and worse still is ex-
pected. At daylight this morning a few broke
out in a flood above the city. The business
portion of the city, caused by the flooding of
lime submerged in the rising waters. Six
buildings were burned to the water's edge and
the walls fell in. The churches are all under
water. Every engine-house and school house
in the city is filled with drowned people. The
river is rising over half an inch an hour, and
it is raining hard. We have not heard from any
place for three days. The people are in great
distress.

WHEELING.—The situation among the home-
less grows worse. Not enough food can be
procured to feed them and give aid to neighboring
towns. The mayor said to-night he had hoped
to avoid appealing for aid to the country at
large, but feared it would have to be done.
Clothing and food and money are badly needed.
At Glass house two children died to-day from
exposure and insufficient and unfit food.

On the representation of the citizens of West
Virginia that had received no relief from the
relieving committee, the Governor intervened to
the Senate and representatives in Congress
asking that the relief committee be re-
organized to one million dollars. The outlook
for the future is gloomy. The outlook for the
future is gloomy. Some relief is being
sent from the outside world, but it is not
enough. The Ohio River valley is expected
to be entirely ruined, and the people are
in a state of despair.

Mr. Farwell's Address.—The address of
Mr. Farwell, in moving his residence to the
address in reply to the Queen's Speech on
Friday, said that the Orange demonstration
was not spontaneous, they were attended by
hiredlings paid by the landlords. The Orange
opposition to the Nationalist meetings was
violent and seditious, and every one partici-
pating therein was liable to prosecution under
the Intimidation clause of the Criminal Act.
Recent events in the north of Ireland, how-
ever, would hasten the time when Ireland
would legislate for herself on her own soil. Mr.
T. D. Sullivan said the Orangemen were obstacles
to the spread of loyalty in the North of Ireland.
Mr. G. O. Trevelyan, Chief Secretary for
Ireland, said that outrage in Ireland had
fallen to a point that would be no discredit
to any country, that riots were being more
regularly paid than in the centre and east of
England, and that the Government was deter-
mined to use the utmost force to suppress
violence and to restore order. He said that
credit to Earl Spencer, that the Government
of Ireland, that so few of the Irish people
were taking part in the riots, and that the
Government was determined to use the utmost
force to suppress violence and to restore order.

The English Press on the Egyptian Question.
LONDON, Feb. 9.—The Press in a leading
article this morning, earnestly attacks the
Government's Egyptian policy. It says the
Government has been shutting its eyes to facts
that all the world sees, and avoiding respo-
nsibilities which all the world lays at its door.
The Full Mail Gazette says England, although
opposed to annexation of Egypt, will be under
the necessity of exercising absolute authority
over the country for five or ten years. Further
delay will be criminal.

Our Canadian Industry.

is prosperous. The great difficulty to be con-
tended with is the low grade of goods required.
In nothing is this more apparent than in the
comparatively small article of sewing silks. The
great demand in Canada seems to be for a cheap
quality, buyers forgetting that a cheap thread
must necessarily be a flimsy and consequently a
weak one. Messrs. Hocking, Paul & Co. make
three grades of spool silk; of these different
qualities the poorest one has by far the largest
sale, at the same time they constantly hear of
complaints of poor sewing silk. If ladies will
take the trouble to ask for Hocking, Paul & Co's
own brand, and see that their name is on the end
of each spool, they will be sure of getting the
best made.

Plain Truths!

The blood is the founda-
tion of life, it circulates
through every part of the body
and unless it is pure and rich,
good health is impossible, if
disease has entered the sys-
tem the only sure and quick
way to drive it out is to pu-
rify and enrich the blood.

These simple facts are well
known and the highest medi-
cal authorities agree that
nothing but iron will restore
the blood to its natural condi-
tion; and also that all the
Iron preparations hitherto
made blacken the teeth, cause
headache, and are otherwise
injurious.

SULPHUR AND IRON BITTERS
will thoroughly and quickly
assimilate with the blood,
purifying and strengthening it
and thus drive disease from
any part of the system, and it
will not blacken the teeth
cause headache or constipa-
tion and is positively not in-
jurious.

THE ALGOMA FRAUDS.

We do not propose to allow the friends of the Mowat Administration to shield from public reprobation the conspirators to return a fraudulent member for Algoma, nor to obscure the facts of the outrage upon representative government, by raising cries of anger and terror and bringing false charges against all who may thwart their iniquitous scheme. We will therefore briefly recount the principal steps in this deliberate and artfully planned conspiracy.

1. The Algoma election was postponed for many months, almost to the extreme verge of the legal time, and to a most unpropitious season, contrary to the spirit, if not to the letter, of the law, the object being to give leisure for the completion of their plots, to make the exercise of the franchise difficult except to their favoured voters, and to leave no time for an investigation before the session of the illegal sets upon which they had resolved.

2. The choice of a knavish and partisan returning officer, contrary to the spirit, if not to the letter, of the law, by passing over the Sheriff of Algoma and the Registrar, after the Sheriff of Thunder Bay, whom they had first appointed, had refused to be an accomplice in their knavery, because they had no hope that either of the two other officials were sound enough to suit their iniquitous purpose.

3. The invasion after years of inaction of the disputed territory with a gang of gaudy birds and others at the risk of violence and bloodshed, and to the prejudice of our just claims, because this lawless course gave them facilities for bribing voters by hiring them for pretended services, and because it afforded them a chance of hiding their corruption fund under the guise of expenditure for the occupation, the invasion being abandoned for an appeal to the law as soon as the election was over.

4. The attempt to bribe a newspaper, and when it was found not to be sufficiently venal thus to prostitute itself, the establishment at great cost to the Province of a pretended newspaper, but in reality of a campaign sheet, only published during the election for the purpose of falsely representing the feeling of the constituency as being favorable when it was really opposed to these plots.

5. The refusal of polling places required by the statute, but stricken off by the returning officer in consultation with the Ministry, because in the omitted localities would have been convenient for Conservative electors and would have increased the Conservative vote.

6. The refusal of polling places by the returning officer, in collusion with the Ministry, in places where they were necessary, and where he should have proclaimed them, for example in one stretch of country where the C. P. R. had a score and more of stations and station-masters, hardly likely unless there were residents and voters—and another locality, Cockburn Island, where one church had two missionaries, a Bible Society's office visited about 60 families, and an organized municipality was receiving public funds from the Government; because polling places in these localities would have been convenient for Conservative electors, and would have greatly increased the Conservative vote.

7. The refusal by the returning officer to give information of the polling places before the nomination, and the presence of the Ministry on an immediate appeal to them that it was too late, the object being to prevent the notification of this injustice or the opening of polling booths in conservative localities.

8. The systematic and planned refusal of good conservative votes by dishonest deputy returning officers carefully selected for that purpose, one of the gang being already indicted in \$1,000 by a law court for this outrage, which was perpetrated to prevent the conservative majority from being polled.

9. The planned neglect to open certain polling places although proclaimed, because it was ascertained after their proclamation that these localities would have given a large conservative majority.

10. The illegal delaying of the Return by the returning officer in collusion with the Ministry in order that it might be too late to obtain redress from the law before the opening of the Legislature and that the fraudulently returned candidate might sit for one session to misrepresent the constituency by supporting the chief conspirators.

11. The taking of his seat by the fraudulent member with the sanction of the Ministry, some of whom at least well knew that he was returned by frauds of their own, contrivances, because they wish to have the support of his vote, which they know that he is neither morally nor legally entitled to give.

We have omitted some of the minor details of the plots, such as the short supply of ballots to conservative localities, the redistribution of polls in Reform districts, the employment of Stipendiaries, Commissioners, Constables and so forth as electioneers and voters, the village streets and drives from summer resorts to water falls paid for as colonization roads, the purchase of cabbage pumpkins and votes, &c., &c. We have only given in detail the principal steps in the foul plot, and the truth of every one can be proved by evidence that would be sufficient in a law court.

Does not this bare statement of facts show the outrageous nature of this attack upon representative institutions perpetrated by the Mowat Administration and their friends, and is it sufficient for their defence, to cry and howl at the hardships of such honorable men being dragged before a law court to answer for their misdeeds?

PRIVATE BILL.

On Monday a number of private bills received their first and others their second reading.

SOLVENCY BILL.

Mr. BRATT introduced a bill for the equitable distribution of insolvent estates, and it was read a first time.

EXCHANGE BANK.

Mr. HOLTON asked why Mr. Bantons's security for \$100,000 for the Exchange Bank was not taken when it was offered, as well as Mr. Ogilvie's.

SIR LEONARD TILLEY said they were willing to take the security of either of them. Mr. Ogilvie offered first and was accepted.

QUEBEC SCHOOL OF NAVIGATION.

Mr. ANTOY moved for correspondence with Quebec as to its School of Navigation and asked for a subsidy, strongly urging the claims of the institution.

Mr. MCLELLAN said that the former grant was discontinued as the number trained fell off. The certificates now required for masters and mates might re-establish the school, and it might be desirable to revive the grant.

Mr. FORTIN said the late Government had cut off the grant. He was almost ashamed to see the Province of Quebec come begging for \$1,000.

SIR H. LANGRISH expressed the opinion. Mr. FORTIN contended that Quebec could not afford to give \$1,000. At his solicitation the school was re-opened.

THE HUDSON BAY ROUTE.

Mr. ROYAL moved for a select Committee to consider the navigation of Hudson Bay. He said that not only in Manitoba but in Dakota and Minnesota there was a very strong feeling in favor of the building of a railway and the opening of the route. The only matter in doubt was the extent to which the Bay was navigable, and he gave many facts to show how safe and unobstructed was the navigation. He addressed figures to show the great saving in distance to Liverpool, and in the cost of transporting wheat.

Mr. DAWSON seconded the motion, and though he believed the straits were navigable he dwelt upon the importance of an investigation. He also spoke of the abundance, and the rich minerals of the district.

Mr. WATSON also spoke of the advantages of the route and said that a Liverpool firm was prepared to place upon the route 10 steamers of 3,000 tons.

Mr. CLARK thought the route would be an advantage not only to Manitoba but to the whole Dominion. A vessel should be sent there to survey the whole winter.

Mr. CROFT said it would be an advantage to Europe also, and pointed out that it would be the shortest and cheapest route from the Pacific to England.

SIR J. MACDONALD fully agreed in the importance of the question. Two railway schemes had been granted, one to Nelson and the other to Oshkosh, and they had very wisely amalgamated. The Government, however, committed the two land grants 6,400 miles to both at 50 cents or half the usual price. The navigation was said to be doubtful but he could remember when the Gulf of St. Lawrence was considered as doubtful and hazardous. The Government had proceeded from the Hudson Bay Company, the last books of which were being carefully examined, and they would be at the service of the Committee with their valuable information. He thought a steam vessel suitably fitted out should explore for more than one season, and he believed that after some further consideration they should ask the House for a grant.

Mr. BLAKE thought it was a matter for the joint action of the Imperial and Canadian Governments, and that a vessel of the Imperial Navy might be obtained for the purpose of the survey. The capital for the steamship line and the railway line must be largely obtained in England, and the expenditure of scientific imperial officers would have great weight there. Besides the main exploration much valuable information might be thus obtained, and the vessel should remain for a considerable time.

The motion was adopted.

LAKE MANITOBA OUTLET.

Mr. OROON moved for papers as to the improvement of Fairford River, the outlet of Lake Manitoba. The removal of obstructions would prevent 3,000,000 acres from being inundated, and as the land belonged to the Dominion it should bear the cost.

Mr. SPENCE said the value of the land reclaimed would cover the expense.

Mr. WATSON said there were large timber limits which could not be utilized for want of means of improvement and others which he mentioned.

SIR H. LANGRISH promised the attention of the Government. They were having a dredge built for the North-west, which would be available for this work. The improvement would be difficult and would probably cost \$200,000.

BANKS FOR FARMERS.

Mr. OROON moved for a special committee to enquire as to easier and cheaper banking facilities for farmers. Though interest was undoubtedly restricted to 7 per cent, this was not sufficient to enable the Government to have control of the banking system, but in times of depression bankers got frightened and contracted credit. Farmers suffered especially by this. Farmers' Banks should be established, farmers desirous to be stockholders but not borrowers might deposit a lien to half the value of their farms, and on this the Government should issue legal tender. Loans should be given to farmers who wanted to borrow at 5 per cent. Thus money would be circulated and our wealth and exports would increase.

Mr. SPENCE thought it advisable to have such a system by which farmers could borrow at low rates, and speak of the good done by the Grange's Banks.

Mr. HANCOCK argued that there could be no better basis than freehold property, yet farmers generally had to pay a very high rate of interest. He advocated the substitution of a Dominion Note issue for the present circulation.

SIR J. MACDONALD thought there was no need for a special Committee when there was the Standing Committee on Banking, who might appoint a Sub-Committee to investigate the matter. Then the Committee could discuss the report of this Sub-Committee.

On this suggestion the motion was withdrawn.

THE C. P. R.'S EXHIBITION.

Mr. BLAKE wished for a whole series of returns as to the C. P. R.—a mass of statistics that would take almost as much time to prepare as could complete the work. He wanted, or proposed to want to know, the cost of the first forty miles west of Callander, built by the

C. P. R. Co.—the mileage built by the Construction Co. in respect of the line west of Sanburg—how much work was done by the C. P. R.—how much by the names of the persons with whom the contract was made, and a copy of the contract—similar information as to the line east of Port Arthur—detailed statements of the mileage built by the Construction Co. in respect of the C. P. R. line from the point 45 miles east of the C. P. R. of the line from the above point to Callander from Callander to the summit—estimated cost to complete that part of the C. P. R. left unfinished by the Construction Co., between Callander and Port Arthur—also of the equipment of the same—estimated mileage cost of this part divided into headings, and of the very heavy section of 100 miles so divided—similar statements to complete that part left unfinished between the Rocky and Kamloops—the cost of 615 west of Winnipeg divided into hundred mile sections, &c., interspersing his motions with remarks showing his animus against the C. P. R.

SIR C. TUPPER said he would not object, though much of the information asked for had no bearing upon the resolutions. The Government relied not upon the estimates of the C. P. R. but upon those of the Chief Engineers of the Department. Mr. Collingwood Schreier, whose calculations were very correct.

Mr. BLAKE then showed a similar thirst for information as to finances, wanting a statement in detail of the money payable and the stocks deliverable to the construction company under the contract with the C. P. R.—the net price received by the C. P. R. for each lot of ten millions of stock, comprising the thirty million issued to a syndicate, with the dates of the payments made in respect thereof, &c. Similar details and remarks were interlarded in this batch of motions.

SIR C. TUPPER declined to be drawn by a side issue into a general discussion of the resolutions by Mr. Blake, who felt uneasy after the able and unanswerable reply to him by Mr. Tupper. Mr. Blake's remarks now, like his speech the other evening, were uttered with the view of depressing the stock of the C. P. R., though he knew that in the success of the undertaking the financial interests of thousands of people in the country were concerned. If the stock was at a low price it was because Mr. Blake and his friends in the press were telling the people that those who put their money on the enterprise would never see it again. He severely but justly castigated the Opposition for their unpatriotic conduct in constantly obstructing this great national enterprise.

Mr. BLAKE said he would not be dictated to as to his policy. Last year, when the syndicate would make huge fortunes he was told that was the best advertisement they could have.

SIR CHARLES TUPPER said that Mr. Blake when he suited his purpose was quite ready to say that the bargain was too liberal, and that the company would make large fortunes, and then to contradict himself flatly. He had contradicted his favorable remarks by persistently crying down the company and the country. Mr. Blake was ready for any emergency, stating one year that the land was worth \$4 an acre and the next that it was worth nothing, just as it suited him. So, Sir C. Tupper had declared the land not to be worth 25 cents an acre, and a little later estimated it at \$4. It was little wonder that their statements had not more weight.

SIR R. CLARKE said he had the audacity to declare that the Opposition had not run down the country. He ranked up the Pacific Scandal plot, by which he and his letter-stealing allies, in their thirst for office schemed to thwart this great national enterprise, and delay it for many years. He poured out a torrent of abuse—he abused the Government, the Province of Quebec, the railway company, our land regulations, and the tariff policy adopted by the country to save it from the ruin he was laying upon it. When he had subsided the motion was carried and the House adjourned.

An Answer Wanted.

Can any one bring us a case of Kidney or Liver Complaint that Electric Bitters will not speedily cure? Not a single case of either of these ailments already permanently cured and who are daily recommending Electric Bitters, will prove. Bright's Disease, Diabetes, Water-Break, or any urinary complaint quickly cured. They purify the blood, regulate the bowels, and act directly on the diseased parts. Every bottle guaranteed. For sale at 50c. a bottle by Taylor & Macdonald.—1

From the Liver and Kidneys arise fully half the sickness. Dr. Carson's Stomach Bitters stimulates both the Liver and Kidneys, and is a cure for all ailments. It is not an alcoholic stimulant. In large bottles 50 cents.

BLOOD RELATIONS.—The best blood relations consist of a perfect circulation of healthy vital fluid—pure blood and proper circulation have been established in the system by the use of that grand blood purifier, Burdock Blood Bitters.

CURE FOR CHILBLAINS.—Baths the feet for ten or fifteen minutes in water as hot as can be borne; then apply Haysard's Yellow Oil, and a cure is certain. Haysard's Yellow Oil cures Rheumatism, Neuralgia, Headaches, Lamebacks, and pain generally, and internally cures Colds, Sore Throat, Croup, Asthma, and many painful affections.

THE REGISTRARSHIP.

THE irritation that has been caused among the Reformers of Peterborough by the shamless manner in which Mr. Mowat and his colleagues utilized the patronage of the registrarship for the purpose of corrupting the electors still continues unabated. It was only to be expected that the dishonest means adopted by them, the dangling of the coveted prize for thirteen months before a dozen different candidates, in order to secure the support of the various localities, denominations, societies, circles or cliques to which they belonged, should greatly increase the friends of all those who proved to have been deceived by false promises and delusive hopes. It should not be forgotten that Mr. Mowat and his colleagues are responsible, not only for the crime of thus corrupting the electors, but also for the evil results, for all the ill-feeling, animosity and dissension that has followed our usual peaceful community in consequence of their duplicity.

THE SOUTHERN TROUBLE.

THE Rebels Capture Sinking and Hancock the Entire Garrison.

LONDON, Feb. 12.—It is reported that the rebels have captured Sinking. The Cabinet has been summoned to a council for the purpose of discussing the Egyptian question.

SINKING TAKEN BY THE REBELS.

Official despatches confirm the report of the capture of Sinking. The Cabinet are painfully impressed. Large reinforcements of troops and marines will probably be immediately despatched to Egypt. Seven men-of-war belonging to the Channel squadron have been ordered to Egyptian waters. It is rumored that Tokar has been taken by the rebels.

DEATH PREPARED TO SURRENDER.

Further advice concerning the fall of Sinking state that Tewfik Bey, preferring death to surrender, blew up the fortifications, spiked the guns, and made a sortie, when his six hundred men were massacred.

COMPLETE DESTRUCTION OF THE GARRISON.

A Suakin despatch says:—The news of the fall of Sinking was brought by a friendly Arab chief. The garrison made a sortie, and for a long time were successful in repulsing the rebel attacks, but at the last the attacking forces gained the upper hand and the garrison was completely destroyed except a few who were taken prisoners. The fate of the women and children is unknown. The streets of Sinking present a heartrending appearance. They are thronged with women weeping and wailing.

THE DEFENCE OF SUAKIN.

Active preparations are being made at Suak to despatch troops to Suakin. It is understood a battery of artillery will be sent to Suakin forthwith. Three men-of-war will leave Port Said immediately to convey British reinforcements to Suakin.

THE PERIL AT CAIRO.

A Cairo despatch says:—The disaster to Baker Pasha's army caused nothing like the sorrow which prevails among Englishmen here over the massacre at Sinking. There is a universal feeling of humiliation and shame that the gallant men of Sinking were killed almost within sight of British ships.

THE A.S. "City of Columbus."

Boston, Feb. 12.—The wreck of the "City of Columbus" is rapidly going to pieces. The hope of recovering the bodies or property has been abandoned.

The Truth and Nothing But the Truth.

Nowadays people want proof. Arguments are more plentiful than dollars, and it is only by the greatest care that many are kept at conviction point that they are not fools. Proof is wanted, and that we can supply in connection with the claims of Putnam's Painless Corn Extractor as a sure, safe, and painless remedy for corns. Ask your druggist what he thinks of it. Ask any person who has used it. This will give you all the proof you want. Then buy a bottle and use it, and become missionary for Putnam's Painless Corn Extractor.

THE SECOND SESSION OF THE FIFTH PARLIAMENT OF CANADA.

The Continuation of the Debate on the C. P. R. Loan—Able Speech by Mr. Foster—Reformers Sympathetic for Working Men.

THE C. P. R. LOAN.

Mr. DAVISON on Tuesday resumed the debate on the C. P. R. loan resolutions, and endeavored to show that the Opposition had not derided the enterprise. After a good deal of personal criticism of Messrs. Woodworth, Ives and White, he opposed the loan, without advancing any fresh arguments except that the C. P. R. would no more repay the advance than the Grand Trunk had done. He ridiculed the argument that the refusal of the loan would throw many thousands of men out of employment, seeming to think it was not of the slightest importance. He believed that further loans would be required.

Mr. FOSTER in a long and very able speech advanced the loan, showing that the benefit to be derived would be great and that the security was ample. He would not be sorry even if there was default and the road fell into their hands at such a low price. The C. P. R. did not come to them as beggars, for they were willing to adhere to their contract and complete the work within the allotted time, but owing to the efforts to depress their stock they could not press forward the work years in advance of the time unless the country, recognizing the advantage, came to their assistance for the time. He pointed out how the Opposition predictions were unfilled; they had said the directors would get all they could and abscond, they would not build the Lake Superior section, they would lock up the land for high prices, they would ruin the Conservative party. All these prophecies were proved fallacious.

Mr. FAIRBAIRN regretted that Mr. Foster's great abilities were employed in such a cause. He opposed the loan, and complained that the work had been pushed on too fast, actually arguing that it had been to the prejudice of the Northwest. The people there should have the right to build their own railways. If the loan was granted he would believe that the C. P. R. were victors over us.

Mr. CURRIE moved the adjournment.

CONSERVATIVES AGITATING.

LONDON, Feb. 13.—At Conservative meetings all over the country last night the policy of the Government was condemned, and confidence expressed that Parliament would speedily be dissolved and the Conservatives would triumph at the next election.

MR. BRADLAUGH.

LONDON, Feb. 13.—Bradlaugh has issued an address to the electors of Northampton for re-election. Mr. Richards will be the Conservative candidate. Bradlaugh addressed a crowded meeting at Northampton this evening in defence of his action in

OUR INLAND NAVIGATION.

We take from the annual report of the Ontario Public Works Department the following particulars as to these waters:—

GULL AND BURN RIVER WORKS.

The improvements and repairs which have been made to these works are as follows:—
Half Lake Rapids.—Three glances piers have been constructed in the rapids below the dam, at the outlet of Half Lake to facilitate the running of saw logs and timber. The piers are six feet in width and five feet in height, one of them being fifty and the other two sixty feet in length each.

Elbow Falls.—In order that the public may be more satisfactorily served, the slide opening of this dam has been removed from the west to the east side of the river. A slide ninety feet in length and twenty-five feet in width, and a wing dam eighty feet in length and ten feet in width and eight feet in height have also been constructed at the falls, to the easterly channel of the river below the dam.

These works will greatly facilitate the public use of these waters, and I am satisfied that the serious inconvenience which was annually experienced at this locality, will now be done away with.

Half Lake—Dam and Slide.—This dam has been supplied with two new stop-logs, and the floor planking of the slide has been repaired. A glance pier seventy feet in length, twelve feet in width and five feet in height has also been constructed to facilitate the passage down the rapids, immediately below the dam.

Norland Slide.—Owing to the formation of a jam of saw logs, about sixty feet of the lower end of this slide was carried away in the month of June last. This damage has since been made good, consequently the slide is again in a fair state of repair.

Croft Lake—Dam and Slide.—Considerable injury was done to this slide during the past season by saw logs, and the floating apron, seventy feet in length, which was secured to the lower end of it, was carried away. The necessary repairs required in consequence of this damage have been attended to, and the structure is now therefore, again complete and ready for use.

The floor planking of the slide at Kanes Lake dam has been repaired, and the dam on Devils Creek gravelled, to make it water-tight.

SOUKONG RIVER DREDGING.

As stated in my previous report, this work was well advanced at the close of 1883. Operations were again resumed on the 18th of May last, and the work proceeded with continuously until the 28th of June, when the improvement was completed.

STONY CREEK DREDGING.

Frequent complaints having been made to the Department of lower being annually flooded owing to the formation of a bar of stones across Stony Creek, on Lot No. 5, in the 15th concession of the Township of Ope, an examination was made, when it was ascertained that the dam at Lindsay affected this creek for a considerable distance up stream, causing still water where there originally was a good current.

In consequence of this a bar had formed across the creek which prevented the flood-water from passing away so rapidly as it had formerly done, thereby affecting the low-lying lands in the vicinity.

Operations to remedy this grievance were commenced in October, and a channel excavated through the bar 64 feet in length, twenty-five feet in width, and five feet in depth, which gives a water way about equal in area to the creek above.

I might state that since the completion of the work I have received a communication from the township Clerk, of which the following is an extract:—"The people who petitioned for this are more than satisfied, they are in fact delighted to see large tracts of land exposed which had previously, for several years, been submerged. On behalf of the Municipal Council of Ope and myself, I have to say that the manner in which the work was done is very satisfactory and realizes our most sanguine expectations."

OTONABEE RIVER WORKS.

In the estimates for 1883 estimates were made for the reconstruction of the dam across the Otonabee river at Young's Point, but as explained in my previous report the work was not proceeded with, owing to the Department being unable to purchase the necessary timber at what was considered reasonable rates.

As early as the month of May last all necessary arrangements had been made to proceed with this work, but the department was then informed that the Dominion Government had assumed control and intended constructing a new dam in connection with the Trent Valley Canal. Upon enquiry being made of the Hon. the Minister of Railways and Canals an official communication was received stating that such was the intention.

As this work will not now be required to be carried out by the Province, the unexpended balance of the appropriation may be allowed to lapse.

Lock at Young's Point.—Repairs have been made to the valves of this lock, and the swing-bridge adjusted.

Lindsay Lock.—Repairs have been made to this lock, and a new boom has been provided and placed in the river above in order to protect the dam. A new fence enclosing the ground on the east side of the lock has also been erected.

Salem River Lock.—The gates of this lock have been repaired, and the dam has been gravelled to make it water-tight. Two new stoplogs have also been provided for the slide opening.

The diving apparatus, which was purchased in April last, has been frequently used, and has already been of great service to the department in making repairs to the works during the present year.

LOOKALONG.

The following are the lookmaster's returns of the lookages made at the following locks during 1883:

Rainbow River Lock.—Steamboats, 18; small boats, 28; crabs of timber, 28; sawlogs and pieces of square timber, 19,940.

Lindsay Lock.—Steamboats, 29; saws, 28; crabs of timber, 18.

Young's Point Lock.—Steamboats, 47; saws, 19; crabs of timber, 18.

LINDSAY WORKS.

When the Province of Ontario assumed control of the works at Lindsay, the Government received possession of certain land adjacent to the lock, as belonging to the Board of Works of the late Province of Canada. During the present year, however, Mrs. Caroline Loring filed a petition of right, claiming to be entitled thereto and obtained a decree for the possession thereof and \$28.00 costs. Upon her application to the petition, her title was not complete, but before the sitting of the court she procured such conveyances as gave her clearly a right to recover the land, so that it was not deemed advisable

to defend at the trial and thus increase the costs.

The property was afterwards sold by public auction, and as the departmental storehouse and office was erected on a portion of it, a lot twenty-five feet in width was bought at \$21.00 per foot frontage. The total amount expended in connection with this matter amounts to \$34.80.

Our Canadian Industry.

is prosperous. The great difficulty to be contended with is the low grade of goods required. In nothing is this more apparent than in the comparatively small article of sewing silk. The great demand in Canada seems to be for a cheap quality. Buyers forgetting that a cheap thread must necessarily be a fine and consequently a weak one. Messrs. Belding, Paul & Co. make three grades of spool silk; of these different qualities the poorest one has by far the largest sale, at the same time they constantly hear of complaints of poor sewing silk. If ladies will take the trouble to ask for Belding, Paul & Co. own brand, and see that their name is on the end of each spool, they will be sure of getting the best made.

LOCAL NEWS

The Cells.

Six prisoners, three of whom were arrested for drunkenness and three for vagrancy, and three tramps, occupied the police cells last night.

Social this Evening.

The young men's social in the Opera House this evening promises to be very successful. Among those taking part are Misses Shaw and Ellsworth, and Messrs. Leach, Henderson, Best, Galletty, Morris, and Gus. Leach.

New Time Table.

A new time table will take effect on the Midland Railway on Monday next. The change in the time of the arrival and departure of the Toronto trains will not be great, but the change on the Grand Junction and Lakeside divisions will be considerable.

The Probabilities.

The weather probabilities for this district for the following twenty-four hours, commencing from 6 o'clock this morning, as reported from the Toronto Observatory, are as follows:—Strong winds from the west and northwest; clearing, colder weather, with flurries of snow.

Licence Commissioners.

The Dominion Government has, under and in accordance with the provisions of "The Liquor Licence Act of 1883," appointed the first and third Licence Commissioners for various districts. The first Commissioner for Peterborough is Judge Dennistoun and the third Mr. James Stevenson.

Masonic.

On Wednesday afternoon a Masonic Lodge of Instruction was held in Omeuse by Bro. Odell, of Oshawa, D.D.G.M. of Ontario District. On account of the sickness of a son of Bro. John Kincaid, W.M. of Lorne Lodge, Omeuse, the Lodge was opened by W. Bro. Miller. Among those present were Bro. B. Shortly, W.F.M. Peterborough Lodge; Bro. W. Patterson, J.F.M. Peterborough Lodge; Bro. J. Alexander, S.W. Peterborough Lodge; Bro. W. Ross, Corinthian Lodge; and Bro. Thos. Richardson, Peterborough Lodge. The Lodge of Instruction continued for an hour, when the Rev. Dr. Wild, of Toronto, arrived. Refreshments, which were provided by the Omeuse brethren, were then served, after which Dr. Wild delivered a short lecture. In the evening the Rev. doctor delivered his lecture on the "Stone Mason and 1883."

Girl's Friendly Aid Society.

A pleasant entertainment was given on behalf of this Society in St. John's school house on Wednesday evening. A large and appreciative audience was present, which listened with delight to a highly entertaining and varied programme. The proceedings were opened by a chorus by the ladies of the Society. Miss Sanderson followed with a recitation entitled "The Way to Heaven." The third number, the song "When the Tide Comes In" was sung in finished style by Miss Stevens, and was heartily encored. Miss Irwin read, "You Put no Flowers on Papa's Grave," which was followed by a song by Miss Ballantyne. Mr. A. D. Brown's song, "Sweet Genevieve," was highly pleasing and was well rendered. Miss Charman recited, "The Shamrock," the Misses Worsley and Hawkes followed with a duet. Miss Grundy's reading was excellent and rivaled the amusing dialogue which followed between four members of the Society entitled "The Editor." The proceedings terminated with "God Save the Queen." Miss Missie Everett played the accompaniment in a very creditable manner.

REAL ESTATE INVESTMENT COMPANY.

Meeting of the British Shareholders of this Peterborough Institution.

The Glasgow papers are to hand containing extended reports of the annual meeting of the British shareholders of the Peterborough Real Estate Investment Company. The meeting was held in the Chambers of Messrs. Finlayson & Auld, 154 West George Street, Glasgow, on the afternoon of January 18th.

Mr. Henry Cowan presided at the meeting and there was a large number of shareholders present.

The fifth annual report, which was published after the last annual meeting of the shareholders in Peterborough was submitted, and proved very satisfactory to the British shareholders.

The adoption of the report was moved by the chairman, who spoke in high terms of the management of the company and the satisfactory condition of its affairs.

The motion was seconded by Mr. Wm. Mathie, who, among other things, said that he considered the shares of the company worth from 25 to 30 per cent. above par.

The motion was unanimously agreed to, and, after reading a vote of thanks the meeting adjourned. We will endeavor to give more extended extracts from the speeches delivered in a future issue.

Fresh Salmon, Trout, Bass, Smelts, Haddock, Cod, and Fresh Herrings. Pure Dried Cod, Finnan Haddies, Bloaters, &c. Oysters, 30 cents per quart, and \$1.15 per gallon.

A Good Opportunity.

A capital opportunity to secure a handsome team of horses and fancy driving vehicles will be offered on the market square on Saturday next. Mr. Wm. Ross having instructed Mr. C. Stapleton to sell these animals and articles by auction on that day.

A Runaway.

A team of young horses owned by Mr. John Diodre ran away at about ten o'clock on Wednesday night. They ran down George street, leaving the cutter about opposite Mr. Bailey's store, and turned west on Hunter street. Near the corner of Alymer street they ran on the sidewalk and two young ladies had a narrow escape from being run over. The horses turned north on Alymer street and ran into the lane at Mr. Paterson's tannery, turning over a cutter belonging to Mr. Denoon. They ran down the ice on the creek to the Hunter street bridge, where they were compelled to stop. The horses did not appear to be injured by their somewhat exciting escapade.

Fatal Accident.

A despatch from Whitby says that at about noon on Tuesday while a fast express which did not stop there, was nearing the station Mr. J. P. Beall, a commercial traveller of Montreal, and widely known, jumped from the train and received fatal internal injuries. Some of the officials seeing him jump stopped the train and furnished Pullman bedding, etc., for his conveyance to the town to his sister's Mrs. Capt. J. H. Way's residence. He died at seven o'clock that evening. He had been on the road seventeen years. Mr. Beall was well known in Peterborough. He was a member of the firm of Beall, Ross & Co., and was one of the most popular of the Commercial men who transacted business here.

St. Valentine's Day.

This being the 14th of February, is St. Valentine's day, and is a time when it is supposed to be "the correct thing" to send amatory epistles and artistic souvenirs. However, horrid caricatures often take the place of the pretty valentines, and very often the recipients of these favors, instead of having their vanity fed by some disciple of Erato, only have their pride wounded by a grotesque representation and ill-natured remarks contained in execrable rhymes—unless, indeed, they have the good sense to smile at what was, perhaps, only intended for a joke. There appears to have been a good trade done in these articles this year, as the bookstalls windows, which were filled with valentines of every description, have been relieved of a number of them. Although the one day is supposed to be especially set apart for this purpose, the "epit" is generally continued for a week.

Accident to a Midland Express.

As the Midland express train due at Toronto at 8.45 p.m. was nearing that city yesterday it collided with a couple of freight cars. The accident occurred about ten miles from Toronto and took place thus:—Owing to the length of a freight train at Milliken's Corners a couple of cars were left standing on the main line. Into these the express dashed, splintering them to fragments, the engine of the express was itself thrown off the line. On leaving the rails the engine stopped, and the express was brought to a standstill. Over sixty passengers were on the train bound for Toronto, and although several of them got a severe shaking, none of them was injured. The engineer and fireman escaped serious injury almost by a miracle. Assistance was at once telegraphed for to Toronto, and about an hour later an auxiliary was despatched to the scene of the accident, with orders to clear away the debris and bring the passengers on to Toronto. Up till two o'clock this morning the auxiliary had not returned to Toronto.

Look Out.

POLICE COURT.

THURSDAY, Feb. 14.—Messrs. Jas. Stevenson, J. P., and Thos. Menzies, J.P., presided at the Court this morning.

DRUNK AND DISORDERLY.

Andrew Neil and John Barrina were charged by Chief Johnston with having been drunk and disorderly in a public place on Wednesday evening. They were using their lungs too vigorously near the Arcade on that evening, when the Chief came upon them and conducted them to the lock up. They were each fined \$2 or fifteen days in gaol, and were committed.

Peter Montrose, an Italian, was brought up on a similar charge, also laid by the Chief. He was fined \$2 or fifteen days in gaol.

VAGRANCY.

Michael Foley and James Carr were charged by P. C. Pidgeon with being idle and having no visible means of support or place of habitation, etc. They were sent to gaol for fifteen days.

John Holland had to answer to a similar charge preferred against him by P. C. Adams, and received a similar sentence.

The Magistrates, in sentencing the prisoners for vagrancy, warned them that after they had served this sentence, if they were again arrested in Peterborough they would be sent to the Central Prison for six months.

Springtime Truss and Supporter.

See Prof. Hotchkiss's springiest truss and supporter advertisement in another column of this paper. Go and see him. He defies the hernia he cannot hold. Will be at the Calise House Feb. 27, 28 and 29.

The New French Loan.

The subscriptions to the new French loan are four times in excess of the amount of the loan.

Summoned to Rome.

The Pope has summoned the French bishops to Rome to confer upon measures to counteract the anti-religious propaganda.

A Woman's Terrible Act.

New York, Feb. 12.—At the 59th street station of the Third Avenue Railway this morning an unknown woman shot Victor G. Andree in the thigh, and thinking she had killed him blew her own brains out. The shooting occurred while the two with other persons were waiting for the train and created wild excitement. The man has been taken to the hospital. No explanation of the affair has yet been made.

Success of the Rebels.

LONDON, Feb. 12.—It is reported on authentic information that Slinkat and Tokar have been captured by the rebels. Official despatches confirm the report of the capture of Slinkat. The Cabinet are painfully impressed. Large reinforcements of troops and marines will probably be immediately despatched to Egypt. Seven men-of-war belonging to the Channel squadron have been ordered to Egyptian waters. The Cabinet has been summoned to a council for the purpose of discussing the Egyptian question.

JAPANESE HOUSES.

The Japanese houses are generally one-storyed, but roomy, and of exceedingly neat appearance in and outside. They much resemble Swiss chalets, with the roof protruding over a basement veranda, from six to eight feet wide. The wooden framework of the main walls is filled with bamboo slats, covered with clay, and heavy rafters are put on it for the roof, to give the whole structure the necessary stability. No permanent partitions are found in the interior, and light wooden panels, moving on grooves in porcelain castors, divide the different compartments. They can be removed and transposed at will to form new partitions. Transparent paper serves for the window frames, and the same material, made of the bark of mulberry tree and painted over in colors with elaborate patterns is used for curtains, portieres, and many other items of ornaments. The floors are covered with mats made of rushes, which all over Japan have the same dimensions—six feet long, three feet wide and two inches thick. The size of these mats or kins, as they are called, regulates all the measurements of a house; and if the Japanese wants to have one built, he only states to the architect the number of kins it has to contain. These mats are always kept scrupulously clean, and never allowed to be trodden upon by the sandals of the native or the boots of foreigners, but only with stockings or bare feet. Chairs, tables and bedsteads being almost unknown, the Japanese sit and sleep on this matting, and, except some ornamental cabinets and screens, hardly any other furniture incumbers the room. The reception and business apartments open toward the street, and the back of the house contains the living and sleeping rooms, as well as the kitchen, which are all more or less open to the view of the passerby. All the household utensils are made of lacquered paper mache or bronze in curious shapes, elaborately ornamented, and with a view to stow them away after use in the smallest possible space, economy of space being a cardinal virtue in the construction and management of Japanese houses.

In winter the rooms are warmed by coal pans—a very inefficient method in a climate like that of Japan, but counteracted by the number of quilted gowns both men wear over the other in cold weather.—The Builder.

To Cure Pain.

The means which may be readily and successfully employed to relieve pain is important and should be known by all. We give you the name of the best remedy in the world for pain, and the information that a 10 cent sample bottle may be purchased at Ormond & Walsh's drug store. Paine's Nervine, "the new and sure pop pain cure," will never fail you in time of need. Nervine is a safe and prompt cure for all kinds of pain, neuralgia, cramp, toothache, headache. Safe always. Ten and 25 cent bottles at Ormond & Walsh's drug store.

"Wash" Cough Cure, 25 Cents.

Prescription of a Boston physician, dispensed years by a Boston Druggist. One dose will cure any ordinary cough. It acts almost magically. Ask J. D. Tully for a 25 cent bottle of Hub Cough Cure.

At this season of the year there should be a bottle of Pectoral in every home. It is unequalled for Croup, Colds and Bronchitis. It is pleasant, equally safe for children. Price 25 cents at all druggists.

Singers and public speakers are always benefited by using Dr. Down's Inhalant. It increases the power of the voice. Take small doses often. Price, 25c, 50c, and \$1.00.

As I weget up feeling badly, didn't rest good, don't want bread, no appetite, no energy, had taste and breath, guess we are sick. Two doses Zephen will tone up our Liver and our appetite, and set us right. Ask J. D. Tully.

WE'RE THE LEADERS

IN LOW PRICES.

There is a maxim which reads, that "Money saved is money made."

This principle applies to business as well as in domestic, and it is the money saved by buyers at DOLAN'S that makes the place the bargain depot of the town.

For years we have been to the front with low prices, and full values, and now we are offering at our clearing out sale a PERFECT BONANZA.

Low prices have brought us success in the past, and we intend to keep on. We give you more for your money than your cash can buy in any other Dry Goods house in town.

You can always save money by buying where good business systems allow and make low prices.

Farmers of the County of Peterborough,

And Adjoining Counties, TURN OUT, and Attend the EASTERN

Dairymen's Convention,

TO BE HELD IN THE

Town of Peterborough,

On WEDNESDAY and THURSDAY,

FEB. 20th and 21st, 1884.

And hear some of the best, most able and practical men on Dairy Farming, Breeding of Cows for Milk, Cheese and Butter. Read the list of names of gentlemen that are expected to be present to address you.

HON. HARRIS LEWIS, of Frankford, N.Y., a thorough, practical Dairy Farmer, Cattle Breeder, Butter Maker, and one of the best informed men in the United States.

PROF. J. F. ROBERTS, of Cornell University, Ithaca, N.Y., a practical Farmer, and owner of a first class farm in the Western States, and now in charge of the farm in connection with the above University at Ithaca, N.Y., and who manages to grow over 70 bushels of Oats to the acre.

THOS. BALLANTINE, M.P.P. of Stratford, and President of the Western Dairymen's Association of Western Ontario, a practical dairymen, and in all probability the best authority on the manufacture of cheese in the Dominion of Canada, and who has done so much in Western Ontario to improve the quality of the Manufacture of Cheese.

PROF. BROWN, of Agricultural College, Guelph, a thorough practical man in every department of Agriculture, your servant in charge of the Ontario, Agricultural College, and who will speak to you on—1. Manure in Dairymen's; 2. Influence of Food in Dairy Products.

PROF. L. B. ARNOLD, of Rochester, N.Y., who has devoted a lifetime nearly in the investigation of the manufacture of cheese and butter, and is so well known to every cheese maker and manufacturer of cheese and butter in the United States and Canada.

JAMES WHITTON and HOWARD BIRRELL, who have been in the employ of the Eastern Dairymen's Association for the past season as instructors in the manufacture of a better quality of cheese, and who have done so much in improving the quality of the make of cheese in Eastern Ontario.

Farmers, do not have it any longer than there is no enterprise in the Eastern Ontario Farmers, but turn out and show to the Western Farmers that you take an interest in all matters pertaining to your interest.

The Western Farmers turn out by the hundreds every year to attend the Convention of the Dairymen held at Ingersoll, Stratford, London and Woodstock, and remain the whole three days in most cases, and either join the Association or pay their 25 cents each time on entering the convention, morning, afternoon and evening.

The Committee make the Convention free in Eastern Ontario, and leave it optional with those attending to become members, in which case entitles those joining to a copy of the Report of the Proceedings, and now hope it will never be held again here in the east, but enough among the Farmers of the County of Peterborough and adjoining Counties to turn out and make a respectable attendance to a Convention when held at the Town of Peterborough. Do not allow all the attention to come from a distance. Turn out on mass and fill the City Hall, and remain through the three days, and I feel confident you will be amply repaid for the few days time spent in listening to the addresses that will be delivered to you.

Yours respectfully,
HARFORD ASBURY,
Secretary, E.D. Association

GIVE THEM THEIR DUE.

It is only fair that the Reform politicians and journalists should have their due, and therefore we must acknowledge that some good has resulted even from their unpatriotic efforts to deny the North-West and discourage its settlement. For a new country it has been exceptionally quiet and free from disorder, so it seems that those with whom they have most influence have been deterred by them from going there. Their army of gaudy birds whom they sent to Rat Portage to take violent possession, although disbanded after the election, could not have proceeded in any numbers to Manitoba, for we have heard of only a few of them giving a little trouble to the Winnipeg police. The Globe has at last done Manitoba some service, if its abuse of the country has deterred its interesting proteges from trying their luck there.

CONSTITUTION AT BOTTOM.

We have had repeated instances lately of Reform leaders repudiating the Reform press. Mr. Blake, Mr. Mowat and Sir Richard Cartwright have all within the last few days in parliamentary speeches disowned any responsibility for the utterances of the organs of their party. Mr. Blake's disavowal came at the risk of time for him. Being cornered in one of his own self-contradictions he was driven to assert that the original bargain with the C.P.R. was too favourable for them that their shareholders would make huge fortunes by it, and that he had always held and still held that view. Yet only a few days before we saw the Globe, his leading journal, endeavouring to destroy the C.P.R. by the false and wicked statement that it is insolvent. It must in all fairness however, be admitted that for those who go deep enough there is an undercurrent of consistency to be found in all this. Whether they say that the C.P.R. is enormously enriched or is insolvent; whether they say that the grants are more than sufficient to build the road or even with the addition of the proposed loan will be insufficient; and different Reform "parlours," or even one of them, will say all this in one day—there is one object kept steadily in view in the midst of all these contradictions. Anything is said that at the particular moment may seem likely to injure the company and thwart its operations. The Reformers cannot tolerate that anything so beneficial to the country shall proceed under Conservative rule. They cannot bear to see the present administration successful where they failed so signally themselves when in power.

THE PROVINCIAL ESTIMATES.

The new Provincial Treasurer gave an excuse for his delay in bringing down the estimates, that he has only recently succeeded to the portfolio. For this his colleagues are responsible, and they cannot plead their own misconduct as an extenuating circumstance. There was no reason why the portfolio should be thus left without a keeper, and why the important office of Treasurer should be kept virtually vacant for a year, so that the business of the country could not be transacted in due time. More than a year ago they knew that Mr. S. C. Wood had wisely resolved to abandon them. They had then an excellent opportunity of choosing a new colleague before the general elections, so that the necessity of a second appeal to some constituency would have been obviated. It was then their duty to appoint a constitutional Treasurer, who then had, or would shortly obtain, a seat in the Legislature. Instead of this Mr. Mowat and his colleagues preferred to adopt the unconstitutional course of allowing the portfolio to be nominally held for long months by a gentleman who was not qualified by a seat in the House, and who had declined to apply for one, thus being utterly irresponsible to the country, and whose time was occupied by an important and lucrative office in a chartered company. They did this in pursuance of their usual plan of prostituting their patronage of all offices, small and great, for the purpose of unduly influencing the elections, for they could thus dangle before a dozen different constituencies the hope of being represented by the Provincial Treasurer if they sustained Mr. Mowat and his colleagues. And now they allege their own corrupt and unconstitutional conduct as an excuse for the business of the Department being neglected, and the Province and its Legislature being kept waiting for estimates that should have been ready for their consideration before now.

ONTARIO LEGISLATURE.

FIRST SESSION OF THE FIFTH LEGISLATIVE ASSEMBLY OF ONTARIO.

Another Boundary Question—Proposed Niagara Falls Park—The Treasurer Again New—Plans for School Buildings—No Budget Yet.

ONTARIO AND QUEBEC BOUNDARY.
 Mr. MOWAT on Wednesday, in reply to Mr. Morris, said that the Parliament of Canada had passed the required act for the ratification of the boundary between Ontario and Quebec. The Province had passed such an act in 1875. The latest communication asking for the ratification was in 1876, when the reply was that Quebec had not made a similar request. He presumed the Province were practically bound by their acceptance.

THE PROVINCIAL LIABILITIES.
 Mr. A. M. ROSS, in reply to Mr. Ermatinger, said the Government did not propose to discontinue the grant to the Agricultural and Arts Association for the purpose of the Provincial Exhibition.

IMMIGRATION FROM IRELAND.
 Mr. HARDY, in reply to Mr. Bankerville, said that a conference had taken place at the time of last session between Major Gaskell and his department with reference to bringing emigrants to Ontario from Ireland. There had been no correspondence since with Major Gaskell, but there had been with committees that he represented.

NIAGARA FALLS PARK.
 Mr. HARBOUT moved for papers as to the proposed international park at Niagara Falls. He forcibly urged the adoption of the project, of which he estimated the cost on the Canadian side would be \$200,000. He advocated the appointment of a commission.

Mr. MOWAT said there were other estimates, one as high as \$500,000. He thought that it was a matter interesting to the whole of Canada, and therefore that the Dominion should share the expense, but he had failed to persuade them. The suggestion of a commission was a good one.

THE PROVINCIAL ACCOUNTS.
 Mr. MORRIS moved that the adoption of such a change in the financial year as will enable a complete statement of expenditure carried down to as late a date as may be practicable to be submitted early in each session in the highest degree desirable and would, moreover, enable the Public Accounts to be properly examined and investigated by the Public Accounts Committee. He argued that the work of this committee was most important, and quoted Mr. Gladstone to the same effect. But it was the present system of examination was a complete farce, as there was no time to investigate thoroughly. At Ottawa the financial year had been changed to enable the Committee to do its work. So far even the account for 1881 had not been examined.

Mr. A. M. ROSS said he thought a better remedy would be to bring down the accounts earlier in the session. He repeated the excuse that he had only entered the office recently, and that they had a new printer. He would promise the accounts next week, and that they should be earlier in future.

Mr. CAMERON referred to past delays in bringing down the accounts, and urged that the Committee should be struck directly the House assembled, so that they could get to work.

Mr. FRASER objected to changing their financial year, and thought the Treasurer's promise should be satisfactory.

Mr. MEREDITH would not like to change it if it could be avoided. He thought they might meet later and not sit at the same time as the Dominion House. The committee had only met four times last session, which was insufficient.

Mr. MORRIS withdrew his motion in view of the promise of the Treasurer.

PRISONER'S FOOD.
 Mr. HARDY, in reply to Mr. Gray, said some salt beef for the Central Prison had become strong, and on the recommendation of the surgeon the Warden had discontinued its use.

SCHOOL BUILDINGS.
 Mr. GIBSON asked for a return as to plans for schools, with system of ventilating, lighting, &c. He suggested that plans should be invited and the best selected by the Department for the information of School Boards, as not sufficient attention was given to this important matter.

Mr. G. W. ROSS concurred in these remarks, and described what had already been done by the Department. He would give these suggestions the fullest consideration.

UNDREINAGE.
 Mr. WALTERS' bill as to undrainage was read a second time and referred to the Municipal Committee.

PROVINCIAL FINANCE.
 Mr. A. M. ROSS, in answer to Mr. Meredith, said the Budget speech would not be made this week.

TORONTO NEWS.

INFANTRY SCHOOL.—Six recruits were sworn in by the Mayor for the Toronto Infantry School on Wednesday.

HUMBER PATIENTS.—The two Humber patients remaining in the General Hospital will be discharged tomorrow in a few days.

MR. IRVING AND MISS TRENT.—The sale of seats for subscribers to the four performances of the Irving-Terry engagement took place on Wednesday. The auction sale of private boxes will be held to-morrow morning.

OFFICIALLY OPENED.—On Wednesday afternoon at four o'clock the West End branch of the Free Library, at St. Andrew's Hall, was formally opened with all the ceremony which the importance of the event demanded. There were about forty persons present, including the Mayor and the members of the Free Library Board.

THE ISLAND CHURCH.—Mr. S. Locke has been awarded the contract to build the Island church the cost not to exceed \$1,000. The contract stipulates that the structure shall be completed by June 14th. Plans are being made out by Messrs. Stewart & Denton for an island residence for Bishop Sweetman, the cost of which, amounting to about \$1,500, will be borne by the Bishop himself, the Island Church Committee agreeing to purchase the building from him should he at any time withdraw from this diocese.

UNIVERSITY BARGAIN.—The following are the principal persons who have received letters of introduction from Hon. Mr. Mowat and his colleagues in the Ministry, Mr. Meredith, M.P.P., Hon. Chas. Clarke, Superior Court Judge, Hon. Bishop Lynch, Bishop Sweetman, the leading city clergy, the principals of educational colleges, representatives of the leading papers, Lieut-Gov. Robinson, Professor Goldwin Smith, Mayor Bowell, Dr. Lemuel Mass, President Indiana University, the heads of affiliated colleges, and Matthew Arnold. The latter expressed very great regret that he was unable to arrange matters so as to be present.

From the Liver and Kidneys arise fully half the sickness. Dr. Casson's Kidney Pills stimulate the Liver and Kidneys, and cleanse one against disease; it is not an ordinary purgative. In large bottles 50 cents.

DOMINION PARLIAMENT.

THE SECOND SESSION OF THE FIFTH PARLIAMENT OF CANADA.

Another Boundary Question—International Forestry Exhibition—Aid to Local Railways of General Importance—Evidence in Criminal Cases—A Standard Restricted.

BILLS ADVANCED.
 On Wednesday a number of bills were read a first or second time.

FORESTRY EXHIBITION.
 SIR J. MACDONALD said in answer to Mr. Lundy that as the Province had the control of their forests they would send representatives to the International Forestry Exhibition to be held at Edinburgh.

THE EXCHANGE BANK.
 SIR L. TILLEY replied "Certainly not" to Mr. Holton's question whether he had asked Mr. Ogilvie or Mr. Buntin to exhibit a statement of their affairs to enable him to judge of their sufficiency as security for an advance of \$100,000 to the Exchange Bank.

THE B. O. BOUNDARY.
 SIR J. MACDONALD in reply to Mr. Reid said they had received no communication from the British Columbia Government as to their boundary. It was defined by statute and as to making it there was no immediate necessity and it would be expensive.

RAILWAY AID.
 Mr. DUPONT advocated the claims of the Lake St. John Railway to a grant.

Mr. CAMERON (Inverness) did the same for a road from the Strait of Canso to Sydney.

Mr. WRIGHT (Ottawa) thought while they were building up the Northwest they should not forget regions nearer home.

SIR C. TUPPER said many such roads were really of Dominion and not merely local importance, and therefore they had received and would receive grants. These claims should receive full attention.

INDIAN AGENCY.
 Mr. COOK moved for papers as to the removal of the Indian Agency from Toronto and its removal to Ottawa. He objected to the change, and to some of the appointments.

EVIDENCE IN CRIMINAL CASES.
 Mr. CAMERON (Huron) moved the House into committee on his bill allowing misadventures to testify for themselves.

After a long discussion the motion was carried by 86 to 81, and the House went into committee which soon rose and reported.

A RETRACTION.
 Mr. CAMERON (Huron) said that in speaking recently of the sale of the supply farm at Fish Creek to Lieut. Governor Robb, he had included the name of another Lieut. Governor (Mr. Dewdney) in his charges. He was informed since by Mr. Dewdney that he never had had any interest in the purchase, and of course he was bound to accept this statement.

THE BUDGET.
 SIR L. TILLEY, in reply to Sir R. Cartwright, said he could not now fix the date for his financial statement.

UNDREINAGE.

A very important bill to facilitate undrainage has been referred to a select committee of the Ontario Legislature to be known as the "Municipal Committee," of which J. Carnegie, M.P.P., for West Peterborough has been appointed a member.

AN ANSWER WANTED.

PROF. G. W. HOTCHKIN
 Will visit the following places again:—
 LINDSAY—Benson House, Feb. 26 & 27.
 PETERBOROUGH—Cassidy House, Feb. 27th, 28th and 29th.

Prof. Hotchklin's treatment is practical, rational and economical. His object is immediate relief and eventual cure. It is based on scientific principles and easily demonstrated to the satisfaction of every intelligent person, that a truss without steel springs or hard substance, having healed inguinal and umbilical hernia as well as Ventral, all the advanced ages respectively of from 50 and 90 years, must and will stand the test against all Spring Trusses to children as well as adults. Prof. H. having had 30 years' experience has become master of his profession, and BELIEVES the Hernia he cannot hold in the place.

Prof. Hotchklin's post-office address is Albion, Ontario, N. Y.

LOCAL NEWS

A Race Course.

The track on the race-course on the Little Lake has been prepared for driving, and owners of fast horses can now try the speed of their flyers over the course.

The Date Fixed.

The Saved Army is booked to make its first appearance in Peterborough in Bradburn's Opera House on March the 1st. The Saved Army, as we mentioned before, is a separate organization from the Salvation Army. Its headquarters are at Port Hope, near Kingston, and it has regiments in Napawan, Cobourg and Port Hope. The press of these towns appear to have nothing to say against it and frequently say a word in its favor.

A Dog for a Circus.

A dog which accompanied a son of its owner into Mr. Andrew McNeill's dry goods store on Thursday afternoon would be clever enough to perform in a circus. After entering the store, it stood looking intently at the door for a few minutes, and then, as if suddenly inspired by some idea, jumped through the glass in the door, shivering the glass into pieces, but apparently without doing any injury to itself. The owner of the dog promptly paid for the damage done.

Treat Valley Canal.

We are glad to have the excellent authority of the Port Hope Times for believing that Port Hope is favorable to the opening of the Treat Valley Navigation. Our contemporary says:—"The Peterborough Review is mistaken if it thinks Port Hope is opposed to the Treat Valley Canal. On the contrary, nearly all our citizens are favorable to its construction, and we are confident it is ever completed its most important outlet will be the harbor of Port Hope. We agree with the REVIEW, that the route is a necessary one, and we hope to see it vigorously pushed forward and speedily completed."

Obituary.

We take the following notice of the death of Mr. J. R. Davis, formerly of Peterborough, from the Erie Herald of Feb. 6th. Mr. J. R. Davis was a son of Mr. Davis, one of the proprietors of the foundry which formerly stood on the corner of Brock and Aylmer streets. The Herald says:—"This morning James R. Davis, of East 10th street, died after a very brief attack of pleuro-pneumonia. Deceased was born in Cobourg, Ontario, and came to Erie three years ago. He was a machinist and worked at Skarnes, where he was very highly esteemed by his fellow workmen. Deceased was Master Workman of Erie Lodge, No. 44, A. O. U. W., and was also a member of Legion No. 8, Select Knights, and the first in Erie to die. Mr. Davis leaves to his wife and two children \$2,000 insurance in the above named order."

Skating.

Mr. E. J. Hartley attended the skating carnival at Hastings on Thursday evening to compete for a prize offered for the best fancy skater. It was expected that a fancy skater from Belleville would compete for the prize, and perhaps more, but none of them put in appearance, and after giving an exhibition as a skater, Mr. Hartley was awarded the prize. It is a handsome silver medal, bearing on one side a representation of a skater on a pond, the other of which is lined with trees, and on the other side the following inscription:—"Awarded to E. J. Hartley, for best fancy skating, Hastings Feb. 14th, 1894." This is a pretty addition to Mr. Hartley's already large collection of medals won in various competitions. The carnival was a very successful one, the "Jumbo" which was advertised being far ahead of Barnum's elephant of the same name.

Wm. Dow & Co's Celebrated Indian Pale Ale on draught at The Little Windsor Hotel. Try it.

A SOCIAL GATHERING.

Under the Auspices of the Young Men's Christian Association.

The social gathering of young men in Bradburn's Opera House on Thursday evening was a signally successful one. It was held under the auspices of the Young Men's Christian Association. The suggestion of holding such a social was made by the energetic Secretary of the Association, and the plan was heartily endorsed by the directors and members, and they, with a number of ladies who volunteered their assistance, carried out the suggestion in a most creditable manner.

The chair was occupied by the President of the Association, Dr. W. E. and the hall was filled to the door.

The President, on taking the chair, explained the objects for which the Association was organized and carried on. He remarked that similar organizations existed throughout Canada, the United States and Great Britain, and that in this respect it possessed all the advantages of other societies.

A short but choice programme was then carried out, the first event being instrumental music by Messrs. Best, Sanderson and Lech. These gentlemen have frequently delighted audiences in Peterborough, and it is sufficient to say that they received as flattering a reception and were as heartily applauded as usual. Mr. D. Galletly followed with a song, "Nil Desperandum," which was received with much favor, and a duet by the Messrs. Shaw was loudly applauded.

Mr. Cole, Travelling Secretary, then delivered an address. He explained the plan of working adopted by the Association. There were two classes of membership—active members, who were united with some church; and associate members, young men of good moral character. The object of the Association was to benefit young men spiritually, mentally, socially and physically. He urged the necessity for more commodious rooms for the Association in this town.

Mr. Cole also gave a recitation for the boys, and it pleased them greatly. The instrumental trio again favoured the audience with music, and Mr. H. Morris sang a song. Mr. Morris possesses a clear, strong voice, and we hope to see him take part more frequently in entertainments in the town. Miss Shaw and Miss Ellsworth sang a very pleasing duet. Miss H. Johnston presided at the piano during the evening in a very acceptable manner.

Refreshments, which had been provided by lady friends of the Association, were then served in abundance, and about half an hour was spent in tea drinking, &c., and pleasant social intercourse.

A vote of thanks was, on motion of Mr. J. Frith Jeffers, tendered to Mr. T. Bradburn for the free use of the Opera House for the entertainment. Dr. Clarke, in a neat speech, moved a vote of thanks to the ladies for the generous manner in which they had provided refreshments, and the motion was carried amid cheers. A selection by Messrs. Best, Sanderson and Lech, concluding with the National Anthem, brought the entertainment to a close. The Association and all connected with it, are to be congratulated on the success of this social, and no doubt it will be the means of adding many names to the Society's list of members.

Medical.

We are glad to be able to announce that Dr. R. Sproule has returned to town from his visit to the Old Country, and will resume the practice of his profession next week.

A Good Opportunity.

A Capital opportunity to secure a handsome team of horses and fancy driving vehicles will be offered on the market square on Saturday next. Mr. Wm. Ross having instructed Mr. C. Stapleton to sell these animals and articles by auction on that day.

The Weather.

Today has been cold, but bright and fair. The weather probabilities for this district for the following twenty-four hours, commencing from one o'clock this morning, as reported from the Toronto Observatory, are as follows:—Moderate winds, fair weather with a few snow flurries, stationary or slightly lower temperature.

Misunderstanding Corrected.

As many people have been misinformed with regard to my proceedings in supplying them with ice, I wish them thoroughly to understand it is my firm intention to keep to every bargain I have made, by word or written agreement, and am now making extensive preparations to fulfil the same. I am packing away double the quantity that was put in last year so that all parties dealing with me can feel confident of receiving every satisfaction.

R. WAINWRIGHT.

A Fire.

An incipient fire was discovered in the cellar of Messrs. J. Sallabury & Co.'s bookstore at about half-past one o'clock this morning. The fire had burned through a board partition separating that cellar from the one under Miss Armstrong's millinery store, and both the stores were filled with smoke when the discovery was made. The firemen were soon on hand, and the hose having been connected with the water-works, the fire was easily controlled. There were some empty boxes and paper in the Messrs. Sallabury & Co.'s cellar, and the fire appeared to have originated in one of the boxes, but from what cause is unknown. Mr. E. Sallabury was away from home at the time, having gone to Hastings on the afternoon train. The damage to the building, including the breakage of the doors in getting in to put out the fire, will probably amount to \$25. The smoke did considerable damage to the stock in both the book store and the millinery store, but the exact amount of damage is difficult to calculate. The book is owned by Mr. Geo. A. Cox, and was insured in the M. B. & M. Company for \$2,400, and in the Royal for \$1,600. The Messrs. Sallabury were insured in the Royal for \$1,600 and in the Queen's for \$1,000. Miss Armstrong had \$1,000 insurance on her stock in the Fire Insurance Association.

Police Court.

There was a blank at the Court this morning. Three tramps rested in the cells last night.

Smith's Market.

Fresh Salmon, Trout, Bass, Smelts, Haddock, Cod, and Fresh Herrings. Pure Dried Cod, Finnan Haddies, Bloaters, &c. Oysters, 30 cents per quart, and \$1.15 per gallon.

Springless Truss and Supporter.

See Prof. Hotchkiss's springless truss and supporter advertisement in another column of this paper. Go and see him. He defies the hernia he cannot hold. Will be at the Calase House Feb. 27, 28 and 29.

The Corporation Child.

The hapless wail which is in the absence of a better name, known as the corporation baby, has been taken from the family who were willing to adopt it, and is again placed with the woman who has had charge of it for some time. We presume that the Town Council will consider its case again at its next meeting.

The Royal Templars.

The annual meeting of the Grand Council of Ontario of Royal Templars of Temperance was held in Hamilton this week. Mr. James Stratton, who was in attendance at the meeting as the representative of Peterborough Council, No. 97, has returned, and from him we learn that the Grand Council decided to have separate jurisdiction for the Canadian Grand Council as soon as the Supreme Council held a meeting to give effect to this decision. The name of the new Grand Council, when this arrangement is carried out, will be the Grand Council of Canada and Newfoundland. The United Temperance Association was united with the Royal Templars.

Dramatic.

Mr. Bailey—who, we believe, has already made friends in Peterborough—of the Tavernier Comedy Company, intends on Thursday, Friday and Saturday of next week to put on the boards at Bradburn's Opera House some of the plays for which his company are already well known. Mr. Gravelly, Mayor of Cobourg, thus writes:—"I had the pleasure last night of witnessing the performance of Miss Ida van Courtland and your dramatic company in 'Camille' at the Victoria Opera House, and am glad to be able to say that I was more than pleased—in fact, delighted, and I earnestly hope that your company may receive from the citizens of Cobourg the support and appreciation their talent deserves."

The first piece to be presented will be "Two Nights in Rome"—a drama by R. C. Gunter, which will doubtless be appreciated by all classes.

Dr. Wilson.

Dr. Wilson arrived in Kingston on Tuesday morning and proceeded home quietly. On Wednesday afternoon a number of people went to the station to meet him, as they did not know he had arrived. He will receive a testimonial from the people of Kingston from the Salvation Army on Saturday, and will return to New York early next week.

AN OPEN LETTER.—Messrs. T. Milburn & Co. Dear Sirs,—I can honestly recommend Haggard's Yellow Oil as the best reliever for rheumatic pains of all the many specifics offered for sale, and as a sufferer for years I have tried every known remedy. I remain, respectfully yours, JOHN TAYLOR, 180 Parliament St., Toronto.

CURE FOR CHILBLAINS.—Baths the feet for ten or fifteen minutes in water as hot as can be borne; then apply Haggard's Yellow Oil, and a cure is certain. Yellow Oil cures Rheumatism, Neuralgia, Headaches, Lameness, and pain generally, and internally cures Colds, Sore Throat, Croup, Asthma, and many painful affections.

STEAMBOAT and FUEL COMPANY.

To the STOCKHOLDERS.

I HAVE SUCCEEDED in securing sufficient wood to supply the steamers of this company with one cord for every paid up share, wood to cost not more than \$2.00, which price may be reduced by a liberal patronage during the winter season. If the people join in this enterprise, we can secure wood enough to keep up the supply for years. If the time is allowed to slip, another year may put it beyond the reach of any company.

NOTICE TO CREDITORS.

IN THE MATTER OF Edward Patterson, the Elder.

PURSUANT TO R. S. O., CAP. 107, Section 34, as amended by 4th Vic., cap. 9, notice is hereby given that all creditors and others having claims against the estate of Edward Patterson Esq., of the Township of Eramosa, in the County of Grey, (who on the 26th day of January, 1894, executed a deed of certain lands and goods of Edward Patterson, the younger, in trust for and to the use of his heirs, assigns and assigns, and as therein expressed) are hereby required to send by post, prepaid, on or before the

26th day of FEBRUARY, 1894 to William Kingston, of Mount Forest, Solicitor for said Trustee, their claims and surmises, and addresses and descriptions in full, particulars of their claims, a statement of their accounts, and the nature of the securities (if any) held by them; and notice is hereby given that, after the said day, the Trustee will proceed to distribute the proceeds of the said estate so conveyed to him amongst the parties entitled thereto, having regard only to the claims of which notice shall have been received in time required; and the said Trustee shall not be liable for the said estate so conveyed to him, or any part thereof, or for the said proceeds, or any part thereof, to any person of whose claim notice shall not have been received by him as above required at the time of distribution.

WM. KINGSTON, Solicitor for Trustee.

Mt. Forest, Jan. 31, 1894.

WE'RE THE LEADERS IN LOW PRICES.

There is a maxim which reads, that "Money saved is money made."

This principle applies to business as well as in individuals, and it is the money saved by buyers as DOLAN'S that makes the place the bargain depot of the town.

For years we have been to the front with low prices, and full values, and now we are offering at our clearing out sale a PERFECT BARGAIN.

Low prices have brought us success in the past, and we intend to keep on. We give you more for your money than your cash can buy in any other Dry Goods house in town.

You can always save money by buying where good business system allows and makes low prices.

Farmers of the County of Peterborough,

And Adjoining Counties, TURN OUT, and Attend the EASTERN

Dairymen's Convention,

TO BE HELD IN THE

Town of Peterborough,

On WEDNESDAY and THURSDAY,

FEB. 20th and 21st, 1894.

And hear some of the best, most able and practical men on Dairy Farming, Breeding of Cows for Milk, Cheese and Butter. Read the list of names of gentlemen that are expected to be present to address you.

BON. HARRIS LEWIS, of Frankford, N.Y., a thorough, practical Dairy Farmer, Cattle Breeder, Butter Maker, and one of the best informed men in the United States.

PROF. J. F. ROBERTS, of Cornell University, Ithaca, N.Y., a practical Farmer, and owner of a first class farm in the Western States, and now in charge of the farm in connection with the above University at Ithaca, N.Y., and who manages to grow over 70 bushels of Oats to the acre.

THOS. BALLANTINE, M.P.P. of Stratford, and President of the Western Dairymen's Association of Western Ontario, a practical dairymen, and in all probability the best authority on the manufacture of cheese in the Dominion of Canada, and who has done so much in Western Ontario to improve the quality of the Manufacture of Cheese.

PROF. BROWN, of Agricultural College, Guelph through practical man in every department of Agriculture, your servant in charge of the Ontario, Agricultural College, and who will speak to you on—1. Knowledge in Dairying; 2. Influence of Food in Dairy Products.

PROF. L. E. ARNOLD, of Rochester, N.Y., who has devoted a lifetime nearly in the investigation of the manufacture of cheese and butter, and is so well known to every cheese maker and manufacturer of cheese and butter in the United States and Canada.

JAMES WHITTON and HOWARD BISHOP, who have been in the employ of the Eastern Dairymen's Association for the past season as instructors in the manufacture of cheese, and the quality of cheese, and who have done so much in improving the quality of the make of cheese in Eastern Ontario.

Farmers, do not have it said any longer that there is no enterprise in the Eastern Ontario Farmers, but turn out and show to the Western Farmers that you take an interest in all matters pertaining to your interests.

The Western Farmers turn out by the hundreds every year to attend the Convention of the Dairymen held at Niagara, Stratford, London and Woodstock, and remain the whole three days in most cases, and either join the Association or pay their 25 cents each time in entering the convention, morning, afternoon and evening.

The Committee make the Convention free in Eastern Ontario, and leave it optional with those attending to become members, in which case entitles those joining to a copy of the Report of the Proceedings, and now hope it will never be said again that there is not enterprise enough among the Farmers of the County of Peterborough and adjoining Counties to turn out and make a respectable attendance to a Convention when held at the Town of Peterborough. Do not allow all the attention to come from a distance. Turn out on mass and fill the City Hall, and remain through the three days, and I feel confident you will be amply repaid for the few days time spent in listening to the addresses that will be delivered to you.

Yours respectfully,

HARFORD ASBLEY,

Secretary, E.D. Association

A GROSS INSULT.

The Toronto Globe has been, like others of its party, in the constant habit of insulting the Province of Quebec, its people and its representatives. Perhaps, however, the grossest insult it has ever aimed at our sister Province is contained in its issue of Friday. With all the prominence of a double-headed article at the head of the editorial columns, it invites the Quebec members of the House of Commons to vote against the C. P. R. loan resolutions in order to defeat the Macdonald Government, and insults them by offering them the bribe that the succeeding Blake Administration will give them the Dominion assistance they require. After having denounced them as if they were pickpockets for asking Dominion assistance, it now invites them to turn Sir John out for not giving it to them, when the Reformer will give them for their votes what it has condemned them for asking.

That the Globe may not accuse us of misrepresenting it we give its disgraceful article in full. Under the heading "Is it a Crime?" it says:—

"If the proposed vote of thirty millions of dollars to the C.P.R. has alarmed Ontario, it has terrified Quebec. To us it means a vast and needless waste of public funds; to Quebec it means all of that, and, in addition, it creates a serious obstacle in the way of Dominion assistance to that Province. It is said that only one insignificant section of the French Conservatives are prepared to vote for the Pacific Loan at present. Some of the most Conservative organs of Quebec are in a panic upon this subject. For instance, we read in *La Minerve* this significant language:—

"Before we even inquire whether it is right to grant so large a sum we wish to know what will be left for ourselves. If the financial position of the country does not permit of both, then, indeed, do we insist that the Pacific has no better rights than we have, and it shall wait with us, or step behind us."

If there is one point upon which the French Conservatives pride themselves it is a devotion to their own Provincial rights, and it is not improbable that they may take a firm stand against Sir John on this occasion. If they choose to do so they can be the means of saving the Dominion from an appalling calamity. Why cannot they unite with the French Liberal for once in assisting Mr. Blake to stem the tide that threatens to overwhelm us all, and offer that national danger is averted let them state their grievances with confidence that no wrong shall be done them.

Can any one say that we have not fairly interpreted the meaning of this disgraceful article? Can any other meaning be put upon it under the circumstances?

The dishonest motive of this is obvious. If Sir John yields to Quebec's appeal for assistance the Globe will raise an outcry against him in Ontario. If he refuses, Quebec is to turn him out of power, and to trust to Mr. Blake and the Reformers, once safe in power, to reward her by giving her what she has been vilified by these same Reformers for asking. It is a clever device, but a really one, and it will not succeed.

PROVINCIAL SUBSIDIES.

The so-called "Reformers" of these days with their hostility to Confederation and their love of fostering sectional antagonisms and jealousies are now badly abusing the Province of Quebec for clamouring as they say, for better terms. They wilfully misrepresent the situation, falsely pretending that Quebec is asking for an additional subsidy of 20 cents a head at the expense of the other Provinces. The Quebec proposition as they well know, is not that Quebec should be exceptionally favoured, but that all the Provinces should have their subsidies increased to \$1 a head of their population as shown at each census, arguing that this would be carrying out the true spirit of the arrangement at Confederation, that the Provinces giving up their tax-payers should have a fair share of the general revenue for local purposes.

Thus the point to be considered is whether it is expedient that the Dominion having facilities for raising a larger revenue should do so for the local requirements of the Provinces, which have no such power. This is a question fairly open to discussion and difference of opinion; and one which merits careful and thorough consideration. But there is not even the shadow of a suggestion that Quebec by advocating this change is begging from the other Provinces.

AN ABBEY SPEECH.

The general consent of Reform papers to belittle the speech of Mr. Woodworth in the House of Commons on the resolutions as to the C. P. R. loan, led to the almost inevitable conclusion that he had spoken in a manner exceptionally able and damaging to the contentions of the Opposition. A reference to *Reform* proved the correctness of the surmise; the speech was able, humorous and unanswerable. We give in another column an extract from it, and wish we had space for the whole.

ONTARIO LEGISLATURE.

FIRST SESSION OF THE FIFTH LEGISLATIVE ASSEMBLY OF ONTARIO.

Mr. Crooks' Seat—His Late Colleague's Indecent Abuse—Mechanics' Liens—Auditors of County Accounts—Est. Postage Constables—Kindergarten Schools.

SOUTH OXFORD.

Mr. HARCOURT on Thursday presented the report of the Committee on Privileges and Elections with reference to the case of Mr. Crooks, stating that he was incurably insane, and that his seat should be declared vacant.

FIRST READING.

A number of bills, mostly private, were read a first time. Several private bills were reported as having passed the Committee on Standing Orders.

MR. CROOKS' SEAT.

Mr. MOWAT said the report on Mr. Crooks' case left no doubt of his being incurably insane. It was important that his constituency should not be left unrepresented unnecessarily for one day, and he therefore moved that by reason of the incurable mental condition of the Hon. Adam Crooks, member-elect of the South Riding of Oxford, as stated in the report this day presented and adopted by the House, the representation of the said riding in this House be hereby declared vacant, and that a new writ forthwith issue for the election of a member to serve in the present Parliament in the room and stead of the said Adam Crooks.

Mr. MOWAT said he did not oppose the issue of the writ, but he objected to such unnecessary haste. They were making a precedent for all time to come, and therefore they should not act without consideration, and even without reading the evidence. He asked that the matter should stand till Monday, in order that the evidence might be printed, as in English precedents. He also thought that proper notice should have been given.

Mr. FRASER made some insulting remarks as to the reasons for asking delay. He advocated reliance upon the report, even without reading the evidence. He thought the Courts might be empowered to take action in such cases between the sessions. He expressed his friendly feeling for Mr. Crooks and his sorrow for his affliction.

The SPEAKER said that according to English precedents the writ might issue the day the committee reported, and that no notice was required.

Mr. MEREDITH rebuked Mr. Fraser for his improper remarks as to the motives for delay. He thought the Attorney-General was showing indecent haste, being very solicitous now that the constituency should be represented, though on other occasions he had delayed the issue of writs for long periods when the law required their issue forthwith. It was very poor courtesy to a late colleague who had been respected on both sides of the House. They should allow the motion to stand till Monday.

Mr. MOWAT urged that the constituency was unrepresented, and they were not justified in delaying for a single day.

MECHANICS' LIENS.

Mr. EMERY moved the second reading of the Mechanics' Liens Act. Its object was to prevent special agreements ruling out claimants. He would refer it to a select committee.

Mr. MOWAT said they should get the opinion of the persons interested. It was not advisable to interfere with borrowing for building purposes, by preventing the lender from having a first lien. He would like other changes.

Mr. MEREDITH said the Attorney-General was reactionary. The Congress of Labour had pronounced in favour of the lien clause.

After some further discussion the bill was read a second time, and was referred to a select committee, one of the members being Mr. Carnegie, M.P.P. for West Peterborough.

MUNICIPAL LANDS.

Mr. BALFOUR's bill to remove difficulties in the acquisition of land for municipal purposes was read a second time and referred to the Municipal Committee.

COUNTY EXPENDITURE.

Mr. WATERS moved the second reading of his bill to provide for the auditing of certain county accounts by the County Judge and two auditors appointed by the County Council during pleasure instead of annually.

Mr. MEREDITH said the Government should express its views. Bills came very late from the Municipal Committee, and there was not sufficient time for discussion.

Mr. CARLEWILL said that considerable experience of such matters showed him no advantage to be gained by the change.

After some remarks from other members the bill was read a second time and was referred to the Municipal Committee.

RAT PORTAGE CONSTABLES.

Mr. MOWAT in reply to Mr. Rae said that they had now four constables at Rat Portage and one at Fort Frances. One, a detective, not \$100 a month, another, a sergeant, \$85.53, and the other \$75 each. The Municipality paid to Rat Portage got their board as well as \$2.50 a day.

Mr. MEREDITH objected to Mr. Mowat's offer of answering a question volunteering comparisons with other provinces.

KINDERGARTEN SCHOOLS.

Mr. G. W. ROSE in reply to Mr. Harcourt said that there was a Kindergarten school in Toronto, and students of the Model School would obtain the benefit of visiting it. He hoped to make a similar arrangement for Ottawa.

Shocking Murder of an Old Couple. CHICAGO, Feb. 13.—A special says another dreadful murder has been committed at the village of Winnetka, 16 north of Chicago. The victims Mr. and Mrs. James L. Wilson, an aged and highly respectable and wealthy couple lived alone. Mrs. Wilson was a paralytic, and had for some years been confined to bed. On Wednesday it was the habit of Mr. Wilson to visit the day to attend to business, when a young lady Miss Dwyer, would go to take care of Mrs. Wilson. The young lady went to the house this morning as usual. She effected an entrance through the window, and on going to the library found Mr. Wilson lying motionless on the floor, terribly mutilated. Deep gashes were found on his head, and the carpet and furniture were besmeared with blood. On the floor, not far from him, lay a sword, that his son had worn in the army during the war, and there was every indication that he had been killed with it. Upstairs Mrs. Wilson was found dead in bed, almost hacked to pieces with a weapon, being frightfully cut both on head and body, the head being terribly blood-stained. An investigation was at once begun, but as yet it is surrounded in mystery. The house was plundered, so that there is little doubt as to the motive. Mr. Wilson was 80 years old and a brother of the late Judge J. M. Wilson, of Chicago. He was very venerable in his personal appearance and an estimable citizen. The excitement caused by the event is intense, and extends to all the towns in the vicinity. All day long people flocked about the scene of the tragedy from every part of Winnetka and as far as from the villages of Winnetka and Glenview.

The Truth and Nothing Else.

Nowadays people want proof. Humbugs are more plentiful than dollars, and it is only by the greatest care that many are kept at bay. Proof is wanted, and that we can supply in connection with the claims of Putnam's Painless Corn Extractor as a sure, safe, and painless remedy for corns. Ask your druggist what he thinks of it. Ask any person who has used it. This will give you all the proof you want. Then buy a bottle, test it, and become missionary for Putnam's Painless Corn Extractor.

Shiloh's Consumption Cure.

This is beyond question the most successful Cough Medicine we have ever sold. A few doses invariably cure the worst cases of Cough, Croup and Bronchitis, while its wonderful success in the cure of Consumption is without a parallel in the history of medicine. Since its first discovery it has been sold on a guarantee, a test which no other medicine can stand. If you have a cough we earnestly ask you to try it. Price, 50 cents a bottle. If your rings are sore, chest or back lame, use Shiloh's Porous Plaster Sold by J. D. Tully.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Taylor & Macdonald.

From the Liver and Kidneys arise fully half the sickness. Dr. Carson's Stomach Bitters stimulates both Liver and Kidneys, and insures one against disease; it is not an alcoholic stimulant. In large bottles 50 cents.

SALE OF THE

TOWN PROPERTIES

OF THE

LATE DAVID CARLISLE.

In the High Court of Justice.

CHANCERY DIVISION.

Re CARLISLE Infants.

IN PURSUANCE of an order of this Court made in this matter the 1st day of December last, there will be sold by public auction, on the 17th day of March, at 2 o'clock in the afternoon, the following lands:—

Monday, the 17th Day of March

1884, at 2 o'clock in the afternoon, the following lands:—

PARCEL I.

Part of Lot 2, North of McDougall Street and East of Water Street, in the said Town of Peterborough, described as follows:—Commencing at the southeast angle of the said Lot, thence northerly along the eastern line thereof ninety-six feet more or less to the centre of the said lot, thence westerly in a line parallel with the northern limit thereof fifty-seven feet more or less to the centre of the said lot, thence easterly in a line parallel with the eastern limit of the said lot to the southern limit thereof, thence easterly along the said southern limit to the place of beginning. There is erected upon this parcel a large and commodious two-story house, veneered with white brick, a stable and carriage house, and a detached kitchen and outhouse. The house contains nine rooms, besides parlour and closets. This property, which is a corner lot, within five minutes walk of the Post Office, is at present rented to Mr. J. H. Miller, Esq., whose tenancy shall be as follows, at the option of the purchaser:—Either from year to year, commencing upon the 1st day of October, 1884, at a rental of \$200 a year, or of definite term of three and one-half years from 1st April next, at a rent of \$40 for the first half year, and \$200 a year for the remainder of the term; in any case the rent to be payable monthly or quarterly, at the purchaser's option, the landlord to pay all rates and taxes, and to be entitled to possession from the 1st April next, subject to such tenancy.

PARCEL II.

Parts of Lots 1 and 2, according to plan of subdivision of the South Half of Lot one, east of the Communication Road, and of Lots 15 and 16, in the first Concession of the Township of Smith, County of E. E. Clement, P.E.I., and registered in the Registry Office for the County of Peterborough, on the 14th day of January, 1880, particularly described in the petition filed in this matter, which description can be obtained on application to the Vendor's Solicitors. These parts together comprise the property occupied by the late David Carlisle, as a homestead. On this parcel there is erected a large two-story house, veneered with white brick, containing six large rooms and one small one, besides parlour and closets, heated by a hot air wood stove. There is also on the premises a stable and wood shed. There is a good garden, planted with young apple, pear and plum trees, and the usual small fruits all in bearing.

These lands will be offered for sale in two parcels as above described. If the buying or the leasing of one or more parcels is desired, the purchaser or lessee, according to said plan having a frontage of about 25 feet on Queen Street, will be required to purchase one parcel and the remainder of the land comprised in said parcel two, in another parcel. There will be a reserved lot on each parcel offered for sale.

TERMS OF SALE.—Ten per cent. of the purchase money to be paid at the time of sale and the remainder within thirty days thereafter, without interest. Further particulars and conditions of sale may be had on application to C. A. Weller, Esq., Master, or to Messrs. Fossitt & Rogers, Vendor's Solicitors. Dated the 12th day of February, A. D. 1884. C. A. WELLER. Master. FOSSETT & ROGERS. Vendor's Solicitors.

LOCAL NEWS

Police News.

Three tramps lodged in the cells last night, and there was another blank at the Court this morning.

Medical.

We are glad to be able to announce that Dr. R. Spence has returned to town from his visit to the Old Country, and will resume the practice of his profession next week.

Mechanics' Lame.

Mr. J. Carnegie, M.P.P. for West Peterborough, has been appointed a member of the Special committee on the Mechanics' Lame Amendment Bill.

You can get Pure French Finished Doublet Linen, for Gowns and Busts, at Turnbull's.

Social.

A social under the auspices of the Ladies Aid will be held in the School Room of St. Paul's Church on Tuesday evening, Feb. 19th, at 8 o'clock, in aid of the Organ Fund. Tickets, 25 cents.

The Weather.

The weather probabilities for this district for the following twenty-four hours, counting from one o'clock this morning, as reported from the Toronto Observatory, are as follows:—Increasing east to south winds; generally fair, slightly milder weather, with light snow in some localities to-night.

The Spring Assizes.

The Spring Assize Court will open in Peterborough on Monday, March 24th. The Hon. Mr. Justice Cameron will preside. The dates for the opening of the Court at the other towns in the Victoria Circuit are as follows:—Brampton, March 10th; Whitby, March 17th; Lindsay, March 21st, and Cobourg, April 10th.

Money Lost or Stolen.

A man informed the police on Friday that he had lost his purse, he believed through robbery. It contained \$100 in cash and a bankbook of a Buffalo Bank, in which he had a \$400 deposit. He could give no definite information as to where or where he had lost the purse, and the police were therefore unable to do anything for him. He telegraphed to the bank in Buffalo, and then followed the despatch in person to that city.

Church Opening.

The new R. C. Church at Harwood, says the Cobourg Sentinel-Sun, was opened on Sunday, Feb. 10th. The blessing was performed by Rev. Dr. Jamot, Bishop of Peterborough, at 10.30, after which the dedicatory sermon was preached by Rev. Father Murray, of Cornwall, which was followed by mass by Rev. Father Donohue, of Belleville. The services were interesting and largely attended. The new edifice is a very neat one, and is capable of seating about three hundred.

A Costly Accident.

A woman named Mrs. Hutchinson was badly injured on Friday evening by a hand-alcigh loaded with boys striking her. The boys were enjoying themselves on Murray street, riding down the hill at the Central school, and had tied two hand-alcighs together, so that they would carry a large load. Mrs. Hutchinson was walking down the hill and the elcigh struck her, knocking her feet from under her and throwing her heavily upon the ground. A second hand-alcigh, which was following the first, very nearly ran over her as she fell. She was severely injured, her side apparently having been the most.

NEW TIME TABLE

On the Midland Division of the Grand Trunk Railway.

A new time table for the Midland Railway has been issued, which will take effect on Monday, Feb. 18th. We append a summary of the card, so far as it affects Peterborough, and if you will clip it out and paste it up in your office or near your workbench—or even in your hat—it may be useful for reference. The change in the time of the arrival and departure of the Toronto trains is not great, but a considerable change will be noticed in the Belleville and Lakeside trains, Lakeside only having one train each way in a day.

TO AND FROM TORONTO.

The first train for Toronto leaves Peterborough at 7.40 a.m., and arrives at Toronto at 12.15. The evening express departs from here at 4.40, and arrives in Toronto at 9.15. The express trains from Toronto leave that city at 7 a.m. and 4.00 p.m., and arrive here at 11.45 a.m. and 8.45 p.m. A mixed train leaves here at 11.40 a.m., and reaches Toronto at 7 p.m., and another mixed train departs from Toronto at 6 a.m. and arrives here at 3 p.m.

LAKEFIELD.

The only mail train which runs to Lakefield departs from Peterborough at 12.55, arriving at Lakefield at 1.40 p.m. Returning it leaves Lakefield at 3.10 p.m. and arrives here at 3.55 p.m.

PORT HOPE.

Three trains arrive here each day from Port Hope, namely, the express train to Toronto, which leaves Port Hope at 6 a.m. and 3 p.m., and arrive here at the hours given above for the departure of the trains to Toronto, and another train leaves Port Hope at 10.10 a.m. and arrives here at 12.25 p.m. For the time of the departure of the trains for Port Hope see the time of the arrival of the Toronto trains, which go on to that town. A train leaves here at 10.10 a.m. and arrives at Millbrook at 10.50; a mixed train from Port Hope passes Millbrook at 11.50, going via Bethany, &c., to Lindsay.

THE GRAND JUNCTION.

Trains leave Peterborough for Belleville at 8 a.m. and 2 p.m., arriving at Belleville at 12.30 p.m. and 5.40 p.m. From the east the trains depart from Belleville at 8 a.m. and 6 p.m., arriving here at 12.30 p.m. and 9.40 p.m. This change in the time of the departure of the afternoon train from here, whatever effect it will have on other places, will, we presume, please Campbellford and the villages that receive the morning western mail by it. The morning trains cross at Campbellford and the afternoon train going east arrives at Belleville before the departure of the afternoon train from that city.

MIDLAND.

To reach Midland travellers will leave here at 7.40 a.m. or 4.40 p.m., arriving at that village at 2.55 p.m. or 11.05 p.m. Coming from Midland the trains leave the village at 4.55 a.m. and 1.15 p.m., connecting with the express trains from Toronto, which arrive here at 11.45 a.m., and 8.45 p.m.

HALIBURTON.

To reach Haliburton, passengers will leave here on the Toronto mixed at 11.40 a.m. and arrive via Fenelon Falls, Minden, &c., at Haliburton at 6.15 p.m. Coming this way the train leaves Haliburton at 8 a.m. and connects with the Toronto train arriving here at 11.45 a.m. Going to Cobocook, by leaving here at 7.40 a.m., passengers will arrive there at 12.40 p.m., and by leaving here at 4.40 p.m. they will arrive there at 9.30 p.m. By leaving Cobocook at 6.10 a.m. or 3.10 p.m., passengers will arrive here at 11.45 a.m. or 8.45 p.m.

WHITBY AND PORT PERRY.

By leaving here at 7.40 a.m. passengers will arrive at Whitby via Port Perry at 1 p.m., and by leaving Whitby at 3.05 p.m. they will arrive here at 8.45 p.m. Leaving here at 4.40 p.m., passengers will arrive at Port Perry at 7.55 p.m., and by leaving Port Perry at 8.05 a.m., they will arrive here at 11.45 a.m.

Signs of Spring at Turnbull's. Several boxes of New Bonnets and Hats in Straw, Marcella, Leghorns, Chaps and Bonnets, just received.

The Temperature.

The spirit in the Rev. V. Clement's self-registering thermometer sank to 7° below zero last night.

Presentations.

On Friday evening the members of the Fire Brigade Band presented Mr. Joseph Hill, a member of the Band, with a very handsome gold ring as a token of their esteem for him, on the eve of his departure, for a time at least, from Peterborough.

The Kingsport Bridge.

The Globe of Toronto, Feb. 16th, says:—"A despatch, consisting of Dr. Morris, W. Cameron, Robt. Adam, and D. Walker, representing the County Council of Victoria, waited upon the Attorney-General and Provincial Treasurer yesterday. They represented that the boundary road between the counties of Victoria and Peterborough deviated from the true boundary in one place, where there is a bridge wholly within the county of Victoria, which is now obliged to maintain it. The despatch asked that an Act be passed compelling the County of Peterborough to bear a portion of the expense, the same as if the bridge were actually upon the boundary."

Personal.

The Port Hope Times says:—"The memorial to the late Princess Alice, second daughter of the Queen, and wife of the Grand Duke of Hesse-Darmstadt, has by direction and wish of Her Majesty the Queen and Royal Family of England, resulted in the erection of a great hospital in Darmstadt, called the Alice Hospital, the construction, plans and organization being entirely placed in the hands of Baron Henry von Hugel. At the inauguration of the hospital, which lately took place, in recognition of the services gratuitously given by Baron von Hugel he was made a Privy Counsellor. The gentleman is a twin brother of Mr. Hugel, Mayor of Port Hope."

Herford's Acid Phosphate.

Dr. O. O. Cilley, Boston, says: "I have used it with the most remarkable success in dyspepsia, and derangement of the liver and kidneys."

POLICE COURT.

THE RULE OF THE ROAD.

SATURDAY, Feb. 16.—At 10 afternoon session of the court, Matthew Bell was charged by Mr. E. D. Merrick with not turning out to the right of the road to give another vehicle room to pass, on Hunter Street this morning. Bell had a load of wood and was driving in the centre of the road. The evidence of four or five witnesses was taken. The Magistrate said that he did not think Bell intended to do wrong, but he would impose a light fine to show the rule. He imposed a fine of \$1 without costs.

Smith's Market.

Fresh Salmon, Trout, Bass, Smelts, Haddock, Cod, and Fresh Herrings. Pure Dried Cod, Finnan Haddies, Blosters, &c. Oysters, 30 cents per quart, and \$1.15 per gallon.

Springless Truss and Supporter.

See Prof. Hotchkiss's springless truss and supporter advertisement in another column of this paper. Go and see him. He defies the hernia he cannot hold. Will be at the Calves House Feb. 27, 28 and 29.

The Highway Robbery Case.

Wm. Burton, who was committed to gaol to stand a trial on a charge of robbery, was brought before Judge Dennistoun to-day, and agreed to be tried without a jury. The case will be tried at 12 o'clock on Friday next.

Turnbull's shelves were never so well filled as at present with Fresh Bonnets, Bonnets, Shirts, Cottons, Ties, &c. In the very best makes, such as every farmer can appreciate. Inspection invited.

Farmers of the County of Peterborough,

And Adjoining Counties, TURN OUT, and Attend the EASTERN

Dairymen's Convention,

TO BE HELD IN THE

Town of Peterborough,

On WEDNESDAY and THURSDAY,

FEB. 20th and 21st, 1884.

And hear some of the best, most able and practical men on Dairy Farming, Breeding of Cows for Milk, Cheese and Butter. Read the list of names of gentlemen that are expected to be present to address you.

HON. HARRIS LEWIS, of Frankford, N.Y., a thorough, practical Dairy Farmer, Cheese Breeder, Butter Maker, and one of the best informed men in the United States.

PROF. J. P. ROBERTS, of Cornell University, Ithaca, N.Y., a Practical Farmer, and owner of a first class farm in the Western States, and now in charge of the farm in connection with the above University at Ithaca, N.Y., and who manages to grow 70 bushels of Oats to the acre.

EDWARD BALANTINE, M.P.P. of Stratford, and President of the Western Dairymen's Association of Western Ontario, a practical dairyman, and in all probability the best authority on the manufacture of cheese in the Dominion of Canada, and who has done so much in Western Ontario to improve the quality of the manufacture of Cheese.

PROF. BROWN, of Agricultural College, Guelph a thorough practical man in every department of Agriculture, your servant in charge of the Ontario, Agricultural College, and who will speak to you on:—1. Feedings in Dairying; 2. Influence of Food in Dairy Products.

PHILIP L. A. ARNOLD, of Rochester, N.Y., who has devoted a lifetime nearly in the investigation of the manufacture of cheese and butter, and is so well known to every cheese maker and manager of dairies of cheese and butter in the United States and Canada.

JAMES WHITTON and HOWARD BISSILL, who have been for the longest season as instructors in the manufacture of a better quality of cheese, and who have done so much in improving the quality of the make of cheese in Eastern Ontario.

Farmers, do not have it said any longer that there is no enterprise in the Eastern Ontario Farmers, but turn out and show to the Western Farmers that you take an interest in all matters pertaining to your interests.

The Western Farmers turn out by the hundreds every year to attend the Convention of the Dairymen held at Ingersoll, Stratford, London and Woodstock, and remain the whole three days in most cases, and either join the Association or pay their 25 cents each time on entering the convention, morning, afternoon and evening.

The Committee make the Convention free in Eastern Ontario, and leave it optional with those attending to become joiners in a which case critics those joining to a copy of the Report of the Proceedings, and now hope it will never be said again that there is not enterprise enough among the Farmers of the County of Peterborough and adjoining Counties to turn out and make a respectable attendance to a Convention when held at the Town of Peterborough. Do not allow the attention to come from a distance. Turn out, on mass and fill the City Hall, and remain through the three days, and I feel confident you will be amply repaid for the few days time spent in listening to the addresses that will be delivered to you.

Yours respectfully,

HAROLD ASHLEY,

Secretary, E. D. Association.

LOCAL NEWS

The Cells.

There were four tramps and a prisoner in the cells on Saturday night, and two tramps and the same prisoner on Sunday night.

Railway Notes.

We are pleased to learn our young friend, Mr. Walter Budge, who has been for some time past in Mr. Barnett's Grand Trunk Railway office here, has been promoted to a more important position under Mr. Rainford at Lindsay.

Venue's Predictions.

The probabilities for the week given in Mr. Venue's almanac are as follows:—"Cloudy or stormy generally; changeable week; abrupt alterations of mildness and frost, ice and slush; cloudy and rain in western sections, with snow and rain falls; much colder with stormy indications, towards the end of the week."

Receptive Land.

Mr. M. Fee on Saturday purchased a cake of land which weighed twenty-four pounds. It was a fine looking cake and appeared to be clear, white land. Soon after it had been left on his counter Mr. Fee cut it with a knife, and he discovered that the land was like beauty, only skin deep. Inside a thin veneering of land there was a cake of tallow and salt, the land being only about half an inch thick on the top, and even thinner on the bottom. Mr. Fee will make an example of the person that sold it to him, if he can bring it home to him, and he thinks he can. It would not be well for another to try to play the same trick on him.

Burleigh Falls Hotel.

The Port Hope Times says:—"Some mean sneer in the columns of the Burleigh Falls Hotel, kept by Mr. John Holmes. Though we have never had the pleasure of stopping at the house referred to, we have heard so many of our citizens, who have had occasion while out hunting to put up at the Burleigh Falls Hotel, and strangers also, speak of it in the highest terms of praise, while Mr. and Mrs. Holmes are spoken of as the most painstaking of hosts and hostesses. Mr. Holmes we do know personally, and we are confident that no trouble would be considered too much for him to go to for the proper comfort and enjoyment of his guests. The Burleigh Canadian has been imposed upon in this instance, and we hope it will do Mr. Holmes justice by republishing the statements of its correspondent."

This Evening.

This evening Skiff & Gaylord's Novelty Company give their first performance in Bradburn's Open House. The Port Hope Guide says of their performance in that town:—"The large number who attended the entertainment at the Music Hall has been given by the above company were greatly and agreeably disappointed. The liberal display of yellow posters announcing the coming of a great show for 10 cents admission had caused considerable comment upon the character of a company that was so liberal as to give so much for so little money, and very few of the large number who attended were prepared to receive the surprise they got. Instead of being 'cheap and nasty' the entertainment was cheap, chaste and strictly first-class in every particular; in fact the universal expression of those present was: 'It's the best entertainment that has visited Port Hope for a long time.' How the management can afford to carry 10 people and give such a meritorious performance for 10 and 20 cents we are unable to say, for it is a wonderful show for 10 cents."

POLICE COURT.

DRUNK AND DISORDERLY.

MONDAY, Feb. 18.—George Brown was charged by P. C. Adams with having been drunk and disorderly on Saturday. He pleaded guilty. He had only been out of gaol a short time, after serving short sentence, when he was arrested, and he was returned for twenty days at hard labor.

Personal.

The Rev. Geo. B. Morley, of Orangeville, preached in St. John's Church on Sunday evening.

Carling.

A curling match is being played this afternoon on the rink between the Peterborough and Lakeside clubs.

Social.

A social under the auspices of the Ladies Aid will be held in the School Room of St. Paul's Church on Tuesday evening, Feb. 19th, at 8 o'clock, in aid of the Organ Fund. Tickets, 25 cents.

Springless Truss and Supporter.

See Prof. Hotchkiss's springless truss and supporter advertisement in another column of this paper. Go and see him. He defies the hernia he cannot hold. Will be at the Calise House Feb. 27, 28 and 29.

The Probabilities.

The weather probabilities for this district for the following twenty-four hours, counting from one o'clock this morning, as reported from the Toronto observatory are as follows:—Moderate winds, cloudy, continued mild weather, with light rain or snow in some localities.

A Lynx Shot.

Some men who were coming to Peterborough on Saturday morning saw a lynx family in the woods on this side of Centreville. They procured guns and pursued the animals, and succeeded in killing one of them. The lynx killed was a large one, and they brought it to Mr. O. G. Langford to have it preserved.

They Don't Stay There Long.

The Toronto Evening Canadian of Feb. 16th says:—"The Port Hope Guide says a petition is in circulation in that town asking the Government to stop emigration for the present. We fancy but few emigrants ever stop over at Port Hope, unless long enough to enable them to take the boat for the other side, or the train for Peterborough or Lindsay. The utterances of the Guide about the disastrous state of affairs in Canada are sufficient to scare immigrants off, consequently Port Hope is not overburdened with them."

Curious.

On Friday afternoon last two rinks of the Peterborough Curling Club went to Lakeside to play a friendly match with the club of that village. The ice on the Lakeside rink was in good condition, and they had a good game, the result being a victory for the Peterborough rinks by 9 shots. The score was as follows:—

LAKEFIELD.
F. Kingan, W. D. Strickland,
G. A. Strickland, J. Charin,
M. Miller, P. Strickland,
W. G. Ferguson, skip, R. C. Strickland, skip, 31
Rink No. 2.
W. Croft, H. Beasch,
R. Thompson, J. Charin,
Jno. McClelland, W. Postlewaite,
Adam Hall, skip, 24 J. Eden, skip, 11

Majority for Peterborough, 9 shots.

A Brilliant Carnival Offering.

We are in receipt of the Carnival number of the Montreal Herald, with its magnificent four-color illustrations of the Ice Palace and the Snowshoe's Arch, two artistic gems which alone are worth the twenty-five cents paid for the entire number. Then we have full page illustrations of Dominion square, Montreal, showing the palace from another point of view, the Windsor Hotel and other fine buildings; and skating, tobogganing and curling scenes, all beautifully done; the whole number of finely executed pictures, being not less than twenty-five. This is not all that the Carnival Number contains, since it includes the most complete, reliable and graphic description of the carnival games, scenes, balls, etc., that was given to the public by any Canadian newspaper. This description makes twenty-two pages, or one hundred columns each eight inches in length, and is a model of successful newspaper reporting, covering every event and incident of importance which transpired during carnival week. The Herald's Carnival Number can be purchased of all booksellers and news agents. Price 25 cents.

Canadian Institute.

The regular weekly meeting of the Canadian Institute was held on Saturday evening in Toronto, Principal Buchanan in the chair. Prof. J. Playfair MacMurich, of the Agricultural College at Guelph, read a paper on the "Skeleton of the Catfish."

Tramway Among French Workmen.

A Paris despatch says:—Gen. Camperon, Minister of War, has dismissed a number of workmen on the fortresses on the eastern frontier, for the reason that they must have imparted information concerning the works which recently appeared in the Berlin Park. That paper published full details, especially of the secret works at Fort Frouard, not far from Nancy.

Relief for the Sufferers by the Floods.

PHILADELPHIA, Feb. 18.—The total subscriptions to noon to-day reached \$10,000.
SAN FRANCISCO, Feb. 16.—The Grand Lodge of Masons reports that a thousand dollars will be sent in aid of the Ohio flood sufferers.
WASHINGTON, Feb. 16.—The President signed the resolution appropriating \$300,000 additional for the relief of the Ohio sufferers as soon as received. The Secretary of War is busily engaged in taking measures for the relief of the flooded districts. He has been informed that Jackson, Ohio, is under water, and that great suffering prevails there. There are two thousand destitute people in the vicinity of Rockport, Ind., and a similar number in the neighborhood of Cullinburg, Ky. The number of destitute in Clermont county, Ohio, is 6,000. The amount of money so far allotted by the Secretary of War to several places suffering from the flood is \$350,000.

THE COCONUT TREE

Alfred Trumble entertainingly describes in the American Agriculturist a tour he has been making among the coconut growers in the tropics:

Straight up, for 50 feet, an ash-grey stem, banded with many indented rings, springs from the yellow sand. Far up, the sea breeze rustles a feathered crown of sweeping fern-like fronds, which wave against the sky like so many gigantic plumes. As we looked up in delight at this, the first coconut tree that we had ever seen, a sharp snap sounded overhead, and we dodged just in time to save our head from a large nut, which, breaking from its stem, had fallen and now rolled at our feet.

On a schooner bound for the mainland, we had run ashore during the night on one of the many coral reefs which wall the Central American coast from the deep Caribbean. By day, the islet would have been visible enough, with its great tree standing a warning beacon, tall and solitary. But the night had been dark, and we had made the closer acquaintance of the signal tree. We were carried, a couple of days later to St. Andrews, by a native fishing boat, which had been on a cruise after turtles, and which we signalled. There we saw the coconut in all its glory. St. Andrews is the chief supply port of the coconut in the American tropics. The nuts are brought north from all along the coast and from many of the West India islands, but St. Andrews is the great producing centre. The island is given over entirely to coconut growing. The nuts are its only currency, and from them many of the islanders have grown rich, as riches go in that primitive society. The crop, which was originally planted by nature, has since been improved by man, and now St. Andrews is said to produce the best coconuts in the world.

The foliage of the coconut palm is inexhaustibly beautiful. Imagine from 15 to 20 gigantic ferns, dark green in color and with tough, fibrous, sharp-pointed and highly-polished leaves or fronds. Bunch these at the end of a towering stalk, and set them swaying and clashing in the breeze and flashing the sun from their polished surfaces, and you can form an idea of the tree. The coconut makes its first appearance above ground with a delicate, red-like shoot. Another and another follows until the growing plant looks like a gigantic fern. Then a couple of leaves turn yellow, brown, and bright russet, and drop off, and you see a foot of stem between the remaining leaves and the ground. It takes from seven to ten years to send the tree up to a height of 20 feet. Then it begins to bear. The first crop of nuts is from 15 to 25 a year. When it is in full bearing a well managed tree will yield from 80 to 100 nuts, or even more.

The coconut propagates with amazing readiness. A nut washed ashore on some tropical beach is rolled up by the tide, and the husk, the husk, and the winds bury it in the sand, and next year a coconut palm is springing from the arid ground. The trees protect the tropical beaches from the action of the tides. Their roots are out in the interstices of the beach and matlike network, which opposes a wall of vigorous resistance to the gnawing and encroachments of the sea.

Everyone knows what the ordinary coconut of commerce looks like. It is enclosed by a thick, tough husk, fibrous on the inside, and from two to three inches thick, but covered without with a smooth, light-green rind. This husk is either split with a blow of a heavy nut, and torn from the nut, or else the nut is humped by splitting the rind on an iron blade set in a log. It is from the fibre of the husk that the mats and cordage of commerce are made. The fibre is rot-proof, water, and in tropical ships is used for cord rope. The uses of the coconut in all forms are manifold. The value of the fruit for food is its best recommendation. The meat of the nut is macerated and soaked in water, and pressed, which yields a rich, very pleasant in flavor, but soon growing rancid on exposure. This oil is also obtained by boiling the meat, and furnishes a stearine for candles. It is used pure for burning and in soap making. Soap made from coconut oil forms a lather in salt water. Mixed with resin, the oil makes a valuable pitch for caulking. It is largely used in tropical cookery, and in holidays many of the aborigines and blacks besmear themselves with coconut oil. The husk of the nut is used for making a perfume. The meat from which the oil is obtained is savory, but, being rich in fat, is very indigestible.

A green coconut contains only a milky fluid, which gradually condenses into the inside of the shell. When the nut becomes over-ripe on the tree, only a watery milk is left in the shell. This rapidly soured, when the nut becomes worthless. If it is picked, however, before it grows too old, the milk preserves its sweetness.

The leaves of the coconut palm furnish the most durable thatch known in the tropics. They are also extensively woven into mats, screens, baskets, boxes and other articles. When dampened, the fibre is spun until the green portion rots, the fibre is carded and woven into coarse cloth. The wood is fine-grained and hard, and is used in ornamental work under the name of porcupine wood. The fibre heart of the old stump is made into cordage. The husk is used for burning and, makes an excellent scrubbing brush.

Re CARLISLE Infants.

IN PURSUANCE of an order of this Court made in this matter the 21st day of December last, there will be sold by public auction, with the approval of C. A. Waller, Esq. Master, at his Chambers, in the Town of Peterborough, on

Monday, the 17th Day of March

1884, at 2 o'clock in the afternoon, the following lands:

PARCEL I.

Part of Lot 2, North of McDonald Street and East of Water Street in the said Town of Peterborough, described as follows:—Commencing at the southeast angle of the said Lot 2, thence northerly along the eastern limit thereof sixty-six feet more or less to the centre of the said Lot, thence westerly in a line parallel with the northern limit thereof fifty-seven feet more or less to the centre of the said Lot, thence southerly in a line parallel with the eastern limit of the said Lot to the southern limit thereof, thence easterly along the said southern limit to the place of beginning. There is erected upon this parcel a large and commodious two-story house, veneered with white brick, a stable and wood shed, protected on the north by a brick fire-wall. The house contains nine rooms, besides pantries and closets. This property, which is a corner lot, within five minutes walk of the Post Office, is at present tenanted by Mr. J. H. Miller, Esq., whose tenancy thereof shall be as follows, at the option of the purchaser:—Either from year to year, commencing upon the 1st day of October, 1884, at a rental of \$800 a year, or a definite term of three and one-half years from 1st April next, at a rent of \$800 for the first half year, and \$900 a year for the remaining three years; in any case the rent to be payable monthly or quarterly, at the purchaser's option, the landlord to pay all rates and taxes, and to be entitled to possession from the 1st April next, subject to such tenancy.

PARCEL II.

Parts of Lots 1 and 2, according to plan of subdivision of the South Half of Lot one, east of the Communication Road, and of Lots 15 and 16, in the first Concession of the Township of Smith, made by T. E. Clement, P.L.S., and registered in the Registry Office for the County of Peterborough, on the 16th day of January, 1880, particularly described in the petition filed in this matter, where description can be obtained on application to the Vendor's Solicitors. These parts together comprise the property occupied by the late David Carlisle, as a homestead. On this parcel there is erected a large two-story house, veneered with white brick, containing six rooms and a small one, besides pantries and closets, heated by a hot air furnace. There is also on the premises a stable and wood shed. There is a good garden, planted with young apple, pear and plum trees, and the usual small fruits all in bearing. These lands will be offered for sale in two parcels as above described. If the bidding on Parcel 2, does not reach the reserved bid the portion of Lot two, according to said plan having a frontage of about 28 feet on Benson Street, will be offered separately in one parcel and the remainder of the land comprised in said parcel two, in another parcel. There will be a reserved bid on each parcel offered for sale.

TERMS OF SALE:—Ten per cent. of the purchase money to be paid at the time of sale and the remainder within thirty days thereafter, without interest. Further particulars and conditions of sale may be had on application to C. A. Waller, Esq., Master, or to Messrs. Fournette & Boeg, Vendor's Solicitors. Dated the 12th day of February, A. D. 1884.

TUESDAY, FEBRUARY 19, 1884.

THE BOASTED REACTION.

MR. TEMPLE was introduced in the House of Commons last Friday on his election for York, N. B., gaining a seat from the Opposition. He is the eighth newly-elected Conservative member introduced this season, while the Reformers introduced are only three. The reaction is working admirably.

RAILWAY MAGNATES IN ARMS.

The proposed C. P. R. loan has called into the arena a number of our railway magnates. Mr. Hickson, of the Grand Trunk, has published a pamphlet full of important documents, in which he contends that assistance should not be given to the C. P. R., which will enable it to injure the Grand Trunk and depress its securities by competing for the carrying trade of Ontario and from Chicago. Mr. Van Horne, of the Canadian Pacific, Mr. Oiler, of the Ontario and Quebec, and Mr. Laidlaw, of the Credit Valley and Victoria Railways, reply with long letters in favor of the loan, and of competitive lines in Ontario and Quebec. The battle rages fiercely.

THE C. P. R. LOAN INCONVENIENT.

NEARLY every argument against the C. P. R. loan has been reiterated by the Opposition in the House of Commons, but we notice that they omit any mention of one important effect of the advance. The early completion, with this assistance, of the all-Canadian route north of Lake Superior will put an end to the amiable practice of the Reformers, in imitation of their foreign allies, of reckoning every person proceeding from Old Canada to the North-West or from the North-West to Old Canada as one of the pretended "exodus" from the Dominion, if he travels by a U. S. line. This will be inconvenient to Reformers wishing to belittle their country.

THE BANKS THEN AND NOW.

SIR R. CARTWRIGHT is attacking Sir L. Tilley with his usual violence for depositing \$300,000 in the Exchange Bank. When Sir R. Cartwright mismanaged our finances he had on deposit without interest \$400,000 of our funds in one of the banks of this Province at the time that his President was being solicited by the then great head of the Reform party, the Hon. Geo. Brown, to "come down handsomely" for a Reform election fund for the purpose of making a "big push." As to the censure showered upon Sir L. Tilley for saying that our banks could not redeem their circulation if all presented at once, it was such a mere truism that it would not have been worth mentioning except, as was the case, as an illustration of the benefit of preventing a panic and a run on the banks. Why, even the Bank of England could not redeem in gold all its notes if suddenly presented to-day, for a portion is only issued against Government securities. The main business of a bank is to lend its own and depositors' funds on commercial securities, and these cannot be called up in a day. Meanwhile bank notes are good, for they can be redeemed when it is really required.

Changes in the Highland Regiments.

The cry has again made itself heard that the Highland Regiments—the most picturesque branch of the British Army—are in danger of losing their distinctive character through the reforming zeal of the War Office. On the one hand, fresh changes in uniform are impending; and, on the other, the nationality of the Regiments is again in danger of being swamped by the systematic recruiting of men who are not Highlanders, or even Scotchmen, and many of whom hail from further South than the Metropolis. The public have more than enough at one time of the "Vandalism" with which the distinctive tartan had been threatened, and now the handsome feather-bush-dress familiar to every one who has seen a killed soldier has, after much debate, been finally doomed. Its place, it is said, is to be taken by some kind of helmet adorned with a lion rampant—a "notion" of the Army clothes, which, while it may have a good deal to recommend it in the eyes of the authorities, is hardly likely to find favor with a branch of the army which is almost as proud of its uniform as of its traditions. The lion will probably be of the Scottish variety, and national sentiment will thus be gratified, but the bonnet, with its out-of-date feathers, has historical associations of its own which deserve at least to be considered before any change is made.

THE DAILY EVENING REVIEW is delivered to subscribers at ten cents a week.

WHO IS PANDERING?

A Reform Opinion of the "Globe's" Bid For the Men Support.

Under the head of "Who is Pandering Now?" the Montreal Witness of Saturday thus refers to the *Globe's* abject appeal to the French Conservatives:—

"If the *Globe* represents the views of the leader of the Opposition and of his party, then we do not see that there is much to choose between the two parties. The *Globe* has always denounced Sir John Macdonald for pandering to the French-Canadians of this province for their support. It has always charged him with sacrificing the interests of the other provinces, especially those of Ontario, to those of the Province of Quebec, because the representatives of that province secured him in power. No one has characterized in severer terms the raids or proposed raids of this province upon the Dominion treasury, and no one has more bitterly stigmatized the demand for better terms so constantly being made, and yet the *Globe* of to-day is found unflinchingly and shamelessly making on behalf of its party the bid of better terms to the members of this province for their votes on the Canadian Pacific railway question. Vote Mr. Blake into power, it says, and you may trust to getting your price. We have little doubt that the *Globe* is misrepresenting Mr. Blake and that he will repudiate its declaration."

After quoting at full length the *Globe's* article, which we have already republished, the *Witness* continues:—

"It is announced that Sir John has refused to grant the demand of the Quebec party for better terms, and it seems that this bid of the *Globe* was made for the purpose of taking advantage of the alleged disaffection of that wing of the Conservative party. It will be seen by the extract quoted from the *Globe* by the *Witness* that the only objection the French party have to vote for the loan to the Canadian Pacific is that there will not be sufficient left for the needs of this province. There is, it appears, not enough carillon to go round, and the Quebec vulture is bound to have all it wants before any other is satisfied. The *Globe* in order to 'save the country,' that is, to defeat the Government and place its party in power, pledges the party to grant the terms asked for. Is Mr. Joly the only politician in the country with a conscience, that he alone is found protesting unconditionally against this shameful traffic in votes?"

SANITARY.

To the Editor of the Review.

SIR.—The season of the year is fast approaching when our Town Council and people should give some consideration to our sanitary condition and legislation. And my object of addressing you is to call the attention of the town's people to some of the conditions that exist and that are more than likely to seriously affect the health of the town.

The fact that we have little or no sewerage cannot but impress the people that it is necessary to make some improvements.

The soil, and consequently the air and water, must be impregnated with pernicious and fatal influences. The geological formation of our town is such that filtration and evaporation is certain to take place. In a porous soil which easily allows of the rise and fall of the water line an amount of air finds its entrance and exit equal in volume to the quantity of water which co-occupies the interstices of the earth. If the soil is impure from the cess-pool, sewage and other sewage abominations, the air drawn into those interstices, as the water line falls, becomes naturally loaded with the results of sewage decomposition.

As the water line rises this air is expelled and adulterates the purer atmosphere above. If the area is inhabited as our town is much of this finds its way into the basements of the houses built upon such land (it gets out more easily there) and the inhabitants naturally suffer from the effects of foul air. But this is not all, the rise of the water line is attended by certain evils, typhoid and its allied diseases become prevalent, also the intermittent character, neuralgia, rheumatic diseases are rife. When we consider the quantity and quality of refuse which has to be dealt with in our town, such as ashes, kitchen refuse, stable manure, rain and domestic water, washing of passengers, stable yards, cesspools and water closets, all absorbed by the ground, is it reasonable to suppose that the filtered water that we have in our wells is fit for culinary purposes? Pure water in abundance should be forcibly attract our attention. It constitutes four-fifths of our flesh and blood. Man has been described as twelve pounds of solid flesh wet up with six pails of water. To supply the system each man requires 1600 lbs yearly.

In conclusion I hope that our present council and leading men of the town will take such action as will tend to, at least make a commencement this season of the sanitary improvements.

Hardly any town in the country has better and cheaper natural advantages for such works, and there is clear evidence by our death reports that a reasonable expenditure is warranted.

The Capture of Slinkat.

Advices from Suakin describe the taking of Slinkat by the rebels. For the past fortnight the garrison has been half starved, as the large number of the enemy made it impossible to obtain food. At length Tewfi Bey determined to make a final struggle for escape, and leading a band of 600 men made a vigorous sortie. For some time they held their own, but the overwhelming force of the attacking rebels eventually broke through the Egyptian ranks and it is said that the brave band of 600 were killed to a man. During the sortie women and children followed in the rear of the soldiers. A large number of the rebels were killed. The rebels are now massing in the vicinity of Suakin, the Slinkat contingent having joined the main body. An attack on Suakin is being imminent at Cairo. There is a universal feeling of humiliation and shame that the gallant men of Slinkat were killed almost within sight of British ships. It is said that the Cabinet are painfully impressed. Large reinforcements of troops and munitions will probably be immediately despatched to Egypt. Seven men of war belonging to the Channel squadron have been ordered to Egyptian waters.

The Fitness of Things.

This life always has its compensations: Although we heard of many being frostbitten, no cases of sunstroke have occurred for some months. This shows the admirable fitness of things. If a man were knocked senseless by a snowball he would very likely freeze to death before help came. This is not half such a bad world as some would like to make out.—*Detroit Free Press*.

From the Liver and Kidneys arises fully half the sickness. Dr. Carson's Stomach Bitters stimulates both Liver and Kidneys, and insures one against disease; it is not an alcoholic stimulant. In large bottles 50 cents.

Wise People

Are always ready to accept a suggestion, especially one that is likely to minister to their comfort and happiness. The name Nerviline—nerve pain cure—is a suggestion in itself, but a further and more important one is in pointing out that a trial test bottle can be bought at Ormond & Walsh's drug store for 10 cents. Nerviline is the most wonderful remedy, for it works so quickly, banishing the most excruciating pain in a few minutes. Poisons Nerviline, in large bottles, 25 cents. Trial bottles, 10 cents.

Barkley's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Taylor & Macdonald.

Our Canadian Industry

is prosperous. The great difficulty to be contended with is the low grade of goods required. In nothing is this more apparent than in the comparatively small article of sewing silks. The great demand in Canada seems to be for a cheap quality, buyers forgetting that a cheap thread must necessarily be a fine and consequently a weak one. Messrs. Beving, Paul & Co. make three grades of pool silk: of these different qualities the poorest one has by far the largest sale, at the same time they constantly hear of complaints of poor sewing silk. If ladies will take the trouble to ask for Beving, Paul & Co.'s own brand, and see that their name is on the end of each spool, they will be sure of getting the best made.

OSMAN DIGNA'S PROGRAMME.

A Suakin despatch says:—Spies report that the rebels are fully aware that English troops are coming. They are mustering in great force. Osman Digna, whose camp is pitched sixteen miles south-west of Suakin has proclaimed that he will obtain Tokar before the British can arrive, and that he will then capture Suakin.

EUROPEANS IN CAIRO ENDANGERED.

M. Barre, the French consul-general at Cairo, has telegraphed M. Ferry that the diminution of the British garrison is likely to endanger the safety of Europeans.

OSMAN DIGNA PREPARING FOR BATTLE.

Gen. Gordon has arrived at Khartoum. Spies report that Osman Digna is massing his men near a defile, closing the road from the coast, at his spot where he defeated Tahir Pasha. His supposed plan is, if he fails to reduce Tokar before the arrival of the English troops, to give battle at the defile. Sheikh Morgan and Colonel Messadaga, sent to stir up the tribes in the vicinity of Suakin, report they only succeeded in seeking a promise of neutrality from the chiefs. Admiral Hewitt is advancing his fleet four miles outside Suakin. The trenches are within range of the guns of the English fleet and forts.

A TRAGEDY AND A HEROINE.

The Andaman and Nicobar Islands, situated in the Bay of Bengal, a few days' sail from Calcutta, are the great penal settlement of India, especially the former, where more than 10,000 native convicts, many of whom belong to the most desperate class of criminals, are kept under restraint, or employed in out-door labour under vigilant supervision. A branch convict settlement exists at Camorta, the capital of the Nicobar Islands, where there are at present two hundred convicts guarded by thirty men of the 3d Madras Native Infantry and a like number of police under a native chief constable. The officer in charge of the station was Mr. de Rosseterff, a Danish gentleman belonging to the Indian Civil Unconquered Service. A haidlar, or native sergeant of the Madras Infantry, a man of 30 years, service, had been secured by a native watchman of appropriating coconuts, and had in return struck the watchman and put him for a short time under a sentry. The next day Mr. de Rosseterff commenced the investigation of the case, and having taken the evidence for the prosecution adjourned the hearing till the following day, when the haidlar was ordered to bring up his witnesses. Shortly afterwards he was riding past the Native Infantry barracks, about 30 yards off, when the haidlar fired at him from his room and hit him between the shoulders, the bullet coming out at the breast. He fell from his horse, and the orderly and groom who were with him went instantly to his assistance. He was killed.

THE London Times correspondent at Berlin is authority for the statement that Bismarck has returned the Lasker resolution to the German Minister at Washington, with directions to return it to Congress. Nothing, however, appears to be known about it as Washington, though some colour is given to the report by his being stated in yesterday's despatches that Bismarck's action is condemned by the Liberal press of Germany.

Clearing a Log Jam of 25 Years Ago. About 25 years ago a man named Easterbrook was running 1,000,000 feet of logs from the upper waters of the Shiawassee river, Michigan, to Saginaw, when the logs stuck in the narrows about seven miles from Channing, Mich., and the jam could not be broken. The logs made a dam in the river, and year by year the river formed a new channel until the old channel gradually filled up. A sand bar formed for two miles back of the dam, and there is now a growth of oak and elm trees two feet through on the bar formed by the jam of more than a quarter of a century ago. At every flood the sand for several miles in that vicinity is overflowed, and the roads are rendered impassable. Six years ago efforts were commenced to have the obstruction cleared away, and the contract has recently been let to H. C. Thayer, of Channing, for \$4,000.

THE use of False Hair by ladies is a most disagreeable practice. By the use of Cingalese Hair Renewer the color of the hair is rendered natural and beautiful. Every lady should use it, and to gentlemen whose hair is growing thin it is a necessity. Sold by J. D. Tully.

THE new Spanish Minister to France, in presenting his credentials to President Grevy on Saturday, said his mission was to strengthen the cordial relations already existing between the two nations.

So many write us of the merits of Zepson, from the West, Canada, the East and at home; they write of being cured of Liver Troubles, of Urinary Troubles, Chronic Headaches, etc., but we cannot publish them—any drug store keeps Zepson. Ask J. D. Tully.

Revolutionary accounts are at hand of the treatment inflicted by the Government of Hayti on the rebels of the recent rebellion. In many cases the wretched victims were tied to fence and shot from the ankles upwards until the vital spot was reached.

John R. Venn, Hamilton, says: "McGregor's Speedy Cure for Dyspepsia and Indigestion is cheap at fifty times the price asked for it. I am a commercial man, and travel continually, and would not more think of leaving home without a bottle of McGregor's Speedy Cure in my valise than I would of leaving my team at home and going on foot." Free trial bottles at John McKee's Drug Store. Regular size fifty cents and one dollar.

The trial in London, Eng., of fifty-two members of the Park Club, charged with gambling in playing bacarat at the rooms of the club, resulted last week in their conviction. The proprietor of the club and the members of the committee were fined \$3,000 each and the players \$300 a piece. An appeal was lodged.

His Holiness the Pope is said to have declared, apropos of the Tongue and Hoofan difficulties, that the great powers deserved little thanks from the Church, as religion and civilization would only be at a point reached fifty years ago when these troubles were settled.

A BAKER'S TESTIMONY.—For a Cough, Cold or any Bronchial affection, "Pectoral," in my opinion, is just the thing. I have used it in my family for Coughs and Colds for the past four years with the most unvaried success, and to-day my opinion of it is that I continue to think still more of that which I began thinking well of. Geo. K. Baker, Manager Ontario Bank, Peterborough. Price 25 cents at all drug stores.

Archbishop Peahan has returned to Chicago from a visit to the Pope. He was escorted home by a procession of ten thousand persons. Over a hundred thousand assembled along the three mile march to witness the parade. Except General Grant's welcome, the ovation exceeds anything of the kind previously witnessed in Chicago.

Mrs. ELIZABETH MARSH—Dr. M. Souville & Co., Gentlemen.—Your set of last week to hand, and reply to your inquiry I have much pleasure in stating that from the first time of using the apromator and the medicine I have improved very much. The bronchitis has entirely left me. I sleep well and have a good appetite. I must also add, that coming to you as I did as a last resort, the cure effected has been wonderful. Gratefully yours, Mrs. E. MARSH.

THE London Times correspondent at Berlin is authority for the statement that Bismarck has returned the Lasker resolution to the German Minister at Washington, with directions to return it to Congress. Nothing, however, appears to be known about it as Washington, though some colour is given to the report by his being stated in yesterday's despatches that Bismarck's action is condemned by the Liberal press of Germany.

Clearing a Log Jam of 25 Years Ago. About 25 years ago a man named Easterbrook was running 1,000,000 feet of logs from the upper waters of the Shiawassee river, Michigan, to Saginaw, when the logs stuck in the narrows about seven miles from Channing, Mich., and the jam could not be broken. The logs made a dam in the river, and year by year the river formed a new channel until the old channel gradually filled up. A sand bar formed for two miles back of the dam, and there is now a growth of oak and elm trees two feet through on the bar formed by the jam of more than a quarter of a century ago. At every flood the sand for several miles in that vicinity is overflowed, and the roads are rendered impassable. Six years ago efforts were commenced to have the obstruction cleared away, and the contract has recently been let to H. C. Thayer, of Channing, for \$4,000.

Dyspepsia and Liver Complaints. Is it not worth the small price of 75 cents to free yourself of every symptom of those distressing complaints? If you think so call on our store and get a bottle of Shiloh's Pills. Every bottle has a printed guarantee on it, and accordingly, if it does you no good it will cost you nothing. Sold by J. D. Trent Navigation.

LAKEFIELD DAM.

Notice to Contractors.

SEALED TENDERS addressed to the Secretary of the Department of Railways and Canals, and endorsed "Tenders for Trent Navigation," will be received at the Resident Engineer's office, Peterborough, on FRIDAY, the TWENTY-NINTH day of FEBRUARY, 1884, for the construction and completion of a Regulating Dam, 84, across the Otonabee River at Lakefield, on the Back Lake Division of the Trent Valley Canal.

Plans of the work may be seen, and specifications and printed forms of tender will be furnished upon application at the Resident Engineer's office, Peterborough, on and after FRIDAY, the FIFTEENTH day of FEBRUARY.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and prices affixed to the whole of the items stated therein, and signed with their actual signatures. Each tender must be accompanied by an accepted bank cheque for the sum of \$150, made payable to the order of the Honourable the Minister of Railways and Canals, which sum shall be forfeited if the person tendering declines to enter into contract for the execution of the works, at the rates and prices submitted, subject to the conditions and on the terms stated in the specification. If the tender be not accepted the cheque will be returned.

The Department does not, however, bind itself to accept the lowest or any tender.

By order,

TOM S. RUBIDGE,

Engineer in Charge.

Auburn Sunday School.
The Anniversary of the Auburn Sunday School will be celebrated on the evening of Thursday, Feb. 21, by a tea-meeting which will be held in the school room. Tea will be served from 6 to 7.30 o'clock, as a programme consisting of short addresses, and singing and reciting by the children will be provided for the entertainment.

Royal Hand Bell Ringers.
We are glad to announce that the Peterborough public are again to be favored by an entertainment from the Royal Hand Bell Ringers, on Friday, the 29th February. By the enthusiasm manifested by their audience some two years ago, when they last appeared here, we have little doubt but the Ebill will be packed, and would therefore advise those wishing reserved seats to secure them as soon as the plan is opened, which will be on Thursday, the 21st inst, at A. L. Davis & Co's bookstore.

St. Luke's Temperance Society.
The final concert of the series held under the auspices of this Society, drew a large audience to the schoolroom, Ashburnham, on Monday evening. The programme was long and well sustained throughout, many of the performers being recalled. Among those taking part in it were Mrs. Meade, Mrs. Bowman, Miss Stevens, Miss E. Chow, Miss Ballantyne, Miss Scott, Miss Grundy, Miss Rowley and Mr. A. D. Browne. The President of the Society made a short address between the parts, in which he alluded to the work accomplished this winter in the cause of temperance, and gave an outline of the method the society intended to pursue to advance their interests during the remainder of the year. He stated that the total membership, in the adult and juvenile branches was now about one hundred and thirty. The five entertainments held during the season had been very successful, and the Society was extremely grateful to those who helped to make the evenings pass so pleasantly, and to the Committee who secured such valuable assistance. The President also announced that Sunday week, March 2nd, had been appointed Temperance Sunday by the Bishop, and that on the morning of that day he would preach upon the subject of temperance at St. Luke's Church. A reunion of the members of the C. F. T. S. and their friends would also take place at the schoolroom, Ashburnham, on the following evening, Monday, March 3rd, at 8 p. m. At the close of the programme the audience joined heartily in singing "God Save the Queen."

CARRIAGE MAKING.

Messrs. Porter Brothers buy out Mr. T. Fitzgerald's Carriage Factory.

Mr. T. Fitzgerald, after being twenty-seven years in the carriage making business, has retired from it, having sold out to the Messrs. Porter Bros. The new firm have succeeded to a well established business, and, being energetic business men and understanding the business, the trade of the factory will no doubt prosper and increase in their hands.

Messrs. Porter Bros. commence business well furnished and equipped. In addition to the manufactured work on hand, they have one of the largest stocks of thoroughly seasoned raw material ever held in Peterborough ready to make up into vehicles for their customers and for the market.

They have also experienced workmen. Mr. Samuel Fitzgerald is the superintendent of the wood working department, Mr. Jos. Batten of the iron department and Mr. Jas. Martin of the painting department. The trimming department is also in capable hands, the chief trimmer having had experience in some of the largest carriage factories in the United States. The entire staff of workmen are retained in the factory, and the addition of new blood into the concern will tend to increase the efficiency of the establishment.

The factory is a large one, and the facilities for turning out first-class work are good. The show rooms and finishing departments are in a brick building seventy-five feet by thirty-five feet and three stories high. The wood and iron departments are in another building 75 by 30 feet.

The new firm commence business under auspicious circumstances. In a thriving town and town and good locality, the factory is a large and convenient one; they have a staff of experienced workmen, and will without doubt carry on a thriving trade.

Funeral Services.

The services in connection with the funeral of the late Joseph Ford will be held in the George Street Methodist Church at 9 o'clock tomorrow afternoon.

Correction.

Through a typographical error the dates at the top of the page of last night's *EVENING REVIEW* were made to read Friday, Feb. 18th, instead of Monday.

An Acknowledgment.

The Calgary, N. W. T., *Herald* of Feb. 6th acknowledges a generous donation of \$20, received by the Methodist Church of that place from the George Street Methodist Sunday School, Peterborough.

The Lord Frank.

Mr. Thomas Beavis, Market Inspector, informs us that he believes he has a clue to the person who sold the bogus lard on the market on Saturday, and also that he has procured an auger for testing lard, so as to prevent such deception being practised in the future.

Colder Than Snow.

The weather probabilities for this district for the following twenty-four hours, counting from one o'clock this morning, as reported from the Toronto observatory are as follows:—Fresh to strong east to south winds; cloudy, mild weather, with local rain; west to north-west winds and colder weather to-morrow.

Health Bulletin.

The official report of the health of Ontario for the week ending Saturday, February 16th, shows that respiratory diseases are still prevalent; that bronchitis has increased; likewise intermittent fever. Scarletina has decreased, and measles has disappeared from amongst the most prevalent diseases. The six most prevalent diseases in the district in which Peterborough is included are as follows:—Bronchitis, 14.2; Influenza, 14.3; Consumption, 9.3; Anemia, 7.8; Neuralgia, 5.8; Diphtheria, 5.3.

Dairymen's Convention.

The convention held under the auspices of the Eastern Dairymen's Association will commence in the Council Chamber at 10 o'clock to-morrow. At that hour the President will deliver an address, to be followed by a discussion, after which the committee will be appointed. At 5 p. m. Prof. Brown, of the Agricultural College, Guelph, will deliver an address, and others present will take part in the discussion. At 7.30 p. m. there will be a session of the Convention, at which Prof. L. B. Arnold, of Rochester, N. Y., will address those present, his subject being "Cheese Talk." These meetings will be very instructive to all interested in dairying, and there should, and no doubt will, be a large attendance.

A Cheap Entertainment.

Skiff & Gaylord's Novelty Company appeared in Bradburn's Opera House on Monday evening. The price of admission is low, but otherwise the show is not a "cheap" one. The programme is made up of singing, dancing, acrobatic performances, rifle shooting and burlesques. The marksmanship of Max. Florence elicited loud applause, as did also the hits made by M'lie Florence. The singing was very good, as was also the dancing. W. Gaylord performed some very difficult feats exhibiting his "muscular flexibility" and strength. Mrs. Eva Florence's performances on the invisible wire were very clever, the electric four were a comical set, and the man-monkey amused the audience greatly. Altogether the audience—and there was a large attendance—appeared to be thoroughly satisfied and greatly pleased with the entertainment. The same company appear in the Opera House to-night.

Horsford's Acid Phosphate.

AS A REFRIGERANT DRINK IN FEVER.
Dr. C. H. S. Davis, Meriden, Conn.: "I have used it as a pleasant and cooling drink in fevers, and have been very much pleased with it."

POLICE COURT.

ALLOWED TO GO.

Tuesday, Feb. 9.—A woman who had indulged too freely in intoxicating liquors appeared in the Court this morning. She was allowed to go with a caution.

The Cells.

One prisoner, arrested for drunkenness, and two tramps, occupied the police cells last night.

Mechanics' Institute.

At the regular, quarterly meeting of the members of the Peterborough Mechanics Institute held on Monday evening Messrs. Geo. Gladman and Robt. J. Lee were appointed auditors. After the meeting the sale of periodicals took place and was very successful, all the papers being sold at very fair prices.

Licence Commissioners.

The Licence Commissioners for the County of Peterborough, appointed by the Dominion in accordance with the "Liquor Licence Act of 1883," held their first business meeting to-day. The Commissioners are His Honor Judge Dennistoun, Mr. J. Lang, Warden of the County, and Mr. James Stevenson, who were all present at the meeting. Mr. Wm. Collins, of North Monaghan, was appointed Chief Inspector. Two more inspectors will be appointed at a meeting to be held in March, for the eastern portions of the county. Several resolutions were adopted, which will be given to the press for publication.

Good Luck.

The horse shoe is the proverbial emblem of good luck. A horse shoe over a door is said to bring good luck to all within and to all who enter. For this reason the sign in the shape of a horse shoe over the door of Mr. H. LeBrun's clothing store is an appropriate one. This sign, which was made and painted by Mr. W. S. Cooke, is a large one, the shoe being painted a gold color and the words, "City Clothing Store," are on it in raised black letters. Beneath this a new sign board has been placed over the windows, with black smalt ground work, and "H. LeBrun" on it in raised gold letters. The work on the signs is well executed and they are attractive. Mr. LeBrun is making preparations for an extensive spring trade. His stock of spring goods will be large and well selected, and a visit to his establishment means "good luck" to those who go there. Mr. Cooke has also put up a very nice sign—a large watch—at Mr. J. Irwin's jewellery store.

Carlina.

The Peterborough and Lakeside Curling Clubs played several matches on the Peterborough rink on Monday afternoon and evening. At the match played in the afternoon the scores were as follows:—

PETERBOROUGH.	LAKEFIELD.
A. Strickland, 21	Hicks-Beach, 10
C. McNeil, 10	G. Graham, 10
G. Postlethwaite, 10	G. Postlethwaite, 10

R. S. Davidson, 10	W. D. Strickland, 10
J. McNeil, 10	P. Strickland, 10
A. Hall, skip, 18	R. C. Strickland, skip, 11

Majority for Peterborough, 21 shots.

The curlers then adjourned to the Croft House, and after partaking of lunch two matches were arranged, each for 100 lbs of flour to be given to the Peterborough Protestant Home. The first match was between a picked rink of the Lakeside players and Mr. Hull's rink, the score being as follows:—

PETERBOROUGH.	LAKEFIELD.
W. Croft, 10	J. Bird, 10
R. S. Davidson, 10	G. Postlethwaite, 10
J. McNeil, 10	R. C. Strickland, skip, 11
A. Hall, skip, 18	R. C. Strickland, skip, 11

Majority for Peterborough, 2 shots.

In the other match for the flour the Lakeside players won, the following being the scores:—

PETERBOROUGH.	LAKEFIELD.
A. Strickland, 10	Hicks-Beach, 10
C. McNeil, 10	G. Graham, 10
W. G. Ferguson, skip, 17	R. C. Strickland, skip, 11

Majority for Lakeside, 6 shots.

Price 25 cents per package, post prepaid. Try it, and success is certain.

Advice to Mothers. Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

WE'RE THE LEADERS IN LOW PRICES.

There is a maxim which reads, that "Money saved is money made."

This principle applies to business as well as in individuals, and it is the money saved by buyers at DOLAN'S that makes the place the bargain depot of the town.

For years we have been to the front with low prices, and full values, and now we are offering at our clearing out sale a PERFECT BONANZA.

Low prices have brought us success in the past, and we intend to keep on. We give you more for your money than your cash can buy in any other Dry Goods house in town.

You can always save money by buying where good business system allows and makes low prices.

Farmers of the County of Peterborough,

And Adjoining Counties, TURN OUT, and Attend the EASTERN

Dairymen's Convention,

TO BE HELD IN THE

Town of Peterborough,

On WEDNESDAY and THURSDAY,
FEB. 20th and 21st, 1884.

And hear some of the best, most able and practical men on Dairy Farming, Breeding of Cows for Milk, Cheese and Butter. Read the list of names of gentlemen expected to be present to address you.

HON. HARRIS LEWIS, of Frankfort, N. Y., a thorough, practical Dairy Farmer, Cattle Breeder, Butter Maker, and one of the best informed men in the United States.

PROF. J. F. ROBERTS, of Cornell University, Ithaca, N. Y., a Practical Farmer, and owner of a first class farm in the Western States, and now in charge of the farm in connection with the above University at Ithaca, N. Y., and who manages to grow over 70 bushels of Oats to the acre.

THOS. BALLANTYNE, M.P.P. of Stratford, and President of the Western Dairymen's Association of Ontario, a practical dairyman, and in all probability the best authority on the manufacture of cheese in the Dominion of Canada, and who has done so much in Western Ontario to improve the quality of the Manufacture of Cheese.

PROF. BROWN, of Agricultural College, Guelph, Ontario, your servant in charge of the Ontario Agricultural College, and who will speak to you on:—1. Soilage in Dairying; 2. Influence of Food in Dairy Products.

PROF. L. B. ARNOLD, of Rochester, N. Y., who has devoted a lifetime nearly in the investigation of the manufacture of cheese and butter, and is so well known to every cheese maker and manufacturer of cheese and butter in the United States and Canada.

JAMES WHITTON and HOWARD RUSSELL, who have been in the employ of the Eastern Dairymen's Association for the past season as instructors in the manufacture of a better quality of cheese, and who have done so much in improving the quality of the make of cheese in Eastern Ontario.

Farmers, do not have it said any longer that there is no enterprise in the Eastern Ontario Farmers, but turn out and show to the Western Farmers that you take an interest in all matters pertaining to your industry.

The Western Farmers turn out by the hundreds every year to attend the Convention of the Dairymen held at Ingersoll, Stratford, London and Woodstock, and remain the whole three days in most cases, and either join the Association or pay their 25 cents each to enter the convention, morning, afternoon and evening.

The Committee make the Convention free in Eastern Ontario, and leave it optional with those attending to become members, in which case entitles those joining to a copy of the Report of the Proceedings, and now hope it will never be said again that there is not enterprise enough among the Farmers of the County of Peterborough and adjoining Counties to turn out and make a respectable attendance to a Convention when held at the Town of Peterborough. Do not allow all the attention to come from a distance. Turn out on week and all the City Hall, and return through the three days, and I feel confident you will be amply repaid for the few days time spent in listening to the addresses that will be delivered to you.

Yours respectfully,
HARFORD ASHLEY,
Secretary, E.D. Association

SALE OF THE TOWN PROPERTIES

OF THE LATE DAVID CARLISLE.

In the High Court of Justice.

CHANCERY DIVISION.

Re CARLISLE Infants.

IN PURSUANCE of an order of this Court made in this matter the 21st day of December last, there will be sold by public auction, with the approbation of C. A. Waller, Esq., Master, at his Chambers, in the Town of Peterborough, on

Monday, the 17th Day of March

1884, at 2 o'clock in the afternoon, the following lands:

PARCEL I.

Part of Lot 1, North of McDonnell Street and East of Water Street, in the said Town of Peterborough, described as follows:—Commencing at the southeast angle of the said Lot, thence northerly along the east line thereof ninety-six feet more or less to the centre of the said lot, thence westerly in a line parallel with the northern limit thereof to the centre of the said lot, thence southerly in a line parallel with the eastern limit of the said lot to the southern limit thereof, thence southerly along the said southern limit to the place of beginning. There is erected upon this parcel a large and commodious two-story house, veneered with white brick, a stable and outhouse, protected on the north by a brick fire wall. The house contains nine rooms, besides pantries and closets. This property, which is a corner lot, within five minutes walk of the Post Office, is at present rented to Melville Miller, Esq., whose tenancy thereof shall be as follows, at the option of the purchaser:—Either from year to year, commencing upon the 1st day of October, 1884, at a rental of \$300 a year, or a definite term of three and one-half years from 1st April next, at a rent of \$300 for the first half year, and \$300 a year for the remaining three years; or any case the rent to be payable monthly or quarterly, at the purchaser's option, the landlord to pay all rates and taxes, and to be entitled to possession from the 1st April next, subject to such tenancy.

PARCEL II.

Parts of Lots 1 and 2, according to plan of subdivision of the North Half of Lot one, east of the Communication Road, and of Lots 15 and 16, in the first Concession of the Township of Smith, made by T. B. Clement, P. L. E., and registered in the Registry Office for the County of Peterborough, on the 14th day of January, 1880, particularly described in the petition filed in this matter, which description can be obtained on application to the Vendor's Solicitors. These parts together comprise the property occupied by the late David Carlisle, as a homestead. On this parcel there is erected a large two-story house, veneered with white brick, containing six large rooms and one small room, besides pantries and closets, heated by a hot air furnace. There is also on the premises a stable and wood shed. There is a good garden, planted with young apple, pear and plum trees, and the usual small fruits all in bearing. These lands will be offered for sale in two parcels as above described. If the bidding on Parcel I, does not reach the reserved bid the portion of Lot two, according to said plan having a frontage of about 35 feet on Bazaar Street, will be offered separately in one parcel and the remainder of the land comprised in said parcel two, in another parcel. There will be a reserved bid on each parcel offered for sale.

TERMS OF SALE:—Two per cent. of the purchase money to be paid at the time of sale and the remainder within thirty days thereafter, without interest. Further particulars and conditions of sale may be had on application to C. A. Waller, Esq., Master, or to Messrs. Fournette & Roger, Vendor's Solicitors. Dated the 18th day of February, A. D. 1884.

CABINET CHANGE.

MR. JOHN CORTLAND, Minister of Inland Revenue, has resigned his portfolio, for reasons that have not yet been made public.

DEATH OF MR. LAUDER.

We regret to learn by means of a message by telephone from Toronto, that Mr. A. W. Lauder, M. P. for East Grey died this morning. His loss at the comparatively early age of 50 is a sad one to Ontario.

A MAJORITY OF SEVENTY.

EARLY this morning a vote was taken in the House of Commons on Mr. Cameron's amendment against granting an advance to the C. P. R. The Government was sustained by a majority of seventy, the vote being 132 to 60, the effort of Mr. Blake to purchase the Quebec route wholesale having totally failed.

IMPERIAL PARLIAMENT.

LONDON, Feb. 18.—In the House of Commons the Under Foreign Secretary announced that England, France, and other powers were urging Chili and Peru to protect the rights of foreign creditors.

Mr. Gladstone, replying to an inquiry by Sir Stafford Northcote regarding Gordon's action, said the appointment of El Mahdi as Sultan of Kordofan and the remission of taxes were within Gordon's powers. The true meaning of the order regarding the revival of slavery could not be understood from the telegraphic summary published. The Government preferred to wait the receipt of the full text of the original order. No telegram had been received confirming the removal of Gordon from the Egyptian army.

Lord Edmund Fitzmaurice, Under Foreign Secretary, announced that England had addressed a note to the French Government relative to British losses incurred through the bombardment of ports of Madagascar by the French.

In the debate this evening on Sir Stafford Northcote's motion censuring the Government, W. T. Martin (Liberal) made a violent attack on the Government, accusing it of vacillation and inconsistency. He declared the Government had lost all the confidence of the country and the Liberal party. The truth of this he would test by voting for Sir Stafford Northcote's motion, and then resigning his seat in the House and offering himself for re-election. The debate was adjourned.

The Marquis of Hartington, Secretary for War, said this evening that the Government had received no news of the fall of Tokar.

TORONTO NEWS.

A "BAL MASQUE"—It is intended to hold a bal masque at the Grand Opera House Dancing Academy on Tuesday next.

EXPOSURE OF THE THAW.—Street cars on wheels were brought into use on Monday. The mild weather has spoiled the sleighing and the roads are in a very bad condition.

NEXT SUMMER'S FRAMES.—An American book owner, residing in Philadelphia, has written to Toronto with a view of placing a line of ferries between the city and Hanlan's point during next season.

NEW TRAIN CARS.—The twenty new box-cars recently purchased by the Street Railway Company were placed on the streets for the first time yesterday. They appear to be much sturdier than the old ones.

Montreal City Council on Monday passed the by-law limiting the number of liquor licenses to be granted in the city to one hundred and twenty-five, in accordance with the recommendation of its Special Committee.

A Life Saving Present.

Mr. M. E. Allison, Hutchinson, Kan.: Saved his wife by a simple Trial Bottle of Dr. King's New Discovery for Consumption, which caused him to procure a large bottle that completely cured him, when Doctors, changes of climate and everything else had failed. Asthma, Bronchitis, Hoarseness, Severe Coughs, and all Throat and Lung diseases, it is guaranteed to cure. Trial Bottles free at Taylor & Macdonald's Drug Store. Large size \$1.00.

OBITUARY.

The Late Joseph Ford, One of the Earliest Settlers in the Town of Peterborough.

By the death of Mr. Joseph Ford, which occurred on Monday last, we are called upon to chronicle the passing away of another of the links that bound us to the early days of this town. The deceased gentleman, who was born in England in 1808, came to Peterborough in the spring of 1832, and at the time of his death had been a resident for over half a century. He was identified with the early struggles for existence in this town, and the great change that has taken place in the fortunes of the town may be gathered from the fact that at one time the subject of this sketch cultivated a garden on the east side of George Street, between Hunter and Simcoe Streets, on what was for many years known as the Harper property. He operated a ferry, too, over the Otonabee River, before any bridge was built, and again for some time after one of those primitive structures had been carried away. He was one of the earliest settlers in the north end of the town, having himself cut down the forest trees on those sections of London and Aylmer Streets surrounding his late residence.

His was an exceedingly active life, his early habits of industry never allowing him to spend an idle day. He was a faithful, consistent member of the Methodist Church for over half a century, and for the greater part of that time a devoted class leader and prayer leader; for many years also he was leader of the choir and sexton of the church. In politics he was originally a Reformer, but came into the ranks of the Conservative party when his old friend and neighbor, W. B. Conger, resigned the shrievalty and was elected to the Legislature, and voted for every Conservative candidate from that time, with the exception of one, when he voted for Thos. Short, for the Legislative Council, against Hon. E. Murray, on the temperance question. He was a reader and subscriber of the REVIEW from the day the first number was issued to the present time. He was always an unwavering advocate of the cause of temperance, not only in later days, when it was an honor to be such, but in the days when it meant something and cost something to be a temperance advocate. Though possessed of but a limited education himself, he was a constant friend of the cause of education, and was for some years a member of the School Board.

Mr. Ford was married twice, his first wife, and the mother of all his children, whom many will remember as a most exemplary woman, after having shared with him the trials and difficulties incident to life in a new country, died just eighteen years ago. His second wife remains behind to mourn his loss. He was a singularly blameless life, and though the last few months had been characterized by failing mental power, the result of a heavy fall last summer, his end was peace.

"Hot West" Cream Ale.

The finest and best Ale made in Canada on tap at the Croft Hotel.

A New Departure.

Mr. John R. Rogers has placed a daily stage on the road between Peterborough and Lakefield, leaving Lakefield in the morning at 9 and returning will leave the Commercial Hotel at 3.30 p.m. Merchants sending parcels to Lakefield can have them delivered with dispatch.

Took a Fil.

This morning a dog of the Spitz species was frothing at the mouth and acting in a peculiar manner at the corner of George and Simcoe Streets. A police officer was sent for to despatch him, but upon arriving at the spot the owner had called his animal up and the revolver was not fired into requisition. The animal simply bled a fit, a customary thing, the owner explained.

"Two Nights in Rome."

A. C. Carter's thrilling drama "Two Nights in Rome," is the opening piece chosen by the Taverne Comedy Company. It is spoken of by the press of Lower Canada and the States as being a very strong acting piece, both as regards lines and situations. Although Miss Van Cortlandt's "Antonia" is a very striking character the play does not depend on that one alone, as the whole company have good advantage. The dress worn by Miss Van Cortlandt in the third act was made expressly for her in Paris, France, and is spoken of as being very handsome.

Great Western Accident.

A Great Western passenger train ran off the track on Monday near St. George. No one was hurt. Traffic was delayed about four hours.

A Novel Suggestion.

Senator Kermer, of Richmond, advocates a territorial reservation for the negro race, so as to give them a chance to show to the country that they can govern themselves.

Who Supplied The Money?

The Hamilton Times says the Ontario Government spent no money in buying up local newspapers in Algoma. Perhaps not. But who supplied the money for establishing the short-lived Argus?—Windsor Times.

Protecting Cattle.

In the house of Lords on Tuesday the Duke of Richmond said he would offer amendments to the bill affording protection against the introduction of foot and mouth disease from abroad, which would make the bill still more stringent against foreign cattle.

"Hub" Cough Cure, 25 Cents.

Prescription of a Boston physician, dispensed years by a Boston Druggist. One dose will cure any ordinary cough. It acts almost magically. Ask J. D. Tully for a 25 cent bottle of Hub Cough Cure.

ONTARIO LEGISLATURE.

FIRST SESSION OF THE FIFTH LEGISLATIVE ASSEMBLY OF ONTARIO.

Public Accounts and Estimates at Last—The "Grip-Globe" Printing Jobbery—New-arrivals of Judge and Thief.

THE ESTIMATES.

On Tuesday the estimates were at length brought down.

Mr. A. M. Ross moved that the House ratify the agreement made for the Government printing with Mr. S. F. Wilson.

Mr. CAMERON pointed out the impropriety of not obtaining a deposit from tenderers. It was notorious that the work was not being done by Mr. Wilson, but by Grip, which had only the third lowest tender.

Mr. MOWAT said that Mr. Wilson's tender was genuine, and that there had been no collusion.

Mr. MORRIS asked if Grip had not got a sub-contract?

Mr. FRASER thought they had nothing to do with that, as long as the work was done cheaply.

Mr. YOUNG was also satisfied.

Mr. MEREDITH thought there should be a deposit. It was impossible to say that there had been no collusion as to security, they had two bonds for \$5,000 for a \$100,000 contract. If Grip was doing the work it also should be bound.

Mr. G. W. Ross thought no deposit was necessary, and referred to Ottawa.

The motion was carried.

MUNICIPAL COMMITTEE.

Several bills were read a second time, and were referred to the Municipal Committee.

THE PLANTING.

Mr. MOSE moved the second reading of the bill to amend the Act to encourage the planting and growing of trees. It provides that all trees standing on a division line shall be common property, and enacts that penalties shall be imposed on persons destroying or injuring trees.

The bill was read a second time and referred to the Municipal Committee.

A. A. FROST.

Mr. FELL moved for a return of copies of all correspondence, petitions and memorials respecting the appointment of stipendiary magistrates and Division Court judges for the provisional county of Haliburton; also, copies of all correspondence, petitions, resolutions, memorials, or other papers forwarded to the Government or any member thereof, relating to said appointments, either prior to or since said appointment was made, with dates of each communication respectively. He said that magistrates should be of unblemished character, but S. S. Peck was a heavy defaulter to the municipality. He had also boasted that he had taken the oath of allegiance to the United States.

Mr. MOWAT said he did not think the papers would show a case for removal. Mr. Peck had explained the charges against him. He was not complained of as a Magistrate. If he was a defaulter as Treasurer that was not ground for his dismissal. He had been doing business and had put his accounts mixed. The County had acquired Peck.

Mr. MEREDITH thought that the discussion would be better when they had the papers. But he must protest against the Attorney General's proposition that a County Treasurer who was found by a Court to be a defaulter was a fit person for a Judge. He moved the adjournment of the debate.

PROVINCIAL ACCOUNTS.

LANCASHIRE STRIKE ENDED.
LONDON, Feb. 19.—The strike of weavers in Lancashire is ended.

TROOPS FOR EGYPT.
LONDON, Feb. 19.—The Government has decided to reinforce the army of occupation in Egypt. A battalion of infantry and a battery of artillery have been ordered to proceed from Malta to Egypt immediately.

The Leaker Resolution.
BERLIN, Feb. 18.—The United States legation here has no information regarding the reported return by Prince Bismarck of the resolution of condolence over the death of Leaker adopted by the House of Representatives. The English hopes America will not hold Germany responsible for the acts of Bismarck. The incident has caused a painful impression in Berlin. Even the friends of Bismarck are unable to defend him.

DR. D. W. FAIRBANKS, of New York, says: "Personally I believe in 'rhopontine'; I use it myself, and in my family and practice. I prescribe Phosphatine with a confidence I attach to no other remedy. It is safe, it is effective." For sale by J. D. Tully.

HOPES IN HOPEVILLE.—Mrs. McArthur, of Hopeville, declares she could not live without Hagar's Pastoral Balsam. It is a remedy in which the sufferer may safely hope for speedy relief and effectual cure of Coughs, Hoarseness, Bronchitis, Throat and Lung Troubles, which neglected end in hopeless consumption.

At this season of the year there should be a bottle of Peppermint in every house. It is pleasant, equally safe for children. Price 25 cents and all druggists.

Speeches and public speakers are always benefited by using Hagar's Balm, as it removes the hoarseness and increases the power of the voice. Take small doses often. Price, 25c, 50c, and \$1.00.

THE HUDSON BAY ROUTE.

We observe that Reform journals in Manitoba and the Northwest are still faithfully representing the Dominion authorities and the older provinces as being inimical to the Hudson Bay Route.

We should have thought that the recent debate in the House of Commons on the subject would have put an end to such falsifications. It appeared that not only had too charters been granted from Winnipeg to James Bay with substantial grants of land, but also that on the amalgamation of the two companies taking place the double land grant had been confirmed to the new single line. The Premier spoke strongly in favor of encouraging the project, and held out hopes of an expenditure from the public funds to aid in a thorough survey. The leader of the Opposition also took the same view of the matter and gave his share of encouragement. Members from various parts of the Dominion and of both parties joined in the debate, all to the same effect and not a single dissentient voice was heard. Certainly there were no signs of hostility or even of indifference to this great national improvement. The fact is that the older provinces of Canada without distinction of locality or party, are well aware of the magnitude of the great North West. They fully appreciate the gigantic nature of the work that the whole Dominion has before it to settle such wide spread tracts of country and to provide outlets for their teeming products. There is no disposition in eastern Canada to play the dog in the manger, to grasp at the whole business, the whole carrying trade of such a region, which in no distant future will require every available channel and cannot be confined to any single route. We all recognize that the Dominion of Canada is no petty territory to be circumscribed or to be limited to a few ports on one sea. Its future is one of gigantic prospect, and not of narrow restrictions. The Canada of the future will be of such dimensions as to be confined not to a single sea or even a single ocean, but will cover many waters with its commerce. The fostering of such growth of any portion is for the good of the whole Dominion at large, and is not to be regarded with petty eyes of jealous rivalry by any section. There is room for all, there is work for all, and this is fully recognized in the older provinces.

Our Prairie Province and the great Territories beyond may be fully assured of the existence of this national feeling in the East, which is far from begrudging them their future. Feeling this our brethren of the great prairies, should, we may venture to hint, not only divest themselves of any suspicion that they will be treated with scant justice, and be a little less touchy and sensitive, if they cannot get everything they may wish, at the very instant the desire is formed. Though they are no doubt doing good work as pioneers, still they are but a handful to pretend to monopolize such a territory, which will for its settlement and development require all the assistance that can be given by the whole Dominion and by the influx from the older countries. They have too great a task and too great a future for any need of sectionalism or over sensitiveness.

THE NORTH ONTARIO PETITION.

Mr. MORRIS has again had the good luck to have another supporter just across through the Election Court. Mr. Gould, M. P., for North Ontario, having been confirmed in his seat. One of the Judges held that though bribery had been proved the agency was not, and that though there was extensive treating no corrupt intent had been proved. The old Judge held that though both the bribery and the agency had been proved, there was not evidence of corrupt practices sufficient to effect the result. The great amount of disagreement among the Judges in these cases shows how very loosely the statute has been framed.

A Curious Mistake.

A Toronto builder made a curious mistake recently. He was awarded the contract for the erection of a private residence on the north-west corner of Richmond and John streets, but by some oversight or carelessness his workmen dug out a foundation on the south-west corner, nor was the mistake discovered until the excavation was completed. The owner of the dug up property now threatens to bring an action against the contractor for trespass.

Canada in England.

On the 29th of January Mr. Colmer, of the Canadian High Commissioner's office, London, delivered a lecture before the Society of Arts, London, on "Canada as it will appear to the British Association." It has attracted the attention of several leading London journals. The Marquis of Lorne, Sir A. T. Galt, the Bishop of Saskatchewan and other gentlemen delivered addresses on the occasion.

DOMINION PARLIAMENT.

THE SECOND SESSION OF THE FIFTH PARLIAMENT OF CANADA.

The Exchange Bank—Benefit Insurance Societies—The C. P. R. Loan Debate—An Obstructive Amendment—Too Much Proof for Mr. Cameron—No More Delay.

THE EXCHANGE BANK.

Sir L. TILLEY on Monday, in answer to Mr. Holton, said that no additional security had been taken for the advance to the Exchange Bank. The Minister of Justice declared that the debt to the crown took precedence of others. This right would be enforced against the assets, and if they were insufficient Mr. Ogilvie would be called upon.

BRITISH COLUMBIA.

Sir J. MACDONALD, in reply to Mr. Baker, said that as the law stood the Northwest Mounted Police could not be employed in British Columbia.

Sir H. LANGFORD, in reply to Mr. Baker, said the Government would erect emigrant sheds at Victoria to accommodate the expected immigration.

Mr. FORT said an immigration agent and a quarantine officer had been appointed at Vancouver Island.

WELLER'S BAY.

Mr. McLELLAN said in reply to Mr. Platt that he had visited Wellington and had resolved on the erection of a lifeboat house there. There would be no change made in the range lights at Weller's Bay.

LICENSE INSPECTORS.

Sir J. MACDONALD, in answer to Mr. Irvine, said that provision would be made for the payment of License Inspectors where the Scott Act or Dunkin Act had been adopted.

LOGS AND LUMBER.

Mr. COUGHAN in reply to Mr. Hall, said there was no present intention of establishing a uniform standard for measuring logs and lumber.

REPRESENTATION AT PARIS.

Sir J. MACDONALD, in reply to Mr. Cameron, said that Mr. Fabre was an officer of the Quebec Government, who had consented to his performing certain services for the Dominion in connection with High Commissionership. He was paid \$2,000 a year on an agreement to terminate next year.

RENTY INSURANCE SOCIETIES.

Sir L. TILLEY in answer to Mr. Lester said it was proposed to introduce a measure in regard to benefit mutual insurance societies.

THE C. P. R. GUARANTEE.

Sir L. TILLEY explained to Mr. Peterson that there would be paid this year \$389,074 of the interest guaranteed on C.P.R. stock from funds received from the company.

THE C. P. R. LOAN.

Mr. LISTER resumed the debate on the C.P.R. loan. He objected at length to the original contract, the recent guarantee and the proposed loan. He also objected strongly to any monopoly in the Northwest. He made insulting personal attacks upon members of the House, upon Mr. Thomas White, Mr. Hanson and Mr. Abbott, successively till the Speaker had to call him to order. He concluded by boasting of the patriotism of himself and his friends.

Mr. CROFT spoke of his personal experience of the difficulties the C.P.R. had overcome. He suggested that the proposed link from Gravenhurst to Callander should be made instead to Sudbury Junction as being a shorter route and more beneficial to Ontario. He severely condemned the efforts of his disgraced attempts to buy the French Canadian vote. Very lucidly he showed the advantages from the proposed arrangement.

Mr. CAMERON (Huron) referred to imaginary disagreements in the Conservative party and the Cabinet. He challenged proof of the statement that Reformers had overestimated the amount which the railway would cost.

Sir C. TUPPER asked if he should respond then.

Mr. CAMERON assented.

Sir C. TUPPER said there was a case in the Budget speech in 1874 when Sir R. Cartwright estimated the cost of construction with ten years at \$150,000,000 or \$160,000,000.

Mr. CAMERON said circumstances had changed and he did not like ancient history. He challenged proof that Reformers had depreciated the value of the Northwest and the fertile land.

Sir C. TUPPER asked if he should give it then.

Mr. CAMERON, amid loud laughter, declined to allow Sir Charles to speak, having had enough of his first proof. He proceeded to accuse the Conservatives of want of patriotism, and then showed his own by declaring the country to be on the brink of a volcano. He then attacked Mr. Foster for giving the House a portion of an old lecture on "Our Native Country."

Mr. FOSTER claimed the right to explain, which Mr. Cameron, when from experience, refused to grant till the Speaker ruled in favor of it. He stated that his address to the House was not taken from a lecture and that he had delivered no such lecture.

Mr. CAMERON then showed his dislike of ancient history by some blundering reference to Cassandra, Jeremiah, &c. He then falsely accused the C. P. R. Company of breach of contract, and criticized their proceedings. He concluded by moving the following

AMENDMENT.

"That before this House shall be called upon to grant further aid by a loan of \$23,500,000 and a guarantee of \$7,000,000 to the Canadian Pacific Railway Company, a select committee be appointed to make a full and searching inquiry into the condition and affairs of the company, and particularly as to its operations in stock and in respect of construction contracts, the real cost of the work done, and a proper estimate of the cost of the works remaining to be done."

motion for adjournment being withdrawn. He expressed himself in favor of the C. P. R., and especially of its affording competition in Ontario. But he thought they were giving the company too much, and as for British Columbia, another bargain in full settlement was being made with it. He said there was a stringency in the money market which would make it hard to raise a loan now, and he blamed the N. P. for this, not explaining, however, why the N. P. should cause a financial stringency in free trade England.

Mr. WOOD (Westmoreland) moved the adjournment of the debate.

Sir J. MACDONALD said he must repeat that he felt it his duty to press for a decision next day.

Mr. BLAKE said he thought there would be no difficulty in reaching a decision on Wednesday, but there might be on Tuesday.

Sir J. MACDONALD said it would have to be on Wednesday morning then.

The House then adjourned.

Love and Vary at a Carnival.

A Penetangishene special to *The Morning Journal* says:—Anthony Chaine is a fine specimen of a French Canadian, and Miss Tiesler, a fascinating brunette, was the girl of his choice. Chaine pere strongly objected to the choice his son made, and vowed to break up the relations between them. There was a skating carnival at the village rink and our young men and maidens turned out in all manner of costumes. Anthony Chaine appeared as a pirate king and his sweetheart looked more fascinating than ever as Queen of May. Hand-in-hand the king and the queen skated round the rink, and Anthony evidently thought that it was a glorious thing to be a pirate king. But the course of true love never did run smooth, even on ice. Chaine pere appeared rushing on the happy couple, and catching them asunder, the three of them fell upon the gleasy surface. The next day the old man was fined \$10 for disorderly conduct at the rink. The affair caused intense excitement, which was not decreased when it was made known that the faithful pair had gone to the village cure and been married.

A Cate Game.

Oh! 'Tis a beautiful little game!
Here's your high-souled representative of the party of purity, elevating the standard of morality by offering bribes for partisan support. We were told that Quebec had too much already—that Ontario paid for everything, and was being impoverished through the greed of the Frenchmen. But if the Frenchmen will give Mr. Blake their votes they may have better terms still.

It is the most beautiful little game attempted since Jacob fled to his father in undressed kid gloves. But it will not work.—*Hamilton Spectator*.

The Blenheim Art Collection.

The *London Times* says there is a growing report that the Duke of Marlborough is about to sell the collection of magnificent pictures in Blenheim House. It urges the Treasury to secure the best specimens for the nation.

Buckley's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Taylor & Macdonald.

GREAT EXCITEMENT.—There is always great excitement in case of sudden accident and injury. Everyone should be prepared for an emergency. Hagar's Yellow Oil is the reliable friend in need; it is for internal and external use, curing Burns, Scalds, Bruises, Lameness, Gout, Sore Throat, Rheumatism and painful affections and wounds.

From the Liver and Kidneys arise fully half the sickness. Dr. Carson's Stomach Stuffers stimulates both Liver and Kidneys, and restores one against disease; it is not an alcoholic stimulant. In large bottles 50 cents.

Trent Navigation.

LAKEFIELD DAM.
Notice to Contractors.

SEALED TENDERS addressed to the Secretary of the Department of Railways and Canals, and endorsed "Tenders for Trent Navigation," will be received at the Resident Engineer's office, Peterborough, until FRIDAY, the TWENTY-FIFTH day of FEBRUARY, 1884, for the construction and completion of a

Regulating Dam, &c., across the Otonabee River at Lakefield, on the Back Lake Division of the Trent Valley Canal.

Plans of the work may be seen, and specifications and printed forms of tender will be furnished upon application at the Resident Engineer's office, Peterborough, on and after FRIDAY, the FIFTEENTH day of FEBRUARY.

Persons tendering are notified that tenders will not be considered unless made on the printed forms, supplied, and prices affixed to the whole of the plans stated therein, and signed with their actual signatures.

Each tender must be accompanied by an accepted bank cheque for the sum of \$150, made payable to the order of the Honourable the Minister of Railways and Canals, which sum shall be forfeited if the person tendering declines to enter into contract for the execution of the work, at the rates and prices submitted, subject to the conditions and on the terms stated in the specification. If the tender is not accepted the cheque will be returned.

The Department does not, however, bind itself to accept the lowest or any tender.

By order,

THE FLOODS IN THE STATES

Aid for the sufferers—Amelioration of their sufferings—The floods increasing—Some localities still in a precarious state.

Boston, Feb. 18.—In the House to-day a resolution was introduced appropriating \$50,000 to be expended under the governor's direction in aid of the sufferers by the western floods.

Cincinnati, Feb. 18.—The destitution is great. Many sufferers are barefooted and scantily clad. The river is still falling. Passenger traffic was resumed on all the roads to-day. A decided improvement in business is already apparent.

The relief steamer Mattie Hays has distributed 35,000 rations between Louisville and here. She reports not much want yet. There will be more when the river falls.

The river continues to fall steadily an inch and a half an hour.

Ironston, Feb. 18.—Ironston is fully supplied with provisions, and the Relief Committee are distributing supplies in the flooded country. The business portion of the city is clear, and trade is resuming.

Columbus, Feb. 18.—The work of forwarding supplies for the flood sufferers from this point is going on rapidly. About \$30,000 cash subscriptions have been sent from this point.

Aurora, Feb. 18.—The relief steamer Gen. Pike going down the river from Deft left ten days' rations for 500 people at Coal City, North Bend, and a place opposite Big Miami. At Lawrenceburg 3,000 rations were issued to 3,000 people, besides 50 mattresses, 500 comforters, and a large quantity of women's clothing. By Wednesday the water will be off the greater part of the town. Relief is coming liberally. The damage here cannot be less than \$300,000. At Aurora rations were issued for eight days to 1,000 people, besides a lot of shoes and other clothing.

Evansville, Feb. 18.—The officers on the relief boat Mattie Hays describe the situation at nearly all points as most desperate. Bridgeport, a few miles below New Albany, is entirely submerged, and the people have all fled. The same at Roswood, and there is much destitution at all points.

Louisville, Feb. 18.—The river is falling at the rate of an inch an hour. It is now below the highest point reached by last year's freshet. Business is a little more active. Business men are washing out some of their places and in a few days will be ready for action.

New Orleans, Feb. 18.—The weak condition of several levees causes much uneasiness among people up the river.

Cairo, Feb. 18.—The Wabash railway has been shut out from Cairo since Saturday. The river is rising about a quarter of an inch an hour. At Paducah it covers two-thirds of the city and is still rising.

EGYPT AND THE SUDAN.

Hearty Reception of General Gordon—Sudan Threatened—The Expedition to Tokar.

A Cairo despatch says the Military Council have not decided to disband the Egyptian army but to reconstruct the brigade offered by Egyptians by disbanding the officers and recruiting the brigade from Turks, Circassians and Albanians.

EL MAHDI RECOGNIZED BY GORDON.
Gen. Gordon has had a proclamation posted at Khartoum recognizing El Mahdi as Sultan of Kordofan, remitting half the taxes, and placing no restrictions on the slave trade. The Arabs of Khartoum express great satisfaction.

REBELS FIRING ON SUDAN.
The rebels fired on the forts at Suakin yesterday, but soon retired. Some of the shots fired reached the military headquarters. Baker Pasha had a narrow escape. The enemy were quiet during the night. The harbour at Suakin is too small to contain all the vessels ordered there, and transports will be sent to Ras Magda, 45 miles south-east.

EL MAHDI NOT ADVANCING.
The people at Khartoum hailed Gen. Gordon as their deliverer. Gen. Lord Wolsey has ordered the expedition to Tokar to be finished in three weeks, within which time the troops are to return to Cairo. Gen. Gordon has telegraphed that the people of Khartoum had received him well. He also said that El Mahdi would not yet advance. He was trying to raise the tribes, but would not succeed, the General thought, if concessions were made them.

GORDON'S RECEPTION AT KHARTOUM.
On General Gordon's arrival at Khartoum thousands crowded to kiss his hands and feet, calling him "Sultan of the Sudan." Addressing the people, General Gordon said, "I come without soldiers but with God on my side, to redress evils. I will not fight with any weapons, but will mete out justice. There shall be no more 'Bashi Bazooka.' The populace say that General Gordon is giving them more than El Mahdi could give. Gen. Gordon is sending copies of his proclamation in all directions.

YOUNG'S POINT.

From Our Own Correspondent.

THE WEATHER.—The roads are getting bad to travel on, we are getting so much wet weather. When they again freeze up the blacksmiths will reap the benefit. It has been a bad winter for them so far.

THE SHANTIES.—The lumbermen have been getting on very well so far this winter, but if the soft weather continues the shanties with their teams will come out from the shanties and return when we get more snow.

THANKS.—Mr. Carnegie, M. P. P. for this riding, sent your correspondent a copy of the Report of the Commissioner of Public Works for 1883. It is useful for reference, as it contains much information. What about the money that was so foolishly thrown away last winter before the elections? Mr. Carnegie should enquire into it.

THE DAM.—Mr. Chas. Wyman intends to begin operations at the new dam early next week. Some of the kiths who feel inclined to handle stones, &c., can now get plenty of work for the next four months.

MADOC.

A CENTENARIAN.—There died on Wednesday at the Irish Settlement, a few miles from this village, an old lady named Katharine Connell, who had attained the respectable age of 104 years. Her husband died a few years ago, aged 105. Few there are who live to see the decline of so many years.—Review.

A Thirty-five Thousand Dollar Fire.
OSHAWA, Feb. 18.—The main building of the Oshawa Store Company's works in which were located the office, warehouse, mounting and nickel-plating departments, were destroyed by fire this afternoon. Loss \$35,000; insurance \$32,000.

THE DAILY EVENING REVIEW is delivered to subscribers at ten cents a week.

Our Canadian Industry is prosperous. The great difficulty to be overcome with is the low grade of goods required. In nothing is this more apparent than in the comparatively small article of sewing silk. The great demand in Canada seems to be for a cheap quality, buyers forgetting that a cheap thread must necessarily be a fine and consequently a weak one. Messrs. Belding, Paul & Co. make three grades of spool silk; of these different qualities the poorest one has by far the largest sale, at the same time they constantly hear of complaints of poor sewing silk. If ladies will take the trouble to ask for Belding, Paul & Co's own brand, and see that their name is on the end of each spool, they will be sure of getting the best made.

LOCAL NEWS

The Opera House.

Shift & Gaylord's Novelty Company attracted another large audience last night, the house being filled to overflowing, and a better satisfied audience we believe never left the Hall. They give their last performance to-night, with a change of programme.

Tavernier's Comedy Company.

Tavernier's New York Comedy Company, which includes Miss Ida Van Cortland, a young actress, who has received flattering notices, commences a three night's engagement in Bradburn's Opera House on Thursday evening. They appear in the same hall also on Friday and Saturday evenings.

A Fine House.

The Omece Herald contains the following: "The Grand Central Hotel, Peterborough, under the management of the Day Bros, is fast gaining popularity, and it will soon become the leading hotel of the town. The whole place has been refitted and remodelled so that now it competes favourably with any hotel in the Province. Travellers from Omece and Emily can depend on being well taken care of if they visit the Grand Central Hotel."

"Reporters Progress."

The Golden Lion, having been, like the Town Council, in "committee of the whole on ways and means," rises now to report progress. Messrs. Fair, Van Every & Co. have been doing business in Peterborough for four months, and the result is very satisfactory to them, as we believe it is also to their customers. Careful attention to business, which has the aid of enterprise and experience, brought about the result.

The Weather.

Yesterday was mild and soft, and at ten o'clock last night rain was falling. But a change took place before morning. The wind rose and blew a stiff gale, while the weather became cold. The weather probabilities for this district for the following twenty-four hours, commencing from one o'clock this morning, as reported from the Toronto observatory are as follows:—Heavy west to northwest gales; clearing, colder weather.

Social in St. Paul's Church.

A very successful social entertainment was held in the school room of St. Paul's Church on Tuesday evening, in aid of the organ fund. The large edifice was filled to its utmost capacity by people from the town, all congregations being represented, and from the country. The chair was occupied by Mr. Melville Millar, who discharged the duties of chairman very satisfactorily. The programme consisted of an opening chorus by a full choir led by Mr. D. D. Galletly which was followed by solos and duets by Miss Logan, Miss Hattie Johnston, Miss Errett, Miss Galletly, Fraulien Rhatjen, Miss Sophie Cameron, and several well-rendered solos by Mr. Galletly. Miss Hattie Johnston accompanied on the piano during the evening. The first part of the evening's entertainment was concluded by an excellent address by the Rev. A. H. Munro, whose remarks made a very favourable impression on the audience. Refreshments were then served by the ladies of the congregation, and much praise was bestowed upon them for the abundance and quality of the tempting edibles provided. The second part of the programme consisted of vocal and instrumental music, and after some remarks from the pastor, the Rev. E. F. Torrance, M. A., the entertainment was concluded by another chorus by the choir. The organ fund money has netted a handsome addition by this social.

DAIRYMEN IN COUNCIL.

SEVENTH ANNUAL CONVENTION OF THE EASTERN ONTARIO ASSOCIATION.

Address by the President on Important Subjects Connected with Cheese and Butter Making.—Committee appointed.

The annual convention of the Dairymen's Association of Eastern Ontario opened at 10 o'clock this forenoon, Mr. D. Derbyshire, of Brockville, President, in the chair. Among those present were Messrs. D. Vandewater, 1st Vice President, Forbore; Thos. Walker, 2nd Vice President, Wellman's Corners; D. M. McPherson, Lancaster; Jas. Beasly, Algonquin; Platt Henman, Grafton; and H. Wade, Toronto; members of the Board of Directors: Hayford Ashley, Secretary, Belleville; P. R. Daley, Treasurer, Forbore; Jas. Haggarty, Huntingdon; Howard Bisell, cheese instructor, Hastings County; Jas. Whitten, cheese instructor, Wellman's Corners; F. H. McCrea, Brockville; Ira Morgan, Metcalfe; Jas. Alexander, Lancaster; Frank Brenton and Jas. Hamilton, Forbore; and a large number of others.

Miss Augusta M. Ashley, of Belleville, acted as official stenographer for the Association.

The President, after calling the meeting to order, said that the convention met under very favourable circumstances in the flourishing town of Peterborough. They had a great future before them, if they employed their time properly in cultivating the great industry of this country—the dairy industry. If they would take into account the amount of money received for cheese and butter exported from Canada, they must come to the conclusion that it was an industry worth looking after. The dairymen of the future would have to use more intellect and science than those of the past made use of. Active competition and the more fastidious tastes of the consumers made this necessary. Smooth, bright, sweet-flavored cheese, possessing keeping qualities, could only be manufactured on the Cheddar system. To be able to compete with the American manufacturers, they would have to educate their producers so that they would be able to satisfy the tastes of those whom they wished to supply. There were thousands of packages of butter in this country for which there was no market on account of its inferior quality. Some people commence to make butter in May and sell it down like they would pork, and when they take it to the market they lose from 5 to 7 cents a pound. If they had sold the butter when it was fresh they would have realized more for it, and besides the customers had in the meantime received their supplies from other places. Only a few years ago the farmers were all speculators in cheese, holding it on the shelves waiting for better prices, but during the past three years they had succeeded in wiping that out considerably, and had succeeded in getting the cheese moved to the market when it was in its best condition, and when it would sell to the best advantage. A cheese manufacturer should have ability, experience and a taste for the business, and should study the interest of those whom they had to please. The proper time to canvass for milk for the next year was in May. They should enter on the work of their customers, so as to be able to supply them. Experience was needed in the manufacture of cheese the same as in any other business. No factory should have less than 500 cows to supply it with milk, and the cattle should have plenty of nutritious food, and the cheese should be kept scrupulously clean. The dairymen should see that the milk reached the factory in its best condition, and then the manufacturers could make a good article. A cheap manufacturer, making a cheap article to sell at a low price did not pay. Two or three salesmen for a factory were unnecessary, and interfered with each other in the disposal of the cheese. A factory should have one intelligent man for a salesman and another to take care of the business. They should remunerate him for his trouble. They should remember these points, namely, to have a manager who understood the business, 500 cows supplying milk, a good, experienced maker, and one capable salesman, and then their business would succeed. In the interests of themselves, their patrons and the Dominion, the manufacturers should make a good article. They should have good boxes, with lids that would be strong enough to stand up to the weight of 16 ounces to the pound, so as to establish thoroughly in the minds of the people of Liverpool that they were honest. They should try to build up a reputation for the country, and they had succeeded largely in doing this. The cheese produced in this country had been improved 25 per cent, yet half of the factories in the country were making a common article. They needed to remedy this, and they must remedy it in the future. The mode they had adopted during the past two or three years was the best one, namely employing travelling schools to carry the gospel to the poor heathens. Some manufacturers said they did not want instructions while the cheese on the shelves was shedding tears for the instructors to come. The instructors had succeeded in teaching these men something. An American Governor had said that they would spend thousands of dollars to break down the cheese market, but the Americans could not do it if they would unite in producing the best article and the best only. Cheese makers who had not enough interest in their profession to attend a convention where they would learn something should be put out of the factory. No cheese manufacturer could make cheese for less than a cent and a half a pound and do it properly, to have anything left for himself. Poor cheese was always a drag in the market, while good cheese was commanding a good price. They had produced more cheese and had exported 187,000 boxes more in the past year than ever before, yet the demand was never better. This was on account of the improvement in the general character of their goods, owing to the efforts of the instructor. They must have all the cheese made in the country come up to the mark. The cream of dairymen never looked so bright as now. Butter producing had been neglected by some of the farmers. They should have a good milk cellar in which the temperature would never go below 55° or rise higher than 60°. The cream should be removed on the first appearance of acidity, and churned at a temperature of 60°. An ounce of salt should be put in to the pound. The butter should then be put up in nice little packages in the best condition, and placed in the market regularly every two weeks. Potatoes, roots and vegetables should not be kept in the same cellar with milk, as they tainted the milk. If a cheese factory were convenient, more money could be made with less labor by sending the milk to the factory. The Minister of Agriculture had told him that if the Association could spend more money to advantage, the Government would be willing to give it. The committee which waited upon the Government in regard to the creameries, urged upon the Minister that only one creamery could be established, and that one at the Agricultural College, Guelph. Every farmer should send his cream to the college. The speaker referred to Peterborough in flattering terms as a centre of enterprise, and resumed his seat amid applause.

The President named the following committees:—

NOMINATIONS.—Messrs. Platt Henman, J. Bisell and D. Vandewater.

ORDER OF BUSINESS.—Messrs. D. M. McPherson, Platt Henman and J. Bisell.

FINANCE.—Messrs. Ira Morgan, Henry Wade and Jas. Haggarty.

DAIRY UTENSILS.—Messrs. J. Whitten, Howard Bisell and R. Wherry.

DAIRY AND IMPORTED STOCK.—Messrs. F. H. McCrea, T. Walker and Jas. Haggarty. Mr. D. M. McPherson said that the work of the Association was an important one, and looking over the records of the past they would see that it had accomplished much. Nothing was more important in cheese making than producing a good article. Instead of catering to the tastes of customers, they should educate the tastes of their customers so they would appreciate a fine article. The finer the cheese, the better the flavor and the better the season in which it was taken to market, the livelier the demand would be. Cheese was fit for consumption four weeks after it was made, and it should be in the market then. During the past year cheese had brought a good fair price, the average being 11 cents, at which it could be produced with profit. He approved of the President's remarks regarding regular shipments and cheese makers.

The President referred to the programme for the afternoon, and the Convention adjourned.

Farmers of the County of Peterborough,

And Adjoining Counties, TURN OUT, and Attend the EASTERN

Dairymen's Convention,

TO BE HELD IN THE

Town of Peterborough,

On WEDNESDAY and THURSDAY,

FEB. 20th and 21st, 1884.

And hear some of the best, most able and practical men on Dairy Farming, Breeding of Cows for Milk, Cheese and Butter. Head the list of names of gentlemen that are expected to be present to address you.

HON. HARRIS LEWIS, of Frankford, N.Y., A thorough, practical Dairy Farmer, Cattle Breeder, Butter Maker, and one of the best informed men in the United States.

PROF. J. P. ROBERTS, of Cornell University, Ithaca, N.Y., a Practical Farmer, and owner of a first class farm in the Western States, and now in charge of the farm in connection with the above University at Ithaca, N.Y., and who manages to grow over 70 bushels of Oats to the acre.

THOS. BALLANTINE, M.P.P. of Stratford, and President of the Western Dairymen's Association of Western Ontario, a practical dairymen, and in all probability the best authority on the manufacture of cheese in the Dominion of Canada, and who has done so much in Western Ontario to improve the quality of the Manufacture of Cheese.

PROF. BROWN, of Agricultural College, Guelph, a thorough practical man in every department of Agriculture, your servant in charge of the Ontario Agricultural College, and who will speak to you on the best methods to be followed in the Dairy Industry.

PROF. L. B. ARNOLD, of Rochester, N.Y., who has devoted a lifetime nearly in the investigation of the manufacture of cheese and butter, and is so well known to every cheese maker and manufacturer of cheese and butter in the United States and Canada.

JAMES WHITTON and HOWARD BISSELL, who have been in the employ of the Eastern Dairymen's Association for the past several years, and who are well known to all matters pertaining to the manufacture of a better quality of cheese, and who have done so much in improving the quality of the manufacture of cheese in Eastern Ontario.

Farmers, do not have it said any longer that there is no enterprise in the Eastern Ontario Farmers, but turn out and show to the Western Farmers that you take an interest in all matters pertaining to your interests.

The Western Farmers turn out by the hundreds every year to attend the Convention of the Dairymen held at Ingersoll, Stratford, London and Woodstock, and remain the whole three days in most cases, and either join the Association or pay their 25 cents each time on entering the convention, morning, afternoon and evening.

The Counties make the Convention free in Eastern Ontario, and leave it optional with those attending to become members, in which case entitles those joining a copy of the Report of the Proceedings, and now hope it will never be said again that there is no enterprise among the Farmers of the County of Peterborough and adjoining Counties to turn out and make a respectable attendance to a Convention when held at the Town of Peterborough. Do not allow all the attention to come from a distance. Turn out at once and fill the City Hall and remain through the three days, and I feel confident you will be amply repaid for the few days time spent in listening to the addresses that will be delivered to you.

Yours respectfully,

HARFORD ASHLEY,

Secretary, E.D. Association

SHUNNING THE LIGHT.

THE Belleville Ontario says that Mr. Mowat has never declined to furnish returns when called for, and that he is not afraid to bring down Colonization Road returns. Mr. Mowat may not decline to bring down returns, apparently preferring to consent and then to set at defiance the order of the House by simply ignoring it. This is notably the case as to Colonization Road returns, which have year after year been ordered, and have year after year been kept back. If Mr. Mowat and his colleagues do not thus disobey the House through fear of publicity, what can their reason be? It is not likely that their disobedience springs merely from a wish to treat the Legislature with gratuitous impertinence. They shun any light upon this corruption fund, road-building being only a secondary consideration, and the purchase of votes the chief object.

COLONIZATION ROAD FRAUDS.

We are told by the Belleville Ontario that Mr. Meredith was afforded the fullest opportunity of investigating Colonization Road accounts on the Public Accounts Committee, and yet that he discovered no scandal or irregularity. For instance in the report of the Public Accounts Committee of 1883, the evidence shows that Colonization Road money had been sent in lump sums to members of the House, that Mr. Thomas Murray M. P., not only received considerable sums but that supplies were purchased largely from him, that there were no proper vouchers for many payments, that in several cases paymasters contained five or six claimants of the same family name as the over-seer; that S. S. Peck, M. P., who as County Treasurer had robbed his county of thousands of dollars, was trusted with the expenditure of more thousands of these public moneys, and that there were other irregularities too numerous to give in detail.

MR. MOWAT AND THE BENCH.

We have not a high opinion of Mr. Mowat as a politician, but we thought that as an ex-judge he would have had too much respect for his former position to stand up in the House and maintain that because a man was a defaulter as County Treasurer he was not unfitted for the Bench. We knew that in distributing the provincial patronage he acted on this theory, that he appointed a man disrobed for defrauding widows and orphans to an office of trust and emolument, and that he placed on the Bench this fraudulent Treasurer, but we hardly thought he had the effrontery to avow his sympathy with dishonesty in his place in the Legislature.

This pretty Attorney-General excuses his friend Peck on the plea that having a business of his own he got his accounts mixed. If so pray why, when Judge Dean got them unmixed for him, did he not return to the needy ratepayers of Haliburton their money which he had misappropriated, instead of investing in land in Dakota, so as to place it out of their reach. The mixing of accounts so as to get possession of other people's money might be only criminal negligence, but the placing it out of their reach for his own use was nothing less than barefaced robbery. If Peck could get his own funds and the County's so mixed, what security have we that he did not mix with them for his own advantage the public money to the extent of thousands of dollars with which Mr. Mowat entrusted him on the pretence that it was for colonization roads. Perhaps he got these moneys as badly mixed with his electioneering fund as he did the County money with his store cash. And if Mr. Mowat thinks this kind of thing quite innocent, what safeguard have we that he had not copied his friend Peck's example and mixed up the public funds of Ontario with his own electioneering expenditure, may in Algoma, for instance?

If Mr. Mowat publicly declares that he has such a low standard of morality, he must not be surprised if he is judged by it. The man who placed a thief like Peck upon the Bench, and maintains him there in spite of his knowledge of the facts cannot himself be an honest man.

SUCCESSFUL SORTIE FROM TOKAR. The garrison of Tokar made a sortie. They killed and wounded several of the enemy and captured a number of cattle and camels.

DISSEMINATION IN THE REBEL CAMP. Differences among the sheikhs of the rebel tribes as to whether the attack should be made on Suakin before the arrival of the British troops, has led to discontent in Osman Digma's camp. Some sheikhs who urged an immediate attack on Suakin hold aloof from the force concentrated around Tokar.

RELIEF OF SUKIN BY TOKAR. Gen. Graham, with a full complement of forces, is timed to reach Suakin on Sunday next and advance on Tokar on Tuesday. This leaves eight days still before relief is possible. Reinforcements have been hurriedly despatched from Gibraltar and Malta. The Sixteenth Rifle and fifty mounted infantry arrived today. The British troopship Orontes has taken to Trinkitat part of Tokar relief expeditions.

MONTREAL NEWS.

MYSTERIOUS DEATHS.—The adjoining village of St. Laurent has been thrown into a ferment by the mysterious deaths of Mrs. Gravel and her two children after great agony from what looks like poisoning, but how it was administered to them is not known. The cure of the parish reported their deaths to the coroner of this city and he has opened an inquest, but so far nothing can be discovered until the medical examinations are completed. The other members of the family were also ill, but are better, and no further danger is apprehended.

FLEEING THE VISITORS.—A Montreal special to the New York Morning Journal says: "The Carnival passes into history as a grand success, but there are memories that cling to it of unpleasant favour. Everybody who had a chance was 'on the make.' With one or two exceptions the hotel men stood as deep in the gulf as any one. The coachmen, restaurateurs, barbers, people with rooms to rent, the saloons, and in fact any one who had any kind of commodity to offer the city full of 'soakers' took a prominent part. Families were taken to most inferior lodgings and charged from \$3 to \$5 a night for each person. On Wednesday citizens sent three men to certain lodgings. The lady of the house said that in view of its coming on to the end of the week she would accommodate them for \$6 a night each. But the husband was even worse. Men from whom the Johns were demanding three or four times their legal fare were to be seen everywhere. A barber demanded 50 cents for a shave. The restaurateurs jumped their rates away up within the bounds of exorbitance, and the food offered was of a very indifferent nature. The sole object of the residents apparently was to fleece the visitors out of their last cent.

HORRIBLE OUTRAGE.—Mrs. Grace, a respectable married woman living in St. Gabriel, just outside the city limits, went a few evenings ago from her home to the telegraph office for a despatch, when she was attacked by a scoundrel who followed, knocked her down, and rifled her pockets. The villain was then joined by a confederate and between them they dragged her insensible to a lonely place where they committed an outrage upon her. Fortunately their names are known and the police are searching for them, but they have evaded arrest so far. The victim has been confined to bed by the brutal treatment she received, and is being attended by a physician.

PORT HOPE.

A NEW SAVED ARMY OFFICER.—Miss Annie Gibbs, daughter of Mr. Geo. Gibbs, leaves in a day or two as an officer in the Saved Army. Her base of operations at first will be the town of Picton. She has been converted since the army came to Port Hope. She is very zealous and very talented.

BADLY BURNED.—A servant girl at the Turbine House got badly burned on Tuesday morning about the face, while lighting the fire in the cooking stove with coal oil. It is a wonder the house was not set on fire, for the flames rushed out of the stove into the girl's face, burning it fearfully; she will carry the marks for many a day.

A GRAND RALLY.—The Saved Army made a grand rally on Tuesday night; two large sleigh loads of soldiers came up from Cobourg, there must have been nearly forty in all. They attracted considerable attention in coming up Walton street, all singing "Roll Along the Old Chariot," then a rush was made for the Music Hall, which was soon literally packed. In the experience meeting, nearly all the recruits from Cobourg, spoke and many local converts also.—Guide.

BELLEVILLE.

THE STOVE FOUNDRY.—The Belleville stove foundry now employs 136 men.

A STRIKE.—A strike took place in the axe factory on Saturday for an increase of wages.

THE LATE MRS. MOYER.—The search for the body of Mrs. Moyes, of Belleville, was resumed on Saturday, on the faith of declarations by a fortune-teller at Trenton.

The Coming of the British Association. QUEBEC, Feb. 19.—The Quebec secretaries of sections of the British Association for the advancement of Science, Rev. Professor Laflamme, F. R. S. C.; J. E. Lemelin, F. R. S. C., past president of the Literary and Historical Society, and Lieut.-Colonel Rhodes, president of the Quebec Geographical Society, waited on the Mayor of Quebec by request of the Montreal committee for the reception of the association in Canada respecting arrangements to be made here in view of the proposed visit of the members of the association to this city. Mayor Laflamme of course expressed his readiness to do all that was possible in providing a suitable reception for our distinguished visitors, and at a later date it is probable a public meeting will be called to take the matter into serious consideration.

A Quebecer's Suicide. RAY CITY, Feb. 16.—Theophile Lousen committed suicide at the Wolverson House this morning with strychnine. He was a large man 40 years old, a cook in a lumber camp, and was once wealthy and owned a hotel and store near Quebec. His parents reside at St. Raymond's, near Quebec. His friends have been telegraphed. His brother is a wealthy merchant in Ontario. Cause dependency.

THE FLOODS IN THE STATES.

Ample Measures for Relief—Rivers in some Places again Rising.

WASHINGTON, Feb. 19.—The reports of the damage to the Ohio River railroad by the flood are greatly exaggerated. It is estimated that \$50,000 will cover the whole damage. General Beckwith, at Cincinnati, in charge of the relief boats, telegraphs:—"To-day from Wheeling to Cairo, along both banks of the river, there is not a man, woman, or child that pines for want of sufficient food." The supplies already distributed by the relief boats are amply sufficient to meet all present needs.

NEW YORK, Feb. 19.—Clara Barton, president of the Red Cross Association, telegraphs from Cincinnati to-day:—"Red Cross fully established for work, with field agents, abundant help, and free use of all relief boats, including those of the Government. From Pittsburg to Memphis great destitution prevails, and must continue some time. Shall give special attention to smaller towns on the entire length of the river, with Cincinnati as headquarters, and subscriptions will not be indiscriminately but judiciously and carefully expended."

CINCINNATI, Feb. 19.—Two large brick buildings on Second street, undermined by the flood, fell last night. They were unoccupied, and commenced raining hard here this afternoon, and is still raining this evening. Reports from points up the river are that rain has fallen there. The river has commenced rising again, and rose a quarter of an inch between 8 and 9 p.m. CAIRO, Ill., Feb. 19.—The river is rising slowly. It still lacks nearly a foot of last year's stage. A heavy rain set in this afternoon, accompanied by a gale. It is still blowing hard from the north, which will prove a severe strain upon the new levee here.

LOUISVILLE, Ky., Feb. 19.—The river is falling at the rate of an inch an hour.

How a Union Soldier Made a Fiddle.

It was at the "Brandy Station," Va., in the winter of 1863-4, says the Westfield, Mass., Times, that George M. Colt, Company C, Second Vermont Volunteers, proposed to make the cheer-giving instrument; and with a hatchet, jack knife, file, and a piece of junk bottle as his only tools, he cut a piece of maple from a stump that grew on the bank of the Rappahannock River, and set to work. The back and sides of the fiddle are made of one piece—a "regular dug out." The top is of hemlock taken from a box which brought some "goodies" from their friends in "Vermont." The bow is of maple. The keys were made from the horns of some Confederate cattle that fell into our hands and were devoured by our carnivorous soldiery, so that the poor brute contributed to our mental as well as physical welfare. The hairs were pulled from the tail of the Colonel's horse, who was fond of music and never raised a foot in resistance. It is said that he even signified his willingness to furnish enough of his hoofs for glue, but that was found elsewhere, and the instrument was completed and in the hands of a modern "Paganini," who rose for the occasion, gave forth its soul stirring strains. He conjured up the "stag dances," "acrossed headquarters," and was admired and cherished by the officers and men of the "Green Mountain Boys." The rest must be left to imagination, as far as its army record is concerned. Suffice it to say, it was "honourably discharged," and has been the hero of several occasions since the war, receiving the first premium at the Vermont State Fair. Bude as is its origin, its tone is remarkable sweet and expressive, especially in the rendering of "Old John Brown" and other airs that were offerings of the war, which seem to revive in its memory of the exciting scenes of its early existence. Its maker and owner still lives, though he received wounds after the production of his fiddle, but that have never disabled him for active duty.

Demerol. Sometimes it costs hundreds of dollars to convince a man; very often less is required, but in the case of Polson's Nervine, that sovereign remedy for pain, 10 cents will buy a bottle, and supplies enough Nervine to convince every purchaser that it is the best, most prompt and certain pain remedy in the world. It is good for all kinds of pain, pleasant to take, and sure to cure cramps and all internal pains. It is also a nice tonic for the system, and a pleasant smell, quite unlike so many other preparations, which are positively disagreeable to use. Try it now. It will do you good. Price 50 cents per bottle. A 10 or 25 cent bottle. Polson's Nervine. Take no other.

Beckley's Arabian Salve. The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, leish, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 50 cents per box. For sale by Taylor & Macdonald.

From the Liver and Kidneys arise fully half the sickness. Dr. Carson's Stomach Bitters stimulates both Liver and Kidneys, and insures one against disease. It is not an alcoholic stimulant. In large bottles 50 cents.

LAKEFIELD DAM.

Notice to Contractors.

SEALED TENDERS addressed to the Secretary of the Department of Railways and Canals, and endorsed "Tenders for Trent Navigation," will be received at the Resident Engineer's office, Peterborough, until FRIDAY, the TWENTY-NINTH day of FEBRUARY, for the construction and completion of a Regulating Dam, &c., across the Otonabee River at Lakefield, on the Back Lake Division of the Trent Valley Canal.

Plans of the work may be seen, and specifications and printed forms of tender will be furnished upon application at the Resident Engineer's office, Peterborough, on and after FRIDAY, the FIFTEENTH day of FEBRUARY.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and prices affixed to the whole of the items stated therein, and signed with their actual signatures.

Each tender must be accompanied by an accepted bank cheque for the sum of \$150, made payable to the order of the Honourable the Minister of Railways and Canals, which sum shall be forfeited if the person tendering declines to enter into contract for the execution of the work, at the rates and prices submitted, subject to the conditions and on the terms stated in the specification. If the tender is not accepted the cheque will be returned.

The Department does not, however, bind itself to accept the lowest or any tender.

Daily Evening Review

FRIDAY, FEBRUARY 22, 1884.

Personal. The Brandon correspondent of the Winnipeg Times says that Mr. E. Clement Smith has purchased Mr. J. E. Woodworth's interest in the Woodworth estate. This transfer of property involves a large amount of capital. We had the pleasure of a call from Mr. H. Dobbin, of the Lindsay Post, on Wednesday.

Concert. Although the weather was unfavourable the concert at the Mission School House on Thursday evening was very well attended. The programme was a most attractive one. The opening piece an instrumental trio by Messrs. Best, Leach and Sanderson, was rendered with much taste. Miss Stevens and Miss Errett favoured the audience with several songs in their usual excellent style. The recitation by Miss Archer was very pleasing. Mr. Hooper read a humorous piece entitled "The Flying Machine." Of Messrs. Elliott, Rush and Porteous it is needless to say that they were thoroughly appreciated and loudly cheered. A duet by Messrs. Clarke and Rowley was encored with much enthusiasm. The comic song by Messrs. Hammond and Magall caused a great deal of amusement. Miss Errett kindly presided at the piano, which was lent by Mrs. Barrie.

TORONTO NEWS

CONCERT AT THE ASYLUM.—An excellent concert of choruses and songs was given on Tuesday night to about 200 patients at the asylum. The Toronto concertina band added very much to the enjoyment of the evening. The singers were composed mostly of the Queen Street Methodist choir.

THOROUGHbred CATTLE.—Messrs. Grand & Walsh advertise a very extensive sale of thoroughbred cattle, to take place on the 11th, 12th, and 15th of March, at their repository. The sale will include Jersey cattle, Ayrshires, and about 200 horses.

STRUCK OFF THE ROLL.—Chancellor Boyd delivered judgment on Wednesday, at Osgoode Hall, striking L. U. C. Titus, of Brighton, off the roll of solicitors of the Supreme Court for the Province of Ontario. Titus was retained by the purpose of "calling" the jury; (2) that he induced the father of the man who was killed to sue her for damages under Lord Campbell's Act. The Chancellor held that the motion must succeed on the first ground, and that the order must be made, not to issue, however, until Titus has an opportunity of appealing.

BELLEVILLE.

A FIRE.—A frame dwelling house owned by the Sager estate, and occupied by the Messrs. Bonter, was burned on Wednesday morning with the greater part of its contents. Insured for \$500, which will cover the loss.

SEN-KUEN'S CONVENTION.—The Sen-Kuener convention at Belleville adjourned on Wednesday afternoon after a highly interesting session.

THE SEARCH FOR MRS. MOYNE'S BODY.—The search for the body of Mrs. Moyne was resumed at Belleville on Wednesday in an eddy further down the stream.

THE LATE MR. McMAHON.—The funeral of the late Mr. Eugene McMahon took place on Wednesday morning to the Roman Catholic cemetery at Belleville. The Law Society and a very large number of friends attended.

The Roof of a Chapel Falls In. QUEBEC, Feb. 20.—Last night the roof of the new St. John's chapel, on John Street without, fell in with a deafening noise, crushing through all the flats of the building and bearing down with it a good portion of the back walls of the structure. The building in question was used as a school-house for the Christian Brothers, and its erection was hurried to completion soon after the great fire, in order that a portion of it might be used as a temporary chapel until the completion of St. John's Church. Had the accident occurred on Sunday or a holiday, or at any time otherwise, the loss of life must have been fearful. The cause of the accident is of course imperfect structure.

DOMINION PARLIAMENT.

THE SECOND SESSION OF THE FIFTH PARLIAMENT OF CANADA.

Mr. Blake Repudiates After the Failure—Here C. P. R. Information—Checking Patent Rights Frauds—Obstructing Railway Crossings.

MR. BLAKE'S LATE REPUDIATION.

MR. QUINCE on Wednesday, after the votes on the C. P. R. resolutions, said that the *Mail* had charged the Quebec Conservative members with considering certain overtures from Mr. Blake. He said they had never met to consider such overtures, nor had Mr. Blake made any. There were also incorrect statements as to one of the Ministry in this connection.

MR. BLAKE said that neither he nor the French Canadian members had fallen so low that such negotiations could have been possible between them.

SIR JOHN MACDONALD said nothing improper had been suggested by the French Canadian members, and no undue pressure had been exercised. As to his colleague (Mr. Costigan), who had tendered his resignation, he had been induced to withdraw it, and was still a member of the Government. He hoped he would long continue so.

THE C. P. R.

SIR C. TUPPER on Thursday, in reply to Mr. Blake, said that the C. P. R. from the Summit of the Rockies to Kamloops would be 286 miles, that the estimated cost for construction was \$12,000,000, and for equipment, \$800,000; the remaining length of line on the Lake Superior and Nipissing Division was 450 miles, estimated to cost \$16,000,000, and rolling stock, \$900,000. It was not yet determined where the C. P. R. steamers would touch.

LIQUOR LICENSES REPEALED.

SIR JOHN MACDONALD, in reply to Mr. Kirk, said a measure would be introduced as to the expenses of carrying out the License Act in districts where the license fund was insufficient.

REGULATIONS AS TO VOTING. The SPEAKER said that in future he would rule that every member in his place would have to vote unless disqualified by a direct pecuniary interest or excused by the House by a formal resolution. There was some discussion as to whether this should apply to members who had paired.

PATENT RIGHTS TRADED. MR. MULOCH moved the third reading of his bill to prevent patent rights frauds by making it compulsory to write "given for a patent right," across a note so given.

SIR JOHN MACDONALD said that such special legislation, when there was a general act, was to be avoided, but this was to check such a crying evil that it might be allowed. The bill was read a third time.

RAILWAY CROSSINGS.

MR. MULOCH moved the second reading of his bill to prevent railway cars from standing more than two minutes on level crossings.

SIR JOHN MACDONALD agreed to the second reading if it were referred to the Railway Committee.

SIR R. CARTWRIGHT, Mr. Farrow, and Mr. O'Brien, also expressed themselves favorably, and the bill was read a second time and referred to the Railway Committee.

CUSTOMS OFFICERS.

MR. CAMERON (Inverness) and half a dozen other members asked for additional customs officers or increased salaries in their localities.

MR. BOWELL said he must be guided by the chief officers of the Department, who knew what staff was necessary at different points.

Explosion in a Coal Mine.

CONSELLVILLE, Pa., Feb. 20.—An explosion occurred in a West Leisegang shaft near here to-day, resulting in terrible loss of life. Seventy-five men were at work in the mine, and out of that number 29 are known to have been killed. Twelve more were rescued but so badly injured they will die.

The coal mine is worked by means of a shaft which reaches the mine a distance of four hundred feet from the surface. This morning part of the force that worked all night left the mine and seventy others took their places. Soon after the explosion occurred 800 feet from the bottom of the shaft and 1,300 feet from the surface. The report was heard outside a long distance, and caused such a jar that a derrick one hundred feet high was knocked off. One man alone escaped. He wound his clothes tightly around his face and mouth to keep foul air from choking him, and reached the open air. His escape is deemed marvellous.

Two hours elapsed before anyone dare face the after-damp to search within the mine. Michael Rjito, a Hungarian, was the first one brought out. He had evidently died from suffocation. At noon nineteen bodies had been brought out and identified. They were all married men with children. None of them bore any marks of violence. Belaville, who escaped, says the men acted like heroes in a burning stable. They were bewildered, not knowing which way to go, and refused to go in any direction. Some of them were so burned the flesh dropped off them in places when removed. The scenes in the vicinity are pitiable in the extreme.

DR. D. W. FAIRCHILD, of New York, says: "Personally I believe in Phosphatine; I use it myself, and in my family and practice. I prescribe Phosphatine with a confidence I attach to no other remedy. It is safe, it is effective." For sale by J. D. Tully.

WARNING.—If troubled with constipated bowels, never neglect it, or the system becomes clogged, the secretions dried up and the system poisoned with foul gases. Burdock Blood Purifiers cure constipation by unlocking the secretions and regulating the glandular system.

HOPE IN HOPEVILLE.—Mrs. McArthur, of Hopeville, declares she could not keep house without Hagar's Pastoral Balm. It is a remedy in which the sufferer may safely hope for speedy relief and effectual cure of Coughs, Bronchitis, Broucheitis, Throat and Lung Troubles, which neglected end in hopeless consumption.

RESENTMENT OF THE IRISH PARTY. LONDON, Feb. 21.—The Irish party, in order to mark their sense of the conduct of Speaker Brand in suspending the Irish members in the session of 1881, have determined to oppose the vote of thanks which will be proposed on Mr. Brand's retirement from the Speakership.

BRADLAUGH'S INTENTIONS.

LONDON, Feb. 21.—Bradlaugh says if the courts decide against him, he will resign his seat and not seek re-election.

THE GALES IN ENGLAND.

LONDON, Feb. 21.—Severe gales are reported in various parts of the kingdom. They have caused serious damage. There was a terrific hurricane to-day in St. George's channel. A large tidal wave in the river Mersey caused two steamers to ground.

INCENDIARISM IN RUSSIA.

St. PETERSBURG, Feb. 21.—The fire at Kharkoff on February 11th was due to incendiaries. Thirty-six arrests for pillaging have been made.

LOSS OF A VESSEL AND CREW.

LONDON, Feb. 21.—The barque *Ada Burton*, from St. John for Glasgow has been wrecked and the crew drowned.

WANTON OUTRAGE IN CORK.

DUBLIN, Feb. 21.—A Catholic chapel in the suburbs of Cork was partially wrecked last night. The windows were broken and the sacred ornaments smashed. The culprits are unknown.

FRANCE AND CHINA.

LONDON, Feb. 22.—The Marquis Tseng, at a conference with Earl Granville to-day, said the Chinese Government will consider an attack by French troops upon Beaulieu a declaration of war by France against China, and will immediately thereafter withdraw the Chinese embassy from Paris.

MILLBROOK.

SUDDEN DEATH.—We are called upon to record one of those sudden deaths, that occur from heart disease, and which are of such frequent occurrence. On Saturday evening about dusk, Mrs. Hampton, who lives about three miles south-west of Millbrook, mother of the respected Head Master of Millbrook Public Schools, and sister of the late Mr. James Hampton, with her young daughter, accompanied a neighbour and little boy home about a mile distance, taking with them a hand-sleigh, to draw the little boy on. On the way home, Mrs. Hampton who was in unusual good spirits, told her daughter to get on the sleigh, and she would give her a ride. Having proceeded a considerable distance, Mrs. Hampton asked her mother to get on the sleigh, and she would give her a ride. This Mrs. H. declined to do, saying she was getting along very well, after going a short distance further, Mrs. Hampton fell, and the daughter was alarmed. The mother remarked, "I will be all right in a minute." These were her last words. The daughter hastened home, about a quarter of a mile, and her brother David and others, speedily went to her rescue, and got the unfortunate lady home where she expired in a few minutes. The family have the deep sympathy of their neighbors and very numerous friends. Deceased was 55 years of age.—*Meanderer*.

Out of the Frying Pan.

The wheat rate from Aberdeen, on the Hastings and Dakota division of the Chicago, Milwaukee & St. Paul, to St. Paul, 490 miles, is 17 cents per bushel. The C. P. R. rate from Winnipeg to Port Arthur, 435 miles, is only 17 cents. Are the Aberdeen farmers of the opinion that the Manitoba farmers would gain anything by "crossing the line in a body" to escape from railroad despotism.—*Winnipeg Times*.

Br. Wilson's Case.

KINCORON, Feb. 20.—Yesterday letters were received from the Bishop by members of St. George's Cathedral in reference to the Dean Wilson difficulty. These letters were considered at a conference of gentlemen last evening, and they are understood to have suggested a compromise of the difficulty, and the reinstatement of the doctor as the dean's curate. A deputation waited on the dean yesterday, and he said he would reinstate Dr. Wilson if he had nothing more to do with the Salvation Army.

Different Measures.

In one of the western counties of Ohio a petition is being circulated asking Governor Hurd to pardon a young man sent to the penitentiary for robbing a prominent Free Thinker. The plea is that he should not have been convicted, because the victim is a "wicked and perverse" infidel. Upon a somewhat similar principle the Toronto Globe deems it fair to despoil Twines of their private correspondence while it denounces with becoming wrath Tory lawlessness from Reformers. This is a queer world.—*Winnipeg Times*.

The Foundations.

EVANVILLE, Ind., Feb. 20.—One of the relief boats arrived from below this afternoon and reports awful scenes of desolation. Two men were found in a single tree, where they had remained six hours greatly exhausted and badly frozen.

Peterboro, O., Feb. 20.—The relief steamer Stockdale on her course up stream saw signs of distress and signals for aid on every side, men, women and children coming out and waving for the steamer to stop. The Stockdale has, in four days, delivered supplies at thirty-three towns, making a distribution for twenty thousand destitute. The river falls very slowly.

SILENCE GIVES ASSENT.

It is argued by the friends and admirers of the Algoma conspirators that the official telegrams of Messrs. Burden and White to Mr. Fardees, in which some of the details of the corrupt plans of the Reform leaders were exposed, do not implicate the Commissioner of Crown Lands and Acting-Attorney-General, because it cannot be shown that he answered them. The great probability, to judge from the surrounding circumstances, is that Mr. Fardees did answer the appeals in a very practical manner, and by what he considered a safe channel.

It, however, could be proved that Mr. Fardees left these official communications unanswered, he certainly is not placed in a better position. An honest man would have answered them, for he would have indignantly repudiated the insult to himself in inviting him to sympathize with and participate in such disgraceful proceedings. An honest Minister would have answered them, for he would have severely censured officials for such improper acts, for their neglect of their duties, and for making such propositions to their chief. He would either have discharged them immediately for such grave offenses, or if he had felt unjustifiably lenient he would have warned them that a denials would have followed a repetition of such conduct. His silence, if that is his line of defense, could only be interpreted in the proverbial manner, as giving assent, especially in such a case of official communications from officers to their chief.

Would an honest Minister or an honest man have allowed to pass in silence an official suggestion to him to misappropriate the public funds to purchase newspaper support, to secure the object by deferring half the payment till after the election, to officially recognize the Opposition electors of the constituency as "the enemy," to hide such corruption by negotiating through outside parties, to rejoice in a judge, forbidden even to vote, taking an active part in electioneering, or to make arrangements for sending a large amount of public funds into the constituency? If Mr. Fardees ignored such propositions addressed officially to him he has no claim to be considered either as honest Minister or as an honest man. But perhaps in the Court to which he is being taken to answer for he did not ignore these corrupt proposals, or resent what would have been an insult to any man who had a character to lose?

MR. BLAKE'S BID.

THE Toronto Globe having so signally failed in its diabolical attempt on behalf of Mr. Blake to purchase in a body the French Canadian vote in the House of Commons, now attempts to explain away its language, as if it were possible to place any construction but one upon its words. In its blundering efforts at the exculpation of itself and its party, it endeavors to gloss over its promises that if the Quebec members pressed their demands upon the Dominion, and by rejecting the C.P.R. loan drove the Macdonald administration from office, and placed Mr. Blake in power, they might then "state their grievances" as simply meaning that "The Liberal principle is that no wrong should be done to any one." If this is the Liberal principle, it is no often disregarded by modern self-styled Reformers that it is certainly well that the Globe and Mr. Blake should tell us that they recognize it. But what is to be thought of a party whose conduct and language has been so offensive in the past that it has to assure one of the most important Provinces of our Dominion that it need fear no wrong shall be done it if its old enemies and suspiciously recent friends should have the power to do mischief. No honest politician would find it necessary to make such a statement, which would be disgraceful to them, if that was really the meaning. But the plain and scarcely veiled meaning was an offer to bribe a whole Province by assenting to claims previously asserted to be unjustifiable and dishonest, but now to be yielded as the price of its vote.

EGYPT AND THE SOUDAN.

Admiral Hewitt's Plans—Refuge of Tokar—The Slave Trade.

Admiral Hewitt will make a simultaneous movement from Snakin while General Graham advances by the hill road from Trinitat on Tokar. Scouts report Osman Digna with 7,000 rebels in defiance on the hill road, leaving 5,000 of the tribe on Haddenhorwar to watch Snakin.

MISSIONARIES RANSOMED.

KHARTOUM, Feb. 20.—The Austrian Consul has forwarded to El Mahdi £2,000 to secure the release of Catholic missionaries.

DUTIES ABOLISHED.

KHARTOUM, Feb. 21.—Gen. Gordon has opened two new gates in the forts so that people can pass in freely. He has abolished petrol and market duties.

THE SLAVE TRADE.

CAIRO, Feb. 21.—The clause regarding slavery in Gen. Gordon's proclamation is, "I desire to restore your happiness and so have decided to permit the slave traffic. Everyone having domestic servants may consider them his property and dispose of them."

LOCKING TO MEET GEN. GORDON.

The sheiks of the tribes in Kordofan, Senaar, Dongola, Darfour, and all parts of the Soudan are flocking to Khartoum to meet Gen. Gordon, attracted by his personal prestige or by hopes of place or bribe.

TROOPS ADVANCING.

Troops are arriving at Snakin so rapidly that the advance to the relief of Tokar will probably be made to-morrow.

IMPERIAL PARLIAMENT.

LONDON, Feb. 20.—Mr. O'Connor Power, in a vigorous speech to-night inveighed against the Nationalists and their policy. He asserted that the present unfortunate condition of Ireland was the greatest difficulty England has to overcome. He censured the so-called National party for wasting the time of the House discussing factional disputes instead of the social improvement of Ireland. He accused Mr. Parnell because he was surrounded and urged on by certain lieutenants who were hoping to arrive at similar prominence. He was strongly opposed to the amendment, which he characterized as very disappointing, and which failed to condemn with sufficient emphasis the present policy of stimulating immigration and made no mention whatever of the importance of the development of Irish resources. Neither the Nationalists nor the Liberals had any right to either designation. "While Mr. Parnell," said Mr. Power, "was posing before the country and complaining that his safety had been threatened by a portion of his countrymen, I quietly awaited public vindication on my course. My declaration that intimidation was a brutal and immoral practice now comes from the lips of Mr. Parnell. A number of the National League has on more than one occasion made free speech than steal money from my pocket."

Mr. POWER proceeded to indict the National League from their own speeches. He said he was convinced Mr. Parnell inwardly dissented from many things which his disciples did both inside and outside of the House. The Parnellites had been pursuing a policy adverse to the interests of Ireland since the Land Act was introduced. Irish landlords over their present condition to the neglect of their most important duties. Irish discontent was due not only to historical events but also to the fact that Ireland was smarting because equal privileges were withheld. But better times were coming when strife would be at an end, and England and Ireland would be more closely united than ever. The Irish would share in equal privileges. Mr. Power was frequently interrupted by applause, and when he resumed his seat the cheering was tremendous. The Parnellites maintained silence.

Mr. T. M. HEALY replied to Mr. Power's speech, and compared it to dancing on a tight-rope. He spoke of Power as balancing between Orangemen and Whigs. He approached Mr. Power for deserting his party. He said Government was in league with the Orangemen, and concluded with describing Lord Rosemore, as a "bigoted, malevolent young pup." Mr. Justin McCarthy accused the Orangemen of seeking to involve the country in civil war. The House was full, and Mr. Power's onslaught upon the Parnellites caused great sensation.

AN OLD BLAKE TRICK.

The Independent Montreal Star in some remarks by its Ottawa reporter on the failure of Mr. Blake's efforts to induce the French-Canadian members of the House of Commons in a body, severely but truthfully says:—"It must be remembered that Mr. Blake tried the same trick about twelve years ago, when he broke up the then Ontario Government by coaxing Mr. E. B. Wood, the Provincial Treasurer, into the Opposition, of which he was a prominent member."

BERLIN, Feb. 20.—The Official Gazette to-day publishes a communication of Bismarck to Von Elsenrecker, directing the return to the House of Representatives of the League resolutions. The text of the letter is as follows:—"Any recognition in a foreign country of the personal qualities of a German, especially when made by so important a body as the House of Representatives, is gratifying to our national feelings, and I should have gladly accepted the communication made by Minister Sargent, and should have asked the Emperor to empower me to present it to the Reichstag, if the resolution had not contained an opinion regarding the object and effect of Herr Lasker's political activity, which was opposed to my own convictions. According to my experience of the political-economic development of the German people I cannot recognize the opinion as one which the events I have witnessed would justify."

Meeting of the National League. At a meeting of the National League in Dublin Michael Davitt said the Parnellites members of Parliament had done their duty in voting against the Censor Government in the division on Sir Stafford Northcote's motion. Davitt said the generous welcome accorded the Redmonds in America impelled the League to praise their efforts in behalf of the national cause.

SALE OF THE

TOWN PROPERTIES

OF THE

LATE DAVID CARLISLE.

In the High Court of Justice,

CHANCERY DIVISION.

Re CARLISLE Infants.

IN PURSUANCE of an order of this Court made in

this matter the first day of December last, the following

land is to be sold by public auction, with the approbation

of C. A. Waller, Esq., Master, at his Chambers, in the

Town of Peterborough, on

Monday, the 17th Day of March

1884, at 2 o'clock in the afternoon, the following lands:

PARCEL I.

Part of Lot 2, North of McDonnell Street and East

of Water Street, in the said Town of Peterborough,

described as follows:—Commencing at the southeast

angle of the said lot and running northerly along the east

line of the said lot, a distance of 600 feet or less to the

centre of the said lot, thence westerly in a line parallel

with the northern limit thereof fifty-seven feet more

or less to the centre of the said lot, thence northerly

in a line parallel with the eastern limit of the said lot

to the southern limit thereof, thence easterly along the

said southern limit to the place of beginning. There

is erected upon this parcel a large and commodious

two-story house, veneered with white brick, a stable

and wood shed, protected on the north by a brick fire-

wall. The house contains nine rooms, besides pantries

and closets. This property, which is a corner lot,

within five minutes' walk of the Post Office, is at present

leased to Melville Miller, Esq., whose tenancy thereof

shall be an option, at the option of the purchaser—

either from year to year, commencing upon the first day

of October, 1884, at a rental of \$200 a year, or

definite term of three and one-half years from 1st April

next, at a rental of \$50 for the first half year, and \$200 a

year for the remaining three years; in any case the

rent to be payable monthly or quarterly, as the pur-

chaser's option, the landlord to pay all rates and

taxes, and to be entitled to possession from the 1st

April next, subject to such tenancy.

PARCEL II.

Parts of Lots 1 and 2, according to plan of subdivi-

sion of the South Half of Lot one, east of the Com-

munication Road, and of Lots 15 and 16, in the first

Concession of the Township of Smith, made by S. E.

Clement, P.L.S., and registered in the Registry Office

for the County of Peterborough, on the 16th day of

January, 1883, particularly described in the petition

filed in this matter, which description can be obtained

on application to the Vendor's Solicitors. These parts

together comprise the property occupied by the late

David Carlisle, as a homestead. On this parcel there

is erected a large two-story house, veneered with

white brick, containing six large rooms and a small

one, besides pantries and closets, heated by a hot air

furnace. There is also on the premises a stable and

wood shed. There is a good garden, planted with

young apple, pear and plum trees, and the usual small

fruits all in bearing.

These lands will be offered for sale in two parcels as

above described. If the bidding on Parcel I does not

reach the reserved bid the portion of Lot two, accord-

ing to said plan having a frontage of about 33 feet on

Burns Street, will be offered separately in one parcel

and the remainder of the land comprised in said parcel

two, in another parcel. There will be a reserved bid

on each parcel offered for sale.

TERMS OF SALE:—Ten per cent. of the purchase

money to be paid at the time of sale and the

remainder within thirty days thereafter, without in-

terest. Further particulars may be obtained on ap-

plication to C. A. Waller, Esq., Master, or to

Messrs. Foussette & Rogers, Vendor's Solicitors.

Dated the 18th day of February, A. D. 1884.

THE BLAKE TACTICS.

As Mr. Blake has denied in the House of Commons that he made any overtures to French Canadian Conservative members, we must of course accept his denial. It is also certain from Mr. Oulmet's statement, for himself and the members acting with him, that no such overtures were made to them.

It therefore appears that when the *Globe* professed to make in Mr. Blake's name a disgraceful and corrupt offer to the French Canadian Conservative members, that if they assisted in defeating the Macdonald administration they would obtain from Mr. Blake what they claimed, the leading Reform journal was speaking falsely and without authority. This is a matter, however, of comparatively slight importance, for the public has long ceased to expect truth or honesty from the *Globe*, if falsehood and dishonesty will serve its purpose for the moment. The meaning of the article is indubitable; as to that Reform and independent journals coincide with us!

But this very unpleasant incident throws a lurid light upon Mr. Blake's peculiar political tactics, for which he has previously obtained an unenviable notoriety. Mr. Blake was not averse to uttering a repudiation of any complicity in the disgraceful attempt of the *Globe* to corrupt a whole Province, but he only did so after the attempt had failed and he could derive no benefit from it. Mr. Blake knew that a foul attempt had been made by the leading organ of his party to debauch the members from Quebec; he knew that the foul offer had been made in his name; he had abundant opportunity to repudiate the criminal complicity with which he was thus authoritatively credited, for he was not only in the House but he even addressed it, yet he did not utter a word to clear himself from the imputation of such baseness or to counteract the effect of this corrupt offer while he could do so effectively. He endured the imputation with patience—he allowed his asserted offer to remain uncontradicted—still the divisions were over and the resolutions were adopted. In it not evident that although he did not make these corrupt overtures himself, he was quite willing to profit by them; that he was ready to benefit by the crime, if it had been successful, and was very careful not to thwart it? That it did not succeed was due to the honour and probity of the Quebec members, certainly not to the honour and probity of Mr. Blake.

It is said that the leader of a party should show himself in such a light, and if his previous record had been clear, people might have been tempted to believe the impossible and to suppose that he had not seen or heard of the *Globe* article which so sullied his honour. But it is not the first time in Mr. Blake's political history that he has shown himself ready to profit by vile treachery or base ingratitude, making no effort to disavowance such dirty work but placidly accepting the benefit accruing to himself. People have not forgotten the fate of Mr. J. Sandfield Macdonald, of Mr. Alexander Mackenzie, of Mr. Gordon Brown.

Protection with a Vengeance.

It protects the manufacturer, but it injures you by inducing other artisans to come in and compete with you. There is no duty on labor." Workingman: "And how would you protect me?" Free trader: "O, we would close the factory, and have the manufactured goods imported." Workingman: "Yes, that would be protection with a vengeance!"—*Hamilton Spectator*.

ONTARIO LEGISLATURE.

FIRST SESSION OF THE FIFTH LEGISLATIVE ASSEMBLY OF ONTARIO.

The Budget speech—A Deficit of more Than Half a Million—The Aid of the Dominion Invoked—Eating up our Capital.

On Thursday a number of bills were introduced and read a first time.

THE BUDGET.

Mr. A. M. ROSS began his financial statement by excusing himself on account of his unnecessary recent assumption of office. He gave in detail the receipts for 1883 as amounting to \$2,439,941.42. Referring to some of the items he dwelt especially on the diminished receipts from woods and forests and Crown Lands as accounting for the deficiency of revenue. Then he gave in detail the expenditure as amounting to \$2,887,087.73 thus showing a deficit of \$447,096.31 for the year. He admitted that in several items there had been an over expenditure, but he agreed that as this was chiefly for public works and public institutions the increase was unavoidable. Then coming to the assets he made them \$4,740,654.96 including trust funds, &c., &c. The liabilities he placed at \$356,413.03, (not including our railway obligations), thus showing an apparent surplus of \$4,384,241.93.

He next discussed the claims upon the Dominion Government explaining that the settlement with the Province of Quebec and Canada was not yet complete. The Commons School Fund he contended should not be held in trust for the two provinces by the Dominion, but they should be withdrawn and applied to the public service of the Province as soon as its necessities required it. He claimed also a million dollars from the Dominion for debt that should have been assumed and for interest. He also contended, as he said Quebec was doing, that interest since confederation on the further provincial debt assumed by Canada in 1873 should be allowed, which would give Ontario another two millions and a half. He objected to a claim by the Dominion in reference to the extinguishment of Indian titles north of Lake Superior and south and east of the Height of land. As to the surplus he gave amounts as stated in the budgets of the last 13 years, showing they vary considerably, which he attributed to the greater or less amounts received from the forests. To the criticism that this was only turning our property into cash, he asserted that otherwise it would be destroyed by fire, and the proceeds had been spent on railways. Their Crown Lands were far from exhausted, and the C.P.R. would open up valuable forests. They had still 20,000 square miles of valuable forests worth \$500 a mile. As to the increase of expenditure he was only \$57,000 more last year than ten years ago, though in answer to a remark by Mr. Meredith he admitted that the item for public buildings was much less now. The Dominion expenditure had increased 50 per cent. It was true it was larger, but so was the Province. The receipts were not increasing but remained stationary. He argued that there had been no extravagance because the money had been returned to the people. Then he has the usual Reform fling at Quebec, ignoring the greater municipal expenditure in Ontario. He also went at wearisome length into the expenditure under Banfield Macdonald, whom he accused of parsimony, though he was so loudly blamed for extravagance, by the Reformers of his day. He contended that the Dominion subsidy, being a fixed sum while our population and the Dominion Revenue were increasing, and referring to the Quebec claim for a larger grant, urged a similar claim for Ontario. The estimated expenditure of 1884, he said, exceeded that of 1883 by \$27,000, which he promised would not be exceeded, being too new a treasurer, apparently, to have heard of supplementary estimates. One item he gave was \$36 for arrears of *Colonization Road*. The *Roads* he estimated at \$2,604,669.42. This includes \$200,000, or more than double from liquor licenses obtained by increasing town taverns and shops from \$50 to \$110, townships from \$50 to \$75 and so forth. He proposed a change in the railway subsidies by taking up the certificates falling due by new certificates spreading the payments over 40 years, increasing by \$13,000 a year to \$155,000, at which they would remain till the end of the 40 years, he admitted that he was providing for another annual deficit of \$4,000 (without the supplementary estimates), and he invited praise for his straightforward course. After boasting of all the great things that the Administration had done for the people (with their own money), he again dwelt upon his hopes of windfalls to meet expenditure. These were chiefly the back interest on the debt assumed by Canada which he hoped to obtain from the Dominion, and the forests in the disputed territory which he hoped to turn into cash.

Mr. CROFTON said it was very evident from the Treasurer's statement that they were not going to make both ends meet. As to the increased revenue from licenses he believed that was not what the temperance people wanted, but to decrease the number of licensed houses. He showed that the admitted \$91,000 over expenditure was not the total amount. As to their economy they had spent, as he showed, over a million and a quarter from their capital on current expenditure. He contended that though some of the funds in the hands of the Dominion should be paid to them in cash, this did not apply to the Common School Fund, and showed how it would not be to our benefit to claim it. Though the Treasurer pretended to disclaim these liabilities from the surplus, he did not take into account, as he should have done, their railway liabilities, which could only be met by selling more of their real estate, or encroaching further upon the surplus. He explained clearly how unfair was the comparison with Quebec under the different circumstances. The comparison with the Dominion he showed was equally erroneous. As to Colonization Roads, he complained of the manner in which the appropriations were wasted both very inadequate, and said that the Opposition could do nothing to check this from the necessary information being withheld. Their position was very serious, as it was admitted that their surplus was being rapidly dissipated.

Mr. McLAUGHLIN moved the adjournment of the debate.

Referring to the Public Account for last year the *Hamilton Spectator* says:—The outlay for colonization roads was \$123,497; but it will be remembered that 1883 was an election year, and there will not be the same need for expenditure this year. The outlay on account of crown lands was greater than the receipts. But crown lands expenditure is heavy in election years also, so much "forest razing" is required.

It is interesting to notice that while the election expenses in average constitencies were from \$600 to \$700, in Muskoka they reached the sum of \$5,300. The figures for Algoma are not given. Probably Mr. Mowat thinks he has given the country as much as is good for it, and that information concerning Algoma can wait.

TOWN PROPERTIES

OF THE
LATE DAVID CARLISLE.

In the High Court of Justice.

CHANCERY DIVISION.

Re CARLISLE Infants.

IN PURSUANCE of an order of this Court made in this matter the 21st day of December last, there will be sold by the auctioneer, with the approval of C. A. Weller, Esq., Master, at his Chambers, in the Town of Peterborough, on

Monday, the 17th Day of March

1884, at 2 o'clock in the afternoon, the following lands:

PARCEL I.

Part of Lot 1, North of McDoull Street and East of Water Street, in the said Town of Peterborough, described as follows:—Commencing at the southeast corner of the said Lot, thence northerly along the eastern line thereof for 100 feet more or less to the centre of the said lot, thence westerly in a line parallel with the northern limit thereof fifty-seven feet more or less to the centre of the said lot, thence southerly in a line parallel with the eastern limit of the said lot to the southern limit thereof, thence easterly along the said southern limit to the place of beginning. There is erected upon this parcel a large and commodious two-story house, veneered with white brick, a stable and well shed, protected on the north by a brick fire-wall. The house contains nine rooms, besides parlour and closets. This property, which is a corner lot, within five minutes walk of the Post Office, is at present rented to Mr. W. J. Morrow, and is situated as follows:—At the option of the purchaser, either from year to year, commencing upon the 1st day of October, 1884, at a rental of \$200 a year, or a definite term of three and one-half years from 1st April, next, at a rent of \$300 for the first half year, and \$300 a year for the remaining three years; in any case the rent to be payable monthly or quarterly, as the purchaser's option, the landlord to pay all rates and taxes, and to be entitled to possession from the 1st April next, subject to such tenancy.

PARCEL II.

Parts of Lots 1 and 2, according to plan of subdivision of the South Half of Lot 1, made by the Commission Road, and of Lots 15 and 16, in the first Commission of the Township of Smith, made by T. H. Clement, F.L.S., and registered in the Registry Office for the County of Peterborough, on the 14th day of January, 1880, particularly described in the petition filed in this matter, which description can be obtained on application to the Vendor's Solicitors. These parts together comprise the property occupied by the late David Carlisle, as a home, and on this parcel there is erected a large two-story house, veneered with white brick, containing six large rooms and one small one, besides parlours and closets, heated by a hot air furnace. There is also on the premises a stable and wood shed. There is a good garden, planted with young apple, pear and plum trees, and the usual small fruit all in bearing.

These lands will be offered for sale in two parcels as above described. If the bidding on Parcel 2, does not reach the reserve bid the portion thereof, according to mid plan having a frontage of about 25 feet on Benson Street, will be offered separately in one parcel and the remainder of the land comprised in said parcel 2, in another parcel. There will be a reserved bid on each parcel offered for sale.

TERMS OF SALE:—Ten per cent. of the purchase money to be paid at the time of sale and the remainder within thirty days thereafter, with interest. Further particulars and conditions of sale may be had on application to C. A. Weller, Esq., Master, or to Messrs. Fournette & Roger, Vendor's Solicitors. Dated the 15th day of February, A. D. 1884.

DAIRYMEN IN COUNCIL.

SEVENTH ANNUAL CONVENTION OF THE
EASTERN ONTARIO ASSOCIATION.

THURSDAY MORNING.

The Convention resumed at 10 o'clock on Thursday morning.

Mr. DALY, Treasurer, read his report, which showed that the receipts during the past year amounted to \$1,963.90, and the expenditure to \$1,968.33, leaving a balance on hand of \$285.57. The financial statement was certified to be correct by the auditors, Messrs. F. H. McCrea and J. S. Hamilton.

The report was received and adopted, on motion of Mr. Morgan, seconded by Mr. Wade.

Prof. ROBERTS addressed the convention on "Better Methods." Just now the efforts to improve the dairy were in the direction of increasing the yield. This was well, but improvements in other directions should receive attention. Farming required a diversity of industry. Their motto should be to spend little and always have something to sell, and their method to keep everything employed all the year round. If one product did not pay, efficiently, diversify and cultivate other things. The wheat yield in Seneca County, N.Y., had fallen off, and the value of the farms had depreciated \$30 per acre. Some farmers were wise enough to diversify, by raising sheep and cattle, and they had succeeded. He then gave an outline of his methods of farming on the Cornell University farm, to illustrate his ideas of diversified farming. The farm contained 156 acres. From May to December the receipts from milk amounted to \$3,947.56, and from milk, beef and calves, for 19 months, \$6,364.80. The gross receipts from live stock and their products were \$6,600.92, and the profit on live stock, \$6,307.42. Cotton seed meal was the best fertilizer, and when fed to cows giving milk the manure was a valuable fertilizer. Wheat bran as a fertilizer was worth \$15 to \$17, and after fed the manure was worth \$13. They did not pay enough attention to the manure of their cows. The manure of the milch cows of Ontario during the six cold months of the year, if properly fed, would be worth twice as much as their milk. He referred to the satisfactory result of careful cultivation, and the use of manure from cattle liberally fed, at the University farm. The manure was kept under cover, and they controlled its temperature and moisture. The university dairy farm was conducted for the purpose of experimenting, enriching the soil, producing milk, beef and cattle. He explained the methods of the Hollanders in keeping their dairy supplied with the best cattle, by not raising too many and only the best. There should always be plenty of carefully selected young cows coming on to take the place of the discarded ones, and good cows could be raised cheaper than they could be purchased. The true way to improve the dairy cattle was to breed from good cows and thoroughbred sires, and to select the poorest to dispose of. The gross receipts from their best cows was \$160, and it cost on an average \$60 to keep the cattle, while the poorest cows only yielded \$40, and the poor cows were soon sold. A farmer should keep a strict account, so that he could tell just how much he made and how he made it. The secret of success was to follow up the successes. Find out what succeeded, and then follow that up keenly. He urged them to pay more attention to the pastures, and to get more money in the land, which was a good bank.

After remarks from Messrs. McPherson, McCrea, and Clarke, the Convention adjourned until 2 o'clock.

THURSDAY AFTERNOON.

At the afternoon session on Thursday the nominating committee presented their report, recommending the following officers:—

PRESIDENT.—D. Derbyshire, Brockville.
VICE-PRESIDENT.—D. Vandewater, Foxboro.

3rd VICE-PRESIDENT.—Thos. Walker, Wellman's Corners.

BOARD OF DIRECTORS.—No. 1 Division, D. McPherson, Lancaster; No. 2 Division, J. Morgan, Maitland; No. 3 Division, Jas. Bissell, Algonquin; No. 4 Division, J. H. Hargrett, West Huntingdon; No. 5 Division, H. H. Hargrett, West Huntingdon; No. 6 Division, Henry Wade, Toronto.

AUDITORS.—James Hamilton, Belleville, and F. McCrea, Spring Valley.

After considerable discussion the report was adopted *in toto*.

Mr. DEBENTHAY thanked the members for the confidence they had shown in him by electing him to the position of President.

Mr. McPHERSON read the report of the committee appointed to examine the butter exhibited by Prof. Brown, which was produced during the test at the Experimental Farm. The examination was made by the committee on the age of the butter, but the butter produced on the road and grain feeding was in their opinion the best.

Mr. F. HENRY read a report from the business committee recommending that Association instructors be requested not to compete for prizes offered for the best cheese by the Association.

The report was adopted.

The Rev. W. F. CLARK of Spesside, Ont., addressed the convention on "Mistakes in Dairy Farming." He said that besides for novices should be repressed until all known mistakes had been corrected, and well known methods reduced to practice. The first mistake he referred to was that of getting into dairying with the idea that it was an easy way of getting a living. A dairy farm needed great industry. The second mistake was going on the cheap principle. The motto of the dairy farmer should be "Get the best,"—the best cows, the best fodder, the best stables, the best milk pails, the best milkers, the best cans, the best factories and the best prices. A good cow, although its first cost was more than that of a poor cow, did not cost any more afterwards. If a first-class cow cost \$100, the interest on that would be \$6 per annum. She will easily give \$20 a year profit over and above what can be obtained from a \$25 cow. Forty such cows were worth \$600 a year more to their possessor than forty scrubs. He gave the following description of a good cow, irrespective of breed:—Fine horns, small head, bright eyes, slim neck, fine bones, a smooth complexion, large bag, prominent milk veins, soft hair usually, and a blonde complexion. Poor cows were unprofitable. Proceeding to consider the best fodder, he gave the following list:—Permanent pasture, carefully seeded with the most nutritious grasses in a sufficient variety to give a toothsome bite from early spring till late in the fall; green soiling feed of some kind for the summer draughts; first-class well-cured hay (chiefly clover), cutlage, beans, a sprinkling of meal and a taste of carrots and mangolds. He called attention to the great value of clover for food and its high manurial qualities. Clover left on the field after cutting and gathering the crop was equal to twelve loads of barnyard manure per acre for fertilizing. To remedy soil exhaustion clover culture should be adopted. The third mistake was "slipshod" farming. It always paid well to take pains. The waste of manure was the fourth mistake, chiefly arising from exposure to weather instead of being covered. It had been ascertained by

experiment that covered manure brought a crop of potatoes from four to five tons per acre larger than the same quantity of uncovered manure. Carrying manure to the fields in winter meant loss. Every time manure was handled valuable properties passed into the air. Raked fallowing was a great mistake; it was but labour, even for the destruction of weeds. It would be better to seed a dirty piece of ground to clover. Land had been thoroughly purged by two years clovering. It was also an error to think that dairying could be successfully carried on without brains or without the study of books, agricultural papers, and the acquiring of intelligent methods. Associations like these were good schools, and none should fight shy of them. He paid a tribute to the memory of F. A. Willard.

Prof. BARNARD, Director of Agriculture, Quebec, read a paper on the "Past, Present and Future of Commercial Dairying in Canada." While the cheese investing had improved, and the exports had increased, the butter trade had remained at a standstill. Before Confederation Canada exported 13,104 lbs. of cheese, the value being \$1,497. This had increased to \$6,451,870 and 58,041,387 lbs. in 1883. The butter trade, however, gave no reason for congratulation. Before Confederation the Province of Canada exported butter to the value of \$480,712 (3,721,500 lbs.) in 1872, the value of butter exported was \$3,612,699 (19,068,448 lbs.), and in 1883 it had fallen to \$1,705,817 (8,106,447 lbs.). One reason for this change was the improvement in cheese making in Canada and the profits arising therefrom. Although the butter trade of this country had stood still, that of other countries had advanced. Denmark showed an increase in exports to the same markets of over 100 per cent, and the same was true of other foreign countries. It could not be said, therefore, that there was no market for the butter, and the true reason was that the quality of the butter was inferior.

He gave figures to show that the consumption of cheese had not increased in Great Britain during the past four years, and that, therefore, Canada was crowding the United States closely in the English markets, if the production of cheese was increased someone would have to suffer. An improvement in butter had been brought about in Quebec by the establishment of butter factories, and other means. He referred to the many advantages to be gained by, and the profits to be derived from, better dairying, and urged a more thorough and systematic development of the system in all its branches. He stated that Prof. J. B. Harris was going to Scotland next Saturday as an instructor in cheese, and it would cost little more to send him to the continent when his engagement in Scotland had ceased, to gather agricultural information for the benefit of Canadian dairymen.

A resolution was submitted asking the Dominion Government to grant aid for the purpose of proceeding to the continent, and was adopted.

Mr. ALEXANDER contended that there was no danger, at least an immediate danger, of overproduction of cheese.

Prof. ROBERTS argued that when the price of the products of the farm were high, the country was prosperous. He made some remarks on the paper read by the Rev. W. F. Clark. His favored "green summer following," at any rate it was preferable to the bare summer fallow.

Considerable discussion followed on the subject of fallowing and manuring.

The report of the Committee on Dairy Utensils was read, giving their opinion of utensils shown to them.

The Convention then adjourned until 2.30 o'clock.

THE use of False Hair by ladies is a most disagreeable practice. By the use of Clingless Hair Renewer the color of the hair is rendered natural and beautiful. Every lady should use it, and to gentlemen whose hair is growing thin it is a necessity. Sold by J. D. Tully.

MARQUEZ TERRE, the Chinese Ambassador, stated to Earl Granville on Thursday that a French attack on Hainan would be considered by China as a declaration of war, and that the Chinese embassy would be immediately withdrawn from Paris.

So many write us of the merits of Zepora, from the West Canada, the East and at home; they write of being cured of Liver Troubles, of Urinary Troubles, Chronic Headaches, etc., but we cannot publish them—any drug store keeps 20-pc-ss. Ask J. D. Tully.

SINGERS and public speakers are always benefited by using Down's Elixir, as it removes the hoarseness and increases the power of the voice. Take small doses often. Price, 25c, 50c, and \$1.00.

A BANKER'S TESTIMONY.—For a Cough, Cold or any Bronchial affection, "Pectorina," in my opinion, is just the thing. I have used it in my family for Coughs and Colds for the past four years with the most unvaried success, and today my opinion of it is that I continue to think still more of that which I began thinking well of. DR. PINGEL,
CATARRH SPECIALIST.

Unparalleled Success has followed a new method of treatment, which, though simple, is so efficacious as to render CATARRH OF TEN YEARS' STANDING as curable as the simplest disease of the human body. The assertion that every case so far has been

CURED PERMANENTLY

In a few weeks, is made without fear of contradiction. See what a Sufferer of Ten Years says:

DEAR SIR,—In regard to my catarrh I can say after about four weeks treatment that I am entirely cured, after being troubled for more than ten years with all the worst symptoms of catarrh of the head, such as splitting of blood and matter, which dropped from my nose into my mouth—morning with dozing my nostrils, loss of smell, which has now returned, pain in my head, rendering me almost stupid, which disappeared in two weeks after commencing your treatment. Having cough, &c. From my experience of catarrh, I consider your mode of treatment the best in existence. Hoping that all may receive the same benefit. I remain, yours, SARAH DUNN.

Free and Painless Examinations of the lower portions of the nose by the most improved instruments of the age. Will be at Grand Central Hotel, Peterborough, 5th to 7th March.

Persons at a distance can be treated by sending a letter, describing symptoms, to Dr. Pingel, Toronto. 645-76

Daily Evening Review

MONDAY, FEBRUARY 25, 1884.

LOCAL NEWS

The Market.
A meeting of the Market Committee of the Town Council will be held on Tuesday afternoon, regarding the market tolls for the ensuing year.

The Town Council.
A regular meeting of the Town Council will be held at 7.30 o'clock this evening, in the Council Chamber. On Tuesday evening a special meeting of the Council will be held in regard to the market tolls for the ensuing year.

Signed the Fridge.
Several of the prisoners who have been committed to goal during the past month or two for drunkenness signed the Young Men's Christian Association temperance pledge book, the goal having been visited for the purpose of persuading them to give up drink.

A Thaw.
The weather probabilities for this district for the following twenty-four hours, counting from one o'clock this morning, as reported from the Toronto Observatory, are as follows:—Winds mostly south and south-west, cloudy to fair, milder weather, with light rain in some localities. There is every appearance of a thaw.

Foresters' Entertainment.
Court Peterborough, of the Canadian Order of Foresters, will celebrate its anniversary by an entertainment in the Hall, on Wednesday, February 27th, at 8.30 p.m. There will be some excellent vocal and instrumental music and recitations after the tea, with which the proceedings will commence. The members of Court Little John and Court Lakeside with their friends are expected.

"Under the Gauntlet."
Tavernier's New York Comedy Company presented "Under the Gauntlet" to a small audience in the Opera House on Saturday night. The company did not appear to be good advantage in this play as in the two previously given. Miss Ida van Cortland is the life of the company, and in "Under the Gauntlet" she did not have so good an opportunity of showing her rare powers as an actress. The best scene was undoubtedly that of the rescue of the locomotive, and it was loudly applauded.

Street Franchising.
On Saturday evening at about eight o'clock an elderly gentleman attracted a crowd on the corner of George and Simcoe streets by taking a position on a snow bank and, with unswerving head, addressing all who stopped to listen on "religious topics. He was a Mr. Beckville, from near Fort Hope, and in a few understand, not connected with either the David or Salvation Armies, but in sympathy with them. At the conclusion of the address, Constable Pidgeon advised Mr. Beckville to go on the market square the next time he wished to hold an open air meeting, as a blockade on an important corner was undesirable on Saturday evening. When Mr. Beckville had concluded his address, a member of the Young Men's Christian Association invited the young men to the rooms of the Association.

Pedestrianism.
On Saturday night a running race took place between M. Bird and R. McGregor, in the drill shed, said to be for \$25 a side. Bird gave McGregor a start of one hundred yards, and the distance was one mile. Mr. T. McNaughton acted as referee. There were very few spectators present. The ring in the drill shed is about 100 yards, and seventeen laps make the mile. McGregor having one hundred yards of a start, took up a position about three yards behind Bird, and Bird to win the race, would have to pass him before he ran sixteen laps. They started shortly after eight o'clock. At the finish of the first lap each held his position; during the second round Bird gained a little, but he lost in the fifth round what he had gained in the previous ones. At the conclusion of the sixteenth round Bird had not gained a foot on his opponent, and McGregor was declared the winner of the race.

Bow & Co., Burton-on-Trent. India Pale Ale now on draught, at Chamberlain's Restaurant—direct importation.

BURTON'S PUNISHMENT.

Sentenced to One Year in the Central Prison—No Reductions His Sentence.

Wm. Burton was at noon to-day brought before His Honor Judge Dennistoun to receive sentence for having assaulted and robbed Mrs. Martha Rogers.

Mr. WELLES, County Attorney, moved for the sentence of the Court.

The JUDGE asked the prisoner whether he had anything to say before sentence was passed upon him.

The PRISONER—"I am not guilty. She swore to the wrong man, sir."

The JUDGE said that he was very sorry to see a man of such a respectable appearance in such a position as the prisoner was now in. (The PRISONER—"I am not guilty.") It was necessary that the people of the town could feel that their wives and daughters could walk the streets in safety, and for that reason he could not make the sentence a light one. The judgment of the Court was that the prisoner should be confined in the Central Prison for one year.

The prisoner was then taken back to the goal.

The Temperature.
The spirit in the Rev. V. Clement's thermometer on Saturday night sank to 14° below zero, and on Sunday night the thermometer registered 4½° above zero.

Best Value in Oysters.
We are still receiving those large delicious oysters from Baltimore regularly by express, which we can sell on the best terms. Close prices given to the trade. Call and get our quotations before buying. CARTON BROS.

Venue's Predictions.
The probabilities for this week given in Mr. Venue's almanac are as follows:—
"Some low temperatures; probably the commencement of a cold week, with generally winter weather, particularly westward and northward, ending in stormy weather and snowfalls a day or two prior to the entry of March. March enters this year with general storms and more wintry weather."

Personal.
The Rev. Dr. Rice, who was to have preached the annual educational sermon in the Methodist churches on Sunday, missed the train at Toronto and therefore was not present. The Rev. John Shaw supplied the vacancy in the George Street Church, and the Rev. Thos. Manning in the Charlotte Street Church, each delivering effective sermons. The pulpit of the Charlotte Street Church was occupied in the evening by the Rev. Mr. Loch, of Victoria University.

Carltons.
A curling match is being played on the Peterborough rink this afternoon between members of the Peterborough club and the Granite Club, of Toronto. The following members of the Granite Club arrived at noon on a special car: Messrs. B. Jaffray (Director Midland Railway), Walter Taylor, James Hedley, Wm. Lawrence, W. O. Thorburn, C. J. Munroe, A. B. Lee, H. S. Alexander, C. C. Dalton, Thomas Brown, D. McEwen, A. Bagram, J. E. Hodgson and George Munson. They registered at the Oriental Hotel.

Reserved Prizes.
We take the following extracts from the Lindsay Post's notice of the St. Mary Church Choir Concert, held in Lindsay:—
"Miss Begley, of Peterborough, shared the honors of the evening with Miss O'Carroll, of Belleville. Miss Begley was a former resident of Lindsay, and Miss O'Carroll is intimately known to many of our townspeople. Miss Begley was heartily cheered, and in reply sang 'Watching for Me.' This young lady is a clever singer and a deserved favorite. Mr. G. Bell, a favorite Peterborough tenor, gave two familiar songs and was well received. Mr. Bell has a splendid voice and sings in a hearty, manly way that is always acceptable and ensures his recall. The Indian club swinging would be an attraction on the bill of fare of the best professional company. He is a graceful artist and has a thorough command over his specialty."

The Evening Sky.
A scientific periodical says:—
"The four great planets, Venus, Mars, Jupiter and Saturn are now all above the horizon at once. To add to the brilliancy of the spectacle, this takes place at a time when Orion, Taurus and others of the brightest constellations are near the meridian, and nine stars of the first magnitude above the horizon. An additional point to possessors of telescopes is that Saturn is approaching both his perihelion and the point of greatest evening of his rings, and is therefore in that part of his orbit most favorable for study. About the middle of April an addition will be made by the simultaneous appearance of Uranus, Neptune and Mercury, so that all eight of the major planets will be visible at the same moment. Of course a telescope will be required to see Uranus and Neptune, but the six others will be visible to the naked eye."

Royal Hand Bell Ringers.

The Montreal Witness of Feb. 25th says:—
"This very excellent combination of bell, voice and gesture gave a representation in the Queen's Hall last evening of their method of making melody. At a table with one hundred and thirty-one bells before them stood the performers, Mr. Duncan S. Miller leading, and the pieces played varied from the ordinary church chime to the operatic selection. The 'Turkish Patrol' was exceedingly pleasant and the selections from Scottish airs both interesting and amusing. The air 'How Lonesome About the House' seemed to wake up the sportive element of Mr. Miller's musical genius, and his gestures, suited action to the notes, were often very funny. The vocal quartette selections had an air of the grotesque about them, as well as being evenly balanced and fairly sung, and altogether there is perhaps none of the popular musical exhibitions more easily understood or more commendable to the public support than the Royal Hand Bell Ringers at the Queen's Hall."

This Company will appear in Bradburn's Hall on the evening of Friday, Feb. 28th. Reserved seats may be obtained in A. L. Davis & Co.'s booklets.

"Her West" Cream Ale.
The finest and best Ale made in Canada on tap at the Croft House.

Funeral of the Late A. W. Lander, M.P.P.
The funeral of the late Mr. A. W. Lander, M.P.P., took place from his late residence, "Ardnaculoch," Parkdale, to Mount Pleasant cemetery on Saturday. The streets in the neighbourhood were thronged with vehicles for some hours before starting. Although the residence of deceased is some distance from the city a number of prominent citizens were present. Besides all the members of the Opposition who were in the city, a large representation from the Ministerial party attended to pay the last tribute of respect to the memory of the deceased. Hon. Mr. Hardy and Hon. Mr. Pardee, the only members of the Government in the city, were among them. These were also present a number of relatives and friends from a distance. The pall bearers were Hon. T. B. Pardee, W. B. Meredith, M.P.P., H. E. Clarke, M.P.P., Dr. Barker, M.P.P., John Chisholm, W. Goodenham, Edward Garvey and Walter S. Lee. The stores along the route in Parkdale were all closed, as well as many of those on Queen street in the city. On arriving at the Metropolitan Church—which was heavily draped in crape—Rev. Hugh Johnston delivered a touching eulogium upon the deceased. At the close the cortege reformed and wended its way to Mount Pleasant cemetery, where the remains were placed in the vault.

Proposed Industrial Congress.
A call has been issued for a mass convention of people interested in all industrial interests in the United States to be held in Chicago, May 31st, for the purpose of organizing a national industrial congress. It is intended to hold an expedition in connection with the congress.

Cured Free.
Any reader troubled with Dyspepsia, Constipation, Headache, Liver Complaint, etc., should call at John McKee's Drug Store, and secure a trial bottle of McKee's Speedy Cure at once which will convince you of the merits of the medicine. It cures permanently where all other medicines failed. As a blood purifier it has no equal. Remember it costs nothing to try it. Regular size, fifty cents and one dollar.

Bewker's Ammoniated Food for Flowers.
Plants like children, require constant attention, this done and they will grow and delight the whole household. To enable all lovers of flowers during winter months to enjoy this, nothing has yet been discovered equal to the "Ammoniated Food for Flowers," sold by J. A. SIMMONS, SEED MERCHANT, TORONTO. Price 35 cents per package, post prepaid. Try it, and success is certain.

Answer this Question.
Why do so many people we see around us seem to prefer to suffer and be made miserable by Indigestion, Constipation, Distress, Loss of Appetite, Coming up of the Food, Yellow Skin, when for 75c we will sell them Shiloh's Vitalizer, guaranteed to cure them. Sold by J. D. Tully.

REPORTS received at Washington indicate that the ice is coming down from the Arctic much earlier than usual. This is regarded as favourable for the Greeley relief expedition.

"Hub" Cough Cure, 25 Cents.
Prescription of a Boston physician, dispensed years by a Boston Druggist. One dose will cure any ordinary cough. It acts almost magically. Ask J. D. Tully for a 25 cent bottle of Hub Cough Cure.

WASHINGTON'S birthday, being a legal holiday, was observed as such in New York. Business was generally suspended. Reports from all parts of the country show that the celebration was more general than usual.

Notice to Builders
TENDERS will be received up to THURSDAY the 28th inst. for the erection of a BRICK DWELLING HOUSE for William Robertson, Esq., at Banford. Plans and specifications may be seen at the office of John E. Schuber Civil Engineer and Architect. 2447

WE'RE THE LEADERS IN LOW PRICES.

There is a maxim which reads, that "Money saved is money made."

This principle applies to business as well as in dividends, and it is the money saved by buyers at DOLAN'S that makes the place the bargain depot of the town.

For years we have been to the front with low prices, and full values, and now we are offering at our clearing out sale a PERFECT BONANZA.

Low prices have brought us success in the past, and we intend to keep on. We give you more for your money than your cash can buy in any other Dry Goods house in town.

You can always save money by buying where good business system allows and makes low prices.

Will visit the following places again:—
LINDSAY—Benson House, Feb. 25 & 26.
PETERBOROUGH—Calves House, Feb. 27th, 28th and 29th.

Prof. Hotchkiss' treatment is practical, rational and economical. Its object is immediate relief and eventual cure. It is based on scientific principles and easily demonstrated to the comprehension of every intelligent person, that a truss without steel springs or hard substances, having healed inguinal and Umbilical as well as Varicose, at the advanced ages respectively of from 65 and 90 years, must and will stand the test against all Spring Trusses to children as well as adults. Prof. H. having had 30 years experience has become master of his profession, and DEFIES the Hernia he cannot hold in its place.

TUESDAY, FEBRUARY 26, 1884.

SHIRKING THEIR BURDEN.

Our new Treasurer and his colleagues have hit upon an ingenious plan for lightening the burden of their financial necessity. By an artful re-adjustment of the railway liabilities they have received, they propose to make our payments \$125,000 for the year, increasing by that sum each year till it reaches \$155,000, when it will remain stationary till 40 years from now. It is evident that they are at their wits' end to make both ends meet, and that this is one of their devices. It is also evident that they are not sanguine of remaining in power, and that by this ingenious plan they are already preparing to accuse the succeeding Conservative Administration, when it is thus paying their debts, of largely increasing the expenditure yearly. We may remark that the Treasurer while deceitfully pretending to deduct our liabilities from our assets to show his bogus supplies, took no account of this very substantial railway liability.

MOWAT'S LICENSE OFFICIALS.

The Ontario Press so well known as a zealous and consistent advocate of temperance says:—"We beg respectfully to call the License Inspector's attention to the statement made by Mr. Thompson, in the Council last week, that it was well known that Mr. Fawley had not a monopoly of the shop liquor trade, as others were openly selling without license. If a Conservative had made that statement, he would probably have been told he was trying to make a point against the Ontario Government. But Mr. Thompson is a Reformer, and one not likely to be suspected of going back on the party."

RUNAWAY.

The horse attached to the "Giant T" delivery wagon ran away from the storehouse this forenoon. It ran up George street to Mr. Hall's house without doing any damage.

GROCERIES AND LIQUORS.

Petitions asking the Town Council to separate the sale of groceries and liquors were circulated for signatures to-day, and will, we understand, be presented to the Council to-night.

SPRINGFIELD TRUST AND SUPPORTER.

See Prof. Hotchkiss's springless truss and supporter advertisement in another column of this paper. Go and see him. He defies the hernia he cannot hold. Will be at the Casino House Feb. 27, 28 and 29.

Grand Opening.

On Monday the well known Dry Goods firm of W. Fairweather & Co. announce their advertising column a large arrival of New Spring Goods, and a Grand Opening Day on Monday the first. The stock contains a valuable collection and is to be sold Wholesale and Retail at low prices.

An Expect.

While a load of flowers were being taken from the Opera House this forenoon (where they had been used in decorating the hall for the ball), the tables on which they were placed upset and threw them on the street. A table leg was broken, and some of the flowers were injured.

GROCERIES AND LIQUORS.

The vote in Ontario on Monday on the By-law to separate the sale of liquors and groceries, resulted in a majority of 362 in favor of the By-law.

COBBOURG.

CHIEF OF POLICE.—At the meeting on Monday night the Council appointed Mr. W. Rankin, for a year or more assistant police officer at Port Hope, as Chief of Police. Mr. Rankin has many very flattering recommendations, showing him to be a temperate, able, and thoroughly competent officer, and we believe the appointment will prove a satisfactory one. There will be plenty of work for him to do, and if he can succeed in lessening the rovingism that has so frequently disgraced our streets he will merit the everlasting gratitude of all peaceable and law-abiding citizens.—*Standard-Star.*

ANOTHER DYNAMITE EXPLOSION.
LONDON, Feb. 26.—Shortly after one o'clock this morning an explosion occurred in the cloak-room of the Victoria railway station here. The explosive agent was undoubtedly dynamite. A large portion of the roof was blown off, and nearly all the glass work in the station destroyed. Seven men were sent to the hospital with severe injuries. Extensive damage was done to surrounding property.

DECEASED WIFE'S SISTER BILL.
LONDON, Feb. 26.—Baron Tennyson D'Eyncourt intends to support in the House of Lords the bill legalizing marriage with deceased wife's sister.

THE EX-SPEAKER.
LONDON, Feb. 26.—Ex-Speaker Brand has been elevated to the peerage, with the title of Lord Hampden.

RUSSIA'S ADVANCE ON INDIA.
LONDON, Feb. 26.—It is stated that Russia has voluntarily offered England a pledge to stop at Merv and use her influence with the Khan of Bokhara and Khiva to facilitate English commerce.

ENGLAND AND THE SUDAN.
The Mahdi Marching on Khartoum—An Attack on Suakin Expected—A Dilemma.

There is little doubt but that Gen. Gordon would forthwith resign if the confirmation of his discharge depended upon a vote of the House of Commons.

ARTILLERY WANTED AT TOKAR.
Gen. Graham, commander of the Tokar expedition, has telegraphed to Gen. Stephenson at Cairo an urgent request for reinforcements of artillery, as he is armed only with camel guns against Osman Digma's artillery, which is now served by gunners from Tokar. The news of the surrender of Tokar has spread throughout the Sudan as an English defeat. The rebels are negotiating with Kamala and other garrisons to induce them to join El Mahdi.

EL MAHDI MARCHING ON KHARTOUM.
The effects of Gordon's proclamation are fading. It is reported that El Mahdi, with the main body of his army, has left Bara and is marching on Khartoum via Duen.

THE KHEDIVA'S DILEMMA.
Gordon has asked the Khedive to issue a decree confirming the independence of the Sudan. The Porte has warned the Khedive to maintain the integrity of the Sudan and give no recognition whatever to El Mahdi. The Khedive's dilemma has given rise to fresh rumours of his abdication.

MANIFESTO TO THE INSURGENTS.
Gordon has published a manifesto informing the insurgents that the Sultan intends to despatch an army to conquer their country. Gordon exhorts them to accept his offer of peace in order to preserve themselves from Turkish invasion.

MUTINY OF NUBIAN TROOPS.
A number of Nubian troops were assembled at the wharf at Suakin to embark for Trinkitat. At the last moment, however, they refused to proceed, saying that the British were not to be trusted. The British were then obliged to employ Nubians as camel drivers.

THE BRITISH FORCE AT TRINKITAT.
The whole British expedition, numbering forty-three hundred men, has landed at Trinkitat. The rebels could be seen on all sides. It is estimated there are ten to twelve thousand rebels in the immediate vicinity of Trinkitat. The men-of-war Junna, Haia, Ranger, Caryfort, and Orontes are at Trinkitat, and the Eurymachus, Decour, and Sphinx at Suakin. General Graham has sent forward from Trinkitat two hundred cavalry, and more are following. A general advance will be made to-morrow. A fort has been erected six thousand yards from Trinkitat.

AN ATTACK ON SUAKIN EXPECTED.
It is reported that Osman Digma will soon attack Suakin when it is expected that the black inhabitants will join El Mahdi and massacre the European residents.

THE JEANETTE VICTIMS.
New York, Feb. 23.—A large throng attended the funeral services to-day over the bodies of the Jeannette expedition at the Church of the Holy Trinity. The caaskets rested on heavily draped catafalques in front of the altar. Bishop Potter preached the sermon, after which the bodies were taken to Woodland cemetery for interment.

AN IMPENDING CEREMONY OVER THE BODY OF JEROME J. COLLINS.
Jerome J. Collins was held this morning in the Catholic cathedral. The building was crowded. The body of Mrs. Collins was placed alongside that of her son, and after the sermon the remains of both were escorted by the 69th Regiment, the Herald Club, other societies, and several hundred citizens to the steamship City of Chicago.

ALGONA FRAUD EXPENSES.
"During the year the Government spent in the 'unorganized territory,' \$10,810; on account of 'northwest boundary,' \$6,482; on account of 'northerly and westerly part of the Province,' \$9,286. Nearly all this money was spent in carrying the Algona election. For example, to get the head of 'northwest boundary,' we find the items: 'G. Burden, services and expenses as commissioner, \$2,616.09' and 'G. Burden, sundry disbursements, \$118.22.' It was this same G. Burden who endeavored to settle the northwest boundary by telegraphing Mr. Pardee: 'Absolutely necessary that we should be placed in funds in some shape to meet pressing emergency,' and so on.

DON'T BUY.
Worthless remedies. Don't waste your money, but look into the claims of Polson's Nerviline as the best, quickest, cheapest, and surest remedy for all kinds of pain. It only costs 10 cents. Even if no good you cannot be a great loser, and a 10 cent trial bottle will convince you at once that you never have used anything so good. Nerviline cures vomiting, cholera, dysentery, cramps, neuralgia, headache, and the host of distressing complaints arising from nerve pain. Don't wait, but go to Ormiston's, Walcott's drug stores and get a 10 or 25 cent bottle of Nerviline—Polson's Nerviline.

SHILLON'S CATARRH REMEDY.
A marvellous cure for Catarrh, Diphtheria, Canker mouth, and Headache. With each bottle there is an ingenious nasal injector which has so frequently disgraced our streets he will merit the everlasting gratitude of all peaceable and law-abiding citizens.—*Standard-Star.*

ONTARIO LEGISLATURE.

FIRST SESSION OF THE FIFTH LEGISLATIVE ASSEMBLY OF ONTARIO.

The Creamery Election Job Abandoned as no Longer Wanted—Provincial Railway Grants—The Streams Comstock Bill Again—No Hasty to Extend the Franchise.

THE STREAMS BILL.
Mr. PARSONS on Monday introduced afresh the notorious Streams Bill, and it was read a first time.

LOCAL RAILWAYS.
Among the bills read a second time were those to incorporate the Midland Junction Railway Company, and respecting the Toronto & Nipissing Eastern Extension Railway Co.

THE PUBLIC CREAMERIES.
Mr. CARRINGTON moved for returns as to the three public creameries for which the Government had obtained sanction. He showed how their location had been kept dangling before the electors to influence them, his own constituency being an instance. Urgency had been pleaded for not stating how or where the money was to be spent, and now nothing had been done, a gross neglect if the arguments of Ministers had been well founded.

Mr. A. M. ROSE said they had found a difficulty in fixing the locations. One would be at the Agricultural College, Guelph, and \$2,000 was asked for its erection.

Mr. BRODER thought that they should give the people this information at their own homes. The pamphlet that had been issued was a good idea, but it was far too diffuse.

Mr. CARRINGTON remarked that the creamery kite raised before the general election had since then fallen very flat. When the late Treasurer had endeavored to obtain the sanction of the Board of Agriculture to the Government project, the committee appointed to consider the matter reported in general terms of approval, but said that sufficient information had not been obtained. Thereupon the Globe attacked them, saying that any farmers' club could have come to a sound decision in less than an hour. But it appeared that the government had not been able to come to a decision yet, after considering the matter for 15 months. Their three creameries had dwindled down to one. He advocated giving bonuses to private parties who would erect creameries, and afford instruction in butter making. This, however, would not give the government patronage, nor enable them to hold out hopes to different localities of obtaining the creameries as they had done to influence the electors last year.

Mr. SHIDDA approved of the proposed system of bonuses, but thought a creamery at the Model Farm would be of use.

Mr. MEREDITH thought that they required more information. The matter having served its object of being used for electioneering purposes, the Government was not now so keen about it. He quoted, amid laughter, a speech of Mr. Pardee, stating that the importance of the subject was such that "it could not be delayed for twelve months without harm to the interests of the Province," and the Attorney-General's assertion that it involved a gain to the Province in the enhanced price of butter amounting to the sum of \$2,500,000 a year. And yet the Government had abandoned the creameries, and thus by their own showing had taken \$2,500,000 out of the pockets of the farmers.

Mr. PARSONS, after a sneer at Mr. Meredith, said that none of the members of the Government were better makers.

Mr. PARSONS had received information which made him think they might have been mistaken and that private enterprise was preferable, or they might have transitory creameries moving from one locality to another.

Mr. MORRIS said the Opposition had contended that the Government was procrustean and was adopting a wrong plan. After it had served its object for electioneering purposes, it was admitted that the Opposition had been right and that the Government was mistaken.

Mr. DUNN said that last session he had doubted the policy of erecting creameries. He contended that the Government could not use them to bribe localities because these were to be fixed by the President of the two Dairywomen's Association and of the Agricultural Association, but he did not state their policies.

Mr. CARRINGTON thought that soft soap was more in their line.

Mr. YOUNG said the government only showed their disapproval by erecting one creamery at first, but did not explain their want of discretion last year.

Mr. WATSON said he had believed that there were three creameries. Now, however, private creameries had been started so the public ones were unnecessary.

Mr. CARRINGTON said he would withdraw his motion as it seemed that nothing had been done, and even yet the government had not made up its mind what to do. Last year the government had scouted the Opposition idea of private creameries, but now they made them an excuse for their own inactivity. As to the fixing of the localities not being used to influence the electors he showed how they had done it.

RAILWAY AID.
Mr. WATSON moved for returns as to the grants to railways and the amount due.

FRANCHISE EXTENSION.
Mr. MORRIS in reply to Mr. Meredith said he could not tell when the Franchise Bill would be submitted.

TUESDAY, FEBRUARY 26, 1884.

THE DIVISION ANALYZED.

It will be found interesting to examine the
division list giving the vote on the resolutions
in favor of the loan to the C.P.R. when the
Government was sustained by the large majority
of 73 in a very full House, there being, with
the Speaker, exactly 200.

The following are the figures by provinces:—

Province	Gov.	Opp.
Ontario	62	34
Quebec	50	14
Nova Scotia	12	6
New Brunswick	11	5
Prince Edward Island	3	3
Manitoba	4	1
British Columbia	5	0
Total	155	63

It will be seen that with the exception of
Little Prince Edward Island, which gave a
majority of one against the loan, every Province
pronounced emphatically in favor of the ad-
vance, and this exception is not very surpris-
ing when we consider that the insular Province
has the least direct interest in our great national
highway. Ontario's majority for the Govern-
ment policy of aiding the rapid construction of
the C.P.R. was in the ratio of more than 3 to 2,
Quebec's nearly 4 to 1, Nova Scotia's 2 to 1,
New Brunswick's over 2 to 1, Manitoba's 4 to 1,
and British Columbia's 5 to 0. The total
majority in the crowded House was 2 to 1, with
ten votes to spare.

A further scrutiny is not uninteresting,
Ontario, the banner Province of the Dominion,
so often claimed by Reformers as being really
opposed to Conservative rule, and being
covered by "alien" votes, in fact headed the
list with the largest provincial vote for the
Mackenzie Administration and its railway
policy. Quebec, which was represented as being
utterly dissatisfied and recalcitrant, voted in
the largest proportion of all the old Provinces
in favor of the grant. The mainland Maritime
Provinces, which have been falsely claimed
as Reform, went Conservative by over two to
one. Manitoba, which has been described, by
those who stated their wishes as facts, to be on
very verge of rebellion against the Mackenzie
government and its policy, especially the dis-
allowance of railway to tap the C.P.R. for the
benefit of United States lines, was almost unani-
mously in favor of our railway policy, one re-
presentative alone venturing to oppose it, while
even members elected to oppose the Govern-
ment had practically to endorse it with their
votes. British Columbia which was also said
to be furious at railway disallowance, Chinese
corruption, &c., had not a representative to raise
his hand against the policy which is so rapidly
connecting them with the rest of the Dominion.

The one scrap of consolation left for the Re-
formers is that our smallest Province gave the
majority of one against aiding the rapid
construction of our great highway which
will connect ocean with ocean and link together
all our provinces except itself. Isolated as it
is, it could not see so plainly as the other Pro-
vinces the benefit of this great national work,
but we believe that in the not remote future it
too will acknowledge the advantages derived
from the C.P.R. and will not regret that its
votes could not prevail at this juncture.

It will be observed that we have taken the
division list of the vote against Mr. Vail's
amendment and in favor of the resolutions,
though it did not give the largest majority.
Mr. Blake apparently had not the same weight
with the House as his lieutenants, for his
amendment was defeated by a majority greater
by one, in the same House.

The Government could not have wished to be
more handsomely sustained, nor to secure more
general and wide-spread support.

THE "GLOBE" AND MR. BLAKE.

The Reform Montreal Witness has some
editorial remarks regarding Mr. Blake in regard
to the bid made in his behalf by the Globe for
the Quebec vote. Our contemporary appears to
overlook the fact that Mr. Blake allowed the
bid to stand in his name, and did not repudiate
it till after the vote. The Witness says:—

"Unfortunately a wicked, blundering article
in the Toronto Globe gave a coloring of prob-
ability to the story in the eyes of those who have
no, or try to make themselves believe they have
no, confidence in the integrity of Mr. Blake."

DOMINION PARLIAMENT.

THE SECOND SESSION OF THE FIFTH PARLIAMENT OF CANADA.

The C. P. R. Loan—More Obstructive
Amendments Defeated.—The Resolutions
concerned in, and a Bill Introduced—
Massive Grand Lodge of Quebec.

GRAND LODGE OF QUEBEC.
Mr. THOMAS WHITE (Cardwell) on Friday in-
troduced a bill to amend the 10th chapter of the
Consolidated Statutes of Lower Canada by
adding the Grand Lodge of Quebec to the list
of Masonic Grand Lodges exempted from the
operations of the act.

THE C. P. R. RESOLUTIONS.
Sir J. MACDONALD moved that when con-
currence in the C. P. R. resolutions was moved
the motion should have precedence every day
after routine proceedings.

Mr. BLAKE objected to this as they were not
able to discuss the matter intelligently for want
of information. He would not, however,
trouble the House to divide.

THE QUEBEC VOTE.
Mr. BERGESSON moved an article in L'Es-
tandard accusing the French Canadian members of
being bribed to threaten opposition to the C.
P. R. loan. He flatly denied this.

THE C. P. R. LOAN.
Sir C. TUPPER moved concurrence in the
report of the Committee of the Whole in favor
of the C. P. R. resolutions.

Mr. WARREN, the only member from Manito-
ba who had voted against aiding the program of
the C. P. R., opposed the motion. He thought
they should take advantage of this opportunity
of making the C. P. R. give up its monopoly.
He objected to the tariff, the land and railway
policy of the Government. The rapid building
of the road he declared to be harmful. He
denied the country, its soil, its want of water,
and scarcity of timber, painting everything in
such gloomy colors as to call forth several re-
monstrances. Then he aired in their most
exaggerated form the grievances of the profes-
sional agitators, going back into the past for
some of them. He objected strongly to the
disallowance of railways projected to carry the
traffic of the country to the United States. He
concluded by moving in amendment that, "As
a condition of granting the proposed aid to the
C. P. R., it should be stipulated that the Com-
pany shall no longer claim that no line of rail-
way shall be permitted to be constructed south
of the C. P. R. except such line as shall run
southwest or to the southwest of southwest,
and that no line be permitted to be constructed
within 15 miles of lat. 49."

Mr. WATSON (Hastings) gave his experience
in a recent trip to studying the gloomy views of
Mr. Watson, and he described much more
favorably both the country and the operations of
the C. P. R. He declared that Mr. Watson
was not so hostile to rapidity of construction
when the line was approaching a locality where
he had property. The C. P. R. was sometimes
condemned when it was really Mr. Watson and
the other millers who should be blamed.

Mr. CASEY praised the Northwest, and then
endeavored to defend Mr. Wilson for denying
it. He raked up again the old charge, long ago
refuted, that the Minister of Agriculture had
circulated a pamphlet containing an advertise-
ment attracting settlers to Arkansas and Texas.
He then attacked Mr. ROSE (Lindsay), who, pre-
ferring country to party, had voted for the C.
P. R. loan. One after another he assailed Mr.
BOWELL, Mr. WHITE (Hastings), the C. P. R.,
the miller, the agricultural implement makers,
the ranchers, &c., &c. He blamed Mackenzie
and Ontario for not taking this opportunity to
bring concessions from the Government. He
advocated monopoly in Ontario and condemned
it in Manitoba, concluding with assertions of
the patriotism of himself and his party.

Mr. POTT explained that the advertisement
for which he had been blamed was in a pam-
phlet by a Reformer which he had accepted. On
its discovery he had suppressed it, and his con-
science could not be thus abused again. He
had a little passage of arms with Mr. Mackenzie
and Mr. Blake as to their opposition to lines
south of the C. P. R.

Mr. TOW had his little fling at the North-
west and at the location of the C. P. R. He
was imaginative enough to praise the Globe for
aiding the settlement of the Northwest, and
blamed the Montreal Gazette for publishing a
despatch from Winnipeg as to frozen grain,
though it was contradicted as soon as it was
found to be one of the customary attempts at
depreciation of the country. He opposed rapid
construction.

Mr. FERGUSON spoke most highly of the
country from personal inspection, and of the
energetic operations of the C. P. R. He greatly
excited Sir Richard Cartwright's ire by referring
to his repudiation of the columns of the Re-
form press.

Mr. CAMERON (Inverness) strongly supported
the resolutions.
Mr. SCOTT praised the policy of the C. P. R.
as most beneficial to the country and condemn-
ed Mr. Watson for his unpatriotic course.
Mr. KING intimated that an injustice was done
to C. P. R. by granting this aid to the C.
P. R.

Mr. BAKER (Victoria) advocated the grant
from a British Columbian point of view.
Mr. WATSON's amendment was put and neg-
ated by 112 to 49.

ANOTHER ATTEMPT.
Mr. WELDON made a bid for the Maritime
Provinces members by arguing that if they were
to have a Canadian railway it should be wholly
Canadian, and should be restricted to Canadian
ports. He moved in amendment that it should
be a condition that so long as any part of the
advance or interest thereon remains unpaid, no
part of the resources of the Company shall be
expended towards acquiring an interest in rail-
ways of the Dominion with a view to an At-
lantic terminus in U. S. territory.

Mr. MITCHELL disclaimed any sympathy
with this new attempt to embarrass the C. P. R.
No one was more anxious than himself for
the development of the trade of the ports of the
Maritime Provinces, of which he spoke in the
highest terms, but it would not benefit them to
hinder the C. P. R. with restrictions.

Mr. KING expressed great objection to any
connection with U. S. ports—that is, for the C.
P. R. An several Reform speakers had spoken
of the wealth of the C. P. R., he returned to the
other Reform theory that they were bankrupt.

Mr. DALY showed that the restriction would
be more injurious than useful, and was not in
the interests of the Maritime provinces.

Mr. BURTON (Senbury), attacked Mr. Mit-
chell and the Intercolonial.
Mr. WELDON's amendment was put and neg-
ated by 104 to 42.

THE C. P. R. BILL.
Mr. BLAKE said he thought some other
amendments should be put, but it might be as
well to postpone them till they had the bill with
all the details.

The resolutions were then concurred in.
A bill founded upon them was introduced
and read a first time, and the second reading
was ordered to stand for Wednesday.

A Good Offer.
In order to induce you to test in your own
sanctity the great pain reliever—Polson's Nerve-
line—we have put it up in 10 cent bottles, which
you can purchase at Ormond & Walsh's drug
store. This is the best time to introduce an
article of merit, for if meritorious you will con-
tinue to use it and recommend it to your friends.
Nerve-line is good for outside use, and better
than any other for internal. It may be given to
the most delicate child. Try Polson's Nerve-
line. Sold by Ormond & Walsh.

The Murder of the Taylor Family.

CINCINNATI, O., Feb. 23.—To-night the result
was made known of a long conversation in jail
between Allen Ingalls and Marshal Brown, in
which the whole story of the killing of the Tay-
lor family was told. Ingalls for a long time
resisted all attempts to get the facts from him,
but finally saying, "I am gone anyhow; I know
you will be good to my family when I am dead;
I'll tell you the truth," recited the horrible de-
tails. He said on Friday morning Ben Johnson,
who lives with him he had three points for that
night. By points he meant subjects for the
Medical college. He asked Johnson whose
they were. Johnson replied, "The three
people at the Taylor cabin on the hill. They
are no good. We can knock them on the head."
Ingalls said he agreed, and went to the Ohio
Medical College and told them he would have
three subjects that night. They agreed to pay
him \$15 apiece, and gave him a note to expres-
men R. B. Dixon. He went to the expressman
and engaged him to meet them on Avondale
pike at nine that night. He went home, and
after dark he and Johnson started to Taylor's.
They had a bottle of whiskey, of which they
took a drink and felt good. The door was not
locked, and they bolted in. The old man was
sitting by the side of the fireplace. His wife
was in front, and the girls were at work in the
room. Johnson had a fount club a little longer
than a policeman's club, and began striking
them over the head right and left—as he would
cattle. The woman struggled and offered
resistance. Ingalls said he finally choked her
to death. Johnson easily disposed of the others
with his club. Then they stripped the bodies,
put them in sacks, which they brought along,
and carried them to the road side and went to
meet the wagon. Loading them in they drove
to the Ohio Medical College; and delivered them
and got their pay.

A mob of sixty negroes organized last night
to lynch these men, but found Avondale goal too
well guarded. Ingalls and Johnson are in Cin-
cinnati goal to-night.

Ingalls confessed he has stolen several bodies
in the past few months from the new cemetery
beyond Avondale, and sold them to the Ohio
Medical College.

Salmi Morse's Suicide.

It is thought the suicide of Salmi Morse was
due to the fact that his last play, "On the
Yellowstone," was a failure. He was without
friends, and had been dependent for some time.

THEIR OCCUPATION GONE.
"My occupation gone" is the sad exclamation
of the host of slavers who once exercised them-
selves upon the pedals of the people. Of course
it is too bad; but a new and brighter era has
dawned upon the sufferer from this pest. The
Painless Corn Extractor is more efficient than
the knife, and yet it acts without pain. Put-
man's Painless Corn Extractor does its work
better, is cheaper, and absolutely painless, and
therefore is much better than the old butchering
process. Do not take any other than
Putman's Painless Corn Extractor. Putman &
Co., props., Kingston.

At this season of the year there should be a
bottle of Vactor in every house. It is un-
equalled for Coughs, Colds, and Hoarseness. It is
pleasant, equally safe for children. Price 25 cents at
all druggists.

If you are troubled with a "hacking cough,"
Down's Relief will give you relief at once.
Warranted as recommended, or money refund-
ed. Price 25c, 50c, and \$1.00 per bottle.

MRS. ELIZABETH MAJOR—Dr. M. HOGUE &
Co., Gentlemen.—Yours of last week to hand,
and reply in your inquiry I have much pleasure
in stating that from the first time of using the
appliance and the medicine I have improved
very much. The bronchitis has entirely left
me. I sleep well and have a good appetite. I
must also add, that coming to you as I did as a
last resort, the cure effected has been wonder-
ful.
Gratefully yours,
Mrs. E. MAJOR.

REAL ESTATE INVESTMENT COMPANY.

Meeting of the British Shareholders of the Peterborough Institution.

In a previous brief notice of the British Shareholders of the Peterborough Real Estate Investment Company (Limited) we promised to give a more extended report of the proceedings. Guided by the proverb "Better late than never," we now do so, taking it from the Glasgow papers.

Mr. Henry Cowan, of Hillhead, presided. The annual report of the Directors was submitted. This report was published in our columns at the time of the annual meeting in Peterborough.

The CHAIRMAN, in moving the adoption of the report, referred to the death of Mr. Gilbert Heron, and among other things said:—I presume you have all got a copy of the report from Canada. It is unnecessary for me to say anything about the report for the year ending 31st May last further than it appears to me to be thoroughly satisfactory, and shows that the affairs of the company are in a sound and prosperous condition. As regards the company's operations in Canada, you will be glad to hear that this winter the directors and managers are receiving applications for good loans considerably in excess of what they have obtained in previous years. This increase, I think, attributable mainly to the company's growing popularity in the district where we land, arising from the convenience felt by borrowers in transacting their business with a local company, and for the high character for probity and honorable dealing which our management has obtained for us. The result of this is that, while steadily increasing the amount of our investments, we are able to continue our policy of selecting exceptionally good securities; and the prudence and judgment of the Investment Committee are shown by the fact that not a single farthing has been lost since the company commenced business in 1873, and that in very few cases have we had to resort to forced sales of securities. We have had only two cases, and when these have been realized they have shown a considerable amount over and above the principal and interest, showing, as I have already stated, the prudence of the Investment Committee. At the meeting here it was mentioned that there was a prospect of our board in Peterborough being joined by Mr. George A. Cox, the president of the Midland Railway of Canada. Mr. Cox's business experience and capacity eminently qualify him for the position of director of a company like ours; and I am glad to see from the proceedings of the meeting at Peterborough not only that he has joined the board, but also that he is taking a very active interest in the company's affairs, and has been appointed a member of the Investment Committee, before which all applications for loans come before being sanctioned by the board. We have up till now been able to supply the company's requirements, but at present, although the sale of debentures is above the average of previous years, the large number of applications for loans which the company is receiving gives the directors the opportunity of investing on advantageous terms for the company considerably more money than we are sending them. At a time like the present, when owing to the difficulty of obtaining good loans and other investments, large sums of money are lying unemployed, I am satisfied that in bringing before investors such a thoroughly safe and remunerative outlet for money as is afforded by these debentures, we are in reality conferring a favor on our friends, while at the same time benefiting the company by increasing its earning power. For my own part, as the duration of my connection with the company extends, my confidence in it and in those entrusted with its management is more firmly established, and I have no hesitation in recommending its debentures to the most cautious investor. In conclusion, I move a vote of thanks to the directors and managers in Canada.

Mr. WILLIAM MATTHEW said:—It gives me very great pleasure indeed to second this motion. The report of the Directors for the past year, which has been in our hands for some time, must, I think, be regarded as highly satisfactory. The extent of dividend of 7 per cent. has been maintained, there has been a considerable increase of business, and what is of much more importance, the Company continues in a thoroughly sound position, not a single penny having been lost by any of its investments during the period of five years in which its operations have been carried on. This state of things is, to my mind, all the more satisfactory when it is considered that the strength and standing of even the best property and land companies both in this country and America have been severely tested. Much of the success of this company is no doubt due to the careful manner in which its business has been conducted. The management throughout has been excellent. There is nothing of the speculative element in the transactions of the company. There is no doubt the shares give a much larger return than the debentures, and our Canadian friends hold to them. I have no doubt, on this account, we consider their shares quite as safe and as good as the debentures. This circumstance, it seems to me, should go a very long way to confirm the confidence of both shareholders and debenture-holders in the thorough soundness of these investments. In conclusion, he stated that he considered the shares worth from 25 to 30 per cent. above par.

Mr. WRIGHT moved a vote of thanks to the Board of Reference. He thought that the report and security of a company is property hid very much in the confidence of the shareholders and public had in the man who managed the business. Every shareholder of this company was perfectly satisfied with the way its business had been managed, and he hoped that nothing would ever occur to mar the unanimity with which the company had been supported on both sides of the Atlantic.

Mr. KENNEDY said he had been a large shareholder from the first. He could with a clear conscience say that a company which in its fourth report could say that it had never lost one dollar was as safe a thing as any one could invest their money in.

Mr. FLEMING referred to the death of Mr. Heron, and to how much they owed him for the interest he had taken in this company. They had lost Mr. Heron, but they had the company still, and a company in the soundest condition of any company with which he had any connection.

Mr. MATTHEW said that the directors and managers of the Company were gentlemen of high standing and experience, and were besides—and he attached great importance to that—resident in the district where the loans were made. The shareholders could not but be pleased with the management in Canada. The stock of the company was valuable. He expressed his heartfelt grief at the death of Mr. Heron and Mr. Nicholls, both old and valued friends of his own, and who had given much splendid assistance to the Company.

After passing a vote of thanks to the Chairman, the meeting adjourned.

The DAILY EVENING REVIEW is delivered to subscribers at ten cents a week.

A CAUTION TO FARMERS.

ON THE HAT FORT AGENTS AND SIMILAR SWINDLERS.

Two weeks ago a man came to our place. With a long, sly and sanctimonious face; He showed no semblance of deceit or guile. Each line and feature bore a pleasant smile. His tongue was primed with the best blarney oil. With serpent wiles to draw me in his coil. His words and ways so winning—that forthwith I went my buildings without aid of plan. In flattering words pronounced them all first-class. One thing you lack to save laborious work. Just let me give you my improved Hay Fork Old man. In hay time you may take your ease. My fork will lift and lay it where you please; Refuse my offer and you will repent; It will cost nothing—not one single cent. I only wish to place my hay fork here So that your neighbors see its working clear; For every order which you send to me You get five dollars as commission fee. I want your name, of course that is no harm. To advertise my hay fork on your farm. He showed his form in which two lines were blank. Just a neat handle for his swindling crank; Thinking me green—and simple, I suppose. He pushed the bait up to my very nose. He catching line he dangled left and right, I knew his scheme so I refused to bite; He wheeled around with disappointed grin, His under lip was hanging o'er his chin. He muttered something—words like these no doubt— "With such men as you my game is fairly out." Some neighbors to their coat were more unwise, They swallowed all his fraudulent swindling lies. They signed their names, for nothing as they thought, Meanwhile it was a promissory note. The game is played, that note they quickly trace Some hundred dollars plain upon its face; 'Twixt rage and sorrow—they their loss deplore, Blood sucking agents will fool them no more.

Now brother farmers my advice is plain, Stop every agent coming up your lane, Show him the gate and tell him to make scarce. For going further he may fare the worse. If he persists in peddling off his ware, Uncle old Rover, let him have a tare, Don't call him back, let him have all he wants, Though he grips deeper than those fancy pants. If Rover falls, let your wife then try his serve, With boiling water, scolding he deserves; How he would wince beneath the scolding waves With head and face much clearer than he shaves. Believe him not though honest he appears, But thrust your fingers into both your ears, Through false pretences and with cunning lies He'll draw the wool right over both your eyes. It would be well if farmers would stand out— Show all those agents to the right about; Bay from men honest, know what you must pay, Sweep all this travelling swindling tribe away. There may be some with whom you are acquaint, Whose name and honor stand without complaint, There are exceptions, but how small the host; And steady has a mortgage on the coast.

Springless Truss and Supporters

PROF. G. W. HOTCHKIN

Will visit the following places again:—

PETERBOROUGH—Caisse House, Feb. 27th, 28th and 29th.

Prof. Hotchklin's treatment is practical, rational and economical. Its object is immediate relief and eventual cure. It is based on scientific principles and easily demonstrated to the comprehension of every intelligent person, that a truss without steel springs or hard substances, having heated ligaments and Unibion as well as Varicose, at the advanced stage respectively of from 60 and 90 years, must and will stand the test against all Spring Trusses to children as well as adults. Prof. H. having had 30 years' experience has become master of his profession, and DETHES the Hernia he cannot hold in its place. Prof. Hotchklin's post-office address is Albion, Ontario Co., N. Y.

THE REFORMERS RESPONSIBLE.

Now that it has been definitely decided by an immense majority of the representatives of the different provinces of Canada that the necessary aid shall be afforded to secure the early completion of our great national highway, it will not be out of place to consider how our assistance was rendered necessary. Though it is not true, as is falsely stated by Reformers, that we are making any additional grant to the C. P. R., that we are put to any further expense even for interest, or that there is a risk of our loan becoming a permanent contribution impossible of recovery, yet it is true that such a step is not one to be undertaken lightly or without grave cause. Our security is ample, the interest on the money we must raise is provided, and we have full compensation for our assistance; yet we must admit that we have incurred responsibility, that we have pledged our credit on the money markets of the world, and that time has been consumed, trouble occasioned, and discussion fermented by the discussion both in Parliament and throughout the country.

By the adoption of the resolutions we have secured a great advantage for the country, but, like most advantages, it has not been obtained without cost. Who is responsible for the necessity being forced upon us?

The difficulty from which the C. P. R. sought relief was that their securities and their property had been artificially depreciated in the great money markets of the world, so that they could not, without an enormous sacrifice, realize the funds required if they were to continue their operations with the unprecedented rapidity of the past two years. There was no doubt that they could complete their contract if they took the full time allowed them, but they could not continue the enormous expenditure which has been so greatly to the advantage of the country by hastening its development.

It is obvious that the efforts of the C. P. R. to finance their gigantic operations were frustrated through the hostility of rival railways, which systematically opposed and thwarted the C. P. R. by every means in their power. Wielding enormous influence in the London and New York money markets, they used it without scruple to harass and foil a dangerous competitor. But their hostility would have been impotent without allies and without weapons. These they found, we regret to own, in Canada itself. Our Reform politicians, our Reform politicians, were their allies, and the traitorous slanders of these "patriots" were the weapons.

Investors had these slanders quoted to them as being of undoubted weight, coming from a Canadian source, and there was always a fresh supply of them to be used at any critical moment. Statements in Reform journals, statements by Reform politicians, were the chief stock in trade of the "base" of C. P. R. stock. When, for instance, a Dominion guarantee was arranged, in the hope that it would strengthen C. P. R. securities in the money market, there was immediately a fresh Reform onslaught, intended, and unhappily with success, to counteract this assistance. Reform journals positively gloated over their inquiry, as they pointed out with shouts of triumph that, owing to their efforts, C. P. R. stock, even with a Dominion guarantee, was falling instead of rising.

With the ordinary investors, who had neither time nor opportunity to acquire original information for themselves, and therefore accepted as trustworthy Canadian depreciation of Canadian securities, these disgraceful tactics succeeded. With those who, better informed, knew the hollowness of these partisan outcries, they were hardly less successful, for these capitalists argued that there was an obvious risk connected with an undertaking which had such traitorous, assassin-like, domestic enemies, ever watching for an opportunity to strike it down, if the blow could also injure their hated political opponents. They had not forgotten how, on a previous occasion, the same self-styled Reformers had delayed for years the construction of a Canadian transcontinental railway, by a successful conspiracy, carried on by means of theft, misrepresentation, bribery and purchased desertion, to overwhelm at once its promoters and the Government that was about to secure this great benefit for our country. These enemies of the C. P. R. would evidently stick at no injury to the company or to the country if it would serve their partisan ends.

In view of these facts, the manner in which the resolutions were adopted is most satisfactory. It is not only that the aid afforded by this loan will secure the early completion of our great Canadian highway, with all its advantages, but the votes themselves are of the utmost service to our country. The power of these internal enemies to injure the company and the country is now at an end. After the magnificent majorities, greater even than the normal vote that Sir John can command—large as that is—after this plain declaration of their appreciation of the C. P. R. by every Province of the Dominion, with the insignificant exception of the trifling adverse majority of one from little Prince Edward Island, it can no longer be alleged by our enemies that Canada is a house divided against itself. It will be seen, even by those most hostile to it, that it is futile to attempt to check the Canadian Pacific Railway with Canada at its back.

DOMINION PARLIAMENT.

THE SECOND SESSION OF THE FIFTH PARLIAMENT OF CANADA.

The Number Victims—A Hudson Bay Railway—New Mining Regulations—The North-West and its Lieutenant-Governors—Governatorial Oaths.

PRIVATE BILLS.

On Monday a number of private bills were advanced a stage.

THE NUMBER VICTIMS.

Mr. WALLACE moved the second reading of the bill to legalize the agreement between the Village of Parkdale and the Grand Trunk and other railways.

Mr. MITCHELL asked if the bill provided any compensation for the families of 33 persons slaughtered by the Humber accident.

Mr. WALLACE explained that the bill was to provide for the subway at Parkdale as ordered by the Railway Committee and agreed upon by the companies and the municipalities.

Mr. MITCHELL was sorry there was no compensation provided by the bill for the victims of that disaster, and spoke strongly upon the grasping policy of the great railway companies. Mr. HART said the City of Toronto was not a party to the agreement.

After some further remarks by Mr. Mitchell, the bill was read a second time and referred to the Railway Committee.

RAILWAY TO HUDSON'S BAY.

Mr. ROYAL moved the second reading of the bill to incorporate the San Francisco, Winnipeg and Hudson Bay Railway Co.

B. C. GEOLOGIST.

Sir J. MACDONALD in reply to Mr. Shakespear, said the geological survey of British Columbia would be continued this year.

MR. COSTIGAN'S PORTFOLIO.

Sir JOHN MACDONALD in reply to Mr. Blake said that Mr. Costigan tendered his resignation on Feb. 19th and withdrew it on the 21st. Subsequently he corrected himself saying that the date of the withdrawal was the 20th.

B. C. AND THE CABINET.

Sir J. MACDONALD in answer to Mr. Shakespear as to British Columbia cabinet representation, said that the Cabinet was full just now, and he had no intention of turning out any of his colleagues.

LIQUOR LICENSE POLICE.

Mr. CROSBY asked if it was the intention to establish a Dominion police organization to carry out the McCarthy License Act.

Sir J. MACDONALD said it would be left to the commissioners.

CANADIAN TENTS.

Mr. CARON in reply to Mr. Somerville, said it was intended to obtain tents for the militia from Canadian manufacturers.

INDIAN CATTLE.

Sir J. MACDONALD said the Indian cattle in Treaty 7 had been sold to Col. de Winton to the number of 500 for \$30 a head. The amount was \$15,000, and all but the last instalment of \$5,400, due in April, had been paid.

A MILL SALE.

Mr. CAMERON (Huron), under cover of asking for papers concerning the sale of mills at Calgary, made a violent personal attack upon Mr. Peter McLaughlin.

Mr. HADGART said that Mr. McLaughlin had got the worst of the bargain, and would be glad to sell out to Mr. Cameron at the price he gave.

MINING REGULATIONS.

Sir J. MACDONALD, in reply to Mr. Lester, said that in consequence of the development of mines in the Rocky Mountains a new set of mining regulations had been drawn up, after investigating the laws of Australia, Nova Scotia and the United States, and he believed they would be ready for the next issue of the Gazette.

THE NORTHWEST TERRITORIES.

Mr. CAMERON (Huron), moved for papers as to the appointment of an administrator during the absence of Lieutenant-Governor Dewdney. He dwelt upon the press reports of an Indian outbreak, and regretted that Mr. Dewdney was not at his post; he repeated some gossip as to Mr. Dewdney being summoned to Ottawa, stepped by telegram at Winnipeg, and sent west on some mission. He complained that Mr. Reid had been appointed Administrator over the heads of other gentlemen.

Sir JOHN MACDONALD said the so-called Indian outbreak had been greatly exaggerated, the truth being that some Indians had broken into a store and taken some flour. Mr. Dewdney had obtained leave to go to British Columbia on private family affairs, and there was no truth in the other gossip as to his movements. Deputy-Commissioner Reid was a very valuable officer, and should be appointed Commissioner if there was a vacancy.

Mr. BLAKE said that Sir John had talked of the necessity of having Mr. Dewdney, in Ottawa, during the session. Then the astute leader of the Opposition actually made a joke as to Mr. Dewdney going to see his mother-in-law instead of his political godfather.

Sir J. MACDONALD said he had stated he would bring Mr. Dewdney to Ottawa when necessary. This year there was a meeting of the North-West Council.

Mr. MACKENZIE thought Mr. Dewdney was sent away to bear out the Conservative assertion that a Lieutenant-Governor was not necessary for the North-West.

Sir JOHN MACDONALD said there was more in this than in the Reform leader's remark. When Mr. Laird was appointed Lieutenant-Governor, he had not much to do for his \$7000 a year, and he thought Mr. Cameron might have done without this assistance as well as Mr. Morris.

Mr. MACKENZIE praised Mr. Laird, and objected to his being attacked when he was not present to defend himself.

Sir JOHN MACDONALD asked if Mr. Dewdney was there to defend himself.

GUBERNATORIAL OATHS.

Mr. CARON moved for the commissions of the recent Governors-General of Canada, and of the recent Lieutenant-Governors of Quebec with the oaths taken by them, remarking as to the decorations against the ecclesiastical supremacy of any foreign prelate, &c.

Sir JOHN MACDONALD said the oath of the Governor-General was fixed by Imperial statute and the only recourse was by an address to the Crown. There was not the same difficulty in the way of a change of the oath of a Lieutenant-Governor.

A Fatal Case.

BRANTFORD, Feb. 25.—Miss Meadows, living between Brantford and Mount Pleasant, having been sick for some time, on Thursday last her attendant gave her a dose of laudanum in mistake for medicine, from the effects of which Miss Meadows died on Saturday morning.

A Good Offer.

In order to induce you to test in your own family the Indian cure—Peters' Nerviline—we have put it up in 10 cent bottles, which you can purchase at Ormrod & Walsh's drug store. This is the best way to introduce an article of merit, for if meritorious you will continue to use it and recommend it to your friends. Nerviline is good for outside use, and better than any other for internal. It may be given to the most delicate child. Try Peters' Nerviline. Sold by Ormrod & Walsh.

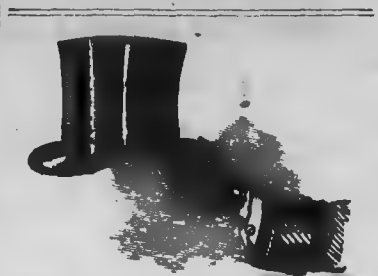

Reception of Lieut. Warner.
 Youngstown, O., Feb. 26.—Lieut. Warner, just returned from Siberia with the bodies of De Long and his comrades, arrived at his home yesterday afternoon. He was tendered a public reception in the Opera house last night. Five thousand persons were present during the evening.

Their Occupation Gone.
 "My occupation gone" is the sad exclamation of the host of slavers who once exercised themselves upon the piths of the people. Of course it is too bad; but a new and brighter era has dawned upon the sufferer from corn. Putnam's Painless Corn Extractor does its work better, is cheaper, and absolutely painless, and therefore is much better than the old butchering process. Do not take any other than Putnam's Painless Corn Extractor. Putnam & Co., Props., Kingston.

At this season of the year there should be a bottle of Pectoria in every house. It is unequalled for Coughs, Colds, and Hoarseness, is pleasant, equally safe for children. Price 25 cents at all druggists.

IT SAVED HER LIFE.—Mrs. F. Taylor, of Toronto, was a great sufferer from inflammatory rheumatism, which for a long time baffled all treatment. At last she tried Hagar's Yellow Oil, and declares it saved her life.

TOWN COUNCIL MEETING

DIFFERENT ASPECTS OF THE LIQUOR LICENSE QUESTION VENTILATED.

The fees for licenses fixed—Reports from the Fire, Water and Gas, the Charity, the Market and the License Committees—The ice in the Creek—The Toronto Bank Building—The Ontario and Quebec Railway—Tenders Wanted for Lumber—Miscellaneous Business.

A special meeting of the Town Council was held on Tuesday evening.

PRESIDENT—His Worship Mayor Cox, and Councillors Davidson, Allen, Kelly, Yelland, Douglas, Rutherford, Menzies, Miller, Cahill, Green, Kendry and Hartley.

THE SPECIAL MEETING.
Councillor RUTHERFORD said that the regular meeting of the Council should have been held last night. An adjourned meeting of the Council could not be postponed by anyone. The Mayor said it was unnecessary to make that statement, as everyone was aware of the fact. He only asked the Clerk to send a note to the Councillors saying they would not be present, and that if a quorum attended they could hold the meeting.

Councillor RUTHERFORD moved that general business be taken up at this meeting.—Carried.

COMMUNICATIONS.

From A. McLean, Mayor of Walkerton, regarding the bill for the maintenance of bridges now before the Local Legislature.—Received.

From W. H. Budden, protesting against paying a water tax for last year.—Fire, Water and Gas Committee.

From J. Whyte & Co., asking that the fee under the creek bridge on Hunter street be cut.—Received.

From J. E. McIntyre and eighteen others, asking for a reduction in the price of tavern and liquor licenses.—Received.

From Louis Richard asking for the remission of the 5 per cent. and costs charged him in his taxes.—Court of Revision.

From John Newton, asking for remission of taxes.—Court of Revision.

From W. Patterson & Son, asking that the fee under the creek bridge be cut.—Received.

From Rev. E. F. Torrance, one hundred and thirty-seven others, asking the Council to pass a by-law to prohibit the sale of groceries and liquors.—Received.

ACCOUNTS.

The following accounts were read and ordered to be paid:—

James & Logan	\$14 65
Telegraph Company	2 50
John Gibbs	6 00
Chas. McKinley	2 75
B. Shortly	3 50
G. Brunton	1 00
H. Willis	1 00
R. Morrow, amount of Council rendered	12 00

FIRE, WATER AND GAS.

Councillor RUTHERFORD read the following report of the Fire, Water and Gas Committee: The Fire, Water and Gas Committee beg leave to report and recommend to the Council that in order to arrive at the best, cheapest and most efficient way of performing all the different works required to be done by the town team, your committee be authorized to ask for tenders for the same, the tenders to have the privilege of tendering with or without the required watering carts—two single ones or two pairs and to make the Committee to open tenders and report to this Council. All of which is respectfully submitted.

A. RUTHERFORD, Chairman.

The report was received and adopted.

THE MARKET.

Councillor MILLAR presented the report of the Market Committee, as follows:—

To the Mayor and Council of Peterborough:—

Your Market Committee beg leave to present their first report.

We have had under their consideration, By-Law No. 48, of the Corporation, which, in their opinion, should be amended as follows:—

Section 10, to be so amended as to permit the issuing of licenses for the sale of pork anywhere within the limits of the corporation, the fee for such license to be \$5 per annum.

Section 12, to be so amended that the hour in which slaughtering, &c., be prohibited, shall read eleven o'clock instead of twelve, as at present.

Your Committee would also recommend that the market fees be set at the present market clerk at the same rate as has been paid during the past two years, upon his furnishing satisfactory security to your Committee for the proper performance of his duties and payment of fees. All of which is respectfully submitted.

MELVILLE MILLAR, Chairman.

The report was received and adopted.

THE LICENSES.

Councillor RUTHERFORD read the following report of the License Committee:—

Your License Committee beg leave to report and recommend that the amount to be charged for apothecaries be \$100; for hotel and tavern licenses be \$200, and for beer and wine licenses \$200.

All of which is respectfully submitted.

A. RUTHERFORD, Chairman.

The report was received.

THE CORPORATION CHIEF.

Councillor GREEN presented the report of the Charity Committee, which recommended that the corporation clerk be given to Mrs. Tyler, who had agreed to sell to the corporation, in instalments, the whole amount to be paid in one year.

Councillor RUTHERFORD moved, seconded by Councillor KENDRY, that the offer of Mrs. Tyler be accepted, and that the necessary indorsements be signed by the Mayor and the Council.

The amendment was put and lost.

Councillor RUTHERFORD raised the point of order that the report involved an expenditure of money and required notice.

The Mayor ruled against the point of order. The motion to adopt the report was lost.

THE LICENSE BY-LAW.

The By-law regarding the liquor licenses for the ensuing year was introduced. The Council went into Committee on the By-law, Councillor Kelly in the chair.

After a great deal of discussion the fees were fixed at the following rates:—For apothecary licenses, \$100; tavern licenses, \$200; pool tables, \$100 each; billiard tables, \$50 for one table and \$20 for each additional table; pigeon hole tables, \$100; baggery tables, \$100; bowling alleys, \$50. The Chief of Police, assistant constables, and local license inspectors were ordered to see that the provisions of the By-law were enforced.

The Committee rose and reported the second reading of the By-law.

Mr. JOHNSON, Chief of Police, enquired who would have to pay the costs of a prosecution against a tavern keeper, under a charge laid by a constable, if the case were appealed? In one case that was appealed the constable had to pay the expenses.

The Mayor said that he would pay the costs. He thought that the Ontario Government and their inspectors were not doing their duty, and

the Council owed it to the respectable dealers who paid for licenses, to see that the law was enforced.

The By-law was read a third time and passed.

THE CREEK.

Councillor DOUGLAS moved, seconded by Councillor RUTHERFORD, that the Street Inspector have the ice cleared from the culvert on McDougal street and cut from under the bridges on Hunter and Brook streets, and such other bridges where it may be required, where parties owning private property adjacent to them do what is necessary.

Councillor CAHILL said that Councillor Rutherford had spoken of the money spent in this way last year as wasted, yet he now seconded a motion to have the same thing done.

Councillor YELLAND said that what Councillor Rutherford had objected to was spending money in cutting ice on the creek where it ran through private property.

Councillor DAVIDSON pointed out that it would do no good to cut the ice under the bridges if there was solid ice below them.

The motion was carried.

TENDERS FOR LUMBER.

Mr. W. J. MASON was heard in reference to an amendment which the grocers wished to have made in the by-law regarding tinsmith traders, which would compel persons who were from house to house with samples and taking orders for goods to pay for a license.

The matter was referred to the License Committee, and the Clerk was instructed to prepare a by-law in the meantime to make the amendment.

THE TORONTO BANK BUILDING.

A By-law to provide for the purchase of the Toronto Bank Building, to be used as Council Chamber and public offices, was passed through its several stages. This By-law was to complete the purchase of this property.

A NOTICE.

Councillor MILLAR moved, seconded by Councillor RUTHERFORD, that notice be given that the Council would on the evening of the 31st of March pass a By-law to give a portion of Murray street to the Mr. Hamilton manufacturing company.—Carried.

A CASE OF CHARITY.

The Mayor said that the Protestant Home authorities said that they could not keep the man Noble for the amount they were receiving, as he was now entirely helpless.

The matter was referred to the Charity Committee with power to act.

THE LICENSE FUNDS.

Councillor CAHILL moved, seconded by Councillor DAVIDSON, that this Council is of opinion that no portion of the funds derived from liquor licenses should be taken by any government, but that the same should belong to the municipality in which it is collected, except such sum as may be necessary to pay the salary and the legitimate expenses of the Inspector and Commissioners. Be it therefore resolved, that the Clerk be and is hereby requested to communicate with other municipalities with a view to securing their views upon the subject as early as a date as possible, and for the purpose of taking joint action in urging upon the government the justice of allowing the municipalities to retain the money accruing from liquor licenses, and that His Worship represent this municipality at such convention.

Councillor CAHILL said this was a good time to bring the matter up. Both governments which claimed to have jurisdiction over the licenses claimed to have surplusage, while this town was in debt.

The Mayor said that he was in accord with the principle of the motion.

The report was adopted.

GROCERIES AND LIQUORS.

Mr. GRIVIN was heard, and spoke in support of the petition asking the Council to separate the sale of groceries and liquors.

Councillor RUTHERFORD moved, seconded by Councillor KENDRY, that the petition be referred to the License Committee, and that when the Council adjourns it stands adjourned until the evening of Thursday, Feb. 28th.

Councillor CAHILL said that both the Dominion and Provincial Parliaments were legislating on the liquor question now, and he thought it would be better to leave it in their hands.

He moved in amendment, seconded by Councillor DAVIDSON, that when the Council adjourns it adjourn till the 20th of March.

The amendment was lost, and the motion was carried on the following division:—

YEAS—His Worship the Mayor, and Councillors Allen, Green, Miller, Yelland, Douglas, Rutherford, Menzies, Kendry and Hartley.

NAYS—Councillors Cahill, Davidson and Kelly.

THE ONTARIO AND QUEBEC.

Councillor DAVIDSON moved, seconded by Councillor CAHILL, that the Mayor be requested to have a private interview with the President of the General Manager of the Canadian Pacific Railway to urge the claims of Peterborough for at least a portion of the workhouse necessary, and a refreshment station.—Carried.

The Mayor said that he would send a copy of the resolution to those gentlemen at once, and ask them when he could have an interview.

TENDERS FOR LUMBER.

Councillor CAHILL moved, seconded by Councillor DAVIDSON, that the Street and Bridge Committee be authorized to advertise for tenders for the lumber to be used on streets and bridges for the current year, with power to award the contract.—Carried.

The Council adjourned.

Helping Children to Write Compositions.

Every parent/family understands how difficult it is to get children to write their first "composition". This, for all ordinary children, the most irksome task of anything which comes up in the routine of school work, and every sort of device and makeshift is resorted to for evading the duty. What strikes us as a very pretty and ingenious idea for greatly lightening the labor of such work, if not making it an actual pleasure, has lately been made a feature of a New York publication, the *Pupil's Companion*. It consists of the presentation of attractive pictures, amusing or instructive, but such as cannot fail to catch a child's fancy, about which the teacher asks the child to write. Among those presented, one shows a child seated on the grass with a plate of soap in his lap, but the soap is being spilled and the child is crying in dismay because a load has jumped on the plate; another is of a very pretty aquarium, which, besides its variety of fish, moose, etc., has a fine show of water lilies and other plants; a third is of a bird's nest in the crotch of an old tree, the baby birds reaching out for food which the parents are seen bringing to them, but underneath is a sign, put on by the proprietor of a farm house appearing near by, and which reads: "Furnished rooms to let—board, small family, no children." We do not believe most children of from six to twelve would count it a task to "write a story" on such subjects.

The Goods are NEW and FASHIONABLE, and all bought this season, so that the public may feel assured of obtaining GOOD VALUE and UNQUESTIONABLE BARGAINS.

As this Sale will only last for a few weeks longer, as the Stock must be cleared out within a limited time, no one should miss the chance of buying Good Staple Goods at EXTRA LOW PRICES.

A few Cases Boots and Shoes at a Bargain

From the Liver and Kidneys arise fully half the sickness. Dr. Carson's Stomach Bitters stimulates both Liver and Kidneys, and insures one against disease; it is not an alcoholic stimulant. In large bottles 50 cents.

Field Lightning
Is the only instantaneous relief for Neuralgia, Headache, Toothache, &c. Rubbing a few drops briskly in all that is needed. No taking nauseous medicines for weeks, but one minute's application lightens the pain. Twenty-five cents per bottle at John McKee's Drug Store.

The Greatest Healing Compound
Is a preparation of carbolic acid, vasoline and cerate called Medreger & Parley's Carbolic Cerate. It will cure any sore, cut, burn or bruise when all other preparations fail. Call at John McKee's, and get a package. Twenty-five cents is all it costs.

Buckley's Arnica Salve.
The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles or no piles required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Taylor & Macdonald.

Bewker's Ammoniated Feed for Flowers.
Plants like this feed, require constant attention, this done and they will grow and delight the whole household. To enable all lovers of flowers during winter months to enjoy them, nothing has yet been discovered equal to the "Ammoniated Feed for Flowers," sold by J. A. BISHOP, SEED MERCHANT, 101 N. W. 2nd St., Philadelphia, Pa. Sold by Druggists.

Itching Flies—Symptoms and Cure.
Thyrimphomastomosis, like perspiration, increases itching, particularly at night, seems as if pin-worms were crawling about the parts affected. If allowed to continue very serious results may follow. "SWAYNE'S OINTMENT" is a pleasant, sure cure. Also for tetter, itch, salt rheum, scald head, erysipelas, barberry itch, blotches, all scaly, crusty skin diseases. Sent by mail for 50 cents; 3 boxes, \$1.25 (in stamps). Address J. B. SWAYNE & SON, Philadelphia, Pa. Sold by Druggists.

Advice to Mothers.
Are you disturbed at night and broken of your rest by a sick child suffering with pain and cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste, and is the preparation of one of the best and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

Our Canadian Industry
is prosperous. The great difficulty to be contended with is the low grade of goods required. In nothing is this more apparent than in the comparatively small articles of sewing silks. The great demand in Canada seems to be for a cheap quality, buyers forgetting that a cheap thread must necessarily be a fine and consequently a weak one. Messrs. Belding, Paul & Co. make three grades of spool silk; of these different qualities the poorest one has by far the largest sale, at the same time they constantly hear of complaints of poor sewing silk. If ladies will take the trouble to ask for Belding, Paul & Co. own brand, and see that their name is on the end of each spool, they will be sure of getting the best made.

Shiloh's Consumption Cure.
This is beyond question the most successful Cough Medicine we have ever sold. A few doses invariably cure the worst cases of Cough, Croup and Bronchitis, while its wonderful action in the cure of Consumption is without a parallel in the history of medicine. Since its first discovery it has been sold on a guarantee, a test which no other medicine can stand. If you have a cough we earnestly ask you to try it. Price 50c. and \$1.00. If your lungs are sore, chest or back lame, use Shiloh's Force Plaster. Sold by J. D. Tully.

Farmers Please Consider This.

THE PERRY DAVIS PAIN-KILLER is a truly wonderful remedy and never fails when taken at the commencement of an attack to cure Cholera, Cholera Morbus, as well as all summer complaints of a similar nature.

For Sudden Cold, Sore Throat, &c. A teaspoonful of Perry-Killer taken at the beginning of an attack will give an almost never failing cure, and save much suffering.

For Toothache, Burns, Scalds, Cuts, Bruises, &c.

The Pain-Killer will be found a willing physician ready and able to relieve your suffering without delay, and at a very insignificant cost.

For Colic, Cramps and Dysentery in HORSES the Pain-Killer has no equal, and it has never been known to fail to effect a cure in a single instance. It is used in some of the largest heavy stables and horse infirmaries in the world. To remedy young lambs or other weak, chilled and dried young stock, a little Pain-Killer mixed with milk will restore them to health very quickly.

See The Pain-Killer is for sale by Druggists, Apothecaries, Grocers and Medicine Dealers throughout the world.

WILL CURE OR RELIEVE BILIOUSNESS, DYSPEPSIA, INDIGESTION, JAUNDICE, ERYSIPELAS, SALT RHEUM, HEARTBURN, HEADACHE, &c.

WILL CURE OR RELIEVE "DIZZINESS," DROPSY, FLUTTERING OF THE HEART, ACIDITY OF THE STOMACH, DRYNESS OF THE SKIN, &c. And every species of disease arising from disordered LIVER, KIDNEY, STOMACH, BOWELS OR BLOOD.

J. C. MILLER & CO., Proprietors, Toronto.

TENACIOUS!

Many customers cling tenaciously to the idea that it is to early too early for New Goods, and that they are apt to be much handled and shop-worn before being disposed of. Such is not our experience.

We find that customers are keen to select and buy from early arrivals in preference to purchasing after the stock has been picked over. We offer:

Lace Scarfs,
White and Colored Silk Scarfs
White Frillings,
Cream Frillings and Embroideries
Gemp, Mantle Ornaments
and Frogs.

New Prints, Orestones, Table Covers,
and Piano Covers.

We call special attention to our Black and Colored
Silks in Gros Grain and Ottoman Cord. The
latter being the newest material for Mantles.

LOCAL NEWS

Springless Truss.
Prof. Hotchkiss is now at the Grand Central
Hotel (Cass House). He defies the hernia
that he cannot hold. Go and see him. Will
be there until Saturday evening.

Babylon.
is a Musical Comedy in two acts. It is bright
and witty in dialogue, sparkling, with musical
gems from the latest comic operas as well as the
most popular airs. It is full of fun, such
as the most fastidious can enjoy.

Phrenology.
Prof. Canton, of Fowler's School of Phre-
nology, arrived in town yesterday, and is staying
at the Grand Central Hotel, where he will be
glad to receive consultations, especially from
the young who are desirous of learning the
callings for which they are best adapted in life.

Considerably Colder.
The weather probabilities for this district for
the following twenty-four hours, counting from
one o'clock this morning, as reported from the
Toronto Observatory, are as follows:—West to
north winds, cloudy colder weather, with areas
of light snow; considerable colder to-morrow.

A Gas Explosion.
In a gas explosion which occurred in the
Bank of Commerce, in Toronto, on Monday
morning, Mr. W. Dunford, formerly of the
Bank of Commerce, Peterborough, was wound-
ed, though, we understand, not seriously. The
explosion caused damage to the extent of \$2,000
or \$3,000, and injured several persons.

Religious Tract Society.
The annual meeting of the Peterborough Re-
ligious Book and Tract Society, will be held in
the Baptist Church, Aylmer street, on Monday,
the third day of March, at 7.30 o'clock p.m.,
the committee to meet at 7 o'clock. The agent
of the Toronto Tract Society and several other
ministers are expected to address the meeting.

From Mr. John B. Gough.
Dec. 30, 1881.
I am highly gratified, though not surprised,
at the wonderful success of the Royal Hand
Bell Ringers in the United States. From all
quarters I hear the most enthusiastic encom-
iums on their performances. For my own part,
having heard them on five several occasions
since their first appearance in Boston, I must
say that the more I hear them the stronger is
my desire to hear them again, and I must un-
hesitatingly commend them to all who desire a
pure and exquisite enjoyment.

JOHN B. GOUGH.
This Company will appear in Bradburn's Hall
on the evening of Friday, Feb. 29th. Reserved
seats may be obtained in A. L. Davis & Co's
bookstore.

The Horse Races.
The annual horse races on the Little Lake
course will be held on March 6th and 7th. On
the first day there will be three races, the Green
Race, Open Race and Colt Race, the prizes be-
ing as follows:—Green Race, 1st, \$20; 2nd,
\$10; 3rd, \$5; open to horses owned in the
county that have never started in a race. Open
Race—1st, \$50; 2nd, \$25; 3rd, \$15. Colt
Race—1st, \$10; 2nd, \$5; 3rd, \$4; open to
colts rising four years old, owned in the county,
that have never started in a race. The pro-
gramme for the second day is as follows:—
County Race—1st, \$30; 2nd, \$10; 3rd, \$5.
Colts' Race—1st, \$20; 2nd, \$10; 3rd, \$5.
Open to horses that have never won
public money, owned by hotel-keepers and
driven by their owners. Farmer's Race—1st,
\$10; 2nd, \$5; 3rd, \$4; open to horses that
have never started in a race for public money
and owned by farmers residing in the county.
A match race for \$300 has been arranged be-
tween "Harry B." and "Lundy's mare," to
take place on the second day.

Grand Opening.
On Monday the well known Dry Goods
firm of W. Fairweather & Co. announce in their
advertising column a large arrival of New
Spring Goods, and a Grand Opening Day on
Monday the first. The stock contains a valuable
collection and is to be sold Wholesale and Re-
tail at low prices.

An Ontario and Quebec Bridge.

The *Globe* says:—
"This is not very agreeable weather for mov-
ing about the country, but a drive of between
eight and nine miles out to the recently com-
pleted bridge of the Ontario & Quebec Railway
is worth the trouble. The bridge in question is
in York Township in a north-easterly direction
from Todmorden, and about three quarters of a
mile from the boundary line of Scarborough Town-
ship. It is certainly one of the finest structures
of the kind in the country, and the dizzy length
which it attains in its span over the prodigious
gulch through which the Don river flows at that
point is calculated to inspire both admiration
and wonder. The full length of the bridge is
820 feet, and its maximum height is 120 feet.
It is built wholly of iron, and is carried from
abutment to abutment on a series of tremendous
iron columns, which rest on pedestals of solid
masonry work rising above high water mark.
There are 11 spans of 30 feet each, 6 of 40 feet
each, and 6 of 50 feet each. The bridge has a
much more massive appearance than the ordi-
nary iron bridge, and is calculated to be strong
enough to withstand four or five times the strain
that it is probably will ever be brought to bear
on it. The total cost is about \$250,000. The
bridge was designed by Col. G. S. Smith, of St.
Louis, and erected by the Toronto Bridge Com-
pany."

Pencil Points and Council Chew-Chew.
—Mild weather.
—Ash Wednesday.
—A blank at the Police Court.

—There were six tramps in the police cells
last night.

—Will a certain Councillor explain what a
fiscal year is?

—There was a small attendance on the Market
this forenoon.

—Meetings of the License Committee and
Charity Committee will be held this evening.

—The petition presented to the Council asking
that the trade in groceries and liquors be di-
vided, was referred to the License Committee,
and the Council will meet on Thursday evening
to consider their report.

—It is said that one result of the beache-
lor ball will be, that there will not be so many
bachelors to hold a ball next year. We give
the bald statement as we received it, without
any explanations.

—Would it not save a great deal of time and
unnecessary discussion in the Council if that
body would adopt the parliamentary rule, that
what took place in committee, except so far as
is shown in the reports, could not be referred to
in the Council?

—Our Councillors are real innocents—in no
sense did they understand pool and billiard
tables. They disputed for half an hour, en-
deavoring to find out whether there was any
difference between them, and if so, what it
was.

—The fee for shop licenses was fixed at \$180,
an increase of \$20, and for tavern licenses at
\$200, an increase to the same amount. The
fee for a license for pool tables was fixed at
\$100; last year they were \$50 for one table and
\$30 for each additional table. A clause was
added to the license by-law, stating that it was
the duty of the Inspector, Mr. Beavis, to en-
force the law. The Provincial License Inspector
was severely criticized for not doing his duty,
and the Ontario Government came in for a
share of the blame.

NORWOOD.

THE ENGLISH PARSONAGE.—On Monday,
Feb. 4th, a meeting of the members of the
Church of England was held in the vestry of
Christ's Church, Norwood, to receive the re-
ports of those who had been appointed to raise
funds for the purpose of building a parsonage
for the pastor. Mr. Thompson, of Westwood,
had \$200 on his list. Mr. Patterson, of Norwood,
had over \$400 on his. A communication from
Belmont reported \$40 received in that section.
The Sewing Society has raised \$120, the West-
wood concert \$25, these sums together with
collections from these services making in all
about \$850. Such being the result it was de-
termined to proceed at once with arrangements to
build. A building committee was appointed,
consisting of the Incumbent, Mr. Grover, and
Mr. Jotcham. Mr. Wilkins kindly offered to
draw out the plans. When these are ready the
committee will advertise for tenders and proceed
with the building.—*Register.*

TOTOINO NEWS.

DAMAGES.—The suit of Mrs. Maron against
the city, for damages caused by falling on a
defective sidewalk on York street, has cost the
city \$808.83.

A SWINDLER.—A swindler is going round the
city collecting payments for city water bills. As
there are no water tax collectors authorized by
the city, this is a transparent fraud.

FIRE IN A FACTORY.—The brigade was called
out about ten o'clock the other morning. The
cause was a fire in the drying kiln at Burke's
factory, near the corner of Richmond and Shep-
ard streets. It took nearly two hours of hard
work to extinguish it. The kiln, which is a
brick structure and is built over the boiler,
detached from the main building, contained
about 6,000 or 10,000 feet of lumber belonging
to the tenants, Messrs. Nair & McColl. As it
was impossible for the firemen to play upon
the lumber with any effect, a hole was made in
the side of the building and the lumber was re-
moved.

SAD DEATH OF A CONSTABLE.—There is an-
other vacancy in the Toronto police force, con-
stable Patrick McGinnes having died in the
hospital on Sunday morning under peculiar
circumstances. A few weeks ago he was
suffering from that incurable disease consump-
tion, and was therefore devoted to his attention
to her. This, in connection with his own
arduous duties, seriously impaired his health,
but it was not until two weeks ago, when his three
children were stricken with scarlet fever, that
he applied for leave of absence to nurse them.
He was only offered one day, but as the week
was over he himself succumbed to an attack
of the same disease. The medical man of the
force thought the attack a slight one up to Sat-
urday morning when he paid his usual visit, but
shortly after his departure McGinnes became
delirious, and aid was asked from the station
to restrain him from doing himself and others
bodily harm. This was granted, and two of his
companions took him to the hospital, where he
died early Sunday morning. The news has been
kept from his wife who, with an infant a few
weeks old, is now at the point of death, while
the three remaining children are dangerously ill
of the fever.

A Blessing to all Mankind.
In these times when our Newspapers are
filled with patent medicine advertisements
it is gratifying to know what a remedy that
will certainly cure you. If you are Bilious, Blood
out of order, Liver inactive, or generally
debilitated, there is nothing in the world that
will cure you so quickly as Electric Bitters.
They are a blessing to all mankind, and can be
had for only fifty cents a bottle at Taylor &
Macdonald.

Cured Free.
Any reader troubled with Dyspepsia, Consti-
pation, Headache, Liver Complaint, etc., should
call at John McKee's Drug Store, and secure a
trial bottle of McKee's Speedy Cure at once
which will convince you of the merits of the
medicine. It cures permanently where all
other medicines failed. As a blood purifier it
has no equal. Remember it costs nothing to
try it. Regular size, fifty cents and one dollar.

Answer this Question.
Why do so many people we see around us
seem to prefer to suffer and be made miserable
by Indigestion, Constipation, Distress, Loss of
Appetite, Coming up of the Food, Yellow Skin,
when for 75c. we will sell them Shiloh's Vita-
lizer, guaranteed to cure them. Sold by J. D.
Tully.

A PHILOSOPHER says:—Live your life in such
a way as to show a contempt for wealth. That's
"us." We want our daily life so intermingled
with wealth, as it were, that familiarity will
breed contempt.

"Hub" Cough Cure, 25 Cents.
Prescription of a Boston physician, dispensed
years by a Boston Druggist. One dose will cure
any ordinary cough. It acts almost magically
with wealth, as it were, that familiarity will
breed contempt.

A YOUNG lady suggestively remarks:—"If it
was not good for Adam to live single when
there wasn't a woman on earth what shall be
said of old bachelors with a world full of pretty
girls."

**AND! We get up feeling badly, didn't rest good,
don't want breakfast, no appetite, no energy,
bad taste and bristling bile, we are Bilious. Two
doses Zappa will tone up our liver and our ap-
petite, and set us right. Ask J. D. Tully.**

A BANKER'S TESTIMONY.—For a Cough, Cold
or any Bronchial affection, "Fectoria," in my
opinion, is just the thing. I have used it in my
family for Coughs and Colds for the past four
years with the most untiring success, and to-
day my opinion of it is that I continue to think
it the most valuable of all the remedies I have
used. Geo. KERR, Manager Ontario Bank, Pick-

Prof. Hotchkiss's treatment is practical, rational and
economical. Its object is immediate relief and eventual
cure. It is based on scientific principles and
easily demonstrated to the comprehension of every in-
telligent person, that a truss without steel springs or
hard substance, having resorted to inguinal and Umbilical
as well as Vascular, at the advanced ages respectively
of from 55 and 65 years, must and will stand the test
against all Spring Trusses to children as well as adults.

Trent Navigation.

LAKEFIELD DAM.

Notice to Contractors.

SEALED TENDERS addressed to the Secretary of the
Department of Railways and Canals, and endorsed
"Tenders for Trent Navigation," will be received at
the Resident Engineer's office, Peterborough, until
FRIDAY, the TWENTY-NINTH DAY OF FEBRUARY,
1884, for the construction and completion of a
Regulating Dam, &c., across the Ottawa River at
Lakefield, on the Back Lake Division of the Trent
Valley Canal.

Plans of the work may be seen, and specifications
and printed forms of tender will be furnished upon ap-
plication at the Resident Engineer's office, Peterbor-
ough, on and after FRIDAY, the FIFTEENTH DAY OF
FEBRUARY.

Persons tendering are notified that tenders will not
be considered unless made on the printed forms sup-
plied, and prices affixed to the whole of the items
stated therein, and signed with their actual signatures.
Each tender must be accompanied by an accepted
bank cheque for the sum of \$150, made payable to the
order of the Honourable the Minister of Railways and
Canals, which sum shall be forfeited if the person ten-
dering declines to enter into contract for the execution of
the works, at the rates and prices submitted, sub-
ject to the conditions and on the terms stated in the
specification. If the tender be not accepted the
cheque will be returned.

The Department does not, however, bind itself to
accept the lowest or any tender.

DISTRICT INTELLIGENCE

LAKEFIELD.

From Our Own Correspondent.

REMISSION OF TAXES.
It seems a strange way of doing business to grant a remission of taxes on a factory and water power before a bargain for the same is arrived at between the two parties, but such was the case, it seems, with Mr. Chapin. The Lakefield Village Council passed a motion at its last meeting in favour of remitting the taxes on a factory to be erected by Mr. Chapin, evidently under the impression that the remission was in favour of Mr. Chapin, but it turns out that all this was done before any definite arrangement with the proprietor of the water was made, because they are not made yet. Under the circumstances it is clear that the Council really gave a bonus to the owners of the water, and not to the builders of the factory.

TO THE WEST.
Mr. W. C. Sanders and a couple of other parties are making preparations for going to the Northwest. It is expected a train or excursion will leave Peterborough for Manitoba and the Northwest on or about the 2nd of April next, and that the Lakefield parties will go at that time. Messrs. Sanders, Basile and Horner of this place took up land in the Northwest near Moose Jaw last summer. It seems that Lakefield will contribute a fair proportion, according to population, of the tide to the Canadian Northwest the ensuing season.

NEW DAM.
It appears that there is to be keen competition in the tendering for the erection of this new dam at Lakefield. Quite a number from this village are understood as tendering for the work. Competition is the life of trade.

CHAIR FACTORY.
The matter of the erection of a new chair and furniture factory is not yet settled.

AUCTION SALE.
Mr. Sanders is selling out his stock of goods by private sale during the day and by auction at night. To-morrow, Saturday afternoon, there will be an auction as well as at night. Great bargains are being given.

ORANGE MEETING.
The regular monthly meeting of L.O.L. No. 123, commonly called the Old Lodge, will be held in the Orange Hall on Monday evening next, 3rd inst., at 7 o'clock sharp.

MASONIC MEETING.
The regular communication of Clement Lodge of A.F. & A.M. will be held in the Masonic Hall, Lakefield, on Tuesday evening next the 4th inst., at 7:30 sharp.

KEENE.

From Our Own Correspondent.

THE REFORMERS.—I noticed in last week's *Examiner* an item from this place stating that your correspondent had made a false statement about the feeling of the Reformers concerning the Peterborough Registration. I state again that up to a few weeks ago the Reformers were doing all the "gnashing of teeth," &c., but lately the majority of these are swallowing the bitter pill and not saying much about it. The Conservatives saw that it was a family row, and of course did not interfere. The writer of the said article also shows his ignorance, or tells what he knows to be false, when he charges the Conservative party with "bigotry, intolerance," &c., and especially in applying to this township. Persons who think that they know the writer of said item place no more confidence in it than they do in the suspected writer.

MILLS.—The Keene mills are again in full running order, having been recently fitted with new machinery, and farmers can depend on good and quick work. See the posters for further information.

MASONIC.—Keene lodge 447, A.F. & A.M. meets on Thursday, March 6th at 7:30 p.m.

CHURCHES.—The Presbyterians held their annual missionary meeting on Monday evening last. In spite of the unfavorable weather the church was filled, and in the absence of other speakers, Rev. Mr. Andrews gave a grand address in behalf of missions. The subscriptions and collections amounted to nearly \$300. The bricks for the new church are nearly all here but the building committee have taken a week longer to consider which plan they will adopt. It is to be hoped they will adopt the first plan, which is by far the most appropriate. There have been several large brick drives from Peterborough for the new church, viz.: D. C. McIntyre, 950; T. Mathers, Sr., 1,000 and 1,100; Jno. Hope, 1,300; Jas. Elmhurst, 1,500. Who can beat this?

DEATH.—Mr. Richard Short's youngest boy died on Tuesday after a long and severe illness.

ROADS.—The roads are in fine condition now and grain is coming in large quantities to Keene station, where prices seem to suit the farmers.

HASTINGS.

PERSONAL.—One of our juniors, Mr. Robt. Howard, has accepted an engagement on the *Grip* staff.

CATTLE SHOW.—At a meeting of the directors of the East Peterborough Agricultural Society on Saturday, a suggestion was made that a spring show of stallions, bulls, and fat cattle to be held in this village about the middle of April, provided East Northumberland sends for that purpose. The suggestion was so favorably entertained that a motion was carried to grant \$50 towards a prize list, provided East Northumberland grant a like amount, and Hastings contribute \$100. The idea is a very good one and considerable benefit would be mutually derived from a meeting of the agriculturists of both ridings, on neutral ground as it were. It is to be hoped that our people will accept the proposition.

DARING BURGLARY.—On Thursday night or early Friday morning the store of Cobain Bros. was entered by burglars. What quantity of goods the thieves carried off is difficult to determine, though the vacant places in the shelves prove pretty clearly that at least a dozen bottles of brandy with a like number of cases of sardines and lobster tins, at least a part of the booty. That the burglars were in no hurry about the business, was evident from the state of the counter, on which stood six empty porter bottles, empty sardine and lobster cans, half emptied pickle bottles, fragments of crackers, &c., as suggestive evidence that a hearty lunch had been partaken of. An entrance was effected by the front door, on which, from appearances, a crow bar had been used, and strange to say that neither the noise, nor the early made in forcing an entrance or the jolli-fication down stairs, was heard by the two young men (Kean Hill and Hugh Murray), who slept up stairs, in the absence of Mr. E. Cobain and family.

A BIRTHDAY.

Under the spreading peach tree lay,
Smoking his pipe as close of day,
"Heigh-ho!" he said, with a sigh,
"I'm forty to-day, and I can't recall
What I have done with the years as all
They have fallen as unripe fruit will fall,
Heigh-ho! how the years go by!"

"I wonder what makes me think to-night
Of the little cottage, so still and white,
Down by the murmuring sea;
I wonder what makes my memory stray
To the one dear face so far away;
Mother! Mother! I'm forty to-day:
Will you remember me?"

"If a man could buy with his gold, or pale,
A year of his childhood's life again,
His faith and his purity,
I would go back to her love once more.
O, winds that blow to the great sea shore,
Whisper my name to the cottage door,
And bid her remember me!"

Just at that hour, in the shadows dim,
A loving mother was thinking of him,
Thinking with holiest prayer,
No wonder, then, in the evening still,
In spite of his wild and wayward will,
He felt his heart to her memory thrill,
And called her name as he lay.

"If mother and child are far apart,
How far is it from heart to heart?"
"Oh, faster than the bird can fly,
A thought or a memory to each
Is certain, and as subtle as speech,
It is just as far as a prayer can reach,
Or a mother's anxious sigh!"

that he cannot hold. Go and see him. Will
be there until Saturday evening.

Sociably Colder.
The weather probabilities for this district for
the following twenty-four hours, commencing from
one o'clock this morning, as reported from the
Toronto Observatory, are as follows:—Strong
winds and gales from north and north-west;
gradually clearing, decidedly colder weather.

Phrenology.
Prof. Canton, of Fowler's School of Phrenology,
arrived in town yesterday, and is staying
at the Grand Central Hotel, where he will be
glad to receive consultations, especially from
the young who are desirous of learning the
callings for which they are best adapted in life.

Remember, the Date
on which the Holman Opera Comedy Co. are
to appear is Tuesday evening, March 4th. Be-
cause your seats in advance. Sale of tickets
commences at 10 a.m. at Hartley's Music
Store to-morrow.

Railway Notes.
The Globe of Wednesday says:—
"As soon as the weather permits it is pro-
posed to proceed vigorously with the completion
of the track-laying on the Ontario and Quebec
Railway. Some 35 miles of track is still to be
laid. Thirty miles of this distance lies between
the new Don bridge, in York township, and
Myrtle, and the remaining eight miles near Peter-
borough. The masonry work and grading have
all been completed, so that the matter of lay-
ing the track will consume only a short period
of time."

The Ontario and Quebec engines here
are being fired up in order to recommence the work
on this part of the line.

From Mr. John B. Gough.
Dec. 20, 1881.
I am highly gratified, though not surprised,
at the wonderful success of the Royal Hand
Bell Ringers in the United States. From all
quarters I hear the most enthusiastic encom-
iums on their performances. For my own part,
since their first appearance in Boston, I must
say that the more I hear them the stronger is
my desire to hear them again, and I must un-
hesitatingly commend them to all who desire a
pure and exquisite enjoyment.

This Company will appear in Bradburn's Hall
on the evening of Friday, Feb. 28th. Reserved
seats may be obtained in A. L. Davis & Co's.

Presentation.
The members of Branch No. 30, O.M.B.A.,
Peterborough, previous to their marriage, as a
testimony of their esteem, presented Dr.
O'Shea with a handsome silver water pitcher.
The members proceeded from their hall to the
doctor's residence, where the president read an
address, expressive of their appreciation of the
doctor's good qualities and their good wishes
on his behalf, and made him the possessor of
the handsome article. Dr. O'Shea replied in
feeling terms returning his thanks, and ex-
pressing his recognition of the good wishes
expressed. The members passed a pleasant
evening together and then separated.

A Story of a Cat.
A produce dealer in town, having the posses-
sion of more animals of the feline species than
he required about the premises, gave a customer
who resides in Harvey a fine large cat. The
customer put the cat in a bag, securely tied
the mouth of the bag and placed it in his sleigh,
and his horses trotted off to the sweet strains
of back-yard music. No more was seen of the
cat until a week and two days after, when it
again made its appearance at the door of the
produce dealer's store, and when it was admit-
ted it hurried to meet its former companion, who
licked its face and made other demonstrations of
joy. The man who took the cat away lives
about twenty miles from town, and the question
is, how the cat found its way back.

FORESTER'S ANNIVERSARY

Celebrated by a Tea and Entertainment in
Court Peterborough Hall.

The fifth anniversary of the introduction of
the Order of Foresters was celebrated in the hall
of Court Peterborough on Wednesday evening
by a tea and entertainment.

The tea was a sumptuous one, the tables being
laden with edibles excellent in quality and abun-
dant. This form of celebrating the anniversary
was somewhat of an innovation, as usually a
formal supper was held, and toasts drunk and
speeches delivered. Well, the formal supper
gives one more to write about, in commenting
on the toasts and reporting the speeches, yet a
social tea, such as this one, is a very pleasant
affair, and on this occasion it appeared to be
thoroughly enjoyed.

After the tables had been removed Mr. J.
Bradford took the chair, and called the Chief
Rangers of Court Little John (Mr. T. Ruther-
ford), and Court Lakeside to the platform.

The CHAIRMAN then explained that they had
met to celebrate the fifth anniversary of the
introduction of the Order into Peterborough.
Four years ago last October there were only 400
members in Canada, and now there were nearly
4,000. The Order was a benevolent insti-
tution. The expenses connected with being a
member of it were small, and the benefits
large. It cost the members, at the outside
figure, \$13 a year, and they were insured for
\$1,000, besides receiving \$3 a week if they were
sick, and a physician free. The Order had now
a large surplus of money on hand.

Mr. F. W. Miller sang "If I was as young
as I Used to Be," in a manner that caused the
large audience to loudly recall him to the
platform. Mr. H. K. Coleman, having been
called on for a reading, commented on what
ladies had done in the field of literature, and
particularly on Mrs. Hemans's poetry. He re-
cited with good effect the poem "Bernardo del
Carpio." Mr. F. W. Miller sang "Mr. Morley
and I," a good song, and it was rendered in a
masterly manner. After a short intermission,
Mr. D. Galletly sang "Come Under My
Plaidie," and being encored, gave the "Laird
o' Cookpen" in his own inimitable manner.

Miss Ada Miller gave a humorous recitation
very prettily. Mr. Melton, of Lakeside, sang
"A Kiss and Nothing More." A trio by
Messrs. Galletly, Miller and James Billington,
"I Like the Farm Well Tilled," was the best
feature of the programme, and they richly
merited the hearty applause and loud recall
they received. Mr. Coleman read a chapter
from "The Blunders of a Bashful Man," and
the entertainment was concluded by the audi-
ence singing "God Save the Queen."

The organ used during the evening was supplied by
Mr. Irwin, and Miss Hattie Johnston played
the accompaniments for the vocalists with her
well-known ability. Although the committee
were disappointed by the unavoidable absence
of several whom they expected to take part in
the entertainment was very successful, and the
celebration of the anniversary a pleasant one.

Orange Officers.

At the annual meeting in Ottawa of the
Provincial Grand Black Chapter of the Black
Knights of Ireland, of Eastern Ontario, the
following officers for the coming year were
elected:—Grand Master, D. A. McFarlane, of
Keene; Deputy Grand Masters, J. A. Denison,
Kingston; Robert Robertson, Tweed; Grand
Chaplain, Rev. Dr. R. Smith, Ottawa; Deputy
Chaplain, Rev. A. Dawson, Plover, Rev. N.
H. Howard, Morven, Rev. G. S. White, Gan-
anoque; Grand Registrar, F. M. Clarke, Bal-
leville; Grand Treasurer, McCaughey, Cobourg;
Grand Deputy Registrar, L. McGowan, Nap-
es; Grand Deputy Treasurer, Capt. Wm.
Duncan, Castleton; Grand Lecturer, R. Mont-
gomery, Kingston; Grand Deputy Lecturer,
Jas. Blair, Napes; Grand Standard Bearer,
Samuel Tammon, Ivanhoe, R. Weir, Peter-
borough; Grand Censor, D. Hemwood, Nap-
es; J. Smith, Peterborough; Grand Pursu-
ivant, Thos. Graham, Tweed. Grand Commit-
teemen—Wm. Cairns, Ottawa; T. H. Camp-
bell, Peterborough; R. Lawrie, Kingston; T.
M. D. Croley, Peterborough; W. H. Whit-
comb, Cobourg; J. Ault, Madoc; Jas. Metcalf, For-
est Mills. Of the Provincial G. Orange Lodge
Mr. W. Johnson, Belleville, was elected Grand
Master; T. B. Collins, Millbrook, Deputy
Grand Master; and Dr. Anderson, Winchester
Springs, Junior Deputy Grand Master.

Chew-Chew.

—Cold and stormy.
—And the probe, say colder.
—Town Council meeting to-night.
—Six trams registered at the municipal hotel
last night.

—One of them was sent to gool for a month
this morning as a vagrant.

—Mr. G. W. McCall was elected Treasurer
of the Literary Society at Victoria University.

—The hotel and saloon keepers held a meet-
ing in the Oriental Hotel last night, to consider
matters affecting their trade.

—The question of separating the sale of gro-
ceries and liquors will be considered at the
Council meeting to-night.

—Mr. T. Cavanagh, of Peterborough, is an-
nounced to act as one of the judges at the Camp-
bellford horse races on March 6th and 7th.

—There will probably be a lively debate
when the divorce question comes up in the
Council meeting.

—A tramp got badly sold on Wednesday
evening. A gentleman purchased a bottle of
stomach bitters and was proceeding homewards
when the tramp snatched the bottle from his
pocket and made off. Some hours later a man
was placed in the cells by Constable Pidgeon
and the identical bottle was found in his pos-
session, but the police were not aware of the
manner in which it came into his possession
until this afternoon. A chum of the man who
stole the bottle said they thought it contained
whiskey, but the first taste undeceived them.

A temperance worker suggests that it would
not have injured them so much to take a little
of the bitters as it would if the bottle had con-
tained what they desired.

POLICE COURT.

VAGRANCY.

THURSDAY, Feb. 28.—C. Dolan was charged
by P. C. Adams with being a vagrant. He
said that he had been working on the railway
construction, and having got his foot frozen,
was not able to work yet. He was sent to goal
for one month.

Turnips for Sale.

Carton Bros. have about 300 bushels good
cooking Turnips left which they will sell cheap
to clear out.

The Holman Company.

The Holman Opera Company will be here
one night only, not two nights, as at first an-
nounced. They appear in "Bubbles" on the
evening of Tuesday, March 4th.

St. Patrick's Day.

A grand concert will be held in the Opera
House on the evening of March 17th, consisting
of vocal and instrumental music, when some of
the best local as well as foreign talent will take
part. The bills will be out in a few days.

Grand Opening.

On Monday the well known Dry Goods
firm of W. Fairweather & Co. announce in their
advertising column a large arrival of New
Spring Goods, and a Grand Opening Day on
Monday the first. The stock contains a valuable
collection and is to be sold Wholesale and Re-
tail at low prices.

tap at the Croft House.

Proposed Canal in Tarrity.

It is stated that Russia has invited England
to join in constructing a canal from the sea of
Aral to the Indian frontier.

Children Lunches.

There is something very dampening to the
appetite in the aspect of thick bread and butter
rolled in a bit of coarse brown paper, with a
cookie or two sticking to the parcel. The ap-
pearance of such a luncheon will often pre-
vent a delicate child from eating at all. A
little care spent in preparation—in cutting the
bread trimly and neatly, packing the cake in
white paper and the whole in a fresh napkin
placed in a pretty basket is not pains thrown
away. Some children are born fastidious and
with a distaste for food. They require to be
tempted to eat at all—tempted, not by un-
wholesome goodies, but by taking trouble to
make simple things dainty and attractive to
them. We have heard a grown woman whose
fastidiousness had survived her childhood, de-
scribes with a shudder the effect of her dinner
basket at school upon her. The very sight took
away all the appetite, and she went through
the afternoon faint and fasting rather than
meddle with its contents. By all means make
the custard in a pretty cup and do what is
possible to give the luncheon an appealing
appearance to the little people who depend upon
it for the working force of their long school
day.

In these times when our Newspapers are
flooded with patent medicine advertisements it
is gratifying to know what to procure that
will certainly cure you. If you are Bilious, Blood
out of order, Liver inactive, or generally
debilitated, there is nothing in the world that
will cure you so quickly as Electric Bitters.
They are a blessing to all mankind, and can be
had for only fifty cents a bottle at Taylor &
Macdonald.

Cured Free.

Any reader troubled with Dyspepsia, Costive-
ness, Headache, Liver Complaint, etc., should
call at John McKee's Drug Store, and secure a
trial bottle of McKee's Speedy Cure at once
which will convince you of the merits of the
medicine. It cures permanently where all
other medicines failed. As a blood purifier it
has no equal. Nothing is so soothing to the
stomach. Regular size, fifty cents and one dollar.

The Greatest Healing Compound.

Is a preparation of carbolic acid, vaseline and
cerate called McKee's Carbolic Carbolic
Cerate. It will cure any sore, out, burn or
bruise when all other preparations fail. Call
at John McKee's Drug Store, and get a package.
Twenty-five cents is all it costs.

Answer this Question.

Why do so many people we see around us
seem to prefer to suffer and be made miserable
by Indigestion, Constipation, Dizziness, Loss of
Appetite, Coming up of the Food, Yellow Skin,
when for five, we will sell them Shiloh's Vital-
izer, guaranteed to cure them. Sold by J. D.
Tully.

ANARCHISTS ransacked the village inn at
Argenteuil, France, on Monday night, killing
one man and wounding seven others.

Cough Cure.

THE members of the lower branch of Con-
gress are asked to stop smoking out of deference
to ladies in the galleries.

At! We get up feeling badly, didn't rest good,
don't want breakfast, no appetite, no energy,
bad taste and bad breath, we are Bilious. Two
doses Zepher will tone up our Liver and our am-
bition, and set us right. Ask J. D. Tully.

A BARKER'S TESTIMONY.—For a Cough, Cold
or any Bronchial affection, "Pectoral," in my
opinion, is just the thing. I have used it in my
family for Coughs and Colds for the past four
years with the most unvaried success, and to-
day my opinion of it is that I continue to think
but more of that which I began thinking well

Prof. Hotchkiss's treatment is practical, rational and
economical. Its object is immediate relief and event-
ual cure. It is based on scientific principles and
easily demonstrated to the comprehension of every in-
telligent person, that a truss without steel springs or
hard substance, having healed inguinal and Umbilical
as well as Varicose, at the advanced ages respectively
of from 60 and 80 years, must and will stand the test
against all Spring Trusses to children as well as adults.
Prof. H. having had 30 years' experience has become
master of his profession, and is able to cure the Hernia
he cannot hold in its place.

DEAR Sir,—In regard to my catarrh I can say after about four weeks treatment that I am entirely cured,
after being troubled for more than ten years with all the worst symptoms of catarrh of the head, such as
spitting of blood and matter, which dropped from my nose into my mouth—sneezing with closing my nostrils,
loss of smell, which has now returned, pain in my head, rendering me almost stupid, which disappeared in two
weeks after commencing your treatment. Hecking cough, &c. From my experience of catarrh, I consider
your mode of treatment the best in existence. Hoping that all may receive the same benefit, I remain, yours,

other Englishmen hold minor commands. The
arsenals are busy in the interior of the
island, and the Hovas hope soon to be able to
make an attack on Tamassave, now held by the
French.

Financial Reform in Egypt.
A Cairo despatch says Mr. Vincent, financial
adviser to the Khedive, is going to England to
urge enactment of financial reform, comprising
the suspension of the sinking fund provided for
under the liquidation law, a reduction of interest
on Government bonds held by England at 24 per
cent, the taxation of resident foreigners, and a
reduction in the army and civil administrations.
The total which is estimated will be realized by
these reforms is over one million pounds year-
ly.

A TERRIBLE ACCIDENT!

A TRAIN STRIKES A VEHICLE ON A CROSS-
ING AT LAKEFIELD.

The Occupants Thrown Out and Miss Reid
Fatally Injured—She Expires without
Recovering Consciousness.

By Telegraph to the Review.

LAKEFIELD, Feb. 29.—Another sad chapter
was added to the list of fatal railway accidents
on Thursday afternoon, Feb. 28th, when Miss
Elizabeth Reid, of Douro, daughter of the late
John Reid, met with an accident which resulted
in her death at a railway crossing at Lakefield.
The train from Peterborough to Lakefield,
which should arrive at that village at 1.40 p.m.,
was about one hour late. At the time the train
was nearing Nicholls's crossing, the boundary of
Lakefield, Mr. R. Q. Danch's team and sleigh
driven by a young man named Jory, was ap-
proaching the same crossing. The sleigh con-
tained four persons besides the teamster, three
of whom, including Miss Reid, were in the
seat in the rear of the vehicle. Mr.
Miller, who was riding in the front seat,
with the driver, was the first to see the train
coming down upon them. He caught hold of
one rein, and stayed the team slightly, but not
sufficiently. The sleigh cleared the track with
the exception of about two feet of the back
part. The rear of the sleigh and the back seat
were struck by the train, and the occupants
were thrown out. None of those in the
vehicle were seriously injured, except Miss Reid,
who by some means received severe wounds on
the head and was also injured on the hip.

The train was stopped and the injured lady
was carefully lifted on board and taken to the
station, and from there she was removed to Mr.
Tate's residence. Dr. Caldwell was called in,
and everything done for her that could be ac-
complished by skill and attention, but she never
recovered consciousness and expired at about
nine o'clock in the evening. Mr. Chapin,
of Lakefield, removed the corpse to her home to-
day.

So sudden and so sad an accident has cast a
gloom over the whole village, as the lady
was much respected by all who were acquainted
with her.

TORONTO NEWS.

OSGOODE LITERARY AND LEGAL SOCIETY.—
A public meeting of this society was held on
Wednesday night at Osgoode Hall, with Prof.
Goldwin Smith in the chair. The debate was
on the resolution "That the liberty of the press
has degenerated into license."

THE POST-OFFICE.—Extensive alterations are
at present being made in the post-office build-
ing, for the purpose of providing better accom-
modation for the officials. The necessity for
these alterations is explained in the fact that the
business transacted in the office has been doubled
within five years.

THE CO-OPERATIVE BAKERY.—The committee
appointed at the public meeting held in the in-
terest of the co-operative bakery on Saturday
night met on Wednesday evening in Temper-
ance Hall. The chair was occupied by Mr. J.
McMillan. The meeting was called to prepare
a prospectus for the new association.

SALE OF CATTLE.—Mr. Henry Corby, of
Belleville, has sold 200 head of cattle which
wintered at his distillery for close upon \$20,000,
to Mr. John, of Cobourg.

LAST YEAR'S ARRESTS.—The annual report
of the Belleville Chief of Police shows that
789 arrests were made by the police last year.

CITY MISSIONS.—The money contributions to
the Belleville city mission last year amounted
to \$322, an advance on the previous two years.

SALE OF CATTLE.—Mr. Henry Corby, of
Belleville, has sold 200 head of cattle which
wintered at his distillery for close upon \$20,000,
to Mr. John, of Cobourg.

The Lanark Resolution.
The letter received by Speaker Carleton from
the friends of Lanark in Germany was not laid
before the House on Wednesday, as its accep-
tance and endorsement by the House might be
considered an interference with the internal
politics of Germany than could be at-
tributed to the original resolution. It is believed
Carleton will consult with the Committee on
Foreign Affairs and the State Department be-
fore presenting the letter. The document indi-
cates that the German Liberal element is very
bitter against Bismarck for returning the resolu-
tion. Guenther, of Wisconsin, intends to ex-
press his opinion of Bismarck when the matter
comes up.

France and Tongkin.
Prime Minister Ferry will modify the treaty
of Hue so that the inhabitants will be relieved
of the exactions of the Mandarins. The situa-
tion in Tongkin is excellent. It is believed
the capture of Bac Ninh will offer no serious
difficulty. The military operations are regarded
as almost terminated. It is reported that the
Annamites recently made an attack upon the
French near Hanoi. The result of the engage-
ment is unknown. The Chinese legation here
has received no information regarding it.

Terrific Storms in Minnesota.
St. Paul, Minn., Feb. 27.—The storm on the
Minnesota and St. Louis developed to-day into
the worst blizzard of the season. The running
of freight trains is abandoned, and passenger
trains are running on slow time. On the
Winona and St. Peter road all trains have been
abandoned until the weather moderates. On
the Northern Pacific it is very cold and stormy.
In the east some trouble is experienced from
the weakened track from floods on the Yellow-
stone end.

The Tongkin Campaign.
A Chinese reconnoitring party recently ad-
vanced within two miles of Hanoi, but retired
before the shells of the French. Sentries are
powerfully garrisoned, and works of defense are
being rapidly erected there. Houghes is also
strongly fortified.

DR. D. W. FAIRCHILD, of New York, says:
"Personally I believe in Phosphatine; I use it
myself, and in my family and practice. I pre-
scribe Phosphatine with a confidence I attach to
no other remedy. It is safe, it is effective." For

REVIEWS

DOMINION OF CANADA: We have before us a pamphlet published in London entitled "The Dominion of Canada, as it will appear to the members of the British Association for the advancement of science in 1884." It contains a paper read before the Society of Arts by Mr. J. G. Colmer, Secretary of the office of the High Commissioner for Canada, and an excellent map of Canada reduced from the official maps, and giving special prominence to our railways. Though particularly intended for our visitors next autumn of the British Association, its concise and clear information will be of great effect in making Canada better known and appreciated in the Old Country. Mr. Colmer has done another timely service to this country. The Marquis of Lorne was in the chair and introduced the lecturer, and Sir A. T. Galt, the Bishop of Saskatchewan and others took part in the discussion that followed.

HARPER'S MONTHLY.—The March number of Harper has for its frontispiece a beautiful engraving from a drawing by E. A. Abbey illustrating "Judith Shakespeare." The first paper is by W. H. Bishop giving a very full and interesting description of the great city of St. Louis, the letter press being most profusely illustrated. The same is the case with the next article, in which Mr. W. H. Bishop takes us with him on a tour along the "Yorkshire Coast." "The Early American Presidents," with portrait engravings, is Col. Higginson's historical contribution to this number. Mr. J. T. Trowbridge has a biographical and critical sketch of Will Carleton and Dr. E. M. G. Allardet, in "The Poetry of the Deaf," gives some interesting particulars of these authors under difficulties. A. F. Oskey's "Hints on Domestic Decoration" will no doubt be of use to many who want to give a more artistic appearance to their homes. "The Drainage of the Everglades," by W. W. Harnsey, with the accompanying maps, shows how science is making available those Florida drowned lands. The serial tales "Judith Shakespeare," by Wm. Black, and "Nature's Serial Story," by E. P. Roe, both fully maintain their old interest. Among the shorter tales "The Picture" by Charles Read, is the most noticeable, and among the poets the same pre-eminence must be given to Walt Whitman, with his original contribution. The editorial miscellanies are too well appreciated to need special mention.

Residence Burned.

The residence of Mr. James Stratton, on Gilmore street, was totally destroyed by fire this afternoon. A strong wind was blowing and the house burned rapidly. A portion of the furniture was saved. One of the horses which were drawing the fire engine, owned by Mr. Terrence Smith, dropped dead at the Corner of Charlotte and Park streets. Further particulars will be given to-morrow.

Temperance Sunday.

Sunday next has been set apart by the Bishop of Toronto as a day for offering up prayers on behalf of the cause of temperance. This is in compliance with a request from the Dominion Alliance. The Bishop has issued a pastoral circular, and, accordingly, there will be appropriate sermons preached in St. John's and St. Luke's churches on Sunday. The sermon will be preached in the evening at St. John's church.

Hope They are Correct.

GROCERIES AND LIQUORS

TO BE SEPARATED AFTER APRIL 30TH OF NEXT YEAR

By a By-law of the Town Council—Transient Traders The Market By-law—That For Infant Again—The License Fees—Communications.

A meeting of the Town Council was held on Thursday evening, according to adjournment. PRESENT—His Worship Mayor Cox, and Councillors Cahill, Davidson, Kelly, Green, Millar, Yelland, Rutherford, Menzies, Kendry and Hartley.

The minutes of the last meeting were read and confirmed.

COMMUNICATIONS.

From W. C. Nicholls, asking the Council to grant aid to Mrs. O'Neill—Charity Committee.

From James Murray, asking for assistance—Charity Committee.

From Mary Callaghan, asking for remission of taxes.—Court of Revision.

THE LICENSE FEES.

A petition was read from Groux & Sullivan and 117 others, asking the Council to reduce the fees imposed on liquor, billiard tables and pool tables.

Councillor RUTHERFORD moved, seconded by Councillor HARTLEY,—That the petition be referred to the License Committee.

Councillor CAHILL said that they might as well throw the petition under the table, as it had to be dealt with before the first of March. The grounds on which the petition were based were good, solid grounds.

Councillor CAHILL moved in amendment, seconded by Councillor DAVIDSON,—That the By-law fixing the amount of license fees be amended by making the tavern license \$180, the same as shops, and that the corporate seal be attached to this resolution and that the Mayor and Clerk sign the same.

Councillor KELLY said that when the petition was received in regard to the groceries and liquors, a gentleman was heard in reference to it. He wished to hear the views of those who presented this petition.

An opportunity was then given for anybody to speak either for or against the prayer of the petition, but no one offered to speak.

Councillor YELLAND said that at the last meeting, when they were considering the grocery-liquor petition, Councillor Cahill moved to postpone the matter two weeks, and Councillor Rutherford's motion now was, he thought, better fair play than that.

Councillor CAHILL explained that he made no misleading remarks in moving his amendment on that occasion, but Councillor Rutherford professed to treat this petition with great respect, while he intended the opposite.

The Council, at Councillor Yelland's request, read over the names on the petition.

A discussion took place as to whether the amendment would have any effect, if carried, in changing the By-law.

The amendment was lost and the original motion carried.

THE LICENSE COMMITTEE'S REPORT.

Councillor RUTHERFORD read the report of the License Committee, which was as follows:—Your Committee beg leave to report and recommend that the petition of the Rev. Mr. Terrence and 138 others, asking to separate the sale of groceries from liquor, be granted, and the By-law to be passed shall come into effect on the 1st of January, 1885.

We further recommended that the By-law affecting transient traders be amended by inserting the words "by sample or otherwise." All of which is respectfully submitted.

A. RUTHERFORD, Chairman.

The report was received.

THE DIVORCE BY-LAW.

A by-law was introduced regarding shop licenses, to give effect to the recommendation of the License Committee. The Council went into Committee of the Whole on the second reading. Councillor Millar in the chair.

On the reading of the first clause, Councillor KELLY said they had passed a by-law to grant twenty shop licenses, and he thought that it would not be in the interest of temperance to have that number of shops devoted exclusively to liquor in the town. He thought the number should be reduced. Some of the liquor dealers had from \$4,000 to \$5,000 worth of liquor on hand, and it would take them a longer time than would be given by the by-law to dispose of them. He could not vote for the by-law as it was.

Councillor YELLAND said that Councillor Kelly proposed to throw half a dozen men out of doors.

Councillor KELLY—There are only eight now.

Councillor YELLAND said that those eight complained that they could not pay the license imposed, and if that was so there was not so much danger of any more being started. He had been told that ladies in the town bought groceries in these stores, and had a pound or two charged more than was received, taking the amount of the balance in liquor, thus preventing their husbands from knowing it.

Councillor KELLY, in answer to Councillor Kendry, said that he would support the by-law if the number allowed to be issued were reduced.

Councillor HARTLEY said that there were only nine liquor stores now, and he did not think that the separation would tend to increase them.

The MAYOR pointed out that they could not enforce the By-law on January 1st if they issued licenses for a year.

Councillor RUTHERFORD said that the licenses could be issued for a year and they could then grant a rebate to make up for the four months. He understood that the By-law voted on in Toronto was to come into force on the 1st of January.

Councillor CAHILL objected to the By-law, because he thought that this Council had no right to interfere with a business recognized by law, and that had been carried on for a number of years. He candidly believed that the separation would not cause a decrease in the amount of liquor used. If a man kept two stores, any one could still go into the grocery and order liquor, and it would be sent to the house just the same. They might compel some of the men engaged in this business to go into bankruptcy, and that would not be desirable. He argued that the By-law would increase intemperance.

Councillor KENDRY said he was told that some grocers sold their groceries at a small margin and made their profits on the liquor. He did not believe that was fair.

Councillor CAHILL—And I don't believe it is true.

Councillor RUTHERFORD said that he had found out that they could not make the rebate as he believed. He therefore moved that the By-law be amended so that it would come into effect on the 30th of April, 1885.

The MAYOR asked whether it would be possible to make the By-law read April 1st, 1885, and allow the dealers a short time after that date to dispose of their stock.

Councillor MAYOR argued that the licenses could only be issued for a year.

The MAYOR said he desired to restrict the

liquor traffic as much as possible, but he did not wish to do anyone an injustice. He regretted that they could not have the By-law go into force on January 1st.

The amendment was carried and the clause was then adopted, as also the remaining clauses. The Committee rose and reported, and the By-law was read a third time and passed.

TRANSIENT TRADERS.

A By-law was introduced to amend the By-law regarding transient traders by making it apply to persons who go from house to house in the town with samples, to take orders.

The Council went into Committee, Councillor Davidson in the chair. After some discussion it was decided to postpone the passing of the By-law, to give time for further consideration, and the Committee rose.

THE SALE OF FRESH MEAT.

A by-law was introduced to amend the market by-law, in accordance with suggestions of the market committee made in a report presented by them at the last meeting of the Council. The Council went into Committee of the Whole, Councillor Kendry in the chair.

After a long discussion the Committee rose, and the matter was referred back to the Market Committee to go into the whole question of butcher shops, and the limits now prescribed in which they could not sell fresh meat.

THE BABY AGAIN.

Councillor RUTHERFORD moved, seconded by Councillor KENDRY,—That in order to save the town any further expense in regard to the child now with Mrs. Tyler, the child be given to Wm. Storms, the necessary papers to be prepared and signed.

After a long debate, the motion was declared lost on the following division:—

Yeas—Councillors Yelland, Rutherford, Kendry, Hartley.

Nays—Councillors Cahill, Kelly, Green, Menzies.

The Council then adjourned until the evening of Monday, March 31st.

Holman Opera Company.

The sale of tickets for the Holman Operatic Comedy Company's short season commenced to-day at 10 a.m., and indications are good for a crowded house. They have our best wishes, for they deserve it.

A Snow Blockade.

The severe storm on Thursday afternoon and night caused another snow blockade on the Midland railway. The afternoon train going to Toronto got no further than Ormance, and the train which should have come east was cancelled. The Grand Junction train arrived on time last night, but no trains were moving on the lines to-day, all of them having been cancelled.

A Blessing to all Mankind.

In these times when our Newspapers are flooded with patent medicine advertisements it is gratifying to know what to procure that will certainly cure you. If you are Bilious, Blood out of order, Liver inactive, or generally debilitated, there is in this world a medicine that will cure you so quickly as Electric Bitters. They are a blessing to all mankind, and can be had for only fifty cents a bottle at Taylor & Macdonald.

A Parisian author has translated Shakespeare's line "Out, brief candle!" into French thus, "Get out short candle!"

THE MANITOBA MOVEMENT

Is True Inwardness Exposed—A More Reform Budge.

The true inwardness of the Brandon agitation which has been falsely called the "farmers' movement" by way of a kind of cloak, has at last been exposed to view at a recent meeting of the Manitoba Rights League in Winnipeg. At that meeting Mr. Winter, of Brandon, said he had taken the position at Brandon that the only redress for our grievances would be through separation from the Dominion, and he had never had reason to change his views.

He said that two acts of the drama had already been played; the first was that of Dec. 19th, the next that of the delegates to Ottawa and their return; and if they are supported by the Manitoba Rights League in Winnipeg. At that meeting Mr. Winter, of Brandon, said he had taken the position at Brandon that the only redress for our grievances would be through separation from the Dominion, and he had never had reason to change his views.

BORCAYGEON.

COURT.—The Bobcay, an Independent says:—A Magistrate's Court was held on Friday, by S. W. Crabtree, J.P. Hugh Cameron was charged with entering the house of Charles Brown, in South Vernon, and striking Edward Moon on the head, knocking him down, and then kicking him in the face. The charge was proved, and the Magistrate in delivering his sentence mentioned that two warrants had been previously taken out against the defendant for kicking people; that if he performed his strict duty to the public he would commit him for trial before higher authority; but as such a course would place the defendant in a very serious position, and this was his first appearance before him, he should this time inflict a fine. The fine should be \$20 including costs, to be paid forthwith, or six weeks in the County gaol at hard labor. W. J. Edgar, who was mixed up in the same offence, was fined \$4 and costs, forthwith, or twenty-one days.

BALL.—A ball in the Town Hall, on Tuesday night was largely attended, and passed off most successfully. Mr. G. Kimble, and Mr. P. Hartnett managed the affair with tact and good judgment, and succeeded in having every one thoroughly pleased with the night's enjoyment. North and South Vernon, in the latter Galway, Emily, Ennismore and Somerville, all sent representatives of their youth and beauty. The dresses were most elaborate, the music by Prof. Massau and Mr. Wolfram penetrated to the inmost recesses of the young ladies' hearts, bright eyes flashed with unexpressed delight, and even the walls of the hall fairly cracked with joy. At about midnight an adjournment was made to the Rokeby House for supper. The preparations for the supper were all that could be wished, and gave every satisfaction. After supper some prize dancing was done, Mr. Jas. Wallbrook took first for clog-dancing, and Miss Dawney, of Emily, was pronounced the best waltzer. Dancing was continued till break of day, when all went home, tired but happy.

KINGSTON NEWS.

THE BARRACKS.—A Mardi Gras was held at the barracks on Wednesday night. It was a grand success.

HASTY THREATS.—A woman named Mr. Potts threatened to shoot her next-door neighbor because she thought she was watching who went into her house.

AN UNEXPECTED FORTUNE.—Wm. Whittington, the head-waiter in the Burnett House, has secured a fortune of \$5,000 by the death of a great aunt in England.

MINDEN.

THE CHEESE FACTORY.—The Baboaygeon Independent says:—The cheese factory continues the main topic of conversation. It is most favorably entertained. The grazing facilities of this country are unsurpassed. The breed of cattle though greatly improved of late years, needs still further improvement. It is a pity that the bright eyes flashed with unexpressed delight, and even the walls of the hall fairly cracked with joy. At about midnight an adjournment was made to the Rokeby House for supper. The preparations for the supper were all that could be wished, and gave every satisfaction. After supper some prize dancing was done, Mr. Jas. General Gordon's Mission.
The chief duty entrusted to General Gordon is the difficult and delicate one of conciliating the various tribes scattered throughout the Sudan, with the ultimate object of bringing about some arrangement between the several conflicting elements in that country. General Gordon, however, was distinctly given to understand that the Government strictly adhere to their policy of non-interference in the Sudan. The General was further informed that he will be the accredited agent of the British Government. He will take his future instructions solely from Sir Evelyn Baring as the mouthpiece of the British Government, and will be in no way accountable to the Khedive or any Egyptian authority. Gen. Gordon was so sufficiently satisfied with the terms of his engagement that he completed his personal arrangements within a few hours, and left Charing-cross Station by the Indian mail accompanied by Colonel Stewart, who will act as the General's Chief of staff and confidential assistant generally. So quietly were General Gordon's arrangements made that the only persons who assembled at the station to wish the gallant Lord Wolsey, Colonel Brackleyburch, and Lord Hartington's private secretary. General Gordon will not go to Cairo, as his instructions are to get to Suakin with the least possible delay.

Toronto University.

Messrs. R. E. Kingston, C. W. R. Biggar, D. A. O'Sullivan, W. G. Eakins, and W. F. W. Creelman waited on the Minister of Education on Wednesday in behalf of Convocation of the University of Toronto to present a draft of the proposed bill to amend the University Act. By the amendments it is proposed to confer on Convocation the power to require fees to be paid by members for being entitled to vote at the election of Chancellor and members of the Senate; to give increased facilities for calling meetings of Convocation; to confer on country delegates the power to vote in Convocation according to the number of members which they represented. Mr. Rose said he was favourable to all the clauses, but reserved the last clause to be considered by his colleagues. He proposed to introduce an amendment as to the representatives of High School Masters on the University Senate, making the number two instead of one. The deputation then withdrew.

An Elephant's Memory.
An incident which corroborates the many stories as to the sagacity of the elephant has occurred at Bolton (England), where Wombwell's Menagerie has been on exhibition. Four years ago the same collection was in the town, and on that occasion, on being released from his van, a large elephant walked across the Town Hall Square to a public house, and protruded his trunk into the lobby. The barmaid supplied the animal with refreshment, and the keeper, who had been in search of his charge, then conducted him to his den. On being released at the breaking up of the show this year the same elephant broke away at a brisk trot in the direction of the hotel, and the unwelcome charge upon the premises greatly alarmed the inmates. The former barmaid, now the landlady, arrived on the scene, and recognizing her old friend, once more regaled him to his heart's content. The elephant then submitted to be led away by its keeper.—Derbyshire Advertiser.

A Russo-German Bond of Union.
The St. Petersburg Gazette says the joint endeavours to preserve the peace of Europe will, no matter what changes occur, always form a bond of union between Russia and Germany.

A Costly Ram.
J. M. Wheelock, who has just returned from Australia, informs us that J. Cummings, of Tasmania, bought a ram at an auction for which he paid 3500 guineas, about \$17,000. This ram was bred in Tasmania, and was about two years old. This shows the faith the Australian stock masters have in fine stock that will still further enhance the standard of their wool clip.—Cotton, Wool and Iron.

Tobacco and the Pulse.
Dr. Trolski has made a number of observations upon the effects produced on the temperature and pulse by smoking. He found that in every case, varying according to the condition of the individual there was an acceleration of the pulse rate and a slight elevation of temperature. If the average temperature of non-smokers were represented by 1,000, that of moderate smokers would be 1,008; and while the heart in the former case was making 1,000 pulsations, in the latter it would beat 1,080 times. It is in the latter effect that he thinks the danger of tobacco smoking is manifested.—Journal de Medecine de Bruxelles.

The Man Under the Bed.
Very funny things have happened with children in play, but the worst occurred to a star. I think it was Ada Gray who was going to play "East Lynne" in Richmond. On her arrival for rehearsal on the morning of the performance the child who was to represent "Willie" was not forthcoming. The stage manager assured the part that he had a child who had played the part before, and that it would be all right as "night." But the child was ill and could not come. The manager put his smallest ballet girl in the bed, but as she couldn't memorize the lines, he got under the bed with the prompt book. The star was staggered when she saw the length of the child lying beneath the clothes, but she struggled bravely on. W. I. the prompter's voice, disguised, but still harsh and hoarse, came out, star and audience alike titivated, but the lady made an effort and threw herself in simulated agony upon the bed. The property man had forgotten to take off the castors and away it rolled, leaving the stage manager and his prompt book fully revealed. That was the end of "East Lynne" for that night.—N. Y. Sun.

Let us be Charitable.
If there is one sin of the tongue which is more hateful than another, it is the sin of uncharitable charitableness. Every statement has its implications. Sometimes the most effectual way of slandering your neighbour is to express a charitable hope that he may not be as bad as some people have reason to think him. There is nothing which hurts reputation like suspicion and there is nothing which more directly suggests suspicion than the apparent reluctance with which one person acknowledges his hope that another person may be an honest man in spite of what he himself might say if he would. "I know that is not true of Mr. Asterisk," said one sharply. "I hope not," blandly responded Mr. Asterisk. "I will try not to believe it as long as I can help." Some time later Mr. Asterisk's reputation was abundantly cleared, and that from the very same source where it had been first called in question. "Now you see it has turned out all right," said the one who had expressed his belief in Mr. Asterisk's innocence. "Not whitewashed, I hope!" said Mr. Asterisk—who was of course, too charitable to speak uncharitably.—S. S. Times.

Covering an Editor.
A sensation was created about noon the other day on Washington street, Hagerstown, in front of the Hagerstown Bank by Mr. Andrew G. Boyd, correspondent of the Baltimore Sun in that city covering Mr. Ira W. Hays, publisher of the daily Evening Globe. Mr. Hays was lashed several times, but before any serious damage was done the men were separated. The assault grew out of a communication which appeared in a previous edition of the Globe, which said: "The penny-a-liner who has been filling the News with squibs over different signatures against the Citizens Committee is indeed a fit person to suggest to tax-payers what is wrong and what is right. It is well known that this ex-reporter and ex-editor of a defunct newspaper does not pay 1 cent of taxes, and it is very doubtful if his name was ever on the tax books. All the squibs that have appeared in the News, it is known, are written by this same person."

Matthew Arnold calls for England on March 5.

It is reported that the Garroyle breach of promise case has been settled.

James Gordon Bennett, it is stated, again test. His figure, which used to be graceful and elegant, is becoming bowed, and his hair is quite gray.

Edmond About, who has long been rich, now has a superb country house—an old castle. In winter he had his family live in apartments in the Rue de Donat, Paris.

Don't Say
Worthless remedies. Don't waste your money, but look into the claims of Fowler's Nerve Tonic, the best, quickest, cheapest, and surest remedy for all kinds of pain. It is only 50 cents a bottle. Even if no good you cannot be a great loser, and a 10 cent trial bottle will convince you at once that you never have used anything so good. Nerve Tonic cures vomiting, cholera, dysentery, cramps, neuralgia, headache, and the host of distressing complaints arising from nerve pain. Don't wait, but go to Ormand & Wale's drug store and get a 10 or 25 cent bottle of Nerve Tonic—Fowler's Nerve Tonic.

Cured Free.
Any reader troubled with dyspepsia, Constipation, Headache, Liver Complaint, etc., should call at John McKee's Drug Store, and secure a trial bottle of McKee's Speedy Cure at once which will convince you of the merits of the medicine. It cures permanently where all other medicines failed. As a blood purifier it has no equal. Remember it costs nothing to try it. Regular size, fifty cents and one dollar.

ON THE DEATH OF MRS. HARRY MOORE.

NO MAGIS NOW.
Faintly shone the stars of evening
Just before the close of day,
Winds of winter murmured sadly
As our darling passed away.

Once at last our circle's broken;
Lonely is our home to-day,
Our golden chain of love is broken;
The fondest link has passed away.

We are sad, so sad and weary;
Oh how oft our tears drop start,
Maggie dear we know is happy
But was hard, so hard, to part.

There is now no smiling welcome;
There are now no words of cheer;
There are no more loving kisses;
There's no darling Maggie dear.

Oh, we miss our angel Maggie
In the morn, at noon and night,
And the world seems dark and dreary
That was once so bright, so bright.

What is home without our darling?
Naught but sorrow, pain and care,
It is one long wall of anguish,
Oh my darling Maggie dear.

Far beyond this world of trouble
In a city bright and gay,
On the sweet, sweet shores of Eden
Dwells our darling once more.

Father look upon your children,
Smile upon us, bid us cheer,
Take us all at last to heaven,
There to dwell with Maggie dear.

WORKING-MEN AND THE CHURCH.

An evening contemporary has called attention to the fact, which has for some time been engaging his attention, that a number of working-men in Toronto have ceased to attend places of worship. These are not vicious nor do they sympathize with anti-Christian theories ostentatiously avowed by some. They are well affected towards Christian truth and church-going habits. What is true of Toronto is also true of other cities and large towns. In present circumstances unhappily this acknowledged evil has a tendency to increase.

A "Working-man" who speaking for himself and his class, says:—

"As a working man and knowing the position of many of the class to which I belong I have no hesitation in saying that many a man with a large family cannot afford to go to church especially in these hard times, for after paying his household expenses and giving up his children for church and Sabbath school, it leaves him on Sunday with an empty pocket."

When a man struggling with adversity and with little hope of better fortune, becomes cynical and says bitter things, it is neither wise nor kind to return railing for railing, but where find facts stated in a form and spirit so exceptionally good as that displayed by the correspondent who wrote the above, his views are entitled to the courteous and thoughtful consideration of every candid mind.

Omnipresent fashion makes itself felt in every sphere of human activity in the Christian Church. It was in the apostolic days. It was conspicuous in the age of the Emperor Constantine. It certainly has been present in it ever since. The Reformation did not drive fashion beyond the pale of the Church and it has remained with us to this day. There is no use in flouting as fashion, it will remain in spite of all that can be said, but certainly in the Christian Church it ought to have far less sway than it now has. A congregation of well-to-do people resorts to buy a handsome church edifice. No sooner are the graceful proportions of St. Matthew's completed than the congregation of St. Christopher's with less available wealth, determine on the erection of a temple that will be less than theirs. There is no surer sign of the times, and a heavy debt is incurred. All other congregations must follow suit and then must also follow ingenious expedients to furnish resources for maintenance and the liquidation of accumulating debt. These results, however, are by no means the worst. People like "working-men" are discouraged. They feel unequal to the pecuniary task imposed upon them as lavish displays are not exclusively confined to church adornment. There is a disposition, in general, happily, to a spirit of exclusiveness which people in moderate circumstances are not slow to feel. These are the people that drop off from our churches. No one will pretend to say that this is right, extenuate or explain it as we may.

The correspondent already quoted closes his sensible letter with a suggestion that is certainly entitled to serious consideration. In referring to the fact that some stay away from church because they are for the time being unable to contribute, he says:—

"To obviate this, permit me to suggest that on the Sabbath morning let those who can afford, and are willing, to be generous meet their double share in the plate, and in the evening let the churches of all denominations be open to the mass, when of course no collection should be taken up. By this means I venture to say that many a one will direct his steps to a place of worship. The church will not lose by it, but of the contrary will of itself in the end, for many will give freely when they have it to give."—Canada Freeholder.

A WONDERFUL DICTIONARY.

There has just been issued from the scholarly Clarendon Press in England, the first part of a six volumes work entitled "A new English dictionary, on historical principles, founded mainly on the materials collected by the Philological Society, edited by James A. Murray, LL.D., President of the Philological Society, with the assistance of many scholars and men of science." The aim of this wonderful work has been to use the words of the prospectus—"to present, as concisely as possible, the history of every word, and of all the different uses of every word, in the written language, not omitting those which have now become obsolete." To do this, twenty-five years have been occupied by more than 1,300 readers in pen and ink, 5,000 of the chief English writers of all times and ages, from the time of Chaucer to the present, have been collected from them some 3,000,000 distinct quotations. "The work," the prospectus proceeds, "is addressed not only to the advanced student of English literature, who will find it to combine a glossary of obsolete words with an etymological dictionary of the living language; or to the student of the sciences, who will learn from it at what date the technical terms with which he is dealing were introduced, and what modifications of form or sense they have since undergone, or to the professional philologist;—but also, and in no less degree, to the general reader, who will find here, ready to his hand, the derivation and accepted pronunciation, the past history and present use, of every word which may occur in his reading, and concerning which he may desire to be further informed."

Part the First.—A. A. contains 369 pages and subsequent parts will be issued as rapidly as is found practicable, and the work will be completed in six volumes, each containing four parts similar to that now published.

BLIND NEWSDEALERS.

"There are about thirty of us in the city," said a Third Avenue newsdealer, who is blind. He meant blind men who sell newspapers.

"Most of us own our own stands, and are doing a good business, too. I sell all kinds of periodicals on my stand, from fashion monthlies to railroad guides. Of course my principal trade is in the daily papers. I sell upwards of 200 *Suns*, for instance, every day."

"No, the public are not always ready to patronize a man because he is blind. At least, that is my experience. I have had customers leave me because they said I did not wait on them fast enough. But that, of course, was not true. I'm as quick as any of 'em yet, if my sight is a little out of gear. I have some very queer customers. Some of those who deal with me continually never speak a word. They pick up their papers, deposit their money on the stand and walk away in silence."

"The other day a gentleman complained that I had not noticed him once during the year and half he had bought papers of me. He threatened to quit. I had never heard him speak before, and did not know his voice. You ought to have heard him apologize when I told him I was blind."

"A good many of my customers are not aware of my blindness, and ask all sorts of ridiculous questions about pictures in the illustrated papers. A man once asked me to direct him in a choice between two comic papers. I did so. He took the one I selected, and seemed satisfied. In fact, he complimented my taste, and said he thought it agreed exactly with his own. Not long ago one of my customers who possesses a ponderous voice—he is a politician—asked me if I had read what appeared about him in one of the morning papers. I replied that I had not, but that I would gladly listen if he would have the kindness to read it to me. He became indignant. I learned afterward that the article referred to was of a disparaging nature, and I had difficulty in convincing him of my defective vision. But."

"Sun" said a young man with a light moustache, as he helped himself to a paper and gave the newsman a silver coin. "You have made a mistake," said the young man, on counting his change.

"I never make a mistake," answered the blind man.

"How much is the Sun?"

"Two cents."

"But I gave you a quarter, and you've returned only twenty-one cents."

"You gave me a Canadian coin, which is worth just twenty-three cents."

The young man bowed and said he had been enlightened against his will.

"How did you know that was a Canadian coin?" asked the reporter of the blind man.

"I felt."

"Can you tell that way?"

"Always. Give me any coin you like, native or foreign, and I'll tell its value. And as for American notes and greenbacks, why, I can tell 'em around the corner."

Psychical Research.

A body calling itself "The Society for Psychical Research" is addressing a series of what must surely be serio-comic interrogatories to the public in relation to "hallucinations" and "dreams." An invitation is thrown out to all the weak-minded people who think they have seen "ghosts" or "spirits," or been "touched" by mysterious shades, and to all the dreamers who dream dreams of the nature of "coincidences," to state their experiences.

Here is a grand opportunity for the mad folk outside Bedlam. If it were not for the trouble involved, we should like to pursue the mass of "communications" these invitations will be certain to call forth.

There are, however, some preliminary questions which ought to be asked. Indeed, has any society of men are at present removing the debris preparatory to its immediate erection. The work is by no means easy, however, as the whole structure is a complete wreck, and the progress made is necessarily slow.

SATURDAY, MARCH 1, 1894.

LOCAL NEWS

POLICE COURT.

SATURDAY, March 1.—Robert Larmour was charged with having made use of grossly insulting and abusive language towards George Tighe, janitor of the Central School, in the school yard. The quarrel was about his grandson, who was attending the school. He was fined \$10 and costs, to be paid forthwith, or in default of distress ten days in jail.

Carnival Prizes.

The prizes for the Grand Carnival next Friday night can be seen on Monday in the window of E. J. Hartley's music store.

Holman Opera Company.

Don't fail to hear Sallie Holman sing "Oh You Little Darling I Love You."—"But for goodness sake don't say I've told you."

The Temperance.

At present there seems little likelihood of yesterday's probabilities being verified. The spirit in the Rev. V. Clement's self-registering thermometer fell last night to 17° below zero. It has, however, since morning been rising very rapidly.

The Probabilities.

The weather probabilities for this district for the following twenty-four hours, counting from one o'clock this morning, as reported from the Toronto Observatory, are as follows:—East to north winds; fair weather; light local falls of snow; higher temperature.

Vital Statistics.

The number of births, marriages and deaths in the town of Peterborough, during the month of February, as registered with the Registrar Mr. C. D. Macdonald, were as follows:—
Births.....13
Marriages.....6
Deaths.....6

Corsets to fit any age or figure always on hand at Turnbull's. Special attention given to large sizes.

Grand Opening.

On Monday the well known Dry Goods firm of W. Fairweather & Co. announce in their advertising column a large arrival of New Spring Goods, and a Grand Opening Day on Monday the first. The stock contains a valuable collection and is to be sold Wholesale and Retail at low prices.

The Trains.

The storm having continued with unabated vigor during Friday it was impossible to have the Midland Railway lines cleared of the snow, and no trains were able to move during the day. No trains arrived or departed this forenoon, but the work of removing the snow went on, and it was expected that the trains would get through this evening.

Mr. Smith's Loss.

The horse which dropped dead while drawing the fire engine on Friday was a valuable animal. Mr. Terence Smith, its owner, sold it a short time ago for \$170, and he again became possessor of it by a trade. It was a spirited horse, and it is supposed that taking it out of the stable and causing it to assist in drawing such a heavy load on the bad roads was too much for it. It started out from the stable at once "on the jump," and it was so much overcome that it died at the corner of Charlotte and Park streets.

Now Maple Syrup!

First of the season just to hand. Also choice Mixed Pickles and Tomato Catsup. The above is sold by the quart or gallon. Also, by the pound, bright sun-dried Apples, evaporated Apples (light), evaporated Pumpkins, Raspberry, Plum, and Black Currant Jams. Fine Assorted Jellies, and other varieties too numerous to mention. Pure Apple Butter, try it. Evaporated Apples, cheap, three pounds for 25 cents. Lemons and large sweet Valencia Oranges in abundance, at CARTON BOOK, opposite the Market Square.

DESTRUCTIVE FIRE.

The Residence of Mr. James Stratton Destroyed by the Flames.

On Friday afternoon at about three o'clock the brick residence of Mr. James Stratton, Collector of Customs, Oilmour street, was discovered to be on fire. From Mr. Poussette's residence word was telephoned to the town and the alarm was thus quickly sounded. The firemen turned out promptly, and the engine was soon on the way to the scene of the fire. There is a tank at the corner of Charlotte and Park streets, and there the engine was to be placed, but while turning the engine into position on the platform one of the horses dropped dead. The horse had been laid from this place nearly to the burning house, but it was of no use. There was a high wind prevailing at the time and the house burned rapidly. As soon as the fire was discovered efforts were made to save the furniture, but everything in the upper story of the house, including all the wearing apparel of the family not then in use, was consumed. A portion of the furniture in the lower story was got out, but a great deal of it was damaged. The wind was so strong that after the fire burned a little lower than the roof the whole building was enveloped in the fire, and sheets of flames were streaming out of every opening, as if defying anyone to go near, and it was impossible to approach the house. The building was totally destroyed.

The fire originated from a defective flue in the wall between the main building and kitchen, and it commenced in the upper part of the house. The buildings were insured for \$2,000, and the contents for \$1,500, in the Royal, but Mr. Stratton believes that his loss will be \$2,000 over the amount of the insurance.

Holman Opera Company.

The sale of tickets for the Holman Opera Comedy Company's short season commenced today at 10 a.m., and indications are good for a crowded house. They have our best wishes, for they deserve it.

Royal Band Bell Bling.

We are sorry to have to inform the public that the effects of the late storm will prevent the above company appearing to-night; as was hoped yesterday. We may state, however, that it is their intention to give Peterborough an early date if possible. Meanwhile holders of tickets can have their money refunded by calling at A. L. Davis & Co's. store.

An Inexpensive Fire.

Some boys discovered the sheds connected with Mr. Brodie's residence, on Murray street, to be on fire, at about eight o'clock on Friday evening. They at once informed those in the house of the fact, and they exerted every effort to subdue the flames, and it needed every effort to accomplish that, as the wind was high at the time. However, a liberal application of water and snow extinguished the fire before much damage was done. If the flames had got much further headway another conflagration would probably have been the result.

Chew-Chew.

—Fine weather.
—St. David's day.
—Six tramps in the police cells last night.
—The month of March has entered cold but fine. Is it like a lion or a lamb?
—Mr. James Stratton lost a fine library by the fire on Friday afternoon, valued at over \$800.
—There was not a large attendance on the market this morning.
—During the month of February the unprecedented number of one hundred and twenty-four tramps lodged in the cells.
—People here are watching for the appearance of the Saved Army. They said they would come about March 1st, but no announcement has been made by them as to a meeting.
—It must be so. The question, "Do women wield a greater influence in the world than men?" was debated in the Peterborough Literary Society and in Carleton Lodge, I. O. G. T., and decided in the affirmative on both occasions.

Mr. Bookie, the new editor of the London Times, is only 33. He owes his appointment to Oxford friendship with young Mr. Walter. The Times will be managed by Mr. Walter, Mr. Walter, Jr., and Mr. Macdonald, with Mr. Bookie as a figurehead.
"Songs Unsung" is the name of a new volume by Lewis Morris, author of "The Epic of Hades." Mr. Gladstone has expressed strong admiration for this volume, which, it is therefore to be hoped, has more poetry and more originality in it than the previous works of Mr. Morris, who is not either the brother or the peer of William Morris, the singer of "The Earthly Paradise."

HIGH COURT OF JUSTICE

CHANCERY DIVISION.

In the matter of certain damages already done or hereafter to be done to certain portions of Lot Twenty-eight in the Eighth Concession of the Township of Smith, in the County of Peterborough, Ontario, by reason of the raising of a certain Dam at Lakeside, in the said County of Peterborough, to the extent of forty-three inches above the point marked by a decree and proceedings of the Court of Chancery in a certain suit wherein Laura Isabella Georgina Hague and James Patrick Templeton Hague, infants, under the age of twenty-one years, by Angus Crawford, their next friend, were Plaintiffs, and James M. Strickland, Charles A. Boulton, Alfred Passmore Poussette, Robert A. Strickland and John Rodgers, were Defendants, and in the matter of the Act of the Parliament of Canada, passed in the Thirty-first year of Her Majesty's reign, intitled "An Act respecting the Public Works of Canada," being 31st Victoria Chapter 12, and of the Act of the Parliament of Canada, passed in the thirty-seventh year of Her Majesty's reign, intitled "An Act to amend an Act respecting the Public Works of Canada," being 27th Victoria, Chapter 13, and of the Act of the Parliament of Canada, passed in the thirty-eighth year of Her Majesty's reign, intitled "An Act respecting the Office of Receiver-General and Minister of Public Works," being 32nd Victoria, Chapter 7.

NOTICE IS HEREBY GIVEN pursuant to the order of His Lordship the Chancellor, dated the Nineteenth day of February, One Thousand Eight Hundred and Eighty-four, that it appears by the notice of the Minister of Railways and Canals, filed in the Chancery Division of this Court, that the said Minister of Railways and Canals desires it to be constituted that a certain dam now erected at Lakeside and commonly known as the "Lakeside dam," in the County of Peterborough, should for the purposes of a certain Public Work of the Dominion of Canada, known as the Trent Valley Canal or Trent Valley Navigation Improvement, be raised to the extent of forty-three inches above the point marked by the decree and proceedings of the Court of Chancery, in a certain suit wherein Laura Isabella Georgina Hague and James Patrick Templeton Hague, infants, under the age of twenty-one years, by Angus Crawford, their next friend, were Plaintiffs, and James M. Strickland, Charles A. Boulton, Alfred Passmore Poussette, Robert A. Strickland and John Rodgers, were Defendants, whereby it is contemplated that certain damages have already been done or may hereafter be done to certain portions of Lot Number Twenty-eight, in the Eighth Concession of the Township of Smith, in the County of Peterborough, Lot Number Thirty, in the Tenth Concession of the said Township of Smith, and that the said Minister of Railways and Canals deemed it advisable to proceed under the provisions of the Act herein before mentioned in respect to the compensation money for such damages so done or hereafter to be done to the said lands and has paid into the Court to the credit of this matter the sum of Two Thousand Dollars, which in the opinion of the said Minister of Railways and Canals is sufficient compensation money for such damages so done or hereafter to be done to the said lands and has also paid in the sum of Sixty Dollars, being six months interest on said compensation money. All persons therefore claiming to be entitled to the said lands or any part thereof or to the compensation for such damages or any part thereof or representing or being the husband of any parties so entitled or claiming to hold or represent encumbrances thereon or claims upon the said lands or interests therein or upon the said compensation money are hereby required to file their claims with the Clerk of Records and Writs at Osgoode Hall, in the City of Toronto, on or before the EIGHTEENTH DAY OF MARCH, ONE THOUSAND EIGHT HUNDRED AND EIGHTY-FOUR, to the said compensation money or any portion thereof, otherwise any such claims will be forever barred, and an order will be made for the distribution, payment or investment of said compensation money without further notice. And notice is further given that on the twenty-fifth day of March, in the year of our Lord one thousand eight hundred and eighty-four, application will be made to the Court to the said Minister of Railways and Canals for such order in regard to said lands to such compensation money, which shall have been filed before the day hereinbefore appointed, and as to said lands or otherwise, as shall seem just and expedient. Dated this Nineteenth Day of February, A. D., 1884. (Sgd) GEO. S. HOLMESTED, Registrar of the Chancery Division of the H. C. J.

A REBEL DEFEAT.
CAIRO, Feb. 29.—Advice have been received
from Kassala that the garrison made a sortie on
the 12th and totally defeated the rebels.

ADVANCE POSTPONED.
General Graham telegraphs the difficulty of
advancing is so great the forward movement has
been postponed till to-morrow, when he expects
to make a rapid march.

FLAG OF TRUCE SENT TO OSMAN DIGHA.
LONDON, March 1.—The News understands
that Gen. Graham telegraphed to the Govern-
ment pointing out the possibility of a satisfac-
tory settlement being effected with Osman
Digha without bloodshed. Gen. Graham sent a
flag of truce to the rebels warning them to dis-
perse. He admonishes them as to the risk they
run by opposing the advance of Her Majesty's
troops. He also informs them of the conciliatory
nature of Gen. Gordon's mission. It is gener-
ally believed at Cairo the rebels will not be
deterred by this proceeding, and that the British
advance will take place to-day.

LONDON, March 1.—Despatches from Trink-
itat state that a battle raged all day yesterday.
The rebels fought desperately, and immense
numbers of them were shot down. The British
fought in a long square, and the rebels were
beaten at every point. Specialists to the Tele-
graph say the British were everywhere victori-
ous in yesterday's battle.

The rebels were found in force with two guns
at an old fort three miles from Fort Baker.
Firing opened on both sides and lasted a long
time. The rebels were repulsed after 1,000 were
killed. The British loss was ten killed and 40
wounded.

The Gordon Highlanders formed the advance
with two Gatling guns and one Gardner in the
left corner, and two Gardiners and one Gat-
ling in the right corner. The 9th Regiment
fought on the right side of the square, the Black
Watch regiments the rear. The whole strength
of the British was less than 4,000. The Husars
acted as scouts.

Then the British opened fire with guns and
rifles. The rebels fled rapidly and unsteadily,
and were at once ordered to disperse. The rebels
held their position desperately. There were 2,000 in
front and hundreds on the sides of the square.
When the British were within 200 yards of
the rebels rushed headlong with their
spears upon the British line. They fell dead
right and left. None of them bolted but fell
back sullenly. Having cleared the ground in
front the British attacked Fort Burnaby and
carried it after a desperate fight. They turned
two Krupp guns against the enemy, but the
Arabs contested every inch.

An official despatch says the British lost 24
killed and 102 wounded in yesterday's fight.
They captured four Krupp guns, two howitzers,
and one machine gun. A telegram received at
the War office states that four officers of the
English force were killed and eighteen officers
received wounds. Baker Pasha and Col. Burn-
aby were both severely wounded. Nine hun-
dred of the enemy's dead were counted in the
captured positions. The British troops entered
Tokar at noon on Saturday. A few shots were
exchanged with the enemy, when four thousand
rebels holding the town fled. Osman Digha is
encamped eight miles from Suakin, and a battle
with him is expected when the British troops
return.

Nilbilism in Russia.
The Czar has decided to convene a Superior
Council to consider the Socialist question, and
to enquire whether there really exists a power-
ful Nilbilist party, if so, what its wants are and
how to satisfy or crush them, as the demands of
the country may require. The council will be
composed of representatives of the ruling classes
and all the heads of administrative depart-
ments.

DOMINION PARLIAMENT.

THE SECOND SESSION OF THE FIFTH
PARLIAMENT OF CANADA.

An Unworthy Attack on Sir C. Tupper.—The
Opposition Leader on the Rampage.—
Fetty Spite Defeated.—The C. F. M. Loan
Bill Passed.—Amalgamation or Pooling
Prohibited.

SIR C. TUPPER'S POSITION.
Mr. BLAKE on Thursday claimed that Sir C.
Tupper's seat was vacated by his acceptance of
the High Commissioner'ship, and taunted him
with not voting. He argued that if Sir Charles
did not get his salary now he might some day,
and that he got an allowance for expenses. He
gave such extracts from Todd as suited his pur-
pose, and misrepresented the English precedents.
After terming Sir Charles' conduct an insult to
the House, he moved that his seat was vacated
and that a writ for Cumberland should issue.

SIR JOHN MACDONALD condemned the manner
in which Mr. Blake had attacked Sir Charles
Tupper in his absence. The leader of the Op-
position talked of Sir Charles sitting there as
an insult to the House, but he felt it no insult,
a remark which was endorsed by loud cheers.
The best authorities held that the seat was not
vacated by such an accumulation of offices.
Mr. Blake had quoted what suited him from
Todd, but a letter from that gentleman was in
favor of Sir Charles. Last session he was suffer-
ing from overwork, and it was hoped this vary-
ing of his duties would benefit him, which
happily been the case. He expressly concluded
him from taking a salary. He gave various
English precedents, including Mr. Gladstone
as Lord High Commissioner to the Ionian
Islands, whose expenses were enormous, and
Sir Stafford Northcote sent to Washington
at the same time as Sir John, and their expenses
were paid. He also gave a number of cases of
British Cabinet Ministers taking second offices,
which did not vacate their seats. He moved in
amendment that the matter be referred to the
Committee on Privileges and Elections.

MR. CAMERON (Huron) was very abusive. He
accused Sir Charles Tupper of deliberately violat-
ing the law by accepting his expenses. In
defiance of the commission under the great Re-
formers he said that Sir Charles could recover his salary
as High Commissioner in a law court.

MR. MILLER, who had shortly before taken his
seat, argued that no reference was necessary as
the seat was already vacated.

MR. CHAPLAIN, after protesting against the
unfair imputations against Sir Charles, who had
done good public service by accepting the office,
alluded to the unfounded charges of Sir Charles
former of his having any disconnection with the
Minister of Railways, with whom he was on the
most cordial terms. He rebuked Mr. Blake
for the virulence of his attack, affirming that
even if there had been any technical error,
which was not the case, in the manner of the
appointment, Sir Charles had only accepted it
for the public good. The law was aimed at
placing a member under undue influence by the
Crown, and was not intended to compel mem-
bers to pay expenses to which he might be put
in the service of the public. Those expenses in
Sir Charles' case were amply covered by his
great services in only one instance, where,
through his force of character and his personal
knowledge, he had prevented Canadian cattle
from being scheduled. He gave additional
English precedents for such appointments,
and concluded by saying that though he might
be attacked by the Opposition, Sir Charles
would be praised by the country for his ser-
vices.

MR. CARRIE had the temerity to cite the case
of Mr. Anglin's gratuity while Speaker for pre-
tended printing. Then he said that Sir Charles'
trip was for the benefit of his health, and he
objected to the country having to pay for its
restoration.

MR. WOODWORTH censured Mr. Blake for his
unfairness in this matter. The leader of the
Opposition was sure that Sir Charles had
vacated his seat, but he was not always right
in his law, for last session his contention as
to the seat in King, P.E.I. proved to be
founded upon an Act that was repealed.

As to Mr. Blake's taunt that Sir Charles feared
to go for re-election, Mr. Blake could not find
a man who dared oppose him. He referred to
Mr. Blake's excuses to avoid meeting Sir Charles
on a platform, and after being afraid to vote
himself. As to the answer at Mr. Abbott for not
voting, it showed that he had a sensitiveness
not possessed by Mr. Blake, who could vote
though described by Sir H. Tyler, the president
of the Grand Trunk as "our counsel in Cana-
da." He ridiculed Mr. Blake's boasts of his
services for his country, and said that Sir
Charles' one act of preventing the scheduling of
Canadian cattle had done more service than all
Mr. Blake's set speeches with no practical re-
sult.

MR. BLAKE rose in a rage, and used such ab-
usive language to Mr. Woodworth that after
some discussion he was withdrawn. He
said he was not afraid of Sir Charles Tupper.
He then had a passage of arms with Sir John
Macdonald, who showed that Mr. Blake had
garbled Todd, reading two sentences and omit-
ting the one between them that told against
him. Next he accused the majority of the
House of only being able to see through their
leader's spectacles, being called to order by
Messrs. Mitchell and Orton.

MR. WOODWORTH showed how Mr. Blake had
misquoted him, and said the leader of the Op-
position should be above such tactics.

The amendment in favour of a reference to
the Committee on Privileges and Elections was
carried by 122 to 57.

THE C.P.R. LOAN BILL.
SIR C. TUPPER on the third reading of the C.
P.R. Loan Bill moved the addition of a clause
prohibiting amalgamation or pooling with the
Grand Trunk, the Supreme Court to have ju-
risdiction to enforce this provision.

MR. BLAKE regretted that notice had not
been given so that this clause might have more
consideration. He said he did not believe in
monopolies, a very necessary assertion after his
recent tactics. He thought the Supreme
Court would have no jurisdiction till after the
case had been before the Provincial Courts.

SIR JOHN MACDONALD said there was a diffi-
culty, but the Provincial Courts could not act
satisfactorily in regard to a railway running
through several counties arising from mere police
jurisdiction.

MR. BLAKE moved to include the leased lines
in the security to be given by the C.P.R. to the
Dominion.

SIR CHARLES TUPPER objected to incurring the
responsibility for the obligations of the C.P.R.
in respect to leased lines.

MR. BLAKE'S amendment was negated by
122 to 58.

MR. BLAKE moved the C.P.R. must give
public notice of their intention to let, lease, or
sell any line of railway, and that no director or member of C.P.R.
might be interested in these contracts.

The amendment was lost.

MR. BLAKE moved that the C.P.R. accounts
should be audited by the Auditor-General.

The amendment was lost.

The bill was then read a third time and
passed.

THE "READER" MUDDLE.

Speech in the Budget Debate by the Member for West Peterborough.

The following is a full report of the speech made in the Budget debate by Mr. Carnegie, M. P. for West Peterborough, with his amendment condemning the Mowat administration for their dealing with the "Reader" question.

Mr. CARNEGIE on rising said he had listened, as he presumed most hon. gentlemen on both sides of the House had listened with attention to the financial statement now under consideration, and he fancied that most of those who were familiar with the preceding financial statements of the last half dozen years recognized in the present one much that was old and very little that was new, and that in the little that was new there was little that was of any practical value in the present discussion. For instance, the Provincial Treasurer had favored them with a multiplicity of figures from which he wished them to draw the comforting and desirable conclusion that we had reached the maximum expenditure that would be required for some years to come, at least in connection with all our public institutions except those for lunatics. But a little examination of the figures submitted would prove that

THEY WERE VALUELESS for the purpose for which they were quoted. Take his figures with regard to the central prison as an example. He gave the number of "inmates" in the central prison in 1875 as 701, whereas this was the total number of admissions—these figures being arrived at thus: Number in the prison at the close of 1874, 275; admitted during the year, 426, total, 701, but out of which 496 had been discharged during the year, leaving but 205 in that institution at its close. It was obvious that there never had been in the central prison at one time during 1875, 701 inmates, as stated by the Provincial Treasurer. For such a purpose the figures which he should have given should have been the average number of inmates for the year, and that he had not done so was, to say the least of it, a proof of carelessness which should not have been permitted in a statement of this kind and importance. But even taking his own figures they do not justify the conclusion which he seeks to draw from them. Because the number of his inmates decreased from 1,107 in 1882 to 996 in 1883 he wishes us to arrive at the conclusion that we had at least reached a maximum expenditure in connection with the central prison. But his predecessor could have, in the past, quoted figures to the same purpose. According to the hon. gentleman's own statement the number of inmates in 1877 was 999; in 1878—990; and in 1879—973, showing during these three, not two years a steady decrease, but notwithstanding this number of "inmates" jumped up in 1880 to 1,051. I think it is unnecessary to go further to prove that the mass of figures which the hon. gentleman quoted are utterly valueless for the purpose for which they were quoted. Then the Provincial Treasurer put forth

A CLAIM FOR ECONOMY in the management of these institutions because the per capita cost had somewhat decreased. Take again the Central Prison. He tells us that the per capita cost in 1875 was \$17.20 as compared with \$17.72 in 1883, or the magnificent decrease of \$1.18. But he did not, as I claim he should have done, tell us at the same time that the average number of inmates had increased from 250 to 297. No doubt because he is perfectly well aware that we have a right to look for a decrease in the per capita cost, with every increase in the number of inmates, and that viewed in this light, the slight decrease which has taken place is rather an evidence of extravagance than economy. (Cheers.) Then he says we are to have

INCREASED TAXATION. Although I fail to see how the figures submitted are to increase the tavern license revenue of \$95,400 in 1883 to \$200,000 in 1884, unless he hopes for an increased number of licensees, yet he does not say, as he should, that the proposed increase means just so much increased local taxation. (Hear, hear.) Take the Town of Peterborough as an example. The Council there had always fixed

the amount payable for a license as high as they thought the trade would bear. It had always been above the minimum, and in the year they were still further increasing it, and under the existing law every dollar of the amount paid over the minimum amount named in the Act went into the municipal treasury. By the proposition of the government each license was to be called upon, in towns, to contribute a further sum of \$30, which in Peterborough meant neither more nor less than the taking of between \$500 and \$700 out of the town treasury and putting it into that of the Province, and the consequence, the council in levying the rate for 1884 would just have to levy that much more on the ratepayers. And yet with the usual consistency of hon. gentlemen opposite, they were doing this while claiming a surplus, or over four millions. Actions however speak louder than words. (Cheers.) With regard to the Provincial Treasurer's observations with reference to the

STILL UNSETTLED ACCOUNTS

between this Province and the Dominion, he could not refrain from reminding the Hon. Commissioner of Crown Lands and his friends from Haldimont and Wellington, who now sat opposite, but who in 1870 and 1871, sat on this side of the House under the leadership of Mr. Blake, of the lusty manner in which they had during the sessions of those years endorsed Mr. Blake's denunciation of the then government because they had not in less than four years obtained a settlement of these very accounts. But here we were twelve, nay thirteen years afterwards, with these very gentlemen in power here for twelve years, and their friends in power in the Dominion for nearly five years of that time, with these accounts very nearly as far from being settled as they were when the time they denounce their predecessors for neglecting the interests of the Province in not having them settled. While I do not deem it expedient to enter into any discussion of the items of the claim just presented by the Dominion, I may be permitted to point out that according to the Treasurer's own statement, one of the two most important items in dispute relates to a claim made against us under the Robinson Indian Treaty—that this claim was first raised in 1873, and that they and their friends at Ottawa had agreed to submit the question to the courts for its decision, but that this agreement had never been carried out. Had it been this item of the claim would now have been settled one way or the other, and that it had not been so settled long ago is another, but only another, evidence of the desire of hon. gentlemen to prevent an early and just settlement of these accounts. Then with regard to the subsidy claim which had now been put forward for the first time in this House, he thought that whatever might be the purely legal construction of the Act of 1873, it was obvious that the intention at the time was that the Dominion should pay the subsidy, and both Provinces had acted upon that understanding; of course if Quebec could make out a legal claim to this back interest Ontario must also have it, but if it were only to be obtained as a matter of grace or favour, then why should his protest against this Province demanding it or becoming allies of the Province of Quebec for such a raid on the Dominion Treasury. (Cheers.) Hon. gentlemen opposite and the country do not require to be told that every dollar we would under such an arrangement get out of the Dominion Treasury the people of Ontario would have to contribute more than one hundred cents. That being the case it was not the economic policy of the Province to enter either a quarrel or a partial readjustment of the subsidies. There was also another reason why he objected to any unnecessary increase of these subsidies. The best and only real check upon Provincial extravagance, which he thought the party was in power—would be the check of direct taxation. So long as there was plenty of money in the treasury it would be wasted, as so much has and is now being wasted by hon. gentlemen opposite, while a very increase in the subsidies involved an increase in Dominion taxation. After the able manner in which his hon. friend from North Grey (Mr. Creighton) had already replied to the Provincial Treasurer it would be out of place for me to do with financial matters at any length. He would, however, like to say a word or two on two or three points. Much discussion had taken place both in and out of the House with regard to

THE SURPLUS, and there were a great many ways of looking at it. Treating the surplus as he believed it should be treated, and as it was treated at first, as the surplus of gross receipts over gross expenditures, he would call attention to the following facts:—Taking our gross receipts from Confederation down to the close of 1883, as given in our own public accounts, they amounted to \$42,800,637.88, and our gross expenditures to \$41,733,047.04, leaving a surplus of \$1,067,590.84, and if to this we add a profit of \$95,656.41, realized on the sale of investments made by the Macdonald Government, we have \$1,163,247.25; or precisely the sum to which the Dominion stock, deposits at interest and on current account amounted on the 31st of December last—a proof that his figures were correct. Now, taking this on the face of it, I am prepared to admit this would be a satisfactory showing, because it would show we were keeping within our means, but unfortunately when analyzed they proved the reverse. Taking from 1867 to 1873 in the same way we find that the receipts during that time were \$15,926,194.26, as compared with an expenditure of \$11,242,742.84, leaving a surplus at that time of \$4,683,451.42. From 1874 to 1883 inclusive, our receipts were \$28,876,438.62, against an expenditure of \$30,490,304.20, proving that during the last decade this Province has run behind \$2,613,865.58, or over \$260,000 per annum. (Cheers.) Of course in these figures he had accepted the figures in the public accounts as correct, notwithstanding that we have in the estimates now before us absolute proof that the

PUBLIC ACCOUNTS ARE WORTHLESS as a means of ascertaining our true position financially. (Cheers.) Why, sir, hon. gentlemen have had to come down to this House and tell us by their estimates that during the last four years they expended \$36,508 on Colonization Roads more than the House authorized them; more than they dared to acknowledge to the country; and what is worse than all, in direct defiance of the well understood law of Parliamentary Government and of their own supply bill. Here have these gentlemen who profess, and who upon the strength of these professions turned out a government in every way their superior, been for the last four years carrying forward an ever increasing balance of over expenditure, without the knowledge of the House, by using the money appropriated for expenditure to pay for the debts contracted during the preceding year. Now is this the only instance in which hon. gentlemen opposite have done the same thing. They did it before in connection with the Agricultural College, and he ventured to assert that the same thing is now being done in the Forest Range Department of the Commissioner of Crown Land. (Cheers.) Now Mr. Speaker, the sum involved in this matter of life consequence. If one hundred dollars can be carried over for years this way why not a hundred thousand. If our Provincial finances are managed in such a manner, that \$26,000 can be expended without the authority of this House, some of it nearly four years ago, what is to prevent \$300,000 being spent in the same way. (Cheers.) And if while we are told we have over \$400,000 to our credit, on current account we have but \$264,000, how do we know that we have any? (Cheers.) Were the financial affairs of any municipality managed with the same looseness as those of this Province it would speedily bring disgrace and loss of place to

those who had to do with it. (Cheers.) Now, Speaker, I think I have proved that the surplus on our cash transactions at most is little over a million of dollars, but as hon. gentlemen opposite may with some show of reason lay claim to some other items as partaking of the nature of such a surplus, I propose to give them credit for them before I say a word with reference to our own liabilities. The Treasurer claims credit in his surplus for the sum of \$364,319 of drainage investments. Now, while it is true this fund is in one sense an investment, yet it is of such a character that beyond the interest derived therefrom it cannot be touched without injustice to those who have as yet received no benefit from

THE DRAINAGE FUND.

This fund was created for the purpose of encouraging drainage by advancing money for that purpose at a low rate of interest and upon easy terms of repayment, and upon the distinct understanding that the principal as repaid should be available for reinvestment, and it is not only a simple act of justice to those who have not as yet participated in its advantages, but in the interest of the country that it should be retained intact. But apart from this consideration the present value of these investments is overrated. Under the Carling Act advances were made repayable in twenty-two annual instalments, and these rent charges are estimated in the above statement at the gross amount to be paid, not at their present value. But even at his own figure this addition only swells the surplus to \$1,700,000 exclusive of trust funds, which, as they were on hand at Confederation just as much as to-day, are not worth discussing in this connection. But, sir, when we consider this fund since Confederation are under \$2,000,000 we have incurred certain

LIABILITIES which must not be lost sight of. First, we have the railway debt, which of itself more than equals the whole surplus. In fact, if the present estimate of the Dominion surplus were as accurate as this debt it would be insufficient to meet our present engagements on this account beyond 1889. Whereas the last payment on account thereof does not run out until 1902. There is also the debt of that more terrible disease Consumption. Ask yourselves if you can afford for the sake of saving 50 cts., to run the risk and do nothing for it. We know from experience that Shiloh's Cure will cure your cough if never fails. This explains why more than a million bottles were sold the past year. It relieves cough or whooping cough at once. Mothers, do not be without it. To my mind, Mr. Speaker, hon. gentlemen opposite would be much better employed in tallying expenditure than in devising means whereby they may be enabled to continue their present extravagant career. Why, sir, they need not go beyond this House to find out where the grunting hook may be applied. The public accounts for 1883 show that

NINETY PERSONS WERE EMPLOYED in and about this chamber over and above the regular staff during the last session. Made up of 51 seasonal writers, 2 shorthand reporters, 28 messengers and 8 pages—90 for a House of 38 members—more than one to each member, and yet we get no returns. (Cheers.) I now come, sir, to the subject to which I more particularly wish to call attention—a question which although not directly connected with Provincial finances, is very directly connected with the pockets of the people.

DR. PINGEL,

CATARRH SPECIALIST

UNPARALLELED SUCCESS HAS FOLLOWED A NEW METHOD OF TREATMENT, WHICH, THOUGH SIMPLE, IS SO EFFICACIOUS AS TO RENDER

CATARRH OF TEN YEARS' STANDING

As curable as the simplest disease of the human body. The assertion that every case so far has been CURED PERMANENTLY in a few weeks, is made without fear of contradiction. See what a Sufferer of Ten Years says:—

BUTTERVILLE, Co. of York, Jan. 1, 1880.
Dear Sir,—In regard to my catarrh I can say after about four weeks treatment that I am entirely cured, after being troubled for more than ten years with all the worst symptoms of catarrh of the head, such as splitting of blood and mucus, which dropped from my nose into my mouth—smelling with clothing my nostrils, loss of smell, which has now returned, pain in my head, rendering me almost stupid, which disappeared in two weeks after commencing your treatment. Hacking cough, &c. From my experience of catarrh, I consider your mode of treatment the best in existence. Hoping that all may receive the same benefit, I remain, yours, SARAH DUNK.

Free and Painless Examinations of the inner portions of the nose by the most improved instruments of the age.

Will be at Grand Central Hotel, Peterborough, 5th to 7th March.

Persons at a distance can be treated by sending a letter, describing symptoms, to Dr. Pingel, Toronto.

TENACIOUS!

Many customers cling tenaciously to the idea that it is to early to offer New Goods, and that they are apt to be much handled and shop-worn before being disposed of. Such is not our experience.

We find that customers are keen to select and buy from early arrivals in preference to purchasing after the Stock has been picked over. We offer:-

White and Colored Silk Scarfs
White Frillings
Cream Frillings and Embroideries
Gimp, Mantle Ornaments
and Frogs.

New Prints, Crettones, Table Covers,
and Piano Covers.

We call special attention to our Black and Colored
Silks in Gros Grain and Ottoman Cords. The
latter being the newest material for Mantles.

Daily Evening Review

MONDAY, MARCH 3, 1884.

LOCAL NEWS

Parlour Social.

A parlour social in aid of St. Paul's Church
organ fund will be held at the residence of Mr.
Melville Miller to-morrow (Tuesday) evening.

The Temperature.

The Rev. V. Clement's thermometer registered
26° below zero on Saturday night and 13°
below zero on Sunday night.

Grand Carnival.

At the grand carnival on Friday, March 7th
the P. T. B. will play in costume on the ice,
and the celebrated Fire Brigade Band will play
a choice selection of music in the gallery.

The Probabilities.

The weather probabilities for this district for
the following twenty-four hours, counting from
one o'clock this morning, as reported from the
Toronto Observatory, are as follows:-Strong
winds and gales from the north and west; fair,
continued cold weather preceded by light snow.

Grand Opening.

On Monday the well known Dry Goods
firm of W. Fairweather & Co. announce in their
advertising column a large arrival of New
Spring Goods, and a Grand Opening Day on
Monday the first. The stock contains a valuable
collection and is to be sold Wholesale and Re-
tail at low prices.

Foultry.

We are informed that Mr. J. M. White of
Hall's Mills, received a very fine Langshan
Cockerel last week from the celebrated breeder
in Langhams, Mr. F. J. Greny of Brantford.
He also received a very fine Plymouth Rock
cockerel for Mr. John King, of Hall's Mills,
for the same gentleman. Peterborough fanciers
seem to take a lively interest in fine birds.

Temperance Sunday.

The Rev. J. W. R. Book preached a sermon
on "Temperance" on Sunday evening, in St.
John's Church, to a very large congregation.
This was in accordance with the request of the
Dominion Alliance, and in compliance with a
circular issued by the Bishop. The reverend
gentleman gave his hearers some good, sound
and sensible advice on the many evils and
wholesale misery that arise from the over-indul-
gence in intoxicating drinks, and also set forth
in a lucid manner the evils that accrue from the
excessive use of many of the worldly lusts that
are too apt to overcome and degrade the people
of this earth—counseling them to be temperate
in all things, and take for their guide God
and the Bible. The musical part of the service was,
as usual, good, the voluntary at the offertory
by the organist, Mr. Chas. W. Ewing, excelling
in many respects any music that the congrega-
tion has as yet heard on the new organ. The
multifarious and intricate effects produced on
the organ in the rendering of this music were
marvellous, and it was listened to with wraps
attention by those present.

skipped by the light of the Moon.
The following paragraph is from the Toronto
News of Saturday. Whether that paper is
correct in saying that the lady mentioned is
from Peterborough we very much doubt. It
says:-

"She is a widow, tall and graceful, and with
engaging manners. She boarded medical stu-
dents at \$4 per week at No. 234 Berkeley street.
She has now gone—no one knows where, but
many would like to know, especially her butch-
er, grocer, landlady, and several others who
have been touched in that most tender spot—
their pocket. Her name is Mrs. Annie Scott.
She came from Peterborough and opened a
boarding-house at the above address, and was
apparently doing a good business. On Wednes-
day Miss Law, be milkwoman, called about six
o'clock. At that time nothing in the house had
been disturbed, but when she called again at
six o'clock on Thursday morning the house was
vacant. So far as could be ascertained Mrs.
Scott has fled everyone with whom she has
had dealings. To Geo. Reid, the landlord, she
owes \$45; J. C. Howe, Butcher of Parliament
street, \$35; Mrs. Jenkins, who keeps a dry
goods store on Parliament street, owes \$3, and
Clancy's Brothers, furniture dealers on Queen
street east are let in for about \$30. There are,
however, a large number of other people who
trusted her for groceries and other articles who
use small amounts."

THE SNOW BLOCKADE.

It Lasts Two Days—The Roads Opened—An
Accident to an Engineer.

The storm of last week, although the fall of
snow was not the heaviest of the season, had
more effect on the railways than any previous
storm of this winter. On Thursday forenoon
the trains got through, but of the afternoon
trains on that day, those on the Grand Junction
alone succeeded in reaching their destination.
During Friday the lines were completely block-
ed, and the storm raged even worse than in the
previous day, so that no no efforts could be
made to re-open the communication. On
Saturday, the storm having abated, energetic
efforts were made to clear the tracks, but it
was not until after ten o'clock that a Grand
Trunk snow plough made its way up to Peter-
borough from Port Hope, followed by a pas-
senger train. The two days allowance of mails
arrived at about eleven o'clock on that night.

The snow plough, at about midnight on Sat-
urday, started out on the Missing Link with
three engines. It got stuck about three miles
out, and having backed up made another effort,
and succeeded in getting through the imped-
iment. As it did so, however, the lever of one
of the engines flew back unexpectedly and
struck the driver, John Cochran, of Port Hope,
on the side, breaking three of his ribs. This
occurred at about 4 or 5 o'clock on Sunday
morning, and the engine returned to town with
him, arriving here at 7 o'clock. A surgeon was
summoned, and his injuries having been attend-
ed to, he was taken to Port Hope. The plough
then started for Oshawa the second time at
about 11 o'clock and arrived at the village at 5
o'clock. Thus this part of the line was opened.

A snow plough which was being used on the
Grand Junction ran off on Sunday and was
damaged. Another plough ran off the track
near Lorneville, and was also broken. It was
taken to Lindsay.

The portions of the Midland line still closed
are those from Peterborough to Lakefield, and
to the North Hastings Junction, the Sutton
branch, the Coboonk branch and the road to
Hillborton. The lines from Lindsay to Port
Perry and Whitby are open. The road from
Port Hope to Toronto over the Missing Link and
the line between Millbrook and Lindsay are open.
The snow packed in very hard into the cuts, and
where there were drifts it was very difficult to
make a passage through them. The drifts that
were not very deep gave a great deal of trouble.

Holman Opera Company.

To-morrow evening at the Opera House we

License Inspector.

The Board of the License Commissioners
under the Dominion Act met on Monday, and
among other business they appointed Mr.
Charles O'Reilly, Deputy Inspector for that
part of the County of Peterborough, East of
Ashburnham and South of Lakefield.

Venerable's Predictions.

The weather probabilities given in Mr. Van-
der's almanac are as follows:-
"Stormy weather generally on 2nd and 3rd,
giving way to mildness again, with rains and
snow during the greater portion of the week;
some abrupt periods of warmth during the week;
stormy weather in lower maritime ports and
lake region; rains continue at southern point."

St. Peter's Cathedral.

We are glad to learn that his Lordship, Bis-
hop Jamot, has decided to enlarge and beautify
the Cathedral, Mr. John E. Belcher, architect,
having received instructions to prepare the
necessary plans. From his experience in eccle-
siastical architecture, we have no doubt it will
be treated in an artistic and practical manner,
and that the most will be made of the expendi-
ture in this direction as well as in seating
capacity.

New Maple Syrup.

First of the season just to hand. Also choice
Mixed Pickles and Tomato Catsup. The above
is sold by the quart or gallon. Also, by the

erous to mention. Pure Apple Butter, try it.
Evaporated Apples, cheap, three pounds for
25 cents. Lemons and large sweet Valencia
Oranges in abundance, at CARRON BROS., op-
posite the Market Square.

Sons of England.

At a recent regular meeting of Lansdowne
Lodge, Sons of England, the following resolu-
tion was adopted:-

"Resolved, that a vote of thanks from this
Lodge be tendered to Dr. Pigeon for his kind
services during the absence of Dr. Spradell, the
physician to the lodge, and that the same be
conveyed in writing to Dr. Pigeon by the Presi-
dent, Vice-President and secretary of this
Lodge."

On Saturday evening the President and Vice-
President carried out the instructions given in
the resolution. Dr. Pigeon returned thanks for
this acknowledgement of his services.

THE TEMPERATURE.

To the Editor of the Review.

SIR,—People here have a faculty of abusing
the North-West and calling it a frozen Arctic
region only fit for bears to live in. I received
this morning a letter from Winnipeg posted
Thursday night, the 27th February. I had a
parcel expressed to me in Port Hope the same
morning and it has not arrived yet. You can
easily judge which is the most severe country
to winter in. If it is a little colder in the
North-West they are never troubled with snow
blockades. It is just one year ago to-day that
I arrived from Winnipeg, and after a very suc-
cessful trip we got stuck in a snow drift at the
Yankee Bonnet, almost in sight of my own
house, and we were compelled to hire a team
and drive up on the river, the 3rd day of
spring.

Yours, etc.,
H. CALCUTT.

Peterborough, March 3.

POLICE COURT.

A CHARGE NOT PROVEN.

MONDAY, March 3rd.—David McCoy was
charged with having stolen sheep belonging to
Bartholomew Hays in September last. He
elected to be tried by a jury.

Mr. J. O'Meara appeared for the prosecution
and Mr. R. E. Wood for the defence.

A number of witnesses were examined, and
after hearing the evidence and the counsel, the
magistrate decided that the evidence was not
strong enough to commit Mr. McCoy for trial.
The case therefore fell through.

ENHIMORE.

From Our Own Correspondent.

WEATHER NOTES.—February on the whole
has been a mild month, the thermometer only
falling to or below zero five times the lowest,
being 14° on the mornings of the 24th and 29th.
The highest temperature, raised was on the 19th,
viz., 42°, making the average temperature of
the month 19°. February of 1882 averaged 21°,
and of 1883, 13°. Rain fell on six days to the
depth of one inch and 58-100 of an inch. Snow
fell on fifteen days to the depth of 19 inches
and 8-10 of an inch. Some severe gales occurred
during the month, the worst being on the 26th,
owing to the piercing cold and drifting snow,
having snowed during some days previous to the
fall of 5 inches, up our roads, making them
heavy for travel. At sunrise on the 1st of
March the thermometer stood 20° below, and on
the morning of the 2nd, 25° below.

A New Lumber Project.

The international bridge between Port Erie,
Ont., and Black Rock crosses an island in the
Niagara river known as Squaw Island, contain-
ing about 500 acres of good land, with a large
and valuable frontage on the river and Black
Rock harbor. A railway company has been
recently organized under the title of the Squaw
Island Railway Company, who are taking steps
to acquire possession of the island. It is said
with the object of building it up with wharves
and docks and making it a great railway and
shipping point for lumber and freight. The
Squaw Island Railway Company is believed to
be the New York Central and Hudson River
railway under a new title, and to them in a few
years the island would be worth several millions
of dollars. The Grand Trunk, which virtually
owns the international bridge, a possession
which, as previously stated, crosses the island
along its centre, and various property owners
about the river front down to Tonawanda,
which is ranking high as a lumber port, and
whose property is threatened by this move, as
well as various other railroads, will probably
bitterly contest the proceedings for the confisca-
tion of the island, and a long legal fight will
possibly follow the contest.

Personal.

Joaquin Miller is about to publish a Mormon
story entitled Sealed unto Him, in a western
paper. The hero is a Mormon elder, a fanatical
leader of the Danites, and the story is a tragical
one.

Modjeska has laid aside "Nadjezda" for a
while, in order to relieve her from the severe
strain which it imposes upon her strength. She
will appear in Shakespearean roles at the
Star for two weeks longer, when John Mc-
Cullough will succeed her.

Sir Henry Brand, on resigning the Speaker-
ship of the House of Commons, was offered a
peerage, but declined the honor. It has been
the rule that a Speaker on retiring should go
to the House of Lords. Sir Henry's reason for
refusing is that he is heir of the old barony of
Dacoe, which would be merged in the new
title. He accepts the pension of £2,000 yearly.

Attack on the Orange Society.

Mr. Thomas Sexton, M.P. for Sligo county
publishes letters from former Orangemen,
whose names and addresses are given, showing
that the Orange organization is a secret society,
revealing the mysteries of the ceremony of initi-
ation, and explaining that the objects of the
society are purely anti-papist.

A Warning to All Mankind.

In these times when our Newspapers are
flooded with patent medicine advertisement it
is gratifying to know what to procure that
will certainly cure you if you are afflicted with
out of order, Liver inactive, or generally
debilitated, there is nothing in the world that
will cure you so quickly as Electric Bitters.
They are a blessing to all mankind, and can be
had for only fifty cents a bottle at Taylor &
Macdonald.

"Hub" Cough Cure, 25 Cents.

Prescription of a Boston physician, dispensed
years by a Boston Druggist. One dose will cure
any ordinary cough. It acts almost magically.
Ask J. D. Tully for a 25 cent bottle of Hub
Cough Cure.

Symplocia and Liver Complaints.

Is it not worth the small price of 75 cents to
free yourself of every symptom of those distress-
ing complaints? If you think so call at our
store and get a bottle of Symplocia's vitalizer.
Every bottle has a printed guarantee on it, use
accordingly, and if it does you no good it will
cost you nothing. Sold by J. D. Tully.

FACT STRANGER THAN FICTION.—It is a fact
that Alonso Howe, of Tweed, had a fever sore
throat, and was unable to swallow. Six
bottles of Burdock Blood Bitters cured him,
which he considers almost a miracle. It was
but the natural result of the remedy restoring
pure blood and perfect secretion.

A BANKER'S TESTIMONY.—For a Cough, Cold
or any Bronchial Affection, "FACON" is my
opinion, is just the thing. I have used it in my
family for Coughs and Colds for the past four
years with the most unvaried success, and to-
day my opinion of it is that I continue to think
still more of that which I began thinking well
of. Geo. Kean, Manager Ontario Bank, Pick-
ering. Price 25 cents, at all druggists.

DANGER TRAPS.—Neglecting colds are the
fatal traps that ensnare many a victim be-
yond possibility of rescue. Take a cold or cough
in time and it is easily conquered by that safe
and pleasant vegetable remedy, Hagar's
Pectoral Balm. Asthma, Bronchitis and pul-
monary complaints generally soon yield to its
healing influence.

Daily Evening Review

TUESDAY, MARCH 4, 1884.

JUDGING OTHERS BY THEMSELVES!
The handsome eulogy pronounced by Mr.
Chapman upon Sir Chas. Tupper, and his
declaration of the cordial and complete good
understanding existing between them, have ex-
ploded another pet fabrication of the Reform
press, which is always assuming without founda-
tion that there is discord in the Conservative
Cabinet, the wish probably being taken for the
fact. No doubt also they remember their own
ungrateful treatment of Mr. Mackenzie and
judge others by themselves.

LIQUOR LICENSE FUNDS.

In our report of the proceedings of the Town
Council on Tuesday evening, Feb. 26th, the fol-
lowing appears:—
Councillor CAMILL moved, seconded by Coun-
cillor DAVIDSON, That this Council is of op-
inion that no portion of the funds derived from
liquor licenses should be taken by any govern-
ment, but that the same should belong to the
municipality in which it is collected, except
such sum as may be necessary to pay the salary
and the legitimate expenses of the Inspector
and Commissioners. He therefore resolved
that the Clerk be and is hereby requested to
communicate with other municipalities with a
view to ascertain their views upon the subject
as early a date as possible, and for the pur-
pose of taking joint action in urging upon the
government the justice of allowing the munici-
palities to retain the money accruing from
liquor licenses, and that His Worship represent
this municipality at such convention.
The Mayor said he was in accord with the
principle of the motion.
The report was adopted.

We would be glad to hear what steps our
Mayor has taken in this matter. It is one of
considerable pecuniary importance to our rate-
payers, and we cannot learn that any action
has been taken after this lapse of time. It is a
matter of urgency, for a measure affecting the
matter is now before the Provincial Legislature,
and any joint action would be too late unless
adopted at once.

STANDARD TIME.
Mr. MOWAT on Friday, in reply to Mr. Roe,
said that he was considering as to Legislation to
adopt standard time. He could not ascertain
that the Dominion Government or any of the
States were doing anything.

PRIVY COUNCIL AND LIQUOR LAWS.
Mr. BADGEROW moved for copies of the judg-
ments of the Privy Council in liquor cases, and
expressed his opinion that the Dominion should
repeal the McCarthy Act.

MUNICIPAL FINANCES.
Mr. GRAHAM moved for papers as to prayers
for the investigation of the financial standing of
municipalities.

ROUSSEAU POINT TIMBER.
Mr. PARDEE, in reply to Mr. Clancy, said
that Mr. Swartout had been appointed to take
charge of the Rousseau Point timber, and to
allow trees for ornamental purposes to be taken
at two cents a tree.

Arthur's Landing.

PAWNBROKERS.
Mr. BADGEROW'S bill to give municipalities
the right to regulate pawnbroker's establish-
ments was read a second time.

A PAPER CONTRACT.
Mr. ROSE (Huron) moved concurrence in an
agreement as to a paper contract. He said it
was the lowest tender.

Mr. CROFTON and Mr. Merrick objected to
the system of asking them to rally contracts
when the tenders were not brought down.
The motion was carried.

IMPERIAL PARLIAMENT.

LONDON, March 3.—In the House of Com-
mons this afternoon questions were put to the
Government regarding the condition of affairs
in Egypt, which the Government refused to an-
swer. Great excitement arose.

Sir Wilfrid Lawson (Radical) moved that the
House adjourn, in order to discuss the Sudan
problem. He violently attacked the Govern-
ment, charging it with cowardice, bloodguilti-
ness, butchery and jingoism.

The Marquis of Hartington, Secretary of
State for War, said the British would retire
from Sudan as soon as it was compatible with
the safety of that town.

The motion for adjournment was rejected by
105 to 103.

The Under-Secretary of State for the Colonies
stated that the Government recognized the Transvaal
title to the South African Republic. (Cheers by
Liberals, and groans by Conservatives.)

The Marquis of Hartington said it was not
the proper time to indicate the policy of the
Government in Egypt. The immediate object
was to secure the safety of the remaining
Egyptian garrisons and provide for the safety
of Sudan.

Mr. Gladstone replied to strictures of Sir
Wilfrid Lawson. He justified the policy which
the Government had been pursuing, and
asserted that it was necessary to hold Sudan
for the present in order to keep down the slave
trade.

Sir Stafford Northcote said the lack of
coherency in the Government's Egyptian policy
caused the misfortunes in the Sudan.

The Marquis of Hartington said the British
policy was to secure the safety of the remain-
ing Egyptian garrisons and provide for the safety
of Sudan.

The motion for adjournment was rejected by
105 to 103.

The Under-Secretary of State for the Colonies
stated that the Government recognized the Transvaal
title to the South African Republic. (Cheers by
Liberals, and groans by Conservatives.)

THE DYNAMITE EXPLOSION.

LONDON, March 3.—The authorities offer a
reward of \$1,000 for the detection of the authors
of the recent dynamite outrages. The police
are confident they will capture the Irish-
Americans who are suspected of being the per-
petrators. Four railway companies offer an ad-
ditional reward of one thousand pounds for
their detection. The landlord of the Waverley
hotel has identified the value seized at Charing
Cross station as one which a man took away
from the hotel.

THE TRINKITAT VICTORY.
LONDON, March 3.—There were great rejoic-
ings at Tokyo when the British entered. The
enemy acknowledged 1,500 killed. The am-
bassadors of all the powers have been in-
structed to compliment the government
upon General Graham's victory.

FENIANS ALARMED.
PARIS, March 3.—The French authorities are
adding the English authorities in their efforts to
discover the dynamite conspirators. The Fen-
ians it is said, have become alarmed, and are
preparing to move their headquarters from
Paris to Geneva.

**The English Press on the Dynamite
Explosion.**

The London Times declares that it is intoler-
able that England should be exposed to a suc-
cession of plots, not even secretly matured
from a nation professing friendship. English
laws against the manufacture of explosives
having driven conspirators abroad, they find a
safe harbour in America under a Government
which does not meddle with them. This, adds
the Times, is a state of things to which it is
not possible that England should submit, even
if America were hostile. This dynamite war
should not come within the limit of permissible
hostilities. It appeals to respectable Ameri-
cans, knowing that they are ashamed of the
inaction of their rulers, to make their voice
heard and obeyed. The Telegraph, admitting
the difficulties of the case, points out that the
Geneva arbitration established the prin-
ciple that the inadequacy of the munici-
pal law is no answer to a complaint
of a failure of due diligence in the ob-
servance of international obligations. It insists
that the definition of due diligence enforced
against England in the Alabama case would
now hold good against the nation from whose
shores a host of enemies more deadly than Con-
federate cruisers is continually despatched.

The Spectator observes that not only the Ameri-
can reputation, but American lives are endan-
gered by these monstrous villanies, and asks
whether England must wait for the sudden
destruction of a hundred leading Americans
and their wives on board a steamer carrying
dynamite machines before it can hope America
will perform the most ordinary offices of friend-
ship. It suggests that although Congress can
not compel the State of New York to alter its
laws, it can sanction a treaty binding both
nations to make conspiracy to injure foreign
citizens a penal offence. The English Gov-
ernment will probably make a friendly proposal
for negotiations of this sort. The papers of
every party and class express similar opin-
ions.

A Re-elected Liberal Re-elected

During the debate in the House of Commons
on Sir Stafford Northcote's Resolution concerning
the Government for its Egyptian policy, Mr.
W. T. Marriott, Liberal member for Brighton,
violently attacked the Government, which he
said had lost the confidence of the country, and
offered to prove the assertion by voting for the
resolution and then resigning and appealing to
his constituents for a new election. He did so,
and was re-elected by a largely increased ma-
jority.

**The North American Manufacturing Com-
pany.**

The North American Manufacturing Com-
pany, of London, Ont., shipped last week to

three additional carloads will be forwarded to
the same destination, making 150 in all. They
have also shipped three carloads of wagons to
the Ottawa district within the last two weeks,
and are busily preparing for the season's trade
in agricultural implements.

Kingston Salvations.

A man of the name of J. Ferris drove his
horse through the Salvation procession three
times at a furious rate the other day at Kingston.
He was thrown at the barracks door, and in-
stantly surrounded by a crowd, who would have
beaten him had not the sergeant rushed him
away and finally to the police station. Ferris
claims that the horse was frightened by the
drums. The case will be strongly argued in
court.

A Blessing to all Mankind.

In these times when our Newspapers are

DOMINION PARLIAMENT.

THE SECOND SESSION OF THE FIFTH PARLIAMENT OF CANADA.

Sir L. TILLEY's Financial Statement—Satisfactory Surplus—Canadian Credit Banks High—Further Remission of Taxes—Sir R. Cartwright Takes Abuse for Argument.

Sir L. TILLEY on Friday made his budget speech, which was received with satisfaction by the House. He stated that though there had been some commercial depression the credit and financial standing of the Dominion had never been higher. He claimed that this was the strongest evidence in favor of our tariff policy. Referring to the year 1883-84 he showed that the actual increase of expenditure on current account had been well laid out. The expenditure on capital account had not added a dollar to our foreign debt, being met by surplus of revenue, land receipt, savings bank deposit, &c. He proved that the expenditure per head since 1879 had been less than under the previous administration, being only \$4.81 as against \$4.84. The estimate for the receipts from customs of the current year had been set down to \$20,250,000, a reduction of \$1,350,000. This was partly owing to the great increase last year in importations, five million over the estimate last year, which proved to be an over-estimate. Then there had been a decrease in prices which affected the ad valorem duties. The whole estimated income for the current year was \$32,200,000, and the expenditure \$31,200,000, leaving a surplus of \$1,000,000, and with a similar amount from lands, a total surplus of \$2,000,000. Why this reduction from the preceding surplus of \$6,000,000? There was an increased expenditure on post office, mounted police, public buildings, &c., of \$2,250,000; then there was decreased taxation on tea, coffee, tobacco, postage, &c., of \$2,250,000. These two items largely accounted for the decrease. For 1884-85 the estimated income was \$32,000,000. One cause of the reduced income was the increase of home manufactures. The estimated expenditure was \$32,811,000, to which would probably be added supplementary estimates of about \$300,000. This, with anti-trust land receipts of \$1,200,000 would give a surplus of \$2,000,000. It ought to be satisfactory to the Opposition that the annual surplus to which they objected would thus be diminished by the remission of taxation and the reduction of importation. He argued that the tariff policy had carried out the promises of its advocates. Much of the surplus they had derived from duties paid by foreign manufacturers, yet their own factories had been fostered while goods had been raised in price. And the surplus had enabled them to pay off their predecessors' deficits, to spend large sums on public works, to remit taxes and to reduce their debt. Last year the net interest paid was \$200,000 less than in 1879-80. Certainly their tariff policy had been justified. He would continue the remission of taxes, and he gave a list of articles placed on the free list, mostly entering into manufactures. He detailed minor changes made in duties as shown by experience, the most important being a slight reduction on tea, sugar and molasses. It had been said that the tariff would damage our credit in England, but on the contrary our securities were higher than ever before, and from within the heart in England he had not the slightest doubt that we could redeem our maturing 5 per cent securities for 4 per cent, and could place any fresh loan that might be required on equally favorable terms. The \$1,000,000 loan was not a failure, as had been said, but it was a success, and of interest over offered, and yet he could have placed it all if he had accepted offers from abroad, but he was pledged to offer this loan in Canada. Between 1879 and 1883 we had reduced our debt held in England by \$2,000,000, and we had not gone to the English market for a dollar since 1879. So our securities stood 3 per cent higher instead of 2 per cent lower as of old—than those of New South Wales. It had been said that the tariff would operate against our trade in England and in favor of that with the States, but he showed by detailed figures that it had had just the opposite effect, our trade with the States having increased from \$27,000,000 in 1879 to \$32,000,000 in 1883. Our trade with Great Britain about \$22,000,000. So it was said that the tariff would check the through transport of foreign goods, but taking four year periods the average yearly increase had been over two million. So the tariff was a success and could not be both a revenue and a protective tariff, but the Opposition who complained of the surplus could not say it had not produced revenue, while it had greatly developed home manufactures, of which he gave a long practical example. Yet the manufactured goods were sold cheaper than before. There was an increase on some articles, but almost wholly upon those produced by our farmers, and yet it was said they did not benefit. As the tariff of bank stocks he had not quoted them as proof of prosperity in former years because he had thought them unsatisfactory, but he did allow them as a sign of bad times now because he believed them to be unsatisfactory, and he gave the causes for these fluctuations. As to the balance of trade the Opposition left out of sight the enormous importations for the O.P.R. and to settle the Northwest. He showed the fallacy of the charge that he had caused the United States to injure our farmers and millers by altering the barley and malt duties, though really our present duty was 30 per cent less than Sir R. Cartwright's. The fact was there had been a light in the United States between the brewers and millers and in the last session of Congress the millers had gained the victory. He showed the absurdity of the cry that the National Policy had caused depression when there was nearly as much depression in Canada as in Great Britain and the United States, quoting as his proof the statements of the Bank Managers as to commercial paper and the statistics of the savings banks. Sir R. Cartwright had prophesied that the bankruptcy this year would exceed those of the worst year of the Mackenzie Administration, but they had only been one half of those yearly in 1877-78, and a fifth of them were in Winnipeg, which had little enough trade in those years and where the circumstances had been exceptional. It had now been abundantly proved that the National Policy was more valuable in times of depression than in days of prosperity. The position and credit of the country were not so bad as they had been, and yet argued that no depression existed. He continued with great apparent satisfaction to urge that there was great depression and that both manufacturers and workmen were suffering. He mentioned the exaggerations of the Reform organs as to the number of bankruptcies, though they are so much less frequent than under his own reign. To controvert Sir L. Tilly's proofs that the tariff had favoured Great Britain against the United States he had to go all the way back to 1873 for a comparison. Amid much laughter he professed that he was the true friend of the manufacturers. He admitted that there was much distress in his time but urged that it prevailed in other countries also. He referred to

the downfall of Mr. Mackenzie as no new proof of the ingratitude of a country, but was promptly reminded that the ingratitude was that of his own party. After mentioning the large receipts from taxes as one case to which he attributed his asserted depression, he stated that another was the looking to, of so much capital in industries, though heretofore he and his friends have been vociferating that capital had not been attracted nor industries encouraged by the National Policy. The bogus exodus was another case. North-West settlement and absorption of capital another, and another the increased cost of living. He gave a very exaggerated estimate of our taxation, and then talked of it as a total loss, as if the money had vanished off the earth. Without being able to point out the extravagance of any portion of our expenditure, he said that his party would be much more economical if in power, an old prophecy which they did not fulfill when they had the chance. He then proceeded to state that his particular friends, the manufacturers, had grown rich at the expense of the working men. Because under the muddling policy of the Mackenzie administration the attendance of people in Ontario schools had diminished, he came to the conclusion that our population was diminishing. He claimed that under the policy of the Opposition the number of settlers in the North-West would have been more than four times as great, but did not explain why this excellent policy when in force had produced no settlement worth mentioning. He urged the people of the North-West to persist in their demands as just, reserving, of course, the right to have the government if it should wish to yield. He assented the loss to the country by the National Policy at \$50,000,000, and to the manufacturers (just described as growing rich by it) at \$10,000,000. In his usual scurrilous way he attacked the government, and then vilified the people of Canada for supporting it. Mr. THOS. WHITE, (Cardwell), moved the adjournment.

FROM ALL OVER.

A CONSTANTINOPLE despatch says:—The Porte grants America in the new treaty the same advantages accorded to other countries.

TO COUGH or not to cough is settled at once with a 25 cent bottle of "Hub" Cough Cure. At J. D. Tully's.

In the lodgings of Kasemmer, the anarchist arrested in Vienna, were found letters proving his connection with American, Swiss, and German socialist societies.

M. DE LEMAR, prompted by his election to the French Academy, has assumed a work he began in '43, called "Notations Two Hemispheres."

ENJOY the day. Life is short, don't mope in the morning nor lag at noon. Keep your Liver healthy, your Digestion good with Zappa, and you can meet work with a smile, and your head strong. Ask J. D. Tully.

The women of Ellenville, New York, have organized a temperance movement, and will boycott all who refuse to vote their ticket in the spring election.

BACK or NERVOUS Headaches are easily and certainly cured with Zappa. It stimulates the Liver and Stomach to action, thus relieving the head; on the same principle it purifies the Blood and the Urine. A 75 cent bottle of Zappa may save you much suffering and many dollars. Ask J. D. Tully.

FOR some months the courts of Chicago empowered to grant divorces have been crowded with applicants for the severance of their marital bonds. In one court on Saturday twenty-nine cases were on the docket for hearing.

AT this season of the year there should be a bottle of Pectoria in every house. It is unequalled for Coughs, Colds, and Hoarseness, is pleasant, equally safe for children. Price 25 cents at all druggists.

A BANKER'S TESTIMONY.—For a Cough, Cold or any bronchial affection, "Pectoria," in my opinion, is just the thing. I have used it in my family for Coughs and Colds for the past four years with the most unvaried success, and to-day my opinion of it is that I continue to think still more of that which I began thinking well of. Geo. Kean, Manager Ontario Bank, Pickering. Price 25 cents, at all druggists.

This is just what every sufferer wants—prompt action and rapid relief from pain. The great pain, "Is Folson's Nervine"—prompt, powerful, pleasant to the taste, and yet so pure that it may be given to the youngest infant. Try a 10-cent bottle, which you can purchase at Ormrod & Walsh's drug store. Nervine's great, sure and prompt cure. The large bottle is only 25 cents.

Our Canadian Industry is prosperous. The great difficulty to be contended with is the low grade of goods required. In nothing is the more apparent than in the comparatively small articles of sewing silk. The great demand in Canada seems to be for a cheap quality, buyers forgetting that a cheap thread must necessarily be a poor one. To counteract Sir L. Tilly's proofs that the tariff had favoured Great Britain against the United States he had to go all the way back to 1873 for a comparison. Amid much laughter he professed that he was the true friend of the manufacturers. He admitted that there was much distress in his time but urged that it prevailed in other countries also. He referred to

TENACIOUS!

Many customers cling tenaciously to the idea that it is to early too offer New Goods, and that they are apt to be much handled and shop-worn before being disposed of. Such is not our experience.

We find that customers are keen to select and buy from early arrivals in preference to purchasing after the stock has been picked over. We offer:

NEW Lace Scarfs, White and Colored Silk Scarfs, White Frillings, Cream Frillings and Embroideries, Gimp, Mantle Ornaments and Frogs.

New Prints, Orestones, Table Covers, and Piano Covers.

We call special attention to our Black and Colored Silks in Gros Grain and Ottoman Cord. The latter being the newest material for Mantles.

LOCAL NEWS

Bubbles!
Are you going to see Bubbles to-night.

Curling Match.
There will be an exciting Curling Match at the Carnival on Friday night, March 7.

Board of Education.
A regular meeting of the Board of Education will be held this evening in the Board Room at 7:45 o'clock.

The Temperature.
The spirit in the Rev. V. Clementi's self-registering thermometer sank to 5° below zero last night.

The Saved Army.
The non-appearance of the Saved Army, which was expected here on March 1st, may be accounted for by the illness of "Capt." Willis, who is seriously ill at Port Hope.

Last but not Least.
Don't forget that the Carnival on Friday night will be the last and best of the season. We learn that there will be costumes from Montreal, Toronto and other places. The night will be grand and one that no person should miss.

The Probabilities.
The weather probabilities for this district for the following twenty-four hours, counting from one o'clock this morning, as reported from the Toronto Observatory, are as follows:—Moderate north and west winds, fair continued cold weather, stationary or slightly higher temperature.

The Waterworks.
Mr. Wilson Henderson, who has lately been managing the Winnipeg waterworks, and who formerly was connected with the works at Ottawa, has been secured to manage the Peterborough waterworks, and has just arrived in town to take charge of them, and from his high qualifications will be an acquisition to the company and therefore to the public.

An Explosion.
An explosion occurred in a coal store in passenger coach No. 16 of the Midland Railway at the station at noon to-day. The coach was on a side track and a train was about to back up to unite with it, when there was a loud report and pieces of the stovepiles flew in all directions. A piece was blown out of one side of the stove, a window beside it was shattered, and the corner of the roof of the coach was blown off. It is supposed that the explosion was caused by coal gas.

Mineral from Mines.
The Port Hope Times of last week says:—"We had the pleasure of a call yesterday from J. R. Barber, Esq., Superintendent of the C. P. & M. R. Co., Oshawa. We are glad to learn that Mr. Barber anticipates a good season's business next summer from the Marquette mines, the ore at present being in good demand. He professes not to be aware of negotiations at present pending in regard to the purchase of his road by the C. P. R., but our information is very direct from one of the officials of the latter company that a strong effort is being made to get it."

An Exciting Runaway.
A peculiar and exciting double runaway occurred on George street this forenoon. A team of horses belonging to Mr. Sargent, of Ottawa, which were standing at Mr. Deane's mill, became frightened by a whistle from a locomotive and ran away. They ran out to George street and overtook a span of horses and sleigh belonging to the Ontario and Quebec Railway. One of Mr. Sargent's horses jumped into this sleigh, and the railway horses, also becoming frightened, made off at full speed. Thus they ran, the one animal riding in the sleigh and the other three trying their speed to the utmost, until they reached the Town Hall building. There they turned, and the foremost sleigh, struck against the sidewalk and was upset. The driver and the horse which had enjoyed a fast ride were both thrown out, and both lit on their feet without being injured. The horses, freed from the vehicles, sped on, one team up George street and the other across the Market Square. They were captured, however, before they had done themselves any injury. The sleighs were both considerably damaged.

THE ANNUAL MEETING

of the Peterborough Religious Book and Tract Society.

The Annual Meeting of the Peterborough Religious Book and Tract Society was held in the Baptist Church on Monday evening. The attendance was not large. The Rev. A. H. Munro presided, and in the opening services Mr. W. C. Nicholls led in prayer.

Mr. W. C. Nicholls, in the absence of Mr. Henry Grundy, Secretary of the Society, read the following annual report of the Committee:—

Annual Report of the Committee of the Peterborough Religious Book and Tract Society, for the year ending March 3rd, 1884.

The Committee, in meeting the friends of the Tract Society, have to regret that so little has been done during the past year. The Committee has always felt that it was important that there should be a sufficient number of visitors to carry the little messages of truth to every neighborhood in Peterborough and Ashburnham, but such has not been the case, and only a few of the districts are now visited.

The Committee have also lamented the decrease of your late President, Colonel Hamilton, who was ever ready to do all in his power to advance the interests of the Tract Society.

In addition to what the Peterborough Tract Society has been doing in Peterborough and throughout the surrounding country, a Toronto Tract Society sent an agent, Mr. Thomas Bone, who has taken up a subscription for the last two years for the purpose of assisting in carrying on the work of tract distribution in Manitoba and the North-West Territory and among the lumber shanties, but as the Toronto society has not sent us any reports, we do not know what has been done with the subscription thus collected.

Your Committee rejoice to find that the Young Men's Christian Association has apparently become firmly established in Peterborough, and would recommend that some of the young men in connection with that Association be put on the Committee of the Tract Society for the ensuing year.

The Treasurer's financial statement is as follows:—

RECEIPTS.
Balance on hand March 7, 1883.....\$ 84
Collected at annual meeting..... 6 75
Collected by Mr. Bone..... 58 35
Subscriptions..... 18 00
Total..... \$167 94

EXPENDITURES.
Paid to Mr. Bone.....\$65 10
Curling, printing, stationery..... 3 15
and postage..... 3 15
Total..... \$71 35

Balance on hand March 3, 1884.....\$10 59

The Committee recommend that the following be the officers for the year 1884:—

PRESIDENT.—Robert King.
VICE-PRESIDENT.—Henry Grundy.

COMMITTEE.—Dr. Fife, Dr. Bell, Matthew Cummins, Isaac Richardson, D. R. Gardner, Henry Rosier, Wm. Aldridge and Wm. G. Yelland.

The Rev. THOS. BONE moved the adoption of the report. He referred to his work as missionary on the Welland Canal, and described the difference in the carrying trade now from what it was some years ago, the steamers having to a great extent taken the place of the sailing vessels. To give an idea of the extent of the work, he said that he had made 1,150 visits to steamers and propellers during the past year. Propellers carried from 18 to 20 men each. The canal had been kept closed on Sunday, much to the chagrin of Americans, who had loose ideas regarding Sabbath observance. He related a number of incidents illustrating the nature of his work, the difficulties he met with, and the good effects resulting from the work. In addition to visiting vessels, he had visited 775 shanties and cottages. He had distributed 25,000 tracts, 3,080 religious magazines and a number of Testaments, and had sold 417 Bibles and 500 illustrated charts.

The motion to adopt the report was seconded and carried.

Mr. HENRY ROSIER was called on and referred to the work of the Young Men's Christian Association during the time the Mining Link was under construction. Nine camps of laborers had been visited on Sunday afternoons and 350 addresses had been delivered to the men. Over 300 tracts, &c., had been distributed each Sunday, making a total of 15,000. In addition to this they had given away six French, nine English and four Italian Bibles. Much good had resulted from their labors.

A collection was taken up in aid of the Society, the doxology was sung, and the meeting was concluded by the Rev. A. H. Munro pronouncing the benediction.

Y.M.C.A.
The Rev. Thos. Bone, agent of the Tract Society, will address the meeting in the Young Men's Christian Association rooms this evening.

Fun!
Oh such fun! Bubbles over with it are the members of the Holman Operatic Comedy Co. Throw care to the winds and go and hear them to-night.

Personal.
Mr. W. C. Scott has been succeeded in the editorship of the *Dominion Oddfellow* by Mr. Richard S. Bell. Mr. Bell, who is also editor of the *Bellefleur Intelligencer*, is an experienced and capable journalist, and the *Oddfellow* will lose none of its interest in his hands.

The Holman Operatic Comedy Company are at the Grand Central Hotel. There are several familiar names among them.

Reduced Telegraph Rates.
The Great Northwestern Telegraph Company has arranged for a reduction in the rates to distant States and Territories in the Republic across the lakes. The tariff to points in Arizona, Nevada, California, Idaho, Montana, New Mexico, Oregon, Texas (North and South) and Washington Territory has been reduced from \$1.50 to \$1 for ten words, and seven cents for each additional word. The tariff to other States has been reduced to the following, for ten words:—Arkansas and South Carolina, 75 cents; Delaware and District of Columbia, 50 cents; and to Massachusetts, 40 cents. The reduced rate went into effect on March 1st.

Oddfellowship.
Mr. Wm. C. Scott has issued a circular to the Lodges of the Order of Oddfellows suggesting that an international demonstration be held during the coming summer at some convenient point on the St. Lawrence. It is suggested that the proceedings include a grand parade, orations, drill competition, excursions and other entertainments. Each Lodge is requested to appoint one of its members to form part of a general committee, and the circular states that Mr. Scott has received sufficient assurances to warrant the belief that nearly all the Lodges of Northern New York and Eastern Ontario will participate. Each Lodge taking part is to share any profits that may accrue from the proposed demonstration.

Bess & Co., Burton-on-Trent, India Pale Ale now on draught, at Chamberlain's Restaurant—direct importation.

POLICE COURT.

LIQUOR CASES.

TUESDAY, March 4.—Five cases for violation of the Liquor License Law were called in the Court this morning. Mr. C. A. Waller, County Attorney, appeared for the prosecution.

Michael Halpin, who was represented by Mr. J. O'Meara, was charged by Chief Johnston with having sold liquor during prohibited hours on Saturday night. He pleaded guilty and was fined \$30 and costs.

Ed. Brown pleaded guilty to a similar charge preferred against him by Constable Pidgeon, and he was mulcted to the same amount.

John Wilson was charged by Constable Adams with the same offence and the charge stated it was the second offence. He pleaded guilty to this offence, and Mr. O'Meara argued that the previous conviction was under a different Act, and should not be counted under this Act. Mr. Wilson was fined \$40 and costs.

E. Darcy, who was represented by Mr. O'Meara, pleaded guilty to the same charge, which was preferred by Chief Johnston, and was fined \$40 and costs.

Wm. H. Chamberlain, against whom Constable Pidgeon had lodged a complaint, did not appear, and the case was enlarged until Friday morning.

"Her West" Cream Ale.
The finest and best Ale made in Canada on tap at the Croft House.

Partner Wanted.
A lady partner wanted in a fancy business. Apply at once by letter to box 308, Peterborough.

Parlour Social.
A parlour social in aid of St. Paul's Church organ fund will be held at the residence of Mr. Melville Miller this (Tuesday) evening.

To-Night.
"And the night shall be filled with music,
And the cares which infest the day
Shall fold their tents like the Arabs,
And as silently steal away."
Holman Operatic Comedy Company.

The Trains.
At noon a snowplough coming from the east had arrived at Keene. A passenger train was following it up, and was expected to reach here about three o'clock.

Grand Carnival.
At the Grand Carnival on Friday, March 7th, the G. P. T. B. will play in costume on the ice, and the celebrated Fire Brigade Band will play a choice selection of music in the gallery.

Best Value in Oysters.
We are still receiving those large delicious oysters from Baltimore regularly by express, which we can sell on the best terms. Close prices given to the trade. Call and get our quotations before buying. CARTON BROS.

The Late George A. Dennistoun.
The body of the late George Alexander Dennistoun (son of His Honor, Judge Dennistoun), who died in California, where he had gone for the benefit of his health, was brought to Peterborough on the noon train to-day, and interred in the Little Lake Cemetery this afternoon.

Holman Opera Company.
The performance given by the Holman Operatic Comedy Company at Bradburn's Hall to-night—the musical comedy "Bubbles," will no doubt be very attractive, as it has been highly appreciated in the other towns that have been visited by this Company. At Lindsay last night they drew a full house and delighted their audience. The fun is irresistible, and the music has already become very popular.

Curling.
A junior rink of the Lindsay Curling Club arrived here on Monday evening to play with the juniors of the Peterborough Club. Unfortunately, the Peterborough juniors were unable to play, and a "scratch" rink was made up, which was defeated by the Lindsay boys by six shots.

A match will be played on the rink here to-morrow evening between the Cobourg and Peterborough Clubs.

New Maple Syrup.
First of the season just to hand. Also choice Mixed Pickles and Tomato Catsup. The above is sold by the quart or gallon. Also, by the pound, bright sun-dried Apples, evaporated Apples (light), evaporated Pumpkins, Raspberry, Plum, and Black Currant Jams. Fine Assorted Jellies, and other varieties too numerous to mention. Pure Apple Butter, try it. Evaporated Apples, cheap, three pounds for 25 cents. Lemons and large sweet Valencia Oranges in abundance, at CARTON BROS., opposite the Market Square.

"Hub" Cough Cure, 25 Cents.
Prescription of a Boston physician, dispensed years by a Boston Druggist. One dose will cure any ordinary cough. It acts almost magically. Ask J. D. Tully for a 25 cent bottle of Hub Cough Cure.

THE WIDOWS OF FIVE OF THE MEN KILLED IN THE recent fire-damp explosion at the Leamington coal mine have entered actions against the company for damages for the loss of their husbands at \$10,000 each.

REMARKS.—The Gray Hair of old age demand respect—but the gray hairs of young people require attention—in the way of using *Clingstone Hair Renewer*. Thousands of men and women use their beauty with their hair, and very large numbers restore it by using *Clingstone Hair Renewer*. Sold J. D. Tully.

PRICE KAPOREINE is being moved from Clairvaux prison to Paris. Meanwhile M. Ranc, a French Radical, is agitating the question of getting a pardon for him.

No Disappointment.
Disappointments of one kind or another crop up all along life's pathway, for unfortunately it is the unexpected that always happens. There is at least one article of acknowledged merit that never disappoints. Putnam's Pain-Expeller is sure to remove the worst pains in a few days, and no claim is made that it will cure anything else, it cannot disappoint. If you wish to have no more pain, try it. Beware of the article "just as good." N. O. Folson & Co., proprietors, Kingston.

El Progresso (newspaper), of Madrid, has been confiscated and the management will be prosecuted for publishing articles containing insults to King Alfonso.

Grand Opening.
On Monday the well known Dry Goods firm of W. Fairweather & Co. announce in their advertising column a large arrival of New Spring Goods, and a Grand Opening Day on Monday the first. The stock contains a valuable collection and is to be sold Wholesale and Retail at low prices.

SALE OF THE

TOWN PROPERTIES

OF THE

LATE DAVID CARLISLE.

In the High Court of Justice.

CHANCERY DIVISION.

Re CARLISLE Infants.

IN PURSUANCE of an order of this Court made in this matter the 11th day of December last, there will be sold by public auction, with the approval of C. A. Waller, Esq., Master, at his Chambers, in the Town of Peterborough, on

Monday, the 17th Day of March

1884, at 2 o'clock in the afternoon, the following lands:

PARCEL I.
Part of Lot 2, North of McDowell Street and East of Water Street, in the said Town of Peterborough, described as follows:—Commencing at the southeast angle of the said Lot, thence northerly along the eastern limit thereof ninety-six feet more or less to the centre of the said Lot, thence westerly in a line parallel with the northern limit thereof fifty-seven feet more or less to the centre of the said Lot, thence southerly in a line parallel with the eastern limit of the said Lot to the southern limit thereof, thence easterly along the said southern limit to the place of beginning. There is erected upon this parcel a large and commodious two-story house, reserved with white brick, a stable and outhouse, erected on the north by a brick fire-wall. The house contains nine rooms, besides parlour and closets. This property, which is a corner lot, within five minutes' walk of the Post Office, is at present rented to Mr. John Miller, Esq., whose occupation shall be as follows, at the option of the purchaser:—Either from year to year, commencing upon the 1st day of October, 1884, at a rental of \$600 a year, or a definite term of three and one-half years from 1st April next, at a rental of \$600 for the first half year, and \$600 a year for the remaining three years; in any one the rent to be payable monthly or quarterly, at the purchaser's option, the landlord to pay all rates and taxes, and to be entitled to possession from the 1st April next, subject to such tenancy.

PARCEL II.
Parts of Lots 1 and 2, according to plan of subdivision of the South Half of Lot one, east of the Commercial Road, and of Lots 10 and 14, in the first Concession of the Township of Smith, made by T. B. Clement, F.L.S., and registered in the Registry Office for the County of Peterborough, on the 10th day of January, 1880, particularly described in the petition filed in this matter, which description can be obtained on application to the Vendor's Solicitors. These parts together comprise the property comprised by the late David Carlisle, as a homestead. On this parcel there is erected a large two-story house, reserved with white brick, containing six large rooms and one small one, besides parlour and closets, heated by a hot air furnace. There is also on the premises a stable and outhouse. There is a good garden, planted with young apple, pear and plum trees, and the usual small fruits all in bearing.

These lands will be offered for sale in two parcels as above described. If the bidding on Parcel 2, does not reach the reserved bid the portion of Lot two, according to said plan having a frontage of about 25 feet on Benson Street, will be offered separately in one parcel and the remainder of the land comprised in said parcel two, in another parcel. There will be a reserved bid on each parcel offered for sale.

TERMS OF SALE.—Ten per cent. of the purchase money to be paid at the time of sale and the residue to be paid by instalments during the following period. Further particulars and conditions of sale may be had on application to C. A. Waller, Esq., Master, or to Messrs. Fennell & Bayly, Vendor's Solicitors. Dated the 18th day of February, A. D. 1884.

LAKEFIELD.

From Our Own Correspondent.

SPECIAL COUNCIL MEETING.

A special meeting of the Lakefield Village Council was held in the Council Room, Lakefield, on Monday evening last, the 3rd instant.

Members present:—Mr. R. C. Strickland, Reeve, in the chair, and Messrs. Cox, Moore, McWilliams and Urquhart, councillors.

Moved by Councillor Urquhart, seconded by Councillor Cox,—That the proposition of the erection of a carding mill be received and decided upon at the meeting on Monday evening next.—Carried.

Moved by Councillor McWilliams, seconded by Councillor Moore,—That the petition of John Isbister, Esq., and others be received, and that the Clerk telegraph to the Indian department at Ottawa, requesting it not to sell the Islands in the Ontario river between Lakefield and Young's Point, as this Council is having them surveyed, and intend applying for them, and that this Council employ a surveyor to have surveys made forthwith.—Carried.

Moved by Councillor Urquhart, seconded by Councillor Cox,—That Mr. McDonald be appointed as successor in the office of Clerk and Treasurer of Lakefield, when Mr. Sanders leaves the village and that a By-law be prepared for that purpose by Monday evening next.—Carried.

Moved by Councillor McWilliams, seconded by Councillor Moore,—That this Council do now adjourn to meet at the call of the Reeve.

COUNCIL MEETING.

The regular monthly meeting of the Lakefield Village Council takes place in the Council Room on Monday evening next, the 10th inst. at 7.30 sharp.

SCHOOL BOARD MEETING.

The monthly meeting of the Lakefield Public School Board will be held in the Council Room on Tuesday evening next, the 11th inst. at 7.30.

BELLEVILLE.

LARGE SHIPMENTS.—A Belleville train has shipped 18,000 bushels of barley per rail to the West since December 1st, and are still doing a lively trade. This is far in advance of the trade of former years.

SEVERE ACCIDENT.—On Monday at Trenton a boy named White fell from a loaded sleigh on which he was riding, and one of the runners of the sleigh struck him, injuring it so badly that it had to be amputated.

Capt. Webb.

"The real cause of Capt's foolhardy attempt to swim the Niagara whirlpool has never been published," said Capt. Paul Boyton, the American man-of-war, to a St. Louis Chronicle reporter. "In England the captain was for years the champion swimmer, but at last Professor Beck, with best him, and by continued demonstration of superiority managed to retain the championship. Webb came to America and was doing well when Beck with followed him. Intent upon wresting from his old antagonist the fresh laurels he had won. Webb knew that if they came together in the usual style of aquatic contest his American career was ended, and he decided upon performing some feat calculated to give him a prestige which defeat in less notable displays of swimming would not dim. He finally decided in favor of the whirlpool rapids, and lost his life in a manner which was fully described in the papers at the time."

Woman Suffrage.

WASHINGTON, March 4.—Susan B. Anthony presided to-day over the sixteenth annual convention of the Woman's Suffrage Association, now in session here. A letter from Jane Cobden was read. It says:—"I hope the question on your side of the Atlantic is making the progress it is in this country. If so, we shall simultaneously and shortly see the enfranchisement of women in both countries."

A Warning to the "Hanged."

Dr. C. H. von Klenz has made the observation, that the cutaneous irritation so frequently found upon the forehead of fashionable ladies is the result of the quince-seed used for the purpose of arranging "bangs" and similar capillary "vanities."

For All Aches.—The aged, debilitated and infirm will find renewed vigor and strength by taking Burdock Blood Bitters. The young hastening to early decay will also find in this revivifying tonic a remedy worth trying.

ONTARIO LEGISLATURE. LATEST BY TELEGRAPH.

FIRST SESSION OF THE FIFTH LEGISLATIVE ASSEMBLY OF ONTARIO.

Railway Bonuses in Ontario—Competition Prevented—Fire Escapes for our Public Buildings—The Volunteers of 1837—The Midland Railway Junction.

MIDLAND JUNCTION RAILWAY.
On Monday, among the measures advanced a stage, was the bill to incorporate the Midland Junction Railway Co.

VOLUNTEERS OF 1837.
Mr. MOWAT in reply to Mr. Lees, said that it was not the intention of the government at present to take into consideration the claims of the volunteers of 1837, with a view of acknowledging such claims for their valuable services.

FIRE PROTECTION.
Mr. PRESTON asked if it was the intention of the government to introduce a measure to compel owners of public buildings, hotels, schools, halls, &c., to provide fire escapes.

Mr. FRASER said the matter was under consideration, but it was not probable that there could be legislation this session.

A J. F.'S. CONDUCT.
Mr. MEREDITH moved for papers as to a charge for irregular conduct against a Justice of the Peace for the County of Ontario.

Mr. MOWAT said the Magistrate in question denied the charge, and a letter from the Junior County Judge did not bear them out.

Mr. MEREDITH thought that there should have been an investigation.

Mr. GIBSON (Huron) moved for a return showing the amount paid or to be paid to each railway in Ontario by the different municipalities therein by way of bonus. Since confederation 1,700 miles of railway had been built in the Province with municipal bonuses averaging \$4,500 which would amount to \$7,500,000, and an additional \$6,000,000 given by the Provincial Government would make a total of nearly thirteen millions. Many of these companies had violated the conditions upon which they had been aided. Thus Ontario had given about the same as Quebec, though in that Province nearly all the assistance had come from the Provincial Government, while in Ontario the municipalities had contributed most largely. He did not favour pressing for better terms, though Quebec had a claim allowed on account of her aid to railways, he thought the Ontario municipalities had no less right. He thought there should be a commission to investigate the matter.

Mr. GILLIES said in 1871-4 large amounts had been voted to the Wellington, Grey and Bruce Railway. Then the Stratford and Lake Huron had secured \$150,000 as a compensating road, but the competition was ended by the absorption of the roads. There were naturally complaints at this, and the whole question should be investigated.

The Prohibitory Alliance.
On Monday the Toronto Auxiliary of the Dominion Prohibitory Alliance met in Shafesbury Hall, discussed the Hardy amendments to the License Act, and appointed a deputation to wait on Hon. Mr. Mowat regarding the following changes in the liquor law proposed by the society: All grocers' licenses to be discontinued after May 1st 1885. No bars on shipboard. The transfer as well as the issue of a new license to be subject to the veto of a majority of the ratepayers in the polling division in which the tavern is situated. No licenses to be granted at railway stations, public parks, exhibition grounds, opera houses, or public halls. The number of tavern licenses granted to be reduced to two for the first 1,000 of population and one for each additional 2,000, and the number of liquor store licenses to one for each 400 of the population up to 1,200 and one for each 500 afterwards; also for the increase of the fee. The accommodation necessary to secure a tavern license to be increased and no saloon licenses to be granted. The penalty for selling liquor without a license to be imprisonment, without the option of a fine.

A Secondment Committed.
MONTREAL, March 4.—The trial of Thomas Paquette, the cab-driver, whose attempt was mentioned at the time of the occurrence to commit a criminal assault on Mrs. Bourne, a young English lady, whom he was driving to a friend's house ended in a verdict against the secondment, who will no doubt get a long term when his sentence is pronounced. A ruffian who drove the cab while Paquette was inside with the lady pleading guilty to the assault on the victim who is extremely young, not more than 16 or 17 at the utmost, is very attractive looking, and so sensitive that she completely broke down when giving her evidence to-day. Her husband does not seem to be more than 19 or 20. They are both educated and refined persons. They have only been here a few months from England.

Joachim Miller on the Mormons.
WASHINGTON, March 4.—Joachim Miller, before the House Committee on Territories to-day, characterized the Mormons as "Cranks and Gilets." He opposed repressive measures as only tending to incite them to further lawless acts, instead of subduing them. Polygamy, he thought, was on the decrease, and he prescribed education as a panacea for all the evils from which the people of Utah suffered. The Mormons, as a people, in his opinion, were extremely ignorant persons, led by cranks and those who had their own ends to serve, and all that was necessary to bring them back to the path of morality was to show them their true condition.

Woman Suffrage.
WASHINGTON, March 4.—Susan B. Anthony presided to-day over the sixteenth annual convention of the Woman's Suffrage Association, now in session here. A letter from Jane Cobden was read. It says:—"I hope the question on your side of the Atlantic is making the progress it is in this country. If so, we shall simultaneously and shortly see the enfranchisement of women in both countries."

A Warning to the "Hanged."
Dr. C. H. von Klenz has made the observation, that the cutaneous irritation so frequently found upon the forehead of fashionable ladies is the result of the quince-seed used for the purpose of arranging "bangs" and similar capillary "vanities."

For All Aches.—The aged, debilitated and infirm will find renewed vigor and strength by taking Burdock Blood Bitters. The young hastening to early decay will also find in this revivifying tonic a remedy worth trying.

CABLE.

REVOLUTIONARY FUND IN SPAIN.
MADRID, March 4.—Speculators have subscribed £120,000 to raise a revolutionary movement similar to that in August, 1833. The Government is fully informed in regard to the plot.

LOOKING AFTER GREELEY.
DUNDIE, March 4.—The American consul has asked the captain of whaling vessels to keep a look out for Lieut. Greeley in Baffin's Bay, in view of the possibility of his drifting from Smith's Sound on an ice floe.

DYNAMITERS' PORTRAITS.
LONDON, March 4.—English detectives at New York have been provided with portraits of suspected dynamiters. The London police believe the dynamite used here was made in France.

A ROME NEWSPAPER'S SPEAKS.
ROME, March 4.—Il Diritto maintains that England has every right to demand of America that the present open organization of a dynamite policy.

LORD LEITRIM'S MURDERERS.
LONDON, March 4.—Nellie, the informer, states that the murders of the Earl of Leitrim were Patrick McLaughlin, a travelling Fenian head centre, Thomas Hunt, and Michael McGinn. He says he heard McLaughlin confess that he shot Lord Leitrim. The murder was planned in London. The last he heard of McLaughlin's movements was that he went to Dublin in 1882 and gave Carey two knives and \$50 of secret society funds.

ANARCHISTS IN SWITZERLAND.
BERNE, March 4.—The police are searching the houses of Anarchists. The President of the Anarchical club has been arrested.

PRISON OUTBREAK AT CARIO.
CAIRO, March 4.—An outbreak in the prison at Cairo to-day was suppressed with difficulty. It is believed it was planned from outside.

A WATERLOGGED BARQUE.
LONDON, March 4.—Seventeen of the crew of the barque Trinidad, from Pensacola, have arrived at Liverpool. They report that they abandoned the vessel in a waterlogged condition February 24th. The captain and the remainder of the crew refused to quit the ship.

GENERAL GRAHAM.
LONDON, March 4.—Although the Marquis of Hartington denies that Gen. Graham had been ordered to Trinitat, semi-official advice from Cairo says Gen. Stephenson has directed Gen. Graham to have the troops embark at Trinitat and return to Suakin, as the latter is the best base for Graham, leaving a battalion to garrison the fort. Baku will order the troops to embark on Thursday. Operations against Osman Digma will not extend beyond Tamashek. Sir Evelyn Baring advises the Government to fix the limit of the action of the troops on the Red Sea littoral: ten miles from the coast.

ORANGEMEN NATIONALISTS.
DUBLIN, March 4.—The Orangemen of Dublin have been summoned to oppose a Nationalist meeting announced to be held at Londonderry on St. Patrick's day.

THE BRITISH AT TOKAR.
CAIRO, March 4.—The British cleared the villages near Tokar and recovered the rest of the guns and rifles taken from the British army by the rebels. Osman Digma was shot on Friday's battle. An Egyptian gunner from Tokar says he and seven others were dragged to Tob to serve the rebel guns.

GORDON'S SLAVEY DECREE.
PARIS, March 4.—Col. Chaille, a native of Baltimore, who was a comrade of Gordon in the latter's first campaign in the Sudan, in a lecture in Paris said it was his opinion that Gordon's decree regarding slavery was issued under pressure from the English Government.

The City of Columbus.
BOSTON, March 4.—The report of the United States local inspectors on the City of Columbus investigation, completed to-day, sets forth that the immediate and direct cause of the disaster was the neglect of the man or men to watch the ship's course; that Captain Wright was the only legal pilot on duty at the time of the disaster, and for two hours immediately preceding and that for at least one hour before the accident he was not at his post of duty of pilot attending to his actual duties and as master. For illegally delegating the performance of his duties as pilot to those unauthorized, and for inattention to his duties as pilot, his license as master and pilot is revoked. The inspectors find no cause for censuring the officers of the steamer Glancus, said to have passed the wreck without offering assistance.

The Langtry-Dumoulin Case.
Mr. Justice Ferguson has handed out his decision on the question of costs on the celebrated chitron case—Langtry v. Dumoulin. His decision decided that the defendant, the Rev. Mr. Cannon Dumoulin should pay all the costs of the litigation except the costs of the motion made to commit the plaintiff, the rectors, for contempt of court. The amount of costs to be paid by the defendant will amount to a very large sum, between eight and nine thousand dollars. The result of this judgment is that about \$33,000 will be divided among some sixteen rectors by the synod, in sums ranging from \$1,000 to \$2,500 a year. Counsel, however, for the defendant intended to enter an appeal from this verdict at once.

An Express Co. Victimhood.
St. Louis, March 3.—Prentiss, tailor and money clerk of the Pacific Express Co., whose father is a Louisville detective, disappeared yesterday with one or two valises full of money packages, the amount being nearly \$15,000.

A Blessing to all Mankind.
In these times when our newspapers are flooded with patent medicine advertisements it is gratifying to know what to procure that will certainly cure you. If you are Bilious, Blood out of order, Liver inactive, or generally debilitated, there is nothing in the world that will cure you so quickly as Electric Bitters. They are a blessing to all mankind, and can be had for only fifty cents a bottle at Taylor & MacDonald's.

Cured Free.
Any reader troubled with Dyspepsia, Constipation, Headache, Liver Complaint, etc., should call on John McKee's Drug Store, and secure a trial bottle of McKee's Speedy Cure at once which will convince you of the merits of the medicine. It cures permanently where all other medicines fail. As a blood purifier it has no equal. Remember it costs nothing to try it. Regular size, fifty cents and one dollar.

WEDNESDAY, MARCH 5, 1884.

LIQUOR LICENSE REVENUE.

There being a difference of opinion as to the interpretation of the British North American Act, as far as it affects the liquor trade, the only sensible course is to obtain a decision by the law courts. Instead of this the Reformers are endeavouring to foment dissension by raising a cry of invasion of Provincial rights by the Dominion. They seem to forget that Mr. Mackenzie by the Scott Act not only assumed jurisdiction by the Dominion as to the liquor trade, but actually destroyed thereby in some cases the right of the Province to draw a revenue from liquor licenses, a right which the McCarthy Act has carefully left intact.

ABUSING HIS POSITION.

We are censured by the Trenton Courier for saying that the office of Provincial Treasurer was kept open for the purpose of bribing several constituents with the hope of having a cabinet minister, and are also accused of deception for omitting to state that the office was filled by Mr. James Young till he had to retire through ill-health. Now, a critic should be correct in his facts, and the Courier is very inaccurate. The grievance of our charge is that Mr. Mowat, knowing that Mr. Wood was leaving him and had declined even to seek a seat, did not fill the vacancy before the general election, but preferred to use his patronage corruptly at that time. Mr. Young was not appointed until many months later, so his appointment could not have prevented this improper use of the office at the previous general election. During the interval Mr. Mowat had no constitutional Treasurer, for our constitution requires that a Cabinet Minister should either have a seat or be intending to apply for one as early as possible, which Mr. Wood confessedly was not. Thus there was no Treasurer with the slightest responsibility to a constituency. From these two errors of Mr. Mowat the inconvenience of the Treasury office being unprepared to meet the Legislature undoubtedly resulted.

THE DOMINION BUDGET.

The financial statement of Sir L. Tilley was a satisfactory continuation of the favourable exposition of our affairs to which we have been accustomed under his management of the finances of Canada. Notwithstanding the extensive remission of taxes, the large expenditure on public works for the development of the country or the better transaction of its business, the depression prevailing in other countries with the natural result of some effect upon our own commerce, and some stagnation in various trades, resulting from former over-importation and over-production, we have a very satisfactory surplus of over two million dollars. It is true that this is not so large as in the two preceding years, but the difference is salutary, being occasioned largely by taking taxes off articles of extensive consumption, and providing more extensively for the growing requirements of a country that is being so rapidly developed.

Besides proving this efficient for obtaining a revenue, the tariff adopted and assented to by the Dominion has been equally successful in its other object of fostering our industries, a fact admitted even by Sir R. Cartwright, the financial critic for the Opposition, when he attributed part of his imaginary depression to the looking up of capital in these industries.

But even more satisfactory was the evidence of the high standing of our credit in the great money markets of the world. The great change that has taken place in this respect since the era of deficits and depression under the Reform regime is one of the great benefits that the country owes to the present administration.

We have many other causes for congratulation; the expenditure of such large sums upon our means of communication without adding either to our rate of taxation per head, or to our debt; the large deposits in our saving banks, showing that the mass of the people have not only sufficient means of living but something considerable to spare; the reflection that our tariff, while fostering our own interests, has not prejudicially affected our commerce with the Mother Country; the fact that a far less proportion of our debt is now held abroad and a relatively greater proportion at home, so as to avoid a drain of money from the country for interest, and many similar points to which our Finance Minister called attention in his able and lucid statement.

Day by day we have greater proof of the success, even beyond anticipation, of the National Policy, and of the good management of the Macdonald administration, under which the country is so prosperous and is progressing in such an unprecedented manner.

DOMINION PARLIAMENT.

THE SECOND SESSION OF THE FIFTH PARLIAMENT OF CANADA.

North-West Representation—Gravenhurst and Callendar Lines—Mr. Blake's Land-Jumper Advertising Dakota—Reform Consistency—Lottery Frauds—The Liquor Laws—Provincial Railway Grants.

FOOD ADULTERATION.
Mr. COSTIGAN introduced a bill for the prevention of the adulteration of food and drugs, and it was read a first time.

GAS INSPECTION.
Mr. COSTIGAN introduced a bill respecting the inspection of gas and gas meters, and it was read a first time.

MEMBERS FOR THE NORTHWEST.
Mr. CAMERON (Huron) introduced a bill to give representation in the House of Commons to the North-West Territories. In establishing the four divisions, Sir John Macdonald had contemplated their future election into Provinces.

In the case of three of them Assiniboia, Alberta and Saskatchewan there had already been extensive settlements, they had thriving towns and villages and might soon have a large population. Their inhabitants were desirous of the erection of these territories into Provinces and of representation in the House of Commons. In his bill he proposed to give them such representation next session, one member for each. It would be an act of justice not only to the territories concerned, but to the House, which needed the information that would be afforded. He would also be glad to see the Minister of the Interior chosen from the Northwest, but that was not a matter for the legislation.

Sir J. MACDONALD assented to the first reading of the bill, and it could be discussed on the second reading when its provisions were known to them. He bantered Mr. Cameron, who he believed had made very successful investments in the North-west and probably intended to settle there, upon his evident desire to cut out his friends for the portfolio of the Interior in the next Ministry.

DREDGES FOR THE NORTH-WEST.
Sir H. LANGEVIN in reply to Mr. Cameron (Huron) said a contract for dredges and tugs for the North-west had been entered into.

ELEVATOR AT MALAPAS.
Sir C. TUPPER, in reply to Mr. Kirk, said the Halifax elevator was finished early in 1878, and the first cargo had been shipped through it in May. There had been three since then.

LIFEBOAT AT WELLINGTON.
Mr. MCLENNAN, in answer to Mr. Platt, said that the lifeboat station and house at Wellington, Ontario, cost \$450, and preparations for launching the lifeboat \$350. The site cost nothing.

GRAVENHURST AND CALLENDAR LINES.
Sir C. TUPPER, in reply to Mr. O'Brien, said they intended to take prompt measures to secure the construction of a line from Gravenhurst to Callendar.

CONFIDENTIAL REPORTS.
Mr. LISTER moved for papers as to the alleged defalcation of the Postmaster at Whitely, Essex, and insinuated that he was spared from political motives.

Mr. CARLING said the only report was a confidential one from the Inspector, which should not be made public, and that Mr. Lister's statements were very far from accurate.

Mr. BLAKE objected to such confidential reports, which led to a little discussion on this point, and the motion was withdrawn.

LAKE DISASTERS.
Mr. DAWSON moved for papers as to the inspection of vessels on Lake Huron and Superior, with a list of the losses. He called attention to the disasters that had occurred, and advocated further precautions, especially against overloading.

Many members spoke on the subject, some urging stricter inspection, and others objecting to too great interference with trade.

Mr. MCLENNAN pointed out how much had been done to protect our sailors. His attention was called when he took office to the sad disasters on the Upper Lakes, and he had carefully considered the subject, but found it surrounded with difficulties. They would do all in their power to secure safety without unnecessary obstructions to trade.

LOTTERY FRAUDS.
Mr. WELDON moved for a return of postage stamps sold at St. Stephen's, N.B., and for correspondence respecting lottery circular sent thence. Such articles should not have the aid of the post office.

Mr. CARLING said he would supply the information as to the sale of stamps, but the correspondence with the New Brunswick Government on the subject was unfinished and could not be brought down.

Mr. BLAKE asked if the post office had stamped the envelopes "Suspected to be a fraud," as authorized by statute.

Mr. CARLING promised to see to it.

A LAND JUMPER.
Mr. BLAKE moved for papers as to a land difficulty in Manitoba, and read a pitiable letter from the aggrieved settler, Robertson. He concluded with his favorite advertisement of Dakota.

Sir J. MACDONALD said Robertson had omitted the important facts that Robertson was a land-jumper, having ousted the previous holder for non-performance of the conditions; that he himself was a non-resident and had his entry cancelled for non-performance; and that he himself subsequently tendered for the lot, but was outbid. The House had decided against home-staying by non-residents as favorite speculators. The purchaser would have to pay Robertson for his improvement.

RAILWAY AID.
Mr. MULLOCK moved for a statement of the amount given to railways by the Dominion, Provinces and Municipalities since Confederation. The information was necessary in view of the suggestion to recoup the Provinces for such aid, in view of the Dominion having assumed the railways.

Sir J. MACDONALD thought there would be some difficulty in getting the information. Mr. BLAKE thought the Department of Railways had it.

Mr. MILLER said that Provincial aid had been given to them as Provincial works. He declared that the Dominion, having taken them, was liable to recoup the Provinces for their aid.

THE LIQUOR TRAFFIC.
Mr. CAMERON (Huron) moved for the correspondence with the Provinces regarding the McCarthy Act. He said that public opinion was in favour of the Provincial jurisdiction.

NORTHWEST SALES.
Mr. CAMERON (Huron) moved for papers concerning a sale of government cattle in the Northwest to Col. De Winter; also as to the loss of a supply train to a ranching company.

Sir J. MACDONALD explained that the arrangement was to save expense to the Government.

REFORM CONSPIRACY.
Mr. CAMERON (Huron) moved for papers as to the contract for erection of public buildings

at Fort McLeod. He objected to its being let without tender to a coal company, of which Sir A. T. Galt was a principal member, and asked if there were no builders there that the late High Commissioner had to come down to building stables.

Sir JOHN MACDONALD made some bantering remarks on this assumed degradation of Sir A. T. Galt. The barracks were being undermined by the river, and the coal company had a saw mill and timber limits. Sir A. T. Galt would lose heavily by the contract, which Mr. Cameron doubtless thought a proper punishment.

Mr. MILLER asked if the limit had also been given without tender, facetiously provoking a discussion in which it appeared that the limit had been given by the Mackenzie Government to their zealous supporter Mr. H. H. Cook, the day before they resigned, and consequently had been cancelled by the present Government.

Mr. MACKENZIE said the present Government when in power before had made appointments just before resigning.

Sir J. MACDONALD pointed out that the Reformers had raised a great outcry against these appointments, and yet had made appointments themselves after they had been rejected by the country.

AN EXTRADITION CASE.
Mr. WOODWORTH moved for papers as to the case of Roger Amero, a French Canadian, who had been extradited for suspected murder, but had been proved innocent. He had been driven crazy through his harsh treatment by the United States authorities. His sisters had become insane through grief. It was a case for compensation.

Sir J. MACDONALD said that as Amero had been extradited to the age of "the great pain cure," he was not a direct intervention, but they would do all they could to secure him compensation for his sufferings.

MISCELLANEOUS.
The corporation of Cork has decided to give the remains of Jerome Collins, of the Jenrette expedition, a public funeral.

At a meeting of anarchists in Paris a resolution was adopted approving the attitude of the New York anarchists approving the attitude of the Vietnamese socialists.

In deference to the memorial to the Irish members of all shades of politics the Government will introduce in the House of Commons a motion to amend the purchase clause of the Land Act.

Mr. PARNELL is actively promoting a company to further migration from the congested districts of Ireland.

Prompt Action.
This is just what every sufferer wants—prompt action and rapid relief from pain. The greatest discovery of the age, "the great pain cure," is Polson's Nervine—prompt, powerful, pleasant to the taste, and yet so pure that it may be given to the young and old. Try it, the sample bottle, which you can purchase at Ormond & Walsh's drug store. Nervine, the great, sure and prompt pain cure. The large size, and prompt pain cure. The large bottles are only 25 cents.

Results Tell.
The proof of the pudding is in the eating, and the proof of the extraordinary power over pain of Polson's Nervine is in using it. Polson's Nervine does wonders in every case of pain. It cannot fail, for it is composed of powerful pain subduing remedies. It goes right to the bottom, and pain is banished at once. Nervine cures all kinds of pain, internal or external. Go to Ormond & Walsh's drug store and get a 10 or 25 cent bottle, and be delighted by its promptitude in doing its work. At Ormond & Walsh's.

Dyspepsia and Liver Complaint.
Is it not worth the small price of 75 cents to free yourself of every symptom of the above complaints? If you think so call at our store and get a bottle of Shiloh's Viatical. Every bottle has a printed guarantee on it, and accordingly, and if it does you no good it will cost you nothing. Sold by J. D. Tufts.

FACT STRANGER THAN FICTION.—It is a fact that ALONZO HOWE, formerly a well-known man who afflicted him for thirty-five years. Six bottles of Burdock Blood Bitters cured him, which he considered a miracle. He had, but the natural result of the remedy restoring pure blood and perfect secretion.

DANGER TRAP.—Neglecting colds are the fatal traps that ensnare many a victim beyond possibility of rescue. Take a cold or cough in time and it is easy to be cured by that safe and pleasant vegetable remedy, Shiloh's Viatical. Asthma, Bronchitis and pulmonary complaints generally soon yield to its healing influence.

UNPARALLELED SUCCESS HAS FOLLOWED A NEW METHOD OF TREATMENT, WHICH, THOUGH SIMPLE, IS SO EFFICACIOUS AS TO RENDER

CATARRH OF TEN YEARS' STANDING

As curable as the simplest disease of the human body. The assertion that every case so far has been CURED PERMANENTLY in a few weeks, is made without fear of contradiction. See what a Sufferer of Ten Years says:—

Dear Sir,—In regard to my catarrh I can say after about four weeks treatment that I am entirely cured, after being troubled for more than ten years with all the worst symptoms of catarrh of the head, such as spitting of blood and mucus, which dropped from my nose into my mouth—snuffing with clogging my nostrils, loss of smell, which has now returned, pain in my head, rendering me almost stupid, which disappeared in two weeks after commencing your treatment. Hacking cough, &c. From my experience of catarrh, I consider your mode of treatment the best in existence. Hoping that all may receive the same benefit, I remain, yours, SARAH DUNN.

Free and Painless Examinations of the inner portions of the nose by the most improved instruments of the age.

Will be at Grand Central Hotel, Peterborough, 5th to 7th March.

LOCAL NEWS

Fair Day.
Tuesday was fair day, and those who had
almost forgotten that fact were reminded of it
by the appearance of one cow on the market,
which, however, was withdrawn from sale.

Lady Judges.
Mrs. Dr. Geo. Burnham and Mrs. Geo. Clun-
ton have kindly consented to act as lady judges
at the Grand Carnival to be held in the Skating
Rink on Friday evening next.

Business Lively.
The William Hamilton Manufacturing Com-
pany has received a large order from the Nor-
west Lumber Company, of Selkirk, Man.
Business at this foundry and machine shop is
lively.

Board of Education.
The was no meeting of the board of Educa-
tion on Tuesday evening, a quorum of mem-
bers not having arrived at eight o'clock. One
member, who would have supplied the defi-
ciency, was hardly a minute late.

Another Attraction.
Another pleasing feature in connection with
the Carnival on Friday evening will be a com-
pany of good vocalists who will sing on the ice
alternately with the Fire Brigade Band. Every-
thing augurs well.

The Grand Junction.
The Grand Junction Railway, which had
been blocked since Thursday night, was
opened on Tuesday afternoon, the first train
from Belleville arriving at about four o'clock.
It was about four hours on the road between
Keene and Peterborough.

The Probabilities.
The weather probabilities for this district for
the following twenty-four hours, counting from
one o'clock this morning, as reported from the
Toronto Observatory, are as follows:—
Moderate to fresh winds; cloudy weather,
with light snow in some localities, higher
temperatures.

The Saved Army.
An officer of the Saved Army, Lieut. Munt,
arrived here on Tuesday afternoon, and their
first meeting will be held this evening in the
Opera House. General Lindsay and other
officers are expected to arrive to-day, and they,
with Lieut. Munt, will conduct the meeting to-
night. Capt. Willis, who, with his wife, is to
have charge of the work here, has been seriously
ill at Port Hope. He was able to go out for a
short drive yesterday, and it is expected that he
will be able to come here on Friday next. Lieut.
Munt speaks in high terms of the Captain and
his wife. He says that the people of Cobourg
decided to send them to Peterborough.

An old Settler Gone.
By the death of Mr. John Shearer, we have
lost one of the oldest settlers of Otonabee. He
arrived in Canada in 1830, from Lunenburg, Scot-
land, and after residing for two years in Otona-
bee with his brother Archibald, who had preced-
ed him, he then spent four years in the Town
of Peterborough and its vicinity. About 1835,
he purchased the McKellar property in Ash-
burnham, but this he exchanged for the farm
on which he settled in Otonabee. Soon after
establishing himself there he married Miss
Bradley, who survives him with their family of
five sons and three daughters. Though he took
no very active part in politics, he was a con-
sistent Conservative. He was highly esteemed
and respected by all his neighbors, and his loss
will be felt by a wide circle.

Ross & Co., Burton-on-Trent, India
Pale Ale now on draught, at Chamber-
lain's Restaurant—direct importation.

A Good Opportunity.
A Black Horse is to be disposed of at the
Little Windsor this evening.

The Horse Races.
Entries for Thursday's races on the Little
Lake course will be received at the Little Win-
dow Hotel until 8 o'clock this evening, and the
entries for Friday's races will close at 8 o'clock
to-morrow evening.

The Temperature.
The lowest temperature, recorded on Monday
night by the Rev. V. Clement's thermometer
was 5° below zero, not 3° as was stated yester-
day. The lowest temperature last night was
15° below zero.

V.M.C.A.
The Rev. T. Bone and the Rev. E. A. St.
Dalmas addressed a meeting of young men in the
Young Men's Christian Association rooms on
Tuesday evening. There was a very good at-
tendance.

Best Value in Oysters.
We are still receiving those large delicious
oysters from Baltimore regularly by express,
which we can sell on the best terms. Close
prices given to the trade. Call and get our
quotations before buying. CARTON BROS.

Personal.
Dr. O'Shea and Mrs. O'Shea returned home
on Tuesday afternoon from their wedding tour.
The doctor is again attending to his professional
duties.
Mr. J. M. Ferris, M. P. P., Campbellford,
registered at the Oriental Hotel to-day.

Carnival at Lakeside.
The last grand skating carnival of the season
will be held in the Lakeside skating rink on
the evening of Tuesday, March 11th. Mr. E.
J. Hartley will give an exhibition of fancy
skating, and the Peterborough City Band will
furnish the music. Four valuable prizes are
offered for fancy costumes, and no doubt the
last carnival will be the best.

An Acknowledgment.
Professor Canton, whose advertisement has
appeared in these columns, desires to express
his thanks for the liberal support received from
the citizens of Peterborough during his short
stay here, and he trusts he will still continue to
receive consultations from young ladies and
gentlemen who are ambitious to learn more of
their own nature and the avocations in life for
which they are best adapted.

Curling.
A curling match will be played this evening
between the Peterborough and Cobourg Clubs.
The Cobourg players will arrive on the 4.30
train, and, after dining with the Peterborough
players at the Oriental, will proceed to the rink.
They will depart again on the 8.45 p. m. train.
The match will be an interesting one, as the
Cobourg Club was the champion club at Mon-
treal this winter. The following rinks will
represent the Peterborough Club in the
match:—
R. S. Davidson, C. McGILL,
Adam Hall, A. McNELL,
W. G. Ferguson, G. DONNISON,
M. Millar, skip, T. P. ATTRILL, skip.

A Splendid Chance.
It will be seen by an advertisement in another
column that Mr. D. W. Dumble offers for sale
a number of Building Lots in various parts of
the town on ten years' credit. No money down,
interest only to be paid for first five years, and
thereafter yearly in instalments with the right to
pay at any time as may suit the convenience of
the purchaser. This offer enables a poor man to
use his money in erecting a building, and so he
gets rid of rent, and secures a home for him-
self. Building will be cheap this year and no
doubt many will take advantage of this very
liberal offer. Besides lots in town, Mr. Dumble
offers a number of lots in Ashburnham, and
several park lots on the same terms. Call at
his office and see plans, &c.

Social.
A social entertainment was held at the resi-
dence of Mr. Melville Miller on Tuesday even-
ing, in aid of the organ fund of St. Paul's
Church. There was a very good attendance,
and an excellent programme had been prepared
for entertainment. Mr. Geo. Schneider gave
an instrumental solo on the piano, in which he
displayed marked ability. Miss Davidson also
gave an instrumental solo, and the ever well-
come trio, Messrs. Lech, Sanderson and Best,
delighted the audience. Vocal music was fur-
nished by Miss Rush, Miss Dixon, Miss Gal-
letty, Misses Johnston and Logan, and Miss
Sophie Cameron, the last mentioned being
especially loudly applauded for her Scotch
songs. Refreshments in abundance were served
during the evening. The social was an exceed-
ingly enjoyable one, and a neat sum was added
to the organ fund.

Holman Opera Company.
The Holman Operatic Comedy Company
gave an entertainment in the Opera House on
Tuesday evening, which was witnessed by a
"ver' fair" sized audience. "Bubbles," as the
play is termed, is almost without the semblance
of a plot, the idea being to introduce the sing-
ing, numerous puns, and fun generally. The
singing was good, several of the solos and
choruses being loudly applauded, and the jokes
often convulsed the audience with laughter.
But has the company sufficient ability to merit
the patronage of the public? That is the ques-
tion on which, we presume, the critic is suppo-
sed to give his opinion. In this case the company
gave the answer themselves. If they possessed
the requisite ability there would be no necessity
for them to introduce vulgarity, in the hope of
pleasing the audience and filling the houses, and
when they did thus attempt to amuse the au-
dience they answered the question in the negative.
They condemned themselves. The company
should do one of two things: They should
either eliminate the objectionable portions of
their entertainment—and they are many—and
then we believe they could succeed, or they
should add a clog dancer and call themselves a
variety company.

POLICE COURT.

WEDNESDAY, March 5.—Mr. James Steven-
son, J.P., and Mr. Thos. Manzie, J.P., pre-
sided at the Court this morning.

VAGRANCY.
James Burns and William Boyd, the latter of
whom was suffering from frozen feet, were
charged by Constable Pidgeon with being vag-
rants. Similar charges were preferred against
Thos. Collins and Andrew O'Brien by Constable
Adams. They all pleaded guilty and were
fined \$5 or thirty days in gaol. They were sent
up the hill.

"Nor West" Cream Ale.
The finest and best Ale made in Canada on
tap at the Croft House.

Grand Opening.
On Monday the well known Dry Goods
firm of W. Fairweather & Co. announce in their
advertising column a large arrival of New
Spring Goods, and a Grand Opening Day on
Monday the first. The stock contains a valuable
collection and is to be sold Wholesale and Re-
tail at low prices.

New Maple Syrup.
First of the season just to hand. Also choice
Mixed Pickles and Tomato Catsup. The above
is sold by the quart or gallon. Also, by the
pound, bright sun-dried Apples, evaporated
Apples (light), evaporated Pumpkins, Rasp-
berry, Plum, and Black Currant Jams. Fine
Assorted Jellies, and other varieties too nume-
rous to mention. Pure Apple Butter, try it.
Evaporated Apples, cheap, three pounds for
25 cents. Lemons and large sweet Valencia
Oranges in abundance, at CARTON BROS., op-
posite the Market Square.

Serious Accident.
An accident of a serious, if not a fatal ter-
mination occurred at a Riverside railway crossing
on Tuesday. Shortly after 7 a.m., as the Mid-
land train, outward bound, arrived at the next
crossing above the Kingston road it was met by
an incoming freight train travelling on the
upward track. Just before the passage of
the two trains a man with a cart apparently on
his way to the byres for manure was nearing the
track, and seeing that he could get over before
the outgoing train could reach it, made the
attempt without to all appearance, observing
the incoming train on the other track. Before
he could get over this second line
of rails, the cart of the freight train struck
the cart, the sleigh, tossing the man out of
it into the air and catching him in his fall,
and he was carried in this position until the
train could be brought to a stop, which was
somewhere about midway between the two
crossings. Several men, among whom was Mr.
Owen Adams, seeing that something had oc-
curred, were soon at the spot, and assisted the
train officials in placing the unfortunate man
in the back of the train. He appeared to
be very badly injured, as he groaned very much
when handled. Dr. McKenzie was called when
the train reached the Kingston Road cross-
ing, and he accompanied the entering man to
the city.

Upon enquiry at the General Hospital it was
ascertained that the injured man, whose name
is Eli Mallory, had several ribs fractured and
sustained concussion of the brain.

Exonerated of Mr. Charles Tupper.
OTTAWA, March 4.—The bill introduced by
the Premier this afternoon amending the Inde-
pendence of Parliament Act consists of the
addition of two clauses to sub-section four of
the Act. The first provides that nothing in the
Act shall render ineligible any person to hold
any office, commission, or employment of the
nature or description mentioned in section A of
the clause, or shall disqualify him from sitting
and voting in the House of Commons if in his
commission or other instrument of appointment
it is declared and provided that he shall hold
such office, commission or employment without
any fee, salary, or emolument, or any part
of any kind that may be attached thereto. The
second clause provides that "for the quieting
of doubts" it is enacted that by reason of his
accepting or holding the office of High Commis-
sioner in Canada, Sir Charles Tupper did not
cease to be a member of the House of Com-
mons or become disqualified from sitting and
voting in the same, and did not commit an
offence against the provisions of the Indepen-
dence of Parliament Act. It is further pro-
vided by the bill that Sir Charles Tupper is
indemnified and exonerated from all liability to
any penalty or other responsibility, and from
any suit, demand or judgment which may have
been or may hereafter be brought or rendered
against him with respect to any such penalty
or responsibility for sitting and voting while
not otherwise disqualified; and it is also pro-
vided that the Act may be pleaded as a bar
and discharge to any action or suit pending or
which may be brought against Sir Charles Tupper
for any matter, cause or thing mentioned in
the Act, and should also be a discharge of any
judgment for any such penalty.

The manufacturing industries of the Forest
City are experiencing a lively boom, nearly all
of them being in full blast, with a complete
force of workmen.

Respect.—The Grey Hairs of old age demand
respect—but the grey hairs of young people re-
quire attention—in the way of using Cingalese
Hair Renewer. Thousands of men and women
lose their beauty with their hair, and very large
numbers restore it by using Cingalese Hair Re-
newer. Hold J. D. Tully.

From the Liver and Kidneys arise fully half
the sickness. Dr. Carson's Mocha Bitters
stimulates both Liver and Kidneys, and insures
one against disease. It is not an alcoholic stim-
ulant. In large bottles 50 cents.

We have a speedy and positive cure for
Catarth, Diptheria, Canker mouth and Head-
ache, in Nihilon's Catarrh Remedy. A nasal in-
jector free with each bottle. Use it if you de-
sire health and sweet breath. Price 50 cents.
For sale by J. D. Tully.

CURED BY THE CURE.—A little son of John
Spinks, Toronto, had his foot crushed by a G.
T.R. Express train some time ago. Two
doctors attended him without benefit, and an-
tiseptic was proposed, but Hagar's Yellow
Oil was tried, which gave prompt relief and
effected a speedy cure, even removing all stiff-
ness of the joint.

No Disappointment.
Disappointments of one kind or another crop
up all along life's pathway, for unfortunately
it is the unexpected that always happens.
There is at least one article of acknowledged
merit that never disappoints. Putnam's Pain-
less Corn Extractor is sure to remove the worst
corns in a few days, and no claim is made that
it will cure anything else, it cannot disappoint.
If you have hard or soft corns just try it. Be-
ware of the article just good. N. O. Putnam

SALE OF THE
TOWN PROPERTIES

OF THE
LATE DAVID CARLISLE.

In the High Court of Justice,
CHANCERY DIVISION.

Re CARLISLE Infants.

IN PURSUANCE of an order of this Court made in
this matter the 21st day of December last, there
will be sold by public auction, with the approbation
of C. A. Waller, Esq., Master, at his Chambers, in the
Town of Peterborough, on

Monday, the 17th Day of March

1884, at 2 o'clock in the afternoon, the following lands

PARCEL I.
Part of Lot 1, North of McDonnell Street and East
of Water Street, in the said Town of Peterborough,
described as follows:—Commencing at the southeast
corner of the said Lot, thence northerly along the east-
ern limit thereof sixty-six feet more or less to the
centre of the said lot, thence westerly in a line parallel
with the northern limit thereof fifty-seven feet more
or less to the centre of the said lot, thence southerly
in a line parallel with the eastern limit of the said lot
to the southern limit thereof thence easterly along the
said southern limit to the place of beginning. There
is erected upon this parcel a large and commodious
two-story house, veneered with white pine, a stable
and wood shed, protected on the north by a brick fire-
wall. The house contains nine rooms, besides pantries
and closets. This property, which is a corner lot,
with five minutes walk of the Post Office, is at present
rented to Melville Miller, Esq., whose tenancy thereof
shall be as follows, at the option of the purchaser:—
Either from year to year, commencing upon the first day
of October, 1884, at a rental of \$300 a year, or a
definite term of three and one-half years from 1st April
next, at a rent of \$50 for the first half year, and \$500 a
year for the remaining three years; in any case the
rent to be payable monthly or quarterly, at the pur-
chaser's option, the landlord to pay all rates and
taxes, and to be entitled to possession from the 1st
April next, subject to such tenancy.

PARCEL II.
Parts of Lots 1 and 2, according to plan of subdivi-
sion of the South Half of Lot one, east of the Com-
munication Road, and of Lots 15 and 16, in the first
Concession of the Township of Smith, made by T. B.
Clement, P.L.S., and registered in the Registry Office
for the County of Peterborough, on the 14th day of
January, 1880, particularly described in the petition
filed in this matter, which description can be obtained
on application to the Vendor's Solicitors. These parts
together comprise the property occupied by the late
David Carlisle, as a homestead. On this parcel there
is erected a large two-story house, veneered with
white brick, containing six large rooms and one small
one, besides pantries and closets, heated by a hot air
system. There is also on the premises a stable and
wood shed. There is a good garden, planted with
young apple, pear and plum trees, and the usual small
fruit all in bearing.

These lands will be offered for sale in two parcels as
above described. If the bidding on Parcel I. does not
reach the reserved bid the portion of Lot two, accord-
ing to said plan having a frontage of about 33 feet on
Benson Street, will be offered separately in one parcel
and the remainder of the land comprised in said parcel
two, in another parcel. There will be a reserved bid
on each parcel offered for sale.

TERMS OF SALE.—Ten per cent. of the pur-
chase money to be paid at the time of sale and the
remainder within thirty days thereafter, without in-
terest. Further particulars and conditions of sale may
be had on application to C. A. Waller, Esq., Master, or to
Messrs. Poussette & Rogers, Vendor's Solicitors.
Dated the 18th day of February, A. D. 1884.

ONTARIO LEGISLATURE.

FIRST SESSION OF THE FIFTH LEGISLATIVE ASSEMBLY OF ONTARIO.

The Liquor License Question.—Taking Funds from the Municipalities.—Reformers Accepting the Dominion Act.—Parliamentary Officials.

MISSING RETURNS.
Mr. PARSONS on Tuesday explained that some orders in council ordered to be printed last session had been sent to his department and had been overlooked, but would soon be ready.

THE LIQUOR LICENSES.
Mr. HARDY moved the House into Committee of the Whole in reference to his liquor license resolutions. After a preamble, attacking the McCarthy Act and yet providing for licenses they fixed them for Dominion licenses as follows:—

For each tavern, saloon, or shop license \$ 300 00
For each tavern, saloon, or shop license in towns, the sum of 250 00
For each tavern or shop license within an incorporated village, the sum of 120 00
For each wholesale license within the authority of the Legislature of this Province, the sum of 350 00
For each license for a vessel within the authority of the Legislature of this Province, the sum of 250 00
An additional duty of 30 00 shall be paid upon the transfer or removal of any of the aforesaid licenses.

He also proposed that on Provincial licenses the following additional sums should be paid without any share going to the municipalities:—

Taverns and shops 60 00
Village do do 20 00
Township do do 15 00

If the Dominion law should be sustained there would be a smaller number of licenses, with higher fees. Under the Provincial law there would also be fewer licenses if the municipalities so determined. He said that the Dominion Government had appointed license officials whom he accused of peddling around their licenses. He objected to the injustice of making county judges act as commissioners. He proceeded to discuss the rival act and the Privy Council decision, arguing that the jurisdiction of the Province was determined. Therefore he maintained that the Dominion act was invalid. He used as another argument the fact that at Confederation the municipalities had a measure of control, of which, however, he and his colleagues had deprived them. The matter he contended was a local one and so a Provincial affair. He scouted the plea of a uniformity of the law throughout Canada, and denied the right of the Dominion to legislate. The enforcement of the Dominion Act by its officials would, he said, cost the Province \$40,000 a year. He called upon the Opposition to give their assistance in maintaining the rights of the Province in this matter.

Mr. HARDY had discussed the question. In a federal system there must arise differences as to jurisdiction, and these might be settled in a spirit of conciliation. He pointed out the very different manner in which the Government had acted in the case of a similar difficulty with the Mackenzie Administration as to excise, but then they had no wish to embarrass the Ottawa authorities and now their great desire seemed to be to show their hostility to the present administration at Ottawa. They called upon the Opposition to support them and then instead of drawing up resolutions in fair and respectful firm terms, they made them insulting to the Conservative friends of the Opposition on purpose to embarrass them. He condemned Mr. Hardy's insulting insinuations against the judges, and pointed out that the Mowat Administration had introduced the system of making judges commissioners, having appointed to that office at least six county judges, and even the Vice-Chancellor. It was said that this question of jurisdiction was only raised sixteen months ago, but as against this assertion he quoted Mr. Bethune when M. P. for Stormont. The Opposition was accused of "bedding" in this matter, but he showed that he and those acting with him had consistently maintained the jurisdiction of the Province, and urged a peaceful and final settlement of the question by the legal tribunals. That had always been his position, and that it was still such a matter should not be treated only as a

means of making political capital. It was said the Dominion officials were peddling their licenses, but the Government without legislative sanction had appointed two chief license Commissioners to travel round and persuade the license holders to take Provincial licenses. One of these commissioners declared that the Government intended to extend the time of closing on Saturdays from 7 till 9 p. m., and the other declared that they did not. Believing, as he did, that the Dominion Act had no force, he objected to giving a countenance to either. Neither did he believe it was fair to harass the victuallers by compelling them to pay double fees, when the difference was one between the two Governments. The resolutions might have been so drawn as not to abate one jot or tittle of our rights, but they were intentionally framed to make political capital against the Dominion Government. He moved in amendment:—

That all the words in the motion be struck out after the word "that" and the following substituted, "Inasmuch as the House is of opinion that the right to regulate the liquor traffic by license laws belongs, under the British North America Act, exclusively to the Legislature of the Province, it is not expedient to settle a scale of duties under the Dominion License Act of 1883, which this House believes to be beyond the jurisdiction of the Dominion Parliament."

Mr. MOWAT accused Mr. Meredith of insincerity in moving his amendment in a manner to involve want of confidence in the Government.

Mr. MEREDITH offered to withdraw his motion after the word "that" and the following substituted, "Inasmuch as the House is of opinion that the right to regulate the liquor traffic by license laws belongs, under the British North America Act, exclusively to the Legislature of the Province, it is not expedient to settle a scale of duties under the Dominion License Act of 1883, which this House believes to be beyond the jurisdiction of the Dominion Parliament."

Mr. MOWAT at once backed down and declined this offer. He made a great deal of the difference between the views of Mr. Meredith on the one hand, and Sir John Macdonald and the Mail on the other. He argued that the Privy Council decision supported the Provincial view. A larger license fee would be necessary if the Dominion act was sustained, and there would be fewer licenses, and they needed the revenue. On Feb. 16 they had proposed to the Dominion authorities not to enforce their act till after a decision by the highest court, promising to have a case immediately, but the only answer was an acknowledgment of receipt. He protested that their communications with the Dominion Government were friendly except in two or three instances. In this case it was not their duty to facilitate the action of the Dominion Government, and if there were any means by which they could render it difficult or impossible for the Dominion to carry out their policy it was their duty to adopt them.

The amendment was negatived by 46 to 33, and the original motion was carried by 46 to 33. Mr. Hart voting on both occasions with the opposition and Mr. Nelson with the Government.

IN COMMITTEE.
The House then went into committee of the whole and Mr. Hardy moved his first resolution.

Mr. FRASER taunted the Opposition with the probable criticism of the Mail.

Mr. MEREDITH said the Mail had a right to its own view, and the members of that House to theirs. He asked if the second license fee would be refunded when the question of jurisdiction was settled.

Mr. HARDY declined to discuss that point now.

The resolution was passed and reported, when they were carried in the House.

INCREASED LICENSE FEES.
After recess the House again went into Committee on the second resolution increasing the fee on Provincial licenses.

Mr. MEREDITH said this was not a step to promote temperance by diminishing the number of licenses, but it was simply an attempt to increase their revenue at the expense of the municipalities. There was a strong feeling in favour of the whole fees going to the municipalities.

Mr. HARDY admitted that they wished to raise more money.

Mr. MEREDITH suggested that if they had a surplus they should not need the money.

Mr. ROSS (Huron) said the dealers could bear the higher license, but if it decreased their number so much the better.

Mr. MEREDITH warned the Government against making the legislation unpopular with the temperance people.

Mr. CARLETON said with a boasted surplus of four millions they should not want \$100,000 additional revenue, and if they only aimed at promoting temperance they should give any increase to the municipalities. The Peterborough town council had expressed the opinion that the whole of the license fund, less the expenses, should go to the municipalities.

Mr. ROSS (West Middlesex) favored higher licenses. He claimed that the Province had taken burdens from the municipalities, and therefore should have these fees. The excellence of the Crooks Act was shown by the adoption of its salient features in the McCarthy Act.

Mr. MEREDITH said the Government had increased, not diminished, the municipal burdens. They had made bad appointments of political officials, as, for instance, Mr. Jarvis in Middlesex.

Mr. HARDY claimed that this was a solitary instance.

Mr. CARLETON showed that the valuable portions of the Crooks Act were taken from the previous act. He gave other instances of inefficient and partisan license officials.

Mr. CARLETON spoke of the partial working of the act in Peterborough, including threats to a Conservative commissioner. The inspectors had not done their duty, as was admitted by the Mayor, a strong supporter of the Government. He also instanced Farnell Falls, where the clergyman had protested against the systematic violation of the Sabbath.

Mr. FRASER made some abusive and unfounded remarks, and said that if the Crooks Act officials interfered in elections, the McCarthy Act officials would do the same.

There was some further discussion on this subject.

Mr. FRASER, in reply to Mr. Robillard, said the Government would protect those who only took Provincial licenses.

Some members objected to the bar in the refreshment rooms.

SECOND READINGS.
The Notorious Woods Act and the Egress from Public Buildings Act received their second readings.

A DEFEAT FOR MR. MOWAT.
Mr. MOWAT was in a very indecent hurry to hasten on the election of a member for South Oxford in the place of Mr. Crooks, but he was not gained much by these tactics. His nominee and the regular Reform candidate, Mr. Noron, has been beaten by a majority of more than a hundred, Mr. Cook, an independent Reform, being elected. This shows that even in such a staunch Reform constituency as South Oxford there are many electors who, though Reformers, are heartily tired of Mr. Mowat and his sham variety of Reform.

Anonymous Letters.
The Government received an anonymous letter urging that a license should not be given Mr. Bradley, a hotel keeper of Port Hope.

The suggestions of the letter were acted upon, and the license refused. When asked to give their reasons for ordering a refusal of the license, members of the Government say it is not proper to bring down an anonymous letter. They acted upon it to the injury of an honest man, but they have considerable scruples about letting it be seen. A White Rainbow.
Among the remarkable celestial effects of last November may be reckoned the appearance of a white rainbow, or *cirrus albus* seen at Court-croix, (Loiret), France, on the morning of the 26th of that month. This phenomenon is very rare, and is described by M. Cornu, the well-known astronomer, in a note to the French Academy of Sciences. The sun, which rose in the midst of the level streaks of cloud was very pale; an intense hoar frost covered the fields; a fog of very fine water drops formed a thin veil through which the sky could be seen free of clouds at the zenith, but washed in bands of cloud on the zenith. Opposite the sun a great white arc or rainbow without color was pictured on the fog, and recalled the smoke crown of phosphoreted hydrogen. The apparent height from the summit of the arch to the horizon was 33 deg. 25 min., the apparent amplitude or span 80 deg. The apparent altitude of the sun at the time (8.41 A. M., Paris time) was 17 deg. 34 min.—Engineering.

THE STREAMS BILL.

Mr. MOWAT and his colleagues have given another evidence that their course has been wrong and that the criticisms of the Conservative have been well founded. In re-introducing the disallowed Streams Bill they have "backed down" as to one of its objectionable features, by leaving the compensation to be fixed by the Courts instead of by the Ministers themselves. This is a plain acknowledgment that our contention as to the propriety of Mr. Mowat's confining the property of political opponents, with such insufficient compensation as he might be pleased to dole out, was well founded. There is, however, another fatal defect in the revised measure. Mr. Mowat still asserts that the law is, and always has been, such as our Courts declare it (it is not and has not been). At this very moment there is an appeal pending in the Privy Council to test this question finally at rest. And yet Mr. Mowat asks his supporters to accept his interpretation of the law as overriding that of the great majority of our Canadian judges who have pronounced upon it, and most probably that of the highest court of the realm.

Of course if the bill should pass the Legislature a fresh disavowal can be its only fate.

EXCHANGE ADMITTED.

Quite apart from the question of jurisdiction, the Reformers both in and out of the Provincial and Dominion Legislatures, have been in the habit of raging against the McCarthy Act as a monstrous piece of legislation, some even going so far as to assert that it was framed in the interests of the liquor trade. That such is not the real opinion of Messrs. Hardy, Mowat and their colleagues, or at least that they have been sharp enough to gauge public opinion in this matter, is now abundantly proved. In the bill introduced by Mr. Hardy "to improve the Liquor License Laws," we have clauses after clauses appropriated bodily from the Dominion Act. That the source of these appropriations has been duly acknowledged, the fact that they are taken from the Dominion Act being stated in each case, is evidence that the framers of this Provincial measure think that it would redound to their credit to assimilate our law to the Dominion Statute. Is not this a confession that the McCarthy Act (apart from the question of jurisdiction, which is a matter for the Courts to determine), is really an advance temperance legislation, though it has been so outrageously abused by those who now imitate it?

This is only a fresh proof of the value of "Reform" criticism of any act of the Macdonald Administration. The more excellent is any measure or administrative act of theirs, the fiercer is the outcry of the Reformers, for the greater is their dread of fresh laurels being gathered by their hated opponents, who are so secure in the favorable estimation of the people of Canada, grateful for their good government.

Special Agricultural Committee.

A select committee of the Dominion House of Commons has been formed for the purpose of collecting information on agricultural matters in the Dominion. The following circular has been issued:

Sir,—A special committee has been appointed by Parliament to consider what steps should be taken to place the Department of Agriculture in a position to better promote and encourage the agricultural industries of the country. The committee being anxious to become possessed of the advice and experience of men engaged in the culture of the soil, as well as those devoted to the study of sciences having a practical bearing on agriculture, begs to solicit your co-operation, and to request that you will express your views on those of the following questions with which your feel prepared to deal. Enclosed is a printed envelope for reply, which the committee would be pleased to receive as early a date as possible.

Yours, &c.,
G. A. GAGAUD,
Chairman of Committee.

Among the questions propounded are the following:

Would the importation of fruit trees and plants from Russia and other countries under climatic conditions similar to those of Canada, be of service to our fruit growers?

Would the establishment of an experimental farm or garden where varieties of foreign grain, fruit, trees, and fertilizers might be tested, and whence such seeds, plants, &c., might be distributed throughout the Dominion, be advisable?

Is there in your neighborhood sufficient standing timber to supply shade, fuel, and other domestic wants?

Have any steps been taken to maintain this supply, or to replant where it has failed?

Do you know of any attempts to introduce tree planting for timber purposes, what varieties and areas were planted, what were the conditions of the soil, what have been the results, and to what do you ascribe the success or failure of these attempts?

DOMINION PARLIAMENT.

THE SECOND SESSION OF THE FIFTH PARLIAMENT OF CANADA.

Office Without Emendations Not to Vacate a Member's Seat—Prorogation before Easter Expected—The Budget Debate Concluded—Speeches by Mr. Thomas White and Mr. Patterson of Brant.

SIR C. TUPPER'S POSITION.

Sir J. MACDONALD on Tuesday introduced a bill to amend the independence of Parliament Act. The first clause was that the seat of a member should not be voided by the acceptance of an office if his appointment provided that he should receive no salary, fee or emolument. The second clause to remove any doubt contained an indemnity to the Minister of Railways and Canada. It would be referred to the Election Committee.

Mr. BLAKE moved to amend the title by adding, "and to impair the efficiency of the said Independence of Parliament Act."

The amendment was defeated by 101 to 55, and the first reading was carried.

GOVERNMENT BONUSES.

Sir J. MACDONALD moved to give Government bonuses precedence on Thursday.

Mr. BLAKE opposed the resumption of private members' days.

Sir J. MACDONALD said private members would still have Mondays and Wednesdays. Prorogation could not take place before Easter, as was wished, unless steps were adopted.

The motion was carried.

THE BUDGET.

Mr. THOS. WHITE (Cardwell) resumed the Budget debate, replying to Sir R. Cartwright, whose extravagant assertions he condemned. He also censured his insult to the people of Canada in accusing them of want of political morality because they could not agree with him. He showed the absurdity of Sir Richard's statement that he was legislated out of Parliament. In complaining of high taxation he had not mentioned that a large part of the revenue came from land sales, receipts from railways, postoffice, etc., and could not fairly be called taxation. So the statement that bankruptcies had increased was unfair because they were absolutely fewer than before the National Policy, and much less relatively to the number of traders. The statement of commercial depression was also exaggerated, for the businessmen, the bankers, and even the State admitted that our position and the outlook were favourable. Sir Richard now claimed that deposits in the savings banks were not a good sign, though when in England borrowing money he claimed them as an evidence of our prosperity. Nor did this increase in the savings banks mean a decrease in the chartered banks, for since 1879 the deposits in them had also increased \$35,000,000. It was also said that there was a drain of capital from the country, and even the State admitted that our position and the outlook were favourable. It was also said that there was a drain of capital from the country, and even the State admitted that our position and the outlook were favourable.

Even in free trade England there was far more distress, as he proved from English papers. In that country many of their industries were in a very bad condition which was not the case with us. As Sir R. Cartwright's assertion that the National Policy had favoured our trade with the States at the expense of that with Great Britain it was most fallacious. By taking the year 1873 for a comparison the finance minister had concealed the truth that from 1873 to 1878 imports from the States had increased by \$1,100,000 while in the same period our imports from Great Britain had decreased by \$31,001,000. That was while gentlemanly opponents were in office and that was the result of their policy. Under the present administration the imports from Great Britain had largely increased, and those from the States very little. Thus as to the adverse balance of trade, no allowance was made for our increased imports of raw material, rail, machinery, &c. As to our debt under the former conservative government it had only increased by \$4,000,000 a year under the Reform government by \$7,000,000 a year, and the present government only \$3,000,000 a year. And the interest, the true measure of the burden, was actually decreased in amount. He proceeded to demolish many Reform fallacies as to pretended increased taxes, credit, and the like, and showed that the Reformers had not reduced our expenditure for that purpose. He actually complained of the present settlement of the Northwest not being rapid enough. Having grounded before at a large surplus, he now ground at the fact of a smaller one, and ignored the remission of taxes. The prosperity of the country he attributed entirely to good harvests. He maintained the paradox, in defiance of facts, that the National Policy had made manufactured goods dearer and manufacturers poorer. He explained away some of his old advocacy of protection, and entered into an elaborate consideration of the effect of the tariff upon cigars. He disputed the fact of a vast larger number of hands being employed in factories. Then he dealt with the subject of prices, and urged that sugar should be still cheaper. As to cottons, he showed that the manufacturers were making a profit of 30 per cent, which these gentlemen would not doubt be glad to see. The millers, he urged, were not protected, and he admitted that the wheat duty was benefiting the farmers this year. He made a sort of half and half apology (certainly much needed) for Sir R. Cartwright for his insult in saying that the public morality of the people of Canada was painfully low, by attributing this result to bad example. He admitted that elections of Reformers had not always been pure, but claimed that they were better than Conservative ones. He complimented the French press on repudiating the slander (started by the Globe) upon Mr. Blake.

This closed the Budget debate, and the House went into Committee of the Whole passed the Motion on the free list.

Results Tell.

The proof of the pudding is the eating, and the proof of the extraordinary power over pain of Polson's Nervine is in using it. Polson's Nervine does indeed wonder in every case of pain. It cannot fail, for it is composed of powerful pain subduing remedies. It goes right to the bottom, and relieves the cause of the pain. It cures all kinds of pain, internal or external. Go to Ormond & Walsh's drug store and get a bottle, and be bold and be delighted by its promptitude in doing its work. At Ormond & Walsh's.

DANGER TRAPS.—Neglecting colds are the fatal traps that ensnare many a victim before possibility of rescue. Take a cold or cough at this time and it is easily conquered by that safe and pleasant vegetable remedy, Hagar's Pectoral Balsam. Asthma, Bronchitis and pneumonia complications generally soon yield to its healing influence.

THE GRAND CENTRAL HOTEL.

Improvements Made in this Well-Known and Popular House.

The house now known by the name of the Grand Central Hotel is rapidly becoming patronized by the travelling public. It was formerly called the Cairns House, but since the Messrs. Daly Bros. took possession many improvements have been made, and it was renamed with the title which heads this article.

In the hall the walls have been painted a handsome pea-green, and the woodwork grained in oak. The dining-room, which is a large apartment, and, like all the others, has high ceilings, has also been benefited by the artistic brush of the painter. The walls have been embellished in coatings of pearl grey paint, and pannelled, and the woodwork grained in light oak and French walnut. The finish on the doors is very fine.

In the office and reading room of the hotel the change is very marked. A new hard wood floor has been laid in it, the walls have been covered with embossed gold paper and wood grained in dark walnut. The effect is to make the office appear bright and comfortable. In the rear of the office a washroom has been neatly fitted up.

New doors, covered with red serge and having blue lights, have been put in the bar-room, and that room has also been papered with rich paper and the woodwork painted and varnished. A hardwood floor has been laid in it and a new counter, twenty-one feet long, has also been put in.

The billiard room and the sitting room in the rear of the bar have also been handsomely treated with new paper and paint.

The kitchen has received new floors, and has been plastered and re-painted. The rooms in the second and third stories have not been neglected, for there is abundant evidence that many of them have been visited by Mr. W. M. Green, the painter, as they look bright with new wall coverings, &c. Blinds have been hung on many windows, and all the window blinds in the house have been repainted.

In addition to all this, new furniture has been introduced into the house. Mr. W. M. Green, who had charge of the painting and decorations, has done this work in a most satisfactory and workmanlike manner, and has proved by the manner in which he executed his commission in this house that he can do excellent work.

Mr. J. D. Baple had charge of the woodwork that was done.

The improvements contemplated in the Grand Central Hotel are not yet completed, as the weather is not favorable for portions of the work. In the spring further improvements will be made in the second and third stories, and a new building will be erected for sample rooms and other purposes. The work so far done has increased the value of the house considerably, and when the improvements are completed it will be like a new house. The Messrs. Daly are doing a good and increasing business, and the house is now being better patronized than it has ever been since the block was erected.

Prompt Action.

This is just what every sufferer wants—prompt action and rapid relief from pain. The greatest discovery of the age, "the great pain cure," Polson's Nervine—put it on your shelf, and you will find it useful. HOW PHIPPS ESCAPED.

Ingenious Criminals—A Woman's Stays Supplies The Tools.

A reporter of the Detroit Free Press visited Phipps, the wife murderer, in jail at Chicago, and obtained from him the following story of his daring escape from the jail at Sandwich:

"Both Greenwood and myself talked over the escape and made the plan. The plan was his, mainly, although I helped to execute it. To commence with, we had only a box of blacking and a piece of soap. They were not of much account in cutting iron bars, but without them we would have been discovered. The cutting was tedious work. We thought of doing something with the tin box, but it was useless. Then one of the prisoners sent in for being drunk had an old knife, and that was also tried, but proved no good. If it hadn't been for a woman, we would probably have never escaped. The woman's name was Kate. She was in for being drunk, I think, and she helped in the kitchen of the jail. This is how Greenwood got to speak with her. He told her in advance, and she took all the strings out of her corsets tore her corsets into strips and with the steel lengths down from the window, and by putting her hands out between the bars we got them one by one. The work was tedious, but the complete. With the knife we needed the steel and made saws of them. They were very soft and had often to be renewed. Greenwood did most of the cutting. It was hard work, and as I was feeling ill at the time, I did not help much. I stood beside him and held up a paper, spread out, as if I were reading. When the guard came looking out the window. Before the time for locking up came we filled the box with sawdust. Iron bars with soap, and then blackened it with the blacking. It was then next to impossible to discover our work.

The bar was sawed through just about fifteen minutes before closing up time. It was close work I tell you. Greenwood pulled the bars until it was free of the other part and then I lifted it out of the masonry. He was to go first, I next and the other man last. We broke the legs off a bench and sent the bench out through the hole. Then Greenwood crawled through. I followed, and then came the other man. I was nearly dead when I squeezed through."

"Did you intimidate the other prisoners?" No. They promised not to give the alarm. There was a pile of wood by the jail wall. The log bench was placed on this at an angle of forty-five. I was so weak that I could not climb so Greenwood left me and so did the other fellows. At last I managed to get on the top of the wall and then I faintly dead. When I came to I found I had rolled off the wall on to a heap of sawdust. There was no sign of Greenwood and I wandered away into the woods. I came to a cemetery and hid in a grave. I had only met one man and he did not see me. I got over a fence and lay flat till he went by. In the cemetery I lay down among the graves and either slept or dozed away. It was far on in the night when I again tried to find my way to the river. I was completely tired. Everybody in Sandwich seemed to be in bed, and after walking about four hours or so I was started to find myself in front of the jail again. I walked down to the sulphur springs and then through the marsh about three miles below. Here I came to a locked boat house, and tried to wrench off a board, but was not able. Then I undressed and went into the water, getting under the boat house. As there was no boat inside, I dressed again. I walked along the river edge for about half a mile when I came upon a leaning boat without oars. It was now daybreak, and when I went up to get a fence board for the boat, I saw a farmer coming in his wagon. I hid till he was past, and then got aboard, paddling with the board, now on this side and now on that. I made little progress, and it was at Ecorse I landed wet and cold."

TORONTO NEWS.

FREEDOM SACRIFICED FOR WARME.—Four tramps marched into the Wilton avenue police station the other night stating that they were warants and preferred spending a few weeks in jail to seeking room in the cold. They were locked up.

MAINED FOR LIFE.—An accident of a painful nature happened on Tuesday morning to Thomas Danahy, an employee at Bryce's planing factory. While working at a circular saw he accidentally passed his left hand over the teeth, and it was instantly severed from the arm a short distance above the wrist.

THE POLICE TROOP-WAR.—A general meeting of the police was held on Tuesday afternoon in the library at the Central police station to discuss the tug-of-war with the Buffalo police, which is to take place at the Toronto Picnic Club's annual at-home in the Grand Opera House on the evening of March 31st.

FANCY DRESS CARNIVAL.—A grand fancy dress carnival was held in Adelaide street skating rink on Tuesday night. The rink was crowded, and the scene presented under the electric light was both novel and interesting. Over two hundred skaters were in costume.

SEMI-CENTENNIAL OF THE CITY.—The following is the official programme for to-day's celebration: 11 to 12 a. m.—Ringing of city bells. Noon—Salute of fifty guns, to be fired by Major Gray's Battery, on the foot of West Main street. 3 p. m.—A formal opening of the Public Library by his Honour the Lieutenant-Governor, and address by Dr. Daniel Wilson. 7.30 p. m.—Public Library will be thrown open for inspection by the public; band of the Royal Grenadier Guard will be in attendance. 8 p. m.—Reception by the Mayor at the City Hall, and presentation of address to the Mayor by Citizens' Semi-Centennial Committee; band of Queen's Own Rifles in attendance.

SURPRISED IN THE SNOW.—On Friday last Mr. J. Rank, of the third concession of the township of Vaughan, while opposite his own place on his way to Toronto came up to a team of horses attached to an overturned sleigh. The horses were shivering with the cold, and the thick layer of snow which covered the sleigh showed that they had been there at least all night. The overturned sleigh was at once righted, when it was found that it had been laden with grain. Battered with the hay in the snow lay the dead body of the driver, Mr. James Johnston. It appears that he had left for the city on Thursday, and the sleigh had been overturned in a snowbank, burying and smothering Johnston in the snow. He was a young man, and a resident of the township.

Rival Telegraphs.

The Great Northwestern is not going to hold a monopoly of the telegraph business. Gradually another great system is erecting its wires over the country, and it will eventually form a rival system. The main line of the Canadian Pacific, by the building of the Ontario and Quebec to Toronto, it will be opened in two months, we shall have opposition wires to Ottawa and Montreal. The Canadian Pacific owns the wires on its own line, and gradually taking over the wires of its lesser lines. It is also disposed to make connections with opposition lines in the United States.

It looks just now as if the Grand Trunk railway and the Great Northwestern telegraph companies would be forced to work together, against the Canadian Pacific Railway and its telegraph system. The latter is bound to be independent of the Great Northwestern.—Toronto World.

TREES FOR COLD CLIMATES.

The special committee of the House of Commons on agricultural industries met on Friday morning, Mr. Gignault in the chair, when Mr. Charles Gibb, of Abbotsford, P. Q., was examined. Mr. Gibb has travelled in Great Britain, Germany, Russia and other European countries, making particular observations regarding their horticulture, and he is also the author of a pamphlet entitled "Fruits of the Cold North; a report on Russian fruits, etc." In his opinion the great obstacle to the introduction of fruits into the Northwest was the coldness of the climate, and in Manitoba at least the conditions of the sub-soil. The country was such a vast one that there were totally different soils and climates in different parts of it, and a soil which might thrive well at Medicine Hat might not grow at all in Winnipeg. He thought the Government should encourage the horticulture of the country in the way it was encouraged by the Governments of Germany and Russia, viz., by the establishment of experimental farms or gardens, with a view to testing the kinds of trees which would best suit the different localities and by distributing those most suitable throughout the various localities. Southern trees would not thrive well in northern climate, but there was good reason for believing that the trees which thrive well in Germany and Russia would thrive well here. These trees should be imported, tested in the experimental grounds, and sold to the people of the north. At first prices of quick and easy growth should be tried. Of the non-fruit bearing trees required in the North-West, it would be well at first to import the white willow, the white silver poplar, the white ash, the Norway spruce and other hardy and rapid growing varieties. For the northwest the question was to obtain trees which would mature as soon as possible. Throughout Europe, forestry was looked upon as a subject of great importance. The Government of Russia owned and managed over 200,000 forest stations, and there are numerous plantations of fruit trees under the control of the Government of Russia, Germany and other European countries. While in Russia Mr. Gibb spent about three months in what are known as among the coldest habitable regions of the earth, and he found there fruits which flourished. At points in which the temperature ranged considerably lower than it does in Canada, he found excellent fruit in apples and pears and cherries in great quantities, and the trees which produced this fruit were suited to the climate and need no special care, and there was no reason to doubt that if transplanted in this country they would prove equally vigorous and plentiful. They should be imported here in quantities! In Germany all the school teachers were required to know something about horticulture. Each teacher was provided with a little plot of land in which he was expected to impart instruction, in a practical way, to his pupils. Botanic gardens were established in all parts of the world; and have been the means of advancing the horticulture, not only of Europe and Asia, but of Australia, the East and West Indies, Iowa, Minnesota, etc. Our lack was not so much a lack in culture as it was of the varieties of fruit suited to our climate—varieties which we can grow to a profit. If we had an experimental garden or plantation, we could import from Russia and Northern China the varieties we required, we could test and propagate them here, and they could be distributed to the people of the Northwest. In Iowa there were eight or ten of these experimental gardens, and in Minnesota as many more. Ottawa would be a very good place for a central garden of this kind; and smaller ones might be established in different directions throughout the country. Ten acres would at first be sufficient for the proposed garden; but he (Mr. Gibb) would like to have another ten acres alongside to be made available at pleasure. Of course they should be under the control of practical horticulturists and not in the hands of politicians. Well managed, they would afford the means we so much needed of introducing new, suitable and improved varieties of fruit trees into the country. In conclusion, Mr. Gibb said that he would be glad to distribute handbooks throughout the country; and spoke of the hardy varieties of excellent wheat he saw in Russia, which he thought should be imported into and tested in Canada. He also referred to the success with which the Russians cultivated the sugar beet, and said that almost all the sugar used in Russia was the product of the beet.

The Greatest Healing Compound
Is a preparation of carbolic acid, vasoline and cerate called **Mohr's** & **Parker's Carbolic Cerate**. It will cure any sore, cut, burn or blister, then all other preparations fail. Call at John McKee's Drug Store, and get a package. Twenty-five cents is all it costs.

Field Lightning
Is the only instantaneous relief for Neuralgia, Headache, Toothache, etc. Rubbing a few drops of this oil on the affected part, or on the nape of the neck, or on the forehead, will cure in a few minutes. Twenty-five cents per bottle at John McKee's Drug Store.

Huckley's Arnica Salve
The best salve in the world for cuts, bruises, sore, chapped, salt rheum, frost bites, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per bottle at John McKee's Drug Store.

Excited Thousands.
All over the land are going into ecstacy Dr. King's New Discovery for consumption. Their unlooked for recovery by the timely use of this great life saving remedy causes them to go nearly wild in its praise. It is guaranteed to positively cure severe Coughs, Colds, Asthma, Hay Fever, Bronchitis, Hoarseness, Loss of Voice, any affection of the Throat and Lungs. Trial bottles free at Taylor & Macdonald's Drug Store. Regular size \$1.00.

Oh, What a Cough!
Will you heed the warning? The signal perhaps of the approach of that more terrible disease Consumption. Ask yourself, if you can afford for the sake of saving 50 cts., to run the risk and do nothing for it. We know from experience that **Bullock's Cure** will cure your cough. It never fails. This explains why more than a million bottles were sold the past year. It relieves cough or whooping cough at once. Mothers, do not be without it. For same back, side or chest use Shiloh's porous plaster. Sold by J. D. Tully.

Our Canadian Industry
is prosperous. The great difficulty to be overcome in the low grade of goods required. In nothing is this more apparent than in the comparatively small article of sewing silks. The great demand in Canada seems to be for a cheap quality, buyers forgetting that a cheap thread must necessarily be a fine and consequently a weak one. **Bullock's** sewing thread is made of three grades of spool silk; of these different qualities the poorest one has by far the largest sale, at the same time they constantly hear of complaints of poor sewing silk. If ladies will take the trouble to ask for **Bullock's**, Paul & Co.'s brand, and use their names to the end of each spool, they will be sure of getting the best made.

Advice to Mothers.
Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of **Mrs. Winslow's Soothing Syrup** for children teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures whooping cough, softens the gums, reduces inflammation, and gives tone and energy to the whole system. **Mrs. Winslow's Soothing Syrup** for children teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

TENACIOUS!

Many customers cling tenaciously to the idea that it is to early to offer New Goods, and that they are apt to be much handled and shop-worn before being disposed of. Such is not our experience.

We find that customers are keen to select and buy from early arrivals in preference to purchasing after the stock has been picked over. We offer—

White and Colored Silk Scarfs
White Frillings,
Cream Frillings and Embroideries
Gimp, Mantle Ornaments
and Frogs.

New Prints, Oretones, Table Covers,

POLICE COURT.

THURSDAY, March 6.—Mr. James Stephenson
J. P., presided on the bench this morning.
DISTURBING THE SAVED ARMY.
Thos. Parrell was charged by Chief Johnston
with having wilfully disturbed an assembly of
persons who had met for religious worship on
Wednesday evening. He was remanded until
Friday morning.

Good Ice.

The ice will be in splendid condition for
skating at the Grand Carnival to-morrow
evening.

A New Feature.

T. H. Gemmell, of the Star Restaurant, will
supply tea, coffee, and all kinds of refreshments,
(except a specialty), at the Grand Carnival to-
morrow, Friday evening. The snack room at
the rink will be beautifully decorated and com-
fortably heated.

Appreciated Abroad.

Mr. Richard Hall received two large loads of
wheat at his grist mill for a grist from near
Lindsay, which speaks volumes for the flour
turned out at this mill on account of coming
from near one of the best equipped roller mills
in this Province.

The Probabilities.

The weather probabilities for this district for
the following twenty-four hours, commencing from
one o'clock this morning, as reported from the
Toronto Observatory, are as follows:—
North and north-west winds; fair to cloudy
weather, with low temperatures.

Better Still.

In our daily issue of Wednesday we clipped
an item from the Fenelon Falls Gazette, stating
that Mr. W. H. Simpson had sold a team of
horses at Montreal for \$350. Mr. Simpson,
who is in town for the races, informs us that
our contemporary made a typographical error,
as the amount received for the team was \$350.

Our License Inspectors.

Mr. Fraser, in his usual bullying manner,
ventured to express a doubt as to the accuracy
of the statement of the member for West Peter-
borough, that our Mayor had said in council
that the License Inspectors had not done their
duty. The report of the Times agrees with that
of the Review in this matter, and the Council-
lors and many of our townsmen who were pre-
sent are well aware that Mr. Cox's statement
was even stronger than was shown in our nec-
essarily condensed report.

New Spring Goods.

The choicest display of New Spring Prints,
Sateens and Dress Goods are to be seen at W.
Fairweather & Co's. What surprises every
body in their Colored Dress Cashmeres at 20c., a
marvel of cheapness. The stock contains the
richest Silks, Velvets, Broadens, Evening Dress
Silks and Satins from 25c. to \$1.00. Dress
Goods from 10c. up. Prices are lower than
ever known in the trade here. W. Fairweather
& Co. guarantee everything they advertise.

China Hall.

Mr. Macfarlane Wilson, the proprietor of the
China Hall, and Silver Bazaar, has won for his
establishment a wide reputation for low prices,
but his clearing sale which begins on March 6th,
will electrify the public with astonishment at
the lowness of the prices that will prevail, till
his present immense stock is cleared out to
make room for extensive spring importations.
Now is the time for the public to secure bargains
hitherto unknown to the annals of the creaky,
glassware and silverware trade. Don't miss such
a grand chance.

SAVED ARMY TRUMPET.

A CALL TO ARMS SOUNDED IN THE PETER-
BOROUGH OPERA HOUSE.

A Large Attendance at the First Meeting—
"We want to do you Good"—An Inter-
esting Service.

The Saved Army held their first meeting in
Peterborough in the Opera House on Wednes-
day evening. The doors were opened early and
the hall began to be filled shortly after seven
o'clock. At about half past seven the Army
officers came down George street singing "Way
Over Jordan," and after they entered the hall
they finished the hymn on the stage. The hall
then very rapidly filled up, and it was soon
crowded from the stage to the door and in the
gallery. There were a number of ladies in the
front seats, and after the prayer meetings were
over in the churches a couple of ministers and
other church members dropped in.

There were four officers of the Army present,
namely, General Lindsay, Lieut. Mont, Lieut.
Willis (wife of Capt. Willis), and Lieut. White,
a young lady from Port Hope. Lieut. Willis
led in the singing.

Gen. LINDSEY asked the audience to give
them good attention, and then they might be
benefitted. The Army wanted to do them good;
they wanted to show them Jesus and his love.
He invited any Christians who wished to help
them to come on the platform, or if they did
not care not to do that, at least to assist them where
they were. He announced that meetings would
be held on every night that they could secure
the hall.

"Now I can Read my Title Clear," was
sung, the audience joining in the singing. A
boy belonging to the Army passed through the
hall selling copies of the Saved Army Trumpet.
When they came to the last verse of the hymn
the officers knelt on the stage and sang it.
Lieut. Willis then led in prayer, and some time
was spent in singing and prayer. A collection
was then taken up to defray expenses.

Gen. LINDSEY explained that the Army was
a band of soldiers working for Jesus, and they
wished to carry on the work in harmony with
all denominations. He again invited all minis-
ters and Christians to take part in the service.
They would arrange their meetings so as to in-
terfere with the regular church services as little
as possible. They always advised their soldiers
to unite with some church, but they did not
compel them to do so. A good work had been
done in Cobourg and Port Hope, and in the
latter place the Army numbered nearly 400.

After another hymn was sung, Lieut. Mont
read a portion of Scripture, making comments
as he did so. He appeared to speak with in-
tense earnestness, and addressed some words
especially to the boys.

Lieut. Willis then sang a hymn alone, "A
New Song in my Mouth." She has a clear and
loud voice, but it is somewhat shrill. However,
after listening to a verse or two the shrillness is
not noticed and her voice becomes pleasing.

Gen. LINDSEY then invited any one to relate
their experience. In doing so he delivered an
exhortation to the unconverted. The general
speaks calmly and conducted the meeting
throughout with good judgment.

Lieut. WHITE then related her experience.
The platform appeared to be new to her, but
she spoke quietly and was listened to atten-
tively.

Lieut. WILLIS followed. After referring to
her experience she addressed the unconverted.
Her remarks were sensible, practical and
pointed, and were delivered with a quiet ear-
nestness.

The boy who had been selling the Trumpet
briefly related his experience, and Lieut. Mont
told a story regarding a boy in Cobourg who
had been converted, and he read some poetry
the boy had written before he died.

Gen. LINDSEY then engaged in prayer, and
the lieutenants left the stage and moved
among the audience, speaking to persons in
the seats.

The Rev. T. BONE, the "Wallad Canal
Missionary," delivered an address. He re-
marked that he belonged to a different branch
of the service, the "Saved Navy."

A prayer meeting followed, interspersed with
singing. All the officers and two other gentle-
men engaged in prayer, and the meeting was
concluded by the doxology being sung, and the
Rev. T. Bone pronouncing the benediction.

NOTES.

Two boys in the rear of the hall engaged in a
Satanic encounter just before the service began,
and were taken out by the caretaker of the hall.
One young man, who was intoxicated, and
disturbed the meeting, was taken out by Chief
Johnston.

When a hymn with a lively tune, "We shall
be happy Lord," was being sung, some boys
began to keep time with their feet, but they
were silenced by General Lindsay.

The officers of the Army expressed themselves
as being well satisfied with the meeting, and
believe that they will succeed in doing much good
here. They do not object to the use of in-
strumental music at their meetings, but they do
not use the tambourine or drum, like the Sal-
vation Army.

Another meeting will be held in the Opera
House to-night. Two more officers of the Army
are expected to be present.

CURLIANA.

A Match Between the Peterborough and
Cobourg Clubs—Peterborough Wins.

A curling match was played on the Rink here
between the Cobourg and Peterborough clubs,
on Wednesday afternoon and evening, resulting
in a victory for the home club by ten points.
The Cobourg curlers arrived on the 4.40 p.m.
train from Port Hope, and after dining with
the Peterborough players at the Oriental Hotel,
proceeded to the rink. The match was an in-
teresting one, as much good playing was exhib-
ited on both sides. The victory is a creditable
one for the Peterborough players, as the
Cobourg club was looked upon as about the
best in the district, they having carried off the
honors at Montreal this winter. Coffee and
refreshments were served in the Club Room at
the rink during the evening, as the match was
not concluded until about 10 o'clock. The score
was as follows:—

COBOURG.		PETERBOROUGH.	
Rink No. One.	R. S. Davidson,	Rink No. Two.	C. McGill,
E. Hargrave,	Adam Hall,	F. H. Panton,	McNeill,
C. McCallum,	W. G. Ferguson,	J. Kennedy,	G. Dunford,
J. S. Pratt,	J. Saunders, skip,	J. Salisbury, skip,	20 T. P. Aittrill, skip,
20 M. Millar, skip,	20	20	20
Majority for Peterborough, 10 shots.			

NOTES.

The Cobourg curlers departed on the 7.40
train for Lindsay this morning. They will play
in Lindsay to-day.

Two rinks of the Peterborough Club went to
Lakeside to-day to play a match with the club
of that village.

Grand Trunk Receipts.

The Grand Trunk Railway Company an-
nounces that the accounts for the half year end-
ing March 31st show that the seventy per
cent. net revenue accruing to the Grand Trunk
will permit the payment in full of the dividend
on first and second preference shares, and three
and a quarter per cent. per annum on the third
preference shares. The balance carried forward
was about \$1,000. The thirty per cent. of net
revenue accruing to the Great Western share capital covers the payment in
full of the dividends on preference and ordinary
stocks, leaving a balance of \$4,000 for the re-
duction of the deficit of the previous half year.

CRASHED BY THE CARE.—A little son of John
Spinks, Toronto, had his foot crushed by a G.
T.R. Express train some time ago. Two
doctors attended him without benefit, and am-
putation was proposed, but Hagyard's Yellow
Oil was tried, which gave prompt relief and
effected a speedy cure, even removing all stiff-
ness of the joint.

A DOUBLE BENEFIT.—James Moore, a promi-
nent resident of Leamington, writes that he
cured himself of Dracunculosis of a year's duration
by one bottle of Burdock Blood Bitters, and
two bottles cured his wife who had been for
years a sufferer from the disease. He con-
siderably recommends it to all suffering from
similar troubles.

PUPILS of a Boston school from twelve to fif-
teen years of age formed themselves into a

articles have been recovered, and the punish-
ment of the delinquents has been left to the
school authorities.

MRS. ELIZABETH MASON.—Dr. M. Rogvielle &
Co., Gentlemen.—Yours of last week to hand,
and reply to your inquiry I have much pleasure
in stating that from the first time of using the
syringe and the medicine I have improved
very much. The bronchitis has entirely left
me. I sleep well and have a good appetite. I
must also add, that coming to you as I did as a
last resort, the cure effected has been wonder-
ful. Gratefully yours,
Mrs. E. MASON.

SALE OF THE
TOWN PROPERTIES
OF THE
LATE DAVID CARLISLE.

In the High Court of Justice.
CHANCERY DIVISION.

Re CARLISLE Infants.

IN PURSUANCE of an order of this Court made in
this matter the 21st day of December last, there
will be sold by public auction, with the approbation
of C. A. Waller, Esq., Master, at his Chambers, in the
Town of Peterborough, on

Monday, the 17th Day of March

1894, at 2 o'clock in the afternoon, the following lands

PARCEL 1.

Part of Lot 4, North of McDonnell Street and East
of Water Street, in the said Town of Peterborough,
described as follows:—Commencing at the southeast
angle of the said Lot, thence northwesterly along the eastern
limit thereof ninety-six feet more or less to the
centre of the said Lot, thence westerly in a line parallel
with the northern limit thereof fifty-seven feet more
or less to the centre of the said Lot, thence southerly
in a line parallel with the eastern limit of the said Lot
to the southern limit thereof, thence easterly along the
said southern limit to the place of beginning. There
is erected upon this parcel a large and commodious
two-story house, veneered with white brick, with a stable
and wood shed, protected on the north by a brick fire-
wall. The house contains nine rooms, besides pantries
and closets. This property, which is a corner lot,
within five minutes walk of the Post Office, is at present
rented to Mr. Miller, Esq., whose tenancy thereof
shall be as follows, at the option of the purchaser:—
Either from year to year, commencing upon the 1st day
of October, 1894, at a rental of \$300 a year, or a
definite term of three and one-half years from 1st April
next, at a rental of \$20 for the first half year, and \$200 a
year for the remaining three years; in any case the
rent to be payable monthly or quarterly, at the pur-
chaser's option, the landlord to pay all rates and
taxes, and to be entitled to possession from the 1st
April next, subject to such tenancy.

PARCEL 2.

Parts of Lots 1 and 2, according to plan of subdivi-
sion of the South Half of Lot one, east of the Com-
munication Road, and of Lots 15 and 16, in the first
Concession of the Township of Smith, made by T. E.
Clement, P.L.S., and registered in the Registry Office
for the County of Peterborough, on the 14th day of
January, 1893, particularly described in the petition
filed in this matter, which description can be obtained
on application to the Vendor's Solicitors. These parts
together comprise the property occupied by the late
David Carlisle, as a homestead. On this parcel there
is erected a large two-story house, veneered with
white brick, containing six large rooms and one small
one, besides pantries and closets, heated by a hot air
furnace. There is also on the premises a stable and
wood shed. There is a good garden, planted with
young apple, pear and plum trees, and the usual small
fruits all in bearing.

These lands will be offered for sale in two parcels as
above described. If the bidding on Parcel 2, does not
reach the reserved bid the portion of Lot two, accord-
ing to said plan having a frontage of about 33 feet on
Benson Street, will be offered separately in one parcel
and the remainder of the land comprised in said parcel
two, in another parcel. There will be a reserved bid
on each parcel offered for sale.

TERMS OF SALE:—Ten per cent. of the pur-
chase money to be paid at the time of sale and the
remainder within thirty days thereafter, without in-
terest. Further particulars and conditions of sale may
be had on application to C. A. Waller, Esq., Master, or
to Messrs. Fournette & Roger, Vendor's Solicitors.
Dated the 18th day of February, A. D. 1894.
